## RITA SPRENGER WINS 17-DAY ALASKAN TRIP

Writes Prize-Winning Essay  
In Contest Sponsored by  
Art Institute

The dreams of Rita Spenger, 16-year-old daughter of Mr. and Mrs. Louis Spenger, 513 Rouge street, were realized this week, when she received word that she had won a free trip to Alaska. On her essay, submitted in a contest sponsored by the Detroit Institute of Arts.

Rita's essay, "Why I Wish to Join the Junior Adventurers," was judged the best out of more than 200 submitted. The contest was open to all students in the Detroit area of 12 to 19 years of age. Don McWilliam, 17 years old, of Van Dyke, won first place in the boys' division.

"There is no place I would rather go," said Rita, who will be a senior in the Northville high school in the fall. "I have dreamed about it and read oh so many books about it. She will spend 17 days in Alaska."

**Parents Didn't Know**

She took her parents completely by surprise. They did not even know about the essay, which she wrote, she said, during the eight-hour assembly period in school this spring. One of the teachers read the announcement to the school, she related, "but I didn't pay any attention. My sister Kathleen told me about it afterwards, but I never dreamed I had even a chance of winning."

Rita will leave Chicago July 12 with a chaperoned party, all expenses being paid by the Junior Adventurers and World Adventure lecture series. Her train will take her through the great American Northwest, which she has always wanted to visit, to Seattle. On the leg of the journey she will have a chance to see the American Rockies and Glacier National Park. From Seattle she will sail up past the San Juan Islands and Victoria to Vancouver.

The ship will dock at Prince Rupert, the last port of call in British Columbia, and then will proceed past the famous Taku glacier to Juneau, the capital of Alaska. At most every point of interest in the great American territory will be visited during the 17 days of the tour, those in charge declare.

**An Avid Reader**

Rita is an avid reader of books having conducted for the past two years a "Corner for Book Lovers" in the Orange and Black page of the Record. She is especially fond of travel and adventure books, she said.

**Mrs. Elizabeth Chapman**, high school English teacher, called her "an exceptional English student and writer." Her works show unusual imagination," she declared. Mrs. Chapman has taught Rita for three years in high school.

**Mrs. and Mrs. Spenger** and their other daughters, Grace and Kathleen, are almost as excited as their now-distinguished Rita. Mrs. Spenger, though, said she thought Rita deserved it because "she worked so hard." She told how her second daughter read every possible book in the school and local libraries and even has gone outside Northville for reading material. "Our children have been taught to read rather than go to the movies," she added with a smile.

**And Rita**, now busy planning and packing for her trip, has promised to work outside. She will write for the Record something about the trip before she goes as well as an account of it after she returns.

Rita's essay will be found on page 5 of this issue.

ELY RESPONSIBLE  
FOR REPAIRING OF  
BAD CURVE HERE

Builts His Part in It. But  
Road Officials Give  
Him the Credit

"Oh, I didn't do anything. Just made a few trips to Detroit and talked to the chief engineer." That was the modest way in which Supervisor W. A. Ely explained his success in getting the county to repair the dangerous curve at the corner of the lower "Base" Line and Novi roads, near Schouten's garage.

Those at the head of it declare that Mr. Ely was solely responsible for securing the widening of the curve, which has been responsible for so many deaths and serious accidents in the past few years.

"I always thought it was a bad situation down there," Mr. Ely said, "and I'm glad to see it cleared up. But don't give me any credit."

Work on the curve, except for the black-topping, is now complete. Those in charge said, the old road bed around the bend was but 16 feet wide, whereas the new oiled surface will be 27 feet in width.

## FURNITURE PLANT TO OPEN AUGUST

Many Alterations Have Been  
Found Necessary on  
Building

Because of the large amount of necessary alterations, the new plant of the Michigan Wood Products Co., which will be located in the Globe Furniture building, will not begin to operate until about August 1. It was decided recently by officials of the company.

"We want to be certain that at the reconditioning of the building is finished when we actually start work here," D. E. Merrifield, vice-president of the company, said Tuesday.

Mr. Merrifield is supervising the repair work on the building now and the installation of the machinery. About 20 men are employed there this week.

The replacing of the front wall of the building on the first floor was completed this week. It is now a 12-inch brick wall. The old wall, which was in a bad state of repair, was a brick veneer wall.

A low pressure boiler heating plant was installed Tuesday, as well as the tall smoke-stack for it.

Other improvements include a large section of new flooring on the first floor. The old windows are all being replaced, and the window sash painted.

Many of the machines there are already placed in their permanent positions and hooked up to electric motors, ready to be used.

Already shipments of stock are arriving at the plant, Mr. Merrifield said. They will be used in the manufacture of dinettes, informal dining suites, which the company specializes in making.

**EARN RAISING PHOTOS  
ARE AT RECORD OFFICE**

Some interesting snap shots of the L. C. Salow barn raising on the Newburg road last week were brought into The Record office by Mrs. Salow.

They are on display there where they will be welcome to come in and see them. More than 125 men worked on the job.

**"Good Old Days" Return at Farm  
of L. C. Salow Last Week as 125  
Go There to Hold Barn Raising**

Reminiscent of the "good old days" of long ago when such an occurrence was not only a custom, but also the only way to do it, a barn raising was held at the Louis C. Salow farm on the Newburg road just south of the Six Mile road Thursday afternoon, June 20, with more than 125 farmers of the district working there.

In two and one-half hours after operations were begun, the entire framework of the structure was erected, and the last rafter was in place. The work started at 1:30 p.m. and finished at almost exactly 5 o'clock.

Although the barn was raised in the year 1935 when many mechanical advancements are used in construction work, the job was carried out in the same way that barns were raised generations ago.

The seven sections which together were to form the framework in this part of the job were the two who "rode the rafters" sitting up on top of them, driving each succeeding rafter to a plank which they straddled, and in that way

they were all pushed up into their exact positions and fastened of the structure.

## HEAVY CROPS PREDICTED BY FARMERS HERE

Oats and Wheat in Excellent  
Condition; Apple, Peach  
Disease Prevalent

In striking contrast with the devastating drought condition last summer, crops here are good.

That is the practically unanimous opinion of farmers around Northville and of Ralph Carr, county agricultural agent of Dearborn interviewed during the week. They

declare that prospects for a bumper crop in grains as well as fruits are promising.

Forage crops especially look good.

Mr. Carr declared Tuesday, with hay and alfalfa crops being outstandingly heavy. Mr. Carr called attention to the spring drought, which "everybody has forgotten," pointing out that in general throughout Wayne county it slowed up oats and corn. The dampness and cool nights have also had their effect, he said.

In this immediate vicinity, however, farmers seemed pleased at the prospects of oats, and while admitting that corn was a little slow, appeared not to fear for its prospects, especially as hot weather is at hand.

The chances for the fruit crop are also greatly improved over those of last year, according to local growers. The season on the apples may cut down that crop some, Ralph Forment and John Cleaver explained, and the curl is affecting peach blossoms. In cases where the grower did not spray for the curl, the peach crop may be spoiled entirely.

"We want to be certain that at the reconditioning of the building is finished when we actually start work here," D. E. Merrifield, vice-president of the company, said Tuesday.

**SALEM LAYS PLANS FOR  
BIG "4TH" CELEBRATION**

Following their custom of years the folks in and around Salem will hold their annual Fourth of July celebration this year with a program of varied activities that is scheduled to last from 10 o'clock in the morning until almost that same hour in the evening.

Included in the events will be a parade, program of sports, and an amateur theatrical, which is scheduled for the evening. More complete information concerning the complete activities will be printed in next week's Record.

(Continued on page 7)

**SCHOOL OFFICES  
OPEN EACH DAY**

The offices of the board of education will be open every day until the annual school meeting July 8. Supt. of Schools R. H. Amerman announced this week. The offices

have been moved to the lower floor of the building for the summer.

Mr. Amerman, who with Leslie G. Lee is attending the University of Michigan summer session in Ann Arbor, will not be there mornings, but Mrs. Hazel Yerkes, secretary, will be there all day.

Very little supervising of this enthusiastic crew was necessary. The men all knew just how each operation should be done and swung into their various positions naturally. It was not the first barn raising for them.

Finally the lower framework was finished, and it was time to begin hoisting the rafters into place. Each rafter consisted of two sections of two planks each, fastened together at an angle. The pairs of sections were joined together on top of the framework, and then fastened together by "drift pins."

## RABIES "FALSE ALARM" BRINGS STATE VETERINARY HERE

Dogs Forbidden to Leave Wayne County  
Or Surrounding Area

All Northville doctors denied Wayne county or from a surrounding area without a permit. Dr. C. H. Clark, state veterinarian, announced from Lansing Monday.

Permits are issued in the out-county by deputy sheriffs and in Detroit by the department of health.

Dr. Clark declared he took this step to prevent the spread of rabies from Detroit and Wayne county and Detroit and Wayne county and Monroe counties to the rest of Michigan.

Dr. Clark is in charge of issuing permits here.

Northville residents were urged by authorities to take especial notice of this warning in view of the fact that Oakland county borders the village.

While playing with neighborhood children last Monday evening, Jerry Nelson was bitten on the leg by a local man's dog. The boy was taken at once to a doctor for treatment, and the police ordered the dog held for ten days.

President Crowe rushed here from the state capital because he said, "A Northville physician has requested my presence." Dr. H. L. Sparling and Dr. E. B. Cavell called all local medical men together and all declared that they had not called

for a "false alarm" here.

### MAKING LIFE EASIER

As we were writing this editorial column—at our home, to get a little chance to think and be alone—a Girl Scout came to the door and sold us, for 25 cents, a little device for taking the cream from a bottle of milk. Just drop the contraption into the milk and presto, out from another tube, hanging down the side, will trick the cream. Just another scheme for making life easier for us.

What an amazing number of devices we collect around ourselves in the endeavor to make life easier. Sometimes we think we have too many!

Last Thursday was the writer's birthday and after the Record was out and in the postoffice, the office gang and the family all united to get the editor to go out and play golf. They said we needed both the golf and the outdoor air. So we went and had the expected good time and the expected high score. "You should play more golf," said one of the party. "Maybe so, yet as we look back to our childhood, golf was unheard of in small communities. Now golf is everywhere and, whereas, once only the rich played, now the most humble person can find a course suited to his pocketbook. Golf is a new enterprise for a new day and does a world of good in getting people out of doors—especially in crowded metropolitan areas like Detroit."

So all around us are plans and systems for making life easier for us. We know little of the hardships of our fathers and grandfathers. Nearly every home in Northville has a radio—and they should have—and a vast majority of our citizens own their own cars. When it comes to material mercies, we all have far more than our grandparents ever dreamed of having. Are we any happier? Are we any better? Are we any more useful to the folks around us? Are we any kinder? We sometimes wonder.

### HOOVER'S PLACE IN 1936

There has been going on considerable debate as to whether Herbert Hoover will be a Republican candidate for the presidency in 1936. Certain groups seize on anything he says in public as an indication that he wishes to run again for the high office he once held.

The best students of the situation can see little reason why Hoover would even consider running again. Hoover may lack the dazzling personality to "sell himself" to the public, but no one who knows his background and his knowledge of national and world events will fail to respect his brilliant mind and his marvelous grasp of events and their significance. He is too "smart" to think that he has even a chance to be nominated, much less elected to the presidency next year. His rightful place in history will come but it will not be so soon as 1936 and no one knows this better than the former president now at ease in California.

Hoover is the titular head of his party and as such, he will naturally want to have a hand in picking the Republican candidate next year. And right now, he has more of a personal following than any other man in his party. His influence on the 1936 choice will be large.

### THE SUNDAY COMICS

Writing to his home paper, a citizen of an Indiana city says that since the comics in the Sunday paper have increased so much in quantity and decreased so much in quality, "I have almost decided to spend Sunday mornings in church for a while; where the sermons and the singing never change for better or for worse, but where the very sameness is restful." If I can find where the collection is taken up early so that by coming in a little late, I can avoid the embarrassment, I think I will try an occasional visit there again."

"The very sameness is restful." Isn't that what this present dizzy, rushing, nervous age needs? And the fact that the churches provide a change of atmosphere and give a new spiritual insight into life is among the reasons that the churches, with all their struggles, keep on ministering to the deeper needs of men. "Man does not live by bread alone."

### "WE THANK YOU"

Along with all lovers of a more beautiful Northville, we thank all those good citizens who needed only a suggestion to cut their lawns and otherwise make more neat and attractive their homes and grounds. It is pretty hard right now to find many places that are "run down" and unkempt.

There is a big glow of satisfaction that comes to everyone who does his part in making a finer community. As stockholders in Northville, we rejoice when our town looks better. And Northville does look better—finer appearing every year. No wonder that Detroit people, who come out here by the hundred, say unanimously and often,

"What a beautiful town you have in Northville!"

### A PRETTY GOOD PLAN

We know of a man in another city who has a good scheme for meeting the little jealousies, meannesses and criticisms that come his way. Whenever a "brickbat" is thrown at him, he goes out and does a kind deed. Although some one may have unkindly stung him in a mean way, you would never know it. He brushes it to one side and goes out and "kills someone" with kindness. "Get even" with someone? He is too big, too fine, to think of such a futile thing—for in "getting even" with the one who did you wrong, you mar your own soul and spoil your own happiness.

We submit that here is a plan that would make a better world.

### WANDERING THOUGHTS

What's your hurry?

Times are better. The Novi road is going to be resurfaced.

"Neither do I condemn thee; go and sin no more." Words of Christ to the sinner.

Now if the Northville city dads will bring on those new street signs, it will match up with the summer glory that is all around us.

"A lot of trees on Northville's streets are going to be dying in the next ten years—just notice some of the dead spots in the old maples as you walk around them. We should be planting more trees to replace these that will go sooner or later," says a Northville tree lover to us.

Nothing beats life in Michigan when strawberry season is on! And what a luscious crop we have been having! "Doubtless God could have made a better berry. But doubtless God never did." We have often wondered why more folks do not raise strawberries. There seems always to be a market for them.

A friend whom we saw the other day for the first time in nearly 20 years writes afterward to tell us that: "You and Mrs. Baldwin bear your years well." Soft words like those make you a little less resentful of the passing of time. Certainly both of us have the recollection of many good deeds done to us by many good friends to help us fill the halls of memory with pleasant pictures.

### The Last Round-up

And now we know how that old ranger feels as he sits, stiff-kneed upon his pony "ready for the last round-up."

And we can guess how the venerable, white-haired preacher's hands tremble when he raises them for the last benediction upon the "flock" he loves or how that worn-out teacher, who must make way for more modern methods, turns reluctantly from her desk, glances back at the chalk-dusty school room with its seals carved with the initials of the two generations she has taught, goes out the door—and closes it.

Those who love their work do not lightly lay it aside. For us, the few weeks of just helping out a bit have lengthened out month by month into five years. Five years of listening to the heart-throbs of humanity and recording small events which go to make up the history of a community.

And a great experience it has been! We have "thrilled" to the gaiety of weddings (while we correctly noted the down of the "lovely bride"); we have haltingly entered many homes where the greeting was marked by a spray of flowers swaying from the door. We have listened to the adventures of the daring to the dimmed tales of the aged—who founded the village; we have been called to see curios, cherished hand work, rare flowers.

We have sat through lengthy speeches and have tried to sift out a meaty thought to hand on to our readers; we have worn adjectives threadbare trying to describe the "color scheme" and "motif" of some one's party.

We have sat at our desk during the grim days of financial doubt when men eyed their fellows with dark suspicion and we wondered who our friends were; we have felt our pulse beat quicker when unex-

pectedly someone laid a bouquet of the first flowers on our desk, fresh berries, or an especially fine cabbage.

We have writhed with the sting of criticism, we have glowed with the joy of unsought praise.

We have met old and young, farmers and city-bred, gay young folks busily asking for a house to rent; and the bereaved with a card of thanks. Through it all we have read the story of life, which sheltered home life would never have taught us; and our hearts have been studded with sympathy and love.

We have left home some mornings thinking our lot was hard and after touching other lives have come back with a song of gratitude for the comforts of home, a true family and work to do.

In his "valedictory" Mr. Editor says (among other things) "Well, you have learned a lot and it has been good for you."

Perhaps it is so. At any rate, it is a chapter in life we would not have missed and we commend to all women a period of being in the background of their husband's business (with strong emphasis on the word "background") if they would know what these men mean when they come weary home at evening time and say:

"I need so much the quiet of your love."

After the day's loud strife.

There would be more understanding and less recoupling of petty troubles that came during the day.

There were friends who frowned upon our going into the office predicting that the domestic "boat" might capsize; but, on the contrary, there's nothing like a long pull, a strong pull together to keep married life alert and united in interest.

And now we lay down our pencil gladly (and the children grin at the promise of a cookie jar always Drop by spoonful on floured tin

**WHAT OTHER EDITORS  
ARE THINKING ABOUT**

**WHO SIGNED, GOV. FITZGERALD OR HIS CRITICS?**

(J. E. McMillen in Linden Leader)

Several of my editorial brethren, as well as a few other good people, are bemoaning the fact that Gov. Fitzgerald granted a pardon to Irving Latimer, who they allege killed his mother in order to get his money, and on circumstantial evidence he was arrested, tried, convicted and sentenced to Jackson for life, and served 46 years.

Now because, in spite of his imprisonment, he failed to die, they are after the Governor's scalp for granting the pardon, as if 100 years instead of 46 would have given the State of Michigan any greater satisfaction.

Gentlemen, don't you realize that the eternal law of compensation for acts good or evil, follows the individual and if Latimer is guilty of the crime charged, think you because his body has been liberated from prison that he is not tortured by day and night? I say, if he is guilty as charged, neither Fitzgerald's pardon nor the forgiveness of God can blot the awful scar from the man's soul—or memory, it is the worm that dieth not—here or hereafter.

Who is the man or woman who has committed a crime, regardless how old they are who have forgotten the foul deed, and because they cannot forget, that's what makes hell for them, and poor wretches, they try in vain to drown the dead in other crimes, in drink? Yes, and in suicide, wherein they fool themselves because they cannot get away from themselves, and the greater their intelligence the greater their torture.

**'COMES THE REVOLUTION'**

(Menominee Herald-Leader)

If you buy a meal in Wisconsin nowadays, and pay more than 25 cents for it, you have to eat some

cheese with it. Or, to be exact, you never to buy it. And then he followed that up by failing to have the nerve to sign his name to the letter. That's usually the way. The boys who want something or someone condemned would like to have the paper do it for them and let it take the responsibility for THEIR statements. The letter is interesting and if he will furnish us with his name we'll print the letter, even though his name is withheld, we must know the name of the author.

One brave soul objected, saying that he didn't like strawberries and cream. The orator wagged his finger sternly and shouted: "Come the revolution and you'll eat strawberries and cream—just like it."

And in Wisconsin, you'll eat cheese, tomorrow—and like it.

**THE LURE OF INDIA**

(Mrs. Ethel Olmsted home from a world tour, in the Midland Republican)

To me India is the most fascinating country in the world. It's filthy, horribly so, yet there's something about it that gets you.

China is dirty, but not filthy, like India," she explains, "and it has the exotic mystery of an old country. When you go into Peking, you feel the pages have been turned back many years, and that you've gone back with them. One who lives in Peking always wishes to go back. You feel you never could exhaust the interest it holds for you."

Hongkong is a colorful seaport, its streets series of steps up hillsides; its shoppe on different level. Its waterfront is most interesting, with ships from all over the world. Sampan boats fill the rivers, occupied by families, many members of which never leave their boats throughout their lifetime.

Men of Principle are the Principal men . . . Work is Life, and Good Work is Good Life . . . It isn't what you know, but how well you know how to use what you know that really counts . . . For, Good Friend, the trouble in business is not the lack of men with ability—but the terrible lack of ability of men to USE their ability.

**MAYBE WE'RE CRAZY**

They told us last week that our column wasn't any good; that it was meaningless. Well, it must be remembered that we're only a hobby to be journalists.

But here's somebody that is recognized (by some) as a great author. They paid 75 cents per seat to hear her lecture in Ann Arbor last year. Her books sell for more than \$5 apiece.

Gertrude Stein.

This Gertrude, who does not ride horseback (we asked her—really) says such things as "A rose is a rose & a rose is a rose." And here's what she writes for the St. Louis Post Dispatch about newspapers (hang on tight):

"What do they want to know in the newspapers that is what does anybody want to know just anybody and do they want to know what they do want to know or do they only think so only think they want to know what they want to know from the newspapers because if they do if they only think so then they do get what they want. What they want or think they want to know what they want in the newspaper is to know every day what happened the day before and so get the feeling that it has not happened on that day the same day and not the day before. That is what the American newspaper is supposed to do to make it be as if they the newspapers had it to do that is to make the things that happened yesterday happen today."

race in that two drivers alternated on the motorcycle every five laps around the mile track. Changing drivers while the "bike" is in motion is no small feat, according to Jack Watson, of Northville, who was one of those who contributed to Salie, who anxiously watched the race until one of the participants was run down on the track in the act of getting off his motorcycle, not more than 20 feet from where she was sitting. The race was called then, only about four minutes lacking before the hour would have been finished.

Jack also entered the ten-mile race and the six-mile novelty race in which the entrants were obliged to carry a Popsicle around with them while they averaged a good rate of speed, the object being to keep it from melting or breaking as long as possible. He did not place in either of these events.

Jack went there early on Saturday, taking with him Sellee Richardson graduate this month of Northville high school, who is also an ardent follower of this unusual sport.

He entered three races Sunday, which included the hour endurance run, in which he finished fourth.

"Blooming" Bridges of Battle Creek was his partner in this event, which was in the form of a relay

one. That was but the first installment. There are three more coming. (Can ya take it?)

**THE YOUNGER GENERATION**

Us (to the seniors): So you went to Washington? Did you see the capitol?

A senior: Yes, and while at Annapolis we saw them making a moving picture.

Us: But did you see congress?

The senior: Yes, and the picture they were filming was "Anchors Aweigh."

Us: Was the senate in session? Did you see any of the senators?

Another senior: Yes, we saw some of 'em. Dick Powell and Ruby Keeler were starring in the picture and we saw them right up close.

Us: Did you go to the mint and see them make money?

The other senior: Yes, we saw that. Boy, I sure am going to see that picture as soon as it's out.

Us: (slightly exasperated): But didn't you see anything in your nation's capital that interested you at all?

Silence for a minute, and then finally, still another senior: Oh, the Smithsonian Institute was pretty good.

## NATURE BUILDS BRIDGE

THIS fine natural example of cantilever bridge construction is to be found a few miles from Tobermory, a picturesque fishing village at the northern tip of the Bruce Peninsula in the Georgian Bay district of Ontario. The village and contiguous area are popular as a vacation spot and as fishing grounds for lake trout, black bass, pickerel and speckled trout.

**(Editor's Note:** The following essay, which won Rita Sprenger the Detroit Art Institute's free 17-day trip to Alaska, is submitted to our readers because it is believed to be of outstanding merit.)

**Adventures.** Doesn't the word "adventure" sound like a fairy sparkle? Is there another word in the English language that can compare before the mental eye such alluring pictures? Is there another source to happiness than that many of us want and as few of us get?

Of course, it is a lot in the way we look at life that determines the amount of adventure we get out of it. Some people call it in anything and some in nothing.

However, we can't all get our share of it first hand. How many of us there are who have never been beyond the bounds of our everyday world! There are many reasons. Some of us are physical or

financial cripples; others have relatives or friends dependent on them for their very livelihood. And they are among the many reasons why the lucky ones who have seen the glorious places of the world write books about their travels and lecture on them.

### Dr. Schuyler Remembers All About the University in Days Long Past

Dr. Randall Schuyler, a former Northville physician who was here this week from his home in Long Beach, Miss., told some interesting stories about the University of Michigan at Ann Arbor, from which he was graduated back in 1877.

Dr. Schuyler was an Ann Arbor resident before he attended the University medical school. He told vividly how the giant boulder was erected on the northwest corner of the campus by the class of 1864. The seniors got it from a baker named Albright, he said, and hired Jay Taylor, a man who moved buildings to transport it during a hard snow storm.

Dr. Schuyler got the pictures from "I'll bet I'm the only man alive

who remembers where that rock came from," chuckled the 81-year-old former village health officer.

Dr. Schuyler also exhibited some photographs of the campus, taken in all probability around 1840. The pictures show, but pocket fences where there now book stores, restaurants, and drug stores. Trees that now tower more than 60 feet above the rolling campus are but 10 feet high in the picture. The massive buildings in which classes are held today are not there, but in their stead the pictures show, three or four "gormitories" and a little laboratory.

Dr. Schuyler got the pictures from an old Ann Arbor lady he said.

American Legion Auxiliary  
Enjoys Family Picnic

East Matrons Club Meets  
For Dinner at Mrs. Babbitt's

Approximately one hundred per-  
sons enjoyed the American Legion  
Auxiliary picnic held Tuesday at  
Gas Bento Park.

Members of the Northville unit  
combined with the Plymouth group  
and the Legion Post to make it a  
festive occasion. The children added  
their voices in favor of the family  
picnic idea.

Mr. and Mrs. Elmer Smith Pets  
Guests at Home Dinner

Mrs. Elmer Smith was hostess at  
a dinner for nineteen guests at her

Eaton of Plymouth.

Dr. and Mrs. E. B. Carroll Give  
Picnic Party for Detroiters

A picnic-lawn party was the order  
of the day when Dr. and Mrs. E. B.  
Carroll entertained Detroit guests  
Tuesday. Mr. and Mrs. P. J. Broad,  
and daughter Ruth, and Mr. and  
Mrs. W. Z. Boley were the visitors  
from Detroit.

Mrs. H. G. Marburger Entertains  
Her Monthly Bridge Club

Mrs. H. G. Marburger entertained  
her bridge club Tuesday afternoon.  
There were twelve in all, friends  
from several of the surrounding  
towns, including Redford, Walled  
Lake, and Detroit. The club meets  
regularly once a month.

Novi Doctor to Celebrate  
Seventy-third Birthday

Honoring Dr. A. T. Holcomb on  
his seventy-third birthday, a dinner  
will be held at his home in Novi  
Sunday. Dr. and Mrs. A. T. Hol-  
comb and their son, Jack; and Mr.  
and Mrs. K. H. Babbitt and their  
son and daughter, Louis and Mary  
Ellen, will be guests.

Merry Go-Round Members  
Meet at Plymouth Home

Mrs. Lea Babbitt, former North-  
ville resident now of Detroit, has  
been spending the last two weeks  
with the family of her son, K. H.  
Babbitt. She and Mrs. H. D. Dean,  
together entertained the Merry-Go-  
Round club at the home of Mrs.  
Babbitt's daughter, Mrs. John Mc-  
Laren, in Plymouth.

Three-Year-Old John Tsitas  
Celebrates With a Barbecue

No very little three-year-old can  
celebrate his birthday with a whole  
family barbecue and a host of rela-  
tives and friends to help make  
memories of young John Tsitas.  
At the home of Mr. and Mrs. Joe Tsitas,  
impresarios of the Northville lunch  
room.

On Tuesday evening a company  
of these relatives and a number of  
friends from Detroit gathered in a  
neighboring park where a typical  
Grecian feast was enjoyed. The  
host of the feast overrunning  
the family to a number of guests.  
Little John was the hero of the  
occasion and was remembered with  
many gifts.

bany having completed their busi-  
ness trip to Toronto, Ont.

Mrs. H. S. Willis Gives  
Luncheon for Eleven

Mrs. H. S. Willis gave a lun-  
cheon Thursday at which she en-  
tertained eleven friends. They were  
Mrs. E. G. Woodruff, Mrs. Carl Baldwin,  
Mrs. M. George Harper, Mrs. Elizabeth Han-  
cock, Mrs. J. N. McLoughlin, Mrs.  
A. Shafer, Mrs. Thad Knapp,  
Mrs. Georgia Lovell, Mrs. May Filkins,  
Mrs. W. H. Yerkes, and Mrs. T.  
Glen Phillips. The club mem-  
bers meet semi-monthly.

Mrs. H. S. Willis was also hostess to  
Texas visitors Sunday. Mr. and  
Mrs. W. J. Williams and family from  
Hartington, Texas, spent the day visiting Mrs. Williams' mother,  
Mrs. Margaret Curtsiss, and Mrs.  
Hinkley. The Williams family is  
spending the summer on Lake Erie.

Rotary Club and Wives Enjoy  
Picnic at Northrop Home

With perfect weather and the  
beautiful yard of Mr. and Mrs.  
Ford A. Northrop on West Main  
street, as the setting, the Rotary  
club entertained their ladies at a  
steak roast on Tuesday evening.

Over the out-of-door camp stove  
the men gallantly broiled the juicy  
steaks to a turn and served them  
piping hot, together with an abun-  
dance of other good things, along  
tables spread under the trees. Mrs.  
Leila G. Lee, Mrs. Chas. T. Thornton  
and Mrs. M. C. Gunzel assisted  
the hostess in her duties.

While the men aped quoits and  
played croquet the women and  
children, directed by Mrs. B. L.  
Miller and Mrs. H. Mandorf, en-  
joyed in active games on the lawn.

Guests present were Mrs. Eliza-  
beth Hauford of Germany, Miss  
Charlotte Cooper of Saginaw and  
Mr. and Mrs. R. W. Latourette  
of Northville.

St. Paul Lutheran Picnickers  
Are Almost Rained Out

Approximately forty members of  
the St. Paul Lutheran church  
turned out for the church picnic  
in spite of the inclement  
weather Wednesday night. The  
picnic was held at Cass Bento Park.

The entire congregation was in-  
vited to the affair and a ball game  
had been planned. According to  
Mrs. Arthur Schmitz, the crowd ate  
until the rain started to soak the  
beach, and then, abandoning the  
ball-game idea, most of the pic-  
nickers spent the rest of the time  
quieting.

200 Attend Dinner Dance  
At Meadowbrook

Another of the popular dinner  
dances was held at the Meadowbrook  
country club Saturday evening with  
every table in the dining room re-  
served and several extra tables  
available for the occasion.

The entire affair was graced with  
an air of informality. Spect-  
tacular, and there were many dif-  
ferent combinations, were popular  
with the men present, hardly one  
shirt-front being seen.

Dinner was served from 8 to 10  
p.m., with the orchestra getting  
under way at 9 o'clock, giving the  
crowd of 200 an opportunity to  
dance between courses.

Fred Zeller's orchestra, which was so  
well received at the formal opening  
dance at Meadowbrook, May 25,  
again provided the music.

The bride was charming in a beige  
lace dinner dress made on straight  
simple lines with long tight sleeves.

Her white slippers were in structure  
contrary to the beige gown.

The costume was completed by a dainty  
cage.

The bride was dressed in a sport costume  
of yellow and orchid silk. Acting  
as an attendant to her sister, Miss  
Vera Lewis was also dressed in yellow.

John Holzman of Northville  
acted as best man.

Immediately after the ceremony,  
a wedding supper was served to the  
immediate family at the home of  
the groom's parents, Mr. and Mrs.  
Delbert Avery Sr.

The bride is the daughter of the  
late Charles Tiffin and Mrs. Tiffin  
now of California, and the groom is  
the youngest son of Mr. and Mrs.  
Louis Van Valkenburgh of 1501  
Beck Road.

The vows were spoken before a  
fire-place banked with cut flowers.

A pink and white color motif was  
carried out in the house decorations.

Dinner was served to the guests  
immediately after the ceremony.

Table decorations which carried out  
the pastel color scheme consisted of  
pink taper flanking a large wed-  
ding cake which occupied the center  
of the table.

Following dinner, the grill room  
which adjoins the men's locker  
room, and which ordinarily is for the  
exclusive use of men, was a popular  
place, being filled most of the time  
with gay little parties.

Both are life-long residents of  
Northville and are graduates of  
Northville high school. Mrs. Van  
Valkenburgh has been teaching in  
Plymouth school for the past year.

Mrs. A. F. Straten Invites  
Friends to Luncheon

Mrs. A. F. Straten entertained a  
few of her friends at luncheon  
Wednesday. They were Mrs. Allen  
Buckley, Mrs. M. C. Gunzel, and  
Mrs. Harry Waggoner.

Mrs. Straten was also hostess to  
friends from Detroit Saturday.

They returned to their home in Al-

bany having completed their busi-  
ness trip to Toronto, Ont.

Mr. and Mrs. Donald Stack, Mrs. P.  
Terrill also acted as hostess.

Bridge Club Meets At Home

Mrs. E. C. Hinckley

Mrs. E. C. Hinckley entertained  
the members of her contract bridge  
club Tuesday at her home.

The guests who were present  
were Mrs. S. G. Poole, Mrs. Sher-  
man Hill, Mrs. Pearl Miller, Mrs.  
Georgia Lovell, Mrs. May Filkins,  
Mrs. W. H. Yerkes, and Mrs. T.  
Glen Phillips. The club mem-  
bers meet semi-monthly.

Mrs. Hinckley was also hostess to  
Texas visitors Sunday. Mr. and  
Mrs. W. J. Williams and family from  
Hartington, Texas, spent the day visiting Mrs. Williams' mother,  
Mrs. Margaret Curtsiss, and Mrs.  
Hinkley. The Williams family is  
spending the summer on Lake Erie.

W. H. M. S. and Husband  
Guests of Mr. and Mrs. Rogers

The annual picnic of the Wor-  
shipful Home Missionary Society was  
enjoyed by a company of 40 mem-  
bers and their husbands at the hos-  
pitable home of Mr. and Mrs. Chas.  
E. Rogers on the Nine Mile road

Tuesday afternoon and evening.

No special entertainment was  
necessary as the party enjoyed  
thoroughly a stroll about the  
Rogers gardens which are espe-  
cially lovely at this season.

A brief business meeting with  
plans for the next year was con-  
ducted by the president, Mrs. E. J.  
Cobb.

Mrs. Chas. E. Filkins was wel-  
comed back after spending the  
winter in Detroit. Visitors present  
were Mrs. Chas. Holmes and Miss  
Maie Chamberlain of Novi, Mrs.  
C. A. Waterman of Waterford, and  
Mrs. Jerome and Mrs. R. W. Lub-  
dale of Northville.

A beautiful picnic supper in the  
recreation room concluded the pleasant  
occasion, a number of the members of the families joining in  
the festivities. Mrs. A. E. Fuller  
and Mrs. Otis Teeksbury assisted  
Mrs. Rogers.

Lewis-Avery Marriage  
Solemnized at South Lyon

The Baptist parsonage at South  
Lyon was the scene of the wedding  
of Marion Lewis to Delbert Avery  
Sr. Monday. The Rev. Hal B. Wim-  
berly performed the ceremony.

For the marriage, the bride was  
elegantly dressed in a sport costume  
of yellow and orchid silk. Acting  
as an attendant to her sister, Miss  
Vera Lewis was also dressed in yellow.

John Holzman of Northville  
acted as best man.

Immediately after the ceremony,

## RECREATION PROGRAM TO START SOON

### Approval of SERA Officials at Lansing is All That is Needed Now

In spite of the delay in getting started, Northville will have its recreation program this summer at the high school playground, as planned. Mrs. Ester Ward Lester, chairman of the P. T. A. committee, said this week that she had no metropolitans paper.

"We are waiting now only for the approval of the state office at Lansing of the State Emergency Relief administration," Mrs. Lester explained, "and when that is received the program of sports and constructive activities under skilled direction will begin."

The amount necessary to meet all expenses for the summer has been estimated at \$200. Mrs. Lester said.

"A little more than half of this money is already available, she said, and the remainder will be solicited here from various sources."

The others on the recreation committee are Mrs. Esteria Reng, Mrs. Philip Doton, Mrs. E. M. Bogart, R. H. Amerman and Paul Thompson.

Mrs. Lester has made several recent trips to the Detroit office of the SERA, where officials have assured her that there is no doubt

but what the Northville summer recreation program, as well as others throughout the state, will soon be approved.

The head office at Lansing, they told her, is in turn waiting for word from the federal government that they will receive a portion of the \$4,000,000,000 work relief fund.

Four directors will be in charge of the recreation program in Northville, according to Mrs. Lester. Two of these, she expects, will be local people, and the others will be selected by the Detroit office of the SERA.

All of them could have been chosen in Northville according to R. H. Amerman, superintendent of schools, who selected the two, but there were only two who applied.

Some others filed applications, he said, but they were not suitable for this type of a position.

Activities are being planned for people of all ages, as well as for children, Mrs. Lester said. For the younger there will be handicrafts, story telling and games. For older children there will be all kinds of sports both outdoor and indoor, possibly magic and dramatics. The sports will include baseball, handball, volleyball, basketball, and perhaps even tennis, she stated.

The ground west of the board of education building, which has been prepared for tennis courts, needs very little finishing to put it in excellent playing condition, Mrs. Lester has been advised by T. A. Bruton, Wayne county chairman of the SERA. Only a thin coat of additional clay is needed, he told her. Then all that would remain would be to make the fence higher and to purchase the nets, Mrs. Lester said.

Christian Science Churches

"Christian Science" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, June 30.

Among the Bible citations is this passage (Isa. 54:12): "The Lord God hath given me the wings of the dove, so that I can fly upon the wings of the wind; I will sing unto him that saveth me." I learned that I could know how to speak a word in season to him that is weary; he waketh in morning by morning; he waketh mine ear to hear as the learned."

Correlative passages to be read from the Christian Science text-book "Science and Health with Key to the Scriptures" by Mary Baker Eddy include the following (p. 109):

"The revelation of truth in the understanding came to me gradually and apparently through divine power. When a new spiritual idea

the lesson of today is a question whether any excuse whatever in re-

gards to our spiritual life is worth filling unto us a child is born, something. The excuses given then and his name shall be called woe were just about the same as those derful."

### Significant State, National and International Events and Their Explanations

Editor's note: At the request of some of the readers of The Record, we submit an occasional explanation of a few of the most significant state, national and international events that occurred during the past week. Many of the persons asking for this declare that they take no metropolitan paper.

FRIDAY, JUNE 28, 1935  
INTERNATIONAL

Both France and Italy were distinctly cool this week toward England and will not touch on communists the size of Northville.

Great Britain allowed Germany to build up to two-thirds of British naval strength. Capt. Anthony Eden, traveling English diplomat and liaison keeper of the privy seal, received a rather uncordial welcome in Rome where he failed to get Mussolini's approval of the treaty.

Only a few finishing touches remain to be completed now, he said, and then the piping for all the machinery will be installed so that when the machines are moved from the old plant on East Cadby street that as little time as possible will be lost.

Rumblings of trouble in Mexico were heard by the American embassy in Mexico city was bombed.

A decided increase in Michigan farms was reported last week by census takers with cities correspondingly decreasing in population.

This was explained by Ralph Carr, Wayne county agricultural agent.

Foreign trade is on the increase, reports from the foreign offices of three European nations and the American state department declared.

Changes in Washington appeared good for passage of President Roosevelt's share the wealth program. This would place a graduated tax on all incomes with large incomes being especially affected.

Under this program Secretary Hull agrees to lower American tariffs on certain foreign-produced goods providing the country producing them lowers its tariffs on certain American-produced goods.

NATIONAL

Both the Frid brothers, Sidney and Cyril N., who operate the laundry and their father, Jesse Frid, have been working on the new building all their free time from the laundry work.

The new building will give the Northville laundry one of the best

rewards from the foreign offices of the European nations and the American state department declared.

President Roosevelt's share the wealth program. This would place a graduated tax on all incomes with large incomes being especially affected.

Under this program Secretary Hull agrees to lower American tariffs on certain foreign-produced goods providing the country producing them lowers its tariffs on certain American-produced goods.

Mr. George Foreman spent Thursday morning with the Merritt Henwick family in South Lyon and was a dinner guest of Mrs. James Dickie at Motor Inn at Whitmore Lake and they spent the afternoon at the Lakeland golf course.

Brinkie took the lead again on the 2nd hole, however, and never lost it again. Foreman was having trouble with his putting, losing a stroke on both the 2nd and the 20th in this way. At the 3rd hole, Brinkie was four-up, and he held his lead for defeating John W. Foley, Jr., 4-3, in the 36-hole final of the Detroit District tournament.

Jack McLoughlin, Meadowbrook member of Northville, who was entered in the second flight, won his first match Wednesday, June 29, from H. G. Taylor of Glen Oaks, 5-4, but lost his second round match with Dan Huff, also of Meadowbrook Thursday by default.

Foley had an up-and-down start, but then Foreman fought back to win three of the last four holes of the morning round and got to lunch one down. Both shot good golf, Brinkie having 73 and Foley 74.

Foley won the 19th hole and kept the score square until 21, which Brinkie won with a par four. Foley knocked it up again on the 22nd, knocking it into the water, and Foreman followed with a slice, and a double bogey.

In the other final, Jack Moonie of Oakland Hills, won the first flight title by defeating John Barr, of Clinton Valley, 1 up, 20 holes. Dan Huff, of Meadowbrook, won the second flight, from Wilmot Shandland, Huron Hills, one up.

## THRONGS ATTEND MASONIC PICNIC

Several Northville Men Take Active Part in Work of Celebration

At least 75 people from Northville attended the Masonic picnic at the Walled Lake amusement park Saturday, Sunday and Monday. Club J. Smith said here Tuesday.

The picnic and celebration was sponsored by the St. John's Day league of Detroit. Mr. Smith is a member of the executive committee of the league and was also on the program committee for the picnic. He was busy most of the three days of the celebration assisting Kenneth A. Hill of Detroit, who is executive secretary of the league.

E. M. Bogart, who also visited the picnic with his family, was of the opinion that a total of 300 from Northville attended the affair.

Several other Northville people worked in various departments there, including Clifford S. Steiner, who was a member of the ticket committee and who also worked in one of the refreshment booths pouring coffee Sunday. Ralph Foreman worked in one of the league's book stores over the weekend.

Included among the features of the celebration were baseball games between girls teams of the Industrial Athletic association Saturday and Sunday; afternoon softball games between the various Lodge teams, and daily tug-of-wars between the Lodge teams.

Monday evening climaxed the celebration with the giving away of three new cars, an electric refrigerator, two vacuum cleaners, washing machine, radios and several other useful articles.

The bathing beauty contest was held Monday evening.

All profits of the three-day picnic will go to Masonic charities. Mr. Smith said. One of the most important of these is the contribution to the Masonic home at Alma, Mich., which has an enrollment for 175 guests. It is designed to make happy the declining years of Masons. Another of the charities is the Masonic employment association.

On Friday evening the Edison team won from the Orioles, 16-7. Orioles' pitching and Ray Stewart catching for Edison; H. V. Leo Skokland's pitching and Vic Miller catching for the Orioles. Maybury defeated Ryd Mondale, 20-3, getting 21 hits. Batteries for Maybury were Ted Dickerson and Harry Wilder for Ford. Williams and George Stanton.

## THREE GROUPS FROM NORTHVILLE VISIT IN CAPITAL LAST WEEK

(Continued from page one)

The city of Washington was a popular place last week. Not only did the 1935 N.H.S. graduates visit there, but Kenneth Porter, Carl Stevens, Mrs. Earl H. Montgomery and her daughter Joan also made the pilgrimage to the nation's capital.

Kenneth and Carl left June 5 in the 1934 model T. Ford. They went by way of Freeman, O. and Gettysburg, arriving in Washington Thursday. They spent four days in the capital seeing congress and the senate was not yet in session. In the house they saw Northville's congressman, Rep. George A. Doreder, of the seventeenth district, who came off the floor to talk to them for a few minutes. They were accompanied by Sup. and Mrs. R. H. Amerman and Mrs. Ida B. Cooke. Mr. Amerman accompanied the class of 1931 to Washington but for the other two it was the first visit to the capital. They were on a special conducted tour.

Following is a list of the seniors and their chaperons interviewed. Asked as to the number of "barn raisings" he had directed in his 30 years in the business, Mr. Hicks replied that there were so many that he could not even estimate them. Steve Hicks, his brother, however, has been working with him most of that time, declared after the raising that "I have worked on at least 150 barn raisings."

Besides Steve Hicks, George Hicks had in his crew his other brother Fred. Other Northville people who came out to help and to watch were Mr. and Mrs. W. E. Forney, Floyd A. Northrop and Dr. L. W. Snow.

Following is a list of the seniors and their chaperons interviewed. What in their opinions were the most outstanding things seen on the trip.

Superintendent Amerman—Mount Vernon, to walk in the same places that George Washington walked.

Lady of House—Have you ever been offered work?

Dusty Rhodes—Only once, ma'am.

Amerman—The whole trip,

Mr. Cooke—Annapolis.

President Thomas Carrington, Jr.—The Lincoln Memorial.

Dorothy Richardson—The Un-

know Soldier's Tomb.

Winfred McCord—The Smith-

sonian Institute.

Marion Turnbull—The Pan-American building was most beautiful.

Spencer Van Valkenburgh—The Congressional Library at night and the Smithsonian Institute.

The estimated cost of the trip per person was \$31.50. Although Stanley, Taylor and Catherine Bonaventura earned the entire amount, all seniors had some money to their credit in the class treasury.

Completed the raising, and as soon as this happened Mr. Salow announced that supper was ready. And although the scene of the raising had been a busy one during the entire afternoon, it became quite deserted within a few minutes as the workmen sat down to their meal at improvised tables on the lawn in front of the Salow home.

Large repasts of potato salad, sandwiches, jello, cake and coffee had been prepared, but they disappeared rapidly under the attack made upon them. Supper is a most integral part of all barn raisings those who know certainly declare.

The entire job was under the direction of George Black, veteran

## SENIORS TELL OF WASHINGTON TRIP

(Continued from page one)

He was the newspaperman of the bunch, said the only thing he could see was his big John Hancock.

Wednesday morning the senior went to the capitol. The house of representatives was just convening and the senate was not yet in session. In the house they saw Northville's congressman, Rep. George A. barn builder, who has now "raised" barns for three generations of the Salow family. The first of these, he said, was built for Carl Salow, the father of Mr. Salow's uncle, 34 years ago. And then 22 years ago Mr. Hicks "raised" a barn for Mr. Salow's father, William Salow.
