JUST A MATTER OF SIX DOLLARS

Mr. Record reader, if you are paid \$25 a week for your work, you pay out of it \$6.05 for taxes. How does that appeal to you? Of course, you don't see all of that six dollars and five cents, but just the same, you pay. Your automobile is taxed in half a dozen ways. Your loaf of bread pays taxes you don't see. The tax on cigarettes is very high; the tax on the shows and ball games you attend runs into a pretty figure. We could make a list as long as your arm. Why go on?

How long are we going to tolerate these mounting taxes?

WHAT WILL THEY DO WITH IT?

After Commander Robert E. Peary reached the North Pole, President Taft is reported to have asked: "Now that we have it, what will we do with it?"

By means of cruel poison gas, by the use of dum-dum bullets, by the dropping of bombs from airplanes on thousands of helpless black men, women and children, by cruel and savage warfare, backed with the arm of science, Italy has won the war from Ethiopia. Gone is the ancient empire and the dictator Mussolini struts out his chest like a Caesar and boasts to his people that the great war is won.

The world asks: "Now that Italy has won Ethiopia, what will she do with it?" Can colonies be established in that desert and mountain land where terrific heat has to be endured? Can the Italians conquer the overwhelming natural obstacles of high mountains, of bleak desert lands? Is what Italy has gained through its cruel war worth the price for what it has obtained? The world awaits an answer.

TALK BACK TO THEM, SAYS CATHOLIC

A good friend of ours brings to our desk occasionally a very well edited Catholic magazine. The Commonweal, and we have spent many an illuminating hour reading its columns.

Last week one article analyzed very brilliantly the danger of Socialism and Communism and the feeble efforts that are being made to answer the claims of these radicals. We were greatly impressed by these paragraphs:

"American radicals, by which we mean the convinced Communists and sincere Socialists, stand forth as perhaps the most zealous individuals on the face of the continent. The spirit of sacrifice, the unflagging enthusiasm, the genius for organization, the prodigious efforts of these misguided disciples of disaster should shame us lethargic Catholics."

It is high time our students were prepared to give answer to the more and more powerful challenges of Socialism and Communism. It is high time that our part in social justice included more than listening to a voice speaking from the Shrine of the Little Flower on Sunday afternoons.

THE BATTLE FOR A PLACE IN THE TREE

Walking along South Rogers street Friday we saw a squirrel hopping along on the ground near the fine old maples that stand near the curb. It was a peaceful scene. In a split second it changed. Tearing across the street came a bull dog, teeth all set for a bite at Mr. Squirrel. In another split second the squirrel, with an amazing burst of speed and a wild leap or two, was calmly sitting up ten feet in the tree, looking down at the baffled bull dog. "This is life," said we to ourselves.

The bull dogs of worry are right across the street ready to tear at our heels. The anxiety about the job, how to pay the rent, how to meet the pay roll, how to get shoes for the children, how to meet the doctor's and dentist's bills, ways to plan for the kids' education, where to get a new car—all these bull dogs of worry are right at our heels. If we get too playful these dogs of worry can come flying across the street in less time than it takes to tell about it.

Yet there is safety in the branches of the big maples of our lives. That is, there is safety if we are wise and as quick witted and quick footed as the squirrel. Come to think of it, we never yet saw a squirrel caught or bitten by a running dog. That little furry creature is too smart. We can sit calmly in the big branches and let the worries—at least a good many of them—yip at us from a safe distance if we are to use our heads and our feet. Living within one's means is perhaps the basic principle of safety from financial worries. To accept the principle that the world owes no one a living is another good way to meet the worries of life.

Another way to get safely in the branches is to avoid trying to keep up with the Jones. Map your own course and follow it and a lot of financial worries won't send you flying for safety. Planning for a rainy day is also smart tactics in meeting the worries of life. Up in that maple tree the squirrel had nuts hidden away. Be as smart as the squirrel.

WOMEN FORCED TO WORK ON FARMS

"16,000 Men Resting on Dole While Women Toil in Fields."

That is the headline we have just read in a daily paper. Then the news story goes on to say that James F. Thompson, state agriculture commissioner, stated that the Michigan WPA program has made such a shortage of farm labor that more women are working in the fields than since the World War. There are thousands of men, continued the state head, who refuse to work on farms because they can get WPA jobs and other forms of relief.

Dr. Wm. Haber, relief administrator, denies the charges but country supervisors in convention at Lansing backed the claims of Mr. Thompson.

Certainly no one who lives in Wayne county and who has traveled around a bit and used his eyes a little, can deny that the welfare agencies have made and are making, a lot of lazy and easy going men (and this is no reflection on that large group of conscientious and fair men who were forced on the dole through circumstances beyond their control and who have given honest service and who would also be very happy to get off the dole.)

It ought to be easy to get the facts about this farm situation. Not all men are fitted physically to work on the farms but on the other hand, thousands of them are. If these thousands won't work on the farms they should be taken from the welfare rolls. The public's tax-bill is high enough now—and mounting monthly. The old policy of Capt. John Smith, back in colonial days, "if men will not work, neither shall they eat," might well be put into effect in this year of grace. Just how many men and women does the government owe a living? Far fewer than are now getting it from federal checks.

NORTHVILLE'S YESTERDAYS

1 YEAR AGO

Memorial Day will be observed Thursday, May 29, with Ex-Governor William M. Brucker as the guest speaker at the Peninsula-Alpen theatre.

The last Northville Women's basketball team defeated the Scarred-Haggerty team of the Peninsula-Alpen 21-13 in a game packed with excitement.

On Wednesday afternoon the Mary Immaculate church celebrated the feast of the Ascension of St. John the Baptist. The church was crowded with people for the service.

The Northville Wood Products company is proceeding rapidly and soon after July 1 the "wholes of industry" will be turning there.

5 YEARS AGO

Salon township is without a treasurer as a result of action taken a week ago by Attorney General Paul W. Burns disqualifying Chas. C. Barnhart on petition of 13 taxpayers. Mr. Barnhart, who was elected to office at the April election, was disqualified by the attorney general because according to law, he could not hold office for more than two successive terms.

"The rural tax rate figure as arranged by the board of review," stated Charles A. Sessions, village assessor, "is \$17.40 per thousand dollars."

Fire at the Fairmount cider mill on Base Line road threatened to destroy approximately 30,000 gallons of cider stored there. The fire was discovered at 4 a. m. by Oro Reacars, night watchman for the Gordon-Paget Baking company.

10 YEARS AGO

Last Sunday Augustine Bernhardt died at her home near this village and by her passing a devoted Christian mother has gone to her reward.

Born to Mr. and Mrs. Donald B. Bore, May 6, a daughter, Gladys Bernhardt.

Production of the Stinson-Detwiler airplane will be under way in a factory at Northville within two weeks. It was announced at a meeting Monday noon in the Hotel Statler.

The triangular track meet in which the schools of Plymouth, Grosse Pointe and Northville took part on the local fair grounds Tuesday afternoon was won by Plymouth with 45 1-3 points to its credit. Northville placed third with 33 1-3 points. Dell Campbell won first in the mile dash. R. Smith carried off the honors in the half-mile event and C. Ely won the pole vault.

15 YEARS AGO

A meeting of the Chautauque guarantors was held at The Record office Monday evening for the purpose of organizing for the forthcoming season. The local organization was perfected by the selection of the following officers and committees: President, E. E. Brown; vice presidents, H. M. Bogart, Chas. E. Smock, Mrs. H. B. Clark, Frank Durfee, Mrs. S. G. Power, C. H. Young; secretary, T. R. Carline.

LETTER TO THE EDITOR

The Northville Record, Northville, Michigan.

Gentlemen: I noticed your editorial regarding the Mackinac Straits Bridge. On two separate and distinct occasions your Congressman stopped consideration of this matter in the House of Representatives. I am sending you a little additional information on this subject.

Personal regards, George A. Dondoro, M. C.

Subject: Mackinac Straits Bridge, Mackinac, Michigan.

Hon. Howard S. Gay, Exec. Sec., Board of Review, Washington, D. C. Gentlemen:

I have asked for time, and you have granted it, to present my views personally regarding the Mackinac Straits Project. I find, however, that the House of Representatives will be in session and considering legislation which will require my presence there.

I am opposed to the construction of such a bridge. Two things alone would justify the proposal. First it must be economically sound and second a necessity must exist for it. As to the soundness of the proposal, I call attention to the fact that the bridge is to cost \$35,000,000 to be amortized over a period of forty years, it would require an income from tolls of more than \$2,000,000 per year to sustain it.

The state maintains a ferry which is adequate, complete, safe and most desirable, the total income from which has never exceeded \$400,000.00 per year.

Two things alone could call for the building of this bridge, the tourist traffic and hunters in the fall of the year. The present ferry takes care of both.

From one from Upper Michigan I learn the lakes in freighers

in the past. Lumber is a vanishing if not a vanished industry in Upper Michigan. Agriculture and its products are limited to the east end of the peninsula and they find their way to market in trucks.

This bridge is the promotion scheme of some person or persons who promoted the Ambassador Bridge across the Detroit river at Detroit. It has resulted in being a financial failure.

I challenge anyone to point out that the present State Ferry is not capable of handling the traffic. It is used by about two of the largest automobile countries and I maintain it is safe, comfortable and efficient. It carries vehicles and passengers from one point to the other. If the traffic should increase, the rate could very easily be raised.

The present charge is nominal upon those and of about one and a half million dollars. About one dollar is charged for an automobile and twenty-five cents for a passenger. The toll that would necessarily have to be charged over a bridge costing \$35,000,000 would be more than 100 times the present charge based upon present traffic.

In destroying the natural beauty of that region, it would injure the people on both sides of the Straits and Mackinac City and St. Ignace would become mere gas stations. About 400,000 people reside within one hundred and fifty miles of the Straits, therefore the traffic would certainly be dependant upon the people coming from other sections of our country.

We have gone a long way to preserve, by legislative enactment, the historic and natural beauty spots of our country even designating the largest swamp in our land as a national park under the pretext of preserving the flora and fauna in their present condition for the people and posterity. I refer to the Everglade Swamp.

This proposal would destroy the natural beauty of the Straits region and take away the greatest asset that that region offers to the people

everywhere, its excellent natural beauty.

The report of Professor Cade, of the Michigan State College, who represented the Coast and Geodetic Survey, refers to this project as being under estimated in cost, and fantastic in its conception.

It is not asked for by the State of Michigan. The Highway Department is not interested, and there is so little commerce which would use the bridge that at the present time

the two railroads having their terminals at Mackinac City have requested that their lines be abandoned.

I therefore submit that the application for funds should be denied so that the government of the United States will not become a party to a project that will spell ruin and disaster to anyone who invests his or her money in it. (Signed) George A. Dondoro, M. C. Respectfully submitted.

STEEL MAKERS say—"Ford buys the best steel." Other suppliers of materials and parts will tell you—"Nobody checks up as closely on quality and price as Ford."

This means a great deal to you as a motorist. It is our way of safeguarding the interests of every purchaser and it leads to this—"The mechanical depreciation on a Ford is less than most cars, especially after the first year."

This is one sign of the extra value in the Ford V-8. Accuracy in manufacturing is another. (The Ford is made to unusually close precision limits.) And there is a long list of fine-car features that are exclusive with Ford in the popular field.

Have you a V-8 engine in your car? You pay \$1645 for it in any other car but Ford.

Does your car have Center-Poise Riding? Ford gives you this modern feature—"a front-seat ride for back-seat passengers."

Does your car have fool-proof Super-Safety Mechanical Brakes? The Ford V-8 gives you this proved design, with 186 square inches of braking surface.

Does your car have a genuine steel body structure? Does it have Safety Glass all around? Ford is the only low-price car that gives you this extra protection without extra cost.

You get these fine-car features in the Ford V-8 because of Ford manufacturing methods and low-profit policy.

\$25 A MONTH, after usual down-payment, buys any model of the new Ford V-8 car—free any Ford dealer—anywhere in the United States. Ask about the new UCC 1/2% per month Finance Plan.

AFTER MOTHER'S DAY

Sunset on Mother's Day. Letters from absent sons and daughters have been read and read again, then laid away with sacred care to be poured over later.

Good byes have been said as Mother waved to her men and women grown who were going back to the work-a-day world after a day spent as boys and girls with Mother.

And now she sits alone thinking. Flowers on the table beside her are the only tangible reminder that it has not all been a dream. Where are they dear—her children, and the do-love her after all and she is grateful for they have been the end and aim of her life.

Yet as she looks at the flowers a wave of real humility sweeps over her and she sighs "I wonder if I have been the right kind of a mother. I would like to go back

and do it all over—so much better. That morning she heard a great man speak on "Memories of My Mother" and he had said: "It is the little things in my mother's conduct that are the big things in my memory. It is the unintended influences of life that really count in the lives of our children. We place too much expectation on the big things, the spectacular events, but it will be the little things in everyday living that will be remembered."

And then he added with emphasis: "I remember to act, so word, not one thing in my mother's life that compromised her ideal of womanhood."

We saw many mothers being taken out to dine on Mother's Day; we saw one son-in-law lay with real affection a bunch of flowers in the lap of his "mother" and we saw her respond with appreciation.

Yes, Mother's Day is worth while if only to encourage expression of love that might otherwise be neglected. But it does more. Never a Mother's Day closes without making many a mother raise her heart in this prayer:

"When our growing sons and daughters look on life with eager eyes, Grant us then a deeper insight, And new powers of sacrifice, Hope to trust them, faith to guide them, Love that nothing good denies."

YOU NEEDN'T EVEN DO THIS—

to enjoy automatic electric hot water!

Electricity provides you with trouble-free, modern lighting when you press a button in a room. But you needn't even press a button to enjoy electric hot water! This new service is completely automatic. It requires no attention whatever. Whenever you need hot water, simply turn the faucet—and there is your hot water on tap. This carefree service frees you forever from such bothersome details as running up and down stairs to light a manually operated heater, the annoyance of "tank patting" and waiting for water to get hot, the inconvenience and delay caused by having only lukewarm water in the pipes.

You will find a plentiful supply of hot water a great comfort in your home... for bath and shower, for shaving and washing, for cooking, cleaning, laundering, dishwashing and countless other daily tasks. You can make housework easier and pleasanter with the liberal use of hot water. It saves time and labor and adds to the efficiency of home-making. Once you have enjoyed the convenience of this automatic hot water service, you will wonder how you ever did without it. Stop in at any Detroit Edison office for complete information today!

THIS IS CLEAN-UP WEEK

This week is being observed as clean up, pick up and rake up week in Northville. Your neighbor is doing his part, are you doing yours? Remember, all rubbish placed in containers at the curb will be hauled away by trucks supplied by the village and if you fail to gather the rubbish accumulation of rubbish and have it carted away do not blame anybody but yourself. This is your yearly contribution to good health and an attractive, clean village.

AN AUTHORITY OPINION ON TAXES

J. L. BRUMM SPEAKER FOR GRADUATION

Graduating Exercises to Be Held in Fenimian Allen Theatre, June 18

It has been announced that Professor J. L. Brumm of the journalism department of the University of Michigan will be the commencement speaker at 8 p. m. on June 18. His subject will be "Education for Living." The graduating exercises will be held this year in the Fenimian Allen theatre, by the courtesy of the management.

"Professor Brumm is an exceptionally good speaker and the committee feels pleased at having obtained his services," R. H. Amerman, superintendent of schools, said. He has spoken several times before at the high school.

This year the tickets will be issued as they have been in the last few years. Seniors will be given a certain number for their parents and friends. Anyone else wishing tickets may leave their orders at Mr. Amerman's office, and if they are available will be notified. Nothing is promised, but will be a matter of "first come, first served."

SOCIETY

Two house parties held the attention of the girls last week end. Isabel Tibbels invited six senior girls to a cottage at Walled Lake to spend Saturday in swimming, boating and so forth. Frances McLoughlin, Ida Altman, Evelyn Ambler, Frances Alexander, June King, and Dorothy Frank went up Friday night and came back late Saturday. We heard something about a snake. Maybe it was only a rumor.

Mary Jane Gregory entertained three juniors at her farm Saturday and Sunday. Of course they went in swimming, paddled a canoe, and could hardly spend up this week because of a more large. Those who went were Louise Simon, Helene Johnson and Mary Jane Chace.

The weather being just what Dorothy Vernon gathered up her friends and had a party for her. On Thursday, June 18, Dorothy, Mary Jane, Helen, Ruth, Greta, Gilda, and Greta and Ruth were the guests. The party was held at the home of Dorothy.

Walled Lake is just as popular this week as it was last. Dorothy, Mary Jane, Helen, Ruth, Greta, Gilda, and Greta and Ruth were the guests. The party was held at the home of Dorothy.

Rita Reathy, who is planning on attending Chazy college, was looking it over Tuesday.

Seniors Who's Who

MARGARET PRATT

Margaret was born in the lap of lakes, up by Osego. How long she lived there we do not know, but by the time she was in the first grade she was down here in Wixom. She went from there to Novi and finished up through the tenth grade, went to Walled Lake for her eleventh year and then came here.

Margaret—whose middle name is Berdine—likes to dance and play basketball.

As for her ambition, she loves to cool fevered brows and so will be a nurse. Pretty soon Ford's hospital will have a small blond gracing its halls.

KATHLEEN RINCK

It is in Kathleen that the future glory of Northville high rests. When she puts her talented fingers to use on the concert stage, we only hope her interviewers will mention where she went to school from the sixth grade on. Her home is her birthplace and the date was Oct. 15, 1918.

Kathleen has been playing the piano for seven years and in 1930-31 and '32 she won the Michigan Federation of Music awards.

Kathleen confesses that she really likes to play the piano. Besides that, she likes reading and outdoor sports.

Although she insisted that she really didn't know how she was going to use her talent, it's safe to say that she'll probably be well known in a few years. And strangely enough, she is not temperamental.

OUTSIDER EIM

"So, you're an actor, eh?" the stout man snorted at his new train companion. "Well, I'm a banker, and I haven't been in a theatre for ten years."

"That's nothing," replied the actor. "I haven't been near a bank in twenty years."

'ROUND THE SCHOOL

Around this time of year it is a hard task for senior members to decide just where they want to attend college. Seniors should be warned to think twice before choosing a college. Students are often misled by a smooth sales talk or by a pamphlet that illustrates a lot of pretty pictures. Just because the man who spoke for so and so college had the most divine eyes isn't a sign the college is also the same. When considering where to go to college, think first about what vocation you are going to follow and then see what college best fits your field of work.

Decide also which college seems most practical. Try to talk to various college students and obtain all the information you can on the college they are attending. See if they are happy there. See what alumnae from the college have obtained good positions.

Picking a college is an important thing—it should take a lot of thought. You should not be led blindly into it.

Some baseball team we have, eh, sports—won two games "by heck." It makes me blush to see how noticeably happy the students are when their classes are interrupted by a program of some sort.

"Did you know the faculty picture had to be taken over again for the Palladium—it seems some of the teachers thought they were still in class and just forgot to smile. No insinuations, of course."

Who's the crumb that has broken the rest of the coat hangers in the hall—I have learned a lesson and now hang my coat on the floor (with a soft under breath of calm).

Writer Describes Senior Girls Dress Sewing As "Graduation Dress Derby"

Ladies and gentlemen of the Grange and Black audience, we are about to witness a Graduation Dress Derby. The good earth has been flooded by Old Man Sunshine, and a warm breeze has swept up from the south. The American flag snaps and cracks in the breeze, and to our right is the N. H. S. band.

A blonde about the spectators' level, a few freshmen, sophomores, and juniors in the assembled group, Betty Saunders and Pat McLoughlin are patiently awaiting for the race. Gwendolyn Jones has just purchased a hat for the vendor, and is proudly munching it.

A cheer arises from the observers as the jockeys, astride their horses, come out onto the track. Some of the senior girls are clutching stars in their hands while others grasp pig-cushions. The jockeys are tense, the crowd ceases to breathe, the starter raises his hand, points the pistol upward and crack they're off!

Jockey Tyler has swept passed her opponents and she is charging on to victory. Jockeys McLoughlin and

Altman are gaining; but slowly. The race is the March and April lap of the race. The audience rises to its feet. Some are screaming, laughing, and stamping their feet. We are able to distinguish Louise Bailey pounding furiously upon her individual straw hat. Her reins are in with dignity.

The horses are pounding down the turf toward home. Jockey Myers, who has remained close to the rail rushes past Altman, McLoughlin, Alexander, Little, and now McLoughlin is competing with Jockey Tyler. The seconds are rapidly taking away, and suddenly with a spurt of energy her horse leaps ahead, and crosses the finishing line a nice ahead of Jockey Tyler. The N. H. S. band has swung into a victory march.

Jockey Myers is now being presented with a floral horseshoe, consisting of red roses. The photographers have taken her picture, and we can see from here that she is a very happy young lady. Let us conclude this race by mentioning that it takes courage to begin a graduation dress derby, and she has it. We hope she goes forward to win many more dress making victories.

Grade Notes

Miss Kreger's sixth graders are editing a second edition of their newspaper "Crackers." Maxine Lennion is the editor this time, and her assistants are Harold Hubbard and George White.

Three mothers visited the grade this week. They are Mrs. Voglin, Mrs. Parmenter and Mrs. McCluskey. The pupils are making posters of spring flowers. For geography the pupils are making a salt and flour map of Africa.

Miss Leonardson's pupils are making clean-up posters. The Reds are leading in the spelling airplane race. The new pilot is Ann Davis for the Reds, and Arlene Toussaint is the mechanic. Florence McCluskey is the pilot for the Blues, and Esther Stanford is the mechanic.

In Miss Jarvis' room, the cocoon has opened. They have a female cocoon which laid her eggs. The children are studying pollywogs and turtles. The children receive stars for their library reading. John McDonald, Arthur Grisson and Marian Larson have the most stars.

Mrs. Reng's second graders are making a study of health, inspired by the May Day festivities. They are reading health stories, making health posters, reading and learning verses. The third graders are studying about cold storage plants, and how perishable things are preserved. They sent their mothers cards for Mother's Day.

Mrs. Babbitt's morning section pupils have completed the book "New Trails" and are starting child library readers. Lawrence Mass has returned to school after two and a half months of illness.

In Mrs. Cogo's room, Peggy Ely and Frederick Wick have not been absent this year. David Amerman, Loyola German, and Carol Berkner have received all A's and B's for

DID YOU NOTICE

All the white shoes? All the worried looks on the faces of the Palladium staff? Copy must be in.

The notes E. Hill receives from?

Doris L. and Jack J.? We have Irene Modos' breath of spring blouse and rain coat?

The senior committee for skip day?

Freddie Casterline's superior look? He has the goods on B. B. It seems he found a note.

The long looks thrown out the windows? Who wants to study when the birds are singing away?

The opera cast? The opera is next week you know, and their voices must not fall them.

The baseball team members? It seems they have won two games. Rah! Rah!

Mr. Thompson trying to find the picture of the faculty? It seems Mr. Thompson's picture just didn't seem to look right.

There is but one true national prosperity. It is built upon the strong pillars of individual honesty, industry, fidelity, and thrift.

SKIP-DAY ENJOYED BY SENIOR CLASS

The seniors had a "skip day" Thursday, May 14. Announcements as follows were sent to the senior members' parents to be filled out:

To the Parent: "It is the custom of long standing in most high schools to allow the seniors a 'skip-day.' Northville has followed the practice for many years and is willing to allow the present senior class to do so provided the parents are willing to allow their children to go minus faculty supervision. I understand that they plan to attend a ball game in Detroit. Teachers would be willing to go, but they cannot be spared for a day at this particular time."

"If you, as a parent, are willing to allow to observe 'skip-day' some day soon, without faculty supervision, please sign and return this slip by May 13, 1936. Signed, R. H. Amerman."

These slips were sent out and signed by the parents.

N. H. S. DEFEATS MELVINDALE HIGH

Defeated last year in a close battle by a 1-0 score, the Northville nine took the field with nothing but sport of murder in their hearts to lick Melvindale. This they did in a style all their own.

In the third inning, with one out they pounced on the Melvindale singer for five runs, three hits and a miss play by a Melvindale man.

The fourth inning netted the only run for the opposition. Although in the sixth frame Melvindale loaded the bases, a fine catch by Giles in left and a quick throw to third, rather nipped the rally before a runner could score.

Northville pushed across two more runs in the sixth and that ended the tugging for the afternoon. Bruce Turnbull out of left his bats and then made a diving stop of a drive that was tagged for at least two bases down the third base line.

Chuck Bishop and shortstop Allen had a hand as he moved all the way home from first on an error.

Stu Hokenkins turned Melvindale tide back with but a well centered hit, showing that could "take it out" very well. Hardesty and Himes led the N. H. S. attack each getting two hits.

Westphall, Way and "Pro" rounded out the past tugging with some good work in the field.

As a whole the boys turned in a fine performance for the night and the final score shows:

Northville—7 runs, 6 hits, 6 errors.
Melvindale—1 run, 5 hits, 3 errors.

C. STRAUTZ BREAKS SHOT PUT RECORD

Five Local Boys to Compete in Regional Meet in Ypsilanti

Northville tied for second place with Van Dyke in the suburban track meet Saturday, May 9, at the University of Detroit stadium. Berkley took first place with the score of 22. This score represented over one-half of the points of the entire meet.

Charles Strautz broke his shot-put record of last year by two and a fourth inches. His last year's record was 43; this year's is 45. He is again suburban champion of the shot-put record. Strautz has practiced patiently each night after school on his shot-put throwing. He is qualified for the regional meet to be held Saturday, May 16, in Ypsilanti.

Keene Bolton and Martin Mitchell of Northville succeeded in getting third and fourth places in the 100 yard dash. Berkley won first place in 10.4 seconds. The mile run also went to Berkley with Lawrence Way of Northville, taking third place. Ralph Bopart took fourth place in the pole vault.

MRS. I. B. COOKE IN ANN ARBOR HOSPITAL

Mrs. Ida B. Cooke, principal of the junior high was taken to the University hospital at Ann Arbor Tuesday, April 5, where she is under observation. The students of the seventh and eighth grades are intending to have a gala reception for her return. They are sending an exquisite bouquet hoping that she will be back with them very soon.

The eighth graders' plans for their graduation exercises are being postponed for a few weeks.

OPERA SKITS ENACTED BEFORE ASSEMBLY MEET

On Wednesday, May 20, Leslie G. Lee, director of the opera "H. M. S. Pinafore," will have the members of the cast put on some skits before the assembly in the high school. Solos will be given by leading characters of the opera. There will also be some selections from the chorists. Costumes for the cast have been arriving. The pupils might wear costumes when putting the skits on.

The "H. M. S. Pinafore" will be presented by the high school auditorium, May 21 and 22.

Dog owners who permit their dogs to molest and harass protected game birds and animals during closed season are liable to arrest and fine in justice court.

PLANS FOR YEAR BOOK PROGRESSING

Palladium Intended to Be Published by June 1; Committees Busy

The plans for this year's annual, the Palladium, are rapidly shaping into what will be, according to Mayor Esme Nisider, a fine publication. The various committees under the direction of Leslie G. Lee, faculty adviser, and Esme Nisider, mayor of the student council, are working diligently to make this book a success.

Robert Angove, chairman of the advertising committee states that the merchants have responded readily to the requests for advertising and the entire committee is most pleased with the merchants' splendid cooperation.

Mayor Esme Nisider has efficiently piloted this 1936 edition of the Palladium and is assured of an extremely satisfactory annual. Editorials under the direction of Ida Altman have been assigned and are now being written. The pictures of the many organizations and classes have been taken and the proofs returned. This work was under the supervision of Leslie Perpoint, chairman of the picture committee.

Charles Strautz and his circulation committee are still taking orders for this annual. Even though the campaign has closed many people still want to order the book. The art department, with Thyra Lester at its head, has been working untiringly, making drawings for the book.

GOLF TEAM WILL PLAY REDFORD UNION HERE.

P. B. Thompson, golf coach announces that the golf team will play Redford Union, Monday, May 18, at the Meadowbrook Country club. The last time Northville played Redford Union, our local team was defeated. The boys who will play Monday are Gerald Trotter, Robert Snor and either Leonard Young, Bill McGee or James Latta.

VILLAGE PROCEEDINGS
A special meeting of the Village Commission was held at the Village Hall Tuesday evening, May 12, 1936. Present: President Burkart; Commissioners Gregory, Hicks, Shafer, Perrin and Perkins.
President Burkart stated that the chief purpose of the meeting was to appoint a Health Officer, as Dr. Holcomb was not available and had asked to be replaced. He further stated that he had discussed the matter with Dr. Russell M. Atchison (who is at present interning at Ann Arbor and will return to Northville the latter part of June to begin the practice of medicine) and that Dr. Atchison had agreed to accept the appointment providing the salary was the same as last year, his father to carry on the duties until his return. Under these conditions President Burkart recommended that Dr. Russell M. Atchison be appointed Village Health Officer. President Burkart asked if the Commission had any other names to suggest, and Commissioner Perrin presented the name of Dr. W. H. Johnston.
The matter was then brought to a vote, which resulted as follows:
For Dr. Atchison—Shafer, Hicks and Perkins.
For Dr. Johnston—Gregory and Perrin.
Whereupon President Burkart declared that Dr. Russell M. Atchison had been appointed Health Officer for the Village of Northville, his father to act in that capacity until Dr. Atchison's return in June.
Motion was made by Commissioner Hicks, seconded by Commissioner Shafer, that the appointment be confirmed.
Yeas: Shafer, Hicks and Perkins.
Nays: Perrin.
Carried.
A motion was made by Commissioner Shafer, seconded by Commissioner Hicks, that the representative of the Press be invited to take reports of the proceedings of the meetings of the Village Council from the records of the Village Clerk.
Yeas: Shafer, Hicks and Perkins.
Nays: Perrin.
Excused: Gregory.
Carried.
No further business appearing, motion was made by Perkins, seconded by Gregory, that meeting adjourn. Carried unanimously.
(Signed) MARY ALEXANDER, Village Clerk.

R. M. ATCHISON NAMED HEALTH OFFICER HERE
(Continued From Page One)
son was approved by a 3-2 vote. It has been reported by Dr. L. W. Snow, that during the eight-day period, when Northville had no health officer in charge, the village was on the verge of having a scarlet fever epidemic. Village commissioners were contacted and it was admitted by them to Dr. Snow that there was no one to whom the cases should officially be referred. A further statement by this physician brought to light the fact that no health officer had been appointed since Dr. Holcomb's resignation.
One case discovered on Mother's Day, May 10, resulted in the submission of an entire family group to scarlet fever because no investigation had been made, affirmed Dr. Snow.
When Dr. Burkart presented Dr. Atchison's name for a vote Tuesday, he had no physician in the village would accept the responsibility of health officer.
