## Legionnaires Plan For Armistice Day Celebration Here

At the regular meeting of the American Legion held Tuesday evening, presided over by Commander Geo. Simmons, reports and plans for the coming days of the post were discussed.

A special committee was named to make plans for the Armistice Day breakfast and the patriotic program of the day. The coming district assembly was discussed and Northville's part presented for approval. The report of the committee having to do with the Veterans Memorial at the State Capitol, and the thanks of the Post was conveyed to the Allen Memorial Works for their kindness in inscribing the name in the Post.

Harry Bolton invited the members of the Post and their families to a basket picnic at his cottage at Middle Straits Lake next Sunday.

## New Traffic Laws Go Into Effect In Michigan Sept. 29

Under Michigan's new traffic laws, which become effective Sept. 29, important changes have been made in customary driving habits. These important changes are highlighted as follows:

The legal speed limit under Michigan's new traffic law is 25 miles per hour in both business and residential districts. Local authorities may establish higher speed limits in either business or residential districts, but in no case may such limits be less than 25 miles per hour.

On the open road under the laws of cities and villages, a safe and prudent speed is lawful. The new law, however, in the case of vehicles towing other vehicles or trailers, sets a definite speed limit of 50 miles per hour. This applies especially to house trailers.

The law prohibits right-hand turns in a red light. Red means stop for all traffic - including the carver who heretofore has been swinging to the right around an intersection into the flow of traffic moving on

## Returns from England Sept. 2: Tells of Grim Determination

"There is no fanfare in England about this war. No cheering, no bands, no noise, but a calm attitude reigns throughout the country," stated Percy C. Angove, well known resident of Northville, who arrived Sept. 2 from London, where he attended the World Congress of Workers of Crippled Children.

Everywhere you go you find willingness and a determination among the English people," commented Mr. Angove, "for England has been prepared."

Mr. Angove said he asked a policeman why the English people had such a calm attitude during this

time of war and the policeman replied, "We were a little excited last September, but now we are better prepared. We still hope to maintain peace but in the event there is an aggression in Poland we are ready to go to war for we feel that we should wipe out Hitlerism." Mr. Angove asserted that this attitude was displayed throughout the country.

### Welcome Home....

We are glad to hear that our friend Percy Angove is back home safe and sound after racing westbound across the Atlantic before the tidal wave of a European War. Mr. Angove's interpretation of the sentiment of the English people coincides with that reported by our English friends who visited us this summer and who sailed back into the war on August 31. We pray for their safe arrival in the homeland.

We are ready. It is a war that must come, and we might just as well fight it now and have it over with. Even war is better than the suspense and strain we have lived under for the last two years, this is the sentiment of the English people," states Mr. Angove. Continues Mr. Angove, "There is no fanfare in England, no marching, no bands, no cheering. The people seem to look upon the conflict as a long dreary duty that has been forced upon them by the mad desire of one person to rule in Europe. Everywhere is determination and willingness to sacrifice, and England is prepared."

New traffic laws will go into effect in Michigan, September 29. Better familiarize yourself with them.

"The human race," said Oliver Wendell Holmes, "is divided into two classes—those who go ahead and do something, and those who sit around and inquire. Why wasn't it done the other way?" The world seldom rewards the sifter or the fault finder.

One stroke of the hammer never drove a nail, and most of Northville's experienced advertisers believe that continued and constant "hammering" will drive home the story of Northville and what it offers. As remarked before the Exchange club last week by Tom Edmondson, "Northville Has Been Found." Count up the new businesses and the new comers during the last three months. Perchance Northville has also found itself.

### Be Calm and Careful....

The sinking of the Athenia—the neutrality declaration and the emergency declaration of President Roosevelt, all point to the three cornered problem, which plus a lack of neutrality of heart and head, confronts the American people. The right of Americans to travel home bound during the early days of the war was not even attacked in the war of 1914—so what if another incident occurs. The neutrality law, as invoked by President Roosevelt, places an embargo upon the shipment of certain items, but watch a congress soon to convene adopt a cash and carry policy. The emergency declaration, serves notice on a world at war that the United States will not be caught napping, thus enforcing the respect of all belligerents, who might seek to offend.

Already seven out of ten who believe that America must ultimately get in, brings pressure to bear, and stresses the point that American industry, finance and food may yet be needed to win a war. Neutrality becomes increasingly difficult under stress of continued war, especially when one's philosophy of home, religion, economy and liberty is so dear and near to the American heart

Fire Prevention Week is several weeks away, but with the shift of weather the necessity of an occasional fire, the usual summer accumulation about the furnace or stove, extra caution is good judgment.

Last Saturday night, the entire gang of cement mixers working on the street improvements demanded a wage of 80 cents an hour for 10 hours, in place of 50 cents an hour they were receiving for 12 hours' work. The demand was refused by the Wayne County Road commission, and the big cement machine stood idle near the Wing street crossing, Monday and Tuesday.

Up to this evening Mr. Clemens leads Northville by four dispatches two interviews and a feature story in the acquisition of Ford factories. Pontiac Daily Press. Well, but Mr. Clemens has a population of somewhere around eight or nine thousand and Northville's two thousand or a little more, so Northville's batting average is still ahead at that. **The Farmers' Corner**  
 By E. I. Biskamp,  
 County Agent

With the harvesting of corn many farmers may be tempted to save seed from their hybrids. It has been shown by repeated trials that the yields from seed saved from hybrids in the second generation yields less than the first generation and often but little more than open pollinated corn.  
 From open pollinated varieties of corn field select next years seed from the standing corn.  
 Select ears from the stalks that are still green but the husks are brown. The ears should be well

filled at the butt and tip and from normal hills. The kernels should be well dentated and the ear should not show evidence of disease.

Select ears that will be required for seed and hang them up in a well ventilated building to dry.  
**Wheat**  
 Treat seed wheat for smut. Plant it after the fly free date to avoid Hessian fly injury. Twenty per cent super phosphate helps build a good root system to withstand severe winter conditions. It pays to use certified seed wheat. To fumigate your wheat of fly so as to get rid of the grain weevil use two pounds of propylene dichloride mixture to each 100 cubic feet of space under cover. Temperature of grain must be about 70 degrees Fahrenheit and fumigation continued for 48 hours.  
 The fly free date for Wayne county for altitude of 600 feet above sea level is Sept. 20 to 30, and for altitude of 500 feet above sea level is Sept. 18 to 27.

**Box Elder Bugs**  
 Box elder bugs are collecting on sides of trees and houses these cool nights. Spray them with 1 table-spoon of Driest in 3 gallons of water.

William Shei and Mildred Frank, who are employed at Ben's home, were host and hostess at the birthday party.

NORTHVILLE SADDLE HORSE ASSOCIATION TO HOLD GYMNASTIC SUNDAY SEPT. 17—C. Arthur Searle chairman of the Board of Directors of the Northville Saddle Horse Association today announced that the organization will sponsor a gymnastic next Sunday on the fairgrounds. A gymnastic is a meeting or tournament of mounted sports events such as mounted wrestling, relay races and various other types of community games on horseback.

The tournament will start at 10 in the morning. Horses from the Park Stables of Mr. and Mrs. Fred Hoffman, the Northville Riding club, the Silver Power Horse Club, the Northville Saddle Horse Association and many private owners will comprise the entries.

These games have been inaugurated as a relief to the regular Sunday chase in which the Northville horse men have been indulging these past few weeks.

The next meeting of the Taxpayers League will be held at the Town Hall, Sept. 25.

## Nelson-Coleman Speak Vows in Double Wedding Ceremony

FRIDAY FIRE DESTROYS OLD COMMERCE MILL—P. C. E. HUTTON

Early Friday morning, Sept. 15, the old Commerce mill, a landmark of the village of Commerce for more than 100 years, located on Pontiac-Commerce road at the eastern edge of the village, the mill had served farmers over a wide area of the county until about ten years ago. It had been idle since that time.

It was owned by the L. Roy Pelletier, estate and valued at between \$10,000 and \$15,000. The three-story structure which burned Friday was built on this site in 1837.

No cause for the fire could be determined by William Lake firemen, who were unable to get control of the blaze which spread quickly through the old timbers of the building. A recent heavy rain kept sparks from endangering other buildings in the vicinity.

BOWLERS TO MEET AGAIN THURSDAY EVENING—At a meeting of the bowlers of Northville held at the recreation building Monday evening, plans were discussed for the opening of the season in the local alleys next week. Thursday teams are being lined up. The alleys are now registered or listed with the American Bowling Congress, and rules and regulations for the season are in the process of formulation. Albert has the alleys in wonderful shape. The meeting was adjourned to meet again this Thursday, evening to complete arrangements.

LOW COST HOMES AT PARK GARDENS—Walter Benson, old time builder and builder of 240 modern homes, is now managing Park Gardens Subdivision, on Fenkel avenue east of Phoenix Park. Mr. Benson has a wonderful proposition to offer on owning your home. He can advise and help on your plans. Park Gardens is a beautiful section, has soil of rich black loam and has many things to offer. Drive out and be convinced. Mr. Benson has been in the building and real estate business for 20 years.

Among the homes is a model cottage now open for inspection that is offered for \$350 as specified in the advertisement in another column.

Charles Walker of Cambridge Drive was host Wednesday evening to a group of Northville business men at a steak roast.

# TRIAL PLAN

To prove in your Home...

## The SPRING-FALL GAS-BURNER

Solves

BETWEEN-SEASON  
HEATING PROBLEM

Here's four answer to the wasted fuel and useless work of trying to regulate your furnace during the ups-and-downs of Fall and Spring weather.

Prove it? ... Try it! That will prove it. Your own home is the place to prove the benefits many a family already enjoys. Your own family is the one to find out.

Try it! It's economical — a new idea of gas fuel use. It's automatic — no work, no shoveling, no kindling, no ashes, no extra fuel to buy — you just set the thermostat. Try it! Then when winter sets in — change in a jiffy to coal, coke or stoker.

### EASY TO USE

The burner fits in your furnace door and goes to work. Can be instantly placed ... or removed and hung beside the furnace when not in use. No changes needed in furnace.

Thermostat controls heat at any desired level. Patented burner design uses "a little gas for a lot of heat" ... more efficient than solid fuel. You'll be pleased with the economy of this plan compared with what you pay for solid fuel to cover the entire season. Installations now in use prove it. Let us give you the figures. (Priced at only \$66.50 cash installed complete with thermostat.

### TRIAL PLAN FOR YOU

Try the burner — prove its helpful and healthful benefits right at home. You don't have to buy it now to do this. We will install it for a trial during September and October — April and May. You keep it right there, ready to use, during any of the months in between. There is an installation payment of \$15.00 a month only for these four particular months. Then if you keep the burner, this \$66.50 will be credited as your down payment and the purchase may be completed on regular easy terms.

## Council Asks Student Support

Due to the fact that the Student Council has not held its first meeting of the year not much can be said of the plans for the year. One thing it will endeavor to accomplish this year, however, is to build up a greater spirit and enthusiasm among the students, to develop more cooperation behind our athletic teams and other projects, and to increase the attendance at various games. The Council feels that everyone should come out and support our school teams whether they win or lose. We want to restore the old time enthusiasm in the student body.

This might be a good time to explain the advantages of the new system which you chose to use last year, that of one alderman from every homeroom. On the day following each meeting of the student council the alderman of each homeroom will be able to report the business of the Student Council. This, we hope, will create interest in the Council.

### POST-GRADS

We are glad to welcome the graduates of 1939 back to N. H. S. We feel proud to see that they have not forgotten the school from which they graduated. A few of them have come back to take post graduate courses before entering college. They are: Marjane Lidgard, taking chemistry; Faith Labetru, geometry I, office practice and chemistry; Ken Chappell, English literature, algebra and chemistry; and Ruth Leavenworth, office practice, typing II and business arithmetic.

The following persons are '39 graduates of N. H. S. and are enrolled as apprentices: Tom Martino, grocery store merchandising; Ray Permenter, furniture store merchandising; Marjorie Rowe, office practice and Margaret Hein, children's apparel merchandising.

### BAND PLAYS AT FAIR

The 45 uniformed members of the Northville high school band, under the direction of Leslie G. Lee, were honored last Wednesday by playing at the Michigan State Fair on Governor's Day.

The band marched over to the mall where they gave a concert, later they played in the music shell. In the evening the band marched to the coliseum where they heard Wayne King's orchestra, with Tony Martin as vocalist. Each member of the band was presented with a medal. In recognition of their playing the band received a trophy representing the shell in which they played.

## EDITOR'S NOTES

When school starts and the days become shorter and cooler, our thoughts turn from tennis and swimming to more broadening, educational things.

One important factor in any community is the youth group or groups of the churches. There are five churches in Northville, and all have youth organizations. The attendance of the meetings is comparatively small according to the number of eligible people in the town. This seems strange as the meetings are really interesting and entertaining as well as helpful. Problems of youth are discussed freely and sensibly, and most people who attend a meeting once, continue with the group.

At the meetings one receives spiritual and social stimulus enough to make his life fuller and richer.

I urge all of you to attend the meetings of some group. Surely out of five, you can find one suitable for you. At any rate isn't it worth a trial?

In starting this school year we want to greet the new teachers, new students, and all newly formed classes. We want them to find our school to their liking. In order to have a successful year for everyone, we will need the cooperation of all students in keeping the halls clean, in being courteous to teachers and fellow students, and in keeping order throughout the building. We hope to make our school one to which the present students will be glad to give their loyalty and of which all former students will be proud.

## Class Notes

There are 55 seniors enrolled in Northville high school this fall and although this is not as many as last year, more are expected. The officers conducting this class are: President, William Wilson; Vice-President, Pat Klein; Secretary, Barbara Simmons; Treasurer, Bob Permenter. Mr. Hensch and Mrs. Cooke are sponsors.

The enrollment of the junior class has reached seventy-four this year. The class is looking forward to a profitable and successful year with Ida Walker as president; Joe DeRino, Vice-president; Ruth Frank, secretary; and Ruth Permenter as treasurer. E. C. Moilema and E. V. Ellison were elected sponsors.

Several new pupils have been added to the tenth grade. Among them are: James Odgers, from Barber Hall, Kalamazoo; Walter Fox from Novi; Norma Houghton of Lappan Intermediate School, Detroit; Albert Moe, Patricia Ryder, and Dorothy Fisher, all from Plymouth; and Howard Rogers from Novi.

As yet the sophomore class has had no class meeting and the officers and sponsors have not been elected.

To date my duties in the grade school have proven interesting, challenging, and enjoyable. I am anxious to become acquainted with and help both pupils and parents in any way that I may be of service. May your publication, the Orange and Black and other student activities be very successful this year.

## Seniors Profit by Summer Activity

During the summer months the senior class has not been idle. They held their meetings in Mrs. Cooke's room to make arrangements for the Senior booth at the fair and to elect a committee to sell gladiolas.

D. H. VanHove gave the gladiolas to the senior class and the Student Loan Fund of the Rotary Club. The seniors are selling them and half

the money goes to the fund. Each day the seniors deliver these gladiolas. The local dealers in the town donate their cars and gas.

At the Northville Fair the seniors profited too. They sold short orders, ice cream, and soft drinks. Mrs. Ida B. Cooke and William Hensch, class sponsors, and the senior's mothers supervised the booth.

This fall they have other projects in mind which will be disclosed later.

## Water in Milk? That Was in 1905

In a review of what Michigan's 23,398 dairy cows on test produced in 1938, as summarized by an official census by the United States Department of Agriculture, an interesting sidelight harks back to Newaygo county testing in 1905. Loan Fund of the Rotary Club. The seniors are selling them and half

early checks was to determine if milk had been watered.

Today's scientific testing takes that in stride, too, but only as a detail.

Four goals are modern today, says A. C. Baltzer, extension dairyman of Michigan State college, which supervises work of the dairy herd improvement associations.

"We seek to find inheritance in breeding to make a permanent effect by testing on breed selection. We try to determine profit, we point out shortcuts to economical feeding and one of the newest goals is to be able to select cows with longevity to prolong the usefulness of a cow through disease resistance, better breeding and good health of the animal."

In the review by the federal offices, Michigan is credited with testing 1,534 herds including 23,398 cows in 1938. The average butterfat production for each animal was 328 pounds for the year, lower than

the seven year average of 335 pounds.

Surprisingly, Baltzer is cheered by that lower figure. But he has a reason. The testing work is spreading to hundreds of herds which previously have not known whether their animals were heavier over feed costs

sows or good producers. Estimates indicate that although butterfat prices were about the same in 1905 when Newaygo county farmers began milk testing, better methods have increased fat production 55 per cent and this has meant an increase of 310 per cent in returns directed animals were heavier over feed costs

The Northville Board of Education has finally consented to allow us to elect a member to fill the vacancy which has existed since last November.

We are going to vote Friday, September 22nd, 1939.

As is always the case when one group has held sway for a long period, our faculty fears the injection of new blood into our school board. In the last two school elections this fear has driven some of them to disregard all ethics of the teaching profession. They have allowed themselves to be drawn into the campaign — even leading with misleading statements.

A large group of taxpayers and parents, who are vitally interested in the welfare and improvement of our school system, have been struggling for representation on our school board. This group is interested in nothing, except, a better and more efficiently run school, and not in personalities.

Your vote will no doubt be solicited by both sides. Please stop and think! Is this party interested in our school welfare or are they interested in holding somebody's job which they fear is in jeopardy?

Ladies and Gentlemen this election is important to you whether you are parent or taxpayer. Your community's welfare centers around your school, it also affects your property values. I therefore urge every one of you to attend the special meeting for the purpose of electing a member to our school board.

I am not a candidate at this time. I am sure there will be a well qualified and progressive man in the field and I ask every one of you to get out and vote.

(Continued from page 1)  
er, Rex LaPlante, our latest Scout member, is welcomed to our troop. Sept. 30, N-1 has been invited to see the Wayne and Michigan State football game, which is looked forward to with a great deal of enthusiasm.

In October, Northville Troop N-1 is scheduled to play Plymouth Troop P-4, who was our closest rivals in the championship games. After this game both teams will go to the George R. Simmons farm, cook their supper and camp in the woods all night.

Sept. 1, five medals were presented to five boys in different kinds of contests which they won. Frank Hunter won the signaling medal; Lorne Babbitt, rust out; Bob Hunter, nature scout; Bob Farmer, knotting; and George Hunter, the fire-friction medal. Anyone in the troop was eligible to enter these.

### FOR BEAN-HUNGRY BOYS

Along about this time of the year most men get a hanker for beans. Old-fashioned, meaty beans baked in the oven with a slab of salt pork and sweet molasses sauce. Maybe it's the crisp tang in the air—or the pungent, woody smell of burning leaves—or that smoky haze that lingers in the twilight. Whatever it is, fall seems to bring out bean-hunger in the boys, and nothing but a great pot of sizzling beans will fill the void. Pure luck it is for the modern meal planner, too, for with four different kinds of oven-baked beans packed in this and ready to serve, it's no trick at all to turn out a bean feast in short order. Here now, is just the kind of dish to fill the bill—a robust, rugged pot of beans mixed with snippets of bacon, onion, carrots, shreds of green pepper and chopped celery baked 'til all the meat juices are sealed in with a crisp brown crust.

### HINTS ON HOT LIPS

For good fall eating, try these hot breads. Pig pig, fins or biscuits slit open, put to sleep in a golden slice, then sealed in with a crisp brown crust. Here now, is just the kind of dish to fill the bill—a robust, rugged pot of beans mixed with snippets of bacon, onion, carrots, shreds of green pepper and chopped celery baked 'til all the meat juices are sealed in with a crisp brown crust.

## ANGOVE

(Continued from page 1)  
planned Mr. Angove, but outside the lines in the country, they are not as advanced in orthopedic care or special education as we are in this country.

Honored by Royalty  
Mr. Angove spent several weeks during July and August visiting relatives, and old friends he had not seen in over 25 years. When Mr. Angove was a young man he came to America from England and this was his first visit back to his native country. Mr. Angove said it was a wonderful experience going back to Cornwall where he was born. He stated that Cornwall is especially beautiful for its rugged scenery and beautiful flowers.

Mr. Angove received a special invitation to attend the annual tea party given by the King and Queen at Buckingham palace. Later Mr. Angove stated he was invited to visit the palace itself. Buckingham palace is the residence of the King and Queen of England. Mr. Angove also received an invitation to attend the Lord Chamberlain's reception at Lancaster, where all the royal functions are held.

### Northvillites Win State Fair Prize

Henry Hill of Ten Mile road, and W. A. Foreman, Northville, won \$250 first prize last week at the State Fair for having the finest exhibit of apples in the horticulture department. Mr. Hill and Mr. Foreman represented Wayne county.

R. E. Peterson of the Uncle Rube Waffle Kitchen and the Wilson White Kitchen was in Adrian on business Tuesday.

you'll find it takes very little time to manage. Specialty if you make Peanut Corn Meal Sticks done the swift and simple muffin method with a collop of peanut butter added to give fine rich flavor to the batter. Baked so, in a corn stick pan, this recipe is something really grand!
