## JOURNALISM CLASS EDITS SCHOOL PAGE

Louise Alexander Heads  
Orange and Black  
Staff

With the second week of school under way, the Orange and Black staff of the high school page begins to function, publishing for the first time this year, news of the school system on page 7.

The organization of a journalism class gives promise of making the school page one of constructive writing covering the news from the school as well as the high school. It will be taught by Mrs. Frank W. Hawkes, of the high school English department who has selected a text to be followed throughout the year by the students.

This is the first time that a text has been used for the basis of class room study in this subject. It is understood that emphasis will be placed on the writing of features.

Heading the staff is Louise Alexander, senior who wrote last year under Margaret Walker, editor and Gwendolyn Jones, associate editor.

Followers of the page during the school year will recall a number of features which came from Louise's pen. She took her turn as writer of the editor's column from time to time.

E. V. Ellison Cites  
Facts about School  
Apprentice Plan

Designating the newly inaugurated apprentice training program as a fourth course open to students.

E. V. Ellison of the Northville high school staff, described the program in detail for Exchange club members at their regular meeting Wednesday in the Methodist church house.

Until the acceptance of this program Mr. Ellison pointed out, a high school student could choose one of only three courses — general or academic, commercial and college preparatory. Now by combining special classroom study and actual shop or store work, the student can gain needed experience in a field of work that appeals to him.

### • Laying Up Treasures That Last

Every good act is charity. A man's true wealth hereafter is the good that he does in this world to his fellow man—Muhamet.

### • For the Glory of God

At the close of a meeting, a cynic approached Dwight L. Moody and said, "During your address this evening I counted 18 mistakes in your English."

Looking kindly at his critic, Mr. Moody said, "Young man, I am using for the glory of God all the grammar I know. Are you doing the same?"

### • Old-Fashioned Gentlemen

(The Sun News)

In the recent depression, William G. Mather, of the fine old Cleveland Cliffs Iron company, lost millions of dollars. Some years before this he had made many generous gifts. Some of these were installments to be paid out of gifts. Some of these were installments to be paid out of college in Connecticut where he went to school. He had promised his beloved Alma Mater a million dollars for a chapel in memory of his mother. When the depression struck he had paid all but \$140,000. All of a sudden he did not have that many cents.

They had been working on the chapel and had it quite near completion. The work was about to be discontinued. Then the skilled mechanics and other workmen went to the trustees of the college and said:

"It is a shame to have this work stopped. If you can get the material, in any way, we will continue work on the chapel without pay and without obligation on the part of Mr. Mather or the college."

This was done. The chapel was completed.

As soon as Mr. Mather's fortunes recovered he sent the \$140,000. The noble laborers were all paid.

Just old-fashioned gentlemen on both sides.

A motto for today: That high-toned, refined gentleman, the Honorable W. H. Modell, of Shreveport, La., is a champion for the fact before us.

### • Falling Revenues

(Independent, New York)

Drapery Allen, manufacturer of men's suits, has cut its tax rate from 10% to 5% on August 1st, 1938, and again to 2% in July. Thus it is seen the slogan in stores is consistent and severe.

This should be a warning to public officials everywhere that the revenues of government are geared to the wheel's of trade. No matter who the taxes are collected at stated intervals by levies against property or gathered heavily by tribute computed on spending, the public treasury has a way of going bare when a depression hits.

The other day in Detroit a general increase in pay of officials was defended on the ground that it had been promised. It is hard for the official to realize Mr. Taxpayer also has some rights and that he has been promised things at times, among other things, a reasonable regard for his welfare and a fair day his share of the cost of government.

A million dollars a month loss of revenue from a single source, if continued for an length of time, spells doom for state finances. Because so large a portion of state revenues is returned to schools and municipalities as aids to local government the slump will be echoed in every school district meeting, in every town hall and every courthouse in the State.

The Statutor is more acute but most of the time. But assuringly it can be said that eventually falling revenues have a way of stopping unwise spending.

### • Women on the Warpath

The following from a group of women styling their organization a "Women's Rebellion" committee, indicates that some American housewives are on the warpath:

WOMEN OF AMERICA, WAKE UP!

We housewives, more than a million strong, demanded that our Senators and Representatives oppose further "Pump Priming," reduce government expenses, keep our children's future unmortgaged and give us all a chance to SAVE OURSELVES

How did our hired men answer this demand?

They answered it when they added a billion dollars to the "Pump Priming" bill, voted down every amendment to keep them from using relief money to buy votes, then gaily left for home to build up their political fences with our money.

We can't escape the mortgage of twenty billion dollars which the New Deal Congressmen hung around our necks in the last five years.

We can't escape paying \$2.10 in taxes every time we spend \$5.

But we CAN return to private life the men who spent our money so wastefully.

Let them learn how much harder it is to earn a dollar than to spend a dollar.

How much harder to pay taxes than to spend taxes. The Housewives of America can force the New Deal hired men to share this tax burden they have saddled on us.

Then, too, if we bring them back home they can also share the evil effects of the laws they passed, often without reading them, on the homes and lives of the American people.

Wouldn't you like to see the men who voted for the Social Security Law hunting up their certificate, applying for a lumber, sweating over the graveyard questionnaire and having a slice of each pay check taken from them.

We women still have our voices. Let us use them before they are taken from us. Use them to send the wasters back home before they bankrupt our country.

Don't forget they are spending our money to keep themselves in Washington.

We women have the power to elect Senators and Representatives who will practice ECONOMY and protect our Constitution.

If we organize we can defeat all the men who sold us out to the New Deal. We must pledge ourselves to vote against men and not for or against party.

For these spenders run under both the Republican and Democratic Label. Their real label should be NEW DEAL SPENDERS.

If you write us we'll send a record of how your Senators and Representatives voted, so you can tell the New Deal Spenders from the Democratic and Republican ECONOMIZERS.

Women! Save this Country for your children!

er of the administration, carried an article entitled "The Breakdown of Relief." I quote two paragraphs:

"Relief in a good part of the United States is crumbling under the impact of the recession like a town rocked by a series of earthquakes. In some cities relief agencies have already slammed their doors against thousands in dire need. Akron's reliefers must keep body and soul together on twelve cents for a day's food. Cleveland's poor are still begging from door to door and foraging in garbage cans. Detroit's jobless sick must trust to God or nature if their illnesses require any but the cheapest drugs. Elections have become a daily routine in Chicago. Distress and suffering are spreading like the plague.

"For five weeks we have been touring industrial cities in western Pennsylvania, Ohio, Indiana, Michigan, and Illinois—places where the recession hit the hardest. Everywhere unemployment is almost as great as during the blackest days of the depression, and relief loads are even heavier. One out of every six families in Pittsburgh either is receiving direct relief or is on the WPA; one out of five in Chicago; one out of four in Akron; more than one in four in Detroit; one out of three in Cleveland; one out of two in Flint. Most of the cities and some of the States have plunged neck-deep into debt to provide even miserable handouts. Many communities are on the brink of default. Virtually none has funds to last longer than the next few months."

I have no reason to doubt the statements contained in the article in view of the political attitude of the magazine. It is a disclosure which constitutes the most damning indictment of existing conditions.

It is most important that more time and energy be devoted to purging unemployment and misery from our land.

## BOARD WITHDRAWS SEWING REGULATIONS

### Senior Girls No Longer Required To Make Own Graduation Dresses

At a meeting of the Board of Education held last Friday it was decided that the senior girls would no longer be required to make their own graduation dresses. This custom, which has been carried on for several years was objected to by most of the girls because of the expense involved and the extra time which is needed for participation in senior activities.

The board has long considered a change but has held off because it hoped to keep the graduation expenses down by limiting the price of the dresses. The class, however, favors caps and gowns which will keep costs down and still maintain uniformity.

The final decision of what will be worn will be definitely decided some time this fall. Sewing will still be offered to senior girls; however, and about 39 girls are still taking this course.

Coach Harry B. Smith has had his charges working out at the fairgrounds until such time as they will be permitted to practice at the park. Some of the lettermen back from last year's squad are as follows: Captain Walter Myers, Benji Duguid, Ed Baumgard, Dale Bray and Jim Neal and maybe one or two others that I have not mentioned.

This year's squad will be lighter in comparison to other suburban league teams. This ought not hamper them, however, for they have the old spirit of "do or die for N.H.S." and that is half of the battle.

There are many freshmen and sophomores out this year and the experience will benefit them greatly in the next year or two.

Northville has scheduled this year seven games, four away and three here. Following is the schedule Sept. 23—Walled Lake there Sept. 30—Open Oct. 7—Methdale here Oct. 14—Open Oct. 21—Brookfield there Oct. 28—Redford Union there Nov. 4—Trenton here Nov. 11—Vic Dyke, there Nov. 18—Plymouth, here

Northville has two open dates, Sept. 10 and Oct. 4. All of the games are should be very peculiar because of the rivalry involved. The Plymouth game will be played here and will be a "home" as far as football is concerned.

Nothing gives one person so much advantage over another as to remain always cool and unfurled under all circumstances. Yours truly,

Merle Wheeler, added to faculty.

N. H. S. welcomes a new teacher, Merle Wheeler, who will instruct in the manual training classes. He has always lived and taught in Michigan. Although born in Custer township, he considers Sunfield his home town, having spent many years there.

Mr. Wheeler attended Central State, Western State colleges and Northwestern University. Besides teaching in several rural Michigan schools, he was an instructor for seven years in Sunfield. For the past year he lived in Woodland and attended Kalamazoo college.

He has several interests, some being birdrake music—especially violin—hunting, fishing and myopathy.

He has just taken made his residence in Northville.

### Sportsmanlike Driving—Watch Your Brakes!

"How are the brakes on your car, Mr. Motorist? Will they hold in an emergency? Have you had them inspected recently? The brakes are the most important feature of the automobile. They are for your protection and for the protection of others. It's Sportsmanlike Driving to have 'courtesy brakes.'

### Sportsmanlike Driving—The Right-of-Way

With 28,000,000 vehicles moving on the streets and highways, the question of right-of-way is of the utmost importance to safety. Study the above illustration. When two cars arrive at an intersection at the same time, the car on the right has the right-of-way. Sportsmanlike Drivers are never too insistent about the right-of-way.

Although our first issue of the Orange and Black is rather small, we're building it up into a larger sheet when school really gets into full swing and the things that make news in a school page begin to happen again. This year we're going to do our very best to give you what you want in this paper. The page longer is required to make their own graduation dresses. This custom, which has been carried on for several years was objected to by most of the girls because of the expense involved and the extra time which is needed for participation in senior activities.

The board has long considered a change but has held off because it hoped to keep the graduation expenses down by limiting the price of the dresses. The class, however, favors caps and gowns which will keep costs down and still maintain uniformity.

The final decision of what will be worn will be definitely decided some time this fall.

Sewing will still be offered to senior girls; however, and about 39 girls are still taking this course.

Coach Harry B. Smith has had his charges working out at the fairgrounds until such time as they

will be permitted to practice at the park. Some of the lettermen back from last year's squad are as follows: Captain Walter Myers, Benji Duguid, Ed Baumgard, Dale Bray and Jim Neal and maybe one or two others that I have not mentioned.

This year's squad will be lighter in comparison to other suburban league teams. This ought not hamper them, however, for they have the old spirit of "do or die for N.H.S." and that is half of the battle.

There are many freshmen and sophomores out this year and the experience will benefit them greatly in the next year or two.

Northville has scheduled this year seven games, four away and three here. Following is the schedule Sept. 23—Walled Lake there Sept. 30—Open Oct. 7—Methdale here Oct. 14—Open Oct. 21—Brookfield there Oct. 28—Redford Union there Nov. 4—Trenton here Nov. 11—Vic Dyke, there Nov. 18—Plymouth, here

Northville has two open dates, Sept. 10 and Oct. 4. All of the games are should be very peculiar because of the rivalry involved. The Plymouth game will be played here and will be a "home" as far as football is concerned.

Nothing gives one person so much advantage over another as to remain always cool and unfurled under all circumstances. Yours truly,

### Kathleen Burke Heads Cast Friday

#### in "Rascals," a New Film Vehicle

"RASCALS" Kathleen Burke, the screen "panther woman," has undergone a transformation.

For the first time since she arrived in Hollywood five years ago, heralded as a girl of "feral beauty," the actress has succeeded in casting off completely—and she hopes forever—the aura of the sifester which the films threw about her.

In fact, she's so thoroughly fed up with this "panther woman" business that she has gone to the other extreme. She takes a rollicking comedy role in "Rascals," Jane Wilcox's new starring vehicle for 20th Century-Fox, scheduled here Friday and Saturday, Sept. 16 and 17, and she does so well that already a new career for the transformed young woman is being directed.

There are 41 new students in N. H. S. this year. In the ninth grade there are 25. From the Person school at West Point Park, comes Bruce Arnold, William Lewis and Henry Shepard; Elizabeth Merrell and Patricia Ford; Rose Leone and Raymond Rabinowski from the Putnam school in Northville township. From Novi come Robert Garlough and Rex Dye; Florence Rentchler comes from the wood school in Northville township. Joyce McNeil from Hinman; Louis Horak from Gordly; both of these schools are in Northville township. From Wash-Oak school, Northville, comes Jeannette Clark; Myron Utley comes from Thayer, Northville Union. From Novi comes Robert Gifford; from Vining Smith school, John Nagy comes from the De Kay school. From St. Paul's Lutheran school at Farmington comes Ruth Gagnon and Arleigh Hamlin; Betty Strong comes from Detroit; Jean Lute from Plymouth; Don Barnard from Detroit.

The new sophomores are Eugene Reaves from the Howe Military Academy; Marjorie Penberthy from the Coolot high school; Detroit; Gertrude Cottam from Detroit; Delora Wheeler from Woodland; Allen Hubbard from Detroit; Esther Wilder from Walled Lake.

Keith Abey from South Lyon is the only new senior.

The Kindergarten through the sixth grade has a total of 309. Last year there were 374 enrolled. The seventh grade through the eighth has 191 enrolled, which is slightly

less than the 213 of last year.
