## A. H. JOHNSON DIES THURSDAY IN CAR CRASH

### Front Tire Blow Out, Is Believed to Be Collision Cause—Rites Saturday

Swift and tragic was the death of Alex H. Johnson, who died instantly last Thursday night when his car smashed into the concrete bridge on the Northville-Plymouth road, just northeast of Cass Benton Park. No witnesses to the accident have been found, and the reason that Mr. Johnson apparently lost control of his car, some 70 feet north of the bridge, cannot be exactly determined. A coroner's examination and autopsy failed to shed light on the situation.

The right front tire was blown out, and the consensus is that this, if done before the crash, threw the car from its path and into the bridge. It was the right side of the car that was the more badly damaged, although the whole body was crumpled up by the impact. Mr. Johnson had said to friends here that the tire was worn.

But again, two cars, one attempting to pass the other, may have been hurtling around the bend, of which the bridge is almost a part, at the time Mr. Johnson was coming along. And he may have swerved to the right, into the cement abutment, in order to avoid hitting the passing car.

The accident occurred at approximately 8:25 p. m., Thursday, July 16. It was not yet quite dark, and although no one saw the accident, the crash was heard by picketers in Cass Benton Park.

Mr. Johnson left his home, 441 First street, about 7:30 p. m., before leaving for Plymouth where he was going on business, he talked with Charles Altman about work he was doing for him.

Mr. Johnson was 45 years old. He was born in Sundsvall, Sweden, and emigrated to the United States when he was 16 years old. He was married in 1913, while in Canada. He has been one of Northville's leading contractors. In 1931, he built the Neal Building, which houses The Record office.

His joyful personality made him popular with persons of all sorts, and the large attendance at his funeral was an indication of the many times he had longed out of his way to aid others.

The funeral was held at 4 p. m., Saturday, at the home, with the Rev. Harold G. Whitfield of the Presbyterian church officiating. Burial was made in Rural Hill cemetery.

Surviving Mr. Johnson are his wife, Olive; a son, Alex, star athlete while at high school and now employed at the Twin Pines Dairy; three daughters, Florence, Violet and Helene, and a sister, Mrs. Agnes Rickett of Legg Branch, Wash.

## SIX VILLAGERS ENTER NEWS-TENNIS MATCH

Six Northville tennis players this week entered the Detroit News tournament that starts tomorrow. Matches, as arranged by K. J. Matheson, Plymouth recreation director, are as follows:

L. S. Eja versus N. Zutski of Plymouth; Marvin Schoutz versus B. Towle of Plymouth; Richard Spivey versus Chase Willett of Plymouth; John Slesoeken versus H. Anderson of Plymouth; Harry Cassie versus J. D. McLaren of Plymouth; and Fred Warner Neal versus T. Hall of Plymouth.

Thirty-nine men from Northville and Plymouth and 19 Plymouth women are entered in the tournament from this section. Matches will be played, starting at 1 p. m., Saturday, at the courts at Cass Benton and Riverside parks. Mr. Matheson said. He urged contestants to get in touch with their opponents immediately.

## RAISE BASS FOR LAKES AT FEDERAL HATCHERY

The United States fish hatchery here, the only federal hatchery in Michigan, prepared this week to raise 150,000 bass for lakes throughout the state. E. R. Widmyer, superintendent, announced.

The hatchery recently completed its program of sending out 1,000,000 trout, Mr. Widmyer said. He has six assistants, three of whom are detailed to the Northville station.

## ATWOOD'S ISSUES WARNING ABOUT LICENSE PLATES

Use of automobile "stickers" or half-year permits will be illegal after midnight, July 31, and owners of motor vehicles in this state who expect to operate them after that time must equip them with 1936 license plates before then.

Orrville E. Atwood, Secretary of State, points out that he is permitted no latitude, discretion nor power of extension and that only express authorization of the state legislature—not new in session—could delay or change this deadline.

On July 15 a total of 448,084 stickers had been sold by the Department of State.

## HOSPITAL BUILDS NEW NURSERY READY THIS FALL

Miss Fennell Says Modern Bathing Apparatus Will Be Installed

Sitting on a large box in the basement of Sessions hospital, Superintendent Irene Fennell talked Monday afternoon about the addition which is being built on the second floor. "It's to be a place for babies and mothers," she said, as she pointed away at a white night table, part of the equipment which is being made ready for the new ward.

"It will be the first of September before the ward is completed; all the furniture painted; four new beds and a delivery table installed," she affirmed. All the babies' cribs are to be painted white. A new bathing apparatus for infants, which has already found favor in large hospitals, is to be used in the new addition.

By placing the nursery and the maternity ward at the back of the building, Miss Fennell pointed out, space will be made for four extra private rooms, making a place for about 20 patients.

Last year the hospital doubled its capacity by remodeling the first floor of the building into two private rooms and two wards. This was the first change made in the hospital since it opened some 15 years ago.

When asked if the addition of a new ward would mean that the staff would be enlarged, Miss Fennell said that more nurses would probably be needed. "It all depends upon the number of patients we have at one time."

## ELY SAYS PENINSULA CONDITIONS ARE BAD

At the meeting of the Exchange club Wednesday noon President C. R. Ely gave an interesting talk regarding his recent visit to the Gaspere peninsula and a number of points in Canada. He showed several views of public buildings in Ottawa and Quebec and other cities visited. In the towns and cities on the peninsula he said the condition of the people seemed to be deplorable. Employment was scarce, and wages very low.

The members of the club are planning for ladies' night at their next meeting and they may decide to go to Old Club in Lake Saint Clair if satisfactory arrangements can be made.

## Frenchman Makes Tour of Rural America—Declares France Is No More Radical Than United States

Fascism, not communism, is the danger in France today, in the opinion of M. Rene Tremont, a special envoy of the French government who stopped in Northville Sunday en route across the continent.

Monsieur Tremont declared that France is "no more radical than the United States" and charged that the Hearst press and other American newspapers are "taking advantage of the strikes in my country to fool you people into believing we are in the hands of reds."

Monsieur Tremont explained that while France has a socialist premier, Leon Blum, the government is really a coalition of several parties on the left. He is himself a member of the radical-socialist party, which, as he explained, is neither radical nor socialist but corresponds to the Democrats' party in the United States.

The industrial situation in France, Monsieur Tremont admitted, "is not as good as it could be. France has been hit hard by the world wide depression," he explained, "and we are now being plagued with strikes." In his opinion, many of the strikes are justified, "because of the condition of the workers."

"The danger from fascism lies in

## COUNTY ROAD MEN NEAR JOB DEADLINE DATE

### Pavement Must "Season" 28 Days After Last Cement Is Poured

With a crew of 50 men at work, the job of widening and lifting Northville's Main street is nearing its completion deadline.

It is expected that all cement pouring for the pavement will be completed by Saturday. The sidewalk crew was on the job Wednesday to clear away loose stones so that re-cementing can be done before the end of the week. By narrowing the sidewalks 22-inches on both sides of Main street, the street is being widened to accommodate traffic through four lanes.

The lifting of Main street has necessitated a pavement adjustment on North Center street as far as the alley. On the east side, of North Center street, the sidewalk is being narrowed as far as the Louis store. No changes are to be made on this street, through to Dunlap street, at this time.

County engineers reported Monday that their work had been held up several hours while waiting for the Edison company to finish its job.

According to John Norton, Wayne county engineering advisor, if there are no further delays, workmen will have the pavement job completed well within the three-week deadline promised councilmen at the outset.

"We'll have to let the pavement 'season' for 28 days after the last cement is poured. If we open the street a day earlier, trucks with their heavy loads may do permanent damage to the cement," said Mr. Norton.

Councilmen discussing the proposed street celebration at the council Monday evening, concluded that no date for a gala opening of the street to traffic could be made earlier than Aug. 20.

## CHRISTIAN REWARD WHITFIELD'S TOPIC

The concept of reward for Christian living has its place, but it must be subordinate to love of God, the Rev. Harold G. Whitfield told a union congregation of Methodists and Presbyterians Sunday in the Methodist church.

A truly Christian does not put the reward idea first, Mr. Whitfield said. Instead, he declared, quoting from Paul, love of God is the highest thing in Christian living; and it must be put forward over reward. "But nevertheless," he added, reward should rightly figure as a part of the incentive for living righteously and doing good by encouraging man to love God.

The last of the union services in the Methodist church will be held at 10 a. m. this Sunday, with Mr. Whitfield in the pulpit. Then for the four following Sundays, services will be held in the Presbyterian church, with the Rev. Harry J. Lord in charge.

## SLASHED TELEPHONE RATES ARE BENEFIT IN FARM SECTION

Northville's monthly telephone rate will not be changed by the recent ruling of the public utilities commission, generally lowering all Michigan Bell Telephone charges throughout the state, information given out this week by the company.

The changes will lower the charge for the first 18 months after installation and reduce the cost of installing, moving and changing telephones.

The changes become officially effective July 26, although the reduction in cost of changing and installing has been given since July 11, the telephone company said.

Officials of the company confessed that they did not know exactly how the new set-up will affect their business here. Roy E. Crowe of Plymouth, telephone company business manager, although not able to give out exact information, predicted that the rate changes will make little difference in Northville.

The specific rate changes follow:

1. Rural lines, the charge for up-right or desk type of telephone reduced from 25 cents a month to 19 cents and will be eliminated entirely after 18 months.
2. Charge for hand telephone reduced from 25 cents a month to 15 cents, except on rural lines where it remains at 25 cents, to be eliminated entirely, as at present, after 18 months service.
3. General reductions in the charge of installing, moving and changing types of telephone. For instance, charge for installing a business telephone where there is no instrument already in place is \$2.50; for residence telephone where there is no instrument already, \$1.50.
4. Charges for rural multiparty service beyond six miles from the base rate area reduced; monthly rates for other residential and business service unchanged except that four party business service is discontinued and two party business service furnished at former four party business rate.

## Northville Citizens Voice Strong Protest In Coroners' Action

### Two Tragic Northville and Plymouth Deaths Cause Flare Up Against Practice of Taking Bodies to Detroit

Protest at the Wayne county coroners' insistence of taking bodies of persons killed in accidents to Detroit and exhuming them, for no apparent reason, flared up here this week.

Agitation against the practice, previously denounced by Northville citizens and others throughout outer Wayne county, was raised this time by the coroners' action in the case of Alex H. Johnson's death. The body of Mr. Johnson was taken from the Schrader funeral home to Detroit, and an autopsy performed and it was left for the Schrader hearse to come after and bring back.

Ray J. Casterline, manager of Schrader Brothers, said he saw "no excuse for the action." If an autopsy is necessary, Mr. Casterline said, it can be performed in the undertaking establishment here.

The state law says that a body cannot be moved from the scene of the accident or murder without the coroners' permission. Thus, it frequently happens, as it did in Plymouth last week, that the body of a man who was killed in an obviously accidental death, must lie for three hours in the hot sun until the county official is able to investigate.

The coroners are paid a fee for each case which they attend. Wayne county coroners are given responsibility of preventing during the last session of the legislature passage of a bill which would have permitted immediate removal of a body from the scene of an accident.

Last winter, the coroner insisted on taking the body of Mrs. Fred

(Continued on Page Four)

## BEHREND SENDS NEPHEW TO PINCH. HIT AT MEETING

Neither Sheriff Henry Behrend nor Probate Judge George Monaghan attended the Tuesday meeting of the Young Republican club, as announced, but the sheriff did send his nephew and his nephew, Milton Behrend.

More than 50 persons heard Mr. Behrend assail the New Deal and charge that President Roosevelt is a "traitor." Predicting an "unforgettable Republican triumph" in November, he declared that workers are working today "in spite of reds" rather than because of the so-called New Deal.

Mr. Behrend hailed the county Republican candidates as "excellent" and asserted that "most of the present democratic county officials did in with the landslide, previous to which they were unknown, or rejected republican candidates." He urged the re-nomination of his uncle, Sheriff Behrend.

Dr. L. W. Snow, president of the club, said the club must do all in its power "to combat the New Deal" which he termed "a lot of foolish experiments."

## POST OFFICE DOES TOP BUSINESS THIS YEAR, SAYS VAN ATTA

The United States post office here did the best business during the past year of any in its history, Postmaster Fred H. Van Atta announced this week. The federal government fiscal year ended June 30.

The annual report showing substantial gains in all departments over figures of a year ago, indicates that "Northville has kept pace with continued better business conditions throughout the country." Last year's fiscal statement showed more business than any previous year.

Greatest increase was shown in stamp sales, which during the past year reached \$18,001.35, a 14 1/2 per cent increase. Pointing out that stamp sales are a vital factor in determining the amount of help necessary, Mr. Van Atta praised Northville mailers for their "buy at home" spirit with regard to postage.

The money order department shows that Northville people sent \$38,000 more than a year ago, and \$52,570 more than in the fiscal year 1934. The total value of money orders issued from this office reaches \$202,846.68. This figure, according to the postmaster, although it does not equal the all-time high of 1932 and 1933, when banking facilities were had, indicates nevertheless that "this section is enjoying better times."

Northville received \$35,632.19 in the mails the past year, an increase of \$4,400 or 14 per cent over a year ago, the report stated. The gain in issued money orders was 25 per cent, the postmaster said, and will gain in incoming cash, 23 per cent.

"Twenty-five per cent more value of mail was registered here than a year ago, according to the fiscal statement, and the number of insured parcels increased 37 per cent. The public attitude of 'better off safe than sorry,' accounts for this increase, Mr. Van Atta said.

The postal savings and baby bonds both continued their popularity with the public, the report indicated. The postal savings accounts show a balance of about \$150,000, and nearly 250,000 in bonds have been sold since March 1, 1935, the postmaster stated.

## THREE ALARMS AROUSE FIRE FIGHTERS HERE

### Farm House Tenanted by E. A. Davinson Burns to Ground Friday

If there are two fire alarms in one day, then there will be a third, so believe all fire fighters. After answering two calls here Friday morning, July 17, firemen waited at the station for the third call, which, sure enough, came shortly after 1 p. m.

The big fire of the day occurred a few minutes before noon, when the two-story Albert Tobin farm home, Five Mile and Chub roads, tenanted by E. A. Davinson burned to the ground. This fire truck arrived at the scene late having first answered a call at the Ray Westfall home, 436 Butler street, where an alarm had been placed by a neighbor who mistook smoke from a fumigating outfit for a fire.

Northville's fire department, working with the Salem firemen in trying to salvage the Tobin home. As the flames had made such headway before the firemen appeared, nothing could be done to save the building itself. A successful fight was immediately started to keep the blaze from spreading to the barns and live stock.

An estimate of the loss of the burned house has been placed at approximately \$1,000. It is not known whether or not insurance covered the loss. Furniture in the first floor rooms was taken out of the burning building before it was damaged.

The third fire Friday was a roof blaze at the Morse Dairy, 426 North Center street, which was quickly extinguished. Approximately \$15 worth of damage was done.

## YOUNG RIDERS PAINT-UP FOR HORSE EVENTS

Junior Promoters Talk for Press—They Are Ready For Real Show

Nancy McLoughlin slapped her paint brush to the rail around the horse show ring at the fair grounds, slushing it plentifully on her dress, bare legs and old shoes.

"The junior horse show," she remarked, looking her head and moving her work with the eye of an artist, "is going to be better this year than ever before."

Four other would-be painters, Betty Schrader, Kendall Willis, Kathryn Marburger and Norman Campbell—agreed with her on this point as they worked through the hot sun Monday to spruce the paddock. And later Scott Cole dropped around and lent a hand with the painting until the paint-drops, like a Marburger sky turned the sky green again, and a wind forced him to stop.

All this to give you an idea of how hard these junior riders are (Continued on Page Four)

## FOREMAN RETURNS TO ROTARY CLUB

Fred Foreman was taken into the Rotary club Tuesday after an absence of more than a year.

The official welcome of the club which was in progress at the Meadowbrook golf club, was extended by Edward H. Latham in reply. Mr. Foreman declared that it is an honor for him again to be counted as one of the Rotary club and to associate with such a fine group of men as we have here in Northville.

Clipping the "spirit of sympathy and universal helpfulness" in the Buddhist religion, Mr. Foreman said the Rotary club has the same spirit, and any organization like that is bound to grow.

After their luncheon the Rotarians played a round of golf.

E. L. Mills introduced as his guest John Hamilton of the Detroit Edison company office at Howell.

After spending weeks and weeks constructing a racer for the annual Soap Box Derby elimination tryouts held Tuesday in Detroit, Kendall Willis, son of Dr. and Mrs. H. S. Willis, won a baseball bat when he placed second in Class B.

## PAINTING BY YOUNG ARTIST HAS MARKET

Charles D. Urbary, son of Mr. and Mrs. Rev. B. Deary of Highland Park formerly of Northville, has received recognition as an artist. A reproduction of one of his paintings appeared recently in the Detroit News art section. The picture was accompanied by an interesting write up.

His unexpected success is a surprise to Charles who had turned his attention to painting because he was unable to go to the university this year. "It's an all right and that blows me no more, no good," says his mother.

An additional satisfaction came to the young artist when one of his paintings was sold the other day.

Charles attended Northville high school until the family moved to Highland Park a few years ago. He was an outstanding athlete in high school.

## Northville's Main Street Opening Is Occasion for Ribbon Cutting and Band Music—Plan Community Dance

Northville is soon to have a real community celebration.

It is too early to determine the exact date, but if you watch and wait you will soon be informed, because the "welcome" sign will be unfurled so all may plan to be present. The occasion for the big night will be, of course, the opening of Northville's new pavement to traffic, and if you are not present, you will never be the same to you in the future.

This will be a big event in Northville's history and future progress, and the public will be invited to participate. Old and young will want to be on the "side lines" when the music starts, and when the ribbons are "cut" to permit traffic to pass over our streets again.

At a meeting of the village committee on Monday night a committee was appointed by Dr. H. H. Burkart, village president, consisting of Commissioners Floyd Shaffer, Elmer Perrin and John Perkins, who will confer with the citizens regarding the celebration. Just what the program will be has not been definitely decided, but it is safe to declare that the big event will be a fire street dance on the new pavement on Main Street.

## CARDS NOT O. K. HOLD-UP WORK ON SCHOOL HERE

C. A. Baldwin, construction supervisor for the H. B. Culbertson company of Detroit, was on the job Thursday morning, trying to get PWA assignments approved so that work on Northville's \$35,000.00 grade school could go forward.

"Right now I need six laborers and four carpenters. They're over there sitting on the lumber ready to go to work, but I can't get assignment cards changed in the Detroit office. They're told us to go ahead with construction, but with men not properly signed up, I can't do anything about it," said Supervisor Baldwin.

A PWA employment agent was in the village Monday to register skilled and unskilled laborers for the project. Laborers seeking construction work had to report later during the week to the Detroit office.

## BARR ACCEPTS CONTRACT FOR SCHOOL COACH

### Director Resigns Position at Thompsonville Where He Taught Two Years

Elford Barr of Shepherd has signed a contract for the coaching position in Northville's high school.

Mr. Barr resigned from the Thompsonville teaching staff, where he has taught for the past two years, to become a member of the local faculty. In Thompsonville, Mr. Barr taught junior and high school subjects in addition to his coaching duties.

Although Superintendent R. H. Amerman has not completed his staff assignments for the coming year, it is certain that Mr. Barr will instruct two classes of boys' physical education, teach physics and coach all high school athletics.

Mr. Barr holds a B. S. degree from the Central State Teachers' college, Mount Pleasant, where he specialized in physics and was active in all four major sports on the campus—baseball, football, basketball and track.

Replacing former Coach Ted Watts, Mr. Barr comes highly recommended to take over the job of whipping into shape a football squad for the first fall games. Digger Jet is his task of molding a basketball team into a fast-playing unit to hold Northville's standing in the league and regional divisions.

The Watsons closed the basketball season in a blaze of glory, losing only one league game, that to McVintydale, and winning the district trophy for the second consecutive year. The team fought its way on to the regional meet, where they were placed by the Roosevelt Daves from Ypsilanti, a team defeated by Northville in the district finals.

Graduation has taken four of the star basketball notes—Thomas Grayson, Jack James, Robert Lyle and Charles Strautz. This leaves four first team men around which to build a new squad. George Woodruff, Cliff Bishop, James Woodruff and Henry Dunlap.

The second team, which have finished last year of brilliancy, will double its first place on the first team when the season starts in the fall.

## SCOUTS HAVE TRUCK FOR ANNUAL OUTING

Perma-Mahrie, Inc., local Ford dealer, have supplied a truck to take Northville's Boy Scouts on their annual camping trip to East Green, Scout Executive Orlov G. Owen announced Wednesday night.

Mr. Owen said he thought from 12 to 15 boys would make the trip Aug. 2. They will be accompanied by Harold White and Harper Britten.

Arrangements may be made for non-scouts 12 years old and over to make the trip for \$5. Mr. Owen said he also requested the loan of wall tents for the trip. The scouts are meeting every Thursday night at the Legion Headquarters on East Main street to plan for the outing.

## JULY INDOOR BALL LEAGUE SCHEDULE

Friday, July 24  
Owen vs. Maybury  
Monday, July 27  
Reinze & Mahrie vs. Ford  
Tuesday, July 28  
Edison vs. Johnson  
Wednesday, July 29  
Reinze & Mahrie vs. Maybury  
Thursday, July 30  
Ford vs. Johnson  
Friday, July 31  
Owen vs. Edison

## HIGHLAND PARK MAN DIES WHILE RIDING IN AUTO

Funeral services will be held at 2 p. m. today from the Schrader Brothers funeral parlors for George Burton Brink of Highland Park, 57 years old, who died at 8 a. m. Wednesday as he was driving in Detroit with his chauffeur.

He was a brother of Mrs. D. F. VanHorn and Mrs. W. A. Ely of the village.

According to Mrs. Margaret Hollis there will be no more Royal Neighbors meetings until September.

## Fire of Unknown Origin Destroyed the Grain Barn on Allen A. Horton's Farm, Penniman Avenue and Beck Roads at 9 p. m. Tuesday. Fire- mouth firemen kept the flames from spreading to the house and other buildings. Besides the loss of the barn, some grain and hay were damaged.

An item of needed repairs to the roof of the Methodist church, church house and parsonage is being attended to this week. H. H. Wilcox, contractor of Detroit, is handling the job.

Northville, Michigan, July 24, 1936

THE SHORTENING DAYS

Time marches on its relentless course here in Northville. Pioneers at Cass-Benton park are packing up their lunch baskets a little earlier than they did two weeks ago. The longest day of the year is back of us by a month and darkness comes on a little sooner. Soon will the thousands be here for the Northville fair—then the school bell, then Thanksgiving, then the snow and cold and folks will be starting for Florida and California. Verily time flies. A good time now to put in the winter's coal. The frost will soon be on the pumpkin.

ALEX. H. JOHNSON

The tragic death of Alex. H. Johnson removes from our community one who had helped build Northville. The homes and business places he constructed were well built. We of The Record office knew him well for he was the contractor who put up the Neal building which houses the home newspaper in Northville.

Because the writer was associated with him for weeks as the building went up, we came to know the big heart of this man, who was born overseas, and who came to the United States and found a place of opportunity for himself and family. "The big Swede" was big of body and big in generosity. Just a few weeks ago we called him to come and repair the lock of the office front door and not a cent would he take. When the depression took away his extensive business he came to know the grief and burden that had fallen on other untold thousands and millions. But he worked on and planned to fight his way back. For others in trouble he always had the deepest sympathy. We had always had the finest respect for the splendid way in which he remained loyal to his family. In the overwhelming sorrow that has crushed them, the widow, son and three daughters have the deepest sympathy of all.

FIVE MEALS A DAY ARE RECOMMENDED

If you have been missing your breakfast you have been cutting down your efficiency about 50 percent. So say some scientists at Yale university after experiments carried on with factory workers. After all their studies they say "Eat five meals a day, if need be, because when you feel tired you're not weary but hungry."

This advice goes against all that most of us have been taught about eating "between meals." Yet five meals a day is well known in England and on the continent. The studies of the Yale doctors show that on five meals a day a worker gets seven hours of high muscular efficiency; on three meals, about four, and on two meals, a little more than two.

"Bring on the grub." Three regular meals and two helpings at "service" We all want to be efficient.

FATHER COUGHLIN AND HIS CONSISTENCY

At the Cleveland convention of the followers of D. Townsend, the incoherence of Father Chas. E. Coughlin in his political stands was startlingly brought forth by Norman Thomas, leader of the socialist party. Thomas had the courage to tell the Townsends to their faces that he felt that their plan to give the \$200 a month pensions to folks over 60 would not work. Then when they "boomed" him he shouted to them this challenge:

"Coughlin talked to you and you cheered him to the echo. But to my knowledge he never took back the statement that he made that your Townsend Plan was 'economic insanity.' Why don't you ask him that?"

It does not seem hard for the silver-tongued radio leader to get on both sides of the question. It was only a few short years ago that he told the American people that it was "Roosevelt or ruin." Now he is so bitter at our president that at the Townsend convention he called Roosevelt a "liar" and "traitor." No matter what our party, these are not words that should be applied to our president. If his promises have been broken—and many think they have been—we can disagree with him without resort to language so vitriolic.

There is a difference of opinion as to the effect of Father Coughlin's strong words. In an article headed: "Coughlin Censured by Bishop," The Detroit News quotes the Most Rev. Michael J. Gallagher, bishop of Detroit, as saying, just before he sailed for a trip to the Vatican, that his language was a "little too strong" although he refused to rebuke him. Former governor, Alex. J. Groesbeck, says that Coughlin's speech made Roosevelt votes. Yet the seasoned correspondents who covered the Townsend meeting said that the Coughlin following—much of it is Protestant—is very apt to stay with him in his antagonism to the administration. Certainly the Roosevelt leaders are as anxious as to the result of the Coughlin-Lemke combination. It will probably cost the demagogue thousands of votes more than it takes from

CONCRETE CAN CERTAINLY TAKE IT

We saw last week, right on Main and Center streets, the finest illustration in our experience that "concrete can take it."

The dictionary says that "Concrete is a mixture of sand, gravel, pebbles, etc., mixed with cement or with tar, to make a sidewalk or roadway, etc." All of the sidewalks and most highways around Northville are made of concrete. Most of us walk and ride miles on them nearly every day of our lives. We probably give little thought to the remarkable durability and courage of concrete. Great trucks, built like trains, ride smoothly over our concrete roads; and flying automobiles, going like comets, glide sweetly over these same concrete highways. We think little of the sturdiness and the smoothness that are under our feet and our automobile wheels. Our use of concrete is "all in the day's work."

During these past two weeks we have been seeing, in the Northville business section, the enduring character of our daily friend, concrete. Modern machines tore up our pavements, to make way for the new ones that will give us wider business streets. Concrete laughs at everything except dynamite and these machines just mentioned.

Drills, driven by compressed air, and operated by big, muscular men, were used to break up parts of the concrete that had to be taken up. These drills would go through the side of a mountain if you kept them going long enough. Then a big machine dropped—and banged—a heavy weight onto the concrete and broke it up, little by little, into masses that could be carried away in the big trucks. The energy that went into breaking up these few blocks of our business streets was simply stupendous. Probably few of us before we watched these street operations realized what an enduring thing is concrete. If you ever lay down some concrete that will ever have to be taken up, just remember that "concrete can take it" and resists to the bitter end any removal from the spot where it has been placed by the hands of man.

NORTHVILLE'S YESTERDAYS

1 YEAR AGO

Mrs. Charles F. Murphy was unanimously endorsed for state vice president of the American Legion. Auxiliary at the joint meeting of the seventeenth district Legion and auxiliary at the joint meeting of the seventeenth district Legion and auxiliary held Wednesday evening in Northville.

With temperatures fairly surging over 80 degrees above zero, Northville has been experiencing during the past week in the highly humid air.

True to their word the Wayne county road commission began the job Monday morning of beautifying the Plymouth avenue park.

Excavation for Northville's new Ford factory, which was supposed to have begun a week ago, started yesterday.

Friends of Harry H. White will be glad to hear the report that his condition which was quite serious for a few days following a major operation in the University hospital, is much improved.

Crosses which averaged at more than 100 people cheered the finale in the Recreation League football games at the high school. Around this week, as some of the best football games of the year were played, the Oaons continued their steady climb by shipping eight infants, 3-1, Thursday.

5 YEARS AGO

Old Man Depression is going to take it on the chin Thursday, July 30, 1931, when Northville's Twentieth Anniversary celebration will treat everyone to three solid hours of entertainment without any cost to those participating or to the businessmen.

Declared Mayor Harry S. German before the village council Monday night. Events scheduled are: Horse racing, both trotting and pacing, at the Fair Grounds; a baseball game between those natural rivals, Harry German's Chiefs, a team which has built an enviable reputation as a hard-hitting, sure-fielding aggregation, and Harry Wolfe's West Point Park team which was barely pipped out of the Class AAA Sandlot championship in Detroit.

John R. Kestell, M. D., Ph. C., a well known figure in Northville, died Sunday, July 19, at the University Hospital after years of declining health.

A hard-headed local businessman was heard to say on the street lately: "This pajama business is being carried too far. There's a place for all things—pajamas are all right for lounging around in private but for parading around the streets they look silly. If a mature woman (we can excuse the kiddies) thinks she looks cute in the floppy things she ought to hear what the men say."

A son was born to Mr. and Mrs. Frank Gabriel on Linden Ave., on Saturday evening, July 13.

10 YEARS AGO

There was a good sized crowd present at the auction sale of the old village building Monday afternoon. President Elmer Smith stated the terms and conditions of sale and George Rathbun of Walled Lake conducted the sale. The first bid received was \$700 a foot and the bidding continued until \$250 was bid by E. C. Langfield, and he was

the purchaser of the property. Upwards of 25 members of the Wayne Rotary Club visited the Northville club on Monday and they were truly "the life of the party."

20 YEARS AGO

Northville's community Chautauqua which will close this evening leaves the townspeople well satisfied with the five days' entertainment.

A quiet wedding occurred at the home of Mr. and Mrs. W. D. Killett on Wednesday evening, July 26, when their daughter, Hazel, was united in marriage to Mr. Howard Stewart, both of this place.

An unusually aggravated case of sheep-killing by dogs took place last week on the Wallin farm, west of town, now owned by Ralph Diserens of Fort Wayne, Ind. The farm is tenanted by Frank Hendry, and as a result of the two raids on his fine flock, 26 valuable sheep were killed outright and nine more so badly bitten that it is doubtful if any of them can be saved.

At the request of President Killett and members of the council, Sheriff Milton R. Oakman has appointed village marshal Ernest Lyke as an additional deputy sheriff for Northville. The appointment does not in any way affect Mr. Perrin who is also a deputy sheriff and continues to hold that office. Mr. Lyke served three years in the U. S. Army and has an honorable discharge from the government.

30 YEARS AGO

In carrying out its intention of publishing at intervals sketches of the prominent citizens of Northville and vicinity, The Record has chosen this week a well known Northville resident, Charles Yerkes, who although his home is "over the hill" from our village and county, is to all intents and purposes a Northvillian. He and his family are valued members of our community and he is one of the considerable property owners here.

Ralph Horton held the record for catching the biggest fish at Cooley Lake last week, hooking one 31 inches in length and another 24 inches.

Northville has a second lady chauffeur in the person of Mrs. R. C. Yerkes who has very quickly learned to handle the auto with great skill.

Ray Bogart was quite badly hurt last week when the team he was driving started unexpectedly and threw him from the seat of a motor machine upon the machinery. Fortunately the machine was not in gear or his injuries might have been much more serious than they are.

Northville's well known dentist, Dr. J. H. Hoar, was united in marriage last week to Miss Rose Dickerson, formerly of this place. They will continue to reside here.

REDUCED TELEPHONE RATES

EFFECTIVE ON THE DATES SHOWN BELOW

By order of the Michigan Public Utilities Commission, dated July 1, reductions are made in certain telephone rates and charges in the Northville exchange.

On rural lines the charge for the upright or desk type telephone is reduced from 25 cents a month to 10 cents, and will be eliminated entirely after the customer has had that type of telephone in service continually for 18 months.

The charge for the hand telephone is reduced from 25 cents a month to 15 cents, except on rural lines where it remains at 25 cents, and will be eliminated entirely, as at present, after the customer has had that type of telephone in service continuously for 18 months.

The above reductions will be effective in the case of present customers on July 26.

Reductions also are made in the charges for installing and moving telephones, and for changing the type of telephone instrument. For instance, the charge for installing a business telephone where there is no instrument already in place, is \$2.50; for a residence telephone where there is no instrument already in place, it is \$1.50. These reductions became effective Saturday, July 11.

Effective July 26, charges for rural multiparty service beyond six miles from the base rate area are reduced. Monthly rates for other residential and business service are unchanged except that the four party business service is discontinued, and two party business service will be furnished at the former four party business rate.

Telephone service now represents greater value than ever before. To place an order, or to obtain further information, call, visit or write the Telephone Business Office. Installation will be made promptly.

THE LAW OF KINDNESS

In solemn silence that squad of hockey football players stood in reverence at the last rites of their departed friend.

Boys and girls so games in other towns.

It was genuine interest springing from loyalty. Conscious of this interest in them, many a Northville boy has gone to this motherly woman with his problems in confidence knowing that she was ready to listen and judge with fairness tempered by the "law of kindness."

A MYSTERY STORY WITH A MORAL

"Where is the Pied Piper, who led the pie?" That is the question that has been asked a number of times this week and with great apprehension by members of The Record force.

THOUSANDS ENTER ROAD-MILEAGE TEST

One million two hundred thousand motorists have joined Standard Oil's mileage test in 14 states. It was announced today by Edward G. Seibert, president of Standard Oil company of Indiana.

WHAT OTHER EDITORS ARE THINKING ABOUT

"WHERE IS MY WANDERING GIRL" (W. H. Berkeley in Cassopolis, Michigan.) A popular song of some years ago was "Oh, where is my wandering boy tonight?"

AGREEMENT PAYMENT PROGRAM RELEASED

The average rates of payments that will be made to farmers in Wayne county for diverting acreage from the general soil-depleting crops to soil-conserving crops or uses under the 1936 Agricultural Conservation Program will be \$11.90 an acre, according to a report received by Abner E. Larned, State Director of the National Emergency Council for Michigan.

Raspberry Jam

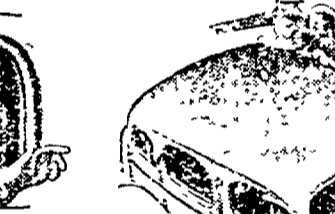

Mrs. E. C. Hinkley makes this raspberry jam which is delicious and very easy to make. Two quarts of raspberries. Pour boiling water over and let stand 3 minutes. Drain and throw away water.

You need all these modern features to get complete motoring satisfaction

You need NEW PERFECTED HYDRAULIC BRAKES for your own safety and the safety of others, under today's driving conditions.

You need a SOLID STEEL one-piece TURRET TOP for complete, logical protection, for modern cars styling, for all-season comfort.

You need KNEE-ACTION WHEELS for maximum safety as well as maximum riding comfort. They "step over" bumps and holes—eliminate car pitching and tossing—give all passengers a smooth, steady, level ride over all types of roads and at all engine speeds.

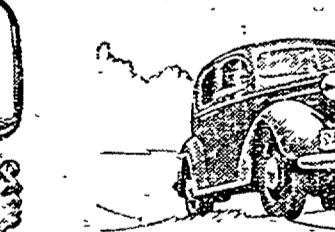

You need SHOCKPROOF STEERING for real driving ease on those long trips you are planning this summer. It eliminates steering wheel vibration—protects your hands and arms from constant shock—makes driving more nearly effortless than you ever thought it could be.

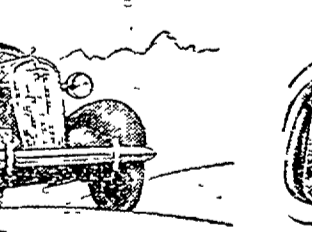

Chevrolet is the only low-priced car that has them all

You need GENUINE FISHER NO DRAFT VENTILATION for correct air circulation in all weather. It "scoops in" refreshing breezes on hot days—prevents drafts—eliminates clouding of the windshield—and gives each passenger individually controlled ventilation at a touch of the regulator.

You need a HIGH-COMPRESSION VALVE-IN-HEAD ENGINE for the finest combination of performance and economy. This sturdy Chevrolet valve-in-head engine excels in all-round action and gives economy without equal in a full-size car.

You need SHOCKPROOF STEERING for real driving ease on those long trips you are planning this summer. It eliminates steering wheel vibration—protects your hands and arms from constant shock—makes driving more nearly effortless than you ever thought it could be.

WHAT OTHER EDITORS ARE THINKING ABOUT

"WHERE IS MY WANDERING GIRL"

(W. H. Berkeley in Cassopolis, Michigan.)

A popular song of some years ago was "Oh, where is my wandering boy tonight?" but in these days parents could as well be singing "Oh, where is my wandering girl tonight?"

Around Pekin, Ill., two thousand men were hunting for a fourteen-year-old girl who had been out to dance at night, got drunk, and was left on the steps of her home at an early hour in the morning by her companions—five boys and a sixteen-year-old girl.

The modern combination of drinks and dance had its about the world thing that has happened to America in a generation and parents need to be on the alert if they save their children from the nickle-grabber, who run them if you are not sure where your girl is nights, you had better give sure.

HOONDOGLING DE LUXE

(Geo. H. Neal in The Orion Review.) Harry Hopkins, head of W. F. A., did not know where the nickname "Uncle Sam" originated, so he spent thousands upon thousands of dollars of relief money hiring men from Maine to California to solve what to him was a "100-year-old mystery."

After weeks of research the Federal Writers Project turned in a score of answers, all the same. The term originated in the brain of Samuel Wilson, who operated a slaughter-house at Troy, N. Y.

But this and related information could have been had by Mr. Hopkins any day if he had walked into any Washington book store, pummed down \$1 and asked for a copy of "Nuggets of Knowledge" written by George Stunson, Washington correspondent of the Hudson Post.

Harry preferred to spend thousands getting information that could have been had for \$1.00. Harry is like that.

LOSS FROM UNEMPLOYMENT

(Ray Corliss in The Parma News.) With the number of unemployed in the nation hovering around the 10 million mark over a period of approximately five years there is a tremendous loss of productive labor to the country which can never be replaced.

Every working day that a trained man is idle there is a loss to that man and to society. Time thus lost cannot be made up or replaced. And while millions of men have literally wasted years, thousands of buildings across the country have fallen apart from lack of paint, repair and needed attention. Thousands of homes have become antiquated from lack of "modernization."

NORTHVILLE WAYNE COUNTY FAIR

August 26-7-8-9, 1936

The officers, directors and many other people in this community are now putting forth every effort to make this year's Fair the best one of recent years, and the manner in which things are shaping themselves and the way everything looks now they will succeed.

THIS FAIR BELONGS TO THE PEOPLE OF WAYNE COUNTY and the cooperation of every citizen is solicited. Without their help the officers and directors cannot succeed. With their assistance we cannot fail.

PLAN YOUR EXHIBITS NOW—PREMIUMS OFFERED IN ALL DEPARTMENTS. Remember, this Fair has always paid its Premiums. So by helping to make the Fair a success you will be helping yourself.

WAYNE COUNTY CAN HAVE AND WILL HAVE WITH YOUR SUPPORT AS GOOD A FAIR AS ANY COUNTY FAIR IN THE STATE

All buildings are being repaired and being put in first-class condition for this year's Fair. Practically all exhibit space in the buildings is now contracted for.

You won't be disappointed in this year's Northville Wayne County Fair. The 1936 Premium books are now out. If you do not get one, the Fair Society will be glad to mail you one—Just drop us a card or call the secretary.

MORTGAGE SALE

Default having been made in the terms and conditions of a certain mortgage made by HARRY BESANT and MARY BESANT, his wife, of the City of Detroit, Michigan, mortgagors, to WILLIAM A. HAINES and CHRISTINA DODMAN HAINES, his wife, of the same place, mortgagees, dated the 26th day of February, A. D. 1927, and recorded in the office of the Register of Deeds for the County of Wayne and State of Michigan, on the 11th day of March, A. D. 1927, in Liber 1908 of Mortgages, on page 118, which mortgage there is assigned to the principal, interest and taxes, the sum of Twelve Hundred Forty-six and 07/100 (\$1246 07) Dollars. No suit or proceedings at law or in equity having been instituted to recover the debt secured by said mortgage or any part thereof, and now, therefore, by virtue of the power of sale contained in said mortgage, and pursuant to the provisions of the Statute of Michigan in such cases made and provided, notice is hereby given that on Wednesday, the 23rd day of August, A. D. 1936, at 12 o'clock Noon, Eastern Standard Time, said mortgage will be foreclosed by a sale at public vendue to the highest bidder at the southernly of Congress Street, entrance to the Wayne County Building, Detroit, Michigan (that being the building in which the Circuit Court for Wayne County, Michigan, is held), of the premises described in the mortgage, or so much thereof, as may be necessary to pay the amount due on said mortgage as aforesaid with six per cent interest thereon and all legal costs, charges and expenses, including the attorney fees allowed by law, and any sum or sums which may be paid by the undersigned mortgagee at or before said sale, necessary to protect its interest in the premises, which premises are described as follows: Premises situated in the Village of Northville, County of Wayne and State of Michigan, described as follows, to-wit: Commencing at the northwest corner of Lot seven in block six in said Village and running thence southeasterly along the line of said lot on Randolph Street one hundred and thirty feet, thence northerly along the east line of West Street one hundred twenty-four feet southerly from the said northwest corner of said lot seven, thence running westerly fifty-one feet and eight inches in the east line of West Street one hundred twenty-four feet southerly from the said northwest corner of said lot seven, thence running westerly fifty-one feet and eight inches to the east line of West Street one hundred twenty-four feet southerly from the said northwest corner of said lot seven, thence running westerly one hundred twenty-four feet to the place of beginning. Together with the hereunto and appurtenances, thereof.

GAME TRAILS

By GORDON W. MOFFITT

have a guide pick us up with a motor boat. We had been casting in strange waters since four in the afternoon. And, after a great deal of time spent in finding the proper grounds, we had finally succeeded in having some luck. First, a smallmouth bass struck our plug. He didn't seem to put up as good a fight as one his size should, but he landed him and reared for the stringer. Well, as usual, we had to forget something. This time it was the stringer. Not to be stumped tho', we fashioned one by doubling about 12 feet of fish line. This seemed to serve the purpose so we put Mr. Bass on it and tossed him over the side of the boat. By this time the lake had begun to calm down, so we moved into a sheltered cove just off a nice wood bed. About the first cast, Bob hooked a fair-sized pike, and without showing much fight, he too was reeled in and added to the stringer. Claude had been having trouble with his casting outfit. The rod was strange to him, and so was the reel. Back-lash after back-lash had been the result of his efforts. Finally, we added his reel for him and said, 'Try it now Claude, it should work all right.' 'Okay,' he replied, and swished a mighty cast toward the shore. But it wasn't okay, and the plug snapped backward in one of the worst back-lashes we had ever witnessed. And Claude began the usual routine of unmanaging the reel. The plug, a Heater, was bobbing gently in the water, when suddenly things began to happen. The water bubbles just behind the bobbing plug; a big pike struck, and bored his way toward the bottom. The reel bent, Claude shouted 'Whoop! Whoop!' and the fight was on. Finally, Claude with the aid of Buster hauled him into the boat. Bob had the stringer ready, and, with as proud a smile as Claude's, slipped the line through the pike's gills and eased him gently into the water. But the pike wasn't through yet. He gave a tremendous lunge; the home-made stringer snapped; and Mr. Pike, along with the other two fish, were as free as they were before they had hit our plugs. We all looked on helplessly as there was nothing else to do. We had had the sport of catching them anyway, and took complacence in the thought that they were unharmed and would be there for some other fishermen, some other day. 'Wisdom is the abstract of the past, but beauty is the promise of the future.'—O. W. Holmes.

OBITUARY

AGNES EVANS WHITE Mrs. George White, 89, was born Agnes Evans in Scotland. She came to this country with her parents when she was 15 years old, making her home in Detroit where she spent her girlhood days. She was united in marriage 44 years ago to Capt. William David Ruffet. They came to Northville to make their home in 1906. Captain Ruffet died here in 1917 at the old homestead on Fishery and Beck roads. A daughter, Mrs. Hazel Stewart, preceded Mrs. White in death in April, 1922. In 1929, Mrs. White was married to George White of Flint at the family home west of town, where her surviving daughter, Mrs. L. D. Stage and family of Grand Rapids, then lived. Mr. and Mrs. White lived in Flushing until last March, when they moved to Grand Rapids. Mrs. White died there at the home of her daughter, July 15. The funeral was held Saturday, July 18, from the Schrader Funeral parlors, with the Rev. H. G. Whitfield officiating. She is survived by her husband, George White, a daughter, Mrs. L. D. Stage, a grandson, William Jr., a granddaughter, Betty; all of Grand Rapids; a brother, David Evans of Detroit.

sored by the group. Contracts to build the sidewalk from the business section to the school have been let and the work will be completed before school starts in September.

"Firmness is a quality of the budding time of youth, prevalence of the harvest-time of old age."—Cicero.

THE OFFICE WASTEBASKET OF "WARNER WINCHELL" BY FRED WARNER KEAL

PEACE OR WAR. The editorials of the Detroit News are head and shoulders above any in Detroit and usually among the finest in the nation...

Speaking of Hitler's recent efforts to combine Austria-Hungary into a strong Germanic state, the News says the idea that Italy should look with favor on such action...

Certainly it looks that way on the surface. And if there were no more than the apparent facts, the News would be right in holding that Mussolini would not want a strong Germanic state on his east any more than Italy long ago desired the Hapsburg empire as a next-door neighbor.

But there may be other facts. Suppose it is true that a fascist state cannot exist without war, war to win wider markets and colonies (Italy really obtained neither in the Ethiopian wasteland) and to keep the mind of an oppressed populace off poverty and destitution.

Suppose these facts—and they really are the facts—and then what do you make out of the Locarno business? It seems entirely plausible that a Fascist alliance might be to the best interests of both Hitler and Mussolini, that neither might desire peace, and that the Locarno conference, instead of setting the stage for peace, as the News predicts, may really be setting the stage for war—Fascism versus the world.

Every sane person hopes the News is right, hopes that peace rather than war is in prospect. Certainly, as the News says in the same editorial, it will be a fine thing if Germany does come into a European-wide conference, for that will do much to do away with the Versailles Mistake and start cooperative action on a really cooperative basis.

But the facts force us to admit that fascism is a menace to world peace and to recognize it as such.

A RARE OPPORTUNITY

Wastebasket opinions are those of the Wastebasket, and no one else. Not that I wouldn't be glad to share them, but rather that somebody else might not want to be accused of having them.

Editor Baldwin and I, for all our political arguments get on pretty well. But it must be remembered that I am but an inexperienced and youthful idealist (I have been told) who favored Senator Borah for the presidency. And if you do not agree with what is said in the Wastebasket, for Heaven's sake don't stop me in the eye.

Now, if you'll pardon the personal pronoun for just a few more lines, bear with me. I am a Republican. So partly because my father was (just like I am a Methodist for the same reason) and partly because the Republicans around here have been in power so long all the good men know they must be one to get elected.

I am not a radical. Even though I am acquainted with communists in Ann Arbor (all 10 of them), the liberal boys over there regard me as something of a conservative plus—which I don't think I am. I am not even in favor of much of the New Deal—for reasons to be told later.

But still I am not sure I will vote for Governor London. All this, be warned, in preparation for what may or may not appear in the Wastebasket later. You see I have convinced myself that my vote is going to swing the election, and so I am preparing very carefully for the Big Day, Nov. 3.

INTER-COUNTY BALL LEAGUE SCHEDULE

Sunday, July 26 Garden City at Wyandotte. Plymouth Park at Ypsilanti. Ace of Clubs at Wayne. Inkster at Schrader-Haggerty. Highland Park at Cass Benton Park.

Every sane person hopes the News is right, hopes that peace rather than war is in prospect. Certainly, as the News says in the same editorial, it will be a fine thing if Germany does come into a European-wide conference, for that will do much to do away with the Versailles Mistake and start cooperative action on a really cooperative basis.

VILLAGE PROCEEDINGS

A regular meeting of the Village Commission was held at the Village Hall Monday evening, July 20, 1936.

THIS BUSINESS WORLD by Robert K. Doran

AMONG THE 58,401 DRUG STORES IN THE UNITED STATES, 3,483 OR 6% DO APPROXIMATELY ONE-THIRD OF THE TOTAL DRUG BUSINESS.
I PRAY THEE BONG BACK, A BONY LASS.
OVER HALF OF THE WORLD'S 33,000,000 TELEPHONES ARE IN THE UNITED STATES. ONE CAN ONLY ESTIMATE THE TREMENDOUS ROLE THE TELEPHONE PLAYS IN AMERICAN BUSINESS.
AMERICANS ABROAD IN 1934 SPENT \$314,000,000 FOREIGNERS SPENT ONLY \$23,000,000 IN THIS COUNTRY.

REA and MOORE, crossroads storekeepers in Indiana, found business going to the bad quite rapidly. As long as people weren't coming to them they'd go to the people! They spent \$70 fitting up an old truck with shelves and other gadgets to make its interior look like and do the work of a regular store.
During the first four months business quadrupled. The "traveling store" is on the road five and one-half days each week and covers territory within a 7-mile radius. Procedure: Truck drives into a farm yard, a flight of steps is lowered and Mrs. Farm Housewife walks right into the "store". She purchases and pays by cash or eggs or both. Some 15 miles a day are covered at a cost of around \$1.25 a day for gas and oil.

THE Patent Office in Washington has granted patents for hats that tip the wipers and for hats that shine in the dark.
Lucifer is used in fire extinguishers. Contains a froth-producing substance which tends to smother the fire.

is the "early days," a cigarette in place of a pipe or cigar, was regarded by the majority as a debase-ment of manhood. As for a cigarette between the lips of a woman, well, it was nothing short of being a badge of questionable character.
A "ainless dentistry" chair has been designed. Now the patient can turn the drill off and on. He can also control the bulb that administers the gas.
A Dallas drug store speeds forbidden orders by using a micro-rod to transmit them to the pharmacist.

Step 1. Peter 4.12-19, memory verse. Be thou faithful unto death and I will give thee a crown of life. Revelation 2:10.
There will be a cafeteria supper at 6 p. m. on Friday, July 24, in the church dining room. Mr. Alvin Waterman is in charge of the supper.
Boy Scouts attention: You are asked to meet at 2 p. m. on Saturday at the church. Wear your uniform and bring your bathing suits. Daily Vacation Bible School is scheduled to open at 1 p. m., Monday, July 27.

WORKING THE WELFARE (Swift Letters in the Means News)
There was a woman in Means who had a daughter teaching in the eastern part of the state and earning eighty dollars a month. The girl had no one dependent on her over there and she was able and willing to send sums of money back to Means to help support her unambitious family.
But the woman in Means was greedy and believes in getting all she can, so when the welfare was invented she worked it right and left. She went down to one of the village stores one morning and had someone telephone over to the welfare office in Hart that she needed a ton of coal sent over right away, right that afternoon, she must have it.

Church of Our Lady of Victory
The 7:30 Mass next Sunday, with all the prayers surrounding it, will be offered up for the intentions of the Ladies' Society. Members must be present and receive Holy Communion.
We remind the men of their July social evening to be held Thursday, July 30, at J. L. Taylor's home on Walled Lake shores. Please make arrangements for transportation at church next Sunday.
For a liberal is modern liberalism, especially the foreign kind, that exemplifies it with savage dictatorship, with a most annoying and terrifying spy system, concentration camps and death for all who claim the liberty to disagree. Always is the church its first victim, since the church, if correctly studied and understood, is the exponent of an opposing and tolerant liberalism.
Christian Science Churches
"Truth" will be the subject of the Lesson-sermon in all Christian Science churches throughout the world on Sunday, July 26.
Among the Bible citations is this passage (John 8:31, 32): "Then said Jesus to those Jews which believed on him, If ye continue in my word, then are ye my disciples indeed; and ye shall know the truth, and the truth shall make you free."
Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 183): "Truth casts out all evils and materialistic methods with the actual spiritual law—the law which gives sight to the blind, hearing to the deaf, voice to the dumb, feet to the lame."
Salem Federated Church
On Sunday morning, July 26, our pastor plans to speak on the subject, "Lost."
"Christianity Spread by Persecution" is the theme for the Bible classes at 11:45 a. m. Read Acts 7

SAYS THE NATION SINNED (E. O. Gildart in The Utica Sentinel)
This country got along swell under prohibition—bumper crops, high wages, plenty to do; even the weather behaved.
But we lost our heads, got foolish, waited like Jeshurun and ticked, along came the depression to warn us of our wrong-doing—only to make us more stubborn. We threw restraints to the winds, tossed every time-tried tradition overboard, including the conviction that our fathers had handed down to us that the liquor traffic was dead wrong.
Christian people, powerless to stop the Hearsay-inspired flood, could only shake their heads and dread the future. We took the booze, snatched our bosoms, burned up our crops, slaughtered our food animals, corrected Providence with a program of scarcity.
Now look what we've been getting in 1936. We used to spring gladly at the relief of other nations overtaken with disaster. Now with five million starving in China, we make no more to help the suffering of other lands—we've nothing extra to give them. Did ever a nation sin as we have sinned—against our light? Many devout people believe that the extreme weather of this year has been just a light penalty—the tithe of what we deserve at the hand of the Almighty.

THAT'S ANOTHER STORY (Imperial Magazine)
True story: A member of President Roosevelt's cabinet was having his face shaved and the barber, knowing his identity, said he would like to have his help in getting permission for his relatives in Italy to enter the United States.
He said there were a dozen who wanted to come, but that the quota was an insurmountable obstacle.
"I think I can fix it," parried the secretary. "You know lots of Italians in Washington who are proud of Mussolini and Italy and who are unemployed and disgruntled with conditions here. They are probably eager to get back to Italy. You arrange for them to get back and I will see that proper papers are issued so that your relatives can take their places."
"Oh, but they wouldn't go back to Italy," exclaimed the barber.
"Why not?" asked the secretary.
"You don't understand," said the barber. "They may complain, but they know that this is the best country in the world. People in Italy know it, too. A fourth of the population would move here if you would let them in."
This may be true of other nationalities in Europe also.

Act nothing in furious passion; it's putting to sea in a storm." Thomas Fuller.
Congress won't do anything about birth control. Conversely, it's too late for birth control to do anything about Congress.

CHURCH NEWS - UNION SERVICE - Methodist-Presbyterian Churches - Harold G. Whitfield Minister. The union service will be held at 10 a. m., July 26, in the Methodist Church. The Church School will meet at 11:15 a. m. You are asked to cooperate, especially in the Church School. Teachers and pupils are asked to be on time. The Methodists will kindly bear in mind the matter of the dedication of their church. It is urged that they indicate the amount they are willing to give for this work. Contributions can be made now. They are asked to indicate when they can help, so that the committee in charge may be governed in determining the extent of the work. One dollar a square yard is the estimated cost.

CARD OF THANKS - We wish to express our sincere gratitude to our friends who comforted us with acts and expressions of kindness at the time of the loss of our loved one. JAMES B. WATTS, TED WATTS, RAYMOND WATTS

CARD OF THANKS - We wish to thank our friends who comforted us in our bereavement with their many kindnesses and expressions of sympathy. We are especially grateful to the Coecharian church, the mens quarter, the Methodist church choir, Twin Pines, the Methodist Ladies' Aid, the neighbors, the baseball team, the Redford Lumber company, friends at the farm (Farm Crest), businessmen of Northville and the classes of 1935-37. MRS. ALEX H. JOHNSON, ALEX JOHNSON, JR., FLORENCE JOHNSON, VIOLET JOHNSON, HELENE JOHNSON

CARD OF THANKS - I wish to thank all my neighbors and friends who sent lovely flowers, the Eastern Star and the Ladies' Aid of Novi, also the nursing staff under Miss Irene Penna. I want to especially thank Mrs. Helen Rieger and Mrs. Estella Gates of Detroit, who were so helpful to me while I was in the hospital. MRS. A. T. HOLCOMBE

IN MEMORIAM - In loving memory of our dear Wilma, who passed away one year ago, July 15, 1935. Friends may think we have forgotten. When at times they see us smile, But little do they know the heart aches. We have all the while. Sadly missed by her parents, sisters, brothers and grandparents. MR. AND MRS. C. C. HAMMOND AND CHILDREN, MR. AND MRS. FRED FOSS.
