MUST BE A GOOD TOWN

Northville must be a good town in which to live, thank you. At least it is very hard to find homes for rent here—and that is a pretty good test of a town. And remember this—when people come to a town to reside, they think of a lot of things. They ask what kind of folks live in the town, how the schools rate, the standing of the churches, the pride folks show in their homes, whether the business people are progressive and a lot of hard-headed questions like that.

It is an excellent sign that even in these "tight" times it is difficult to find homes for rent in this beautiful place. Northville measures up as a good place in which to live—what more can you ask?

CO-ED SMOKING

Co-eds at the Michigan State Normal at Ypsilanti have been given the choice by the president and other officials of teaching without smoking or smoking without teaching. President McKenny says that the people of Michigan, who employ women teachers don't want cigarette smokers.

Smoking by adults and smoking by boys and girls are two different things. Any boy or girl who early in life takes on the smoking habit simply chains himself or herself to an expensive habit that will cost much—any way you figure it. Any teacher who does anything to tie the smoking habit to a boy or girl is unfit for the teaching profession. No matter what one's opinions about women smoking, certainly smoking by our women teachers cuts sharply across all our traditions and our conventionalities. If the would-be teachers want to smoke they should without further ado give up teaching.

THANK YOU

We appreciate the patience and sympathy of The Record family as the new management gets under way. It will be a hectic life for the office force for awhile but we do hope to have matters well organized within the near future.

Establishing a new office and a new home all at the same time is surely a real task for strangers to the community and we shall have a lot of things to think about for awhile. Printing of the newspaper at Plymouth involves extra work all around but a corps of loyal workers both there and here is accomplishing wonders. We are glad to say that our job printing department here at Northville is "hitting on all eight cylinders" and with the new equipment some very fine work is being turned out.

Bear with us for a few weeks and we shall try to make this newspaper one that will be a credit to you all.

We thank you

MOLASSES VS. VINEGAR

What a fine thing it would be if we all said the pleasant things and left unaid the mean biting words that sometimes cause more heartburn than we ever realize! What a better world it would be if we could see the good points in the other person and forget his frailties!

We had a concrete case of this last week in leaving Jonesville where we had been for six months running the home newspaper. Dozens of people went out of their way to come into the office to say "Well we hate to see you go. You have given us a fine paper and we appreciate it and while we are going to miss you we are glad that you have a larger field."

Call that "appreciation" if you will—it doesn't matter. Maybe these kindly words weren't deserved—many of them weren't. But they are heartening to the ones who get them and "put them on their toes" all the more. Whether we admit it or not, we all like appreciation and an occasional "boost." Let's remember as our grandparents used to tell us "You catch more flies with molasses than you do with vinegar."

DANGER! MEN AT WORK.

We are entering—let us hope, the final stage of our folly. The air is charged with rumors. The whispering campaign is on. No business is iniquity.

Have you heard about such and such a bank? Do you know old So-and-So is going to the wall? I hear the Doe Company is headed for receivership. The Roe Company has passed its dividend. Only by wearing ear muffs can one walk a block without having his confidence shaken.

Of comfort let no man speak:

Let's talk of graves, of worms and epitaphs
Depression is on every tongue. It is the most widely advertised product of our times. Headlines, headlines everywhere and no one stops to think.

And our vaunted salesmanship! Give a salesman time enough and he'll paint so drab a picture of the future that a likely prospect will replace his fountain pen—and lock the safe.

Of unemployment, I suspect there are more idle tongues than idle hands.

The folly of too many of us is to accept the echo of the locker room and club car as the Voice of America.

For example, consider 1930—lately interred. Now lies he there

and none so poor to do him reverence. Yet that much-maligned year loaded and unloaded 45,800,000 freight cars, and with three million trucks on the job, too. It made and sold a new automobile for each ten families at a cost of \$2,159,600,000 and saw registrations highest of any year; with a gasoline consumption of 299 million barrels, an all-time record. It saw electrical production hit its highest mark.

Nineteen hundred and thirty manufactured four and a half billion yards of textiles, and 315 million pairs of shoes. THE USUAL TWO AND A HALF PAIRS TO THE PERSON.

It provided work for forty-odd million men and women, and earnings through dividends to the amount of \$4,500,000,000.

Nineteen hundred and thirty saw it that expenses of living did not exceed income, as evidenced by hundreds of millions of dollars increase in savings in banks and eighteen and a half billions of dollars increase in savings in banks and eighteen and a half billions new life insurance.

Nineteen hundred and thirty added one million in population to our consuming public—a city the size of Cleveland.

With all its faults, 1930 furnished a national market-place where goods, services and labor were exchanged to the extent of 100 billion dollars, and the returns are not all in yet.

One would think, from the wailing, that we had all been wiped out by a terrible catastrophe of Nature—a Noah's flood, a shifting of the Gulf Stream, or by dreadful holocaust.

Yet we are all here. The stores are still open. The trains are running. You can get that number on the telephone. The traffic problem is still lively. Movie houses are no nearer seating all their customers. Children are what they always were. Young folks are getting married. Preachers thunder against the laxity of the age. Amos 'n' Andy are still in the taxicab business. Doctors and dentists make appointments weeks ahead. Lawyers' briefs are just as long. Hardy commuters make the 8:15 in less than nothing flat. And under Nature's white coverlet, bud and blossom await the sure coming of spring.

If these common place signs of "life as usual" betoken national instability then there is a public menace in the familiar warning—

DANGER! MEN AT WORK

—Nation's Business

THE STORY OF THE SPIDER

While Mark Twain was editor of a Missouri paper, a subscriber wrote him saying he had found a spider in his paper and asking Mark whether this was a sign of good or bad luck. The following was the reply of the well-known humorist:

"Old Subscriber: Finding a spider in your paper was neither good luck nor bad luck for you. The spider was merely looking over your paper to see which inconstant is not advertising, so that he can go to that store, spin his web across the door, and lead a life of undisturbed peace ever afterward."

WHAT OTHER EDITORS ARE THINKING ABOUT

A Word About The Trenton Exchange Club

That Trenton has a promising future by reason of its high, dry location above the Detroit River, by reason of its physical relation to the Detroit metropolis and by reason of its splendid nucleus of forward-looking, energetic, alert citizenry, by reason of its worth-while community improvements, seems to be the unanimous opinion of all residents of the village, and of all business men who have invested in the place.

Indeed, the fact is a sort of definite and dependable forecast of the future. Ten years ago the population was 1,322. We believe, in 1930 it was 4,022. That gain is at the rate of 116 per cent. There is seldom such a thing as a dead stop in the life of a community, hence it is reasonable to suppose that 1940 will show a population of from 5,000 to 10,000 people.

Whether the 1940 population is five thousand or ten thousand, whether the community is flourishing or languishing, whether the residents are satisfied and happy or discontented and discouraged depends to a very considerable extent upon what the present citizenry does toward influencing and directing the future. Intelligent, persistent, tireless effort may do wonders toward determining that future growth. To sit still and let whatever come that may is a supine attitude, to say the least.

The Exchange Club has recently undertaken some work with reference to the future development of the community that holds much of promise. A large committee on Community Promotion has been formed, composed of influential, zealous, forward-looking men to the number, we believe, of twelve. Among the matters now under consideration by that committee is that of listing all tracts of land which are so located as to be advantageous for use as small factory sites. The work contemplates securing an exact description of each tract, its railroad frontage, its dimensions in square feet and in shape, and the price at which the owner will agree to sell. When this listing is completed, it is now being considered starting an advertising campaign under the direction of such national trade publications as "Iron Age" and similar organs. If inquiries are received in reply to these advertisements from manu-

facturers who desire to enter the Detroit metropolitan area with their plants, exact information will be on hand to supply them.—The Trenton Times

Reeford Speed Trap

Residents and motorists in this area have been getting a double dose of traffic law enforcement. There is, of course, always the usual regular patrolman and his posse of cops from Coolidge station. But recently there has been a heap of free-lancing from the downtown traffic department. Drive one inch faster than 30 miles an hour and presto! There appears as if by magic a ticket distributing officer. So watch your accelerator, and do not try to go through an amber light. Apparently the faster speed permitted has resulted in more deaths and the police, anxious to reduce the evil are enforcing the law to the letter.

If you do not know the traffic code and drive a car, it may pay you to get the rules from the police station and read them. Then follow them, if you have any pity for your bank account.—Reeford Record

After A Crop Failure

The effects of the crop failure last summer in many parts of the United States is painfully apparent. It is extremely interesting to notice what happens when a similar crop failure hits a land which has no relief organizations, no modern transportation systems and no methods whatever of providing help for the sufferers.

Thus a government commission in China has recently reported that more than 2,000,000 people have died of famine, caused by drought, in Shensi province during the last two years. In addition, 400,000 have been sold into slavery.

The American famine is a major problem, but it is not even remotely like that horror. The demonstration of the value of modern forms of transportation, communication and organization is obvious.—William Klammer in The Dearborn Press

Pope Pius Tells The Truth

People who call themselves Protestants may sometimes make light of what Catholics accept as gospel truth, but none of ordinary common sense can jest over Pope Pius' Encyclical letter on matrimony without realizing its tremendous import to the world at large, regardless of creed or nationality, and more especially in these United States where marriage vows are little more than ropes of sand, and where divorce is sold at bargain prices. How we howled over polygamy a few years ago among the Mormons, and in countenancing easy divorce today how far is our whole country removed from similar conditions? The divorce evil is one monster that is gnawing at the very corner stone of our civilization—the American home. Would that every church, every judge and every law making body would follow the lead set by Pope Pius until this cancerous evil, this human slavery would linger in memory only.—J. E. McFallen in The Linden Leader

AUCTION

HOUSEHOLD FURNITURE

Wednes., Feb. 25, '31

828 Penniman Ave., Plymouth, Mich.
I have for this sale about three van loads of the best furniture I have ever had, also furniture from clean homes in and around Plymouth.

THE WHY of SUPERSTITIONS

By H. IRVING KING

SINGING BEFORE BREAKFAST

FAST

IF WAS a gloomy kiffjoy who first said "Sing before you eat, cry before you sleep." The superstition is purely psychological in origin. Jane gets up in the morning and comes down singing to breakfast. Before bedtime something has gone wrong, and Jane is in tears. Then somebody says: "And she was so happy this morning; I heard her singing all the way downstairs."

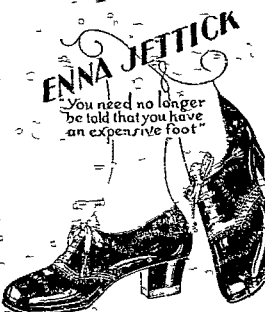

This contrast between Jane's state of mind in the early morning and her state of mind at night makes an impression, naturally, upon the whole family—hangs into high relief the fact that she sang before breakfast on the day of her sorrow.

The many hundreds of times, perhaps, that Jane has sung before breakfast—and things have gone smoothly with her all day are not remembered. Why should they be? There was, upon those occasions, no violent contrast between her state in the morning and her state in the evening to impress them upon the mind. We make our psychological superstitions out of coincidences, for we are impressed by coincidences, and contrasts, while ordinary routine leaves our imaginations untouched.

TAIL-LIGHT ON A DOG

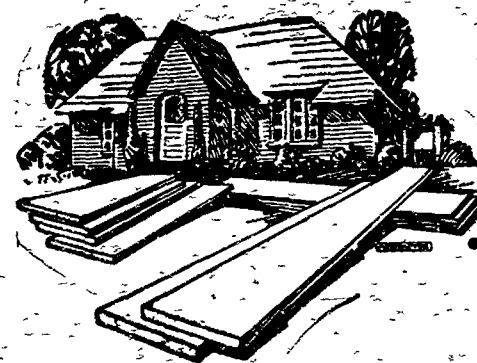

A strange example of safety first comes in a story from Berlin. There a dog equipped with lights—a white one on his head and a red one on his tail—is attracting a lot of attention. Power for the lighting is furnished by a small battery strapped to the animal's back. The dog is owned by a blind man who has trained him to turn on the lights as soon as it becomes too dark for motorists to see the animal and its master on the roads.

The more we put into life, the more of joy (spiritual and material) we can take out of it.

SEE THE 1931 MODELS!
A bulky mule has four-wheel brakes. A billy goat has bumpers. The firefly is a bright spotlight. Rabbits are paddle-jumpers. Camels have balloon-trad feet. And every spare of which they eat. But still I think that nothing beats The kangaroos with rumble seats.

The price of raw milk in the United States is the lowest in fifteen years. Government reports recently released verify this statement.

The Michigan market is particularly demoralized. Many of our neighboring farmers have felt the condition keenly.

In an effort to relieve this local condition and further to give the people of Northville the benefit, beginning SATURDAY, FEBRUARY 21ST, we will REDUCE OUR PRICE on bottled milk.

We will sell tickets each good for one quart of milk at our dairy, 12 FOR \$1.00. We will sell tickets, each good for one quart of milk, 70 FOR \$5.00. All bottles exchanged at these prices must bear our registered name or be plain bottles.

The high standards which we have maintained for the past five years will continue 100 per cent.

Our manager, Mr. Koldyke, a university graduate, complies with all state and local regulations. We have in stock at all times a COMPLETE line of DAIRY PRODUCTS, produced in a complete and modern plant.

These prices contemplate no deliveries.

Published in the interest of the Northville Schools

Realizing that students and parents may wonder how the school athletics are financed we are printing a report which covers the first semester's activities.

All funds are handled by a Student Council composed of representatives from each of the four upper classes. In a later article I will say more concerning the personnel and duties of this group.

You will note that considerable money is collected and spent during a season. Northville is one of the few schools in the vicinity able to make its program pay. This is only possible when the townspeople and student body lend their united support.

R. H. AMERMAN

NORTHVILLE SECOND TEAM DEFEATS FARMINGTON

Northville's second team also beat Farmington by one point in their game last Friday. The final score was 13 to 12. Their game was no less thrilling than that of the first. The game showed real basketball. Lewis Campbell, the fast second team forward, scored eight of our thirteen points. When Farmington got the ball Northville usually had them in a tight place and guarded them so well that the forwards did not complete half of their passes. Lemmon, who started as forward, although he did not score, displayed a very smooth dribbling and recycling of passes. Robinson jumped for the second team, and Kohler was at guard in place of Beasley until the last quarter. All played with the real spirit which has prevailed in the second team in spite of the losing streak. Westphal played a much better game.

Game by Quarters:

First Quarter:

Lemmon missed a foul and Campbell made the first score of the game. A double foul was called on Campbell and Lemmon. Farmington failed to score. Campbell made another basket and was followed by Westphal of Farmington. Robinson missed a foul. Westphal of Northville came up with the ball and scored. The quarter ended without further score. Score: Northville 8, Farmington 2.

Second Quarter:

Thompson went in for Lemmon. Campbell opened the quarter with a pretty long shot. Robinson fouled Westphal who made his shot. Campbell tossed in another and Farmington called a time out. No score was made in the period after play resumed. Score: Northville 10, Farmington 3.

Third Quarter:

Catherman went in for Taggart. Westphal made the first score. Campbell was fouled and made the shot good. Westphal again scored for Farmington. Thompson tossed in a pretty shot. Lemmon replaced him at the end of the quarter. Score: Northville 13, Farmington 7.

Fourth Quarter:

Lemmon missed a personal and then fouled Turner who also missed. Beasley replaced Kohler. Campbell was fouled but missed. There was no further score until there were but two minutes to play. Then Catherman tossed one in to come within one point of the score. We held the ball with only one attempt for a shot until the end

Robinson C. Westphal

Kohler R. G. Brooks

Westphal L. G. Taggart

Substitutions: Farmington, Catherman for Taggart, Northville, Thompson for Lemmon, Beasley for Kohler.

NORTHVILLE WINS SPECTACULAR GAME

Northville broke its slump and losing streak when it crushed Farmington with a one point margin of victory. The final score was 13-12. Charles Ruffenberg made the final score of the game with but fifteen seconds left to play. Northville put on a real exhibition of passing, and clever basket shooting. The offense worked more smoothly and with a greater speed than ever before. It took Farmington by surprise at the start of the game and Dusenbury had run up six points at the end of a minute and a half of play. The game was very close. Farmington led us by one point on two occasions in the last period. Greenlee played a faster game than he has this season.

Moss, the Farmington center, was six feet two and one half inches tall. He out-jumped him most of the time after the first period, however. Northville now has a real basketball team.

The game by quarters follows:

First Quarter:

Dusenbury made the first score of the game when he was fouled by Fox. He was fouled again and made another point. Then through two clever passing plays, Dusenbury added four more points to our lead. Farmington called a time out, after which they settled down to steady playing. Greenlee took the ball the length of the floor and tossed it. In Johnson fouled Fox but he missed the shot. Ruffenberg fouled Moss who made the first Farmington score. Beach fouled Fendt who scored. Drake took a long pass from Fendt and made his shot at the end of the quarter. Score: Northville 8, Farmington 4.

Second Quarter:

Cavell went in for Johnson. In the first four minutes of play, there was no score. Ruffenberg was fouled by Fendt and made one point. Ruffenberg fouled Moss, who also scored. Greenlee missed a foul shot. Dusenbury fouled Johnson who missed the shot. Cavell fouled and made his shot. Cavell fouled Nicholson, who was in for Horwath, and then Drake, who made both of two shots. The next play ended the half. Score: Northville 11, Farmington 7.

Third Quarter:

Thus far, save for the first two minutes of play, Northville had played a conservative game. Farmington concentrated on offense but missed most of the shots. Cairns, in for Fox, scored on the first play. Cavell fouled Fendt who scored. Greenlee took the ball the length of the floor again and tossed it. In Moss was fouled and scored. Ruffenberg and Dusenbury were fouled, Ruffenberg scoring. Fendt made a long one as the quarter ended. Score: Northville 14, Farmington 13.

Fourth Quarter:

Moss seemed very heavy on his feet and Beach was getting all of the jumps. Dusenbury scored a personal. Cairns came down fast and tossed one in from the side, tying the score at 15. Cavell fouled Cairns who made his shot giving Farmington a one point lead. Cavell was taken out on personal and Johnson came in. With but four minutes to play Dusenbury made a basket, regaining our lead. With one minute and forty-five seconds to play Fendt took it away from us, by a nice shot after a pass from Cairns. Farmington, instead of holding the ball and waiting for the gun took a risk and attempted several shots and lost the

GRADE NOTES

The Fourth, Fifth and Sixth grades sang at the Parent Teacher association Thursday night, February twelfth.

They had a Valentine box in Miss Eldon's room Friday.

The Fourth graders sent Wanda Bender a valentine. She is ill at the Maybury sanatorium.

Betty Lou Mida is a new pupil in Mrs. Congo's room.

The pupils in Mrs. Congo's room are writing a play to broadcast over their radio. The play is called, "Which mouth is best?"

The students in Miss MacDonald's room made "Lolly Pop Dolls" for Valentine's day.

Betty Jean Curtis is moving to Sales.

Marvin Scholitz has returned to school, being absent on account of illness.

Ray Forrester is a new pupil in Miss Reinke's room.

Miss Reinke's pupils had a Valentine box in their room.

In Miss Aldrich's room the pupils are making patriotic badges and shields to represent George Washington and Abraham Lincoln's birthdays. They are learning the flag salute.

Evelyn Ambler and Robert Secord are new seventh graders in Miss Van Vleet's room.

The seventh graders are studying literature. They are also making booklets to represent the books in the library, colored covers and the titles are the same. They have made sixty already.

GIRLS' BASKETBALL

I'm sure that everyone attending the girls' basketball game last Friday night with Farmington, will agree with me that it was exciting. And just think—only one point behind. There was some shouting before that final whistle blew. Though Northville lost it was by such a small score that it was considered almost a tie. We can't all be winners no matter how much we would like to be.

There was some good playing on both sides.

Here is the line-up:

Miriam Richards Forward

Gertrude Deal Forward

Maria Humphries Jump Center

Peggy Blake Side Center

Florence Balco Guard

Lucile Wolfe Guard

Substitutions:

Hester Keller for Miriam Richards,

Myrtle Lemon for Gertrude Deal,

Peggy Blake for Marie Humphries,

Beverly Stannan for Florence Balco,

Lillian Castle for Lucile Wolfe, Gertrude Deal for Beverly Stannan.

ball. Charles Ruffenberg dropped in the winning shot with only fifteen seconds of game time left. Moss was fouled by Dusenbury when play was resumed, but missed his shot. We held the ball until the end of the game. Final score: Northville 13, Farmington 12.

Line-up:

Northville Farmington

Riffenberg R. F. Fox

Dusenbury L. F. Fendt

Beach C. Moss

Greenlee R. G. Horwath

Substitutions: Northville, Cavell for Johnson, Johnson for Cavell, Farmington, Nicholson for Horwath, Cairns for Fendt.

N. H. S. Science Department Conducts Experiments

Side by side in their respective cages two little white mice are living in state. Every day at exactly the same hour their keepers bring them food, and every day a conversation something like this occurs:

"I have better things to eat than you do," says little Nemo. "See, I have cake and meat and coffee. I don't have to drink milk like you do."

"Well," answers the other, "The milk and brown bread and lettuce that I eat are going to make me healthy. Just you wait and see!"

Nemo and his small brother have lived in Mrs. Cook's classroom for a little over a week now and, as they are a project of her eighth Science class, we watch them with interest. We paid them a visit today and find their respective appearances rather different. Poor Nemo looks badly rattled, his once silky white coat is in a sad state. Otherwise he seems in perfect health, and just as lively as his brother.

On the other hand, little brother looks the same as he did a week ago. His white coat is as sleek and shiny as ever. His actions remain the same as usual.

The class tells us that within a few weeks the difference between the two will be more marked. They tell us that Nemo's improper diet will, in the end, cause his death. We mourn his untimely departure, but we, I hope, will take the warning he unknowingly gives us.

PARTY IS TRIUMPH

The regular monthly party held Saturday evening in the high school gymnasium for the purpose of raising money for their proposed trip to Washington, was a decided success.

Gay bunting in the form of white streamers and red hearts lent a holiday appearance to the room. About 50 couples were always on the floor dancing to the music of Arthur Moer's "Blue Serenaders."

A "Broom Dance" in which two of the boys danced with brooms until the music stopped, at which point they dropped their "partners" and made a dash for the girls who were changing their partners was a big feature. There were always two men who had the brooms as dancing companions, much to their own embarrassment. The spirited rivalry of the boys to get to the girls before they were stuck with brooms caused many laughs.

The next dance to be given by the Senior class will be some time in February. The dances have proved to be so popular that many have requested that they be given every two weeks. The Senior class has not yet given a decision on how often they will be held.

White Rats Are Experimented On In Miss Reinke's Room

The pupils of Miss Reinke's room are experimenting on two white rats, as their Hygiene project, one is poorly fed, while the other is being fed fresh fruit and vegetables; also milk. In a short period of time the rats are going to be weighed to see which diet is the most healthful.

The time-killing habit is like a sheep killing dog—absolutely no value in the world.

ADVICE TO THE LOVELORN

W. of the Journalism Staff, ways willing to aid any of our readers in their love affairs. Questions will be answered in this column. Should you desire a personal answer enclose a stamped self-addressed envelope. All communications should be addressed to Journalism Staff, Northville High School. We are glad to answer the following questions today.

Q. How can I be sure that my sweetheart loves me?

A. Invite him to supper, and prepare the food yourself. If after eating the biscuits, he still stays, then he loves you devotedly.

Q. My fiancée is Italian and insists on eating spaghetti. What can I do?

A. Buy a good spaghetti maker, and advise him to stay at home for two hours after eating.

Q. My friend and sister are always quarreling and drawing me into their arguments. What shall I do?

A. See your girl-friend twice a day, see your sister twice a year.

Q. My fiancée and I have been engaged for two years, but we won't get married because we can't agree on what kind of furniture to buy. Please advise us.

A. That's easy. Rent a furnished apartment.

Q. What is your advice to prospective June bridegrooms?

A. Wait until July. You'll need the advice more then.

Q. What would you have answered your sweetheart, who is a butcher, if he told you that the steak was as tender as a woman's heart?

A. We'd have replied, "Give us a pound of sausage."

Q. What is love?

A. An itching sensation of the heart that cannot be scratched.

DID YOU NOTICE THAT:

Buntee Cousins were a new dress on the occasion of her return to school?

A kind person (Mrs. Ray to be exact) donated some beautiful roses to the faculty invalids?

The impossible has happened? Mary Ellen Barbour has been shorn of her crowning glory!

Ned Junod looks particularly bright? He is the star Arithmetic Student in Senior Review.

Our basketball captain has suddenly cheered up? Even a lost game can't dim his spirit. For further information refer to the first item of this column.

Mickey McCordie has presented a new scientific problem? He recently startled the geography class by exclaiming: "Which came first, the chicken or the egg?"

Wilma Rattenbury is gaining in weight? Mathematical experts estimate that in a year she will have gained three-fourths of an ounce.

LEE DIRECTS QUARTET

F. W. Lyke wishes it to be known that he is not the director of the high school quartet. Through an error last week it was announced that he had directed the quartet in their numbers at the Methodist church at the Father and Son banquet but instead, Leslie G. Lee deserves the credit for the entertainment provided.

GOOD COMPOSITIONS

Mrs. Chapman has been very well pleased with some of the short compositions of her Sophomore English class. Following is one of the best.

IT HAD CHANGED

By Margaret Hay

It was still the old white colonial house with its spacious porch and tall pillars, but the place had changed. Where there had been a wide sweep of green lawn with a bed of tulips at one side there was a field overgrown with brush and weeds. A storm had felled the old tree where we used to swing and it had been left to decay. The old rustic bridge had been swept away by the floods. Where a white picket fence with a large gate had stood was a pile of old boards. The carriage house had not been repaired for several years. There were no children playing in the yard. The only things that remained the same were the picturesque old house, the course of the river, and the sun which was shining as it had when I was a girl playing there. It was still the same old mansion on the hill but the life was gone.

Inter Gym Class Basketball

The inter-gym class basketball tournament is over and the winning boys saw plenty of action before they came out victorious.

About 90 boys took part in the tournament and the teams which lost the first game were entered in another tournament which was known as the "consolation."

The team that won the tournament was a team captained by Robert Reed. The other members were Herbert Ware, Donald Bray, Billy Duguid, Robert Christensen and Jabez Bacon.

The team which won the consolation was captained by Arnold Robinson. The other members of his team were Jack McLoughlin, Bob Lyke, Jack Junod, Chas. Strautz and Milton Weeks.

CAMP FIRE NEWS

Anyone passing Mrs. Ray's room last Wednesday night after school, would have found a group of girls (Camp Fire Girls) busily engrossed in discussing the different possible ways of earning money. They are doing their very best to earn money for their camp up at Rose Center, Michigan.

One topic led to another and the first thing they knew, they were talking about old times up at Camp Wadana. There have been some mighty interesting adventures too.

Mrs. Ray told the girls about her husband's work at different lakes. She had the girls so interested that it was quite late before the meeting finally adjourned.

As yet, the girls' plans are to be held secret for awhile. They probably will be disclosed in a short time.

STUDENTS VISIT HERE

W. D. Dazis of Earlham college, and Keith Brown of the University of Michigan were guests at the home of Dr. and Mrs. H. S. Willis last week. The respite between semesters was brought to a close when Brown went back to the university and Dr. Willis took his nephew, Mr. Dazis, back to Richmond, Ind., last Saturday returning to Northville on Sunday.

Sugar Snow

A phenomenal February

Mrs. Frank Thompson is ill with the grip.

Carl R. Ely was in Detroit Monday on business.

C. B. Turnbull has been ill with the grip for two or three days.

Mr. and Mrs. Raymond Housinger entertained guests from Detroit Sunday.

Mrs. Day Calhoun has returned from a three weeks visit with relatives at Saginaw.

Miss Eleanor Eaton, who is in school at Galesburg, spent the week-end with Miss Ida Rose Cavell.

Mr. and Mrs. S. L. Brader and daughter Natalie visited relatives in Detroit over Sunday.

Mrs. Lillie Angel had as a guest last week-end, her distinguished brother, Judge Lamb of Cadillac.

Wellington Roberts went to Albion Sunday to visit his daughter, Ruth, who is attending Albion college.

The regular meeting of the Orient Chapter No. 77 will be held this (Friday) evening, February 20, at 7:45.

Mrs. and Mrs. Carl Ely spent Sunday with Mr. Ely's parents, Mr. and Mrs. Charles Ely, at Farmington.

Miss Jean Robinson spent Saturday with her grandmother, Mrs. Anna Tripp, at Highland Park, Michigan.

Miss Adleen Housinger of the West Base Line road spent the week-end with Miss Bonnie MacIntosh of Detroit.

Mr. and Mrs. John C. Melow of the West Base Line road, entertained Mr. and Mrs. Albert Schroder of Plymouth Sunday afternoon.

Frank Perkins, who has been quite ill with pneumonia for the past few weeks, is reported as showing much improvement.

Mr. and Mrs. Harry Wood went to Ann Arbor last Tuesday to visit their daughter Hazel, who is in the University hospital.

Miss Jessie Nelson had as a week-end guest at the home of her parents, Mr. and Mrs. John K. Nelson, Clarence Walters of Jackson.

C. B. Turnbull, the proprietor of the Northville Electric Shop, was absent from his place of business on account of illness a few days this week.

Dinner guests at the home of Mr. and Mrs. Harry Wagenschütz last Sunday were Mr. and Mrs. Orin Hunter and daughter, Mary Ely of Royal Oak.

Miss Marjorie Schmitt, who attends the University of Michigan, spent the week-end with her parents, Mr. and Mrs. Carl Schmitt of East Base Line road.

Patrons of the post-office Tuesday morning were sure that spring is not far off from the musical sounds of peeping baby chicks being sent parcel post.

Postmaster T. R. Callaghan reports that the postal authorities have made a new ruling which makes it possible for each post office employee to have one half day off each week.

Mrs. W. H. Elliott returned Tuesday from a visit to her father at the home of Mr. and Mrs. John T. Taylor in Detroit. Mr. Taylor is the secretary of Mayor Frank Murphy.

Word has been received that Miss Betty Chargo, daughter of Mr. and Mrs. Paul Chargo of the Base Line road, now in her freshman year at the Michigan State Normal College, has been pledged to Alpha Sigma Tau sorority.

Miss Eleanor Barkway, Urban Perault, Gail Downer, Raymond Westfall and Miss Dorothy Lanning all motored to Waldron, Hudson and Prattville, Michigan over the week-end to visit friends and relatives.

Mr. and Mrs. Arthur Wilson and daughter, Ardith of Detroit, were Sunday guests of the Ira Eisner family of West Base Line road. Mrs. Wilson is the general science teacher in the Tappan schools of Detroit.

A real estate dealer asks this pertinent question, "Why is it that Northville has very few houses for rent while our sister city, Plymouth has any number?" Many people who work in Plymouth make their homes in Northville.

Mr. and Mrs. John F. Carden have been in Pennsylvania visiting relatives for three months. They have been home in Northville for two weeks.

Mr. and Mrs. M. Kennedy from Redford spent Thursday with Mrs. Harriet Angel.

A ten-pound son was born to Mr. and Mrs. Clifford Cochrane on February 12, at the home of Mrs. Cochrane's mother, Mrs. Chas. Wade. This is the second son in the family of Mr. and Mrs. Cochrane and he has been named Harold Edgar.

George Beard, son of Mr. and Mrs. E. S. Beard, who graduated from the engineering department of the University of Michigan last June, has gone to Duluth, Minn., to accept a position as junior engineer in the United States engineering office.

A son was born to Mr. and Mrs. Wm. Scherer at the St. Joseph hospital, Detroit, Monday, February 9. The boy has been named Peter Pendleton and he is the grandson of Henry Scherer, vice president of the Michigan Central railroad in Detroit.

Mrs. Jennie B. Sheafmoecker, accompanied by Mrs. Geo. W. Fowle of Detroit, has returned after a visit of several weeks at Versailles and Buffalo, N. Y. Mrs. Fowle will spend several days at the home of Mrs. Kate Hurbin before returning to her home in Detroit.

Miss Alice Barbour, daughter of Rev. and Mrs. W. R. Barbour, who has a position as cashier in the Harvey Tea room of Cleveland, O., is at the home of her parents here recovering from an illness of two weeks with arthritis. Miss Barbour hopes to be able to return to her position soon.

Ray Covall, who has recently undergone an operation in Detroit for the removal of a piece of bone from his nose, is able to be back home again. Mrs. Covall, who is chief operator for the Michigan Bell Telephone company of Northville, says that the injury was received several years ago when Mr. Covall was playing ball.

LENT IS HERE

Muddy roads

Election March 2

Days are lengthening

The Orange and Black, local school news, will be found on page three.

Northville township Republican caucus March 7.

Mr. and Mrs. Richard T. Baldwin and three children, while house hunting, have taken rooms at the home of Mrs. Bertha Neal.

Guests at the home of Mr. and Mrs. Joe Litsenberger over Sunday were Melvin Walber and Miss Anna Alice Maloney of Detroit.

The Northville banks will close next Monday because of a legal holiday, Washington's birthday, which although falling on Sunday, will be celebrated Monday.

The local troop of Boy Scouts will attend the First Presbyterian church on Sunday, February 22, at 10:30 a. m. Rev. Harold G. Whitfield of that church will preach the sermon.

Mr. and Mrs. John Kalbfleisch will drive to Florida at the beginning of the week for a two month's stay, following which they will return to Northville.

Little Dorothy Jane Congo is the latest victim of the scarlet fever. She is the daughter of Mr. and Mrs. J. A. Congo. Mrs. Congo is a teacher in the third grade and is in quarantine with her daughter. During her absence Mrs. Ulrich is substituting in teaching.

There will be a meeting of the American Legion auxiliary at the Presbyterian church house next Tuesday evening, February 24. A dinner will be served. Followed by initiation. Please notify Hestia, Blowers, 141 Water Monday noon for reservations. Phone 134.

Methodist ministers and laymen from the Ann Arbor district will meet at the Methodist church in Wayne next Monday, February 22, for an all day meeting at which time they will be addressed by Dr. E. R. Fulkerson of Japan, a former United States consul. Dr. Fulkerson is expected to address the Methodist congregation here.

A hot water tank explosion brought the Northville fire department to the home of Curtis J. Batt at 312 Beal street at 1:30 o'clock Monday morning.

Mrs. Batt, who heard the explosion, did not open the door and thinking the cloud of steam coming from the tank was smoke, called the fire department. The firemen, responding immediately, shut off the water and cut down the source of the steam. Through their efficiency, the damage done was estimated to be small.

An inch of snow Thursday morning followed two weeks of exceptionally mild February weather. The moisture is welcome to the farmers who have complained in no uncertain terms that their crops will suffer on account of this bright last summer and the slight amount of snowfall this winter. The mild weather so far this year is in marked contrast to the usual rigorous Michigan winters. Far from feeling dissatisfied with the weather condition, Northville residents have expressed themselves as well pleased with the handicuffing of the Old Man From the North.

Mrs. Chas. Dubuair, Mrs. Don Yerkes, Sr., Mrs. Thad Knapp, Mrs. Ray Larkins, Mrs. Carl Bryan and Mrs. Susan Eaton attended the regular meeting of the South Ann Cochrane chapter of the D. A. R. held at the home of Mrs. Henry Doell, 447 Harvey St., Plymouth, on Monday afternoon. A very pleasant surprise was given the members of the chapter when Mrs. Knapp very graciously presented them with a beautiful mounted silk flag originally owned by Miss Cochran after whom this chapter was named. Mrs. Dubuair, in her usual pleasant manner presented them with a miniature in colors of Miss Cochran.

NEWSY NOTES FROM NEARBY PLACES

(From The South Lyon Herald)

Alford's contribution to the Red Cross drought relief fund totalled \$52.

Thieves recently broke into Oxford high school and made off with \$60 in school funds.

Livingson county will have 645 descriptions listed for the annual tax sale this year. Oakland will have over 86,000.

Ignace Jan Paderewski is to appear at the Friday night concert of the May Festival, U. of M. School of Music, May 15.

Genesee county fair is winding up affairs and will cease to function. It has an indebtedness of \$27,000. Fair grounds are at Davison.

One of Ovid's citizens recently sold a collection of 6,000 Indian relics, which he had accumulated in over a period of 40 years for the sum of \$7,800.

Report has it that about 5,000 fishermen's shanties have been scattered over the ice of Lake St. Clair. Many more than usual this year, due to no employment.

Just the other day, Deputy Sheriff John Marek of New Hudson arrested Fred Warner of Lawing, at the former place, on a charge of transporting liquor. It is said there were forty-five gallons of whiskey in his car. Warner pleaded guilty to the charge.

Upon returning from a trip, a Linden resident told that folks up here don't know one-half of the actual needs of people in the drought-stricken area of the South and Southwest. He said it made one heart sick to see the want and destitution of the people.

Somebody over in the neighborhood of Laingsburg has gone to the trouble of making affidavit in order to make his story stick, to the effect that while hunting in the northern peninsula he came upon wolf tracks measuring fully 5 1/2 inches across. The wolf must have been a bear.

Plymouth has a unique industry. Old bottles, broken or otherwise, are trucked there from several cities where they are cleaned and shipped to a glass concern at Lancaster, Ohio. Here they are melted and remade into fine glass ware. Milk bottles are the main source of supply.

It's nothing out of the ordinary for a horse to find his stall. But when a driverless automobile turns into a garage — — — Anyway, that's what happened in Brighton the other night. Roy Dunlap cranked his Dodge, unaware that he had left it in gear and the thing started down the street in gay fashion. Going some distance it finally turned in to a garage, as a consequence of skidding on the ice. The door was locked, but what did that matter, it simply knocked out the whole front wall, rolled inside and smashed a headlight.

NORTHVILLE GIRLS MEET PLYMOUTH IN BASKETBALL

Wednesday afternoon and evening the girls of the public schools from the Northville and Plymouth schools met in a "play day" which was sponsored by the courtesy of the Plymouth Woman's club. Members of the Northville Woman's club conveyed the girls to Plymouth in their cars and at four o'clock the contests began. The first games were between the seventh grades of these schools when Newcomb was played the Plymouth girls winning in a Newcomb game between the two eighth grades, Northville won. The rest of the basket ball games were lost to Plymouth excepting the game between the seniors in which Northville carried off the honors. All the games were well played and it is believed a fine fraternal feeling between the two schools was encouraged by these friendly encounters.

A dinner was served to the girls by the Plymouth women. Northville high school faculty was represented at Plymouth by Mrs. Stalker, Mrs. Taylor and Mrs. Zimmerman.

Next year Northville will return the courtesies by inviting Plymouth to be her guest.

How It Started

By JEAN NEWTON

TO MAKE BRICKS WITH-OUT STRAW

FOR several thousand years this phrase has been used in a great many languages and always in the same sense—that of supervening a task which is either impossible or one which is rendered difficult by the extreme because of the failure to be supplied with some material or aid that is vital to the accomplishment of the matter in hand.

As many of our readers may be aware, this line, like many others in daily use, comes to us from the Bible.

We have it from the book of Exodus in which is described in detail the trials and tribulations of the Israelites during their enslavement by the Egyptians, one of which was the burden imposed upon them of making bricks without straw.

This, incidentally, was the straw which, figuratively speaking, broke the camel's back and which led to the infliction upon the Egyptians of the series of plagues, culminating in the long trek of the Israelites to the Promised Land and the decline and fall of the empire of the pharaohs.

on a new car standing there. Damage amounted to about \$75.

And now some say the ground hog didn't have to come out of his winter retreat on February 22 as he had already been out, hibernating in fence corners all winter because of the mild weather. Along comes someone else pointing robins bobbin' around. Over in another section of the county some have seen a cat like snake and up at Oxford a young man dug a can of angle worms last week then bled himself to the nearest lake for a few hours fishing. Then of course there are the roller skaters and the evidence of small boys with marbles. Put the poor folks who have gone south to dodge the cold!

NOVI NEWS

Mr. and Mrs. Laws of Detroit were guests at the home of their uncle and aunt, Mr. and Mrs. S. H. Andrews, Sunday.

Mrs. Susie Mairs attended the Executive Board meeting of the County W. C. T. U. in Pontiac last Friday.

The Home Economics Club met with Mrs. Verne Hardy on Thursday afternoon. Mrs. Bittmeyer of Walled Lake assisted in giving the lesson, which was the making of lamp shades.

Mr. and Mrs. Warren Rice attended a number on the lecture course at Ypsilanti on Wednesday evening and heard Maurice Hindus speak on "Rus-sia."

Mrs. H. H. Shingwaga taken and given in Sunday evening following a consultation of doctors Monday. She was taken to Ann Arbor for an operation for appendicitis that evening.

Rev. R. O. Thompson attended services Sunday morning at the Memorial Baptist church in Pontiac where Rev. Musser is the pastor.

Mr. and Mrs. Judd Hammond returned this week from Florida, where they have been for a few weeks.

Mrs. Jack McCowan entertained at lunch Tuesday. Miss Edna Laths, Mrs. P. Phillips, and Mrs. W. Schmidt of Walled Lake.

Rev. and Mrs. R. O. Thompson were dinner guests of Mr. and Mrs. S. H. Andrews, Wednesday evening.

Mr. and Mrs. Charles Widdow of Walled Lake and Mr. and Mrs. Will White of Northville were callers at the home of Mr. and Mrs. Eugene Root last Wednesday.

Clyde Johnson is spending two weeks in Detroit studying some of the technique connected with automobiles and garage work. He is employed at Walt's garage.

Mrs. Wm. Davidson of Danville came Tuesday to make an extended visit with her sister, Mrs. Wm. Gould.

Mrs. Esther Moore and Mrs. Ina Bower went to Pontiac last Friday to the Home Economics Club.

When the fire struck was returning from the fire on Grand River early Sunday evening, they collided with a car of the corner and Earl Tietz, 615, the unfortunate, came to be injured in the collision. He was on the side of the truck and sustained two broken ribs. He was taken to the hospital in Northville where he remained under observation for a few days.

Principal R. H. Amerman of Northville High School was a dinner guest

at the home of Rev. and Mrs. R. O. Thompson, Monday evening.

Mr. and Mrs. Warren Rice entertained her parents, Mr. and Mrs. Charles Perry of Farmington and an aunt, Miss Rhoda Perry of Capac, at dinner Saturday evening.

The fire department was called to the large old building across from the Post Office early Sunday evening. The chimney burned out and a fire caught on the roof which was quickly extinguished. Two families occupy the building. Mr. Hines and Mr. McCrumb.

E. J. Verdun returned from Milwaukee Sunday morning. He has been having dental work done by his son-in-law, Dr. Lionel Grant. Mrs. Verdun spent part of last week with her sisters in Detroit and Mrs. J. R. Tennant in Dearborn.

Wm. Gould was taken quite ill Saturday but is slowly improving. Frank T. Marvin is filling his place at the White Star Filling Station during his illness.

Novi Baptist Church Notes
Morning worship at 10:30.
Sunday school at 12 noon.
Prayer meeting was held at the home of Mr. and Mrs. S. H. Andrews, Wednesday evening. The W. W. G. had charge of the services.

The week of February 14 to 22 will be long remembered by the people of this church. It is denominational young people's week and for these two Sundays and the time intervening all of the activities of the church are conducted by the young people. With this B. Y. P. U. president, Donald Stuart, presiding at the Sunday morning service, Harold Dutton, Miss Ernestine Grace and Mrs. Warren Rice were introduced as the morning speakers. The theme for the week is "A place for young people and every young person in his place." The topics "What young people think of the church and what the church thinks of young people," "What the church owes its young people," and "Are young people thinking," were the topics used by these young people. The choir was entirely of young people with Miss Marquita as pianist assisted by her father, with the corner. With the exception of one lady who sang all of the Sunday day school classes were taught by young people.

The B. Y. P. U. was led at 6:30 by Miss Marquita Huffman who conducted a splendid study hour on our denominational work. The following evening service was in charge of the president of the B. Y. P. U., Ronald Dutton. He spoke on the hope of immortality through Christ, using the last part of 1 Cor. 15 as the basis of his talk. All our young people are to be commended for the splendid spirit in which they entered into this work and are to be congratulated for their ability to handle such a task. They will appreciate the cooperation of all next Sunday.

The young people under the direction of Linn Leavenworth gave a Valentine party at the church Saturday evening. Fun for all and a good lunch charmed the evening's entertainment.

The meeting which the Children's World Crusade were invited to give on Sunday morning, to the church audience March 1, will be postponed under the first Sunday in April, and the regular meeting will be held at the regular time and place March 1.

The ministers' conference of the Wayne association will be held here next Tuesday, February 24. The men of the church are requested to be present in the afternoon. Rev. H. H. Savage of Pontiac with his singers, Mr. and Mrs. Ramsey, will have charge of the evening meeting. Do not fail to hear the fine musicians with several instruments. An offering will be taken for them.

A large crowd attended the Mission band at Mr. and Mrs. Frank Rice's last Thursday Pot luck dinner was served to about 30 people. An interesting program was in charge of Mrs. W. D. Flint in the afternoon. Mrs. S. H. Andrews very ably assisted the hostess in the preparation of the fine meal.

How It Started

By JEAN NEWTON

"A DAUGHTER OF EVE"

TO SAY of anybody that she is a daughter of Eve is simply to indulge in a flourishing statement to the effect that the person referred to is a woman.

This seems such a natural phrase that one would think it had always been in our language—dating back, in any event, to the time of Eve.

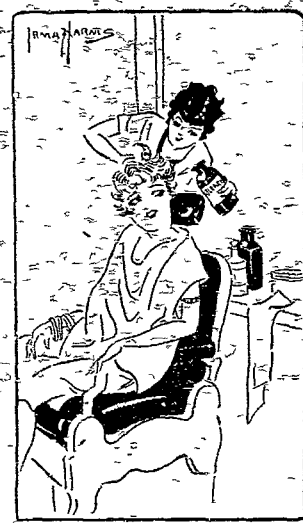

The fact is, however, that we do not find it till it appears in Shakespeare's "Merry Wives of Windsor," published or produced in 1600.

It is possible, of course, if not probable, that the term was part of the English language before; but, at least, Shakespeare gave it literary sanction and probably lent emphasis to its popular usage.

(© 1931, Bell Syndicate)

SMILES

GABBY GERTIE

"Most girls are fair in business since it is generally known that gentlemen prefer blondes."

If the railroad placed a "low bridge" sign at every crossing some fool would stand up in his seat to try and show that the company was "spoofing" the public.

THE WHY of SUPERSTITIONS

By H. IRVING KING

BURNING LOVE LETTERS.

"DON'T burn your love letters or your lover won't marry you," is a superstition which is often heard of and which may be responsible for the mass of "cloying" correspondence which is so often produced in breach of promise suits. The superstition, however, is based on no far-sightedness for the time when "his love grows cold" and is not designed to strengthen the bonds of love through legal proceedings. It is based on quite another idea—the idea of contagious magic, a primitive theory which plays an important role in the world of folklore.

By contact the love letter imbues a certain amount of the "ego" of the writer, and by contact imparts the same to the recipient of the missive. A connecting current, as it were, is set up between the lovers. In more senses than one, the love letter is a "live wire."

Besides this contagious magic there is a letter what is known in mystic lore as "The name of names"—that is a certain magic power which is supposed to reside in a name, often of spoken. Among many primitive peoples today, persons are known by a nickname, their real names being kept secret lest some enemy should get possession of them and work them harm through that medium. And among savages there is no closer binding force between two people than an exchange of names. By this exchange the parties exchange identities. In a love letter the name of the writer is likely to appear, and so having this written name written by himself, the recipient is able to hold through it a binding force over the writer. Now, if you destroy all this you naturally weaken or destroy the magic forces which bind to you your lover—and you lose him.

Personnel of Big Banks
The National City bank, including its branches abroad, employs more than 10,000 persons, 3,800 being employed in its New York offices; the Guaranty Trust company has 5,000 on its payroll.

A roadbed at a grade crossing is a poor place to take a nap.
Say it with SAFETY and SAVE the SIGNS

25 Years Ago

Wm. Ely, the popular landlord of the Park House, sold his mare, Ruth Dillard 2:21 1/2, to Detroit parties last week for \$800 cash.

Mr. and Mrs. Will Cattermole were given a pleasant surprise visit over Sunday by Mrs. Cattermole's mother, Mrs. Collins of Wayne and brother, Mr. Collins and wife and two children of Detroit, in honor of the birthdays of the host and hostess which occur only four days apart and are always celebrated at the same time.

L. W. Hutton fell down the stairs at the Methodist church Friday night while carrying water during the preparation of the supper there, spraining his wrist and thumb quite badly. Fortunately no other injuries have developed.

Mrs. I. T. Crocker is to organize a dancing class for children next week, Tuesday, in Chadwick's hall.

The annual meeting of the Woman's Missionary society was held.

A blaze at the American Bell & Foundry Co's plant called out the fire department Monday but the company's hose was used to such good effect that the services of the fire ladders were not needed after all.

Sheriff Burns and his lusty team of deputies came out from Detroit last Friday night to do things to the bowing business men of Northville, but even a whole bunch of sheriffs was not sufficient to arrest the victory that was coming to our local experts. C. A. Sessions was high man with the tidy little mark of 194.

Little Carl Van Valkenburg, who has been so seriously ill with appendicitis is much better and will soon be able to be in school again.

The local ice harvest is practically completed and in spite of all previous fears to the contrary our dealers have on hand a big supply and of a prime quality. The Richardson-Warner factory has its storage capacity fully supplied and W. E. Ambler will finish the filling of his houses this week.

Mr. and Mrs. G. A. Gardner, Mrs. A. C. Harmon and Miss Marie Harrington attended the play "All Tangled Up" given by local talent at Plymouth last evening. The play was exceptionally well rendered and was a great credit to all participating. It is to be repeated this evening.

The G. A. R. have moved from the hall in the Freydl block to Chadwick's hall.

"SUCH FLAVOR and tenderness in roasts!"

"I cannot praise my ELECTROCHEF electric range too highly!"

EVEN the cheaper cuts of roasts cook to melting tenderness in the oven of my ELECTROCHEF. What a difference electric cooking makes! I use very little water, and the delicious natural flavors of meats are sealed in. Of course, besides being healthful, this is economical cooking. There is almost no shrinkage. A roast weighs nearly as much when taken out of the oven as when it was put in. I think electric cooking is splendid, and I cannot praise my ELECTROCHEF electric range too highly."

CASH PRICE \$105 INSTALLED including all necessary wiring. \$10 down, \$6 a month, small carrying charge

*A study of one thousand families using the ELECTROCHEF electric range showed a cooking cost of less than nine cents a meal a person

Hudson Greater Eight Has New Shock Absorber

A new feature on the Greater Hudson Eight is a new type two-way shock absorber of positive action. This is only one of the many improvements that make for greater comfort and luxurious riding in this stylish new Hudson offering.

CHICK HAS REVERSED WINGS

Fond du Lac, Wis.—A chicken that would have to turn upside down in order to fly properly was exhibited here by Charles Brotherton, Laramie farmer, who discovered it in a flock of chickens he raised. The perfectly normal wings of the chicken are reversed with feather side underneath. The chicken is normal in all other respects.

Even the finest hospital in the world is a poor place in which to wind up your vacation.

To keep brown sugar from becoming hard, keep it in a covered tin can. It may also be kept in a covered earthen jar. If it seems a little lumpy, add an apple, cut into sections, to the jar. Too much water in a washing machine causes excessive splashing and of ten reduces the efficiency of the machine. Observe where the water line is, and also be careful not to overload the machine with clothes. Always iron with the thread of the goods and iron until the garment is dry. Otherwise it will pucker. To remove the shiny gloss on seams, tucks or hems moisten a piece of soft cloth in clear water, wring it dry, and wipe it quickly over the shiny surface.

Moved by Perrin, supported by Higgins that Loyd German be dismissed from the Fire Department. Carried unanimously.
On motion meeting adjourned.

FRED HODGE
Village Clerk

Why Boys Leave Home

BY JOE ARCHIBALD

West Point Park

George Lewis and family are moving into the house owned by Mrs. Perrin. Mr. and Mrs. Perrin will take possession of the house and garden left vacant and owned by William McInish.

Mrs. C. W. W. was a visitor with her daughters, Mrs. Isaac and Mrs. Family, at her grandfather's, Mr. and Mrs. Charles Wilson and three great-grandsons on Tuesday.

The Metropolitan Spelling Bee is being held, sponsored by the Evening News. This is one of the best ways to get to the bottom of the problem and to the ability of the boys and girls in the generation.

Mr. and Mrs. Carl Coe are the proud parents of a baby girl. West Point Park's best base ball pitcher.

The three pupils, Vivian, Shirley and Jean Adams have been absent from school on account of illness.

Mr. and Mrs. Fred George entertained at a bridge party Mr. and Mrs. James Eastman, Mr. and Mrs. William Zwahlen, Mr. and Mrs. Albert Nacker, Mr. and Mrs. McLean and two sons.

Mrs. May of Muskegon and Miss Alice Say of Los Angeles were visitors with Mrs. and Mrs. John Meyer on Tuesday evening.

William Owen is sick and unable to attend school.

Mrs. McInish and Miss Jean Adams of Detroit were visitors at church Sunday morning and heard their brother give a very fine sermon on the Prodigal Son. His talk was appropriate at the time.

Mr. and Mrs. Arnold and family spent the week-end with the latter's mother, Mrs. Shaffer of Livonia Center.

Mrs. Ethel Middlewood gave a shower Saturday at her home in honor of Mrs. Howard Middlewood. Many gifts were received and a delicious lunch served. We all wish the couple much happiness.

Mr. and Mrs. William S. Simley of Silver Lake are visiting at their daughter's home Mr. and Mrs. George Lewis and family on Seven Mile road.

Mr. and Mrs. Ward Schaefer, our former groceryman, have moved to the corner of Plymouth and Starkweather road where they are going to open a store.

Mr. and Mrs. Emerson Ault entertained the West Point Park church choir Friday evening.

Mr. Albert Holman is unable to leave the house. He is still very poorly.

Mr. and Mrs. William Thornton of Base Line road were visitors at the former's brother, Mr. and Mrs. Charles Thornton of Northville.

The Base Line Pedego club met at the home of Mrs. Clarence White Thursday afternoon. Prizes were won by Mrs. E. H. Haver. The next meeting will be at the home of Mrs. Lee Wilcox.

Mrs. Anson Schweizer was a welcome visitor Friday afternoon of Mrs. Walter Schweizer in Clarencville.

Ted Ferris of Clarencville accompanied by Rupert Turner formerly of this place, motored through to Chicago to visit with the latter's sister, Mabel.

The Pedro party Saturday evening was largely patronized. Mr. and Mrs. Emerson Ault were host and hostess. Prizes were won by the following ladies: Mrs. M. Kern, first prize; Mrs. Eleanor Martz, second; Mrs. Molly Shriver, consolation. For the gentlemen: Willie Kuck, first prize; Frank Byron, second and Eddie Gillyin, third.

Fred George won the house prize. Proceeds from Pedro parties are to assist in payments on Community Hall. Mr. and Mrs. Earl Wolfe will entertain the company on the twenty-eighth.

The Father and Son banquet Friday the twentieth promises to be a great success. At half past six dinner will be served after which a program that will be amusing and helpful will follow. Mr. Miles Culeham will be the principal speaker. We are fortunate in having such a talented orator. There will also be some local speakers on the program. Tickets only sixty cents.

Mrs. Alfred Bergham returned home after a visit to her mother's home in Detroit. A pleasant surprise awaited her on arriving at her home. Her husband redecorated the whole house. It is beautifully done and we are pleased to have her back.

Loyalty is a mark of good breeding. Without loyalty nothing would be a success. This is just as true in one thing as another: there are no exceptions to the rule. Loyalty means success; it means a healthy growth; it means harmony; it means that things are being done which are worth doing.

One of the worst human characteristics is that very few men are ever able to see their own faults. Neither are men usually willing to be told wherein they might do things better. But individually, we should tolerate no man is perfect. With this assumption ever in the background of our minds, we are better able to overlook the trivial mistakes and shortcomings of others.

NUTTY NATURAL HISTORY

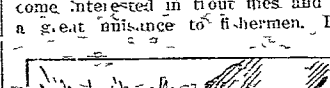

BY HUGH HULLON

THE FRIZZLED FLYNIPPEE

This creature is an excellent example of the Darwinian theory of evolution. In the early Miocene age the frizzle was only a small, but the frizzle began using them as a substitute for a parachute and the wings were soon eliminated. Then the nippers began to fly. But the frizzle flies which he would catch out and eat. At this time developed the frizzle on his upper lip to enmesh the flies. During recent years he has become interested in trout flies and is a great nuisance to fishermen. He

makes a good house pet and will rid the place of flies in no time.

Use a long peanut for the body, a short one for the head, cloves for horns and tail, toothpick legs, and popcorn ears. The frizzles can be shredded from the peanut with the point of a knife.

Werve's Creamery

MICHIGAN BELL TELEPHONE CO.

"Some one of our family always is away"

Said Mrs. Adams to her caller.
"But we manage to keep in close touch by using the telephone. Mr. Adams calls home several times whenever he is away on a business trip. George and Alice both call home weekly from college. And I telephone Mother quite frequently. ... we enjoy our telephone visits so much."

Daily, more and more people are discovering how easy it is to keep in touch with friends and relatives by telephone; how pleasant "telephone visits" are and how little they actually cost.

For instance, consider the following representative rates for three-minute, Day Station-to-Station Long Distance calls:

Detroit to Grand Rapids . . . \$.95
Grand Rapids to Sault Ste. Marie . . . 1.10
Lansing to Potoskey . . . 1.15
Saginaw to Benton Harbor . . . 1.00

For any other service you require, refer to the Classified Telephone Directory. The Yellow Pages tell you WHERE TO BUY IT.
