VOL. IX. NO. 17

NORTHVILLE, MICHIGAN, FRIDAY NOVEMBER 1, 1929.

\$1.50 PER YEAR IN ADVANCE

DR. HASKELL HONORED BY ASSOCIATES

AGAIN ELECTED PRESIDENT OF MICHIGAN SOCIAL WORK ORGANIZATION

Dr. Robert E. Haskell, superintendent of the Wayne County Training School, has again been honored by being reelected president of the Michigan State Conference of Social Work at the annual convention held in Lansing last week. Dr. Haskell was first named to this important executive post at the convention of the organization held at Saginaw last year. He is not surprised that those who know of his standing in the social work of Michigan say the Dr. Haskell's position is regarded as one of the leading authorities of the country in this branch of scientific work.

At the conference just held Governor Green told those present something of the work being done in Michigan to take care of its mentally sick.

A power house now under construction at the Pontiac State Hospital will be in operation soon after the first of the year, the Governor said. The power house of the Traverse City State Hospital is being altered and within two weeks bids will be received on two new buildings, one for tubercular patients and the other for bedridden persons.

One of the buildings at the Newberry State Hospital is being remodeled and made fireproof. It is to be occupied by aged and infirm patients. A new power house is under construction at the Michigan Home and Training School at Lapeer. It will be in operation this winter, according to the Governor, and bids soon will be received for the construction of additional school buildings.

A residence for nurses and physicians is under construction at the State Asylum at Howell, and plans for an addition to the three-story wing erected last year are in preparation. At the Boys Vocational School at Lansing, a school building and auditorium is under way. A power house is being completed at the State Public School at Coldwater, and additional buildings are to be started in the spring. Bids will be received soon, the Governor added, on two new buildings for the Girls' Training School at Adrian. The main building of the Michigan Soldiers' home at Grand Rapids, is being constructed.

The Governor said that of the \$31,000,000 raised for state building purposes during the seven fiscal years ending June 30, 1928 only 27 per cent went to correctional institutions, hospitals and other institutions engaged in the work of social welfare. Educators and institutions got 67 per cent, penal institutions 18 per cent and State departments 8 per cent.

Of the \$23,500,000 appropriated by the 1929 Legislature for the four-year building program, he pointed out, approximately \$16,000,000 will go to mental hospitals.

MASONIC DANCE TO BE ON NOV. 22

The Fourth Annual Masonic Ball has been announced to take place on Friday evening Nov. 22 in the Northville high school gymnasium. Music will be furnished by Chick Miller's "Cavilers," a snappy dance orchestra of Detroit that comes very highly recommended by the dancing public as well as their many Northville friends.

This affair is one of the most colorful parties of the season and all Masons, as well as their relatives and friends, are cordially invited to attend. The several committees in charge of this affair have made plans for a very pleasant evening and the date being so close to Thanksgiving, a large crowd is expected to be present.

The music committee headed by Charles Johnson states that the orchestra starts the opening number at 9:00 and plays until 1:00. The decorations are going to be put up in the usual unique and delightful manner under the leadership of Robert Coolman. Refreshments will be served as only Fred Hedge and his able assistants can do at an affair of this kind. Fred being the chairman of this committee as in past years. D. J. Stark being in charge of the printing and invitation committee states that all the lodge members have been notified and informed that any of their friends, whether Masons or not are cordially invited to attend this annual frolic.

Tickets will be sold at \$2.00 per couple and spectators at 50c each. Refreshments will be served to spectators as well as dancers as usual without charge.

NEW STAMP IS ON

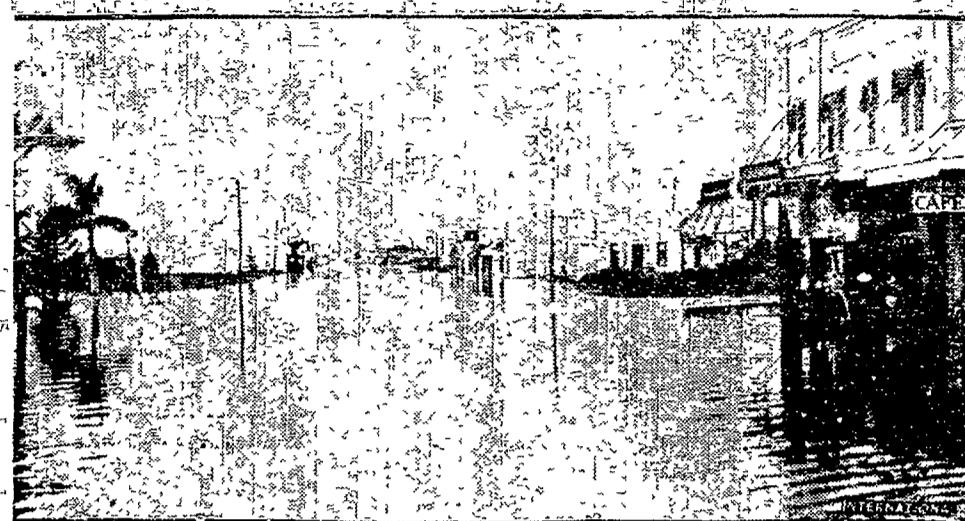

SALE HERE TODAY

Reports from the local post office state that a new commemorative stamp of two-cent denomination will be placed on sale today.

The stamp is called the Ohio River Canalization series and commemorates the completion of the Ohio river canalization project.

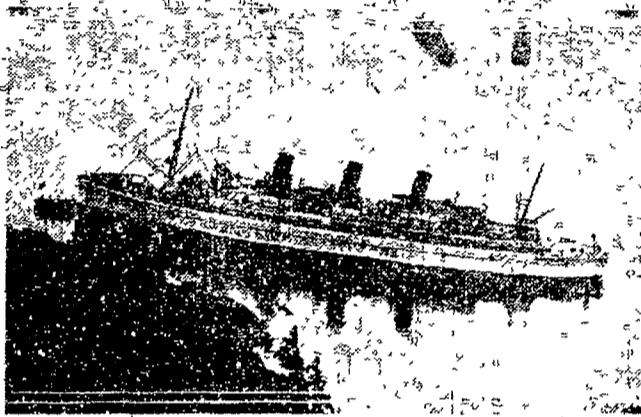

The supply of this particular stamp is very limited, and stamp collectors and historians, wishing any of these stamps should buy or notify the local postoffice at once.

TURN DOWN SITE NARROW ESCAPE FOR ASYLUM WEST FROM INJURIES IN A BAD CRASH OF NORTHVILLE

STATE OFFICIALS RATIFY THE SELECTION OF PLACE NEAR ANN ARBOR

Any hope that Northville had of securing the location of the new state hospital within the Northville area went glimmering Monday when the state administrative board put its O.K. upon the site selected by Governor Green about six miles southeast of Ann Arbor.

In fact nearly every place that has put forth any effort to secure the hospital, dropped their efforts some time ago when it became known that the Governor favored a site between Ann Arbor and Ypsilanti to the south. The site that will be purchased by the state will cost in the neighborhood of \$75,000 more than the one that had been recommended six miles west of Northville on the Seven mile road.

A Lansing dispatch says: Construction of a new state hospital to the lot on the northeast side of the highway.

Ann Arbor, will be started within a few weeks. Governor Fred W. Green announced today, after the administrative board had approved the site selected by a special committee. The tract consists of 1,260 acres and will cost \$179,400.

The chief executive said ground will be broken for the institution as soon as plans and specifications have been completed. He declared,

"The time will continue throughout the winter if weather permits."

More than a third of the \$24,000,000 appropriation passed by the last legislature for new buildings and rehabilitation of old is to be used for the new hospital if present plans are unchanged. The lawmakers made \$150,000 available

for use on the institution this year and \$2,000,000 additional next year. Another \$5,000,000 has been appropriated for the following two years but this sum may be cut or increased by the next legislature.

As previously announced, the site in York and Pittsfield townships of Washtenaw county, it comprises a number of farms close to U. S. 23 and two of these have farm houses as well as a number of barns can be utilized.

HUNTS ON REFUGE HE IS ARRESTED

A gunner whose hunting license bears the name of E. Taprino, residence Hamtramck, was arrested in the Nine Mile Road game refuge by a special officer, Charles Keller.

Taprino was caught in the act of shooting a pheasant on this protected land.

He was arraigned before the conservation officer and is being prosecuted by the department.

Special Officer Keller reports that although there were 197 gunners counted in this section on the first day of the pheasant season, there was little disposition to trespass on the refuges. There seems to be a better spirit of co-operation among all gunners this year.

Beginning today the We're Creamery adopts its winter schedule of milk delivery. From now until spring, deliveries will be made in the afternoon. Mr. We're wishes to call the attention of his patrons to this important change so that no one will be missed when the delivery is made today.

TO SAVE LEG OF BOY SHOT BY ACCIDENT

GILMAN PERRY IN GRACE HOSPITAL RECOVERING FROM SERIOUS WOUND

Northville's first hunting accident of the 1929 season took place late last Thursday afternoon, when Gilman Perry, 16 year old son of Henry Perry, one of the guards out at the Detroit House of Correction farm and who makes his home with Mr. and Mrs. Henry Hills out northwest of Northville, accidentally shot himself in the right leg just below the hip.

So serious was the injury that attending physicians at first feared that it would be necessary to amputate the leg, but it is now believed that they will be able to save it and that within a few weeks he will be out of Grace Hospital in Detroit where he was rushed in Schrader's ambulance after being found in the woods.

The young lad accompanied by Mr. Hill and another hunter went out late Thursday afternoon to hunt rabbits. After leaving the orchard near the Hill home the boy separated from the two other hunters and went down towards the woods and along the fence of the Hamilton farm.

He scared up a rabbit and in an effort to get a shot at it he cocked his gun and started to run around a tree which obstructed his view of the running rabbit. As he did so, he stumbled and the gun was thrown from his hands in such a way that it was discharged and the entire load of shot entered his right leg.

He lay on the ground nearly one hour and 45 minutes before being found. It sometimes had been his habit to stop at the Hamilton residence and when he did not come home immediately, the Hill family thought nothing of it. But with the passing of the supper hour Mr. Hill became worried about the boy's absence and with his hired man started out to search for him.

They found him almost immediately carried him to the house and called Dr. Holcomb from Northville, who ordered the boy taken directly to Grace Hospital.

The lad told Mr. Hill that he had been asleep a part of the time he was laying on the ground and did not seem to be in great pain.

News from the hospital is most encouraging and it is believed that the boy will entirely recover from the serious injury he suffered.

WOMAN'S CLUB NOTES

At the meeting of the Northville Woman's Club on Friday October 25th, the program was in charge of Mrs. C. C. Yerkes. It proved to be delightfully old-fashioned in its features.

Mrs. W. Johnson and Mrs. Alexander, appearing in costumes of long ago, sang several old favorites.

Mrs. C. C. Yerkes discussed "The Charm of the Antique."

"Geographical Jugs" was the subject of the talk given by Mrs. T. J. Krapp of Highland Park. She displayed a large number of the interesting pitchers that she has collected from many states of the United States and several countries outside world.

On Friday, November 1st, the club members will visit Cranbrook in Bloomfield Hills, to be conducted through the boys' school, Christ church and the Arts and Crafts studios. Transportation arrangements can be made by calling Mrs. Dusenbury. Members are requested to meet at Cranbrook not later than 1:30 o'clock.

Without a doubt those who attend the dance will be pleased and find that their money was well spent. Every possible effort has been made to carry out the decorative scheme and have the affair keep in step with Armistice Day.

The gymnasium will be decorated to represent the front at the time when the American army was in France. The entrance to the dance floor will be through a dug-out and when one enters the hall it will have the appearance of a real ball field. Kitchen police will be on duty the entire evening to serve food to the patrons.

The orchestra will be dressed in the army uniform and in fact everything that has been done to make the dance complete.

FARMINGTON HOLDS SIXTH DISTRICT MEETING

The sixth district meeting of the American Legion and Auxiliary will be held at Farmington, Thursday, November 7th. The business meeting will be held at the log cabin at 8:30 p. m.

Following the meeting dinner will be served at the Evangelical church at \$1.00 per plate.

The speakers will be Department Commander Raymond J. Kelly, National Vice Commander Willis M. Brewster and others.

A good meeting and entertainment are planned and all members of Northville Legion post and Auxiliary are urged to be present.

At 9:00 o'clock there will be a dance at the Iowa hall.

The board of education will hold its regular November meeting next Wednesday night at the high school.

SAW LINCOLN SHOT

WILL SPEAK TONIGHT AT THE SCHOOL

PROMINENT UNIVERSITY EDUCATOR COMING ALL INVITED TO HEAR HIM

Professor Ralph Johnson of the University of Michigan, will give a lecture-recital of Charles Raine Kennedy's play, "The Servant in the House," in the high school auditorium tonight at 8:00 o'clock. He is sent through the courtesy of the University Extension office, and his presentation in Northville is being sponsored by the Dramatics Club of the high school.

Mr. Johnson is one of the outstanding readers of the state, and is particularly well known for his recital of the play he is bringing us tonight.

The conflict between godly and ungodly churchmen between the accomplished and simple members of a family; a vision of what true brotherhood means; and the story of the girl who found the father she had never seen and knew him because he was beautiful and brave and kind, as her father must be; all this and more will be portrayed in the recital this evening.

The recital is free to the public, and everyone is urged to attend. The members of the club will entertain Prof. Johnson at a reception following the program.

CHICKEN THIEVES SHOOT MARSHALL AT PETERSBURG

Frank Miller, 35 years old, marshall of the village of Petersburg, a Monroe county town located some 23 miles directly south of Northville, was shot to death at 10:30 o'clock Monday night by the occupants of a speeding automobile.

A half hour earlier the occupants of the car had fired on the son of P. J. Kellar, a farmer near Deerfield eight miles from Petersburg, from whose farm a number of chickens were stolen about 9:30 p. m. The men who are believed to have stolen the Kellar chickens fired on young Kellar when he attempted to stop their car after discovering the loss of the fowls. He and the car was loaded with chickens.

Friday night the Kellar home burned and the family had been staying in Petersburg. Tonight they motored out to the farm to see that the livestock was safe. They found that the chicken house had been looted and in the distance saw a car leaving the farm. Young Kellar ran into the road to stop it when the occupants opened fire.

ATTENTION

The annual Roll Call of the Red Cross of Northville and vicinity will be taken early in November. The opportunity will be given each member to join for the coming year, and for all others to aid this great organization upon which rests the duty to always be ready to give instant relief in times of need and disaster.

No canvass will be made in the factories, but every house will be canvassed.

The Red Cross can do a lot with your dollars.

Those who prefer may leave their membership fee at either bank.

FIRE PARTLY DESTROYS HOUSE NEAR PLYMOUTH

The old brick house on the Northville road owned by R. A. Wilson was a total loss in a spectacular fire last Thursday night. When the local fire department was unable to establish a hose connection in sufficient time due to the distance from the fire of the nearest fire hydrant, it was necessary to use approximately three thousand feet of hose and as that much was not carried by the apparatus, a special return trip to Plymouth was made to procure the hose. This delay probably cost the house.

The house was a total loss which was partially covered by insurance.

PIANO STUDENTS IN FIRST RECITAL

Eleanor Doutelle Doyle, presented her Northville piano students in their first recital on Saturday, Oct. 26 at the home of Mrs. M. Brock.

Elizabeth Gordon, Lindsay McCardish, Barbara Phillips, Charles Dubuar, Betty Schrader, Margaret McCandlish, Marian Turnbull, Ernest Ratz and Frances German entertained their mothers and friends with varied numbers, which pleased everyone.

Each member of the class showed remarkable progress, and very real pride of talent.

A delicious luncheon followed in the Hallowe'en style.

Tainted Football

Another Big Airboat.
Wall Street felt better sat up
and took notice, sleepy. The question is not "What has happened to those that gambled, in spite of warnings?" but "What if anything has happened to the nation, and its general prosperity?"

No buildings were burned down, no industries have died, no mines, railroads, steel plants have vanished. Paper prints have been reduced to scraps of ticker tape. That's all. And, as one solemn banker said, "Many will now do more useful work than watching the ticker or the brokers' blackboard."

The most pathetic were the women speculators, amazed to learn that prices can go down. Chicago describes them weeping hysterically in LaSalle street.

Scientists ask what has become of the Leopards, a swarm of meteors that have appeared in dazzling brilliancy about once in thirty-three years for more than a thousand years past.

They failed to come around when last due, and there is no sign of them now.

Our giant neighbor, Jupiter, may have absorbed them, as whales with wide open mouths absorb tiny creatures in the ocean.

Big things live on little things, even in cosmic space.

President Hoover's plan for a great system of inland waterways realizes, in prospect, the hope of those that welcomed an able engineer to the White House.

Total expenditures planned will amount to \$525,000,000, and every dollar spent will pay for itself ten times over.

The President observes that the annual increase in expenditures will amount half to the cost of one-half of one battleship.

The President might have added that in modern war the loss of one battleship would be worth less than one-half of 20 cents, since battleships are now mere targets for submarine and aerial bombs.

These thoughts follow on college foot ball in "fattened with money." These troubling bad cash bonanzas are given to young men that run fast, run far and tackle savagely.

It would be more pleasant if colleges taught great teachers as eagerly as they seek great quartets.

But no great harm is done. The games and great crowd around young men's interest in college life and give college students to young men from riding mills and railroads of ice wagons, that might public welfare.

Progress in flying advances rapidly in Europe. A few days ago Germans shot a giant hydroplane with twelve engines, flying carrying 100 passengers and crew. Great Britain is building a plane of the same size, a dirigible instead of a biplane, also with twelve engines to go faster.

Henry Ford was the first to talk about a 12-engined plane to carry 100 people with a machine shop on board. The Germans and the British build the planes.

The Swiss parliament, elected by a moral and serious nation proposing a law to punish blasphemers, suggests a month in prison for those that orally or in writing insult God.

Blasphemy should be punished because it sets a bad example and shows want of respect for the feelings of others.

But is it possible for any two-legged human creature on this planet to insult God?

If the man proposed to punish any person, insulting Edison, you would say, "Alice, don't worry, you can't insult Edison."

How much less can any man insult the Creator of the Universe?

The nation read with affectionate sympathy of Mr. Edison's visit to Dearborn, where Henry Ford has rebuilt as it was in old days the simple Edison laboratory to which men owe so much.

Mr. Edison was deeply moved when he saw his old tools, the chair in which he sat in his early youth, his primitive paraphernalia reassembled as used fifty years ago when he developed the idea that now lights the world.

Every old man can share Mr. Edison's emotions. The human heart is the same with or without genius to lend it a great name.

A million among those that see this column carry with them memories of youth, a shellback hickory tree standing alone in the field, a grove of chestnut trees with yellowish green burs open, showing the brown nuts within; a pond that held "shiners" and catfish; a swimming hole—happy memories of a free life and boundless hope.

Those that have been waiting for the \$200 automobile are now advised to buy another dearer car, that they can really get. Plans for producing a cheap car are vague and will not materialize in any case for a long time. Nobody able to run a car should be without it, even for one year.

SNAKE CHARMER

Here's an idea for a simple, inexpensive, and wholesome decoration for a child's party cake. Use any of pocket gophers to put poison fed grain in a crev for to be preferred cake recipe, and cover the cake with white icing. Have ready some trimmings made from gum-drops—pink, yellow and green ones. The gum-drops should be sliced thin with a sharp knife, and then cut with scissos into petals and leaves shapes to form wild roses and leaves and stems. A child's name or initials or "Happy Birthday" could be made with bits of gum-drops.

Good storage facilities through out the fall and winter are necessary to insure sound firm seed-potatoes at planting-time. The main thing is to keep the storage temperature low enough to retard germination. Seed tubers that are firm with the first sprouts just showing will start quickly when planted and make vigorous growth under favorable conditions following planting.

Ewes should be gaining in weight when they are bred. Stubble and stalk fields, fence strips in plowed fields, late pastures, green rye pasture in late fall, and in the South, velvet beans, are all useful in carrying bred ewes through the fall and into the winter. Silage and root crops are good feeds, but should not be given when the pasture is soft and watery.

Important points for the keeper to keep in mind in preparation for winter are plenty of young bees, a good queen, plenty of good-quality stores, sound hives, and protection from cold and dampness.

The surest way to rid alfalfa fields, orchards, and other places be fattened this winter should be to bait made of vegetables or grain weeks previous to weaning time. They should go into dry lot at the end of the pasture season so as to be ready for market next spring or early summer.

-have you driven a Chevrolet Six?

Have you felt the thrill of its six-cylinder performance—so smooth, quiet and vibrationless that you almost forget there's a motor?

Have you known the satisfaction of its six-cylinder reserve power—ready to shoot you ahead at the traffic light, to carry you over the steepest hills, or to speed you along the highway?

And do you know that anyone who can afford any car can own a Chevrolet Six?

If you have never driven a six-cylinder car, it is impossible for you to form any idea of Chevrolet performance from your imagination alone.

Smooth! No rumbly in the body—no tremble in the steering wheel—no vibration to loosen windows and doors!

Flexibility! Power that flows in a silken stream—and never a trace of "lagging."

Quiet! Hardly a whisper from the motor. You can drive it for hours without the slightest noise fatigue!

Made Good Use of Kite

The first railroad suspension bridge at Niagara was begun in 1857 by John A. Roebling and the first locomotive crossed it in March, 1855. The first suspension bridge of any kind across the Niagara gorge was built by Charles Ellett in 1849. He offered a reward of \$5 to anyone who would get a string across, and the next windy day most of the boys in the neighborhood attempted it with kites, one of them succeeding. This string was used to pull a small wire cable across.

Boloney Board Asked To Act On Two Questions

The Michigan "Boloney" commission, of which Muriel DePoe is the unanimous choice for High-muck-a-muck Fred Kestner, the director of the ring forms and Elton Eaton, the keeper of the strings, has two questions before it for investigation upon which it should act with haste—for there is great public need, that the findings of this body, so versed in the ways and manners of prime "boloney" should be given quick and wide publicity, society is thumping for it, the natives are wild in anticipation.

The first question for this body to pass upon is: "Is Pat O'Brien's claim that he set up his reputation by blowing up the turf on the Sanc Lake golf course for thirty minutes and the other is the frame or mind is which Lieut. Gov. Dickinson was in when he said that 'a glass of beer or two would double the Johnnies' eyesight'?" As expert witness in the O'Brien case I would suggest that only those with reputations kind no objection be called. The assertion being such a humorous one I would suggest that witnesses with a keen sense of humor—Sol Bragg or Herb Ward for example—be interviewed on the subject. In the Dickinson case I suggest that most expert testimony be secured, after for instance as Dad Adams might continue on this very important subject: "A little action Muriel snarling into Tom Conlin the Crystal Falls Diamond Drill."

Officials of the newly appointed Michigan Boloney Commission act in knowledge with the respects to Editor Tom Conlin of Crystal Falls that we have many important questions before the commission for consideration, questions far more important we believe than any that will be passed upon by the state legislature, of the crime commission appointed just previous to the creation of the greater and far more important Boloney commission. We wish to call the attention of Editor Conlin to the fact that every editor when writing of the Boloney commission, should always use a capital letter on the Boloney.

We further wish to advise all the editors of the state that all sessions which are to be held at sometime somewhere by the Boloney commission, will be open to the press of this great big world, considerably "on the air," in accord with the ideas of the other various and highly paid special counsels appointed to get into question of taxation and governmental expenditures that our session should be held in some deep dark cellar. Our wives and our work are an open book from Chapter One to Chapter Last. Therein lies the great difference between the Boloney commission and the other two noted commissions one to investigate crime and the other taxation, which as a matter of fact is a similar question and should be investigated by one commission. The only difference can be found in the financial standing of these three great commissions. Both the Tax boys and the C. Inc. boys draw leave from the state treasury every time they meet. But what about the Boloney boys?

But wait and read later. Now as to these insinuating questions raised by Thomas Conlin we should tell him its none of his business we like the chairman of the Tax boys tell the newspaper boys over in Lansing. But as aforementioned we invite the sharpest kind of probing and therefore and after we are willing to let the public have fullest details of our operations in behalf of respectability and the downy-bden Boloney boys of our state.

As to the first question that Editor Conlin raises, the one pertaining to Editor Patrick Henry O'Brien, one of Brighton, now of the Upper Peninsula and them of Lansing, we see no special reason why this important time of the Boloney boys could be wasted on the subject. Not that we wish in any way to reflect upon the very close and dear friend of Editor Johnny Norton of Escanaba but we can't see just what golf, turt, and courses have to do with matters of decency. Then too, our worthy chairman drops a golf ball with the same dismally look on his face that a lady has when she accidentally picks up a big fat active night-crawler only with a bit more of a distressed look on his countenance. The treasurer without treasure feels exactly the same way about golf. So that's dismissed.

Now as to the Lieutenant-Governor. That's a different sort of place of beer or two would double the drinkers' eyesight," we want to know what he knows about it.

Further the Boloney commission refuses to go into this matter beyond asking the question without first collecting a little cash. Now we are going to ask our great and worthy chairman to go out in the country, see his famous fellow-citizen and ask if he won't take up just one ten-cent collection for the Boloney boys. We cannot function without a few dimes in the chest, and we know of no better way to get the mon than to induce the man we wish to investigate to go out and collect in a few shekels for us. We want him to put just a few more tear drops in his evening talk—and then when he turns over to our depleted bank account the big round coppers, a few nickels and more dimes, we will be ready for business, but as the Boloney commission boys have pointed out before and before, we cannot and will not act on any of these numerous important questions until there is something in the till to fill with.

SOME DONT'S FOR DEER HUNTERS OF THE PRESENT YEAR

WHAT A DEER HUNTER SHOULD DO ADVISED BY STATE DEPARTMENT

MUST GET LICENSE
TO TRAP MUSKRATS

The first of the three sectional muskrat seasons begins in the Upper Peninsula Friday, November 1st. The northern part of the Lower Peninsula begins 15 days later, and the season for the southern third of the state December 1st. This year the state has been divided into three regions, with the muskrat season opening and closing on different dates for each region. The Upper Peninsula season will be displayed on big placards in the cabins of the three state ferries at the Straits of Mackinac. The placards have been prepared by the Department of Conservation and will be posted with the co-operation of the State Highway Department.

The placards list information as to what a deer hunter may do while he is in the woods and what he may not do; what he should do if he becomes lost; and display slogans that it is hoped will help to reduce the annual list of fatalities.

Your license does not permit you to: Use artificial light, use dogs in hunting, kill a doe; kill fawn; hunt a deer while it is in the water; hunt from your automobile; have venison in your possession more than 30 days after the close of the season; hunt on private property without owner's permission; have loaded gun in your car one of the placards says.

Don't neglect to: Tax your deer; wear your license button; unload your gun before you enter camp or an automobile; compass says a second poster.

Advice to those who are lost: Contained on a third card. It says: If you are lost, don't get excited. You will probably be able to find a fire tower or telephone line, follow the wires. They will take you to town. If it is dark, build a fire and wait until morning. Don't tire yourself out walking in circles.

Always carry a compass and matches.

"Be sure it has antlers before you shoot" and "Some of you may not come back if some are careless," are among the slogans listed on the posters.

A large percentage of the deer hunters going to the Upper Peninsula enter by way of the state ferries.

If yearling birds in the poultry flock are to be used as breeders next spring, it is a good plan to omit the mash or meat scraps and fish meal from their ration for from 3 to 4 weeks in the fall, beginning about November 1. This gives the birds a rest, and if they are then fed a breeding ration they should produce hatching eggs of the highest quality.

WHAT'S WRONG AND WHERE?

How good are you at finding mistakes? The artist has intentionally made several obvious ones in drawing the above picture. Some of them are easily discovered, others may be hard. See how long it will take YOU to find them.

The cowpea succeeds under most conditions that it is hulled them. It is probably better to thresh them when thoroughly dry, and re-clean and store them in sacks.

A two-way pass closet in the connecting wall between the kitchen and dining room is a great convenience. Soiled dishes are passed through the opening from the dining room to be stacked on the drain-board or counter level with the sink. The sink is often placed along the connecting wall or it may be at right angles to the pass closet on an outer wall of the house so that there may be a window above it for light and air. In either case as the dishes are washed they can be put away on the shelves without any extra steps. On the dining room side it is a good plan to have a full-length door to shut off the glimpse of the kitchen and sink through the shelves.

OIL COMPANY BUYS POSTOFFICE CORNER

By a transaction completed last Friday, the Red Indian Oil Company of Detroit became the owner of a sixty-six foot frontage in the "Postoffice corner," the sale including the Main street lots and buildings now occupied by the post office, Bussey's pool room, and Bell's shoe shop. The sale was made through the Lovejoy Agency and the deal was for cash.

It is reported that the new owners have plans which will call for removal of the present buildings and the erection of a new \$15,000 building on the property. These plans must be contingent on making some arrangement with the lease on the corner building having about two years yet to run.

Postmaster C. L. Kelly states

that he has so far had no official notice of the change in ownership nor any desire of the new owners to get possession of the premises.

The Red Indian Oil Co. will

probably erect an oil station and car servicing plant on the property.

The trade-mark *Mazda* on an incandescent lamp is

more than a name; it is a mark of research service.

It signifies that behind the lamp are years of painstaking effort by the great organizations of the lamp manufacturers, to obtain the most light for the least current.

There are cheaper imported lamps—but illumination with these is more expensive because they consume more current for the same amount of light.

Milford Times

The trade-mark *Mazda* is your assurance that the lamp bulb is a product of the latest and best methods of incandescent lamp making.

Lady Suffered for Years with Kidney Troubles and Nervousness Found New-and-Glorious Health

MRS. V. F. KELLER
"I have suffered for years with kidney trouble," said Mrs. V. F. Keller, 32½ Everson street, Detroit, Michigan. "I dreaded to see light come, as it meant suffering and bad dreams. I would have to get up four or five times and there were sharp pains in my back at all times. I became very nervous so much so that every sudden noise would make me jump. I lost my appetite and my strength and vitality were rapidly leaving me."

"A few weeks treatment of Konjola and every trouble had vanished. I never have pains in my back and the night raving is a thing of the past. My nerves are calm and steady. My appetite has been restored and I feel strong and better in every way."

WHAT HUNTERS OF PHEASANTS GOT ON THE OPENING DAY

CAREFUL CHECK SHOWS BIG LIST OF GAME THAT WAS BROUGHT DOWN

Northville has more hunters to the square mile than any other community of its size in the world.

It seemed that everybody went hunting last Friday, the day the pheasant hunting season opened.

A check of what these Northville hunters got on the opening day of the pheasant season follows:

Scott Lovewell—One black crow.

Hugo Babott—Two gophers.

Floyd W. Hinman—One coyote.

Butch Balson—One shrike.

Nelson Schrader—Two alligators.

William Forney—Blank.

Gro. Veres—Three orthopodidosaurs.

Carl Shantz—A bear.

Dr. E. B. Cavell—Tame rabbit.

Clifford Turnbull—A Canadian moose.

Elmer Smith—A pig without eyes.

Sherrell Ambler—Two wildcats.

Edred Lyke—Blank.

Charles Ponsford—Lame rooster.

Edward H. Lapham—Another land-rooster.

Charles Thornton—One shrike.

Ernest Muller—Seven interducks.

George Hills—Blank.

Harry German—9 47 pheasants.

Dayton Bunn—Two tame rabbits.

Al Zimmerman—Two porcupines.

Jim Black—Several crows.

Frank Butler—Two crippled sparrows.

Dr. Holcomb—Blank.

Al Healey—Blank.

John Walker—A Milwaukee pelican.

Fred Hicks—Walrus.

Dr. Snov—A Detroit Tiger.

Chief William Safford—Two polar bears.

Ray Richardson—Blank.

Gart—Deal—Rhinoceros.

Floyd Nordholm—Blank.

Charles Altnan—Blank.

Tied Cochran—Twelve hippopotamuses.

They hunted pheasants but they go.

After the frost crops are all out of the garden, it is a good plan to remove all vines, dead plants and other trash and cover the ground to rise or some other green crop. This will prevent the earth from washing and improving the condition of the soil. If the ground is not soon to be covered and there is no danger of washing it, it is well to plow or spade it and let it lie rough through the winter freezing until no insects as well as winter the soil by alternate freezing and thawing.

Recognize and applaud an exhibition of good sportsmanship on the part of the visiting team.

This is a point that is often overlooked by the student body when they become interested in their own team. It is not a lack of knowledge as to sportsmanship, but merely forgetfulness.

When the students recognize good sportsmanship on the part of the visiting team, they are not only giving the players fighting spirit, but giving the visiting student body a very good impression of the student standard of the school. They will also realize that the students are broad-minded enough to show sportsmanship at its highest level.

An act of courtesy in this way will help friendly relations between the schools, which is one of the outstanding reasons for the various sports between schools of the league.

Therefore we should show sportsmanship at its highest standard in all activities in which we take part.

SOCER TEAMS START

The girls' soccer teams played the first game of the tournament, Tuesday, October 29th. The captains of the two teams are: Myrtle Lenahan and Catherine Dugdale.

The teams have been practicing two nights a week since the opening of school, looking forward to contests.

The result of the tournament will be published next week.

PARTY GOES OVER BIG

Both Classes Turn Out in Full Force

If you changed to be passing the school last Thursday evening, you undoubtedly noticed that a mellow orange glow issued from the gymnasium. If you paused to listen, you very likely heard sounds of voices faintly coming from within. Had you questioned any passer-by he would have told you that the Sophos were entertaining the Freshies at a play-graduate

Certrude and Florence Johnson entertained the crowd with a clever feature dance.

Louis Campbell, Albert Viadenburg and Arthur Hills, won prizes in the "can-rubber" and apple-bobbing contests, at the same time amusing the guests at large.

The prizes for the most ornamental costumes were awarded Wilma Rattenbury, first, and Helen Fleischman, second. Sam Lawrence received the boy's first prize for the cleverest costume.

The grand march led by Catherine Stalter and Marvin Tibble took place as soon as the orchestra arrived, the remainder of the evening being spent in dancing.

Cider and doughnuts were served by the refreshment committee.

The various committees are to be thanked for the whole-hearted efforts they put forth in making the party a success.

NORTHVILLE STUDENTS RECEIVE EDISON PRIZES

Senior High School

Mrs. Chapman, the tenth grade English instructor, was very pleased because three prizes for the Edison contest were in her English classes.

The prizes were presented to the winners Monday morning in the assembly. Jane Lawrence, the winner of the first prize, received a Parker pen and pencil set; Geraldine Ferguson, winner of the second prize, received a Schaeffer pencil. The winner of the third prize was Catherine Stalter who received a leather notebook. Much effort was put forth by all students who wrote stories for this contest.

Junior High School

The winner of the first prize in the Junior high school was Wilma Rattenbury. She received a Parker pen and pencil set. The second

prize went to Ruth Angell, who is a member of the eighth grade. She received a Schaeffer pencil.

Spencer VanValkenburgh of the seventh grade received a leather notebook for third prize.

PLYMOUTH-NORTHVILLE GAME NOVEMBER 11

Northville plays the Rocks of Plymouth, Friday, November 11th.

Plymouth's field is 400 feet long.

Last year the Rocks defeated

Northville 7 to 0, and stopped them from tying Dearborn for the Suburban League championship.

This is another year and the Northville football team, with the support of loyal supporters, are going over to Plymouth and smash those hard Rocks.

The team cannot fight the battle alone. Come and cheer for your team. Help them avenge last year's defeat.

TWO OF THE BEST STORIES IN SEVENTH GRADE ENGLISH

When My Mother Lived in Edenville

(By Helen Christensen)

At one time my mother lived in Edenville. It was getting dark.

My mother and three other girls

were just coming home from school.

They had to stay after school to

finish some work so there was no

time to eat along the road.

The road passed by an old cemetery.

Suddenly they heard some small

children crying. These children

were frightened. They told the

four big girls that there was a

ghost over there in the cemetery.

My mother and the other girls

thought that they would show how

brave they were in front of the

little children. They dared each

other to go over. At last one of the

girls went over. She was getting

afraid, but to show how brave she

was, she went on going. When she

reached there, she found that if

she was only an old piece of white

paper. This girl went back and

told my mother and the other girls

that they were "freshes" trying to

look like farmers.

A most touching figure was an

old blind man who begged pitifully for contributions. However,

his close resemblance to Charles

Dusenbury kept the students from

giving much aid.

Of course, the Freshmen gave

some money. The latter were very intelligent girls, considering

the frank nature of the speakers.

And so another "break day" has

passed into the fast of time. But

next year's coming.

 Kinchman hit the line for 4 yards
 Kerr made it first down around the
 end. Roosevelt intercepted a pass
 and the March to the goal line was
 stopped.

Tiffen knifed a runner trying to
 skirt his end. Ypsi putted out of
 bounds on the Orange and Black 40
 yard line as the third quarter ended.
 Kinchman broke loose from some
 purple-clad tacklers but slipped and
 was downed with 1½ yard gain.
 Kerr tossed an incomplete pass to
 Kinchman. The same play was tried
 again and Frank was pulled down
 on the Ypsi 33 yard line. Tiffen
 went around the end for 12 yards
 Northville was penalized 5 yards "for
 off-side". Line-backs by Cavell and
 Kinchman made 5 yards. A pass
 was incomplete and Ypsi took the
 ball on downs. Roosevelt tried to
 punt out of danger but Kinchman
 blocked the kick and Northville re-
 covered on the 15 yard line.

Cavell broke even on an end run
 Tiffen knifed through tackle for 8
 yards. Kinchman smashed the center
 of the Ypsi line and was stopped
 a foot from the goal line. Tiffen
 dove thru tackle for the score.
 Kinchman crumpled the Roosevelt
 line for the extra point. With 1
 minute to play Kinchman kicked off
 to the Ypsi 30 yard line where it
 was returned to the 38. On the next
 play Kinchman tackled the purple
 ball-toter so hard he fumbled, and
 Kerr recovered as the game ended.

Final score: Northville 14, Ypsi. 0.

SHAWLOWN

On our white tube lighter
 moved to Northville to hunting
 all those unfortunate who
 chance to be out in the trees.

Grazing and man, issued from
 ghostly mouth, and blood-curdling
 shrieks, freeze the blood in
 a teeter's veins.

Witches, wanted nothing and
 nothing with the world to do.

We didn't see them ride on the
 broomstick however.

And the cloaks of course there
 were cloaks, on their many colored
 garments they made a pleasing
 spectacle.

The merchants came next. Very

exasperated they were when they

found their new green windows-

covered with soap. Loud were the
 threats made as to what they would

do if they caught hold of the
 youngsters who were guilty of the
 outrage.

And why all this confusion in the
 peaceful village of Northville? Hal-

loween was on, Thursday.

Mice are very small compared

with trees but these rodents an-

nually destroy thousands of val-

uable fruit trees, many of which

might be saved. Orchards should

be examined regularly in fall and

spring for signs of mouse injury.

Preventive measures include remov-

ing cover from around the bases of

trees with repellent washes, inci-

ting trees with mechanical protec-

"I am not bound to win, but I am bound to be true. I am bound to succeed, but I am bound to live up to the Light I have." Lincoln.

October 1929, the Christian world is celebrating the four hundredth anniversary of the great reformation. Martin Luther's small catechism, and October 31, when he nailed the 95 Theses on the church door at Wittenberg, and our common heritage of Protestantism will be appraised anew.

"In order to live noble lives we must follow Christ. Let us come to church where we can hear His Word and what it teaches us."

"The Christian faith is like a grand cathedral with divinely pictured windows." Standing without seeing its glory, nor can you possibly imagine any, standing within every ray of light reveals a harmony of unspeakable splendor.

Smothered ham with sweet potatoes is just right these cool fall days. Cut a slice of smoked ham into pieces suitable for serving. Brown these slightly on both sides, and arrange them to cover the bottom of a baking dish. Spread 2 cups of raw sliced sweet potatoes over the ham. Sprinkle with 2 tablespoons sugar, and add 1 cup of hot water and 1 tablespoon of butter or ham drippings. Cover the dish. Bake slowly until the ham is tender. Baste the potatoes occasionally with the gravy. Brown the top well when the ham and potatoes are done.

RICHARDS TELLS OF CONVENTION

Members of the Exchange Club Wednesday heard Rev. J. William Richards, delegate to the national convention just held in Florida, tell of the meeting and of the interesting sights that Florida Exchange members provided for the visitors through the courtesy of this club. I have attended all national conventions within the past seven years with the exception of one—but I believe this was the most enjoyable of all. The city of Jacksonville left off on its way to make the visit a delightful one for us. There was so much sight seeing we didn't have time for a whole lot of business said Rev. Richards.

Following a brief review of his visit to various interesting places as well as historical spots, he said the following was emphasized as Exchange ideals:

The purpose of Exchange is to adapt ourselves by right thinking that we may merge individual abilities and advantages into public good, and thus achieve that happiness of soul always a result of unselfishness and only acquired through the benefits we give others.

The interpretation of the word Exchange in business life is that of partnering with something, in return for equivalent. Our interpretation of Exchange is the giving of self for the privilege of serving others; of parting with selfishness and returning the satisfaction of discharging our duty to our Fellowmen, to our Community and to our Nation!

Accepting the divine privilege of a life's noblest gift, I covenant with my fellow Exchangers:

To consecrate my best energies to the up-lifting of social, religious, political and business ideals.

To discharge the debt I owe to those of high and low estate who have served and sacrificed that the heritage of American citizenship might be mine.

To honor, and respect law to serve my fellowmen and to uphold the ideals and institutions of my country.

To implant the life-giving spirit-building spirit of service and comradeship in my social and business relationships.

To serve in whatever these demanding social conditions bring, greater endings and greater opportunities for all.

HOW TO START COLD AUTO ENGINE

Too many automobile owners "cold weather driving" and "hard starting" are synonymous.

It is true that an engine does not start as easily in winter as in summer, but a little care on part of the owner will go a long way toward minimizing the difficulty. Chevrolet Motor Company engineers point out the following:

Since the inception of the Chevrolet car more than eighteen years ago, company engineers have been applying themselves to the problem of easier starting.

Using the cold room facilities of the General Motors Research Laboratories and working for hundreds of days in zero weather at the General Motors Proving Ground, Chevrolet technical men have been attacking the "cold motor" problem for many years.

In considering the case of the car that is difficult to start in cold weather, Chevrolet engineers call attention first to the rather obvious fact that an engine in good condition will perform all its functions, including starting, more satisfactorily than one that is out of adjustment.

The principal parts which have a direct bearing on the starting of an engine are: Battery, starting motor, carburetor, spark plugs, ignition system and valves.

As the efficiency of the battery is naturally reduced in cold weather, it should be given great consideration. If the electrical system is weak, complete combustion cannot be obtained; therefore, before the start of winter, it is good practice to have some reliable electrical service station check over the battery, spark plugs and entire ignition system.

Attention to these suggestions will eliminate your starting troubles this winter and cut down the wear and tear on your nerves as well, according to the Chevrolet engineer.

PIONEER RESIDENT OF SOUTH LYON IS DEAD

Mrs. Lewis Sinclair, life-long resident of this community, passed away at the Havershaw Hospital Monday morning, after having been confined to her bed for more than two months. She had been a patient sufferer for several years.
