SCHOOLS SET TO OPEN ON SEPTEMBER 17

Will Register Next Week;
Lee To Teach Music In Grades

The Northville schools are all set to open Sept. 17, it was assured at the meeting of the school board held at its offices here, Tuesday evening.

Finances for a nine month year are definitely in sight with the chance that school may possibly run for ten months.

Next week, Tuesday, Wednesday and Thursday have been set for registration for ninth, tenth, eleventh and twelfth grade students.

They will confer with Assistant Principal Paul B. Thompson in the

offices of the board of education between the hours of 9 and 11:30 a.m., and 1 and 3:30 p.m. Junior high school pupils, those in the seventh and eighth grade, will register in the Mrs. Ida B. Cooke room in the first floor of the high school building Wednesday and Thursday, conferring with Mrs. Cooke at the hours for senior high students.

All during the next week Leslie G. Lee, librarian, will be in the library on the second floor of the high school building, to buy, sell and trade used school books.

Students, of all grades, are especially urged to transact business concerning books during the registration days.

This year Leslie G. Lee will teach music in the grades, a practice which has not been followed for several years past. Mr. Lee is capable to do this by Miss Gladys Ludwig (taking an English class) that he taught last year. Miss Ludwig is not expected to be overburdened as the incoming seventh grade will be considerably smaller than last year.

Coach Ted Watts will also teach a class that has been discontinued for several years—boys' physical education. Gapt. Amerman himself will teach a geometry class this year, relieving Mr. Watts of one hour a day.

Gapt. Amerman calls' special attention to the class in Bible history and literature being offered this year. A strictly non-sectarian course, it will be taught the first semester by the Rev. Horace H. Mullison, Methodist minister here.

This course has been given the ap-

proval of the state board of edu-

cation, and is praised by educators everywhere.

While work on one or two parts of the school buildings is continuing, school property is nearly all reconditioned for the starting of school. The lawns are in fine condition, the tennis courts are expected to be ready for play by the seventeenth, and the steel fence along the top of the playground stone wall was to have been put up this week.

BOYS WHO DAMAGE FAIR PROPERTY ARE GIVEN A WARNING

Fair officials are disturbed at the manner in which many of the town's younger boys are damaging fair property.

An appeal has been made by President Nelson C. Schrader and Secretary Floyd Northrop, asking parents to caution their children against breaking into the fair buildings and clambering over the roofs. Severe disciplinary action will be taken against youths who are caught in this practice.

The boys are all entitled to free use of the athletic field, say the officials and they should appreciate this privilege enough to refrain from damaging fair property.

COCHRAN TAKES A DETROIT PARTNER

Fred J. Cochran, corporation counsel and long a Northville attorney, announced his partnership with John P. Langs of Detroit, Tuesday.

Mr. Langs, who has been with the firm of Bratton and Bratton, is a graduate of the Detroit College of Law. While he and Mr. Cochran will maintain their office at 107 East Main street, the present Cochran office, he will continue his Detroit office in the National Bank building until he can close his business there.

Mr. Langs will move here with his wife and children soon.

TWENTY-FIVE BOYS OUT FOR H.S. FOOTBALL

First Game Here October 5; Will Practice Twice Daily

Twenty-five Northville boys answered Coach Ted Watts' call to the football practice Tuesday, as the Northville high school grid season officially began.

The Orange and Black's eleven started the fair grounds here, Sept. 16.

The rest of the schedule follows:

Oct. 19—Trenton there; Oct. 26—Berkeley here; Nov. 2—Farmington here; Nov. 9—Plymouth here; Nov. 16—Clayton there; October 12—

at present an open date.

Coach Watts expects more candidates for the team out when school begins Sept. 11, but in the meantime is working his boys twice a day in an effort to have them in condition by that time. Eddie Sander, halfback, is captain of the squad.

If the boys work hard for their school, the coach states, "we should have a good team this year." Northville was runner-up in the Suburban League last year, giving its greatest exhibition of strength when the Kelvin downed Plymouth, 6-0.

These out for the team are: Ends

—Kenneth Porter, Essie Nierder, and

Carl Giles; tackle—Chas. Strautz,

David Hay, and Cleve Myers;

guards—Bill McGee, Adelina Boyd,

Fred Casterline, Stanley Taylor, and

Leonard Young; center—Donald

Bray, Robert Bray, and Tom Greg-

gy; quarterback—Irv Marburger

OAKLAND VOTERS ASK RE-ELECTION OF EARL PHILLIPS

Earl L. Phillips, Pontiac attorney, has filed nominating petitions as candidate for the office of Circuit Court Commissioner on the Republican Ballot at the September Primary Election.

Mr. Phillips was born and raised on a farm near Marlboro, in Sanilac county, Michigan and received his early education in that community. He taught in the public schools of Lapeer county for two years, and then entered the University of Michigan, where he took literary work, and afterwards the law course, graduating from the University of Michigan Law School in 1916.

Mr. Phillips served in the United

States army during the World War and in 1919 established a law office in Pontiac where he has practiced his profession ever since. He is married and lives in the City of Pontiac.

There are two Circuit Court Commissioners in the county, one in Pontiac, and the other in Royal Oak, and Mr. Phillips is the present incumbent of the Pontiac office.

Supporters of Mr. Phillips in and around Novi, Walled Lake, Farmington, and that section of Oakland county have enthusiastically supported his campaign and believe that he should be re-elected by an overwhelming majority following his nomination.

They urge every voter to get out and check Mr. Phillips' name on the republican ballot, because of the fine record of public service he has rendered.

A REBUKE FOR THE "NEW DEAL"

If you want to read a sizzling rebuke for the "New Deal" turn to another column of this paper and see what George R. Averill of the Birmingham Eccentric has to say of the present muddled situation at Washington. It should make you think.

THE COST OF STRIKES

We wish that some of the Washington NRA authorities would tell us frankly the cost of the strikes that have come (and are yet to come) as the result of the encouragement that the NRA authorities have given to labor. They don't dare do it, the cost has been too terrific, in our humble opinion. And will they also tell us what right our government has to hand out doles to strikers, many of whom never want to strike but are made to do so, under the coercion of agitators and radicals?

If the strike of 600,000 cotton workers is carried on for a period of weeks, will we have another government loan to help care for the workers? Will it not be so, as Geo. A. Sloan, chairman of the Cotton Textile Code Authority, says: "The bitterest injury will be inflicted on the public?"

NEW CAREERS FOR YOUTH

The high school boy graduate in our home has no chance for a job. Not the slightest. And he has no chance to go to college until his sister, older than he, gets her chance.

Our problem is yours. It is the problem of thousands upon thousands of parents from coast to coast. What shall our high school (not to mention, college) graduates do? The doors are closed against them as they see more experienced and perhaps better trained men and women than they, walking the streets without work.

No longer does a high school education increase our chance for a good job by 300%, and no longer does a college education give you 100 times the chance to be a success. These figures once worked out but no longer. The world has changed.

Education for cultural rabbit alone will be the aim of the future. Education for a money success is now a flop. If you want to learn more of the chance of your boy or girl to meet the changing world, read Walter Pitkin's "New Careers for Youth."

ROWE TAKES IT ON THE CHIN

When a Detroit businessman told us Wednesday Aug. 29, just before the Tigers-Athletics game, that "Rowe will be knocked out in the fifth inning," we thought he was just trying to be stubborn.

Yet that is precisely what happened—except that The Schoolboy went to the showers, humbled and downcast, in the seventh inning. And we'll say for Rowe that he took his defeat like a man.

The failure of the El Dorado boy to surpass the record for successive victories looked bad the afternoon of the game. Ever since then it has seemed as just the thing that should have occurred. Too much success is bad for the best of us. Rowe had to find out that, like all the rest of us, he is still human and will have to work, to plan, to co-operate and to keep the rules of health—one doesn't break records on two hours sleep a night.

Should we meet our Detroit ball prophet again we dare say he would predict: "Just watch the Schoolboy now. I'll bet he will win every game he pitches the rest of the season."

A CLEAN CAMPAIGN

The cleanliness of the republican campaign for the governorship is refreshing. Early in the campaign Frank Fitzgerald sent word to all his workers that not one word of unkind criticism was to be said of any of his rivals. As far as we have been able to hear, this admonition has been faithfully kept. And from the Greesbeck forces has come the same kind of kindly consideration. We have heard that many of their leaders praise the fine character and ability of Mr. Fitzgerald.

Whether Fitzgerald or Greesbeck is nominated and elected (as it looks very much as though the republican candidate would be) the republican party will be led by a man of outstanding ability, character and resourcefulness. The two men have different appeals and different men and women will have different reasons for backing one of the two candidates. That is fair enough. It is encouraging the way that some good men have been subjected to "mudslinging" campaigns in the past and so we say, that is very encouraging to find a campaign in which issues and not personalities can be discussed.

GOOD-BY TO SUMMER

Relentlessly the seasons move on. Northville pulls back over its collective figure and goes to sleep, with crickets singing a lullaby. Summer has slipped over

our hills and has headed westward to linger in the valleys of California until called back home next June. Autumn is here. "Welcome, young lady; we like your sparkling ways."

We say: "Good-bye to summer" as we find the days slipping into fall. Only the most lethargic can be immune to the call of these glorious days. True, it has been a hard and in some ways a cruel summer—a drought of far-reaching extent has turned our sunshine into a merciless master who has robbed us of our customary crops. Yet here in Michigan we still have much of plenty. Certain parts of the state have known little of crop shortage and if we should pool all of the resources of the state, we should still be rich and able to go into the winter with enough to spare for all.

Humbled, as we have been, by the crop failures of the summer, we can still welcome autumn for what it means to the soul of man, as well as his body. The touch of God is upon the fields and the woods. Such tapestries as never hung on the walls that man has made will soon be spread on the hillsides of Northville. The matchless colors of frost-touched leaves will speak from a thousand hills. A million stars look down upon us from a sparkling sky. The inspiration of invigorating, bracing air stirs anew our ambition to take a new grip on life and to go out to do, to build, to start something. All of the outdoors calls to come out and see nature close the books for the year. Shortening days remind us that we must fast prepare for winter. The school bell rings again—the vacation is gone, never to return. Life—full and rich—looks ahead. Glorious fall is here. It speaks to us; we answer. Life, activity, achievement, are ours in the invigorating days that are knocking now.

"Good-bye to summer." Enter, you, Michigan fall—coquette of the seasons.

WANDERING THOUGHTS

What do you think are the most famous words (outside the Bible)? Dr. Wm. Lyon Phelps, the noted Yale literary authority says they are: "To be or not to be."

The voters remain peacefully indifferent to the political candidates. The only thing that is stirring up any one's excitement is the grand battle that the Detroit Tigers are putting up for entrance to the World Series.

Finances are not available now, but we hope the time is not far distant when the fair association can plan for a new entrance, with proper landscaping, to the fair grounds. It could be made a thing of real beauty and a big asset to our civic attractions.

Think on this: The public debt of the United States was \$27,188,000,000 on August 1, the highest figure at which it has ever stood. And also consider this staggering fact: The deficit of the national government increases at the rate of eight million dollars a day. No wonder Senator Carter Glass (democrat) of Virginia says: "Pay day is coming."

One of our big objections to the great spending of public money on all these various projects is that a lot of folks are getting the foolish idea that the government owes them a living. That is the terrible harvest of the d-day idea. The man who has worked, saved and planned all his life should never be put on the same level with the man who will take everything you give him, with his hands always out for more.

Roosevelt democrats are greatly worried over the success of Upton Sinclair, the radical and socialist, in winning the democratic nomination for governor of California. The author won on the slogan: "End Poverty in California." He plans to establish farm colonies and to take over and run idle factories. Of course this is all theory and will work out as most of the dreamers' theories do. What worries the democrats is that conservatives of both the old parties are bitter against Sinclair and his defeat is freely predicted—which will mean a congressional loss for Mr. Roosevelt.

Should we meet our Detroit ball prophet again we dare say he would predict: "Just watch the Schoolboy now. I'll bet he will win every game he pitches the rest of the season."

TIGERS MAKE US GOOFY

Bill Canfield in The Howell Republican-Press

Are you nuts about the Tigers? Perfectly justifiable if you are, and this league-leading jungle tribe are directly responsible for many a happy heart and better disposition. The ball game this year has helped many to forget their troubles, and talk "Tigers" instead of too oft repeated lamentations. Score boards have replaced "wailing walls." And again it is commendable how that Schoolboy Rowe, and his team-mates have crowded crime, depression, kidnappings, divorces and suits from the front page of our metropolitan press. Wasn't it an agreeable change to see those fine athletes, with clean-cut features, the love story, the pending wedding, such human stable American stuff, andigan sport push aside the usual morning and evening blasts of rough stuff as Lindberg helped us out a while ago, so are the Tigers doing their bit to uplift the vision of we mortals.

INTERVIEW WITH A FARMER

(Industry and Labor)

1.—How's things on the farm, Cy?

"Pretty good, I guess; I won't know for certain until I hear from Washington."

"Hear from Washington?"

"Yep. They keep the books. I get a quarterly report on how I've been doing."

2.—How's crops, Cy?

"Everything looks pretty fair, although I wouldn't know very much about 'em."

"You wouldn't know much about 'em?"

"Nope. I don't bother with details no more. You see, the government's got a brigadier general, a retired naval officer and a couple of college professors. They've taken all the responsibility off my shoulders."

3.—Got the old farm paid for, Cy?

"Shucks! I don't worry about the mortgage no more. Uncle Sam looks after that. I don't even know what the mortgage is. Some day when the government men are around, I'll ask 'em just for fun."

TO UPTON SINCLAIR

(Malcolm Burley in "Good Morning" column of The Detroit Free Press)

Up, Sinclair, and at 'em.

You are the logical product of the vagaries of the Brain Bust.

It's not your fault you have no sense of humor and took the Tug-Wellian nonsense seriously.

You are merely a kindergarten pupil of their abecedarian aberration. (In other words, intellectual alphabetical soup.)

You are a prize exhibit in the you deal menagerie.

The difference between you and the rest of them is that you are a realist and not a romancer. You want to put into action what they just piddle with and dream about.

You are the best thing that has happened to America since the reign of the crop destroyers and the pig stabbers.

You are the Great Reductio Ad Absurdum.

You are but the instrument of the law of logic, which can never be repealed, and which is just beginning to assert itself in the United States today.

You make more readily obvious to the people the damned nonsense with which they have been afflicted.

By all means hasten to Washington and embrace your comrades among the brain busters. You are chemical affinities.

Don't let 'em high hat you. Born right in. Go play tag with Tugger.

The Good Listener

"I haven't a single special gift," bewailed a Northville woman one day. "But I can listen to folks," she added, brightening.

As if being a good listener was not itself a real gift. Before we knew it that morning we too were laying down the burden of the day before this woman who was a good listener because she showed such genuine interest. It was the most natural thing to pour out pent-up feelings to her.

And where was the burden gone? Just the mere "airing" of a long stored away problem helps one to see, values in their right relation. Just talking it over with someone who is unselfish enough to keep still and listen.

What was it about that girl that seemed to find a young man asks himself. "She wasn't especially good looking nor witty, but she did have current events, politics and athletics."

a flattery way of seeming interested in what I said about myself."

Most of us women can talk—no doubt about it—but rare indeed is the "good listener."

Popularity

A group of university co-eds adopted a formula for popularity which is worthy the study of the young miss and her fond mamma who wants her to get on well. It is this:

1. Always be a lady.

2. Use good taste in selecting your clothes and do not let your actions be like that taste.

3. Always be a good sport. Do what the majority wants but not to the detriment of your own convictions and ideals.

4. Play bridge, tennis, golf, swim and dance.

5. Read the papers. Know your

It is well to converse on serious topics as well as light ones.

6. "Harding a "line" is helpful. This "you-great-big-wonderful-boy" stuff does get over.

7. Do not neck, and do not try to be a good digger.

8. Do not kiss promiscuously.

9. Dress attractively, but not necessarily expensively. A boy notices the general effect you produce so be as pretty as you can.

10. First, last and always be feminine. Don't emulate men in dress, language or conduct.

PICKLED CRAB APPLES

Mrs. Dan Merritt makes these:

Cut off the blossom end and steam until tender. So soft. To one peck of apples take 2 pounds of brown sugar, 2 quarts vinegar, spices to taste, (using whole cloves and cinnamon sticks). Boil up till syrupy.

Put apples in can, pour over boiling syrup and seal.

Yip-si Not An Argument

John Steeneken, Robert Christensen, et al, who for some reason or other attend the Michigan State Normal College the girl teacher's school at Ypsilanti, have been working on several prospective Michigan freshmen.

We were given an opportunity to present our side of it too but didn't as there is no need for a rebuttal when no constructive argument is given in the first place.

Wife We Done It?

For us to talk about wives would be like the childless women to tell a mother how to bring up her children. But anyway, there must be some truth in the California college professors' statement, that "college women makes the world's worst wives. And the only woman who makes a worse wife than one who has attended college is one who has gone to girls' school."

Why Worry?

Jack Harper and other Socialists are happy over the nomination of Upton Sinclair for the governorship of California on the Democratic ticket. And why not? He's far enough away where he can't do us any harm, and he might do California some good.

Though the fire departments were called Monday afternoon to a fire at the residence of Mrs. Ardella Brock on West Main street, no damage was done. The slight blaze on the roof, caused by a spark, was promptly extinguished. A considerable crowd gathered to watch the local fire fighters scramble up to the top of the house.

Vip-si Not An Argument

John Steeneken, Robert Christensen, et al, who for some reason or other attend the Michigan State Normal College the girl teacher's school at Ypsilanti, have been working on several

prospective Michigan freshmen.

We were given an opportunity to

present our side of it too but didn't

as there is no need for a rebuttal

when no constructive argument is

given in the first place.

Wife We Done It?

For us to talk about wives would

be like the childless women to tell

a mother how to bring up her chil-

some truth in the California col-

wives. And the only woman who

makes a worse wife than one who

has attended college is one who has

gone to girls' school."

Albert M. Bacon is a candidate for sheriff on the republican ticket and on Sept. 11 the voters of Wayne county shall have the opportunity of voting a sheriff.

Mr. Bacon believes in rigid economy.

Thousands of people who have been in the county jail in the past years can readily testify to the example of public service upheld by Mr. Bacon, and to his fairness and humanitarianism.

His fairness and impartiality won for him admiration throughout the state.

His determination to apply sound and just principles to the administration of the sheriff's office attracted the attention of prominent men in the state and they urged him to seek the office for sheriff.

In the 18 years I have had the pleasure of knowing Mr. Bacon his home life has been ideal. He has been generous with his support of every worthy public benefit.

He is a fair-minded, just and honest man both in his private and civic life.

These things when are important to you as good citizens, Mr. Bacon like wise looks important.

I believe no candidate is better qualified for this important office.

Please join me in supporting him at the primaries on Sept. 11, for office of Sheriff of Wayne County.

L. A. McCLELLAN OF DETROIT CANDIDATE FOR TREASURERSHIP

Lawrence A. McClellan, of 1125 Charlemagne, a resident of Detroit for forty-three years, has been a lifelong Republican and is now a candidate for County Treasurer on the Republican ticket.

He is particularly well equipped for the executive and detail duties of that office, being a graduate from high school, business college and Detroit College of Law class of 1903.

Several specific parts of the platform fall under his general promise of a business administration with the state income made to cover expenses rather than stretched by a constant search for new sources of revenue. In this connection he has promised a further automobile weight tax reduction and complete elimination of the real estate tax for state purposes.

Elimination of the objectional features of the state tax, including the levy on food, clothing, drugs.

Mr. Fitzgerald places the school systems of the state first among the units of necessity. He promises that these units will not be forced to close during his administration for lack of funds.

The abandonment of useless bureaus and commissions with the elimination of overlapping services performed by the necessary ones is another move by which Mr. Fitzgerald proposes to cut expenditures.

A workable old age pension act with elimination of the impractical head tax and an assured widow's pension are also promised.

NORTHLAKE VISITORS WITNESS ROUND-UP

Returning from a visit to Chillicothe, Ohio, recently, Mr. and Mrs. Alec Lyke turned aside from the highway to join hundreds of other tourists who stopped at the federal farm to see the immense herds of cattle which had been brought from the west on account of the shortage of pasture by drought. These thousands of cattle were being taken up by the state, fattened and cared for to be slaughtered for the use of public welfare during the winter.

Large herds of elk also, say the Lykes, are placed all about for the cattle's feeding and the river running through the farm supplies their long-felt need of water.

While Mr. and Mrs. Lyke were still watching, a band of real western cowboys rounded up the fat cattle to be segregated from the very scrawny ones.

On the day of the Lyke's visit there were 23,000 head of cattle on the farm.

Mr. and Mrs. Lyke were accompanied by Mr. and Mrs. Brock and Orvil and Olin, of Novi.

NORTHLVILLE TEAM WINS POLO SERIES FROM DETROIT THREE

Though most people are not aware of the fact, Northville has a polo team—and a very good one at that. Of course, no one from Northville plays on it, but nevertheless it is called the Northville team, and its 17-3 victory Sunday night at the Detroit Riding and Hunt club won for it this five-game series with the Detroit team.

The final score of the series was 54 to 54. Detroit was ahead before the game started, but Northville got the lead in the fourth quarter after the second quarter, and held it through out.

Bobby Nichols, well known here and recognized as one of the foremost polo players in this section of the country, was high point man for Northville, scoring seven goals.

Tom Bayley, Detroit No. 1, was high goal man for the game, with eight.

Nichols escaped unscathed when, early in the game, his pony crashed into a fence at the end of the field.

In a preliminary game between the Rangers and Pioneers, Al Chick was thrown under his horse and trampled when the animal jumped over him. He sustained bruises.

In the final period of the Northville-Detroit game, Little Joe, favorite of Joe Droeger's string of ponies, was injured, fracturing his hind leg being feared.

Members of the teams in respective positions follow: Northville—Nichols, Droger, Schell, Dargatz, Buckley, Dobbs, Williams.

THE MEN WILL COOK

On Wednesday, Sept. 12, the men of the Methodist church will again don the aprons and cook another of their famous peanut suppers (with other wives helping them carry pies and cases). Following will be the menu carried at the usual low prices:

Escaloped oysters, pieced peas, mashed potato salad, pieced beet-squash pie and cakes.

McCLURE ASKS FOR STATE SENATE BIRTH

At noon today, a platform which is squarely and honestly like Frank Fitzgerald's, John E. McClure's, his campaign for the republican nomination for state senator from the eighteenth district.

His platform includes: Exemption of food, clothing, and fuel from the sales tax, reduction of small business interest rates; a more adequate old age pension program; a workable method of financing old age pensions; and the exemption of homesteads from taxation within reasonable limits.

Mr. McClure, who was graduated from the Reedsburg High School in 1920, frequently was in Northville as a member of the Redford basketball team. He served in the 128th Infantry of the National Guards and in 1932 was treasurer of the Greater Detroit Greenhouse Growers' association.

"Now, boys," said the teacher, "tell me the signs of zodiac. You first, Thomas."

"Taurus," he said. "Right." "Right. Now, say Harold, another one."

"Cancer, the Crab." "Right again. And now it's your turn, Albert."

The boy looked puzzled, hesitated a moment and then blurted out: "Milsey, the Mouse!"

PLYMOUTH NORTHVILLE WAYNE

FITZGERALD, SMITH SPEAK TO 200 HERE AT G. O.P. BANQUET

(Continued from Page One)

Following his speech he denied to a Record reporter that he was a "spite candidate," running to take votes away from somebody else.

Decrying a conservative opposition to progressive principles, Mr. Smith urged a return to the standards of Theodore Roosevelt. He criticized the Republican nomination of Harding over Hiram Johnson. The president of the Detroit council took a direct stand at "taxation by public utilities" when he referred to corruption and boss rule as a "state within a state" in Gertrude. He will return home soon with 30 additional pounds on his rugged body and nearly \$200 saved down from his earnings.

These are some of the questions that are puzzling the officials of the churches these days. To this end they are calling together a conference of the officials and members of the Presbyterian, Baptist and Methodist churches who are interested in the Kingdom of God and the work of His church, to be held at the Presbyterian church Sunday afternoon, Sept. 9, at 3:30.

DICK ENTHUSIASMS

Dick enlisted a year ago with the determination to "stick out" camp life no matter what the cost and his reward has come with his graduation promotion to a position of responsibility as manager of the camp canteen in which he does the buying and keeps the books. For this he receives the highest salary paid except to the government officials.

Both Fitzgerald and Smith left immediately after speaking to attend other meetings. Recognized by the chair at the end of the program, Mr. Routier, representing Alex Groesbeck, stressed the need of Groesbeck to the republican party.

He told how, when Mr. Groesbeck was in the executive office in 1924, it cost only \$2,717.98 to collect \$9,211.978.38, as against \$1,075,466.65 to collect \$89,060,475.66 in 1932.

He exhibited a photostatic copy of an official document to prove it.

Following Fitzgerald, who was succeeded by Speaker, Sam Gomez, Kristie, chief assistant prosecuting attorney, republican candidate for Wayne county prosecutor. He was followed by Congressman George A. Dondero, who told his audience "the American gave this country its greatness, and the American way is only the road to recovery."

The men's chorus, directed by Mrs. Wilber M. Brucker, wife of Leo G. Lee, had begun activities with a few additions.

It was brought out at the quarterly conference Wednesday evening that Chas. A. Dolph is completing his 30th year as a teacher in his Methodist Sunday school.

Thirty candidates were recognized from the floor. Mrs. Kitty Hartman, wife of an able toastmaster.

The banquet was sponsored by the women's division of the Northville republican club. Mrs. E. W. Lester, chairman, in forming the ballot, a success, thanked "all those who have cooperated with us in putting it on."

FULL HOUSE ASSURED

At the morning service of the First Presbyterian church Sunday the pastor, the Rev. James A. McCullough, will speak on "The Secret of Poker."

St. Peterburg, Ga., pastor.

There is a very definite movement

on foot in Wayne County to put a business man in the sheriff's office and give the people of that county an administration that will be for the good of the whole county. It is believed that the time has come when the office should be conducted with dignity and for the purpose of keeping law and order in the county.

With this in mind, the leading business men of the City of Detroit and business men of the county are combining their efforts to place Glenn Staines in the office of sheriff.

Glenn Staines is a druggist in Detroit, a business man and has never been in politics before. He is president of the Detroit Retail Druggists' Association and the Independent Merchants Association. His record is one of a careful, law-abiding business man who has lived quietly and consistently in Highland Park for a number of years.

Mr. Staines is backed by the business element of the county. Racketeers have been unable to give their support, as Mr. Staines has not in any way accepted any of their help in his campaign. Heads of the biggest business concerns in Detroit

are giving their support generously in an effort to bring to Wayne County a sheriff that will give his earnest and honest effort to law enforcement and making the county safe for its people.

It's a nuisance—a money waster—a fuel eater—gives unsatisfactory hot water—and hurts your furnace heating ability.

We will make an allowance for your old heater and furnace coil on this purchase. Save fuel. Tests prove you waste one shovelful of coal out of every five with a furnace coil. In many cases, fuel savings alone pay for the heater. Sell us your coil and heater—heat your home for less money—and enjoy low cost, ever-ready hot water.

RICHARD NASH IS THRIVING ON CAMP LIFE

"I have let my belt out to the limit," writes Richard Nash to his mother, Mrs. L. Hickok, South Wing street.

"Dick," a well-known Northville boy, is rounding out his year in G. C. C. camp life in Gertrude. He will return home soon with 30 additional pounds on his rugged body and nearly \$200 saved down from his earnings.
