### Asks Lord's Return

Northville's Methodist church joined with three other churches of its denomination Monday for the fourth quarterly conference, conducted by the Rev. Dr. W. E. Harrison, district superintendent of the Ann Arbor district, held in South Lyon.

**Ask Pastor's Return**  
Besides Northville and South Lyon, Methodists from Novi and New Hudson were represented at the conference, and like Northville, invited their present ministers to return for another year in their respective pulpits. The Rev. Dr. W. E. Harrison is the pastor at New Hudson and South Lyon. A student supply pastor, Douglas Parker, has the Novi charge.

If the Rev. Harry J. Lord of the Northville church is given a return assignment at conference time, in June, he will begin his fifth consecutive year serving the village parishioners. In commenting on the reports given by the organization heads of the local church, Mr. Lord commended the church school in its 50 per cent increase in attendance over last year.

**Name Committees**

Bogart, Charles Dolph, Guy Ekins, Ralph Foreman, Russell Steiner and Chubb Smith. The stewards are: Mr. Steiner, Mrs. E. M. Bogart, Mrs. Herman Berend, W. F. Clark, Mrs. Mrs. E. J. ## VILLAGE MERCHANTS SEND COMPLAINTS TO "ARMY"

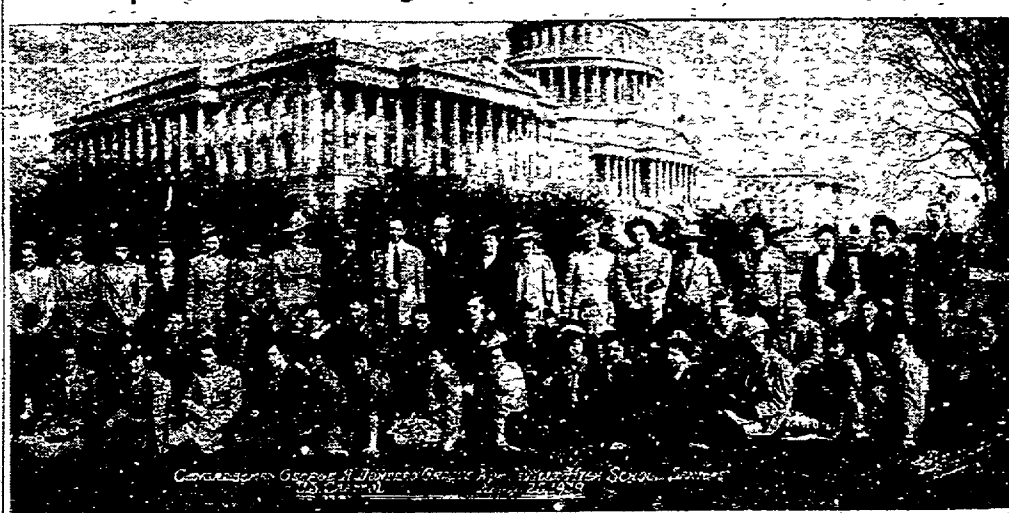

Complaints received by Captain Elizabeth Lemoire of the Salvation Army Post of Plymouth made by Northville business men and townspeople have prompted a statement for publication this week by Miss Lemoire.

"It has been brought to our attention that a woman goes through town weekly stating that she is from the 'Army' and many have said they donated thinking they were giving to the Salvation Army. This, however, is not the case. For the information of the public, may I state that real Salvation Army representatives wear the recognized uniform of the Salvation Army, namely, a blue uniform having 'S' on the collar. The women also wear a blue poke bonnet with Salvation Army printed, not written, across this. The men have a hat which is also finished off with a red band bearing the same inscription," explains Miss Lemoire.

**Visit Here Saturdays**  
Our local representatives from Plymouth visit Northville only Saturday evenings for the purpose of collecting. The only time we do house to house collecting is at the Christmas season when we are out calling to raise funds to provide Christmas baskets for the poor," she affirms.

"Since the World War, there has sprung up at least a dozen different armies who copy the uniform and methods of the Salvation Army as nearly as they think discreet and make the rounds of the small towns two or three times weekly, sometimes even going as far as to state that they are from the Salvation Army," she says.

## Children's Doll Collections Are Displayed at Library

Dolls from just about every corner of the globe are featured this week in a display arranged by Mrs. C. H. Bryan and Mrs. B. E. Larson at the Northville Branch of the Wayne County Library.

**Saturday Is Last Day**  
Saturday of this week will be the last day that the display will be up for public inspection. The entire collection was gathered from village children, mostly of grade school age, who have started individual collections. More than one of the collections was inspired by gifts brought from foreign countries by Mrs. Thad J. Knapp.

Such is true of the collection belonging to Marion Frances Larson, who is a member of the Doll Hobby club. Dolls representing oriental countries were submitted by Joan Montgomery, Alice Eaton and Dorothy Steiner. Dolls from Mexico and Haiti were brought back from a trip taken more than a year ago by Dorothy Field.

**Bride Is Featured**  
A typically dressed Jerusalem bride doll is the property of Alice Eaton. Mary Ellen Babbitt, Dorothy Jane Congo and Joan Tuck also have dolls in the display. Believing that a doll collection just wouldn't be complete without a Shirley Temple doll, Joan Tuck was asked to leave her treasure at the library for the pleasure of visitors this week.

The collection includes characteristic dolls of England, Hungary, Austria, Italy, America, Norway, China, Spain, Mexico, Spain, Hopi Indians, Hawaii, Eskimo, American Indian, China, Japan, Turkey, Russia, Greece, Switzerland, Poland, French Canada, Africa. Prizes in the group include a Vatican guard and his wife, a North American crop-sharer, a Russian mother and daughter and a burden Oslo beaver.

## Ruth Rounsville Buys Jack & Jill Shop This Week

Miss Ruth Rounsville, formerly of Detroit, now of 219 West Main street, has bought the Jack and Jill shop from Mrs. V. M. Pilgrim, and is personally taking charge of the buying and clientele.

Northville's attractiveness was largely responsible for drawing Miss Rounsville into her first individual business venture when she left Detroit seeking a gift or a children's shop. The shop, which was started here more than a year ago by Mrs. Pilgrim and which has received commendation from village residents because of its attractive displays, found its start fair with Miss Rounsville.

Miss Rounsville promises that the same quality of merchandise which Mrs. Pilgrim has kept in stock will continue to be featured in the Jack and Jill shop.

For 12 years Miss Rounsville has been in social work in Detroit. She was girls' director at the Sophie Wright settlement there.

## RAILROAD'S PLIGHT TOLD AT ROTARY

Speaking before the Rotary club Tuesday noon, Wm. Althens of Detroit, attorney for the P. M. R. R., explained the plight of American railroads, and spoke approvingly of the World's Fair at New York.

After giving the intricate tie in of railroads with the economic and political development of the nation and explaining the fact that 40 per cent of the railroads are in bankruptcy, and others in precarious condition, Mr. Althens thought that three answers were possible to the problem: First, government ownership; second, putting the railroads through the ringer; and third, adequate and complete regulation of all transportation and subsidies for all or none, but base the rate on the most economical unit. Mr. Althens thought that government ownership should be the last method, and suggested that given an equal break and universal regulation that the nation would see a return to an economical and highly efficient utilization of water, air and rail transportation.

Leslie Lee presented the speaker and, Supr. R. H. Amerman presided in the absence of the president. Ed Lapham, Harry Clark and "Mike" Gussell spoke briefly about their impressions of the Chatham convention which they attended Monday.

## VILLAGE TRUCK TO PICK UP TRASH, MAY 6

There Will Be No Cleanup Campaign Here This Year; To Oil Streets

### Deny Hamill Bill

Although no definite week is to be named this year for the annual spring cleanup drive, the village truck is to be put in use to haul away rubbish of all kinds (except ashes) early Saturday, May 6, when a tour of Northville will be made.

**Won't Take Ashes**  
Street Commissioner Earl Montgomery states that only rubbish placed in containers at the curbs will be picked up, Saturday by the truck. "We've been sending the truck through the village all winter. For this reason it doesn't seem necessary to set aside a whole week for the cleanup drive as we don't haul ashes away," he explained.

"It's like to large people to make proper use of the dump on Linden street," Mr. Montgomery told members of the council Monday evening. "Persons continue to throw their tin cans, broken baby buggies and trash in the dump's general direction—more often it lands in the road, rather than in the dump," he asserted.

**Can't Use Dump Long**  
"This dump isn't going to serve the village more than a year longer away. We've been fortunate in finding a place so close," he commented.

Councilmen have a cleanup program under way for the village at large. The streets are to be cleaned and new markings painted on the pavement. Another paving of oil is scheduled to go on the unpaved streets in the near future. Members of the council also discussed ways of cleaning up unsightly places in the business district when they met in regular session Monday evening in the Village Hall.

**Consider Curb Bill**  
When Herald P. Hamill, who supervised the construction of the village water reservoir, appeared Monday evening at the council table to present a bill for \$550 to cover the time he spent in overseeing the job after the original contract date for completion of the project had expired, Mayor Arthur S. Nichols informed him that "extra" could not be charged after a contract had been made. His bill of \$200 for appearing in court at the time of the Gilbertson vs. village trial was held, will be given consideration, Hamill was informed by Mayor Nichols.

## • Sweet Sixteen and Never . . .

Now you'd never guess it, not even suspect the local Exchange club was sweet sixteen. Last week that worthy service club celebrated its sixteenth birthday. Children long for more and better birthdays, we older folks don't have any more, but the Exchange boys are young enough to celebrate a birthday, and old enough so they cannot claim the innocence of not being kissed.

During the passed sixteen years Exchange has contributed much to the community and to its members. While many of us feel that service clubs are 99.44 per cent fellowship and the rest work, all of us know that fellowship engenders enthusiasm, creates and fosters ideas and ideals, and turns many tasks from work to fun. Many definite and concrete projects can be directly credited to the ingenuity of the Northville Exchange and if we subtracted the contributions of its members to a thousand projects during the sixteen year period Northville would seem barren indeed. Times and conditions change, men come and go, in Exchange clubs as elsewhere. Indeed, we feel that those four stalwarts who through the years have carried the flag for this club through 16 years are unquestionably entitled to the gratitude and commendation of the community. May we suggest that Northville is proud of the Exchange club, and raises her hand in salute in honor of those four men, good and true, Chas. A. Dolph, Elmer L. Smith, L. C. Stewart and C. R. Ely, who after sixteen years of continuous service are still carrying on as working members of the crew of the good ship "Exchange." They know what the club motto, "Unity for Service," really means.

We are told that those beautiful Japanese cherry trees in Washington do not bear cherries, wherein someone suggests they resemble many of the New Deal fancies.

Why are women like The Record, we are asked? Because, back numbers are not in demand; they have much influence, and every man should have one of his own and not borrow his neighbors.

## • "Again" . . .

We recommend that every American should read the editorial entitled "Again" in the Saturday Evening Post of three weeks ago. Read it twice; it is worth it. It is a most illuminating treatment of America's part in the World War, and to the victimizing of this nation by belligerent and postwar Europe. Its story of the U. S. A. being bled of 50 billion of dollars, of paying for foreign plants to throw American workmen out of jobs, etc., gives an aspect of where American folly has led us in matching wits with foreign nations. Every fraternal and civic organization would do well to discuss the thought provoked by this editorial.

We are being told that America is at the crossroads. Maybe, but its the first crossroads we've ever seen right in the middle of the wood.

May we offer our personal belief that S. L. A. Marshall spoke a real mouthful when he said that out on the hills and plains of America there is still a firm belief in the heart of millions of Americans that America is still the land of opportunity for whom they would march in peace or in war. Therein lies the potential strength of the nation to cope with any and every emergency that may threaten our nation.

## • "Unto Me" . . .

On the eve of her retirement from service may we offer our heartfelt congratulations to Miss Sarah Halsey of Maybury sanatorium. In few professions is it given to one to so serve than those who come in contact with you "call your name blessed." Given to welfare work, to service overseas, to the call of the visiting nurse service, and a laudable profession, Miss Halsey has lived a full life, and while often in the service of "the least of these" there is satisfaction and lasting comfort at the hour of retirement that the good book so rates your work as to definitely associate it with as being "unto Me."

And a good citizen believes that the next big community project sponsored by the Legion or other local groups will be a community swimming pool for the children. That project is worthy of the combined efforts of many local organizations.

Social security: A means of paying your money to the government to blindly buy something that you know not. The whole business is subject to the changing whims and caprices of legislators over the period between now and the time you are sixty-five. A pig in the poke — for anyone now under fifty. And if you go into business for yourself, why Uncle Sam keeps your contributions in safe keeping until you die or reach the glorious age of 65, when your ship comes in . . . and therein is part of the poke for the pig.

Rep. Nelson A. Miles of Holland has introduced a bill to license drinkers. We license hunters, fishermen, motorists, plumbers, electricians, businessmen, etc., and why not? Licensing should allow one good drunk a month, just to make it respectable.

Gilbert Arden Clark, 62 years, a life long resident of Northville, fell dead Monday shortly after noon in the Exchange hotel. Mrs. Hathe Summons, a well known resident in the vicinity of Northville, died at the home of her daughter in Pontiac. Workmen have started the construction of a wire fence along the street leading from Farmington avenue to Rural Hill cemetery. When the fence has been placed, they will also clean out the brush and make the street into a presentable thoroughfare. Lot owners have long urged this improvement.

## Walled Lake News

By CHARLES E. HUTTON

High praise for the Walled Lake Consolidated schools was received last week by Supt. C. A. Hoffman from Harlan U. Koch, assistant director of the Bureau of Cooperation with Educational Institutions of the University of Michigan.

Mr. Koch visited the local schools April 19, in the interest of continued accrediting by the university. He carefully observed every department of the school, conferred with every teacher and many students and spent two hours in conference with the superintendent and principal George Carpenter. He likewise studied exacting reports submitted by the administration to the North Central Association, the University of Michigan and the State Department of Public Instruction. The visit by Mr. Koch was not unprepared, his judging being made on an ordinary school day.

In a letter received from Mr. Koch by Mr. Hoffman following the inspection, highest commendation was given the teaching, the general conduct of pupils and the educational planning being promoted by Mr. Hoffman and Mr. Carpenter. Quoting from the letter "I left your school feeling that its educational tone is high. Whatever deficiencies may exist at present will I am sure

rather completely disappear when you occupy the new addition to your school plant. . . . All that I have to say may be summed up in the simple statement that if you and Mr. Carpenter, under the Board of Education, and your staff of teachers, continue to be as effective as you have been in the immediate past, the future of the Walled Lake school is guaranteed.

"Of course the foregoing things could not have been accomplished if the Board of Education and the citizens of the school district had not been in favor of the progressive things which are being done. . . . It is a meaningful cooperation of your Board of Education at some length because, in many cases, policies are restrictive instead of being constructive." It is apparent that the Walled Lake Board of Education clearly understands its place in the professional scheme of things.

The Walled Lake Study club met at the home of Mrs. Claude Lawrence last Thursday afternoon for its regular program and the annual election of officers. The new officers are: Mrs. Frank Carrier, president; Mrs. Minnie M. Hutton, vice-president; and Mrs. Everett McRae, secretary and treasurer. The officers will also be the program committee, with Mrs. Hutton, chairman. The program featured an excellent review by Mrs. Carrier of the book "The Days of Our Years" by the Dutch author, Barrie Van Praessen. A guest night program has been arranged the evening of May 9, by Mrs. Frank Miner, to be held in the home of Mrs. Ira Carnes. There will be dinner at 7 o'clock, followed with music by Miss Grace Halverson, Detroit pianist, with several of her students.

The high school senior class is sponsoring a program of entertainment, Friday night, May 5, to be known as "Juvenile Artists, Cavalier." Twenty students of the Walled Lake High School will be presented in dancing, vocal and instrumental music and acrobatics. A feature performer will be 4-year-old Carolyn Erickson, in acrobatic dancing.

Among the many Walled Lake men to spend the week end at Northern Michigan trout streams were several who journeyed to the Hi-Lo club, near Lewiston. They were: Clinton Vreeland, Harry Vreeland, Harold Hirsch and Ira Carnes. Also in the party were Lloyd Coe and James Gardner of Commerce, Stoughton, and Seven Dauchhoff of Detroit.

Kenneth Gregory, 19, Walled Lake, died Saturday morning of burns suffered when he and Stanley Keenon, 24, also of Walled Lake, were repairing a tractor gasoline tank, which exploded as they applied a blow torch. Keenon, also in Pontiac General Hospital, is in critical condition. Gregory and Keenon were at work on the Keenon farm, one mile north of Whom, when a leak in the gasoline tank of the tractor they were using was noticed. They drained the tank, but failed to allow time enough for fumes to evaporate before attempting to solder the defect.

Maynard G. Post, Walled Lake business man for the past 16 years, has purchased the C. F. Rose insurance agency. He will establish his office at his residence for the time being. Mr. Post operated the Ford Sales and Service agency here until a year ago. He expects to continue the present operation of his new business, but will expand to

provide a complete line of insurance and bonds.

Tommy Reimer, 3-year-old son of Mr. and Mrs. Leslie Reimer suffered face operations Friday, when he fell from a window sill to which he had climbed. Several stitches were taken to close cuts in his chin.

The Walled Lake fire department was called to extinguish a grass fire on the Smith and King property on Maple road, Saturday afternoon. This was the third such fire in the vicinity within a week.

## CLASS PRESIDENT TELLS OF TRIP

By ALFRED COUSINS

The seniors were greatly impressed by St. Peter's and St. Paul's Cathedral located on the outskirts of Washington. This building was started many years ago and will not be completed for many years to come. Its only rival is the Cathedral of Rheims both in size and beauty. These two cathedrals have no equal. The St. Peter's and St. Paul's Cathedral is built in the form of a double cross with chapels in all ends and mid sections of the cross. The ceiling in the main chapel that runs the length of the cross, is one hundred feet high, and is studded with marble keystones that range from eight inches to two and a half feet in diameter. They are round and contain Bible scenes and figures that were carved after they were placed, thus necessitating that the sculptor be on his back while working. Each chapel has an organ for its own use. These chapels were separated by large wrought iron gates that were a maze of small heads of birds, snakes, and animals. The gates have never been refinished with a file or saw, all work was done with the hammer and each gate had its key.

Northern lights of color cascaded down on the eight thousand glistening pipes of the organ coming from great stained glass windows whose glass is still made by hand exactly as the Venetians made it in early times. Lead strips separate each piece of glass and the colored window which might be 30 feet high appeared to have great depth so that one imagined himself seeing the actual events instead of looking at a picture of them.

For the boys who would be interested in driving big autos for the rest of their lives, the United States Secret Service or G-Men offer such an opportunity. The seniors of N. H. S. in Washington had the pleasure of seeing one of these autos. Every night at five o'clock the G-men take one of their 16-cylinder Cadillacs and drive from Washington to Mt. Vernon. This is about 14 miles and during the ride, these Cadillacs are driven at about 100 miles an hour. With tires screaming and tires whining on the curves they clear the entire road of autos. This is practiced routine work for the G-men. Bullet-proof glass an inch thick protects the men from pineapples or other such forbidden fruit of the underworld. A touch of a button and the trunk door flies open, then the back seat riders fire small cannon, specially built in, or machine guns, rifles and throw tear gas bombs. Other equipment may be carried from the car to quell riots and disturbances.

## French Club

The French club, which consists of French I and II students, had a candy sale Wednesday, Apr. 26 in the lower hall.

Most of the members of the French I class brought candy. Those who did not are to contribute money.

Mrs. Potter and Eugenia Stanford had charge of the project. The club plans to buy pins as soon as there is enough money in the treasury.

## Editor's Note . . .

Just one final word about the Palladium to all you students who are interested in buying one but just haven't gotten around to buying one. The book goes to press the middle of May and all orders must be in at least a week before the material is sent in.

Our school orators (or speakers) whatever they informed would call them) are merrily entering another contest this week. It's the Forensic district contest in which Marilyn Cavell and Julian Thorne will participate Friday, May 6, at the Quandt building in Melvindale; at 8:30 p. m.

Anyone interested in hearing this contest is urged to attend.

## 13-CLUB DANCE IS TONIGHT AT 8:30

By CHAPPELL

Come on, children, let's dance at the 13-Club which is to be held tonight at the good old N. H. S. gym from 8:30 to 11 o'clock. Just think for the price of one quarter a couple and 15 cents a stag, you can dance all evening to the sweet flowing music of the Blue Barons.

The 13-Club along with the girls' N-Club are going to try to buy a new electric score board for the gym. If the students and alumni of N. H. S. would get behind the two clubs and help boost the profits, it would be appreciated by both the clubs. The 13-Club has \$28.00 in the treasury and the aim is \$75.00, and \$47.00 is the difference between the two, so you can see that we need help, help and plenty of it.

## Grade Notes

Mrs. William Chizmar's first graders are keeping a weather calendar. This last month they had five sunny school days.

Tulane, German is bringing her hen to set in their room. It has 15 eggs.

They have two new turtles in their room. They also have some frogs' eggs.

They are making a town in their room. Last week they made the houses, this week they are making the stores.

Miss Ruth Carpenter's third graders have been writing spring poems. Here is one written by Patricia Byer Chase.

The Cardinal and the Sparrow  
See the Cardinal! See the Sparrow!  
See them fly through the air like an arrow!

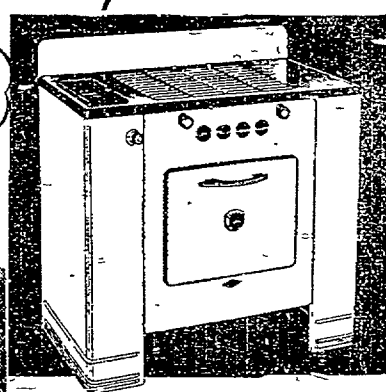

When the summer days are gone  
We like to hear the Sparrow's song  
In the spring of the year  
When the buds begin to come out  
In the glad spring time

You should hear the birdies sing  
Spring is here spring is here  
In the glad spring time of the year.

Mrs. Albert Stage's third and fourth graders are now reading and learning all they can about trees and flowers. They are making booklets in which they will mount real leaves with stories about them.
