MANY ENTRIES EXPECTED FOR HORSE SHOW

Stables Never Entered Here
Before at Fair Will Be
Represented

Due largely to the inspiring leadership of its superintendent, Harry B. Clark and Mrs. M. Brown-Darby, its capable chairman, Jack Nelson, and its very able secretary, Russell Walker, plans for the Northville Horse show for 1936 are going forward by leaps and bounds.

It is too early to guess the number of entries that will come into the show this year, for as in former years, entries will be received until the day of the show. It is gratifying, however, to know that stables which have never shown before have already placed their entries.

Beautiful satin coated five-gaited geldings, mares and stallions from some of the foremost stables in the state, whose five distinct gaits bring out their stamens as well as their training. Smart three-gaited horses with their clipped manes and tails, sleek long-legged hunters, who take the barriers with ease and grace—all these will perform in the best looking ring in the history of the show, thanks to Floyd Northrop.

The social activities will be varied. Owing to the illness of Phil H. Grennan, the Friday night supper party usually held at his home will be omitted. Mrs. Jack Nelson will entertain at luncheon Friday noon, August 24. Mrs. M. Brown-Darby will have her usual luncheon Saturday noon, August 25, and Mrs. L. L. Lindsay will entertain at a buffet supper Saturday night after the show.

FREE ACTS AT FAIR
AFTERNOONS, NIGHTS,
WILL PLEASE ALL

The Northville fair management has never shown a greater array of free acts than will be presented next week, afternoon and evening, in front of the grandstand. They have been selected with care and fair visitors may expect some really delightful and thrilling entertainment.

Heading the list as the "top" of the many attractions will be Grace Morris, a great aerial sensation, who performs 100 feet in the air. Those who remember the aerial act of last year will want to see this queen of the air.

St. Claire & O'Bay, America's foremost exponents of bicycle and unicycle riding, in an act that will amuse and delight you. The Manhattan Varieties and Parisian reviews will present two complete musical comedies, revealing a colorful display of artistry, and a chorus of 16 young ladies.

Franc & Fuller, known as the two funny fellows who perform funny feats. If enjoying a good laugh disturbs you in the least, you had better "look the other way." The Kitzsalms will present an act that is easy to look at and one that presents plenty of thrills.

King & Gray will be seen in an artistic dancing act of exceptional merit and delight. Bob Stanley & Co., who have just returned from a continental tour, will present a laughable wire act that will call forth many "ohs" and "ahs."

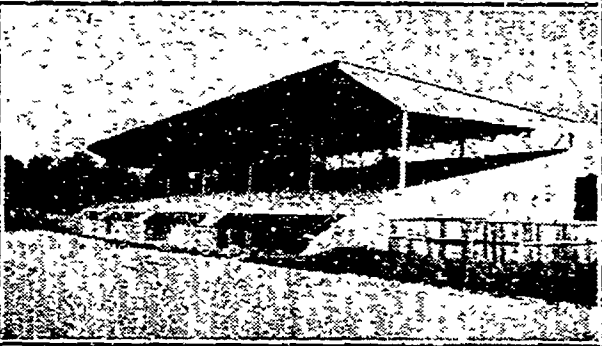

Over on the ball diamond a short distance from the grandstand will be a baseball tournament at which three games will be played. On Thursday the Schrader-Haggerty team will meet the Perfection Dry Cleaners, and on Friday Garden City will contest with South Lyon. The winners of these two games will fight it out for the championship on Saturday afternoon.

Then as an additional attraction Fred (Mike) Hudson of North Lake will be here with his team of white oxen.

All must agree that this is a "hill of fun" from which all will be able to get many a good laugh. Both old and young will enjoy these free performances to be given each afternoon and night.

Mr. and Mrs. M. J. Keldyke and family are moving this week end from 436 Randolph street to 691 North

GRANDSTAND READY FOR FAIR THRONG

Every indication points to big crowds at the Northville Wayne County fair next week. The big steel grandstand which will seat thousands is one of the finest in Michigan. From this free acts, races and fireworks can be seen in perfect comfort. Practically all the boxes at the grandstand have been sold.

ROTARIANS WILL
SERVE MEALS AT
NORTHVILLE FAIR

Proceeds Will Be Used to
Send Students to
College

In order to further their student loan fund for worthy young people who wish more education, the Northville Rotary club will serve meals during the fair under the grandstand on the fair grounds. Dr. H. S. Willis is in charge.

Breakfast will not be served, but there will be family dinners at noon and night as well as short orders.

"Half of a meal is the way it's served," they say. If this is true, those who eat at the Rotary restaurant will have the best meal of their lives for the food and service "can't be beat." So, come under the grandstand and eat your fill of the handiwork of the Rotary wives.

FRUIT DOES WELL
DESPITE DROUGHT

Fruit, like everything else, needs rain and needs it badly.

That was the unanimous mind of Northville fruit growers this week. Should more rain come within a week, the fruit crop will be pretty near up to normal, they estimate, although the size of the individual pieces of fruit are perhaps a little smaller than usual. But if it does not rain within a week, the crop will be curtailed all around.

Especially that crop on light soil is suffering, while the fruit on the rich day sub-soil is standing the drought better.

Best of all is the condition of Steele's Reds, and Northern Spy apples. "At the Summings and Hills farms on the West Nine Mile road and at the Foreman farm on the West Seven Mile road, trees bearing those apples are loaded to the ground. But, likewise, Greenings and Baldwins are not so good and show definite signs of being stunted."

Veteran grower Fred Simmons said last week that, rain falling soon, his apple crop would be "normal or better." Ralph Foreman voiced the same sentiment, and Henry Hills was even more enthusiastic.

Pears generally are going to fall below their last year's standard. Bartlett's in particular will be very

R. P. BENTONS COME
BY PLANE FOR VISIT
WITH FRIENDS HERE

After an absence of 18 or 20 years Richmond P. Benton of Los Angeles, Calif., has flown back by plane to the old home town, to greet the friends of a life-time.

In company with Mrs. Benton a flight was made by plane from Los Angeles to Chicago, arriving there Monday and buying a new automobile. The time spent in Michigan will be divided between a brother of Mr. Benton, G. C. Benton, and a sister of Mrs. Benton, Mrs. Chas. Olds of Plymouth, and in visiting

hosts of old friends who will be in Northville at fair time. Harry B. Clark, who visited in California in the winter, says that Mr. Benton is one of the most influential political leaders in southern California.

Mr. Benton was born on the old homestead adjoining the Phil Grennan farm and spent many years here until he went west.

Happy Throng Attends Street Dance Held in Celebration of Opening of Northville's New Pavement

"Were you there, Charlie?"

Well, if you did not attend the dance last Thursday night to celebrate the opening of Northville's new street paving, you certainly missed a very happy event and you will have many years in which to regret your absence.

The weather was ideal for an outdoor event and the people seemed to be eager to take advantage of the opportunity afforded to meet their friends and neighbors and to dance on the new street before the traffic were turned through. During Thursday afternoon the pavement was given a good "bath" and a platform for the orchestra was erected. Soon after 5 o'clock people began to gather and by the time the Northville Community band arrived, Main street was filled with a happy throng.

The program for the three days of racing, Thursday, Friday and Saturday of fair week includes:

Thursday, Aug. 27
2:18 Trot\$200.00
2:16 Pace\$300.00
Three-year-old and under
and 2:27 Trotters\$300.00

Friday, Aug. 28

pleasure that he enjoyed while actively associated with the organization.

During a brief intermission in the dance program Mr. Owen introduced Mayor H. H. Burdick to the crowd. He expressed his thanks and appreciation to all who had contributed in any way to the street improvement—the members of the Wayne County road commission, Supervisor W. A. Thompson and to the members of the village committee and business men. The orchestra under the direction of Al Strahan rendered a very enjoyable program for the dancers and a great many people joined heartily in the pastime while other hundreds watched the celebrants from Main street.

It was estimated that the crowd was one of the largest ever to have assembled at one of Northville's popular street dances. A passing shower about nine o'clock drove the dancers to cover for a few minutes, but they soon returned, and people have always been proud of the organization. E. C. Langfield was discovered in the crowd, and Orlov G. Owen, who was officiating as master of ceremonies, called him to the platform and presented him to the audience as the organizer and loyal friend of the band for many years. Mr. Langfield responded feelingly and expressed his delight that the band was present and his

Cooke, principal of the junior high school, in her room on the first floor of the high school building. The hours will be from nine to twelve in the morning and one to four in the afternoon.

THOMPSONS VISIT HERE

Principal and Mrs. Paul B. Thompson returned to Northville Saturday evening after a tour of the northern peninsula of Michigan in the interests of Mrs. Thompson's work as State Rehabilitation officer.

They were guests at the home of Mr. and Mrs. H. H. Babcock. After a vacation at Stony Ridge, on Lake Michigan, they will return to their apartment over the Ponsford store which will be headquarters for Mrs. Thompson at intervals between her travels about the state.

Mr. Thompson will be in Northville during fair week acting as judge of the 4-H club exhibits.

Thursday and Friday Will Be Plymouth and Farmington Special Days at The Fair; Parade to Be Held On Saturday

Next week will be a big week in Northville, when the twentieth annual fair of the Northville Wayne County Fair association will be hosts to many thousands of our citizens and our neighbors from surrounding towns.

Everything points to a very successful meeting this year. Many entries have already been made in the various departments and reports coming from the surrounding country indicate that our farmers, stockmen and fruit growers will be represented again with their usual fine displays.

The fact that three automobiles are to be given away during the week is attracting more than usual attention and the million or more tickets placed with merchants in Northville and surrounding towns ought to insure the presence of a great many people when the prizes are awarded—one Thursday afternoon, one Friday afternoon and one Saturday afternoon. The awards will be made at 5:00 o'clock each afternoon and it will be necessary for holders of tickets to be present to participate. All tickets must bear the name of the holders listed in the blank space provided.

Wednesday will be given over to entering and arranging of the exhibits.

BASEBALL AT THE NORTHVILLE FAIR

In former years the baseball tournament has been one of the most interesting features of the Northville Fair, and this year will be no exception. The following schedule of games has been announced:

Thursday
Schrader-Haggerty
vs.
Perfection Dry Cleaners
Friday
Garden City
vs.
South Lyon
Saturday
The winning teams of Thursday and Friday will play for the championship.

CONCERT BY BAND PLEASES THRONG

The Northville school band directed by its leader, Leslie G. Lee, appeared 35 strong, in a concert given on the main corner of our business district Saturday evening.

No ordinary band concert this, but a program including some very fine orchestra numbers among them selections from the opera "Pinafore," the overture "Radiana," and a very popular number, a medley of colored melodies.

Fifteen of these young musicians were making their first appearance as a concert, some of them as young as twelve years of age. Considering that a number of the members of the band were away on vacations, Director Lee is to be especially congratulated on putting on a program so highly appreciated by the large number of auditors who gathered to listen.

It is hoped that another concert will be given on Saturday evening, August 22. It has been suggested that it be given in the village park away from the street noises.

The band has been practicing faithfully all through the summer months.

GRASS FIRE CAUSES \$1,000 DAMAGE AT THE PHILLIPS HOME

A grass fire that burned over 15 acres of land at the country home of T. Glenn Phillips last week was another evidence of the ruin that can be brought by dropped cigarette stubs.

Mr. Phillips blames the fire on the carelessness of some smoker walking through from Meadowbrook Country Club. Some very valuable trees and shrubs were bit by the flames and Mr. Phillips estimates the damage at one thousand dollars.

WATCH FOR THE DATES

Beginning with last night a number of Thursday evening events will be presented to the public by the Civic Association. Just what they will be has not been fully determined, but the public can be assured of a good time.

Watch for the dates of the several events and plan to come to Northville to enjoy them.

The above view of the Middle Rouge Parkway drive was taken south of Northville and shows one of the many beauty spots that this drive has opened up to Wayne county residents. The parkway system provides access to more than one thousand acres of recreation area, much of which lies in the Cass Benton park section. Next week the drive will be re-used, along with the other highways, to bring thousands of people here for the twentieth annual Northville Wayne County fair.

NO MORATORIUM ON SERMONS

There has been plenty of discussion in the metropolitan daily papers the past week regarding the suggestion of a New York rector that there be a two-year moratorium on all sermons in the churches.

Northville needs no such moratorium. Our preachers are progressive and thirty minutes would be a good average for sermons here. There must be something wrong with anyone who cannot get good out of most any thirty-minute sermon. We never yet heard any short-sermon preacher anywhere that could not do us some good.

What Northville needs is a moratorium on the indifference of hundreds of church members who take the vows of the church and then let the "faithful few" carry on the work of the church. If the church doors were locked for a year or two, the weeds allowed to grow on the front lawns and the church bells to cease ringing, then there might be a sudden realization of what the church really means to the community. There are many people who think that our present materialistic era is at the bottom of much of our vast unrest and to blame for the breakdown in morals and in law and order. A civilization that worships only Mammon is a civilization that is dangerous.

CHARACTER AND THE COMING ELECTION

"If the coming national election is decided on the question of character, our country will be safe," said a successful Northville business man to us the other day as we talked a little politics. This same man, who does a lot of quiet thinking and studying of human nature, also says—and he is absolutely right—there is no permanent business success that is not based on character.

We are living in a period of uncertainty and unrest. No thinking man, who reads and gets about the world at all, can doubt that class hatreds are being aroused—and if

One-fourth of every dollar you earn goes for the cost of government.

this sort of demagogism goes on, look out! We have the highest standards of living in the world, despite all the doleful pictures that are painted but these standards are not safe if we permit European schemes to get foot here. If honest, sincere men of character do not stand in our official places; if our judges are not men of the highest virtue and honor; if public office can be bartered and if our public officials can be bribed—then indeed, as some predict, revolution might easily come.

Issues are important in this campaign but far more significant are the men who are back of these issues. All men and women who have their homes and their children to protect have no greater task than that of informing themselves on public issues and on the men who are running for office this year. There is tremendous need for straight thinking if we are to emerge into the great new prosperity that should be ahead for us all. The nation literally is at a milepost. Think for yourself.

AFTER FIVE AND A HALF YEARS

Out on the lawn the other evening, we sat alone and thought and in a sort of mental review there passed before us a group of Northville men who were here when we came to town in February of 1931 and who are still "in the picture."

The contrast of these men in 1931 and in 1936 was amazing. (Maybe each of us should study himself at certain periods to see whether or not he goes ahead.) The parade of these men who have lived through these five and a half soul-stirring years seemed to float apart into three groups. A few of the men have failed—a very few have failed miserably, pretty largely through drink and other bad habits. (One who took the trouble to come to our home one evening to advise us to say less about liquor in the editorial column is now close to being "down and out.")

Perhaps the largest number have just about stood still. No one, of course, can ever stop the toll of the years and the period that we have lived in Northville, one of the most staggering that has ever hit the country, has aged us all a minimum of five and a half years. Most of us lived so hard and deep that our maximum aging has been far more than these few short years. Without doubt, some Northville men now dead would be alive today if this historic depression period had not struck us down.

Some of our parade have missed success because they just drifted along. They are far short of where they might be. It is no one else's business to tell these men how to run their lives, but sometimes it is a great temptation.

In our parade there stand out a small number who have climbed high in this depression period of five and a half years. To make the picture concrete, one man who ate breakfast with us at Mr. and Mrs. Fred Fry's restaurant back in those cold wintry mornings of February, 1931, has made an exceptional success. It has been made pretty

much on the basis of character, plus native ability and good training. Several others have gone ahead in the way that is perhaps best for all of us—steadily, quietly but surely.

The single item of health has a large bearing on our material success in life. Lack of sleep alone can nearly wreck a career—ask your doctor about the toll of "night life." Cigarettes may seem a small thing. Yet in Northville there lives a man right now who by "cutting out" cigarettes and by following a diet, has added twenty needed pounds. The high school boys who are taking on the cigarette habit now can't realize what financial mill-stones they are hanging around their neck—maybe enough to spell the difference between success and failure. Any fair-minded adult smoker will advise boys to leave smoking alone.

Looking back at these years here in Northville we verily say with the ancient philosopher:

"The moving finger writes and having writ, moves on, nor all your piety and wit can lure it back to cancel half a line; nor all your tears wipe out a word of it."

Look to your life! The parade always has you in it.

NEWSPAPERS AND POLITICAL THINKING

"What papers do you read to back up your political thinking?" a Record reader asked us. A fair question, for we are all influenced, perhaps more than we realize, by our daily reading.

The writer daily tries to read three kinds of editorials so as to get a fair balance of public questions. (While in Florida last winter, convalescing, we read editorials from democratic papers almost exclusively—that was the only kind to be had. And the reading didn't hurt us but gave us a new slant on matters political.) Now we start the day with the conservative Detroit Free Press and will say for this newspaper that you know where it stands. Malcolm Bingay's hard hitting, brilliant writings have given him a large reputation. In the evening, we turn to the liberal-minded Detroit News whose editorial staff is one of the finest in the United States. Then to get a distant and non-partisan view, we read the editorial pages of the Christian Science Monitor, one of the most unique daily papers of the country and certainly conservative, fair and well poised at all times.

In addition to this three-course political meal, which ought to be a well balanced ration for straight thinking, we get much refreshment from reading the 50 country weeklies that come to our desk. Some very well trained men, with excellent minds and splendid writing ability, carry weekly their editorials and no political force in the state exceeds the influence of these country weeklies.

A group of outstanding writers would certainly include these men: George R. Averil, Birmingham; Wm. H. Berkey, Cassopolis; Vernon J. Brown, Mason; Frank Bryce, Grand Lodge; Wm. H. Cahsfield, Howell; Richard Cook, Hastings; Ray Corliss, Parma; Muri H. DeFoe, Charlotte; Elton R. Eaton, Plymouth; Emerson O. Gildart, Utica; Searth Inglis, Galesburg; Schuyler L. Marshall, St. Johns; McCall Brothers, Ithaca; and M. Pleasant; John J. Pope, Grandville; and A. VanKoeveering, Zeeland.

No, we don't think it necessary to read the Hearst papers to get the right balance of life.

MRS. EDITOR

Ten o'clock! At each stroke of the clock the housewife came a little farther out of the story she was reading. She had picked it up "for just a minute" as she paused in her dusting, but the minutes had lengthened into hours and now there was an apple pie promised for that Exchange club luncheon at noon!

Reluctantly she laid the book aside and still under the spell of the romance walked into the kitchen as one walks in his sleep, put on an apron and took from the cupboard the pans, rolling pin, flour, sugar—that pie must be made!

At the clatter of pans, a small boy burst into the room.

"Whatcha goin' to make, Mom?"

"Apple pie for the Exchange luncheon."

"And one for us, too?"

"Yes, and one for us, too, son."

"Whoopee! I'm goin' to watch you!" and he climbed upon the high stool to watch an apple pie grow.

It was fun to make apple pies, to pinch the spiky goodness inside the flaky crust. Slice, slice, tell the apples into the second pie.

"After all, what's a story but a picture of real life?" she thought, and what is this but the setting for a story that one might read? It was a bright summer morning. The sun sifted through the curtains swaying at the window. The clock ticked merrily on its shelf as a mother rolled out apple pies in the sunny odored room while a little reckless faced boy watched her movements and chattered—and so on.

Yes, it was very like a story after all, life was. Stories that really take hold of one are just a true interpretation of life shot through by romance. And there's romance in everyday life. It would be nice to write things that would interest folks. Sometimes she vaguely dreamed that she might, but always when the urge was on there were dishes to wash, stockings to mend—apple pies to make. Apple pies that would make the family happy when they gathered around the table.

It's nice to have dreams—we hate to lose them but then, there's life, life glowing with action and reality. Perhaps this is what a very practical sister-in-law meant, when she

enclosed this verse in a letter from the west:

"Once upon a time I planned to be an artist of celebrity.

A song I thought to write one day, And all the world would homage pay.

I longed to write a noted book, But what I did was—learn to cook.

For life with simple tasks is filled, And I have done, not what I willed.

Yet when I see boys hungry eyes I'm glad I make good apple pies.

And, speaking of apple pie, A little brown sugar sprinkled over the top of the apples adds wonderfully to the flavor of the pie.

Here is a recipe for "Never Fails" pie crust used by a friend and endorsed by the Better Homes and Gardens magazine. We have used it for years. It can be kept on hand in the refrigerator.

Refrigerator Pie Crust

1 cup shortening

1/2 cup boiling water

3 cups pastry flour

1/2 teaspoon baking powder

1/2 teaspoon salt

Melt the shortening in the boiling water and stir very smooth. Set aside to cool, then sift in the flour, baking powder and salt. Mix lightly until the pastry holds together when placed in the refrigerator until cool and firm. Roll thin on a floured surface and fit into pie pans. This recipe makes 3 single crusts or 2 double crusts.

Apple Roll

1 pint water

1 1/2 cups sugar

4 medium apples chopped fine

1/2 cup raisins

Roll the water and sugar together for three minutes.

2 cups flour

1 teaspoon salt

2 tablespoons sugar

4 teaspoons baking powder

4 tablespoons shortening

1/2 cup sweet milk

Sift the dry ingredients, mix in shortening lightly; add milk. Turn onto floured mixing board and knead lightly until well mixed. Roll out until 1/4 inch in thickness. Spread with apples and raisins and roll as a jelly roll. Cut into 14 inch pieces and place in baking pan with hot syrup water and water previously prepared, taking care to not place too closely together. Dot each roll with butter and sprinkle

Time Lost is Money Lost

It costs money to be sick. You see it directly if your pay envelope is short. You lose out on some important work if you live on a farm or if you are one of the few who are not docked for lost time. You can't afford to show up on the job unless you are feeling fit. The boss wants results—not excuses.

How many times do Gas on Stomach, Headache, Sour Stomach, That Tired Feeling, That "Morning After" Feeling, Neuralgia, Rheumatism, Sciatic, Muscular or Periodic Pains keep you at home or interfere with your doing a full day's work?

All these troubles are caused or made worse by too much acid in your body. To correct this condition take

ALKA-SELTZER

The New Pain Relieving, Alkalizing, Effervescent Tablet.

It is called Alka-Seltzer because it makes a sparkling alkaline drink, and as it contains an analgesic (Acetyl-Salicylate) it first relieves the pain of everyday ailments and then by restoring the alkaline balance corrects the cause when due to excess acid. Alka-Seltzer is pleasant to take, harmless, non-laxative.

Why don't you try it? Get a drink at your drug store soda fountain for a nickel. Buy a package for home use.

ACT ON COMMITTEES

Members of the Exchange club of Northville are assisting in preparation for the entertainment of more than 3,000 Exchange club members and their ladies who will attend the Silver Jubilee Convention of the National Exchange Club in Detroit Aug. 30 through Sept. 2. Harold K. Harter, National Secretary, arrived today from the official Convention Headquarters in the Book-Cadillac Hotel.

Working under the direction of Alfred C. Lamo Hamtramck, Governor of Michigan District No. 1, the local Exchangers will serve on the reception committee and welcome visitors from every section of the United States. Committees also have been appointed to assist in registration and in providing transportation for trips to Greenfield Village, the Shrine of the Little Flower, and other points of interest.

The National Exchange Club, largest exclusively national service club in America, is composed of business and professional men banded together under the motto "Unity for Service." It was incorporated in 1917 as a non-profit, non-sectarian organization and national headquarters were established in Toledo, Ohio, that year. Annual national conventions have been held since 1917. Although the Detroit sessions will form the twentieth national convention, the meeting will be known as the Silver Jubilee in commemoration of the founding of the first Exchange Club on March 27, 1911.

The Northville club will be represented by C. A. Dolph and Dr. H. I. Sparling, while C. R. Ely, Roy Crowe, Maurice Lapham and Harold Bloom will serve on the reception committee.

Planning at the Simmons farm, as elsewhere, is nearly finished. More than 10 men have been working daily at the Simmons place for the past two weeks, and it will not be long before a force of 50 will be put to work on the long steady picking game that will take them well into the fall.

Through row after row, acre after acre, on the Simmons property, and on the other farms as well, the thickly adeen grass await harvest.

The yet-green fruit weighing the branches to the ground, needs only the rain to ripen it and give it the harvest.

At the Simmons farm, wormy apples are given special treatment to kill the worms. They are put in a muslin bag of solution and then thrown aside.

Most of the larger growers take particular pains to avoid animal and plant parasites by heavy spraying. Thousands of gallons are used each year in this area.

WATCH THE SIGNALS The new traffic lights were installed Monday forenoon and were turned on shortly after one o'clock. They have been placed on the light posts at the intersection of Main and Center Streets, one at the Cusick drug store corner and the other at the Northville Hardware corner, and they can be seen easily by motorists. They display the red, amber and green signals as universally shown in traffic regulations.

If motorists will heed the signals and observe the courtesies expected from careful drivers there should be no accidents at our main intersection. Those who do not observe the signals or those who drive carelessly while passing through the business district will regret their mistake. The signals are for the protection of both pedestrians and for drivers of automobiles and the men, women and children who walk our streets should have the preference. When you approach the intersection look both ways and be safe.

BEGINNING NEXT TUESDAY August 25, our regular meals will be 50 cents. The change in price is made necessary owing to the increased cost of all foodstuffs. Ice cream prices will remain as formerly. Royal Ann Cafe, P. A. Fry, proprietor.

Edward N. Hines Tells Rotarians a Vivid Story of the River Road Which Was Started 125 Years Ago

Taking members of the Exchange and Rotary clubs back nearly a century and a quarter ago, Edward N. Hines, vice chairman of the Board of County Road Commissioners of Wayne County, Tuesday noon told his hearers of the beginning and progress of the "River road," the longest highway in Wayne county.

Supervisor W. A. Ely introduced Mr. Hines to the company, and told of how the veteran road builder had been named by the board of supervisors 30 years ago as a member of the first road commission of the county. Of the 59 supervisors then on the board, only five are alive today, said Mr. Hines.

The River road, said Mr. Hines, in his most comprehensive history, of the highway, had its beginning in the early part of the nineteenth century. Laid out as a military road, it has had very little to do with war, but rather with the pursuits of peace and commerce. Its length is 37 miles, extending from the border of Macomb county to Monroe county. Over 22 miles of the road have a right-of-way that is 120 feet wide and each year sees a widening at various points along the highway.

Both East and West Jefferson avenue in Detroit and the Lake Shore drive in Grosse Pointe are part of the River road. Some of the cement on the highway, added Mr. Hines.

Honor Mrs. Carr on Her 83rd Birthday—Mrs. Josephine Carr, mother of Mrs. A. E. Fuller, reached her 83rd birthday, August 14. She was made happy by many greetings from her friends.

With a keen mind she keeps step with the affairs of the world and is right now especially interested in the political trend. An ardent republican, she is a hearty booster for Gov. Alf Landon and has all summer been carefully nursing a sunflower that grows near the door. On her birthday Mrs. Carr was photographed standing beside her "Landon sunflower."

Mrs. Carr was born in Halifax, Nova Scotia, and came to this country when a little girl. She has made her home in Northville for the past 40 years, for many years at the home of her daughter, M. E. Fuller.

In her younger years Mrs. Carr was a practical nurse and has cared for many of Northville's young folks in their infancy. Many parents in this community bless Mrs. Carr for her kind services and extend wishes for many more happy years.

A stupendous fireworks display will be given each night during the week and a great array of free acts will be presented on the large platform in front of the grand stand each afternoon and night. These acts are brought here by the fair management with the assurance that they are of high class and that the entertainment they will present will delight and entertain fair visitors.

As an added attraction for the week, and one that will attract much attention will be the span of white oxen to be exhibited by Fred (Mike) Hudson of North Lake. It is now planned to have Mr. Hudson lead the parade to be staged the first thing after noon on Saturday. If present plans do not go wrong there will be a span of oxen following the oxen, then a span of horses and following the horses will come a tractor, depicting the progress made over the years in farm power.

The orchestra which has been engaged with the free acts will be an attraction all will enjoy and it is expected that the Plymouth High school band will be present on Thursday and that the Farmington band will accompany the people of Farmington on Friday, which has been designated Farmington day for many years.

There will be the usual interesting midway attractions affording entertainment to all. Good places to eat will be found and visitors are urged to come early and stay late.

Besides the president, E. L. Smith; V. A. Northrop, secretary, and Fred W. Lyke, treasurer, who are always actively engaged during the whole week and for many days before, the activities of the fair will be directed by the following superintendents: Draft horses, E. M. Starkweather

There will be something lacking at the Northville-Wayne County fair this year and that is the genial smile of Ralph Carr, County Agriculture agent who has, for years had charge of the exhibits of the 4-H clubs about the county. His friends will regret to learn that Mr. Carr is ill in a hospital in the city and will not be present at the fair.

Due to the untiring efforts of Mr. Carr the agricultural exhibits have been among the most attractive on the grounds and he has greeted visitors with graciousness.

Mr. Carr's work will be done this year by Maynard Mott of Dearborn, who is well acquainted with the details, Mrs. Mott being Mr. Carr's secretary.

The first race program of the week will be given in the afternoon with three events. Harry C. Robinson of Plymouth, will officiate as starting judge. There will be a ball game at 3:00 o'clock between the Schrader-Haggerty and Perfection Dry Cleaners teams.

CHURCH NEWS

Christian Science Churches
"Mind" will be the subject of the lesson-lesson in all Christian Science churches throughout the world on Sunday, August 23.

Among the Bible citations is the following (Heb. 4:12): "For the word of God is quick and powerful, and sharper than any two-edged sword, piercing even to the dividing asunder of soul and spirit, and of joints and marrow, and is a discerner of the thoughts and intents of the heart."

Correlative passages to be read from the Christian Science text-book, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 179): "Immortal Mind dwells what eye hath not seen; but the spiritual capacity to apprehend thought and to heal by the Truth-power, is won only as man is found, not in self-righteousness, but reflecting the divine nature."

For Friday and Saturday of this week the Penniman-Allen theatre offers a big double bill that ought to delight all movie fans. Jack Holt in "Crash Donovan," is the opener and this will be followed by "A Face in the Fog," starring June Collyer and Fred Hughes, with a cast including Lawrence Gray, Al. St. John and Jack Mulhall.

On Wednesday night, August 26, Reginald Denry and Patricia Parr will be seen in "The Lady in Scarlet," with Claudia Dell and James Bush in the supporting cast. Miss Dell first attracted attention in Ziegfeld Follies of 1927. Following that she played in another Ziegfeld show, "Rosette," and later went to

London to play the lead in "Merry Mary." On her return to the States, Claudia headed for Hollywood, where she played a leading part in "Sweet Kitty Belairs." Then she appeared in "Big Boy," "Sit Tight," and "Fifty Million Frenchmen." Miss Dell, unlike most of the screen stars, has never played "bit" roles in her climb to the top of stardom's ladder. Recently, she has been seen in "Cleopatra," "Speedy Limbo," and "The Last City." The young actress is going to London this year to play opposite Jack Holt and Jack Mulhall in two Gammon-British pictures.

As an additional feature to follow "The Lady in Scarlet," "Winds of the Wasteland," will be presented.

DRIVE UNDER WAY FOR \$16,000,000 IN BACK TAXES

With the campaign on in every county in Michigan to collect the second installment of taxes due under the ten-year plan, State Treasurer Theodore I. Fry predicted this week that the payments will aggregate \$16,000,000.

A sizable army of taxpayers already has begun marching on the various county treasurers, demanding a "paid" stamp on their bills. Early collection reports all have been good.

On the basis of our experience a year ago, when the ten-year plan was inaugurated, I have no hesitancy about saying that this year's drive will be a big success. Treasurer Fry said, "I look for collections to top last year's total of \$15,000,000 and to reach possibly \$16,000,000."

"One of the purposes of the campaign is to acquaint those who failed to pay the first installment with the fact that they may still do so, with only a slight extra charge. A third group who are now financially able to do so, will pay the whole thing up in this year's drive. Large amounts of interest and clearing the title to their property."

The run of the public to pay in advance of the September 1 deadline recalls last year's panic at the treasurer's office. All indications are that again this year thousands of taxpayers will have to wait in line and take their turn. Officers point out that those who pay now not only gain the cash but know that their property is protected and save themselves the trouble of collecting.

These are the just, lasting and making the pay period" put themselves on an even keel with the rest, getting in their cash early to meet the deadline.

The ten-year plan embodied in the Moore-Hollock Act was the happy solution of an extremely serious tax problem. Since 1921, millions of dollars in taxes have been collected and apparently uncollectible, on tax rolls. Accumulated for years, the taxes in this amount were so huge that the property owners despaired of ever paying the total, and in fact, one year's delinquent tax. Interest and penalty on the delinquent taxes ran as high as 50 and 60 per cent of the original amount, a fact which further discouraged payment.

OUR COMMUNITY FUND NEEDS NEW INSTRUMENTS

Those of our citizens who were privileged to listen to the concert given by the Community band last Saturday night recall with a great deal of pride and pleasure the days when the organization was active and its services were in great demand. During the past year local interest in the band seems to have reached a low ebb for some reason and one is curious to know just what has brought this condition about.

No matter what the cause, the band should be encouraged to make public appearances as a community asset. The cost of maintaining the band if paid from the public treasury would not be burdensome upon any one and as an investment the returns would be many fold.

Mr. Head, who directed the band for a number of years, has two classes of beginners each week and when they have progressed sufficiently to be passed on to the regular organization they come under the direction of Leslie G. Lee who has consented to assume this additional duty. Under his leadership the band has made good progress and it is his desire to give a series of public concerts. To do this, however, it will be necessary to provide a few instruments. Some of the original ones have been broken, some worn out and a few evidently have been lost, or at least they have disappeared.

The whole question resolves itself into this—does the community want the band to continue as an active organization badly enough to contribute something for its maintenance? If so, some financial assistance must be provided from some source.

What have you to offer, citizens of Northville?

NO DOG ORDINANCE IN NORTHVILLE, SAYS DR. W. H. JOHNSTON

The Record was in error last week in saying that dogs without licenses according to village ordinance, are liable to be impounded. Dr. Wilbur H. Johnston, township health officer, states that the village has no such ordinance and, furthermore, there is no pound where the dogs could be taken.

Dr. Johnston says that while he was village health officer, he made an earnest effort to have a dog ordinance adopted, but without success. Should there ever be a rabies epidemic here, says the township health head, the lack of an ordinance would be a great handicap.

A FINE IMPROVEMENT ON NORTH CENTER ST.

The Wayne county road commission completed its work on Northville's streets and walks the first of the week and tools, machinery and equipment used in the improving process were moved away Tuesday. The last completed improvement was that done on South Center street, from Main to Cadiz street. Gutters were constructed on both sides of the street and suitable drainage was installed. When the side walks have been adjusted to the new street grade this portion of the bridge district will present an attractive appearance.

PLYMOUTH IS HOPEFUL OF A NEW INDUSTRY

More than ten years ago the Burroughs Adding Machine company of Detroit purchased a 135 acre tract of land adjacent to the Pere Marquette railroad north of the city and set out their intention of erecting buildings to house their factory. The plan was to build a definite date when work on the project would be undertaken and the year 1936 was set for completion. It was concluded that the project was a profitable one and just another dream.

Last week Wednesday, however, a group of officers of the Burroughs company visited Plymouth and as a result of their visit the company has decided to erect a new plant at the site of the old one. The new plant is to be a two-story building, 100 feet long and 40 feet wide, with a total area of 4,000 square feet. The project is being financed by the Burroughs company and the township. The new plant is to be completed by the end of the year and will employ about 130 people.

IS THE SPIDER LOOKING FOR YOU, MR. MERCHANT?

Mark Twain once was the editor of a Missouri newspaper. A superstitious subscriber wrote to him, saying that he had found a spider in his newspaper and asking whether that was good or bad luck. The humorist printed this reply: "Old Subscriber: Finding a spider in your paper was neither good nor bad luck for you. The spider was merely looking over our paper to see which merchant is not advertising so that he can go to that store, spin his web across the door, and live a life of undisturbed peace ever afterwards."

TOO MANY MURPHYS

According to the Detroit Free Press, Thomas G. Wilcox, democratic candidate for sheriff, and two other Murphys who are also candidates for that office were ordered Monday to appear Tuesday before Circuit Judge Gay A. Miller and show cause why the Murphys should not be distinguished on the ballot by use of their middle names.

The order was obtained by John Murphy, former collector of internal revenue and a candidate for sheriff, who maintains that a second John Murphy is a vote decoy for Wilcox. The defendant Murphy's middle name is Alfred, the petitioner says.

WHAT OTHER EDITORS ARE THINKING ABOUT

A "RAZZBERRY" FOR THE TIGERS

(Ray Corliss in The Parma News) Some 1,400 Jackson county persons took the day off last Thursday to journey to Detroit to see the Tigers play ball. Let's see—just how many months ago was it that those same Detroit Tigers refused to come out to the rear of a passenger train to greet a crowd of Jacksonites at the depot, with the result that public indignation rose high against Mickey Cochrane's boys?

REED'S FAMOUS SIX WORDS

(R. D. Gifford in Eaton Rapids Journal) It was Jim Reed, incidentally, when representing Missouri in the senate, who made a famous six-word reply to an opponent's hour-long harangue and reduced him to ashes. "I would rather," the orator concluded, borrowing the words of an able statesman, "be right than be president."

"The gentleman," said Reed, slowly rising to his feet, "will never be either." And sat down.

OF INTEREST TO FARMERS

(Marshalltown, Ga. Times-Republican) Hams from Poland are selling in the cities at prices western packers cannot compete with. Well, a couple of center slices of Polish ham with a couple of Chinese eggs turned over and a slice of toast made from Argentine wheat spread with Dutch butter seems to be right in line with the abundant life.

MEN WITHOUT A HOME

(W. H. Berkey in Casper, Wyo. Herald) A friend of ours owned a farm up in one of the north counties and when he drove over into that section one day to look at his property, he found that a family he didn't know had moved in and made themselves at home.

When he told us about the incident it made us think of the position the old-time democrats find themselves in today. A lot of fellows with ideas that are not Jeffersonian, Jacksonian, or any other type of democracy, have moved in and taken possession of that party and the real, honest-to-goodness democrats are left without a home.

THE PRICE OF BREAKING RULES

(Wm. H. Berkey in The Casper, Wyo. Herald) Our hats are off to the American Athletic board that had the courage to fine Mrs. Jarrett out of the Olympic contests because she broke training rules.

Mrs. Jarrett, aged only 22, had prepared herself for the international contest; she had looked forward to it as the great event of her life; and yet she learned that she had worked for and hoped for just for the pleasure of indulging in drinking parties on the boat on which she went to Europe. It seemed a bit tough that she should be ruled out entirely, but, on the other hand, she knew the rules and knew the penalties.

It is just like the rules in the game of life; one knows them, and knows that to break them brings certain penalties; and her misfortune in athletics is no different from what comes to many a person through drinking; one may fit himself for a certain work in life and

yet many destroy all chance of winning success at that work because of drinking. It is happening all the time to someone. The penalties in life are just as certain as the rewards, and cannot be escaped.

MENACES THAT MICHIGAN MISSES

(Mark H. Pail in Albion Evening Recorder) You can add forest fires to the list of things Albion is never afflicted with. (That sounds like Col. Stoopnagle!) Other menaces that fail to menace Albion include earthquakes, hurricanes, dust storms and floods, though we had a rather bad flood 28 years ago and a cyclone occasionally flirts with the surrounding landscape. We are reminded of this by the prevailing haze of smoke that fills the air. They say much of this has been brought by winds from the north, all the way from Isle Royale, where a fierce fire is razing beautiful virgin timber in spite of a large force of fire-fighters. Like the dust haze we have had from time to time from Mid-West, dust storms, Albionites can take it just as an interesting incident and thank Providence the centers of the disturbances are always far away.

GIANT GARDENS BUILT FOR CHICAGO EXHIBIT

Most of the amphitheatre's seven acres of exhibit space will be devoted to displays entered for competition by both commercial and amateur growers. The contests for which prizes will be offered include specimen flowers, arrangements, potted plants, trees, shrubs, landscape gardens, fruits and nuts, vegetables, bees and honey, and photos of horticultural subjects.

THE OFFICE WASTEBASKET

OF

"WARNER WINCHELL"

BY FRED WINNER NEAL

POEM

My poetic critics of two weeks ago gave me the idea. So I wrote a few verses about a topic that has long been on my mind. Frankly, the meter is not of the best, some of the lines do not rhyme, and I suffered from my old confusion about heroic couplet and iambic pentameter.

But it is full of fervor and depth of feeling if I do say so. The poem is called "Owed to a Linotype Operator." Here it is, written after due provocation while contemplating on the evils of the Typographical Union.

Here's to the Knight of the Linotype.

The Man who runs the machine

The Guy who changes the stuff

And mixes it up till it is a solid

The Linotype Man who been

Here's to the Man and the crew

Be they on purpose or be they

Here's to the way he changes your

spelling.

Makes you so mad you feel like

telling

The Linotype Operator where to go

Here's to the commas left in and

left out.

The insistence in "making

"drought" "jer to "drought."

Here's to the way, when he places

up your brain child.

That you swear to yourself but

look up so mad

At the Linotype Operator.

Here's to the time when the late

Subscriber,

Who comes in on Friday with

blood in his eye,

Can be referred out to the Linotype

Operator.

With: "There is the man, the

Man who should die."

TIGERS AND REPUBLICANS

GET TOGETHER TONIGHT

An informal republican rally will

be held tonight at the home of Mrs.

Glenn Buffmeier, at Walled Lake.

Dinner will be served at six o'clock

for the state and county candidates

and also the Detroit Tigers, who

have accepted the invitation to be

present. The honored guests, other

than the very popular baseball play-

ers, are as follows: Representatives

of District No. 2, Joseph Long and

E. Harmer; candidates for state

senatorship, George Higgins of

Royal Oak, and Ralph Keeling of

Pontiac; candidates for U. S. con-

gress, George A. Dondero and Earl

Nash; candidates for U. S. senate,

Wilbur Brucker and James Couzens

and all other county candidates.

This rally is given for the zone

which includes Non, Lyons and

Commerce townships. Mrs. Ruth

Paster, zone chairman of the Oak-

land County Women's Republican

club and Mrs. Buffmeier, chairman

of Commerce township, are sponsor-

ing the meeting.

The meeting will be very informal

and is solely for the purpose of in-

cluding the candidates to the vot-

FRANK SPROGELL OF MEADOWBROOK CLUB GETS FINE PUBLICITY

Frank Sprogell, manager and professional of the Meadowbrook Country Club, was given some very fine publicity in the sporting section of Sunday's Free Press.

Mr. Sprogell, who started his golfing career at an early age, has a wide knowledge of the various types of specialized clubs, golfers' bags. During the 24 years that he has been connected with the teaching side of golf, Mr. Sprogell has seen the evolution of clubs from their "break-down" days to the time when they were generally accepted sticks to use, and their eventual discontinuance.

Some of the "special" clubs which are discussed by Mr. Sprogell are the "giant" or sand blaster, "chipper" and varieties of putters. He pointed out that some of these so-called novelties serve a real purpose.
