A STRANGE STATEMENT

Governor Comstock gave a speech the other day which he wouldn't have dared to give before any considerable group of the 800,000 people in Detroit who had their bank accounts tied up in the historic "bank holiday."

Such an absurd statement can hardly be credited, yet the newspapers say he said it. How can he defend such talk as almost beyond comprehension.

The governor needs several things but among them a speech censor.

WHERE IS THE TROUBLE?

If you want something to stir you, regarding what is wrong with the country read three articles in this issue in the columns. "What Other Editors Are Thinking About."

The country will never be right until we get back to some of the old-fashioned virtues, at which many people sneer these days and toward which unthinking thousands are blissfully indifferent.

If character goes from the lives of our people, no NRA can save us from depression and no law making can do away with the racketeer.

THE "BIG WEEK" IN NORTHVILLE

This is the week which sees thousands of people coming to our village. College towns can have their throngs when the big football games are on but Northville draws the crowds from all over the Detroit area (and beyond) with the Northville Wayne County Fair.

The Northville fair means a lot more to the community than perhaps many of us realize. It is an institution. It is a week that is just as much a part of the calendar as the Fourth of July and Christmas.

United community cooperation has made the Northville fair live from year to year—and come unscathed through the worst depression the country every saw, a time when many fairs have had to quit entirely.

So much for what the fair means to us. What will we mean to the hundreds and hundreds of visitors who are here, perhaps for the first time? Everything. The first impressions that one gets of a community often make you like or dislike a town.

THE PUBLIC WORKS PROGRAM

Many villages and cities are taking advantage of the government's offer to finance public works, through President Roosevelt's three billion dollar fund.

As we understand this public works plan, the government gives part of the money and the rest is loaned to the community that makes application.

Northville is said to be in line for a public works loan. It might be used to improve our water system, it might be an improvement to our sewage system and then there are a lot of less helpful things than a swimming pool to take the place of our lack of a lake or river where boys and

girls and men and women can satisfy their inborn desire to get into the water in the summer time.

The amount of money that Northville might get from the public works chest might go as high as \$30,000, and that amount of money would do a lot of good in the way of furnishing employment.

Whether Northville gets any public improvement now is up to the city commission. In the meantime, we can all be getting new ideas about the plan and be ready to give our opinion of it when the time comes.

WANDERING THOUGHTS

See you at the fair today and tomorrow!

Only four months until everyone with less than \$2,500 in any bank will have it insured for 100 per cent.

"The finest horse show in the state this year." That is what the authorities on horses say of the big event today and tomorrow at the Northville fair.

We like to hear good things about our neighbors. Listen to this: The Daisy air rifle factory at Plymouth has been very busy for the past five months and right now is behind on its orders.

Is there any finer satisfaction than that gained from raising flowers? A simple thing, of course, but the man or woman who can take over a fine bunch of gladioli to his neighbors in August gets more of a thrill than the one who plays the stock market.

What do you think about Senator Couzens' stand on the bank holiday in Detroit? The stubborn senator says one thing about his part in the bank closing; a dozen other high authorities say something entirely different.

TODAY'S QUESTION

Will Michigan's old-age pension system work?

WHAT OTHER EDITORS ARE THINKING ABOUT

DRUNKENNESS

(Milford Times) "Drunkenness is increasing at a rapid rate," Sheriff Roy Reynolds is quoted as saying

HOME BREWED GAMBLING

(Michigan Christian Advocate) Gambling of all kinds is flooding the land. Perhaps our fathers were pretty strict about cards, but we got along far better than today when half of America's children are trained in homes where cards are played for stakes and young minds catch the thrill for future gambling.

THE NATION'S NEED

(Rev. Loren W. Burch in the Addison Courier) What our nation needs most is not armaments, prosperity or even statesmanship. Plainly and simply its greatest need is for an individual sense of honor as long and as broad as the land.

EXIT HIRAM JOHNSON

(Upland, Calif., News) "Hiram Seems To Be On the Way Out," according to the heading over an editorial in a California paper,

referring, of course, to our Senator Hiram Johnson. Unless we read the signs wrong—Hiram is already out, so far as the Republican party is concerned.

HIS WAY OF SHOWING GRATITUDE

(Holly Herald) A Holly man with a big family who have received hundreds of dollars in welfare help during the last few years, and who probably never paid one cent in taxes, had a chance to pay that first cent the other day—and turned it down.

MAYBE A BAD BARGAIN?

(M H DeFoe in The Charlotte Republican-Tribune) Two high place officials of the present state administration are reported in an argument over the salary of one of them who is quoted as saying that anyone who can negotiate a \$500,000 rental contract for the state fair grounds in Detroit is worth \$5,000 a year. It may be an

excellent bargain but there are still many people in Michigan who will subscribe to this closing paragraph from a recent Christian Science Monitor editorial: "Gambling, greed and racketeering go hand in hand. Hence, it is not surprising that wholesale charges of doped horses, bribed jockeys and fixed races—insidious things that flourish wherever 'easy money' collects—are putting a crimp into business at many race tracks."

MIRROR REAL AMERICA

(Cornwall Local, Cornwall, N. Y.) Turning from the city newspapers to the small town press exchanges that come to the editor's desk is like stepping from the slums, full of vice, into an old-fashioned garden sweet with lavender and thyme and the scent of perennial flowers.

A MEMORABLE DAY (V. J. Brown in Ingham Co. News) The Hon. Samuel T. Metzger says, "Wednesday, August 9, 1933, will ever be a memorable day in the annals of state and county fairs, as on the afternoon of that day the Hon. Samuel T. Metzger, Commissioner of Agriculture, and his excellency, the governor, signed in behalf of the state a lease to the Detroit Racing Association, Inc., covering the Michigan race fair grounds at Detroit, for a daily rental of \$6000 for a minimum of 25 days in 1933 and a minimum of 30 days in each of the calendar years of 1934, 1935, 1936, 1937 and 1938."

Although it is a little late to make August 9 a Roman holiday this year we may take part in a general celebration next year. Under leave of Samuel and the rest, for Samuel is an honorable man (his own press release proves it), so are they all, all honorable men, come we to speak at Caesar's funeral.

August 9 may well prove to be a memorable day, but for reasons different than those set forth by the Honorable Samuel T. Metzger. When a man loses a \$10 bill owed to his

covery of conscience. It must come in business. In the yardstick, in the gallon can, in the bushel measure, in the berry box, in the weights and measures, in the label, in the stuff in the car, in the sales talk, in the speedometer, in the advertisement, in the box office, at the cashier's window, in the swivel chair.

Under leave of Samuel and the rest, for Samuel is an honorable man (his own press release proves it), so are they all, all honorable men, come we to speak at Caesar's funeral.

THE REAL RECOVERY

The Los Angeles Times gets to the root of the matter in discussing America's troubles. With all our efforts to bring back good times by economic fiat, haven't we overlooked something?

Can the "forgotten man" be the Honest Man? Insult mounded his millions; Wall Street evaded its income taxes. These are types of the times.

Who thought of the repeal of the Eighteenth Amendment before the repeal of the Ten Commandments had begun? Whether the world admits it or not, the collapse of national character which launched the war was the start of the debacle.

The real recovery is the recovery of justice, truth and righteousness. Honesty, then optimism! Purity, then prosperity! There is no other way out. These are old-fashioned doctrines—they are new-fangled doctrines for many. They are the eternal verities.

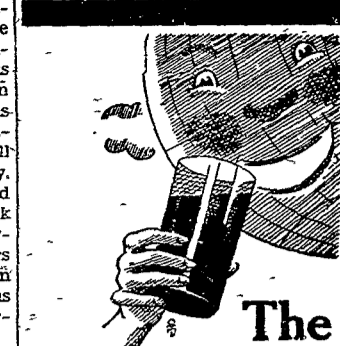

The real recovery act is the re-

grocer to the Chicago racing syndicate operating the fair grounds the grocer will have reason to remember August 9. When some little boy is forced to go to school with run-down shoes and shabby clothes because his father placed his money on a dishonest horse race that little boy will remember August 9 as a great day.

According to what we (perhaps mistakenly) refer to as our morals there is no more evil in betting on a horse race than in playing the stock market, dealing in grain futures, taking a chance on a quilt at the church raffle or playing marbles for keeps.

August 9, 1933, may prove to be a memorable day as the Hon. Samuel T. Metzger proclaims.

With a professional gift for secrecy, this nurse had kept from her friends the fact that at Christmas time she was married to Harold McElroy of Detroit, and the trip which she took to Winnipeg was in reality a wedding trip.

Mrs. McElroy was with difficulty persuaded to go to the Grennan ranch on the day appointed and here she found assembled a large company of close friends, among them two former associates in the Receiving hospital in Detroit, Miss Vera Reynolds and Miss Vivian Snaw, and Mrs. Holcomb.

One feature of entertainment was the fortune telling conducted by Mrs. Myron Taylor in which the unmarried members of the party were particularly interested.

After a wicker and hamburger roast in the out-door barbecue the guest of honor was led within the cabin where a gay assortment of gifts, wrapped mysteriously, lay before the blazing fireplace. It was a time of much merriment when the packages were opened and the sentiments read.

Mrs. McElroy has been a nurse in Dr. Holcomb's office for the past five years and has won many friends who extend congratulations. She will continue to occupy her position as usual. Mr. McElroy conducts a gas station in Detroit.

This pleasant affair was arranged by three hostesses, Miss Helen Hammond, Miss Vera Schroeder and Miss Ella Schmidt.

### FUEL ECONOMY IS PROVEN BY FORD

The blue and white stock V-8 Ford test car powered with Mobilgas with Climatic Control and lubricated with Mobiloil which started a 10,000 mile economy run from Detroit last Saturday over a 400 mile route, including Lansing, Grand Rapids, Kalamazoo and Jackson, showed surprising results in fuel economy. Speeding over hill and down valley, on the open road and in city streets, through the heat of noonday and cool of midnight, this Ford stock car attracted the interested attention of thousands of automobile owners throughout this territory.

On its initial trip Saturday, the test car was conveyed by a fleet of 75 Ford V-8's and was met on the outskirts of every important town along the route by the mayor, a police escort, newspapermen and Ford and White Star dealers, and in two places by brass bands.

The car, driven by drivers operating in three shifts, was reported to be in perfect condition. At each 1000 mile interval when the Mobiloil was changed, the crankcase was found full and the lubricant in good condition.

The purpose of this run, sponsored by Ford dealers and the White Star Refining Company, was to prove the economy of Ford operation and of Mobilgas and Mobiloil under the same kind of driving conditions which the average motorist meets. The only exception is that this car was put through the equivalent of a year's driving in about fourteen days.

### HORSESHOE TOURNAMENT

Coach Thompson reports that entries are not closed yet and anyone desiring to compete may do so by presenting his name to Thompson at the school building at the earliest possible time.

**Salon Federated Church**

Perhaps the most outstanding of all the teachings of Jesus is that of the doctrine of the second place, which he taught both by precept and by performance. In the morning service at 10:30 o'clock on August 27, our pastor's subject will be, "Taking Second Place."

The biography to be studied in Bible school at 11:45 is that of Saul. The lesson text is First Samuel 15:13-26 but you will find it interesting to read the entire book of First Samuel. Memory verse: "Behold, to obey is better than sacrifice." First Samuel 15:22.

"I will meet you at the hymn-sing, Sunday evening" at 7:30 o'clock. Come prepared to tell which is your favorite Bible character and why.

Rev. Lucia M. Strohn, Minister.

The services last Sunday were very well attended. Rev. Arnold Kehrl, a splendid minister of Beulah Baptist church of Detroit, spoke with conviction and brought a stirring message to all hearts. An altar call followed, wherein five adults came forward to confess the Lord.

In the afternoon a fine service was conducted at Walled Lake. Rev. Kehrl spoke briefly to a large audience who lined the banks of the lake and then with a splendid group of children and adults walked out into the beautiful waters of Walled Lake and immersed them in the name of the Triune God. Service next Sunday at 10:30 a. m. The pastor will speak on the "Tide of the End." Daniel 11:36 and "The Flying Roll" seen by Zechariah, the Old Testament Prophet.

**Christian Science Churches**

"Christ Jesus" will be the subject of the Lesson-Sermon in all Christ-

ian Science Churches throughout the world on Sunday, August 27.

Among the Bible citations is this passage (1-Cor. 3:11): "For other foundation can no man lay than that is laid, which is Jesus Christ."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 136): "Jesus established his church and maintained his mission on a spiritual foundation of Christ-healing. He taught his followers that his religion had a divine principle, which would cast out error and heal both the sick and the sinning"

Church of Our Lady of Victory

At the meeting of the Altar society last Tuesday at the church the pastor urged upon the members to abide by the organization methods that were adopted last January. The director group will meet regularly and together decide on coming plans.

Parents and prospective altar boys will please heed this notice: all boys 10 years of age and over who wish to become servers in the sanctuary must attend the 8 o'clock daily Mass all next week beginning Monday, August 28. Here by observation and suggestions they will gradually be trained in the art of Mass serving.

The ladies are reminded that next Sunday, August 27, is the fourth Sunday of the month, i. e., their Holy Communion day.

Rugged individualism meant each for himself. The depression was a logical evolution from this "dog-eat-dog" principle. The Bible, knowing the inconvenience and sacrifice of being "our brother's keeper," insisted on it just the same. We believe that the NRA is trying to bring back this principle of Christ. Its popularity depends upon how one is affected by it!

Will the members of the men's choir and others wishing to join please remain for a short time after next Sunday's 10 o'clock Mass?
