## PRESIDENT'S BALL HEADED BY SCHRADER

### Big Event Will Aid in Fight Against Infantile Paralysis

It will be with great satisfaction that the Northville public will learn that Nelson C. Schrader has been appointed general chairman of the President's Birthday Ball to be given in celebration of his fifty-second birthday which falls on Jan. 30. The proceeds are to go to a permanent endowment fund for the nation-wide work of the Warm Springs Foundation for Infantile Paralysis.

## NAMED CHAIRMAN

NELSON C. SCHRADER

The national committee in charge of the "President's Ball" to aid the battle against infantile paralysis has selected Nelson C. Schrader to have supervision of the event to be held here Jan. 30.

Very dear to the heart of President Roosevelt is the work of the Warm Springs, to which he owes his own recovery. Even when he stepped into the White House, he still retained, among many other interests, the presidency of the Warm Springs Foundation.

When it is learned that one-third of the physically handicapped in the nation are crippled as the result of infantile paralysis it ought to stir us to action to aid in the cure of this essentially children's disease by the treatment given at Warm Springs. As evidence of their loyalty to their leader, hundreds of towns all over the country telegraphed to the general committee, composed of outstanding men in affairs of the nation, that they would give hearty support to this movement. It is estimated that in at least 6,000 communities will this birthday party of the President be celebrated in this manner.

And Northville is to join with the other 5,000 towns and cities throughout the nation in doing its part.

## FUSTON BECOMES CHECKER CHAMPION

Northville has a new checker champion. Summer Fuston defeated Lee Shipley, local title holder for several years, in a close match last Thursday, thereby winning the Northville championship. The match consisted of ten games, three of which were a draw, two won by Shipley, and four by Fuston. It was played in the Shipley and Fuston barber shop on Center street and proved thrilling to the small group of checker enthusiasts present.

Mr. Fuston qualified for his position of chief contender by beating Sidney Fridge several weeks ago, thus winning a tournament that had been running for some time.

Another tournament will be staged soon, Mr. Fuston says, to decide another contender for the title, and ex-champion Shipley has decided to enter in. These tournaments are managed by John Ashby of Salem.

## W. R. C. MEETING AT WOMAN'S CLUB

A program of unusual interest will be presented at the Woman's club this afternoon (Friday) when the guest speaker will be Mrs. C. W. Gifford of Detroit, who will discuss "Homecraft, Old and New." Mrs. Gifford's husband, also of Northville, will sing. Both of these women will be remembered as having contributed a program last year. Members may bring guests.

## WATER PLAN APPROVED BY STATE HOUSE

### Representatives Pass Bill That Will Permit The PWA Project

Plans for Northville's improvements to its water system, which include the construction of a closed water reservoir, a PWA project, were approved Wednesday by the state house of representatives at Lansing on the first day that that body convened.

P. J. Cochran, village attorney, who was present, representing Northville called the attention of the legislators to the fact that they had omitted to include improvements to the town's water supply in the bill that they had passed. An amendment was immediately made and added to the bill.

The bill that they had passed, an amendment was immediately made and added to the bill.

Monday evening at the village hall councilmen were gratified to hear the report from Dr. Wilbur H. Johnson, health officer, that samples of water taken from the Hill and Bernard springs, and a local home faucet were sent to the department of health at Lansing and approved by officials there.

## TRENTON GAME TO SETTLE CHANGES

The title chances of the Northville high school basketball team will be at stake when the local eagles play at Trenton this evening.

The N. H. S. squad won from Berkley Dec. 15, and the following Friday lost an exciting overtime game to Farmington. Trenton has beaten Farmington and if Northville does not come through with the goods tonight, it was believed that the team would be definitely out of the race for the Suburban League championship.

The game tonight is of especial interest as last year, Northville's title hopes, were thwarted by Trenton. Trenton also was last year's Suburban League basketball champion.

The next high school basketball game will be played here next Friday, Jan. 12, with Melvindale.

## Mrs. Ida Hendryx Spends 77 Years Of Service To Others in Village Of Northville Where She Was Born

To have lived 77 years is not in itself such an honor, but to have lived 77 years full to the limit of usefulness and achievement is the enviable record of Mrs. Ida Hendryx, known to folks far and near affectionately as "Aunt Ida," who will reach another milestone in life, Sunday, Jan. 7.

Northville has always been the home of this good woman who was born in the old Hamilton homestead, about one mile out on the Fishery road—the home of her father, Thomas Hamilton.

To the old school house on the site of the present new building she trudged daily when a girl and was the shining star of the reading class. On Friday afternoon it was her idea Hamilton who spoke her "piece," best and to this day her appearance on any program is welcomed heartily.

For many years she was keeping house for her brother, Jas., a veteran of the Civil war, on North Rogers street, she was the village tailoress. Those were the days when she cut a bell-shaped skirt of many fullness.

## MRS. T. J. ALDERMAN AND HUSBAND DIE IN CRASH IN FLORIDA

Mrs. T. J. Alderman, formerly Maybelle Bradley of West Point Park, was killed Friday evening in an automobile accident at Starke, Florida, and her husband died in a hospital room after a result of injuries received at the time of the accident.

Mrs. Alderman was well known in Northville and West Point Park. She was graduated from Northville high school in 1905 and had taught at the Pierson school for two years. She attended the University of Michigan for three years, leaving there to teach at Starke, Fla., for a year.

After leaving Starke, Fla., she came to Lake Butler, Fla., where she taught in the high school there and then holding a similar position in West Point.

The funeral service and burial took place at Starke on Monday, Jan. 1.

## H. S. GERMAN INJURED IN AUTO CRASH

### Former Northville Mayor Is Victim of Accident At Carleton

Harry S. German, Sr., Carleton bank conservator, formerly of Northville, was seriously injured and Mrs. Clara Eulis of Detroit, was killed when their automobiles collided near Carleton Sunday afternoon.

Mr. German suffered five fractured ribs and one punctured his left lung. He was taken to his home in Carleton where doctors say that, in spite of the fact he is dangerously ill, he has a good chance to recover.

Mr. Eulis, who was with his wife and son, was uninjured. The boy, Alfred, suffered a broken arm. The bus was driven by Alfred Eulis, 19 years old, and was coming toward Carleton on the Will Carleton Drive. Mr. German was driving from Carleton, bound for Detroit, where he was to take part in a boxing match that evening.

## BASKETBALL LOOP OPENS SEASON AT H. S. GYM TONIGHT

The town basketball league starts this evening, Jan. 5, at the high school gymnasium, with the first game at 7 o'clock.

Six teams representing the village and surrounding townships will participate in the opening of the league. The teams will represent Twin Pines, Derry, Carleton's Service, Stationery, The Northville Record, Salem Maybury Sanatorium and Elm Men's Shop.

A complete schedule of the teams and the opponents that are to play appears below. The rules to govern the play of the league follow:

1. It was agreed to have no more than ten players on a squad.

2. The manager of each team is to present a membership list of all players of his team by January 15, 1934.

## COURT OF HONOR TO OCCUR JAN. 11

A court of honor of Boy Scouts of Plymouth district will be held at the Plymouth high school at 7:30 on the evening of Thursday, Jan. 11.

## HAS RIBS BROKEN

HARRY S. GERMAN

Harry S. German, former mayor of Northville, now bank conservator at Carleton, was seriously injured in an automobile accident Dec. 31. His friends will be glad to know he is resting comfortably.

## KING'S DAUGHTERS HEAR REPORT OF CHRISTMAS CHEER

It was with genuine satisfaction that the members of the King's Daughters at their meeting Tuesday afternoon at the home of Mrs. W. H. Safford listened to the report of the achievements of Christmas.

Twenty generous baskets of provisions were packed and sent out on Saturday preceding Christmas. In these baskets were various kinds of vegetables and groceries, a cloth and fruit and good treats for the season.

## SALEM FEDERATED LADIES' AID NAMES OFFICERS FOR YEAR

On Jan. 2, the Ladies of the Aid Society of the Salem Federated church met at the parsonage for their annual business meeting to review the past year's work, and to elect officers for the new year.

Mrs. George Roberts was made president for another year and instructed to select her vice-presidents Mrs. Leslie Curtis was re-elected secretary and Mrs. Glen Whitaker again chosen as treasurer. Mrs. Will Merritt and Mrs. Harmon Gale were reappointed on the flower committee for the year, and Mrs. Ruth Clay was elected to the funeral flower committee.

The circle presidents, Mrs. Harry Whitaker of the North circle, and Mrs. Glen Whitaker of the South circle, were urged to continue their efficient leadership. The Five Mile road is the dividing line to determine the circle groups.

The January meeting of the Aid Society will be held in the home of Frank Boers on Thursday, Jan. 25, with dinner at noon.

## DEPOSITS ARE INSURED BY LOCAL BANK

### Sums of \$2,500 and Under Are Protected By Government

All bank accounts up to \$2,500 are now insured at the Depositors State bank. The bank received its certificate this week announcing its membership in the Temporary Deposit Insurance Fund of the Federal Deposit Insurance Corporation, through which the net deposits of every depositor of the bank are now insured up to the amount of \$2,500.

Depositors are insured by the Federal Depositors Insurance Corporation in the manner and to the extent provided under the terms of the Banking Act of 1933, say officials of the local bank. State banks were admitted to membership of the organization only under the most rigid inspection and examination of the examiners of the Federal Depositors Insurance Corporation and will hereafter be subject to examination by both FDIC examiners and state bank examiners.

Officers and employees of the Depositors State bank have been working night and day preparing the immense amount of data required by the banking authorities before the local bank's application could be approved. Eighty-five bank buildings which burned last during many months of the past winter testified to the reality which pressed the Depositors State bank's application to the Federal Deposit Insurance Corporation.

## ELECTRIC FOUNTAIN IS INSTALLED BY THE NORTHVILLE DRUG CO.

A fine new electric fountain at Trumpler's barbers has been installed by the Northville Drug Co. The fountain is a fine electric and is made of brass. Somewhat shorter than the fountain on the main street, it is of the same design and has been changed for winter operation.

## BANK IS AWARDED JUDGMENT AGAINST OLD STOCKHOLDERS

The Depositors State bank was awarded judgment Wednesday afternoon at the court of Judge I. W. Lavin at Detroit, against 17 stockholders of the former Northville State Savings bank who have not paid their assessments.

John A. Boyce, president of the bank represented the institution in his suit. The Depositors State bank is a consolidation of the former Northville State Savings bank and the Lapham State Savings bank.

## TICKETS FOR THE HUNTERS' BALL ARE GOING FAST

The public is again reminded of the coming Hunters' Ball which will occur on the evening of Wednesday, Jan. 17, (not the 16th, as misstated in the previous issue) in the high school gym. There is no doubt as to the popularity of this unique event judging by the sale of tickets which has already begun under the direction of Mrs. L. C. Stewart. Assisting her in this sale are Mrs. LeRoy Stewart, Mrs. Harold Bloom, Mrs. Chas. F. Murphy.

## ADDITIONAL LOCALS

Do not destroy your old Christmas tree but call one of the following committee if they may be used for decoration at the ball. Mrs. B. C. ## THE OUTLOOK FOR 1934

Watchman, what of the year 1934?

As far as we can see, the business outlook for 1934 is much better. Many signs point to it and best of all, there is a growing feeling of confidence that things are going to be better.

One concrete sign of the times is this: Roger Babson, the nationally known economist, predicts that the coming year will see an increase of ten per cent. Just a year ago, Babson made the prediction that 1933 would show a gain of ten per cent over 1932 and as a matter of fact, the gain has been just about that. Babson has analyzed all the various lines of business and industry, and points out where we can expect the gains or perhaps losses. His word is taken as "law" by many thousands of people who have followed his predictions for years.

Northville's spirit are on the up-grade, without doubt. Our local merchants report an excellent holiday business and many of them will have to start tilling up shelves. Multiply this condition all over the land and you can see where factories are going to be kept busy for something to come.

If the Northville community can start building a few homes this year it will add to the upward turn of business. We have plenty of business places but we lack modern homes. The building industry is one that has been hit hardest by the depression. If we do our part in starting a little building it will all help in the general return of prosperity. Other places may be built on modern homes but Northville is not a town where any one starts out to build a home for a year or two and then gives up.

Yes, it is a better year ahead. Let us do our part and shoulder the load and it is certain that it will be better.

## GETTING A LAMENESS FROM THE PAPERS

When you are in a hurry to get to the metropolis, you are likely to get a "lameness" from the papers. Read the papers and you will find many a tear for the poor, old, blind, or deaf, but when you are in a hurry, you are likely to get a "lameness" from the papers.

When you are in a hurry, you are likely to get a "lameness" from the papers. When you are in a hurry, you are likely to get a "lameness" from the papers. When you are in a hurry, you are likely to get a "lameness" from the papers.

## ON TO DETROIT!

In less than six months—June 25, 26, 27 and 28, to be exact—the City of Detroit will be host to members of Rotary clubs from 66 countries of the world. Ten thousand people will gather there for the 25th annual international convention. It will be one of the most notable assemblies of the whole year in the United States.

The Northville Rotary club, one of the 52 clubs in the 23rd district, located in both the United States and Canada, will have the honor of having a small part in the entertainment of the visiting thousands. Indeed, it is entirely possible that some of the visitors may find their way to Northville, say to the Maybury or Eastlawn sanatoriums, to the Wayne County Training school or to the House of Correction. If the Rotarians do come, we think they will like our hills. And we hope they like us—even if we don't all speak the same language.

## A REAL NORTHVILLE NEED

Maybe we are too optimistic to say it again, but we repeat: Wouldn't it be fine if Northville had a modest, but up-to-the-minute hotel?

Not one too big for the town but a cosy one with maybe a dozen or so rooms to care for the transients within our gates. Certainly with the big institutions around us, which bring many visitors, there must be folks who would like to stay here all night if they could go to an inviting little hostelry.

For a town with all of Northville's progress, it is a little embarrassing at times to tell people we have no modern hotel and that they will have to go elsewhere. A modest hotel could make money for its manager and in addition it would be one more institution in town to bring business to others.

## THE NORTHVILLE RECORD

### REAL NORTHVILLE POSSIBILITY

It still sticks in our mind that some day it would be a splendid thing for our community if we could build an outdoor swimming pool. With all the water we have and with several desirable sites for the pool, it could be a real community asset that would draw people from many miles away.

We are short on lakes. Let's do the next best thing—make our lake. Then we can swim in the summer time and skate in the winter.

Are there a lot of good possibilities to the plan?

### A WIDER NORTHVILLE MAIN STREET

The other evening as Main street was packed with automobiles (and did you ever notice that Northville has plenty of autos on its streets almost any hour of the day and part of the night?) and we tried to wig-wag our way through without having a fender taken off we said to ourselves: "Some day Northville is going to have a 'Wider Woodward'."

### WANDERING THOUGHTS

Ever tell the telephone girls you appreciate their fine service?

Calendars are scarce. Reason: Everyone has been cutting the corners.

"I couldn't run a newspaper—it is too nerve racking," says one of the town's most influential men to us. Yet we couldn't take his place—it would be too hard on the nerves. So it is nice we each have our nice.

Here's a good resolution for us all: "Buy everything possible in the home town during 1934." And here's one for the merchant: "I will carry better stocks in 1934 than I did in 1933 and help more people who really want to trade in Northville, to do so."

Here is something we had never thought about before. How would it be to erect an observation tower somewhere on the outskirts of Northville, from whence we could get a panoramic view of this picturesque country? Is there any sense to this idea, mates?

Some very flattering compliments have been paid to The Record the past few weeks. They are pleasing, of course, and help to keep up the inspiration to do the best we possibly can to give Northville a creditable home newspaper. We thank you all.

An editor in a small town in Indiana had a serious operation and the merchants got together and put out a big Christmas number for him. We told you the world is getting better. The next time we get sick (we have carried a health policy for 15 years and have never been able to draw a nickel on it) we are going to let Main and Center streets' businessmen get out the editorial end of the Record. We believe those boys could do it.

### GIVE IT A YEAR'S TRIAL

M. H. DeFoe in The Charlotte Republican-Tribune  
The New Year's finds thousands of persons not as well off in the material things of life as they were the day they were born. The depression has demonstrated how quickly money values can fade out. Many of these commercial items will never have any value again. In the final analysis life is measured by the unseen; the attributes that have no connection with the currency of the country.

It is a good time—this New Year—to make a fresh start and dedicate our respective talents to thoughtful, friendly service for others. There is no personal satisfaction comparable to the joy that comes from this type of personal friendliness. This program, makes for character development and spiritual understanding. Let's give it a year's trial.

### LIFE BEGINS EACH MORNING

(Leigh Mitchell Hodges in the Philadelphia Evening Bulletin)  
Someone has written a book on "Life Begins at Forty." I rise to object, a Substitute title, Mr. Author, "Life Begins Each Morning."  
Whether one is twenty, forty or sixty; whether one has succeeded or failed or just muddled along; whether yesterday was full of sun or storm, or one of those dull days with no weather at all, Life Begins Each Morning!  
Life is a day—this day. All past days are gone beyond reviving. All days that still may come for you or are veiled in the great mystery, and for all we know, there may not be another for either of us. Therefore, this day is life, and life begins every with it.

There is no stated age or period for which it can be said, "Here is the dawn of life's day." Today is the dawn of that day. Take and use it as best you can, or as you choose. It is your life, and if you prefer to let it pass or waste it, that is your privilege, though it be unwise and unprofitable.  
However you have used gone days, you can start afresh each morning if you so desire. You can wash out for congratulating past gains of pride, brain and hand, or you can use it for tearing down the old structure of self and laying the foundation for a new building. Each night of life is a well-lit day, and the past each morning is the open door to a new world, new vista, new aims, new plans.

The greatest fact in life is this, that it never is too late to start again. History overflows with "another example of this truth. And if we need needs to the vast number of unrecorded lives, we would find an overwhelming mass of supporting testimony.  
No ever discouraging your days may have been thus far, keep this thought burning brightly in your mind—Life Begins Each Morning.

### THIS WEEK

By H. H. WHITE

Not so long ago while in conversation with a mining engineer, a highly educated man who is a community leader, and a doctor of medicine, the subject of religion and what it was broached during the discussion. The conclusions were very interesting and I thought quite conclusive due to the fact that neither of these gentlemen professed to be Christians.  
"They agreed that religion is about life, how to live it, and how to take it and give it the beauty so necessary in living from day to day in our modern world."  
They all agreed that most people pretended to live it, but that few really did.  
They further argued that many people made it an intellectual thing.

that others' lives as forms such as we find in church rites and offices. Still others contend to live in the terms of emotion, in affections and yet others occasionally did a "handy gesture by giving to the poor and unfortunate.

In thinking over afterwards what had been said it occurred to this writer that religion seemed to be fulfilling the law of Life in so far as we are consistently able. For religion is not so much a thing that is apart from life—it is in fact life itself in its highest, and best thus acquiring all the forms that love, and hope and duty can take.

The foremost of all teachers of religion so aptly said that, "He had come that men might have life, and have it more abundantly."

When they stop us on the street at some title in the future and say, "I told you so" do something that happened, we shall act as though they knew it all the time. We will not tell anyone that we know that they have just finished reading about it.

If this bile is not "working freely," your food doesn't digest. It just dumps in the bowels. Gas comes up your stomach. You have a "grumpy" face and your breath is foul. You feel heavy and you feel down and out. Your work again is postponed.

It takes the "LITTLE LIVER PILLS" to get the bowels of bile "working freely" and make you feel "up" again. They contain a "natural" laxative which is "gentle" and "effective" and "works" smoothly when it comes to making the bowels "move" again.

**DO YOU REMEMBER WHEN?**

Where all the old wooden store buildings were moved—think of that line on the old Hirsch property and the Church street?

The first brick buildings in town—A. D. Lapham & Co., Jones Wilcox store, the Old Opera House, the public school and the Presbyterian church?

You did supply the most of your needs at Northville stores and only occasionally traded in Detroit?

Your ice came from local ponds and was cut and stored in those large ice houses and delivered to customers in the summer?

You could go to the mill and watch the flour pour into your sack while you waited?

You could go into a local store and toast your shins before a crackling wood fire and discuss issues, great and small, or your favorite hobby?

The Circle N ball team was the peer of all the clubs of this vicinity and how another set, Brown's Colts, made base ball history?

The first fair was held and big and little tents were used for the various departments?

Racing was the big field day event at the Starkweather farm?

**This TRIAL PLAN**

enables you to try an electric range in your own kitchen— WITHOUT ANY OBLIGATION!

**WE WANT** to give you an opportunity to TRY electric cooking in your own home before making an investment. We want you to learn for yourself just what electric cooking will do! To this end and for a limited period, we will install an electric range without initial charge, and let you use it for six months, removing it without charge if you do not like it.

During the trial period, you pay for the service as registered by your meter, plus a monthly charge of \$1 for the range. If you decide to keep the range, your monthly payments will be applied toward the purchase price. If you decide that you do not want it, the range will be removed at our expense.

We want you to discover that electric cooking is not expensive and that it gives you better cooking, with more certainty, and less effort. Once you have enjoyed the delicious flavor electric cooking imparts to foods, its cleanliness, its coolness and its convenience, we believe that you will never again go back to any other method of cooking.

Applications for ranges on trial installations will be taken care of in the order they are received. Call any Detroit Edison office.

**Enjoy These Advantages of Electric Cooking!**

- **CLEAN.** Electric heat is as good as fireless. There is no smoke or soot to get on kitchen walls and furniture. Cooking smells are kept away and they stay away.
- **HEALTHFUL.** Electric cooking results in healthier food and a more varied diet in meats and vegetables. Important food values are retained.
- **WATERLESS COOKING.** With water in the range you use as much water as you use in boiling.
- **MODERN.** In attractive and sensible design, these electric ranges do much to brighten and add a feeling of newness to your entire kitchen.
- **FULL FLAVORED.** Electric cooking has a distinctly different flavor—a natural flavor in soups, meats and vegetables, cooking in softening tenderness in their own juices.
- **INEXPENSIVE.** Electric cooking costs less than a cent a meal per person.
- **SAFE.** An electric range supports its own heat from a glowing wire—there is no flame, no matches, no fires.

## Obituary

### PERCY PELLEY

Percy Pelley, son of Mr. and Mrs. Clarence Pelley of Plymouth died suddenly at the University hospital at Ann Arbor. Death was caused by severe infections following an injury to his head caused by a blow from a piece of iron ground work he was digging in a drain project in Plymouth.

The accident occurred on Wednesday, Dec. 20, and for a week was not thought serious until suddenly in frequent delirium in the wound and he was hurried to the University hospital where no relief was found possible.

The death of this young man is especially sad in that he was only recently married to one of Northville's finest young women, formerly Miss Lela Roberts, daughter of Mr. and Mrs. Geo. Roberts, Rouge street. Their marriage occurred May 6, 1933, and since that time they had been happily located in a new little home near the greenhouse of Geo. Fisher, just west of town where Mr. Pelley had been employed for six years. He was an upright man of good character who had many friends in this vicinity.

The funeral service was held at the home on Tuesday afternoon with Rev. Bert Ede, of Saline, who had performed the marriage ceremony in May officiating. Rev. P. Ray Norton, pastor of the Methodist church in Plymouth assisted. Interment was made in the Plymouth cemetery.

Northville friends' sympathy goes out to this stricken young woman.
