Escaping the trap laid by his competitors, this hero of Lew Wallace's novel crossed the line a victor. Ben Hur acquired the strength and power for that hour pulling an oar on a rowing galley. His strength was born of adversity.

### And It Really Isn't Done With Mirrors.

This is the kind of fishing the not-too-energetic angler dreams about. Homer Harris and his son, Bill, of Atlanta, Ga., don't bother with hooks. And it isn't done with mirrors. Fishermen take their boats to the fair of a school of trout in Jackson lake, and as the fish make their quick, arching leaps out of the water, the side of the boat is tilted and the fish falls to the bottom of the boat. In two hours these men caught 18 pounds of whitehead trout.

### MICHIGAN MIRROR

LANSING. Amid apparent confusion, the legislature is racing toward a hopeful adjournment next week.

The determination of Governor Luren Dickinson to keep aloof of legislative squabbles has added to the prevailing complications. The governor has insisted chiefly on a balanced budget, the fate of which is still in the balance. He has exercised the power of veto on a measure legalizing the docking of horses' tails, declaring tartly that "if God had wanted horses to have shorter tails, he would have made them so."

For nearly five months the legislature has been in continuous session, and lawmakers themselves concede that only until the last few days has there been anything of major importance in the way of accomplishment. Civil service has been emasculated. Labor legislation has dwindled to a faint echo of the late Governor Fitzgerald's original program. Welfare control has been divided between supervisors and the State with \$9,000,000 a year allocated for the entire State. If the budget is balanced, it will be a miracle of first magnitude, and a genuine feather-in-the-hat for Governor Dickinson.

### More Tax Problems

The governor said frankly that if more money was to be appropriated, new or additional taxes were inevitable as he opposed the incurring of a further deficit.

Michigan's present intangible tax law is openly ignored. If it were enforced strictly according to the letter of the law, automobile owners threaten to move out of the state. Wealthy citizens would do likewise, so it is said.

Senator McCallum's tax proposal would raise approximately \$8,000,000 a year—an amount which Senator Earl Munsaw suggested be set aside to pay off the \$25,000,000 indebtedness.

size from a pin-point to a cent. Once in the fibers of a fabric, mildew stains are almost impossible to remove. Cotton is more susceptible than woolen goods.  
On leather bags or shoes, a growth of mildew can be brushed off if found promptly, and the article can be washed. Cloth bindings of books contain 50 per cent or more of starch and gum and are a favorable place for mildew fungi to flourish. A coat of clear lacquer on the covers and back will protect book covers from mildew and also from roaches and waterbugs.

**MICHIGAN FACTORY FORCED TO CLOSE**

By Rep. George A. Dondero  
The effect of arbitrary curtailment of sugar production in the United States under authority of the Sugar Act of 1937 is vividly shown in a concurrent resolution of the Michigan legislature.

A sales quota of 139,000 bags was assigned to the Northeastern Sugar Company, Mt. Clemens, for 1939 after a hearing in Chicago in February. The company had 170,000 bags on hand January 1, 1939, which meant that the company would be required to carry over 30,000 bags of its existing stock into 1940 even with no production this year.

With the Mt. Clemens plant closed, 1,200 farmers in St. Clair, Macomb, Genesee, Wayne, Monroe, Oakland, and Washington counties will be deprived of a market for sugar beets that they have had each year except 1931, when the plant did not operate because of adverse business conditions. One thousand farm workers and 300 plant employees will be left without work.

Although the company has appealed for a revision of the quota, notice has been received to the effect that no change is to be made in the original order.

Hundreds of residents of the Mt. Clemens area have protested to Secretary of Agriculture Henry A. Wallace because it is contended that the quota for the Northeastern Sugar Company is unfair and based in part on beet production in 1935, 1936, and 1937, when poor weather conditions resulted in light crops.

The concurrent resolution memorializes the Congress of the United States, the President of the United States, and the Secretary of Agriculture to grant immediate remedy to the beet sugar industry of Michigan and adjustment by equalizing the estimate of consumption to actual needs, based upon the actual consumption of 1938 and the extraordinary large carry-over inventory of sugar as of January 1, 1939, and that the Sugar Act be amended to provide a larger share of the American sugar market for the American farmer.

**FUTURE FARMERS ELECT**

After selection of Frank Merriam of Dackerville as the Star Farmer for 1939, the 284 delegates attending the 11th annual convention of the Michigan association of Future Farmers of America named five new officers. Sessions held at Michigan State College resulted in election of Dean Radtke, Morrice as president; Milo Horrocks, Onaway, vice president; Frank Merriam, secretary; Donald Smith, Stockbridge, treasurer; and Dale McAlvey, Farwell, member of the executive committee.

One of the longest-sought highway improvements in the metropolitan area was ready to be initiated this week with the approval of a low bid of \$187,608 on the Birmingham cut-off along Woodward avenue, State Highway Commissioner Murray D. Van Wagoner announced the R. D. Baker company of Royal Oak as the low bidder. Construction is to be started by June 1 and the cut-off opened to traffic by Sept. 1. The project calls for the construction of two 44-foot lanes of concrete pavement on the east side of Birmingham.

#### Presbyterian Mothers-Daughters Hold Banquet

Mothers and daughters of the Presbyterian church were seated Thursday evening, May 18, in the church house at tables which carried out a red and white motif in the appointments and programs

Mrs. W. H. Johnston presided at the program, introducing Mary Ellen Babbitt who gave a toast to the mothers. Mrs. J. J. Tait who gave a toast to the daughters, Jerre Heaney of Farmington, who played two piano solos; Marcia Spurling who gave two dances; Mrs. T. W. Smith who read poems from her own pen. Bouquets were presented to Mrs. Harry F. Wagenschutz who had the youngest daughter (Sally Jean) present; to Mrs. George Price who had five of her daughters with her; Mrs. Spencer Clark who was the oldest mother (89 years) present, and to Mrs. Clark, Mrs. Ray Van Valkenburg, Mrs. Clifford Stevens and Jean, who made up for generalities.

Mrs. Babbitt, Mrs. Dean Fete Merry-Go-Rounders

By Mrs. H. W. Hewitt  
The Merry-Go-Round met for their May meeting in the Presbyterian church parlors Wednesday when they were served a very nice luncheon by the ladies of the Nellie Yerkes Auxiliary with Mesdames Babbitt and Dean as hostesses.

Of course we would have the meeting better than another, always everyone is just the best ever and all are so happy to be together again. Fourteen of our members were present with two guests Mrs. Beal from Detroit, and Mrs. Cleaver from the Base Line. We certainly missed out two sick members and the two who are away; each one seems to have her particular niche in this club of old friends that no one else can fill, so when one is absent there is no one to take her place. A letter was read from one sick member, Mrs. S. Power, which made us all happy to know she is on the road to recovery.

We were invited to have our June meeting at the beautiful country home of Mrs. C. E. Rogers, assisted by Mrs. C. C. Chadwick. Don't forget the date, the fourth Wednesday, June 28, and let us all be there.

#### Mrs. Van Hove Entertains Wednesday at Luncheon

Mrs. D. H. Van Hove entertained Wednesday at a luncheon in her country home. Her guests, all of Detroit included, Mrs. George Luke, Mrs. Lydia Purce, Mrs. Fred Burden and Mrs. George Brink.

#### Laundry Installs Modern Equipment

A new double cylinder ironer, described as the most modern machine of its size and type, has been installed at the Northville Laundry. All ironed flat work handled by the laundry within the past week has been processed in the new unit.

Purchase of the ironer is in keeping with the policy of Cyril and Sidney Frid to improve the equipment of their laundry continually in order to render the best service possible for people of Northville and neighboring communities served by the local institution.

The new machine is automatic except for feeding of unfinished pieces and folding of finished pieces, which is done by hand. Steam heated to a temperature of 350 degrees provides the heat required for ironing and drying flatwork. This is contained in two large cylinders, each weighing about 3,000 pounds, against which cloths are pressed by padded rollers and two canvas "aprons" which carry the material to be ironed through the machine. The new machine differs from its predecessor in that it irons articles on

#### Both sides where the old merely ironed one side of the fabric. Seven tons is the weight of the new ironer. It has an ironing capacity of 100 inches width and can iron as many as eight sheets a minute.

The Frid brothers moved their laundry into a new building on North Center street just a little over three years ago. They have operated the laundry here 14 years.
