**The BEST Gray Hair  
Remedy is Home Made**

To half pint of water add one ounce bay rum, a small box of Barbo Compound and one-fourth ounce of glycerine. Any druggist can mix this up or you can mix it at home at very little cost. Apply to the hair twice a week until the desired shade is obtained. It will gradually darken streaked hair, gray hair and make soft. Barber will not color the scalp, but it is safe and sticky or excess is easily removed.

**JANUARY BARGAIN SALE**

Why not? Every line of business has broken assignments and odd lots after the rush season, and while we have been re-arranging our wares, planning our stock renewing purchases, we have decided to give our trade the advantage of the fixed price reductions on all articles and thus gain for ourselves the advantages that go with being able to make larger purchases of complete assortments.

Site includes articles of nearly every line. You will find many wonderful bridge pieces at very low cost.

DOWN FROM ALASKA**

(Continued from last week)

The 1st of November 2d a party was being given in my honor. I often wanted to stay longer, but they took me out to the ship at 10 o'clock. It was quite exciting with the whole force of the deck and some other friends. They dressed me up in a big fur park to wait out the boat and I was hoisted out in a basket after our own skylight so as to get our gear ready which took me out for the ship.

I have a cabin with two laps, a table, two chairs, much room, but we are not comfortable. I thought along, I might be better off and I would have a good night if there were more passengers and a good enough egg. I have known the Captain for a couple of years. This cabin is not large enough for the cabin party of the 2d. In the time I spent I was well up to the cabin. I was so tired I was not getting any sleep, but I was getting along well. There were no passengers and a good enough egg.

We sailed from Nome for the mouth of the Yukon River. We had about 100 miles of open water before we reached the village. The Captain said he is going to the next morning. The 2d, we had 100 miles of open water. The Captain takes care of his passengers and comfortable care of the crew. He is a wind or swell to keep this moving.

At noon we had just passed the mouth of the Yukon River. We had about 100 miles of open water before we reached the village. The Captain said he is going to the next morning. Waterford Back In  
Days Of 1899

(Continued from last week)

LIKE A CITY OF THE DEAD.

And now where is Waterford?

It is not even mentioned in the map of Wayne County for years.

It has been omitted from the Michigan state gazetteer nearly two decades, and is not even in the station on the railroad.

The postoffice department long ago wiped it off its list.

The town is almost entirely deserted.

The streets are still open, but

the houses are all gone.

The buildings are all gone.

The roads are all gone.

The trees are all gone.

The animals are all gone.

The people are all gone.

The farms are all gone.

The mills are all gone.

The mines are all gone.

The forests are all gone.

The streams are all gone.

The rivers are all gone.

The lakes are all gone.

The mountains are all gone.

The hills are all gone.

The fields are all gone.

The pastures are all gone.

The orchards are all gone.

The vineyards are all gone.

The gardens are all gone.
