ELECTING CONGRESSMEN

The futility of electing our congressmen solely on home is the biggest thing he has in the world. the basis of whether they are wet or dry, ignoring their qualifications and ability, is shown in the attitude of Congressman Seymour H. Person, who was elected to succeed Grant Hudson. He veted last week against President Hoover-on the Garner-Wagner bill. We note that his octe-is often found against what many people of his district think is for the best interests of the nation. We hear no word of praise for his record in Congress. Yet what can you expect when the voters rush to the polls and vote for a Congressman just because he happens to be wet or dry. He might be a "dumbbell" along all other lines. No wonder thoughtful people wonder if the end of democracy is near. Some of our congressmen make a sorry showing for democracy at times.

THE REIGN OF GOOD WILL

Following the good news that Northville at last is to have its bank, one of the best citizens in the village—yet a man of strong convictions - said to us: "Now we must forget a lot of things and start a time of good will. If we do this they can't stop Northville."

This Northvillian is right. If we all get together, we can do anything. On the other hand, if our leadership is divided and we let personal prejudices and a spirit of revenge dominate our actions, we shall all lose.

Northville, without any question, is in the presence of a great opportunity. We can go ahead amazingly if we WHAT OTHER EDITORS all work for a common cause in a wonderful community. We, the men, women and children of this locality, have in our hands our own destiny We think the leadership is here for us to win. What do you say? .

WHY WE ENVY ONE MAN.

This is honest confession. We envy no man in North- a swamp, ended a four months ville or the United States his money or his stocks or farm. We have enough sense to know that we should not be equal to the task of handling the money-that some men have. There are only two kinds of folks that we even think of envying and then we only envy what they have, viz., health pondency which prompted the rash and character. We should like to live to be 80 years old act it is becoming more and more envying and then we only envy what they have, viz., health and that means you have to look to the health angle of swident that the ran-rah type of

But this morning as we write this. we are a little impossible in college laboring under envious of a man who tells us that he has just bought a the mistaken idea that a college home. It is cheaper to live in a rented house, but it is also cheaper at certain seasons to go barefcoted than to wear shoes. There is something about home owning that you have sacrificed his precious life-becan't put on the mere basis of dollars and cents. So, even cause he did not measure up to some if it costs more, we want our own home. And we just have a because he could not live as softly hunch that a lot of folks are going to become home-owners as some of his fellow students. He in and around Northville in the months and years ahead. Should have tried something else. He would have found plenty of joy

A MILLION WET VOTES FOR ROOSEVELT

The so-called "society" women of Detroit and the eastern part of the United States are strong for repeal of the 18th amendment. That is their privilege, of course.

And according to the daily papers, they are all going to vote for Mr. Roosevelt for president. The report comes from New York that a million women decided to vote for along the main trunklines are forcthe Democratic nomines—entirely because he stands for ed to make accisions about the Democratic nomines—entirely because he stands for hikers oftener this year than ever repeal of the prohibition amendment.

That sounds very simple. One million votes for Mr. ed with these people. Many of Roosevelt. All because he is "wet." Yet one who knows them are wortny of a me. But the liberality of drivers has frequently anything at all about the great issues facing our country been rewarded with a gun in the wonders whether a block of one million women are going this and an order to drive far out to be voted en masse for the greatest office on earth, purely nature are common. Most drivers on the basis of beer and wine. If that is so, the situation are refusing anyone a ride after is pitiful. If our moneyed society people and followers dark and using considerable discrethink that we should elect presidents just because they are which the motorist witnesses more "wet" or "dry"-regardless of their other qualifications, frequently this year than ever-be -then our political intelligence has fallen to a low level. fore is that of a man and wife

If, however, we are going to elect our president purely thumoing a rice together the man was carry on the basis of "wet" and "dry," Mr. Roosevelt need not ing a small babe in his arms and exult that he has won one million votes from society lead- the young mother lugged a bundle ers and their following. More millions of women who have their looks would indicate they little children and homes that know little of "society" will were destitute. The vision of such go to the polls next fall to vote for Mr. Hoover

WANDERING THOUGHTS

Can't quite account for it. but some of our friends are telling us confidentially where the bootleggers are located. And yet we are as "dry" personally as ever.

Northville had more smiles around town Friday than in many a green moon. The bank news pleased everyone -at least, a lot more than 85 per cent were pleased.

"I am glad you are to have a bank again," said a Plymouth man to us. "It will mean better times for both our towns. Whatever affects one town hits the other."

"Groesbeck has taken the place of counsel for the Sword at West Pount, and in charge big Standard Oil Co., in its tax suit against the state and of physical training in officers you will not see him running for governor," a well inform- war, is quoted in Scribner's Magaed Detroit man tells us. - Others confirm this opinion.

Just paid the monthly premiums on the three children's insurance policies. Took them out in California in ment is more than worthless," ac-1929 and if we can keep up the payments they will be as rich as the millionaires when the next depression breaks. Insurance is about the only thing that has come through the tres would give the students a more past three years without loss.

Pretty lonely around the house this week. Mrs. Baldwin and Philip are at New-York City where her sister has been ill for many weary months. Paul is at a camp near for warfare, when we have an army Mio, up in that bracing country near West Branch and Rose City; Ruth Mary is enjoying the hospitality of cousins whereby they may recam self res at Whitmore lake. And the editor "eats out" and counts the days till they all get back. For believe it or not, his

One of the bright spots of our recent three-day vacation at press meeting at Alpena was a trip to the Turtle Lake Hunting club which has 27,000 acres of wild land 45 miles southwest of Alpena. We had the pleasure of shaking hands with the former postmaster general and U. S. senator. Harry S. New of Indiana, the club president and of hearing him tell how it was started in 1884 and of the way Bank of Caro reopened after havthe club has protected wild life ... Had it not been for the ing been closed for nearly 10 months. the club has protected wild life. Had it not been for the life opening has been welcomed and daughters, Frances and Louise club's work, said Col. New, there would not now be a deer its opening has been welcomed and daughters, Frances and Louise, warning by former patrons and were Lansing Findows. has saved the deer and in the club area now there are should like to add our word of conthousands of the deer. Coming out of the area, toward gratulations to those of chet in that city with relatives night, we saw at least thirty deer; all of them appeared mends unafraid of man- if far enough away. Standing by the we congratulate the depositors of edge of woods, they reminded you of cattle peacefully the bank for their good sense in grazing in the pasture. They told as in Alpena that Col. New had lost most of his fortune through the ups and of wrong doing on the part of offidowns of the depression that has ruined so many successful cers of directors; and depositors 40 per cent of their funds for an inmen, but from his fine, cheerful attitude you would not and to say, "Well we'll just have per-cent for quite a long period.

America is counting cylinders and

MERICA PREFERS THE

Since January 1st, buyers have chosen more Chevrolet Sixes than the combined total of all fours and all eights priced below \$1000

When buying a low-priced car, do as America is doing: Count cylinders! And you'll say, as America is saying: "SIX! No more. No less!" America is saying that in the most convincing way it could possibly be said! With SALES! Since January 1st, the public has purchased more Chevrolets than the combined total of all four-cylinder cars and all eights priced under \$1000.

Why? America counted cylinders and came to this conclusion: six is the ideal number for a car of lowest price! No more, because an engine with extra cylinders is bound to cost more for gas, oil and upkeep. No less, because six is the smallest number of cylinders you can have in a car and avoid the undesirable effects of inherent vibration.

A six, as Chevrolet builds it, is the happy medium between two extremes. It gives unexcelled economy.

No other motor car engine in America today costs so little for gas, oil and upkeep. It gives built-in smoothness. From 6 miles an hour to 65 or 70, Chevrolet is quietly, comfortably, enjoyably

NO MORE-NO LESS

FOR GREATEST ECONOMY and BUILT-IN SMOOTHNESS

With more than six cylinders you sacrifice economy-With less than six cylinders you sacrifice smoothness.

smooth. And because of this smoothness-plus the fact that the whole car is so solidly, ruggedly built-Chevrolet is a low-priced automobile that really stands up. It's a good, reliable, economical car the day you buy it ... and it keeps on being good, reliable, economical after 5,000-10,000-15,000 miles of driving.

In addition, Chevrolet is a modern car, with Free Wheeling, Syncro-Mesh gearshifting, Fisher bodies-and many other advanced features. Be cylinder-wise! Follow America's lead and make your next low-priced car a six-a Chevrolet Six! Unless you do, you can't expect the smoothness, economy and lasting satisfaction to which your money rightfully entitles you.

All prices f.o.b. Flint, Mich. Special equipment extra. Low delivered prices and easy G. M. A. C. terms.

VISITORS TO MICHIGAN may enjoy their favorite sports

Vichigan offers unlimited facilities for every summer sport. These combine with her rugged scenic beauties, fine highways, well equipped state camps and excellent hotels to make Michigan an ideal vacation state.

The millions of dollars spent each year by Michigan's thousands of visitors add to the prosperity of the state. Let us also spend our own vacations in Michigan this year, thereby contributing still further to its prosperity.

And wherever you go, dispel worry by telephoning home and office frequently. Call friends to tell them when you will arrive.

Telephone ahead for hotel accommodations. Long Distance rates are low.

The snow-white porcelain of my ELECTRO-CHEF is as easily cleaned as a china dish"

white porcelain and sparkling chromeplate of my new Electrochef. My new range is really lovely, and it is practical as well as attractive Cleaning the smooth, polished surfaces is as easy as cleaning a china dish. Simply wiping with a damp cloth instantly restores the original luster.

"All my friends admire the snow-

"There's another reason why my Electrochef is easier to clean than other stoves. All corners are rounded, inside and out, and there

to collect dirt. Even the oven can be stripped completely, leaving only the round-cornered inner shell to be washed out, Scouring does not injure the bright chromeplate finish. I'm certainly proud of my modern, snow-white range!" See the Electrochef at the nearest Detroit Edison office.

- A Story About Madame Melha In 1892 and 1893 Madame Nellie Melba, the celebrated operatic star, was living in the Savoy Hotel in London She was then singing at the Opera, at Covent Garden Her ad-

mirers were legion, and they yied with

each other to pay homage to their lovely lady -One day following a sensational ap pearance in "Lohengrin," Madame Melba gave a dinner to a few of her firiends Escoffier, master chef of the Savoy, who was among the audience of Lohengrin the night before, had a stroke of inspiration after seeing the majestic swan which appears on the stage As a token of his admiration, Escoffier surprised Madame Melba at the dinner with a despert which her his dinner with a dessert which he "Péche Melba" Just picture

peaches on a bed of vanilla ice, in a cup of iniaid silver-forne between the two wings of a beautiful swan which was carved from a block of ice and then covered with a veil of heaped-up sugar. What an effect! I don't have to tell you that Madame Melba was very much flattered by sucn a delicate attention

Melba was happy but Escoffler was not absolutely satisfied with the creation He thought that simple peaches mounted on vanilla ice did not surpass others sufficiently to justify such a noble name for them There was

loble name for them There was nonie name for them there was something missing Then the chef's genius came to the fore. He added the delicate flavor of Raspherries — and created a new culinary glory!

And Now the Secret

The additional flavor of fruit had mare an ordinary dish, which de-pended upon unusual presentation for its quality into a masterpiece. Now let me give you a recipe for a simple and delicious Peach Melba which you and delicious Peach Melba which you can make in your home. But please don't forget that it is the touch of fruit preserves which raises this dessert from mediocrity Remember that one little secret in your efforts to make "everyday food appeal to Epicurean appetites" And that's just one of the secrets which makes good cooks of ordinary mortals.

Peach Melba

Drain and chill canned neach halves

Drain and chill canned peach halves Just before serving arrange a mound of vanilla tee cream on each peach and pour over it Ann Page raspberr, preserves thinned with a little lemon

The Western Union also will make deliveries of telegrams to subscribers at Northville during the closed hours of the local office Be tween 12 midnight and 6:30 a. m

MISS RUTH RIEDEL

Mr. A. R. Marz Northville, Michigan

interested in knowing how this care performed

Before leaving Detroit I changed oil in the motor and after having driven twelve-hundred filles it still registered full. However, I changed the oil and the station attendant remarked at the time. that the oil in the motor was just as good as new.

After I was well on my trip, Everaged a title better than eighteen miles to the gallon of gassime. This was at a speed of from fifty. to sixty miles an hour at practically all times

to sixty miles an hour at practically all times.

I found the car to be the greatest car for covering the read that.

I have ever driven. I have owned automobiles since 1908, ranging from frords to Backards Lasailes and Cadillacs and I can honestly say that this car will out perform any attomobile that I have ever driven. It is a wonderful car for fouring and at a speed of around 55 miles an hour you have no trouble in averaging it your day's drive around fifty two to fifty three miles an hour. This is due to the wolderful acceleration and braking power this car has

The riding qualifies are perfect. I found it to be on rough gravel roads and high hills than any car'l have handled This undoubtedly is due to your new rear spring suspension.

I do not heatfate in sayi in a Twere not able to secure another Ford V-3. I wouldn't trade my present one for any automobile built in the United States today, regardless of price. This will undoubtedly sound like a very broad statement, but it is

Yours very truly,
Ruth Riedel.
