

SCHOOL BELL TO RING HERE IN SEPTEMBER

Opening Will Be Two Weeks
Earlier Than Last
Year

Northville schools will open two weeks earlier this year than they did last, according to a decision of the school board.

Last year the opening school bell rang the first of October because of the tardiness of the primary fund money in arriving but this year the funds will be distributed in two installments, one on Sept. 1 and the remainder in December. Local schools to open during the middle of September and close early in June.

According to the auditor general's report, approximately \$12,750,000 will be distributed to the schools of the state Sept. 1 from the primary school and interest fund, and a second installment will be paid Dec. 15. The first makes an approximate \$8.50 per census child while in December the per census rate will be \$4.00. The total per child received this year will amount to \$12.50 which represents a drop of \$3.50 from last year's per census rate.

The reason that the money will be paid in two installments is that utility companies, chief contributors to the primary fund, have been granted permission to pay their 1932 taxes in two portions. They have gladly cooperated in paying \$6,000,000, the remainder to be paid in December.

Educators have asked for \$15,000,000 additional state aid, basing their estimates upon the schools receiving the same primary money this year as in 1932. However, the per census rate is approximately 18 per cent lower than that of last year. The supplementary aid is aimed to restore in part the decrease in revenue caused by the 15-mill limitation amendment.

W. H. WHITE LIVES IN HOUSE WHERE HENRY FORD CAME

Marvin Bogart's turning back the pages to the "Good Old Days" in the July 21 Record was of especial interest to W. H. White of North Center street.

You will remember, Mr. Bogart said, Henry and Mrs. Ford were too busy to take a long and extended honeymoon but came to Northville with a one-horse carriage, to spend a day with "Cousin Marvin." Mr. Bogart lived on North Center street, in the house that Mr. White now owns and occupies. Mr. White will no doubt take additional pride in showing his house to his friends and visitors.

FULLER TO HEAD POULTRY GROUP AT NEW STATE FAIR

Northville friends of A. E. Fuller, head of the poultry section of the Northville Wayne County fair, will be pleased to know that his activities at the state fair will in no way be curtailed this year.

The Michigan Agricultural Fair and Exposition, as this year's state fair, under the direction of a corporation of Detroit business men will be known as selected Mr. Fuller as superintendent of the Poultry, Rabbit, Pigeon, Cavy, Trap and Fish exhibits. One of the oldest and best known poultrymen in the state, Mr. Fuller has been connected with the Michigan State Fair for approximately 30 years, serving on the board of managers under both Governor Fred W. Green and Governor Wilbur M. Brucker.

In his capacity as poultry superintendent Mr. Fuller has placed the state fair among the best in the country and has brought the Northville County fair to a position among the leaders in the state.

FISHERY BUILDING PAINTED

The buildings of the U. S. Fishery are being repainted. The official color of all federal fisheries is to be gray with white trim, black sashes and moss green roofs. The exteriors of all the buildings will be treated to this color scheme.

Within extensive remodeling and rearranging are being carried on.

EAST NOVI SCHOOL REUNION

The annual reunion of the East Novi school will be held August 5, at the home of Mrs. Lillian Angell, 254 S. Wing street, Northville. A potluck dinner will be served at one o'clock. At the meeting last year it was decided to send no formal notices locally, so all interested ones are cordially invited to be present.

WALLED LAKE M. E. CHOIR TAKES PRIZE IN STATE CONTEST

Charles Hutton Directs Chorus
In State Wide
Event

The Walled Lake M. E. Choir, directed by Charles Hutton, again displayed its unusual singing talents by taking second place and a prize of thirty-five dollars at the annual state choir singing contest held each year on Farmers' Day, at Michigan State college.

In competition with three other choirs in the A division and nine choirs in the B division, the Walled Lake group maintained its reputation as a consistent prize winner, having taken a prize each year during the past six years, in the state-wide event. These consist of four second prizes, one third prize and one first prize.

In the six contests, they have competed against a total of seventy-seven choirs to maintain their average of second position.

This year's contest was held Friday, July 28.

MARZ FORD FACTORY STARTS THIS WEEK

Putting probably four men to work at the start, the Marz factory, located in the rear of the Ford Sales and Service building on Main street, will probably begin production this week, and on the manufacture of a thousand pump impellers daily.

Machinery was expected to arrive Thursday with which to start operations. Other additional appliances for the manufacture of water pump housings and pulleys will arrive here as soon as they are "tooled" into shape.

"We do not expect to sweep in to capacity production immediately," declared Arthur Marz, head of the sales agency and the factory.

"Whether we will work on two or three shifts per day has not yet been decided. Circumstances will determine our number of working hours. At the outset we will probably employ only three or four men. As fast as we can use additional men we shall put them on."

The large Ford plant, superintended by H. G. Meiburger, located at the foot of Main street, is now busy with three eight-hour shifts employing the services of approximately 200 men.

CLOISTER HERE IS VISITED BY SISTERS

The four resident sisters at the House of the Good Shepherd, on the Fishery road, had the pleasure recently of having as guests, five sisters and the mother of Van Blyst, who is employed at the home. Three of these sisters are nuns in a convent in Kentucky, and one in Cincinnati. The mother and other sister live in East Tawas. A nice, homey visit was enjoyed by the whole family of sisters here.

The sponsors of the House of the Good Shepherd are still clinging to the hope to enlarge the home here so that children from the Detroit home may be brought out.

At frequent intervals these children from the city come out and spend the day in the country and enjoy cherry-picking, picnics, and other good times as guests of these sisters.

NOTICE

The Senior class of Northville high school will hold business meetings at the high school every Tuesday at 2:30 p. m.

Twelve Students of High School Gain Fine Honor for Northville At Noted National Music Camp

Twelve Northville high school music students had the honor of representing their school in the All-State orchestra and choir which met this summer at the National Music Camp located at Interlochen, Michigan.

These two all-state organizations are composed of music students from all parts of the state who are chosen for their outstanding ability.

Dorothy Messner and Charles Strautz, both violinists, were members of the all-state orchestra and attended the camp from July 10 to 15. After a week of strenuous rehearsals under some of the finest orchestral conductors in the country, this group gave a splendid concert Friday evening, July 1.

The all-state choir met July 24-29 and was directed by T. P. Giddings, supervisor of music, Minneapolis Public Schools, and Ralph W. Wright, director of music, Indianapolis, Indiana.

DROUGHT LOSS SERIOUS SAYS RALPH CARR

County Agent States That
Some Yields Will Be
Cut in Half

The drought which this section of the county has been experiencing this summer is the worst in the last five or ten years according to Ralph Carr, county agricultural agent.

Although a heavy rain beginning after midnight Wednesday and continuing for several hours will help potatoes and corn it cannot undo much of the damage already done.

In speaking of the corn crops about which farmers are deeply concerned, Mr. Carr said, "Corn will be better than we thought but it is ragged. Rain would give the corn new life, but the yield will not be better than half a crop."

Farmers around Northville state that hay crops this year have been fair on the whole. The first cutting of alfalfa was good with the second cutting "just medium."

On the Greenham farm the crop did not yield at all this year, while on the other hand the wheat crop produced 28 bushels an acre.

Mr. Carr believes the average yield from oats in this section would be about a quarter crop and that from wheat about one-half.

Mr. Carr spoke of one wheat crop which yielded 47 bushels per acre. This is an exceedingly good yield.

J. E. Denton, superintendent of the Greenham farms, said that due to the early ripening of wheat the kernels were smaller than usual which resulted in an increase in the quantity of kernels per bushel and a decrease in the number of bushels per acre.

The Northville Milling Co. received a small amount of wheat the first of the week, paying seventy-five cents a bushel.

Apple, plum, and pear crops have a good outlook, although the yield will probably not be as good as last year's. A late frost dampened all hopes for a good peach crop around Northville and in most of Michigan.

However, Grand Rapids, according to Mr. Carr, will have a normal crop of peaches despite the fact that Michigan's fruit belt crop is gone. Early fruit crops suffered little due to the moisture in the ground from early rains.

Pastures on farms around Northville have, for the most part, dried up with a corresponding decline in the quantity of milk. Dairymen state that the present price of milk doesn't warrant the use of grain for fodder.

This excessive dryness which southern Michigan has experienced this summer started a week before Memorial Day. It is a serious matter to the farmer who depends on the yield of his crops for an existence. He has no way to combat the dryness and is forced to sit and hope for rain.

REHEARSALS RESUMED

After a period of vacation the rehearsals for the cantata "Queen Esther" will be resumed at the Presbyterian church on Monday evening, August 7.

W. R. C. MEETING

The regular meeting of the W. R. C. will be held on Wednesday evening, August 9, in the Legion hall. Every member is requested to be present. Order of president.

P. H. Grennan and S. L. A. Marshalls Visit Northville Street Entertainment

Among the visitors to Northville's Free Street Dance Saturday was P. H. Grennan, head of Farm Crest located on Six Mile and Northville roads, who complimented business men here on their sagacity in promoting the entertainment.

Observing the events for more than two hours Mr. Grennan was greeted by many friends among the townspeople. In a conversation with Irving J. Ulrich, chairman of the committee, Mr. Grennan stated that the weekly entertainment was of great benefit to the entire community. This was his first visit to the Saturday evening dance, he said, and he expressed amazement at the number of people who came

here from all over the nearby countryside. Accompanying Mr. Grennan were Mr. and Mrs. S. L. A. Marshall, of the Six Mile road, who also were attending the Street Dance for the first time. Mr. Marshall, who is employed in the editorial department of The Detroit News and who has placed Northville on the map frequently by his stories of the many horse activities which take place here, was of the opinion that the free entertainment would aid Northville considerably.

The fact that Northville each week-end became the object of attention by farmers and hundreds of individuals from neighboring communities was brought out as being of much value to the town in the form of "word-of-mouth" advertising. Present in another party of visitors was Mr. Grennan's daughter, Miss Evelyn.

The Free Street Dance and the Treasure Hunt will be held again tomorrow evening (Saturday) and another large crowd is anticipated.

BOYS WRITE FROM CAMP

Ten Northville boys, in the conservation camp at Redon, from which several local boys have returned, all signed the following letter to the mayor of the village, Dr. L. W. Snow. It reads:

1612th Co. CCG
Camp Jumbo,
Kenton, Mich.
July 24, 1933

Dr. L. W. Snow,
West Main St.,
Northville, Mich.
Dear Doc:

The main purpose of our letter to you is to combat the erroneous reports that the boys discharged from this camp have spread among you folks at home. In a letter that came to the camp Northville has undoubtedly gotten the wrong opinion of our company.

To begin with Doc, we all know that a man of any consequence never is discharged. We ask you to consider the source of the reports that have spread in our city.

Our camp is made up of young men all like ourselves and other young men, sometimes rowdy, sometimes pleasant associates and sometimes.

EXCHANGITES HEAR PLYMOUTH EDITOR RAZZ LEGISLATURE

Thoughtlessness, bunk, and horseplay featured the last session of the Michigan legislature at Lansing to a degree never before known, declared Elton R. Eaton, editor of the Plymouth Mail and former editor of the Northville Record, in a brief talk to Exchangers and their guests assembled for their weekly luncheon held in the Methodist church house Wednesday noon.

Mr. Eaton read excerpts from the House Journal indicating that the lawmakers regarded their stay in Lansing as a holiday. They enjoyed an Independence Day celebration of unwarranted proportions, gave several facetious speeches on dog racing to prove that the rabbit always wins, and generally gave over (Continued on Last Page)

Applying our best common sense we must consider the amount of money appropriated for the Civilian Conservation Corps. First we must consider the miserable state the country is in and the amount at hand at Washington for this venture. Next let us consider that this move was solely for the benefit of the men in camps—a good will venture. We should take it with the utmost gratitude.

"To date we are the best fed camp among the three in the surrounding locality. This is vouched for by the youngsters from the other camps and four attached men from company 668. Certainly, we agree that we are not fed here like we were fed in our own dining room. We don't (Continued on Last Page)

Instead of being crowded with picnicers as would be supposed Sunday, on account of the heat Care-Taker Peter Ely of Cass Benton park reports that there was not even the usual number on hand. From several sources Mr. Ely heard that the lakes of the vicinity were crowded to their capacity by folks trying to cool off.

HEAT KEEPS USUAL LARGE CROWD AWAY FROM CASS BENTON

Saturday, says Mr. Ely, was a big day at the park. Two large picnic parties came out from the city to enjoy this popular place. One of these parties was a bunch of 75 boys from an orphanage who were treated to this picnic by the Detroit American Legion and auxiliary. These boys had a fine time making the "weekend ring" with their joy in the freedom of the woods.

VILLAGE TAX DEADLINE NOW SEPTEMBER 1

Council Looks Askance At
B-Coli In Village
Water

Extension of the time limit for payment of village taxes from August 1 to September 1 was announced Friday evening at a special meeting of the village commissioners held in the city hall.

Concerned are again busy working on the problem of supplying Northville with pure water. Because of the necessity of having to start the Fairbrook springs pump to gain sufficient pressure with which to get water to the Eastlawn sanatorium, the presence of B-Coli, a microscopic organism, is again present in the village water. The situation is well understood by Dr. L. W. Snow and the village commissioners who are still endeavoring to protect the Northville water supply.

Although old time residents of the village claim there has never been a case of illness directly traceable to the water, the village heads are aware that the water is "potentially dangerous" and they are planning on ways and means to remove the disturbing organism and also eliminate the iron content.

Use of the Fairbrook springs, the source of the B-Coli, was discontinued last fall and through the winter because of an increase in the flow of the Hill and Bannhardt springs which was sufficient to supply the village with good water. Because of the increase of water consumption in summer, however, it has been necessary to start the Fairbrook springs pump again and this has brought the B-Coli in itself a harmless organism, into the water supply.

It is thought that by running a pipe line directly to Eastlawn sanatorium from the reservoir that the institution will be well supplied with water and the Fairbrook springs pump can be turned off.

Councilmen are loath to tamper with the construction of Hill and Bannhardt springs to increase the water flow because of the possibility of losing the source of water supply altogether. It has been suggested that a booster pump be added to the system and that the Fairbrook pump be turned off, that the Fairbrook springs be chlorinated (this procedure, it is estimated, will cost \$800) that wells be dug and a new source of water be tapped.

All of these plans are exceedingly costly, states Dr. L. W. Snow, president of the village, but a way must be found to make the Northville water absolutely safe. The problem will again be attacked by councilmen at their meeting Monday evening at the village hall.

DROUGHT BROKEN

The long period of drought was finally broken early Thursday morning by heavy rains, the first since July 2.

Detroit reports over 15 inches of rainfall during the night and early morning.

Late crops and flowers and vegetable gardens will reap the benefit from the heavy shower.

JUNIOR COWBOYS TO COMPETE AT 14 NORTHVILLE FAIR

Entries Are Limited to Riders
of 18 Years and
Under

Junior cowboys, attention! A special class for range style riders to include all "cowboys" of Northville and neighboring communities will be a feature of the three day Northville Horse show, Aug. 24-26.

Stock saddle riders are urged to polish up their roping acts, set a little more firmly in their saddles and rope right up to a member of the horse show committee and make known their entry into the lists. Entries are limited to boys, 18 years and under, the committee having raised the age limit a notch over the last year's restriction.

The class, it is expected, will draw heavily as the number of range riders in the 1932 show was beyond all expectations.

The junior show, capably headed by Mrs. Wm. Rawle Brown, Arrowhead Farms, travels in much the same popular path as it did last year. Opening activities on Thursday, August 24, the show will get underway with the obstacle race followed by the children's saddle class, 13.2 and under, the potato race, shetland pony class, junior jump, children's saddle ponies, the ever-popular musical stunts, the pony driving class, children's saddle class, road hacks, the shetland pony race, and closing with the quarter mile race and the one-eighth mile dash.

The term labor as used in the act includes clerical and sales forces as well as manual labor. Plans for an inspection system whereby violators of the agreement could be detected have not been made known yet according to Postmaster Carrington.

One local merchant expects to have to test the total working hours of his clerical force as much as forty hours to come within the agreement.

To put more men at work, to measure against the unworthy and degrading effects of child labor, to provide reasonable working hours and fair but not excessive compensation are the essential things which are now sought.

30 BUSINESS PLACES AGREE TO NRA CODE

Postmaster T. R. Carrington
Is In Charge of Local
Arrangements

According to T. R. Carrington, local postmaster and government representative in charge of NRA distribution, Northville merchants are endorsing wholeheartedly President Roosevelt's reemployment agreement. Up to press time 30 business men had filled out and filed in the local post office the necessary blanks signifying their intention to cooperate with the National Industrial Recovery Act.

By signing the agreement merchants certify that they have adjusted the hours of labor and the wages of their employees to accord with the President's agreement. By adjusting the wages and working hours it is meant that no employee will be paid less than fourteen dollars a week nor will he work more than 40 to 48 hours a week except by special exemption.

The term labor as used in the act includes clerical and sales forces as well as manual labor. Plans for an inspection system whereby violators of the agreement could be detected have not been made known yet according to Postmaster Carrington.

WELCOME TO THE VISITORS

We never turn a cold shoulder to any of the many traveling men and solicitors who come to the Record office. If they are kind enough to call and energetic enough to want to get some business, we should be courteous enough to spend a few minutes with them. They come from another part of the world and often we learn something from them. Life is too short to miss the little kindnesses that can be scattered as we go along the path together.

HONEST JOHN CITIZEN

An exchange says that "Honest John Citizen is fair to his neighbors, pays his debts, supports his church and school and stays-home nights with his wife and family."

We'll add a few more qualifications: "He does not gossip or backbite. He doesn't always stay-home nights with his family but takes them out for a family night once in a while. He keeps up his home and gives his wife money to plant a few flowers and shrubs. He is loyal to his home town."

Northville has a lot of "Honest John Citizens" and "Fair-minded Mrs. John Citizens." Without them, a lot of us would soon move out of town.

RECALL IS NOT FAVORED

A reading of the exchanges that come to The Record shows that the most thoughtful editors of the weekly press do not favor the movement to recall Governor Comstock. All agree that conditions at Lansing are discouraging but that only chaos would result if the governor should be recalled. Even to have the two elections that are necessary would require a very large sum of money and with the state treasury in its present condition, now is certainly no time to be adding to our budget. Everything considered, Governor Comstock should be allowed to fill out his term. He may do better in the future than he has in the past. Certainly he should be given the chance.

THE WOMEN CAN DO IT

Our good friend Scarth Inglis, editor of the Galesburg Argus, has been given a position with the state department of public instruction. As a former teacher he will fill the place well—extra well. Some reader of the Argus writes and says: "Mrs. Inglis is one of the most capable women I have ever known and she is perfectly capable of conducting the paper herself."

It just happens that Mrs. Inglis is a life-long friend of Mrs. Baldwin, their friendship dating from childhood days at Cassopolis. We'll just say in passing that if Dr. W. H. Johnston, M. J. Murphy and Fred Van Atta ever get us a democratic job, we also have a wife who can run the paper capably. Of course, we haven't the slightest claim to a democratic job and don't want a republican one, so you can expect the same old crew, Mr. Editor, Mrs. Editor and all the rest to keep on getting out the Record every week. Speaking of jobs, we don't know of one that we would think of swapping for ours.

A NORTHVILLE SWIMMING POOL

Would it be a good idea for Northville to have a public swimming pool? With the government willing to loan for public works projects, now would be a good time to have the pool built, if it should be found desirable.

We have been having this summer some of the kind of heat that prevails in certain parts of California—and in those sections of California there are found many swimming pools which are used extensively. We could not use a pool for as many months of the year as does California, with its mild climate, but we could certainly put one to good use from May until October—for five months of the year. The rest of the time it could be used for skating.

We have noticed that scores and scores of our young people—and older ones too—have a tremendous urge for swimming all through the summer. Swim they must. And to swim they will drive anywhere and everywhere. Well if hundreds of our young folks want to swim and swimming is good for them, then why not make some constructive effort to get a public swimming pool? At five or ten cents a swim we believe a public pool could be run without cost to the village.

Money spent to keep our young people contented at home and to attract other young people certainly is a good community investment. It might be a very commendable thing for our village fathers to look up the feasibility of a public swimming pool. If we can't build a lake here, let's do the next best thing, improvise one.

HOW IMPORTANT ARE YOU?

A friend comes along and tells us that we take our job too seriously. "Nothing is so important as you think

it is," he tells us. The funny part of it is that he himself also takes his responsibilities in very serious fashion and allows himself little leisure time.

Yet we have been thinking of what he said. "Nothing is as important as you think it is." We have thought it important to get out the very best newspaper we know how, yet there have been lots of issues when the amount of advertising would not justify the kind of Record that we have produced. Still we cannot let ourselves drop from the ideals we have set for this newspaper. We'll just have to keep on doing the best we can to publish a newspaper worthy of Northville.

We have been wondering where we could apply that "Nothing is as important as you think it is." We presume it will have to be in the realm of personal habits. We'll not "go the mat" quite so often on what we think are vital issues and without any doubt it will all work out for the best, without our help. We'll not get excited about some things that should be "judiciously forgotten or overlooked." We'll "cut out" some of the activities that take a lot of time and energy but which, when you really analyze them, don't produce real dividends. We'll try to find out what really counts in life after all and sidestep some of the non-essentials.

"Nothing is so important as you think it is." Maybe that applies to some of the rest of you folks.

And on the other hand, aren't there some people to whom you could well say: "Some things are a little more important than you think they are?"

WANDERING THOUGHTS

The Record office does not open mornings now until 8 o'clock. We are, of course, "under the code."

Answering several questions: We do not for a number of reasons favor the recall of Governor Comstock.

Had a little reminder of our camping trip a few nights this week. Reason: Slept on a mattress spread on the floor downstairs, to escape the stifling heat on the second floor.

The eagle is flying all around town. What finer words than: "We do our part?" If all had done their part voluntarily and had followed the Golden Rule in business we should not have to go on the NRA.

The city dweller does not fully appreciate what the extreme dry weather we have been having "does" to the farmer. Riding to Lansing Saturday, to attend a conference regarding the "Nira" regulations, we were impressed by the damage that has been done during the past month of drought. There are some good fields of corn, but all of them were showing the effects of the devastating heat. Potatoes are high-priced now and they may be high this fall as they have suffered from the lack of rain.

It just happens that we don't know personally the gentleman who sent us the communication last week, protesting the article of V. J. Brown on schools. His letter was not anonymous and we thank "a successful salesman" for expressing his opinion so frankly. We wish more people did that. We can all discuss public matters kindly and fairly, even though on opposite sides of the fence. It was hardly fair however, to call Mr. Brown's article "idle chatter" for those who know the legislature at Lansing at all, know that Vernon J. Brown is one of the keenest students of government in Michigan. And further, he has shown a great more courage than have many of our political leaders who promise everything during a campaign and then forget all about it after election. As for his paying taxes, he certainly pays his share, as he has been a success at his business.

THIS WEEK'S QUESTION

WHAT OTHER EDITORS ARE THINKING ABOUT

TOO LATE FOR RECALL

(R. G. Jeffries in Lowell Ledger)
It is reported that petitions asking for the recall of Gov. Comstock are being circulated at some points in the state. That's like looking the barn after the horse has been stolen.

"A SWAT IN THE EYE"

(Al H. Weber in the Cheboygan Observer)
When Governor Comstock says "He'll swat the fellow in the eye that comes to him and complains to him about his friend 'Leebove'" and when he said in his speech at Mackinac Island, that he wanted folks to address him as "Bill" he hasn't contributed much to the dignity the office of governor of our great state deserves. It is time to be staunch and true to a friend. It is nice to be called just plain Bill, but a certain dignity and distinction should follow one in the highest office in the gift of our state, and unless it does follow there grows a perceptible degree of commonness and a lessening of confidence and esteem.

REPUBLICAN SPORTSMANSHIP

(LaGrange, Ind. Standard)
Whether or not the extreme steps taken by President Roosevelt and his helpers all prove beneficial remains to be seen. All Americans regardless of politics hope that they will. There is a general atmosphere of "going along with the President" in all parts of the country. The people are refraining from criticism to an extent unparalleled in the political history of the United States and are wishing the administration well. If there is failure and then harsh criticism it will not come until another campaign is upon us. The opposition party has pretty generally adopted a sportsmanlike attitude of giving Mr. Roosevelt his chance. There has been no setting up of a "poison gas squad" as was once done by Mr. Raskob and Mr. Michaelson early in the Hoover administration. The Republicans in Congress during the special session just ended turned the tables on their democrat colleagues in Congress by giving the President at least 98 per cent support although practically the same democrat members had knifed the republican program in 1932 plenty.

WHAT HOME BREW DOES

(Scandia (Kan.) Journal)
Somebody sent the editor of the Pickettown Gazette a few bottles of home brew. The same day he received for publication, a wedding announcement and a notice of an auction sale. Here were the results as printed in the paper: William Smith and Miss Lucy Anderson were disposed of at public auction at my farm a mile east of a beautiful cluster of rose on her breast and two white calves, before a background of farm implements too numerous to mention in the presence of about 70 guests including two mule cows, six mules and one bob sled. Reverend Jackson tied the nuptial knot with 200 feet of hay rope and the bridal couple left on an extended trip with terms to suit the purchasers. They will be at home to their friends with one good buggy and a few kitchen utensils after ten months from date of sale to responsible parties and some 50 chickens.

BEGINNING A NEW ERA

(Grand Rapids Chronicle)

There is a story, possibly apocryphal, to the effect that a visitor said to President Roosevelt, immediately after his inauguration, "Mr. President, you are going to be either the best loved or the best hated of all the presidents." And the executive replied, "No, I don't agree with you. I think that I will be either one of the best liked—or the last president."

There is so much truth in this statement that the remark "should have been made whether it was or not. If the Roosevelt administration fails, then nothing else is left," as Muri DeFoe says, but "Socialism. Lacking that, the emergence of a Mussolini would be the only thing that could avert a complete breakdown."

But the signs are numerous that the administration is not breaking down, but is, on the contrary, functioning at top speed. The mere threat of inflation upped prices in a hundred lines; the administration program for farm relief had not yet gotten under way before farm commodity prices started leaping skyward. Four months after the inauguration saw wheat cross the dollar-a-bushel line, saw corn, oats, pork and every farm commodity with the exception of poultry beginning the upward march.

Beholding this, the people of the United States will be very little affected by the partisan oratory that derides the placing of tremendous power in the hands of the President. The test of power lies in the manner of its use, and since March the people of the United States have acquired a wholesome respect for the ability of F. D. R. to handle whatever power is required to start the process of reconstruction.

These are thrilling days in which to live. After all, what we are going through now is not the last era of the depression, but the beginning of a different era. We are too close to it now to be able to see clearly the changes in economics. In the conduct of business, and in the process of government that "new age demands and is getting, but the historian of the future will see the year 1933 as the springboard for an exhilarating dive into clearer waters.

THE SALES TAX INJUSTICE

(E. W. McGriff in Redford Record)
There are plenty of families these days whose total income does not exceed twelve or fifteen dollars a week. Yet every time a pocketbook is opened for this family to buy food, clothes, medicines, etc., it must pay a tax! Three per cent! This is putting the tax burden in the wrong place. Surely such families are in no position to pay three per cent, particularly when most of the funds derived from such taxes are wasted or unnecessarily spent.

The boast is made that the cost of state government this year has been cut 25 per cent. Have you noticed 25 per cent drop in the efficiency of state government? And if another 25 per cent were dropped off, who would care, outside of the new politicians, contractors, and other parasites who exist because the average voter is without means of remedying matters? John Citizen has the vote, it is true, but when he votes for a particular thing he often is short-changed out of it without the Comstock administration.

The sales tax should be repealed. We urge a referendum to compel its repeal. The sales tax would not be required at all, if we had half the efficiency in state government that any solvent business today requires in its methods of operation.

The trouble with state government and all other government is that it has had the power to assess citizens to make up for any and all mistakes and expenditures, no matter how needless or important such pay-outs might be. The trouble is, most state government is an expense item and not productive, except as it produces educated youth and smooth highways. All the rest of its functions are, for the most of us, of slight account or importance. Yet we

constantly keep adding to the cost and functions of government. So that now we may tax the family with a bare existence income at the rate of three cents on every dollar—the highest tax ever levied upon people in this state.

Comstock should be recalled, a new state legislature convened and the tax mess of Michigan straightened out, after all expenses are properly reduced as they well can be. Government costs can be trimmed the moment we seek to refrain the essential for the common good, and eliminate the non-essential, which has been created for the politician's good.

THE AGE OF CODES

(V. J. Brown in the Ingham County (Mason) News)

The future student of economics and government will be forced to add a new chapter to his text book. He will look back upon the age of codes and governmental control and will attempt to appraise the effect of this era upon social and civic life. In that respect he will have the advantage of the present generation. We simply ignore the signboards erected by other generations and plunge ahead into the deep and unexplored swamps of bureaucratic dictatorships and white collared autocracies. Future generations—at least will either avoid or follow the trail now being blazed.

The government insists we are at war. The phrases and backs of war days are being dusted off and its propagandists are diligently applying the black arts of the professional magician in an effort to mystify and confuse the people.

The farmer is told what and how much to plant and the manufacturer is told whom to hire, how long to work him and how much to pay. The workman is told he will receive more but quickly learns he must pay out more. The housewife pays more for milk and bread and learns next day that a half dozen gamblers made a million apiece on the grain board and reads with some degree of concern that the milk trust has just adopted another code.

This writer attended a meeting of country editors late last week where the proposed codes being urged upon the government to control printing and publishing industry were under discussion. The concern was so great among the publishers pres-

ent that a state mass meeting of all town and small city editors is being called for next Saturday to determine upon future action. The discovery is being made that what at first appeared like supporting the government in fighting its war against the depression already bears the earmarks of lining the pockets of profiteer big time printing establishments. It may too late already to fight off the insidious forces plying their practices at Washington, but the country editors are about to awaken to their danger to say the least.

"The wonder now comes as to other codes. They are being acclaimed as great strides towards prosperity. Prosperity for whom? Is the farmer being sold into serfdom? Will he sacrifice the independence which has been his heritage and receive only such pittance and existence as the entrenched forces are willing to bestow upon him? Are initiative and thrift and industry and ambition to give way to supine and listless submission to the orders of some group sitting at Washington?"

The motives of those in temporary power at Washington are not for the moment to be questioned. The motives of those who craftily hide behind the tremendous and awe inspiring problems of the moment to soften the feathers of their own nests are not above suspicion. Honest labor lays its head on a stone while entrenched interests sleep on inner-spring beds. There may be a rude awakening to this nightmare of codes and rules.

TRAVEL TIPS

The least possible luggage is the ideal for traveling. This means that you will eliminate from your clothing all unnecessary, and fluffy garments and accessories and all which are difficult to keep clean. Shoes deserve first thought. Select them large enough and of sport type, for walking, plain pumps for dress occasions, and black crepe or gold or silver slippers for evening functions.

The suit is the center of your wardrobe. Choose black, gray, brown or navy as a fundamental color. The material may be soft wool, or crepe which does not wrinkle easily. A simply fitted skirt with kick plaits for walking room, and the swag coat, with a flock of harmonizing or contrasting blouses will take you almost anywhere. If there are to be social affairs, you will want two or more evening dresses. These may be of

cotton and very simple and inexpensive. The best bet is black crepe or net, which fold into small space and do not wrinkle.

The experienced traveler matches even her luggage to her travel ensemble—choosing either black or brown, whichever goes well with her suit. The small electric iron is a convenience in keeping fresh and chic. For an ironing board, use the bottom of the dresser drawer, with a towel spread over it.

BABY'S SECOND SUMMER

Mothers have a traditional dread of what may happen to Baby in his second summer, but the fear is without scientific foundation. Statistics show that the highest death rate among babies is during their first week and month, that the death rate during the second summer is less than that during the first.

It is advisable to cut down on the baby's food during summer weather. Much of what he eats goes to the making of heat in his body. He may lose weight during hot weather, but

he will gain it all back when cool weather comes, and it is not desirable that he gain in weight during the hot season.

To give the baby buttermilk and skimmed milk during hot weather is better than to feed him on rich, creamy milk. The milk should be kept clean and free from flies. The less clothing the baby wears on a hot day, the better for him. Prickly heat is the result of keeping sweat-soaked garments in contact with his tender skin.

Keep the baby as cool as you can. Outdoors, in the shade, where he will get a breeze, is a good place for him, except in the hottest hours of the day. He should be screened from flies and mosquitoes.

Frequent bathing will help to keep Baby's temperature down and make him happy and content. He could have three or four sponge baths during hot days. Give him plenty of boiled water to drink and give serious attention to bowel trouble. This is usually the result of unclean

or improper feeding and can be prevented with care.

THIS WEEK

By H. H. WHITE

If one is to judge by the world events in general since 1914, it would seem as if it has been a little mad, as any keen observer can easily discern that it has ceased to be constructive, and most of the books dealing with this age admit that democracy and those who have had to do with creating international goodwill have not displayed any great amount of wisdom. Those in authority have persisted in the division of peoples into hostile groups and have made little attempt in creating international cooperation.

Just a few instances will bear out the above contention. There was the Khaki Election in England after the war, the Nazi elections in Germany, some recent instances of cheap politicians and crooked press in France, and our own election of a man such as Harding, the passing of prohibition on a wave of hysterical emotion and the successive evasion of lawlessness, bootlegging, and racketeering.

But one cannot indict any nation in a wholesale fashion or, rashly make sweeping statements since in each of the above named countries you can find thoughtful, kindly law-abiding and high-minded people. For instance, there are the students who are today leaving our universities and institutions of learning, who are thinking, reading and wondering just how they may put their shoulder to the wheel, in order to put society right, and thus justify the restlessness within their own souls.

Almost anyone will agree that the individual is intelligent, good natured, and responsive to the best things around him. But put individuals of this sort into a collective group and invariably the result will be one of response to the lowest manifestation of intelligence and morality, because it is submissive to herd law and spirit and discipline.

It may even become inflamed by some tribal slogan, as witness the propaganda which was used as a fighting war cry in our recent world conflict. The crowd seems inherently to hear the call to hatred, violence and immediately becomes pugnacious and is easily excited into the frenzy of action when it is challenged no matter how silly or idiotic the challenge or issue may be. Thus it is quite likely to rebel against a common and accepted traditional fact of law and order, and herein lies one of the fundamental dangers of the democrat system.

Mr. and Mrs. John Harlan have returned home after a pleasant visit with friends in Ionia.

The spaghetti house on Seven Mile road was burned to the ground Wednesday night. The cause of the fire is unknown.

Mr. and Mrs. Strasburger took a holiday last week and went to a Detroit theatre. Their number won an electric refrigerator.

Kenneth Owen, Mr. and Mrs. Austin Ault, and three children enjoyed the week-end with Mr. and Mrs. Steven in Uniontown, Ohio.

Bert Thayer was a visitor with his two sisters, Mrs. James Eastman and Miss Anna Thayer at their home on Zaida avenue, Tuesday.

The high school seniors joined with Gordon Way's base ball team and played a game with Brighton team. The score was three to one in favor of Brighton.

Mr. and Mrs. Samuel Pickard, Mr. and Mrs. Gerald Taggart attended the funeral of their granddaughter and niece, Irene Pickard, on Friday, at the undertaking parlors of Schrader Brothers in Northville.

Mrs. Earl Wolfe and sons, Maurice and Kenneth started for Nashville Saturday. They will spend some time of their vacation with her parents, Mr. and Mrs. Edward Teyes in Nashville, Mich.

Forty children faced the terrible heat Sunday to be in time for their class in the Sabbath school. The superintendent and teachers are keeping the church doors open for the little ones to come and learn to live the good way.

Two league ball games were played on the diamond here Sunday between Ann Arbor and West Point Park. The first game was won by the home team nine to two. They won the last game eight to five. They are now in second place.

THE LEAN DOG

By Robert G. Yerkes

NIRA

Such a storm of questions has broken about the heads of those who started this act, it seems unlikely that any but the writers of it know what it means. There are a few questions however that can be answered with something approaching certainty.

Can it be enforced? Yes, not only legally, by fine and imprisonment, but by the force of public opinion and what practically amounts to boycott.

Can prices be raised? Yes. Price increases made necessary by actual increases in production, replacement, or invoice cost of merchandise are allowable. But no profiteering!

What effect will NIRA have on contracts already in existence, and to fulfill which, in face of rising prices, would be ruinous? Under the agreement all signers pledge themselves to adjust prices in direct ratio to the manufacturer's increased cost.

A Hen and Ducks

Something comparable to the old fable of the biddy that hatched a herd of ducks and litteringly watched them duck themselves for the first time was reported over for the summer with the arrival home of Papa Owen and his charges. Stories concerning the activities of this benevolent society on the shores of Gimme Gimme, or the shining big sea water, are not only amusing but extremely instructive to one who must inevitably follow in the footsteps of Papa Owen (with only one charge however). The tree-chopper who attacked a perfectly good tree with an axe only to discover that he had forgotten to remove the sheath from the blade. The tree is reported to be practically unscathed except by the remarks of the would-be chopper. There were also the camp entertainers who yodeled, not wisely but too well. These and other stories still circulate but their effect on National Recovery cannot yet be judged. It is to be hoped, however, that bigger and better outings of this nature can be carried through. The notable increase in the peace and quiet of the village's residential streets has been commented upon favorably.

Chairman Irv sent in his thanks for last week's comments. Ad. was left out of the eulogy simply because we didn't know he was to blame, too. There were many requests for entertainment for those whose dogs move only to slow time. Chairman Irv says he'll do something about it right away.

IDEAS

Gleaned by a Northville Idealist

"Where there is drink there is danger."

"A peace ruled by duplicities has produced war."

"The universe is more like a great thought than like a great machine."

The man who is smart enough to be a fool gains as much recognition and as much money as the man who is noted for his wisdom.

"If there is one deep-rooted conviction in the human breast, it is that each person has a right to what he earns."

"In every age of grand-scale readjustment mankind pulls itself together, confounds the specialists, and tears out the partitions of life."

"The kind of banking that is always thinking of securities and never of the production of values upon which securities rest, is always moving toward bankruptcy."

Florence Cook is spending a few days with her cousin, Catherine Harlan, who is attending college in Ypsilanti. Viola Lamb and her cousin, Howard Thayer, accompanied her and all had a very pleasant time together.

The Ladies' association met at the home of Mrs. Albert Nacker. Eleven members were present. Arrangements were made to have a silver tea at the home of Mrs. Robert Fredericks the last Thursday in August. A dainty lunch was served by Mrs. Nacker.

Mrs. Thomas Gillespie and four children, Betty, Tommy, Susan, and baby, arrived at Mackinac Straits Wednesday, and will remain there some time on account of Susan's serious condition with hay fever and asthma. Mrs. Gillespie returned home Sunday and will remain here to attend to business in Detroit.

One of our thrifty housekeepers from this district went to town to buy the week's provision; after paying the advanced price on each purchase a tax was requested for each article, flour, butter, lard, eggs, sugar, bread, matches and coffee. She was heard to say, "Water is the only cheap blessing we have. Thank goodness we can pump spring water without a tax in West Point Park."

Mrs. Melvina Carpenter Greeted
By Former Neighbors on Birthday

Mrs. John R. Chamberlain, now of Detroit, does not easily forget the kindness of her old next-door neighbor, Mrs. Melvina Carpenter, East Cady street, whose birthday occurred Thursday, July 27. Mistaking the date for the previous week, Mr. and Mrs. Chamberlain drove out one day bringing a basket of picnic supper and took Mrs. Carpenter as their guest to Cass Benton Park where they enjoyed a pleasant visit.

On the correct day, July 27, Mrs. Chamberlain came again to make a birthday call. A box of strawberries from their garden and a bunch of flowers were left as a gift. Mrs. Carpenter took out her tape measure and announced that one zebra measured 1 3/4 inches around.

Miss Elizabeth Gleason Weds
Robert Simonds, of Buffalo

C. interest to Northville friends is the marriage of Miss Elizabeth Gleason, daughter of Mr. and Mrs. Thomas Gleason, well-known former residents of this village, to Robert Simonds, of Buffalo, the ceremony having been solemnized Saturday morning, July 29, by Fr. Jos. Schuler at the parish house. The service was simple but very impressive, the young couple choosing to make the trip to Northville to be married by Fr. Schuler, who has been a close friend of the family since their residence here.

Present to witness this ceremony were their friends, Mrs. Edna Neverson-Monroe and Mrs. Lucy Snyder, both of Detroit.

Both the bride and groom have

been living in Buffalo, where Mr. Simonds holds a position in the office of a packing house. Mrs. Simonds was also in the employ of this firm and it was while thus engaged that their acquaintance began. After a trip through Canada the newly wedded couple will begin housekeeping in Buffalo.

Pretty Garden Wedding Celebrated
At Stanley Home Monday

With the growing flowers of the garden as a pretty setting, the wedding of Miss Thelma Stanley, daughter of Mrs. Charles Stanley, and Henry Mapes, son of Mr. and Mrs. Frank Mapes, occurred on the evening of Monday, July 31, at the home of the bride's parents, East Cady street. The ceremony was performed by Rev. Cedric Harger, of Jackson, a son-in-law of Mr. and Mrs. Stanley, in a corner of the rock garden.

The bride was daintily gowned in white lace over satin while her bridesmaid, Miss Marion Hamilton, wore flowered chiffon. Both carried sheaves of gladioli. Elmo

Lemon served as best man.

Following the ceremony refreshments were served by the hostess, assisted by Mrs. Florence Dehler, a sister of the bride, and by Mrs. Mapes, mother of the groom. Besides the guests from Northville there were present the family of Rev. Cedric Harger, of Jackson, Mr. and Mrs. S. A. Harger, of Farmington, Mr. and Mrs. Ival Hatten and daughter and Mrs. Della S. Boyd of Detroit.

Both Mr. and Mrs. Mapes attended the local high school where their romance began. Mrs. Mapes has held a position as saleslady in the Holmes Art Shoppe. Mr. Mapes is in the employ of the Morse dairy. They will make their home for a time with the parents of the groom on Cady street. Their friends extend all good wishes.

Friends Join With Richards Family
In Gathering Sunday

The Richards cottage, in the Snick subdivision was the scene of a happy get-together of old friends Sunday when Rev. and Mrs. Wm.

Richards came out from their home in Belleville to enjoy the seclusion of their cottage in the woods.

Carrying out an annual custom, Mr. and Mrs. Chas. A. Dolph, Mr. and Mrs. Chas. H. Smock and Mr. and Mrs. E. J. Cobb, joined with the Richards family in a picnic dinner and a pleasant afternoon together visiting and resting.

This spot, say the Richards, is most like home to them.

Large Garden Party To Be Given
Tonight at Grennan Home

One of the big social events of the summer is the Garden party tonight (Friday) given at Farmcrest, the summer home of Phil Grennan, when his daughter, Miss Evelyn, will be assisted by the Misses Delphia Hill, Gretchen and Elizabeth Kenter and Edmund Yerkes. Invitations have been issued to 250 guests.

The affair will be held on the lawn with an orchestra from the city to furnish music for dancing.

Mr. and Mrs. Scott Lovewell Entertain Forty Friends at Dinner

"Always have a good time at the Lovewells" said the forty guests who enjoyed a delightful dinner in the coolness of the screened garage and an evening of games in the recreation room later. The affair was a cooperative function planned with two-fold purpose: to have a pleasant reunion of friends and to honor Dr. Phil Lovewell and Dr. Victoria Lovewell of Ironwood and Carlisle Lovewell of Ohio, guests at the parental home.

Young Guest From St. Louis Is Honored At Social Events

This afternoon (Friday) Nancy McDougall is entertaining a group of girls at the Colony Club, Detroit, in honor of Miss Katherine Biel of St. Louis, Mo., who is guest of her aunt, Mrs. T. Glenn Phillips, included in this party of young friends with Miss Nancy are Barbara Phillips, Betty Schrader, Betty Schuell of Bloomfield Hills, and the honoree, Miss Katherine Biel.

Another event to give pleasure to this young guest was a luncheon and swimming party given Wednesday by Betty Schuell at her home in Bloomfield Hills. After luncheon the young ladies enjoyed swimming in the pool on the Schuell grounds.

Mrs. Phillips Is Hostess To Five-Town Club

Mrs. T. Glenn Phillips extended hospitality to the members of the Five-Town club and a few guests at her home Hillaire, Thursday afternoon. This group of friends have known each other for so long that the utmost informality and ease characterizes their pleasant gatherings.

Following a delectable luncheon, the hours of the afternoon were spent chatting over various kinds of handwork. Some did needle point, some hooked rugs, some "just sewed."

Present from Northville with the hostess were Mrs. C. C. Yerkes, from Bloomfield Hills, Mrs. F. W. Schuell, from Birmingham, Mrs. C. R. Wilson

From Detroit were present, Mrs. Geo. E. Edmunds, Mrs. W. E. Mosher, and Mrs. J. R. McColl, from Milford, Mrs. T. Taylor, Mrs. W. S. Lovejoy and Mrs. C. W. Hubbell. Guests of the hostess for the occasion were Mrs. Win. G. Lerchen, Bloomfield Hills, and Mrs. Allan Barron, of Detroit, who is in Northville for a part of the summer.

DEPRESSION TO PASS
SAYS McCULLOUGH

"No, the depression doesn't worry me," announces A. B. McCullough, who sits upon his porch at his home on East Cady street greeting his friends as they pass. "I will be 90 years old soon and have seen four or five depressions during my lifetime and they all passed by. This one will too, though it seems to last longer than the others."

Mr. McCullough, though a native of Canada, is a loyal American having arrived in this country shortly before the Civil war ended. Even at that late date he planned to enter the service for the country of his recent adoption and, but for circumstances, would have borne arms for the union.

"I have good health," he announces and adds good-naturedly, "all but my legs. I am the last living member of my family." In spite of the fact that Mr. McCullough has not walked down town since a year ago last December, he still keeps an active interest in all the affairs of the community, where he has lived so long. One of the bright spots in his quiet life is his friendship with children, his newest acquaintance being little year-old Mary Louise Lee, who waves at him from across the street.

Mrs. Lottie Card is his faithful housekeeper.

SPORTS

By "Dooley" Hyde

Crowds attending the Playground League ball games being played nightly on the school grounds increased considerably last week. Bleachers have been erected on the sidelines, to accommodate the spectators and more will be put up later, according to Coach Thompson.

About fifteen young girls have been reporting each morning to Jack Lester and Catherine McKenna for playground activity. Older girls have not turned out so well and they are urged to participate either morning or afternoon.

Activities are being planned for young women after the ball games. Mrs. Selady and Mrs. Owen will be in charge beginning Monday night. Everyone is welcome.

Coach Thompson reports that there is a possibility that the tennis court will be in shape to play on next week. Work has been going on during the week in hopes of

having the courts in good shape before many more days have elapsed.

SENIOR LEAGUE

In the "A" League Salem maintained their hold on first place by walloping the A. & P. team 15 to 6. Edison and Men's Shop are tied for second place. Edison defeated the Baptists 11 to 4, but lost their second game of the week to the Men's Shop, 20 to 5.

In "B" League Rotary and Maybury are tied for first place, with the Lutheran nine claiming second place honors.

STANDINGS (To Date)

For The Busy Woman

The famous House of HARRIET HUBBARD
AYER, Inc., understands the beauty problems of the
active woman thoroughly. . . knowing how she must
look her very best, but has little time for beautifying.

That is why we so strongly advise all women with
full social, business or household calendars to trust
themselves to these exquisite preparations.

Consider the basic home
treatment for instance

LUXURIA, the one cream that cleanses, softens,
beautifies. 45c, 85c, \$1.50, \$2.75.

SKIN & TISSUE BUILDER, to help erase those
"burry lines." 85c, \$1.65, \$4.40, \$7.15.

EAU DE BEAUTE Tonic to refresh your face and
keep those pores invisible. 85c, \$1.65.

BEAUTIFYING FACE CREAM, the flattering

his gardening.

Mrs. Barton Wheeler has received
several interesting letters from
her brothers, Chas. Dubuar, who
with his wife is spending several
weeks with two sons in New York.
Some time has been spent in Albany
with Carol, who is state actuary of
the New York Life Insurance com-
pany. They are now with James
who is principal of the Forestry de-
partment of the state. Both Mr.
and Mrs. Dubuar are in good health
and are enjoying their vacation.

Mrs. Wilbur H. Johnston and
children, Billy and Patricia, return-
ed to their home Tuesday here af-
ter spending several weeks at Mrs.
Johnston's parental home in For-
est City, Arkansas. They stopped
in Chicago en route home for a visit
at the World's Fair. Mrs. Johnston
was surprised to know that Michi-
gan had suffered with the heat, the
temperature in Arkansas being un-
usually cool this summer. There
have been rains in July which is
quite uncommon.

Mr. and Mrs. Wm. Rawle Brown,
accompanied by Mrs. Earl B. Nel-
son and little daughter Ann, of De-
troit, returned Wednesday from a
trip to northern Michigan. The
party attempted a visit at the T.
Glenn Phillips camp on the Stur-
geon river, but finding that this was
surrounded by forest fires, they
turned aside and spent their outing
at Houghton lake. The Phillips
camp, they report, was being care-
fully guarded and it was thought
all danger was past.

Mr. and Mrs. Dayton B. Bunn have
returned from a week's stay in the
North where they attended a re-
union of the Michigan club from
St. Petersburg, Fla., of which they
are members. The Bunnns were de-
lighted to meet a number of ac-
quaintances from Florida there. The
feature of the gathering was a big
shuffle board tournament, that
popular game of Florida. Traverse
City boasts of the second largest
course in the state. A few days were
spent in further pleasure at Glenn
Lake.

Dr. Paul and Dr. Victoria Love-
well of Ironwood are guests at the
parental home here for a short vaca-
tion. Carlyle Lovewell stopped for
a visit the early part of the week be-
fore leaving for the Canadian Soo,
where he was to join his wife and
enjoy a vacation. Friends of Car-
lyle, who is a graduate of the local
high school and one of its best de-
baters, will be interested to know
that he took his Master's degree
from Ohio State University Friday,
July 28, and is fortunate to have
a position offered him as assistant
principal of the high school in
Granger, Ohio.

Mrs. Wm. Davis of Detroit, mother
of Clarence Davis, Cambridge Drive,
is caring for the young Davises
while their mother is taking a vaca-
tion trip through the East. In com-
pany with three other women, her
sister-in-law, Mrs. Betty Wilson,
Mrs. Margaret Scott and Miss Betty
Harris, of Detroit, they will motor
through New York with a stop at
Saranac lake for a visit with rela-
tives. The trip will be continued to
Boston and other eastern points.
Mrs. Cora Davis and three small
sons, from Pennsylvania, are guests
at the Davis home. Little Ann Dav-
is is spending a few days with De-
troit friends.

and Mr. and Mrs. George Trice and
family of Detroit were Sunday vis-
itors at the home of Mr. and Mrs.
Roy Booth. Miss Dorothy L. Trice
is remaining at the Booth home as a
guest of Violet and Eleanor Booth.

Ambitious to accomplish some-
thing during the summer vacation,
Russell Atchison has taken a posi-
tion as salesman for the Marz Mot-
or Sales Co. Russell will enter his
junior year in the medical college
in the University of Michigan this
fall.

During the absence of Miss Irene
Fennel, acting superintendent of
Sessions hospital, Mrs. Hazel Hicks
will take charge as day nurse and
Miss Constance as night nurse. Miss
Fennel has gone to her home in
northwest Canada for two weeks'
vacation.

Rested and ready to begin work,
Rev. Frank N. Miner and his wife
and daughter, Elizabeth, have re-
turned from a vacation of four weeks
spent at the home of Mrs. Miner's
sister in Peterboro, Ont. By strange
circumstances this is the city whith-
er the Whitfield family are now
bound for their vacation.

C. E. Langfield is expected home
today from a business trip to Chi-
cago.

FRANK HAMILTON GETS C. C. C. LETTER

The following letter was received
by Frank Hamilton from a relative
who is attending the C. C. C. camp
at Lewiston. Mr. Hamilton kindly
turned the letter in to The Record
office as evidence of the boy's reac-
tion to camp life.

July 26, 1933
Lewiston, Mich.

Dear Mr. Hamilton:
Writing these few lines letting
you know that I am enjoying camp
life in the Conservation Corps. Am
building myself up physically and
gaining weight. I have quite a dis-
tinction here, am the shortest man
in our company, but weigh 140
pounds.

Our company is located in Lunden
State Game Reserve about six miles
east of Lewiston.

Our company contains 136 C. C.
C's and 30 foresters. We have three
army officers. Our commanding of-
ficer is Captain Pichel; mess officer
is First Lieut. Curtis and our medi-
cal officer is First Lieut. Katman.

Besides we have first aid men and
they maintain our own hospital.

Our buildings include two log cab-

ins, mess hall, tool shed, and lat-
rine. All built by the foresters with
the aid of the boys.

Also we are building an emer-
gency landing field for airplanes at
Atlanta. We work from 8 to 4 and 5
days a week. The rest of the time
is devoted to ourselves.

The work that I'm doing is sur-
veying and bridge work with four
old lumberjacks. And sure am
learning a lot of things.

We have tent inspection every day
and general inspection once a week.
We have a radio and a company li-
brary. We hold wrestling matches
and boxing bouts every Friday
night.

We sure do have a lot of fun and
sure do play a lot of jokes on the
rest of the gang.

I just returned from a fire. Up
all night. Am keeping a diary every
day and sure is interesting to read.
Well I guess I'll close.

POLITICAL PAYROLLS TILTED TO PROSPERITY HEIGHTS

HIGH OFFICIALS IGNORE DEFICITS AND CRAB FOR PLUNDER, STATE RECORDS DISCLOSE

July 1 Sees "New Deal" Administration Back To Prosperity Levels, Election Promises Ignored While Taxpayers Groan

By V. J. Brown of the Ingham County (Mason) News

The action of the legislature during its 1933 session in striking from the statutes a large number of salaries fixed by previous legislature is already recognized as having been a wise move. There are a number of salaries fixed by the constitution which are beyond reach of the legislature. Then there are a number where bills introduced to strike the statutory salaries and place the compensation of officials before each session when the biennial budget is being prepared failed of passage. In practically every instance where the fixed salary was not stricken, the present incumbents have gone back to the high levels which prevailed before the special session of 1932 decreed reductions ranging from 10% to 25%.

The constitution provides salaries of \$2500 each for the secretary of state, auditor general and state treasurer, while the statutes set up for the creation of the state administrative board, provide additional pay in the sum of \$2500 each. The governor is entitled to draw \$5000 and the attorney general \$5000. Each of the incumbents in 1932 following the action of the legislature and the recommendation of the governor voluntarily reduced their pay checks to \$4,500. Governor Wilbur M. Brucker setting the example by taking a voluntary cut to \$4000. Under the new deal all these salaries are now back to their boom time levels.

Webster Pearce, former superintendent of public instruction, was entitled under the law to a salary of \$5000 but he evidently thought that too much to extract from the pockets of the hard-pressed taxpayers of Michigan so he took a voluntary cut of 25 per cent and ordered his check drawn for the remainder of his term at the rate of \$4500. Paul F. Volcker assumed office on July 1 and about the first official act he performed was to order his pay boosted to the top figure which might legally be drawn. He is now being paid at the rate of \$5000 a month or \$20 per day or \$6000.00 per year, any way one prefers to figure it.

Back to \$7500
Grover C. Dillman also could have insisted that his pay check be drawn at the statutory rate of \$7500 set by a profligate legislature back in the halcyon days when property owners still had incomes from which taxes might be paid. Reaunder, the district of the taxpayer and the condition of the treasury in the spring of 1932 Mr. Dillman voluntarily reduced his salary to \$6750 with years of experience in developing Michigan's highway system to his credit. A county drain commissioner was elected to the office last April and one of his first official acts was to order his pay check drawn at the full rate of \$7500.

Every effort was made during the session to reach the five republican members of the public utilities commission. Not only were their salaries considered to be excessive but it was also believed that three good men could do as good or better a job. Politics prevailed however by reason of the fact that a few democrats yielded to offers of patronage and joined the standpat republicans in saving their "paw". The commission stood as it existed before the "new deal" took hold. At one time the commissioners accepted a slight reduction from their \$7000 salary scale. Now they are back and whittling signing checks for their own pay at top notch figures.

Exceeds Budget
Patrick Henry O'Brien was a warm advocate of the "new deal". Even at the inaugural ceremony he could not refrain from making a speech on its possible benign influence upon the happiness of the people of Michigan. His was the first of the departments to go 100% democratic. Even the old messenger who had worked faithfully during all previous regimes and whose pittance was too small to permit him accumulating a competence, was thrown out on his ear in his old age and told to go. Again it may be said that about the first official act of the new incumbent was to scan the payroll with disfavor and order all salaries of his chief assistants as well as his own back to the top figures. He immediately demanded \$5,000 while his son was jotted down in second place at \$4500. A year ago it cost Michigan taxpayers close to \$31,000 a year to pay off its department of lawyers. Today the schedule calls for an annual expenditure of \$115,000 in salaries alone. How this is to be accomplished on a budget set by the legislature at a total for all purposes of \$117,000 with only \$75,000 provided for salaries, is a question. Of course, being the attorney general, Mr. O'Brien has the chance to make his own rulings and already he has displayed a master hand at bending legal opinions to suit the occasion.

Samuel Metzger is another gent who lost no time in padding his own

out for Governor Wilbur M. Brucker's staff during the same period a year ago. The utilities commission payroll has increased at the rate of \$24,000 annually, the excuse for this being that the work of the department has been increased.

At least it can be said that the regents of the University of Michigan have done a fairer job of adjusting salaries than the department heads at Lansing have done for themselves. The budget of that institution was subjected to the most drastic cut of any state institution. It was the largest of any and presented the largest salaries paid anywhere in the state. Naturally it was able to stand a more severe cut with less danger to its continued service than any of the smaller colleges.

Take It On Chin
In direct contrast with the politically minded and suddenly elevated department heads at Lansing, the higher paid members of the faculty at the university took it on the chin as it were. Instead of swinging the political axe against the helpless necks of inconsequential stenographers and clerks and leaving them without a decent meal check in order that the "chief" might enjoy his royal amusements, the regents turned about. They attacked the problem from the other end. In order to whip their budget into balance and keep their faculty force intact, the higher-ups were asked to accept a slash of 20 per cent while others were asked to take a leave of absence until times get better. All above \$7500 are being cut one-fifth while all employees below \$1500 are not being disturbed. Above \$1500, the first \$2000 is given an eight per cent cut; the second \$2000 is clipped to the tune of 12 per cent and the third \$2000 is reduced by 15 per cent.

Drastic as this appears, at first a careful analysis will disclose that a professor drawing \$9000 before the reduction will now receive exactly \$9000, a little less than a ten per cent reduction. A professor previously drawing a salary of \$5500 will now receive \$5540 while one previously receiving \$5000 will hereafter receive only \$4615.

Hard Task Ahead
Other institutions heads have a difficult task before them as have the regents. Hospital heads have an especially troublesome job to retain their personnel and keep the tables of their institutions supplied with food. The budgets set for them must be adhered to. They have no statutory salaries to hide behind. If wages outside are increased in keeping with the NIRA program it may be possible that the purpose for which the governor may first be forced to call a special session will be that of increasing the wages set for employees of institutions and to provide food and clothing for the unfortunate wards of the state.

At least it can be said that the members of the state administrative board each of whom has seen to it that he has revered his own, cannot very well turn a deaf ear to the pleas which are almost certain to come from institution heads.

Beer Figures Lacking
No figures are yet easily obtainable regarding the free methods adopted by the beer control commission in helping themselves to the revenues obtained from the tax on 32 beverages. The beer bill which finally run the gauntlet of controversy, which raged in house and senate and in the office of the governor during its turbulent passage, places the responsibility for fixing the salary of the chief of staff only. All other employees have their salaries and their emoluments set by the commission and rumors are that they are paid plenty. Until some reports are filed it will be impossible to determine just how much is being paid or just how generous the commission is in the matter of expense accounts.

The sales tax commission also has a free hand in dipping into the rich treasures of that new revenue measure. It is expected that when the reports of that body are available there may be some startling discoveries. Perhaps the greed with which the members of this commission are seeking every possible article or piece of intangible personal property which they can claim is being sold at retail may be induced by a desire to have plenty of money to spend on their respective departments and to be certain that there are no payless pay days.

Same Savings
It should be stated here in justice to at least two of the state officials that while their own salaries have been tilted the total cost for their entire departments are lowered. The fact that no tax sales are in prospect before 1935 has permitted Auditor General Stark to cut out some employees while certain shifts in methods and short cuts in efficiency has enabled Frank D. Fitzgerald, secretary of state, to accomplish some savings, the former cutting his total annual expense from \$236,265 to \$215,965 and the former reducing his annual outlay of wages by about \$3000. The payroll in the office of Governor William A. Cockett for the two weeks just ended amounts to \$381 as contrasted with \$720 paid

paycheck. He was elevated from a small town farm produce shipper to become director of agriculture. His predecessor had voluntarily submitted to a cut of 25 per cent from his statutory salary of \$5000. But the new governor ignored this and demanded that his checks be drawn at the rate set when farmers received something for what they produced. In order to accomplish something to boast about he just as promptly cut the salaries of the technical employees, who after all are the backbone of any department, to starvation wages. Metzger accused his own raise by arguing before the committee at work on his budget that he was forced to buy a lot of meals for farmers who came into Lansing to transact business with his department. Any farmer who as yet has not received that free meal at the hands of the hospitable Mr. Metzger should date him up at once.

Not NIRA Policy
Most of the state officials who have tilted their salaries attempted an alibi that the move was in keeping with the president's NIRA ideas. They evidently have forgotten that most of the president's efforts have been directed toward providing a living wage for the actual workers. While a few high officials are peeling off generous slices from the treasury roll there are about 10,000 ordinary employees—clerks, stenographers, accountants, bookkeepers, janitors and watchmen, nurses, keepers and highway workers—who still continue to get along on the low wages set by the economy commission and the 1932 budget.

Certainly none of these officials are led to believe the distress of the state has been cured. Certainly they do not know and cannot claim ignorance of the fact that, in order to pay the salaries provided before June 1 and during 1932, the state treasurer was forced to dip into trust funds and special purpose revenues to pay running expenses and meet the payroll. In fact such inroads had been made upon these special purpose and trust funds that on July 1 last when orders were issued to return to prosperity salary schedules, the general fund of the state was in the red to the extent of \$15,009,000. The hard pressed workman who is forced to pay a tax on milk and bread and on shoes and clothing and on school books he is forced to purchase for the sustenance of wife and children and the farmer who is told he must pay a sales tax on seeds and fertilizers and crops and on feeds for his animals, will not need to be reminded that large hunks of his hard earned wages and a lot of the meager returns from overpriced produce are going to keep up fancy salaries for state officials who last fall were weeping on the necks of voters and telling them how to vote.

Every effort was made during the session to reach the five republican members of the public utilities commission. Not only were their salaries considered to be excessive but it was also believed that three good men could do as good or better a job. Politics prevailed however by reason of the fact that a few democrats yielded to offers of patronage and joined the standpat republicans in saving their "paw". THE OTHER DAY

By Miss "19"

Florence Balko started out on her vacation with her parents and Murian Richards of Belleville. Seen at the dance at Island Lake last week were Mr. and Mrs. Bob Lee, Al Zimmer, Helen Hammond, Mr. and Mrs. Merrill Sweet, Mrs. W. E. Sailer and daughters, Cathryn and Marion Starr, Northrop, Ad Schwenger, Elmer Perrin, Bob Litsenberger, Virginia Brooks and Marshall Hyde. Florence Johnson came back from Interlochen in time for the street dance Saturday night. Florence has resolved that she will give her vocal cords a rest (both singing and talking) this week. Waid Van Alta is back on the job again at Stewart's drug store, and what a treat! Cass Stevens came over from Plymouth Monday evening for dinner at Bernice Clark's home.

William Rattenbury has heeded the call of the "wide open spaces" (of water) and has been seen swimming out at Whitnash Lake. Ad Schwenger, Marshall Hyde, Lois Palmer, of Detroit, Ruth Mary Baldwin, Paul Baldwin and Junior Schrader are a few others who seem to take to the water and were noticed out at Whitnash swimming Friday afternoon having a picnic at Cass' Renton Park.

Florence Johnson is again becoming a waitress by profession, at the Royal Ann Cafe. William Dundas, Jr. is rapidly "falling away" to a mere shadow of his former self by the strenuous duties connected with the boat stand out at the Meadowbrook Country Club.

Eddie Bender, Kenneth Porter, Al Vreugenburg, and Catherine Raub are attending the World's Fair. It ought to be good for the shoe repair business. Dick Kerr, Fred Kerr and Kenneth Martin can't take it—they have to be made over again. Mary Ann Spagnuolo swears she gave them two dollars worth of service for fifteen cents.

We noticed that Duncan Fry has a good horse laugh, could that be what draws the business? Wilma Rattenbury has a weakness for sodas, sundaes and ice cream cones—just as long as they are chocolate. Patricia Kelly is back from Boston.

John Steenken entertained five couples at his home Wednesday evening. Otto Lewicki, Jr. is sporting one of the latest models of Henry—the guarantees that it will go fifteen miles an hour without the slightest sign of falling to pieces.

Otis is rapidly becoming a Barney Oldfield. Betty Miner is back from Peterboro, Ontario, after a month's vacation there with relatives.

For information about NIRA inquire of John Lillis at the Record office—he claims to know all about it—and a little bit more!

See you next week!

NEW RULING ON POSTAL SAVINGS

The postal authorities at Washington have made a ruling that will affect all postal savings deposits. Hereafter, if anyone has deposited money in the postal savings and allowed it to remain for the required time to draw interest, he or she could withdraw the money from the postal savings by presenting the evidence of the deposit, and would get the money with the accrued interest to date.

This has now been changed. The new order states that if part, or the entire amount, of the postal savings is to be withdrawn by the depositor, it can be drawn on demand at any time; but in that case, the interest must be sacrificed. The government will not pay interest on a deposit that is withdrawn unless the depositor has given 60 days advance notice in writing that he wished to withdraw his money.

All depositors desiring to make withdrawals from postal savings should bear in mind this new ruling, and should know they will sacrifice all the accrued interest on their postal savings unless they give the required 60 days notice in writing.

SUNDAY DINNER SUGGESTIONS

By ANN PAGE

One of the less known members of the Christmas family is the honey-sweet when used and this year is a great quantity of honey-sweet are being used and so especially delicious. They are also moderate in price. One meal will serve from four to eight persons according to size.

Of the accompaniments, which add so much to the ordinary meal, citrus sauce and olives are particularly appetizing in summer. Use chili sauce with cold cuts or jellied as a salad.

Peaches are even more plentiful than they were a week ago. If you wish to get them quickly, get a pound of them for just a minute.

Gelatin No Adulterant

Gelatin is the most costly ingredient in ice cream and the flavor, according to W. B. Ayres of the department of dairy industry at Cornell university. It is not put into ice cream to cheapen it or to give the appearance of a superior product, but serves two distinct purposes. It is put in to prevent the sugar of the milk from forming large sugar granules which make the ice cream sandy and gritty, and it is used to prevent the formation of large ice crystals, which would make the ice cream grainy. Only enough gelatin is added to establish a "gel" when the mixture is cooled to near the freezing point. The maximum amount that can be used is established by law at one-half of 1 per cent.

Church News

St. Paul's Lutheran

Leo C. Eickstaedt, Pastor. In St. Paul's letter to the Galatians, chapter 1-4 we read: "Who gave Himself for our sins that He might deliver us from this present evil world, according to the will of God and our Father."

According to some ideas religion is only to help us live this life right. Others think it is only for the future life. According to them we can live a life of wilful wickedness and in the end find a complacent God who will overlook all.

Christianity is for both, here and hereafter. It is the will of God the Father that our sins should be forgiven. To accomplish this He sent His Son, Jesus, gave Himself, shed His blood on Calvary, bearing the punishment as our Substitute. The blood of Jesus Christ, His Son, cleanseth us from all sin.

But it is also the will of the Father that we should be delivered from this present evil world. This does not merely imply that for which we pray in the seventh petition that God would grant us, a blessed and graciously take us from this vale of tears to Himself in heaven. It also includes the desire of Jesus: "I pray not that Thou shouldst take them out of the world, but that Thou shouldst keep them from the evil."

We are to flee the vices and vanities, the sins and snares, of this world. We are not to be deceived by its temptations and fascinated by its evil. We are not to be engulfed by the tide of lusts and passions. Though in this world we are not to be of it. We are strangers and pilgrims, having our citizenship in the heavenly kingdom. This is the will of God our Father.

How is this possible? Christ gave Himself for us. He is our refuge and strength. He delivers us. Lo! I sink, I faint, I fall.

Lo! on Thee I cast my care. Reach me out, Thy gracious hand. While of Thy strength I receive. Hoping against hope I stand, Dying and behold, I live.

The hour of our divine worship this Sunday morning is 10 o'clock. The pastor will preach. Everyone is heartily welcome.

Our annual Mission Festival will be held on the 3rd Sunday in August. Two services will be conducted. The first at 10 a. m., and the second at 3 p. m.

Baptist Church

We are glad to report a keen interest in the services these summer days. Next Sunday the first of the month, there will be the observance of communion at the morning service. At 9 a. m. the pastor preaches at the Maybury Sanatorium. Morning worship at the church is at 10 o'clock, followed by the S. S. at 11-20. The evening service is at 7:30. The morning subject is "Children of God" and that of the evening is "The Upgrading of the Lord." Mid-week prayer service is Wednesday evening at 7:30 o'clock. All are cordially welcomed and we especially invite visitors in Northville to worship with us.

CARD OF THANKS

We wish to express our thanks to all the friends and neighbors who showed such great kindness to us in our recent sorrow, to our friend, Rev. A. K. MacRae, for his words of comfort, to Ray VanValkenburg and to the Masonic order for their assistance and to all who expressed their sympathy with floral offerings.

CARD OF THANKS

We wish to express our appreciation to all the friends and neighbors who contributed flowers and expressions of sympathy during our sad bereavement and to both churches of Salem for the beautiful baskets. Especially do we thank Rev. Cora Pennell for her comforting words, the little girls who sang and served as pallbearers and those who furnished cars.

Obituary

PHYLLIS IRENE PICKARD

Phyllis Irene Pickard was born in Northville on October 5, 1926, the only daughter of Ralph and Ellen Hartman Pickard. Our Heavenly Father called the little girl from her earthly body early in the morning of July 26, 1933, at St. Joseph's Hospital in Ann Arbor. She leaves behind her parents, her brother, William Sherman Pickard and grandparents, Mr. and Mrs. Sam Pickard, and Mr. and Mrs. G. S. Hartman.

Little Irene was a regular attendant at both Sunday School and church, and many have commented on her interest in the services and the rapid attention with which she followed her pastor's every word. Memorial services were held in Schrader's Chapel in Northville on Friday, July 28 with Rev. Cora M. Pennell officiating. Betty Curtis and Ruth Pennell sang "That Sweet Story of Old." Mrs. E. Curtis was pianist. Betty Armstrong, Marie Becker, Natalie Whipple, Shirley Burnham, Betty Curtis and Ruth Pennell escorted their little friend's body.

"Let us be patient, these severe afflictions
Not from the grave arise
But oftentimes, celestial benedictions
Assumes this dark disguise."

HARRY OMER SEDAN

Harry O. Sedan, a resident of Northville for the past 14 years, died at Sessions hospital Sunday afternoon, July 30, following two operations. Death was due to pneumonia which developed.

Harry Omer Sedan was born in Johnson county, Indiana, Nov. 24, 1878. In early childhood he moved with his parents to Kansas City, Mo., where his boyhood was spent.

In 1901 he was married to Miss May Barnes of Kansas City, and to them were born three children: Harry, Albert, Robert Omer and Gertrude. Left motherless in 1922 these children have been tenderly cared for by the father who kept the family together and provided the comforts of home and a warm welcome for them on their return.

By trade Mr. Sedan was a drop forger. In recent years he had been employed in the local Ford factory. Harry Sedan was a quiet, unassuming man, whose chief interest was his home. He was honest, industrious and respected. He was an attendant of the Baptist church and a member of F. O. M. No. 186 and the Royal Arch chapter No. 55, for over 10 years.

The funeral service was held at the home Wednesday afternoon with Rev. A. K. MacRae, of Walled Lake, a close friend of Mr. Sedan, officiating. Of the deceased Mr. MacRae said: "I respected his friendship. He was a man one must know well to appreciate."

The service was attended by the members of the masonic order, who had charge of the rites at the grave. Six masons acted, as pallbearers: Fraser Starnes, Roy Clark, T. R. Carrington, B. A. Stephens, John Litsenberger, and Clifford Sinden. Ray VanValkenburg sang.

Surviving are one brother, Gilbert D. and two sisters, Mrs. J. C. Burr and Mrs. W. J. Tramel of Kansas City. Two sons and the daughter will maintain the home together.

Interment was made in Rural Hill.

"RELIGION NOT A PILLOW"

SAYS REV. H. G. WHITFIELD

"Whenever you find a person to whom the 'softness' of Christianity appeals, you find a soul that is morally deteriorating," declared Rev. H. G. Whitfield to a well-filled house Sunday morning at a union service at the Methodist church.

There were present, by special request, representatives of the men's and women's organizations of the Presbyterian and Methodist churches and the attendance was good in spite of the intense heat.

Though seemingly a bit out of harmony with the spirit of idleness brought on by such weather, Mr. Whitfield incited his hearers to greater activity urging them not to use religion "as a comfort or relaxation" but as an incentive to "endure hardness as a good soldier."

Especially did the speaker emphasize the importance of an "uncompensating conscience" and the possession of a high ideal and purpose.

NORTHVILLE BOYS WRITE FROM CAMP

(Continued from Page One)

expect to be. Did the other Northville boys expect to get hotel meals? Furthermore the Major, our commanding officer, has spent \$100 from his own pocket for provisions for this camp. Does he deserve loyalty? Did any of the boys that returned to Northville appear emaciated and starved? We are darn well fed and no one in the camp at present appears to be dissatisfied, except that some minor error is sometimes made in the cooking—even the best Greek restaurant can burn food sometimes.

"When we first pitched camp we were given full liberty to go out of camp and return at our leisure any time before the next morning—providing we were available for work on the following day. This worked for awhile, then rowdy drunkenness and noisy returning sets awakened the men in camp that valued their rest. For the benefit of the majority a set time for quiet in camp, 9:30 p. m. was set, bed check was set for 11:00 p. m. and all men were given to 11:00 p. m. for any night-life they might propose.

"If any man wants more time for a night's pass he may have it for asking and making a report to that effect at the orderly room. Only one thing may enter into the mind of such a man—the fire guard duty. This is necessary for our own safety in these wooded sections with numerous forest fires. Then, each section from the four in camp are on duty twice per week—hence the men have five nights per week to their own choosing. Considering all that may arise in a camp of 200 hundred men, this to our opinion seems the best system to follow.

Some of the Northville boys were not discharged from this camp but transferred to different camps by an order from our district commander. They were dissatisfied with their new environment and the fact that they were separated from the group which they were most accustomed to. They were perhaps right in requesting a discharge. These men have our full sympathy and wishes for better luck.

With the best regards from all the boys from your home town,
—Ten Northville Boys

EXCHANGITES HEAR PLYMOUTH EDITOR RAZZ LEGISLATURE

(Continued from Page One)

bunk, said Mr. Eaton: "Out of the \$124,000,000 which the state collects in taxes annually," reported Mr. Eaton, "the legislators the entire session to a program of not only failed to cut any of the amount of duty but actually added several millions."

Mr. Eaton explained that the sales tax now in effect will result in over \$31,000,000 more being poured into the state coffers and that it was the largest single tax producing plan that the state has ever known.

Producing figures to support his contention that millions of dollars are still being raised by the state in the face of a rising tide of public disapproval, Mr. Eaton told of the vast amounts being collected by way of gasoline taxes, malt taxes, license fees, support of hospital patients fees, real estate tax, and many more revenue producing plans.

Following his talk, Roy Crowe, local district manager of the Michigan Bell Telephone company, told the assembly that, to reduce his company's tax to simple terms, each subscriber was indirectly paying about \$7.00 for his phone service and that last year the tax for each telephone amounted to approximately \$4.00.

Dr. Bruce H. Douglas, head of the Maybury sanatorium, president of the Exchange club, urged members and the guests to "consider well what you receive for your dollar."

He said that the service given for the dollar should form the main test of whether the tax was worth while. The discussion was taken up by different individuals present and the entire program was voted as being exceedingly stimulating.

Guests present were A. E. Whitehead, Northville cabinet maker, Ben Baldwin and John Mills of Detroit.
