Local Horses Are Entered in All Divisions of Twenty-Third Annual Horse Show in Northville Ring

Wiedrick Buys Five-Gaited Gelding from Indiana Stable To Compete in Classes; Delores Blackett-Will Show New Ribbon-Winning Pony in Children's Events; Synders Buy John J. Hettche's Good News

ROGERS WILL EXHIBIT GARDHAM'S STABLE ENTRIES

For the first time in 10 years, Northville will be represented by local horses in all divisions of the Twenty-third Northville Horse Show, Aug. 16-19.

Elmer L. Wiedrick, president of the Northville Riding club, has announced that his stable will show no less than 12 head, and possibly more.

Mr. and Mrs. Carl Synder, Mr. and Mrs. Thomas Blackett, Delores Blackett and Olive Pemberton have already entered horses from their stables.

New Entry for Wiedrick

Mr. Wiedrick's Charcoal, a five-gaited gelding, purchased this week at West Baden, Ind., will be entered in the event. Another entry will be Mr. and Mrs. Blackett's beautiful chestnut walk-trot horse which has been bought from Dr. R. H. Elrod's stables in Toledo.

Delores Blackett will show a new dun-colored pony, a ribbon-winner at the South Bend, Ind. Show.

Coming as a surprise to local horse circles is the announcement that John J. Hettche has sold his well-known five-gaited Good News to Mr. and Mrs. Synder. Good News needs no introduction to the followers of the horse show circuit, having given outstanding performances at major shows in previous years.

Kathryn Appears Again

Kathryn Marburger, daughter of Mr. and Mrs. Harry B. Marburger, will show her consistent blue-ribbon winners, the chestnut mare, Princess K, and the ever popular dapple-grey gelding, Silverhoard.

The Evelyn Ruth Freeman stables were closed this year following Miss Freeman's marriage to Robert Haas of Detroit. The 1939 show will be the first in many a year in which there has been no representative of the Farm Crest stables. Carey Rogers, former manager of the Freeman stable, will exhibit George H. Gardham's Chief Brandt in the open hunt events.

Show Hoffman Horses

Fred Hoffman of the Park Stables will have entries in the event, as will horses from the Victor L. Slater stables in Plymouth.

Among the latest entries to be received by R. Edmund Dowling, secretary, is one from W. J. Thurston of Stratford, Ont., who will show four hunters and jumpers from his stable. The four will include Emperor, the winner of the five-foot open jump event of the Detroit National Horse Show.

Interpretation of Brigid in 'Shadow of Substance' Is Commended

Miss Peggy Blake, daughter of Mr. and Mrs. Harry F. Blake, has received commendable press notices in a Springfield, Mass., paper following her debut in "Shadow and Substance," which has been a recent presentation of the Band Box Players at Suffield.

Miss Blake did the role of Brigid, sharing honors with Marcus Menace.

Following is a review of a Springfield critic: "Agreement was general that Miss Blake achieved a remarkably fine interpretation of a most difficult part, which she played with complete understanding of its requirements and utter sincerity."

"Band Box followers were in many instances surprised to find Miss Blake cast so prominently, for here before she has played inconspicuous parts, but the choice of Mary Ann Dentler, director, was amply justified by the result. Indeed, Miss Dentler was taking no chances in this selection, for she has long recognized, she says, that Miss Blake had latent ability of a high order that has needed but to be developed."

"Miss Blake is a Michigan girl but first came in contact with the Band Box director in Florida, a couple of winters ago. She had had no dramatic experience at that time beyond the purely amateur. She applied to Miss Dentler for admission to her Florida company and, according to custom, was assigned a 'bit' part. Miss Dentler immediately recognized unusual talent, which has been in process of development since. Both in Clearwater and in Suffield, but prior to the present."

Fall Date Is Set for Oath-Filing

In compliance with the new State law, teachers must file their oath of allegiance by Sept. 29.

Attorney-General Thomas Read has interpreted this law to mean that no oath filed before Sept. 29, is properly filed, and that oaths will not be accepted after the expiration of the 90-day period following Sept. 29.

Mr. Read points out that the failure to take and to file the oath before Dec. 28, 1939, the close of the 90-day period for the coming year, will mean that the teacher will not hold a legal certificate of qualification and therefore can make no contract to teach in the State of Michigan.

The oath of allegiance required of teachers by Act 54 of the Public Acts of 1939 must be taken before any court of record, circuit court commissioner, notary public or justice of the peace.

Career Begins

Miss Peggy Blake, who has selected a stage career for herself, is beginning to realize her dramatic ambitions with the Suffield Band Box Players.

VanHove Industry Selects Chelsea Site for Business

Announcement was made of the location of the Chelsea Spring company, a D. H. VanHove industry in the Sterling Michigan Corporation Building at Chelsea. For several weeks this company scouted Northville as a possible point to locate this new plant.

Says the Chelsea paper: "In an announcement, made public for the first time, it was revealed that D. H. VanHove of Northville, is president and treasurer of the new company, Harry Fante of Chicago, is vice-president, and Miss (Continued on back page)"

Wildlife Members Meet To Discuss Hunting Plans

Construction Starts on Club House and Skeet Field Near Plymouth on Territorial Road

\$500 Is Project Cost

The working out of the Williamson plan and the creation of club house and skeet field are matters which are concerning the members of the Western Wayne County Conservation association.

A public meeting has been called at 7:30 p. m. Monday, Aug. 7, in the Hotel Mayflower, Plymouth, for a study by the members of the Williamson plan for this year. As Wayne county is the only county in this vicinity which will open the hunting season this year on Sunday, Oct. 15, some plan is to be worked out to keep from having a wholesale slaughter of game by a barrage of hunters.

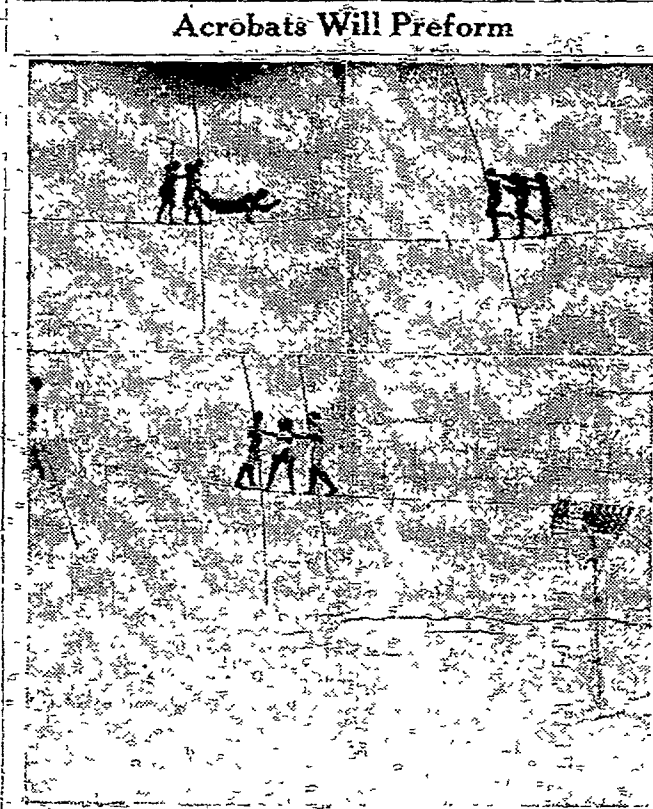

Limit Hunters

The Williamson plan is a system of issuing tickets to hunters permitting them to hunt on a farmer's property. Tickets are limited in this manner, regulating the number of hunters in this section of the county. Oakland, Washtenaw and the counties south of here will not open the season Sunday.

President B. E. Champe of the association, is particularly anxious to have the farmers and landowners attend the meeting Monday at the Mayflower. He says that the plan has a distinct advantage for farmers and that all should be present to formulate the plan to the best advantage.

Joan Koldyke Finds Alaska Full of "Beauty and Wonder"

Joan Lu Koldyke has returned from a 20-day trip which took her to Alaska. She's back to take care of her chickens and get a few ticks in on the matter of spelling just to get a head-start on the Metropolitan Spelling Bee of 1940. (She was one of the last 11 to go down in the 1939 Bee.)

Her Dreams Come True

She's the 10-year-old daughter of Mr. and Mrs. M. J. Koldyke who had the ambition to make a big dream come true—that of taking the Buchanan trip to Alaska. She fastest chickens sold eggs and brothers to pay her share of the cost. Then just a few weeks before the trip was scheduled, it was learned that Buchanan had made no provision in his will for the continuance of the excursion. Ruth or than have her dream trip crash about her, she, and 31 other girls and boys borrowed the fund of the money that was originally to have been paid by the Buchanan fund, and off they went.

Joan already has paid off \$50 of the loan by selling her brothers' "I just have \$100 more and then I'll be out of debt. I can do that, too, in a year—if I squeeze the chickens," she said.

Edgewater Observes Annual Tiger Night

Over Edgewater Park way, activities are under way for the sixth annual Tiger night, which will be Thursday, Aug. 10.

Already 12 of the Tigers have said they'd be on hand to speak from a platform over a public address system, along with Ty Tyson. They are: McCosky, McCoy, School Boy, Rowe, Trout, Fox, Croucher, Cullenbine, Rogell, Coffman, Newsome, Kress and Bell.

Admission to the park is free, but strips of tickets for the rides may be received without transfer of cash upon the presentation of a Wheaton box top.

Northville Fair's Opening Day Focuses Attention on Oldtimers' Baseball Game, Junior Horse Show Parade, Fireworks

Three Prizes Will Be Given to Original Rigs in Grandstand Event Early Wednesday Evening; Village Merchants Support the Event; "Singing Bill" Byron Will Umpire the Afternoon Oldtimers' Ball Game

HARRY GERMAN WILL TAKE HIS PLACE ON THE MOUND

The fair board has outdone itself this year to offer noteworthy opening-day attractions for the twenty-third Northville Wayne County Fair, Aug. 16-19. There's to be a ball game between the Detroit Country Oldtimers and the Pontiac Oldtimers. A pet parade will highlight the early evening program in front of the grandstand. Brilliant fireworks will climax the first night's festivities and be repeated throughout the four-day events.

The two oldtimers' teams will be composed of a number of past stars of the game and each club will have no less than 12 or 15 players. Some of the players on each of the teams have been playing all season and are in condition to last through the entire game. Most of the men will be between 35 to 60 years of age.

Successful Season

Harry German, Carlton, will head the Detroit-Country Oldtimers' team. This team has defeated Flat Rock, Monroe, Romulus and Plymouth during the current season. In the lineup with German will be: Bobby Veach, Mike Menoskey, Harry German, Jr. (baby of the club), Stanley Darling (the Kansas City clown), George Oliver, Al Dittich, Tony Dugray and Frankie Fuller. The list of other players has not been released.

On the Mound

German and Feltrich will be on the mound, while Over and Crutenden will be on the receiving end. The Pontiac Oldtimers will be headed by Goodrow Rogers, who at one time was an ace with the St. Louis Browns of the National League. He is a catcher and his

will be on the mound the opening day of the Northville Wayne County Fair, Aug. 16, when the Detroit-Country Oldtimers will meet the Pontiac Oldtimers.

Farm Projects Net Profit for Boys at Walled Lake

A final report of work by the agricultural students of the Walled Lake Consolidated School for the year 1938-39, has been released by W. A. Proctor, the school's agricultural instructor.

The report discloses that 29 projects were completed, and that total income of the boys from their practice programs was \$1,719.89. The projects were divided as follows: Potatoes, 6, for a net income of \$386.15; corn, 3, \$381.12; garden, 3, \$56.08; poultry, 3, \$336.15; hogs, 6, \$131.68; dairy, 11, \$653.02; bees, 1, \$18.73.

In addition to productive projects, a number of the improvement type were completed, including 7 in landscaping, 2 in farm shop, 3 in machinery repair, 1 in drainage, and 1 in green manuring. Other farm jobs that figured in their programs and were supplementary to their farm work as a whole were the pruning of grape vines and apple trees; keeping feed records, culling poultry, white-washing the dairy barn, and other activities. A total of 30 different types of farm projects of this classification were completed during the past year.

During the year 1938-39, 35 boys are carrying work to be completed in the spring of 1940, as a part of their regular school work. The combined program includes potatoes, corn, popcorn, cucumbers, garden, landscaping, hogs, sheep, poultry, dairy, bees, rabbits and goats.

Fifteen boys of part time classes last winter are continuing with supervised farm practice. Among the projects being carried on by this group are potatoes, corn, orchard, poultry, hogs, dairy dairy herd records under D. H. J. A., and complete farm accounts.

When Mr. Beall first entered the service, gas engines were used, and later came the diesels. He served on the G-4, 172-foot submarine of 300 tons. After explaining the technical points of the submarine, its function, describing the ship upon which he served, Mr. Beall in an interesting manner, presented some rather graphic accounts of his experiences, and narrow escapes while in the service. Mr. Beall feels that the best safety device for a submarine is the engine room.

Crickets call: a low moon paints deep shadows
Behind the trees and fences and the barn,
And even the tomato plants build small images
In the dark, and spread them over the garden.
The corn prickles through the heavy mist,
And moves a little when the wind brings the smell
Of now mown hay down from the hills.

Army Aviation Has A Birthday . . .

Wednesday, August 2nd, the U. S. Air Corps was 30 years old. The anniversary is significant today in the light of tense international affairs, and the important part that air armadas are playing in European "power" politics.

Three decades ago the newly organized aeronautical division of the army bought its first plane—a Wright biplane—40 foot wing spread—4 cylinder water-cooled engine—wooden propellers driven by a gear and chain—25 H. P. at 1400 R.P.M. Specifications called for performance as follows: speed 36 miles per hour; remain in the air with two occupants for one hour; maximum range 125 miles; and lend itself to transportation in an army wagon.

The modest beginning did not vision the "Flying Fortresses" of today of the new 40 passenger Douglas; the transocean flyers, pursuit craft with a speed a secret of the army, but known to rate over 300 miles per hour; the luxurious transport planes or the trail blazers of the Pacific. Nor did those experts of that day dream of the potent factor of the plane in modern times. The fear of air forces today holds Europe in a tense grip, and is remaking the map of that continent. A nation today with an adequate air force is inviting disaster in the world game of "Have, Take and Get, or Have Not."

Here in America, although one of the first nations to recognize commercial and military possibilities of the airplane, we have until recent years neglected our air defense. Recently we have developed the finest of training schools. The caliber of our planes have been superior even if the number were small. In certain categories, notably pursuit craft and light bombers, we are inferior in regard to development. But in long range bombers of the "Flying Fortress" type, and in naval aircraft we are without a peer—two types of craft which are particularly essential to the defense problems of our country.

Congress has lately authorized a notable expansion in our air force, both military and naval. To those who believe that it is good sense to begin to take precautions ahead of time, such expansion seems thoroughly justified. You can't talk disarmament when the gangster spirit pervades international relations.

It is interesting to note that Charles Murphy of Northville viewed the flight of the first army biplane from the window of the hospital at Fort Myers on that August 3rd thirty years ago. Mr. Murphy was recovering at the time from an appendectomy operation.

It is apparent that Governor Dickinson has not seen all of Michigan. If he had he would not have taken New York so seriously—Pigeon Progress. But you'd be surprised, putting all kidding aside, how many people respect Michigan's "Uncle Dudley" for his sincerity and courage to speak out and sound a warning many have felt needed a champion in high places.

Our America . . .

The greater part of this country and the vast majority of its people form the real, appreciative America that you and I love. By far more Americans are essentially American than outward appearances would confirm. Despite isms, pacifists, commercial and religious affirmations to the contrary, youthful America would rise in time of need to defend the homeland. The majority of our people yet form the America we love.

These people take pride in daily work and achievement, do not feel that the country owes them a living, or expect the other fellow to support them. The burden of American ideals and ways is not heavy, if we carry our share. The real America knows this, and despite frenzied orations and demonstrations is not disturbed, four ours is the finest system the world has yet conceived. America is a great partnership, it benefits accrue according to the ratio of the responsibility we assume.

To the Editor

In the July 14 issue of The Northville Record there appeared on your editorial page the liner, Do you know that Northville's grade school building is considered outstanding in educational circles? Besides this, in a previous edition of your paper an article told of commendation which the building had received from an architect's magazine.

These assertions lead one to ask, Upon what basis is this rating determined?

Surely it cannot be said that the expenditure of the allotted amount of money used in erecting the grade school building was spent in such a way as to provide for the school's needs most effectively!

The grade school building erected as it is provides only for the needs of part of the student body whereas a grade school addition to our present high school unit would have served the grade's needs as well as relieved the crowded conditions in the high school. The fact that there are not sufficient classrooms in the high school was known at the time ground was broken for the grade building. Our high school library's space is so limited that adequate supplementary books for classes have not been purchased. Not only this but lack of room has not permitted the filing of sufficient reference material to handle properly assignments in science. Themes! At this point the question arises "Could the standards have been very high that placed Northville's high school on the three-year accredited list with our library as it is?" An addition to our present high school building could have made it possible to have lengthened the assembly room so that more seats could have been added and at the same time enlarged the stage. (Every school director of musical or dramatic performances complains of the lack of adequate stage space.) Then too, arrangements could have

been made available for a nurse's room which would eliminate the use of the teachers' rest room for health check-ups.

Because of these deficiencies in planning and because practically all of the modern phases now commended in the grade building could have been incorporated in a grade addition to the high school building, I feel that the editor of the architect's magazine—who lauded Northville's grade building as outstanding—was not a student of the principle characteristics in rating good architecture, that of the needs of the group for which a building is planned.

The second characteristic of good architecture, which this editor failed to consider when adjudging our project outstanding, was that the building be artistic and harmonious in relation to its surroundings.

Would not a grade addition of the same color and style of architecture as the high school building give us a more harmonious and artistic unit than our present hodge-podge?

Our community has not the wealth of Cleveland and can hardly hope for its artistic achievements in civic planning, but some principles adhered to by the Group Plan Commission responsible for making Cleveland one of the most beautiful cities in the United States might be worthy of study.

The Commission believes "That one material should be used throughout its civic center and that a uniform scale of architecture should be maintained in each building's design with this cornice line of each uniform in height."

The Commission further believes, "There is a distinct loss in showing the use of unrelated styles or no styles in schools, fire, police, and hospital buildings and that uniform architecture should be used for each."

The jumble of buildings that surround us in our cities contribute nothing valuable to life. Let the public authorities, therefore, set an example of simplicity and uniformity not necessarily procuring monotony, but, on the contrary, resulting in beautiful designs entirely harmonious with each other.

In the light of the above mentioned reasons, I believe that the liner appearing among your editorials of the July 14 issue of "The Record" not the opinion of authorities worthy of consideration.

Yours or a better community, Grace Hawkins.

MICHIGAN MIRROR

Counties "must take up the slack" in cost of relief, it is announced by Walter F. Gries, chairman of the state social welfare commission.

With the state "broke" (at least \$30,000,000 in the red) and with a reduced state appropriation available for the present fiscal year, the state commission allocated \$550,350 to counties for August relief. Counties had requested a total of \$1,207,672. Wayne county alone wanted \$488,000.

Under terms of the new act, counties are given final authority over relief expenditures. When state funds are exhausted, responsibility for maintenance of welfare according to the new act falls back on home governments. Are all counties doing as much as they can for relief of unemployed? The commissioners think not. Jackson county, for instance, expended \$440,000 for a new courthouse in 1938 when it contributed only \$9,000 for relief while the state was giving it \$583,000.

Officials of some counties, however, think otherwise. Quoting G. R. Harris, Wayne county welfare superintendent: "Counties are limited by the 15-mill amendment and some of them can't raise enough taxes altogether to meet their relief costs."

Problem of State Aid
The relief problem into which the state aid to local governments has mounted in the past few years.

Back in 1933 the total of revenues collected by the state and turned over to counties, townships, cities and school districts did not exceed \$40,000,000 a year. Within six years the state's tax load in behalf of local governments only has grown approximately \$65,000,000, for a grand total of more than \$100,000,000 or half of all the money that the state collects.

The schools obtained more than \$25,000,000 more each year.

County and township relief commissions last year absorbed nearly \$40,000,000.

County road funds received \$30,000,000 from the state treasury. And so the story goes.

What is the answer? Will "home rule," which lawmakers talk about so fondly, stop the apparently increasing trend toward more spending of money for governmental public services? Here is a neat question. The property owner and consumer, who together constitute Mr. Taxpayer, must provide the answer. After all, he is the fellow who votes the bill.

Vulnerable G. O. P. Spots?
Conference between Murray D. Van Wagener and Frank Murphy at Washington over 1940 politics are said to have elicited a comment by the former governor that the Michigan Republican administration has two vulnerable spots in its armor at present.

1. Revision of civil service by the legislature. Murphy's belief is that civil service is now largely a figure of speech, instead of safeguard for good government. Kenneth C. Pennebaker, whom Governor Dickinson appointed to succeed Brownrigg as civil service director, apparently shares Murphy's ideas, for he recently declared that the administrative board's action in refusing an addition \$101,500 has assured that the law "from now on is a gesture." And he added "We might as well close shop."

Facts are that civil service cost money. The department spent \$280,000 last year, the legislature cut its request for \$360,000 down to \$75,000. Of this amount, \$15,000 goes for salaries of the five civil service commissioners.

2. Non-partisan public health department. On August 1 Dr. H. A. Moyer, personal physician for Governor Dickinson, succeeded Dr. Don W. Gudakunst, as health commissioner. Dr. Gudakunst, who is a Republican, was appointed by Murphy on recommendation of the American Public Health association.

A report just released by the association, after a 11-month survey of Michigan's health facilities recommended a "non-partisan" appointment of the commissioner by the state council of health. A sentence says: "The fact that the commissioner of health is appointed directly by the governor and may be removed by the succeeding administration, without any consideration other than that there has been a political change, makes for a lack of efficiency and results in a periodic lowering of the morale of the entire personnel."

Medics to Serve
Apropos to the home rule situation in which the welfare problem finds itself is that resulting from the current curtailment of state aid for care of crippled and afflicted children.

The legislature, economy-bent, limited each state aid to \$800,000 for the entire state. This sum was only \$100,000 more than the 1938 quota for Wayne county alone. If any county feels that the state aid quota is insufficient, it may supplement the amount.

When the cut was applied, criticism was voiced that the administration was neglecting the welfare of children. The Detroit Medical Journal, publication of the Wayne County Medical society, took a middle-road position to the effect that, doctors could not afford to quarrel with the legislature in the latter's effort for economy. This stand was applauded widely by the press.

The Michigan Medical Society has taken a fairly liberal attitude toward the subject of public health. Physicians and hospitals say they will willingly do their part not to deny medical aid to anyone in an emergency. Furthermore, the society took the leadership this year to pioneer a new field of group health insurance. Incorporation papers have been filed, and the program will get under way shortly after Sept. 18 when the society holds its annual meeting.

No other state has a comparable health insurance program.

FORD V-8!

Are you "fed up" on motor car claims and counter-claims? Here are some FACTS—and FIGURES—on the 1939 Ford V-8. We think they indicate that behind the STYLE LEADERSHIP of the Ford V-8, there's QUALITY LEADERSHIP! Why not see us today, and ask us to PROVE to you that the Ford V-8 is the car you've been looking for!

WORLD'S MOST MODERN AUTOMOBILE ENGINE

V-type engines hold records on land, sea and air. Every high-price car in America has eight—or more—cylinders. Yet ONLY FORD gives you a V-type "eight" in a low-price car!

BIGGEST HYDRAULIC BRAKES!

The Ford V-8 has the LARGEST DIAMETER BRAKE DRUMS, and largest SERVICE BRAKE LINING AREA, of any leading low-price car! Hand brake operates rear wheel brakes.

BEST GAS MILEAGE

In the 1939 Gilmore-Yosemite Economy Run, an 85-hp. Ford V-8 averaged 24.57 miles per gallon (as reported in Motor Age)—BEST GAS MILEAGE of the leading low-price cars!

LONGEST RIDEBASE

The Ford V-8 springbase is 11 inches longer than that of one leading low-price car, 9 inches longer than that of the other. Yet ease of handling and parking is not decreased!

SOFTER SEAT CUSHIONS

Actual scale drawings show the SOFTER, THICKER SEAT CUSHIONS in the Ford V-8, compared with another leading low-price car—6 rows of luxury springs, compared with 2!

STRONGER CONSTRUCTION

Comparative drawings show you Ford's DOUBLE REINFORCED X-TYPE FRAME, bridge frame of another low-price car—typical of FORD QUALITY LEADERSHIP!

AND ALL THIS IN ADDITION

Style Leadership! • Scientific Soundproofing! • Triple-Cushioned Comfort! • Center-Poise Ride! • Stabilized Enclosed Chassis! • Low Prices Include Complete Equipment!

Walled Lake News

By C. E. Hurton

A small fire at the cottage of John Binder at 3181 Buss street, Oakley Park, did damage to the interior Sunday afternoon. A davenport in the cottage caught fire after the occupants had gone away. Fred Berto, a neighbor, discovered the blaze and called the Walled Lake fire department. Berto pulled the davenport out of the cottage before the department arrived. Damage was not extensive to the place.

High tension wires which became crossed, near the Grand Trunk railroad station, Monday morning, threatened danger by fire and pos-

sible contact with road traffic, before John Olson, electrician, climbed a pole supporting the wires and cut them. The Walled Lake fire department was called, as a precaution.

Weekly Once-Overs

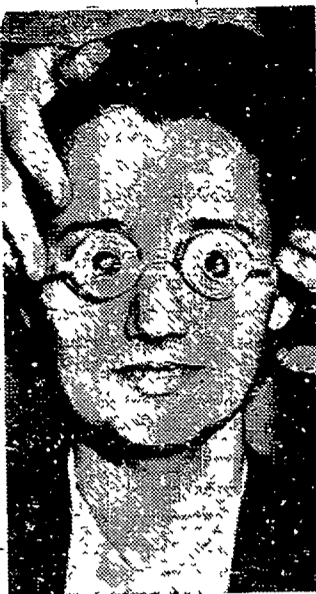

Mrs. Kent Tufford, bathing beauty, contest chairman for the Civic Welfare Club's Moonlight Festival, advises me that nearly 30 aspirants to the title of 'Miss Walled Lake' will parade themselves before the spotlight and the eyes of a thrill-seeking public, this Wednesday evening. I expect to be there for news purposes, of course, and may include an impression or two in this bit, next week.

F. L. Tuttle can now trace his an-

cestry away back when, with the aid of a voluminous if not exhaustive search of the family tree, done by experts, for three bucks. Queen Elizabeth, no less, is stated to be one of the roots. Along with the report is included a reproduction of the family crest, with a lion and an impressive Latin motto, something like "ERECTUS PLATUS PITUS" or some such "US". All of which should entitle Frank to a membership in the Sacred Order of Stars of the Milky Way. Will somebody write Skybrother Goog?

Just saw Earl "Muck" Alexander, who tells me his five-year-old daughter now has a new brother, Robert Earl, born July 18. Mrs. Alexander is doing nicely, and is again home, from the hospital.

Sight for Semi-Blind

The myriad pleasures of sight have been regained for the semi-blind through use of the telephoto-magnifier, a new type spectacle lens, members of the American Academy of Optometry were informed recently. Representing the largest spectacle magnification yet achieved for distant vision, 200 per cent, the new device has already returned children to blind institutions to public schools.

Earl, Jr., is likewise doing well, and a swell job of sleeping, too. Earl, Sr., is feeling pretty good, too.

A saddle is no respectable substitute for a sulky, in the mind of Deputy "Mac" McQuern, who is put out in a big way because the Northville Fair racing heads don't see it that way this year. For that matter, they don't at Milford, either, he says. So he's going to Fowerville, and maybe to Ionia. Mac likes horse racing, and no frills.

Paradox: A tee-totaling spirits abstainer I know, hereabouts, has as one of his favorite sing-song sayings, "Ho, ho, ho, and a bottle of rum."

Mrs. T. W. Smith writes from New York. "The weeks have gone very fast. Tomorrow Dr. Smith preached his last sermon in New York. Last Sunday 200 of the old congregation came from far and wide to see him in the North church—that is very wonderful in New York City after 20 years' absence from the city. There was a reception after the service, and after that a dinner attended by 60.

Noted Americans To Be Honored by New Stamps

A thirty-stamp series is to be issued by the United States post office honoring famous Americans, including Booker T. Washington, the colored educator.

Scheduled to be released this year or early in 1940, the series will be divided into seven groups, each honoring men and women in a dif-

ferent profession.

To be honored in this manner are:

Authors—Ralph Waldo Emerson, Samuel L. Clemens, Washington Irving, Louisa May Alcott and James Penimore Cooper.

Artists—James A. McNeill Whistler, Daniel Chester French, Augustus Saint-Gaudens, Gilbert Charles Stuart and Frederic Remington.

Poets—Henry W. Longfellow, Walt Whitman, James Whitcomb Riley,

John Greenleaf Whittier and James Russell Lowell.

Educators—Horace Mann, Charles E. Eliot, Booker T. Washington, F. E. Willard and Mark Hopkins.

Inventors—Alexander Graham Bell, Eli Whitney, Samuel F. B. Morse, E. Howe and Cyrus McCormick.

Composers—John Philip Sousa, Edward A. MacDowell, Stephen Foster, Victor Herbert and Ethelbert Nevin.

Scientists—Luther Burbank, Dr.

E. Crawford Long, Dr. Walter Reed,

J. James Audubon and Jane Addams.

Water safety classes in Oakland county will continue for three more weeks and tests will be completed during the final week. Over three thousand persons have participated in the water safety program of the Oakland county chapters of the American Red Cross during the first five weeks of the summer program according to Elmer B. Hartman, life saving chairman of the chapter.

Optometric Service Up-to-the-Minute

To offer the community the very last minute scientific developments in the field of optometry is the CONSTANT AID of DR. JOHN A. ROSS.

Come in and see how the Binocular Ophthalmoscope aids in the diagnosis of the retina.

Binocular Ophthalmoscope recently installed in office of Dr. Ross.

For the most critical examination and resulting thorough diagnosis of the retina of the eye, the Binocular Ophthalmoscope offers the most efficient method known today.

This binocular instrument gives stereoscopic perception of depth and high magnification, combined with brilliant illumination. All of these factors are extremely important for a thorough and complete diagnosis of fundus pathology.

One important feature of the Binocular Ophthalmoscope is that the condition of the eye can be shown to interested relatives of the patient, who can thus readily understand the doctor's explanation of the conditions existing in the patient's eyes.

This instrument is a product of the BAUSCH & LOMB OPTICAL CO., Rochester, N. Y., "America's leading optical institution."

Northville Police Get New Directory

Chief of Police Earl Montgomery has received the sixth edition of the Police Telephone and Directory issued by the Michigan Bell Telephone company in compliance with the company's policy of aiding the federal, state, county and municipal law enforcement officers in their war on crime in the State.

According to J. R. MacLachlan, the company's manager in this area, copies will also go to the newspapers for the use of their editorial staffs in getting into quick touch with the authorities.

Listed in the directory are the names and telephone numbers of the chiefs or heads of all municipal police departments, sheriffs of 83 counties, commanding officers of all of the 39 State Police posts, and the several federal law enforcement bureaus or branches in Michigan, including the Alcohol Tax, Unit, Bureau of Narcotics customs Service, Federal Bureau of Investigation, the Immigration and Naturalization Bureau, post office inspectors, Treasury Department Secret Service, U. S. Marshals and their several units and branches.

Reproduced in the book is a map which shows the layout and location of municipalities in the Wayne county. It also lists the names of the 23 machines in use. The Wayne county police telephone system ties together the Department of State at Lansing, the Detroit and Rockwood State Police, the Wayne sheriff's offices, Detroit Police Radio Station on Belle Isle, Grosse Pointe Township Police Radio Station and the police departments of the following municipalities: Dearborn, Northville, Detroit, Ecorse, Wyandotte, Flat

Rock, Plymouth, Highland Park, Hamtramck, Grosse Pointe City, Grosse Pointe Farms, Grosse Pointe Park, Grosse Pointe Shores, Lincoln Park, Melvindale, River Rouge, Trenton and Wayne.

Contest for Camera Shots Ends Aug. 21

Less than two weeks remain before the windup of the 1939 Michigan amateur camera contest sponsored by The Northville Record in cooperation with the Michigan Press association and Michigan State Fair, Detroit.

The winning snapshot may be a scenic view of a lake, stream, valley or of some interesting personality in Michigan. Some \$200 in prizes will be offered to the winners.

"The four tourist associations are always on the lookout for good photographs," said J. Lee Barrett, manager of the Southeastern Michigan tourist bureau. "Michigan abounds with scenic spots, and camera enthusiasts should have no trouble getting photographs which we would be glad to use. I heartily commend the newspapers for the state-wide contest, and am looking forward to seeing the exhibit at the State Fair in September."

The contest closes, Aug. 21. Snapshots must be sent directly to the Camera Contest, State Fair, Detroit. Prints must be not smaller than 8 x 10 inches, mounted on white board not larger than 16 x 20 inches, and each picture should be accompanied by name and address of entrant, date and place picture was taken, make of camera and if possible the lens opening. Prizes will be presented to the winners as a feature of Press Day Saturday, Sept. 2.

State Commission Sets Hunting Date, Oct. 15

The State Conservation commission has renewed closed season orders on pheasants in the upper peninsula, Presque Isle and Benzie counties, and set the lower peninsula pheasant season from Oct. 15 to Nov. 5, five days longer than last year.

It failed to accept the petition of some sportsmen that the season open a day later because the opening day, otherwise, would fall on Sunday and force the opening day rush of hunters into counties which do not forbid Sunday hunting.

The season for prairie chicken, partridge, ruffed grouse and sharp-tailed grouse was set in the upper peninsula at Oct. 10—eight days longer than last year and in the lower peninsula at Oct. 15—Nov. 5—five days longer than last year.

For the first time in two years, a fox squirrel season was opened from Oct. 15-Nov. 5. The upper peninsula, Emmet and Chippewagon counties were continued closed.

Gray squirrel hunting will be permitted inside on areas roughly east of Howard City, north of a Howard City-Port Sanilac line, and south of Pile Lake. The rabbit season was set at a month longer, from Oct. 15-Jan. 31 in the lower peninsula and from Oct. 1 to Mar. 1 in the upper peninsula.

Under a new legislative act, the commission ordered skunks protected except between Nov. 1 and Jan. 21.

All existing deer regulations were re-enacted.

Keweenaw and part of Houghton county were again closed to bear hunting and, on motion of Commissioner Joseph Fahilly of Newberry, the commission said that if any county board of supervisors requested before Sept. 1 that its county be closed to bear hunting, station sanction would be given during the deer season.

The commission opened the Pigeon river, Luden, Moosess river, Alpena and Cassin game refuges to large and small game hunting and said the Midland refuge would be closed except in the deer season.

Camp Fire Notes

By AUDREY KELLER, Scribe
Thirteen Camp Fire girls attended the meeting Tuesday. They worked on their symbols and camp books. Next week work will be on the headbands.

Mary Agnes Merritt and Gertrude Haskins were visitors. Meeting was held from 2 to 4 p. m. each Tuesday in the Scout building. Joan Litsenberger and Lois Tait are back from camp. Lois told of her experiences at Camp Wathana, the Camp Fire camp. Joan described her over-night hike at Camp Mesawakee.

Shirley Lyke was absent because of a cold. Alice Harper is going to practice the Camp Fire songs so that she can play them at Camp Fire meetings.

Mr. and Mrs. George Hayne and son, Donald of Detroit, and Mr. and Mrs. Charles Gilbert and children were Sunday evening guests of Mr. and Mrs. Lucian Gilbert. Miss Olive Grimwade, Farmington, was the week end guest of Miss Shirley Zwaehlen.

Mr. and Mrs. Stanley Chavey, Redford, were the guests Thursday evening of Mr. and Mrs. Lucian Gilbert.

Capt. and Mrs. O. L. Duncanson, Rosedale Park, were Saturday evening guests of Mr. and Mrs. William H. Zwaehlen.

The Rev. G. G. Cameron, Detroit, who has been doing missionary work in this community this summer, conducted a quiet, but impressive hymn and worship service on the grounds near Mrs. J. W. Ault's home Thursday evening. The response was gratifying and it is planned to continue these weekly out-door services throughout the hot weather.

Austin Ault and family arrived home Tuesday from a 10-day trip into Pennsylvania, where they visited Mr. Ault's brother, Lester Ault in Washington.

Mr. and Mrs. Clinton Ault and son, Wayne, arrived home Monday night from a few days' fishing in the West Branch region. Mr. Ault brought with him a 13-pound pike, 40 inches long, which he had caught Monday in Stiles Lake.

Lewis Graham is suffering from a severe injury to one hand and finger, incurred while at his employment in the Stark Oil Refinery last Thursday. It was necessary for the physician to take several stitches in the injured member.

Mrs. John Tinner, Muskegon, was the Tuesday until-Saturday house guest of her brother, Edwin L. Johnson.

Mrs. Edward Baker, Hubbard avenue, has been confined to her bed this past week.

Mr. and Mrs. Russell Ault and two daughters, Dolores Jean and Shirley were guests of their cousins, Mr. and Mrs. Herman Keyser of Humphreys Woods, Saturday evening.

Mr. and Mrs. George Kacy of Detroit were Tuesday evening guests of Mr. and Mrs. Lucian Gilbert.

Mr. and Mrs. Marvin Addis and daughter, Jeanne, Mr. and Mrs. Harold McVicar and son, Harold, visited in Battle Creek Sunday.

Jack Lyons, Detroit, and Gladys Carey, Plymouth, were Sunday dinner guests of Mr. and Mrs. Elmer Heichman.

Mr. and Mrs. Roy Bachand and family were Sunday guests of Mr. and Mrs. Bert Bachand of Milford. Mrs. Marvin Addis was the guest of Mrs. Jesse Zeigler of Houghton

Lake, Wednesday and Thursday.

Mrs. Albert Heichman was taken to Henry Ford hospital last week. She is still in a serious condition.

Homer Middlewood returned home Sunday evening from Houghton Lake, where he was the guest of Gerald Zeigler the past week. Mr. and Mrs. Earl Redding and children returned home from their vacation trip, visiting relatives and friends in Duluth and Minneapolis, Minn. Miss Amelia Jewell, an aunt of Mr. Redding's, returned with them.

Mrs. F. S. Neal was a guest last week in Detroit, at the home of Mr. and Mrs. C. A. Bowen.

CARD OF THANKS
I wish to thank Dr. Irene Sparling, Mrs. Ed. Sessions, the hospital staff, as well as my neighborhood friends for their expressions of sympathy and flowers, cards and visits during my recent illness.

Mrs. Martin Schrader.

The village health officer, Dr. E. B. Cavell, reports that a cow at Walled Lake was a victim of rabies last week. Four persons in that vicinity are having to take the Pasteur treatment because of contacts with the cow.

In the festivities which marked Huntington Day at the World's Fair in New York, William Hartmann, father of W. C. Hartmann of this place, posed for photographers with Supervisor Arthur J. Kreutzer. Mr. Hartmann was chairman of the Huntington Day arrangements. The picture appears in a recent issue of the Brooklyn Eagle.

MORTGAGE SALE

Default having been made in the terms and conditions of a certain mortgage made by HAROLD ZAHN and LUELLA ZAHN, husband and wife, as mortgagors, and CHARLOTTE DEBAETS, as mortgagee, dated the twelfth day of May, A. D. 1938, and recorded in the office of the Register of Deeds for the County of Wayne and State of Michigan, on the seventeenth day of May, A. D. 1938, in Liber 3056 of Mortgages, on page 3, on which mortgage there is claimed to be due, at the date of this notice, for principal, interest and insurance, the sum of SEVENTEEN HUNDRED EIGHTY EIGHT and 62/100 (\$1,788.62) DOLLARS. No suit or proceedings at law or in equity having been instituted to recover the debt secured by said mortgage, and no part thereof now, therefore, by virtue of the power of sale contained in said mortgage, and pursuant to the statute of the State of Michigan, in such case made and provided, notice is hereby given that on WEDNESDAY, THE TWENTY-SEVENTH DAY OF SEPTEMBER, A. D. 1939, at ELEVEN (11:00) O'CLOCK, A. M. (Eastern Standard Time), said mortgage will be foreclosed by a sale at public auction, or vendue, to the highest bidder, to be held at the County Building, in the City of Detroit, Wayne County, Michigan, (that being the building where the Circuit Court for the County of Wayne is held), of the premises described in said mortgage, (that being the building where the Circuit Court for the County of Wayne is held), of the premises described in said mortgage, on page 240, on which mortgage there is claimed to be due, at the date of this notice, for principal and interest, the sum of One Thousand Five Hundred Sixty and 17/100 (\$1,560.17) DOLLARS. No suit or proceedings at law or in equity having been instituted to recover the debt secured by said mortgage, and no part thereof now, therefore, by virtue of the power of sale contained in said mortgage, and pursuant to the statute of the State of Michigan in such case made and provided, notice is hereby given that on Thursday, the 28th day of September, A. D. 1939, at twelve o'clock noon, Eastern Standard Time, said mortgage will be foreclosed by a sale at public auction, to the highest bidder, at the Southern Circuit Court Building in the City of Detroit, Wayne County, Michigan (that being the building where the Circuit Court for the County of Wayne is held), of the premises described in said mortgage, on page 240, on which mortgage there is claimed to be due, at the date of this notice, for principal and interest, the sum of One Thousand Five Hundred Sixty and 17/100 (\$1,560.17) DOLLARS. No suit or proceedings at law or in equity having been instituted to recover the debt secured by said mortgage, and no part thereof now, therefore, by virtue of the power of sale contained in said mortgage, and pursuant to the statute of the State of Michigan in such case made and provided, notice is hereby given that on Thursday, the 28th day of September, A. Mrs. Charles Payne and Mrs. Edith Burdett attended a picnic at Fields Grove, Whitmore Lake, last Saturday.

The Federated Aid members were hostesses at 1 p. m. Wednesday, for a luncheon to the Northville, Duxboro, Whitmore Lake and Salem Congregational Ladies' Aids. About 90 women enjoyed the delicious luncheon with program following, each aid being represented.

Mr. and Mrs. Richard Hale and son of Northville, spent from last week Tuesday till Friday night at the Charles Payne home.

Miss Beulah Miller of the grade school faculty, writes from Greenwich Village, New York, "I am spending a month here at school and the fair before school starts."

Mrs. Ada Ambler, Detroit, is vacationing for two weeks at the home of her daughter, Mrs. Clyde H. Schoultz, 495 West Cady street.

The Farmers' Corner

By E. I. BESEMER,
County Agent.

Charles Burd of Romulus has harvested the variety and rate of planting test for oats. This test has been run in co-operation with the plant breeders at Michigan State college.

The walnut datana usually strips many walnut trees of their foliage. This pest can be controlled by using 3 pounds lead arsenate to 100 gallons of water plus a quart of summer oil such as Vlock, Verdol or a similar sticker-spreader. The spray should be put on with pressure and in volume. An immediate spray should give good results.

The county agents at their summer conference partook of a squab chicken dinner which introduced a new way to prepare chicken. The chickens are raised to about 14 pounds at a cost of only a few cents and sold at this weight they represent a profitable source of income for the poultrymen.

The Wayne County Northville Fair will be held during the week of

August 16-19. Prepare early to select your exhibit. Control the cucumber beetles by using 1 pound of calcium arsenate sick, to healthy plants.

Oakland County Fair To Open Next Week

Big preparations are under way at Milford this year for the fifty-ninth annual Oakland County Fair, Thursday, Friday and Saturday, August 10-12.

Floyd Willett, president of the fair, and W. S. Lovejoy, secretary, state that increased interest has been shown this year among exhibitors, with the result that livestock display will be "better than ever." Also the fair will have an excellent display of farm implements, machinery and tractors.

An exhibit, which will attract a great deal of interest will be one made by the Edison Institute, showing antiques from the Ford collection.

Horse racing, two horse-pulling contests, livestock parades, a tractor pulling contest, fireworks, midway, two big shows, the Pine Ridge Follies of Lure and Abner radio fame, and a big rodeo and circus will make plenty of entertainment.

Michigan Anglers Get Advice

LANSING, Aug. 3—For the angler who has not yet made the catch that will satisfy his yearnings, there is this advice:

"Watch the official reports in the local newspaper on fishing in the past week. Go where these reliable reports show good fishing exists. Don't be reluctant to move from one place to another."

This is the opinion of officials of the fish division of the department of conservation who are cooperating with sportsmen's club, tourist and resort groups and newspapers in distributing information each week on fishing results in all sections of the state.

Up-to-date reports are worthy of more dependence than other sources as this method takes into consideration the natural trend of fish development and activity, according to conservation authorities.

They point to the familiar statement of the discouraged fisherman, "Oh, don't go there; that lake is fished out," as an example of advice not in line with fishing records through the years. A general picture of fishing on a long-range basis leads to belief among fish authorities that it is impossible to take all the fish out of a lake by hook and line.

Although a lake may go well for several seasons and then slump there is bound to be a revival of fishing there. That is the observation based on the rise and fall of the annual take of fish from lakes covered by reports to the conservation department.

An instance upholding this contention is a large lake in north-central Michigan where for years the resort owners and vacationers took considerable pleasure from the annual catch of pike. But the pike became scarce, only to give way to a boom in the catch of bluegills and other panfish.

Explanation for this is that the pike while there in great quantities had kept down the supply of smaller fish but as soon as the lake had apparently been "fished out" of pike, the bluegills gained in such numbers that they have kept alive the fishing activity on the lake.

It is believed to be extremely difficult, if not impossible, to exterminate a fish population by hook and line fishing in a limited open season. On the other hand dynamite, net-poisson and other measures can take a heavy toll of fish life. A limitation on fish can be created by lack of proper food, for fish can be produced in water only up to a limit allowed by the type of feeding available.

Skyhigh Girl Comes to Edgewater Park

Edgewater Park has an exciting treat in store for its patrons by being fortunate enough to secure Senoretta, the Skyhigh girl, the outstanding woman aerialist in the show world. Senoretta has been doing her own daring act for years, but since Virginia Senior, the original Skyhigh girl, was seriously injured earlier in the season in her last performance at Flint Park the night before she was to come to Edgewater Park, Senoretta has practiced for two months and added to her own daring act the feats formerly performed by Virginia Senior, especially the breathtaking 500 foot slide for life.

While every precaution is taken for her safety, this intrepid young woman goes aloft entirely at her own risk. The thrilling 500 foot slide for life down a steel cable is an exciting climax for the act of the Skyhigh girl.

The Sensational Wishards, in their thrilling 12 minute flying trapeze and casting return act, have been acclaimed by the patrons of Edgewater Park as one of the most exciting and outstanding acts ever seen in Detroit.

Japan Sends 'Friendship Flame' to U. S.

The "Flame of Friendship," presented to the New York World's fair as a symbol of the friendship between Japan and the United States, was lighted by Mayor Keikichi Tanomoto of Tokyo from burning logs of cypress wood brought from the famous grand shrine, where, according to Shinto mythology, the flame has been burning for more than 1,500 years. The flame was carried to New York by Miss Akiko Tsukimoto.

The farm is owned by Joe Bartlett, and is occupied by Angus Kippanka, who was away at the time the fire started. He was unable to indicate any cause for the blaze, although it is thought that sparks may have spread when a new nest was burned in the yard, earlier in the day.

The buildings were valued at \$10,000, and their contents from \$3,000 to \$2,500. The loss is partially covered by insurance.

Determined to make the stage her career, Miss Blake has had to contend with a good deal of difficulty. She will have a part in "Trene," the single musical play of the season at Suftield, and this, contrasting so strongly with her role in "Shadow and Substance," will, it is expected, show her adaptability.

"Equipment which was acquired from a going concern in Detroit has been moved to the building north of the Michigan Central on East street, which was purchased from the Sterling Michigan Corporation by the Chelsea Spring company.

"Work of getting the building in readiness and placing of machinery on the three floors of the building has been in progress for the past two weeks. More than 30 men have been employed in getting ready for production.

"Products of the company will include all kinds of mechanical springs, wire forms, etc., and it is expected that production will be steady. Fred McCormick of Detroit, is in charge of the plant.

"This new industry means much to Chelsea, and it is stated that approximately 100 men and 50 women will be employed when operations are in full swing."

trip again—she's seen it all. "When she travels again she wants to go some other place. But it's really a wonderful trip—it gives any child a broader understanding we learned so much. You can read about Alaska in books, but you can't feel the real beauty and wonder of it all by reading," she says.

Pans for Gold
One of the highlights of her Alaskan experience was panning for gold. "This was fun when I found a gold nugget. But I had my shoes and stockings off and the water was ice cold," she narrated.

Joan admits that she became both homesick and seasick, but says that she wasn't ill long. She liked her traveling companions. They were all so nice," she commented.

Joan's diary (a gift from Mrs. "Aunt Mary" Lukens of Cleveland) is a complete account of the exciting days of the trip. She's commented upon the relay she attend-

ed the luncheon given in Seattle, Wash., for the group by the President's Forum club; the picnic in Portland Ore; sponsored by the Kiwanis club. Her descriptions of Alaska scenery were vivid. She has pictures of the entire tour, taken with a camera given her by "Uncle Dick" Lukens of Chicago, which she'll keep in her scrap book.

place at Brighton. He's doing his preliminary training now at Saratoga Springs. He plans to go to Brighton, Aug. 21.

Although the negotiations for Louis camp at Northville were practically assured over the week end, papers were not signed until Tuesday afternoon. At that time Borough stated definitely that he was more than satisfied with what Northville had to offer.

Contract Has Approval

When it was learned Wednesday morning that the contract had actually been signed which would bring Louis to Northville, a large number of villagers gave voice to their opinion saying "It's the best publicity Northville could ever have."

The contract was signed by President Elmer L. Smith and Secretary Dayton B. Burr of the Northville Wayne County Fair Board. They had the unanimous approval of the fair's board of directors.

Press headquarters during the camp will be established in the Administration building. A building equipped with lockers and showers is to be erected for Louis and his works.

FAIR

veterans will be the umpiring of Singing Bill Byron who will officiate behind the plate and added on the field by two other umpires.

Byron is now past 60 years of age and was in the National League as an ump for 18 years. He recently umpired a double-header and his singing voice on balls and strikes ran out over the entire field like a loud-speaker.

Ball fans will watch a game Thursday between Schrader-Hager and the Allen Industry Plant of Plymouth. Friday, the game will be between Garden City and Northville. The Thursday and Friday winners will play for the championship title at 3 p. m., Saturday.

Have Pet Parade

The Junior Horse Show Committee has forwarded this week with the announcement that a pet parade will be given at 6:30 p. m., Wednesday, Aug. 16, for fair goers.

Villagers and persons around Northville who have horses and other pets will participate in this event which in past years has been a highpoint in the fair week. The Juniors say that the main objective is to give the crowd a good laugh.

Give Prizes

Three prizes are to be given away. One to the originator of the most classical rig; another to the funniest rig; and one to the most original. The donors for these prizes are: Tom Edmondson, Gumsell's Drug Store, R. J. Hammermeister, Northville Electric Shop, Northville Drug company, E. L. Smith and Orlov G. Owen.

Spectacular fireworks which are set to exceed in brilliance those of other years will climax each evening's performance in front of the grandstand.

While on a test cruise in the Pacific, Mr. Beall told of how his boat hit a sand-bar and of the action taken to release the boat, as well as the realization of having just missed a rocky island by less than 100 feet. During his service Beall made about 300 submerged runs.

Holds Patent on 2-Cycle Diesel
Along with a co-worker, Mr. Beall holds a patent on a new design of a 2-cycle Diesel engine that is designed for a low speed marine service, with its adaptation to industrial, locomotive and automotive use in mind.

The new engine has four cylinders arranged in pairs with open ends facing each other. This original design reduces the working parts, gives better service condition for the wrist pin bearings, patina balance of expansion, compression and inertia forces, possibility of separate cooling for combustion chambers and cylinder walls, and counter flow of injected fuel and air from the cylinders at the end of the stroke. The engine is known as the Beall-Connors engine. T. P. Connors of Detroit, being the copatentee with Mr. Beall.

The club house is to be one large room where the members may meet to hold their meetings. Outdoor stoves will be erected so that outdoor suppers can be held there.

A skeet field will be constructed before fall. Trap shooting equipment is to be installed this season. An expenditure of some \$500 will be necessary for the project.

Show Oil-Gas Film at Rotary Meeting

Don Hamilton was in charge of the program at the Rotary luncheon Tuesday noon and introduced W. W. Albright and J. E. Burroughs of Detroit, who presented a talking film covering the oil and gas industry.

The film followed the gas industry from the crude in the fields to the modern gasoline station showing distribution, manufacture and sources of the industry. The second film showed the same space of activity in the lubricating oil field.
