### 12 Rules for Winter Driving Are Released By Bureau

Because the number of traffic accidents increases during the winter months when the roads are icy or covered by snow drifts, the National Safety Council has released 12 rules to help motorists drive safely. They are:

1. Check over your car, especially electrical and exhaust systems, windshield wiper, brakes, defroster and chains.
2. Maintain good vision through windshield and windows.
3. Use the cow ventilator to circulate fresh air. Open windows alone tend to suck exhaust fumes through the floorboards.
4. On slippery pavements keep speed down and car in gear.
5. Avoid situations requiring quick stops and sudden turns.
6. Chains are recommended for driving on ice and snow. But even with chains, or with awarives on the icy road, speed above 20 miles an hour on ice is dangerous.
7. Slow down when approaching curves, with or without chains.
8. Anticipate ice on bridges, in shaded spots, around curves and over hills, even though most of the pavement is dry.
9. Start and accelerate slowly to avoid spinning the wheels.
10. Pump the brakes when stopping to avoid locking the wheels from the front.

Kindness . . .

As I add to my years I find  
 This thought is uppermost in mind—  
 I wish that I had been more kind.  
 For kindness is, indeed, the trait  
 That conquers sin and greed and hate!  
 —Bill Hodge

A Mother's Pledge . . .

"Thankful for the benefits of a free country, I, an American mother, will do my utmost to help my children understand, cherish and guard the five freedoms upon which this Nation was founded: freedom of speech, press, assembly, worship, and petition. I will teach my children by my own example that they should respect the rights and opinions of others if they would defend their own, and thus preserve our heritage of liberty against any and all doctrines opposed to the traditions of our Nation."

The above American mothers' declaration, pledging its thousands of signers was recently presented to the Library of Congress. Would that a signed facsimile of this pledge graced every American household.

A deep, great genuine sincerity is the first characteristic of all men in any way heroic.—Carlyle.

There was recently organized in this state a large group of newspaper men under the title of "Fourth Estate Group," who will apply for a charter as a non-profit organization, and whose business, it will be to function in a non-partisan manner and free from any entangling alliances with candidates for public office. Its objective is fact-finding in relation to government in Michigan and, so far as possible, presenting the facts when found to their readers, to the end that the people shall know as much as possible about their government and be able to show their approval or disapproval by their ballots. Fact-finding will be non-political, and will apply as much to one party as to another. "Invisible" government will be exposed where found, and waste of public funds will be reported back to the people. The men forming the organization are men of ability, character, and good standing in their respective communities, and good results may be expected. George R. Axtell of the Birmingham Eclectic is president, A. Van Kovering of the Zeeland Record is vice-president, J. A. Cooper is secretary, and George A. Osburn of Sault Ste. Marie News, treasurer. We believe Michigan will profit from the work of this organization which may be able to find out and publish facts about government and replace propaganda with those facts. Cassopolis Vigilante.

Truly these are stressful times—a life long day crusader states he will send orders to liquor rather than hold the inventories down for a month or so. Michigan G. O. P. Senator wants it written in the record that he approves the nomination of Frank Murphy to the supreme court. Verily, the political adage "If you can't beat them join them" yet functions. And Michigan's Uncle Dudley and G. O. P. Senator apparently allow their views to "hold for forty."

Allied war strategy now shifts to Finland. The heroic resistance of this free people has altered the course of the war. Perchance Finland may be the David of Democracy in 1940. Next shift will be toward the oil fields in the Black Sea region. The war is yet in its economic phase. Back stage strategy is out-evaluating the Maginot Line while purse strings tighten, and lives are protected.

Verily the season of the census taker is at hand? With more pertinent questions than ever before, you will wonder the why of it all—but hold your temper, speak softly, for Uncle Sam holds a big whip for refusing to give information, or giving wrong information. The whip cracks to the tune of a \$500.00 to \$1000.00 fine.

William H. Berkey, publisher of the Cassopolis Vigilante, has been elected chairman of the State Board of Agriculture. Mr. Berkey is serving his eleventh term on this governing body of the Michigan State College. Our congratulations to Mr. Berkey, for he richly deserves this honor. Michigan State College and Michigan agriculture have a real friend in William H. Berkey.

During 1939 bequests and gifts to philanthropic, educational and charitable purposes totalling over one and one-half million dollars were made in six cities of the U. S. A. An increase of 25 per cent over 1938. The six cities were New York, Chicago, Philadelphia, Boston, Washington and Baltimore. What do you suppose the total for the whole country would be for the same period. Are Americans sentimentally generous?

America's greatest peace time, social or economic challenge is JOBS—but while that will be the fundamental challenge of the hour both major parties will parry the question, and try to beguile the issue with sentiment, loyalty and a large sliced chunk of boloney. Wait and see.

Michigan Mirror Non-Partisan News Letter

LANSING — Although crystal-gazing at this time of the year is apt to be done through rose-colored glasses, 1940 forecasts for Michigan have been in significant agreement by predicting: 1. Reasonable prosperity for wage-earners and farmers. 2. Improved financial condition of State government. 3. National spotlight on Michigan's political figures—Arthur Vandenberg of Grand Rapids, Thomas Dewey formerly of Owosso and Frank Murphy of Detroit. All in all, they point to an interesting year for Michigan. While the present European war makes the American scene subject to uncertain economic fluctuations, all signs now point to a long and exhaustive struggle overseas. The domestic industrial business and farm forecasts are all predicted in

a degree on the assumption that Hitler and Chamberlain will be calling each other names for many, many months to come. Sales Taxes Soar... Michigan basked in better times during 1939. Proof is seen in the soaring sales tax revenue collected by the State. According to Walter F. Reddy, managing director of the State Board of Tax Administration, a total of \$7,908,000 more was collected during the six months ending Dec. 31 than during the previous period. Aside from efforts to effect economy in payrolls and department spending, the State administration is pinning its chief hope apparently on a continuation of good business in 1940 with a resultant rise in State revenues such as from the sales tax and liquor. As for the \$26,898,000 deficit inherited one year ago from the previous administration, neither State officials of the State legislature have agreed upon a definite plan to this financial problem. Gov. Dickinson has said repeatedly that he opposed the imposition of new taxes. But whereas his predecessor campaigned on a pledge to reduce State payrolls by many millions, Dickinson has been content to balance the budget—or practically so, at least—and to rest the administration's case on a stand that the constant rising curve of State government costs be leveled off. Hartman for Economy of Economy. By firm insistence of economy, Budget Director Gus T. Hartman has incurred the hostility of many special groups. Realistic to the breed of increased centralization of responsibility at Lansing, Hartman recently declared: "Once a tax is imposed, it is never removed. We have already reached the staggering stage under the burden of taxation. The time to fight for good economical, practical government is now. State appropriations have increased \$46,000,000 a year from 1930 to 1940. This is an increase of \$40,500,000 in aid to local units and \$5,500,000 in administrative and operating costs. The increase includes \$27,000,000 a year for new activities such as old age assistance, aid to dependent children, and aid to blind, and emergency welfare relief. The major increases of aid to local governments went to schools and welfare." Hartman's views against new taxes have been echoed generally by other State officials. Even the proposal of Melville B. McPherson, State tax chairman, that the date for collection of the State intangible tax be advanced from January, 1941, to January, 1940 has met with widespread opposition. Vot-seekers didn't like the idea of collecting a new tax before the 1940 November election. High Wages... Michigan manufacturing center for automobiles, furniture and paper, fuelled with industrialism during 1939. Leaders predict sustained and even augmented production and sales during 1940. Federal economists have been insisting that a slump would take place during the first six months—at least a tapering off from the high point of production following the declaration of war last Sept. 3. But the automobile industry, for example, is anticipating a good sales year in 1940 and that means much to the State. Wayne county with its General Motors, Ford, Chrysler and Hudson plants in all counties in the United States during 1939 in industrial wages. The automobile worker receives the highest wage per hour of any specialized group in the nation. Rubber workers are second. As any Michigan resident well knows the automobile industry sets the pace for Michigan prosperity. It regains into scores of small towns where automotive parts are made, and it feeds thousands of dollars to tourist sections for fishing, hunting and vacations. Welfare Home Rule... While local officials were putting pressure on State officials at Lansing for more welfare assistance, Attorney General Thomas Read bolstered up administration resistance last week. He ruled that county welfare boards may refuse to provide relief for the poor in cities or townships that have failed to provide for funds to solve their own welfare problems.

Princeton's Grid Hero Goes Home

Don Herring, young Princeton football hero who lost his left leg as the result of an injury in the Harvard game this fall, is shown in a Princeton, N. J., hospital just before going home to his family. Cheerful as always, Don sees a good future ahead for a man with one leg "who can take it." The leg was amputated several weeks ago after doctors fought a losing battle to save it.

News from Walled Lake

By C. E. HUTTON

The season of "the drama" is in vogue in Walled Lake, the resort village, as witness the successful presentation by the senior class of the high school of their play, "Spring Dance" before a near-capacity audience in the school auditorium, Wednesday evening. Each of the cast members made the most of the characters they portrayed, showing the results of fine direction. Taking part in the play were Frances Wyatt, Lois Peak, Irene Schubert, Pat Glover, Betty Furriss, Gordon Densus, David Rubritidis, William Frio, Roy Mercer and Frank Young.

Committees assisting in the production were Paul Laubach, Ruth Murdoch, Monroe Kelly, Virginia Boleyn, Paul Green, William Titus, Madge Precious, Anne Boyle, Warren Perron, Jacqueline Goodrich, Charlotte Heiker, Melvina Eberle, Barbara Hansen and Peggy Smith.

The opening performance of St. Williams Dramatic club of A Southern Cinderella will take place Saturday evening at eight o'clock in the school auditorium. A second performance will be given the following Sunday afternoon, at 8 o'clock. The cast, under the direction of Miss Elizabeth Krusac, includes Dorothy Gaskill, Elizabeth Paul, Mathilda Buss, Marjorie Gaskill, Victoria Zezala, Jeanette Billew and Elizabeth Becker. Excellent response to advance ticket sales assures large attendance at both performances, according to P. J. Chipman, chairman of ticket committee. Reservations may yet be made for seats by calling the chairman or members of the cast, or at Todd's drug store, Gilliam's, J. L. Taylor garage or Murray's grocery. An added attraction will be music provided by the school band, at the Saturday and Sunday shows.

Only two petitions for Commerce township offices had been filed with the township clerk, Earl Garner, as the deadline for filing drew near Tuesday. James Smith filed for reelection to the post of constable, and Fred Ruckling filed for board of review. Unless petitions for other offices in the township reached the clerk's desk by 4 o'clock, Tuesday no primary election will be held here.

Gustave F. Mussall, 76 years old, died at his home, here, Thursday at 6:50 a. m., following a two-week illness. Mr. Mussall was well known in the community, having been a Walled Lake resident for the past 15 years. His wife, Mary, had preceded him in death four years ago.

He was born in Trunau, Germany, in 1863, and came to this country when he was 21. He lived in Detroit for 28 years and was employed as a supervisor by the American Radiator company until his retirement, 18 years ago. He was a member of the Lutheran Bund of Michigan, and attended St. Paul's Lutheran church, Detroit.

He is survived by five sons: William of Walled Lake, Gustave, Otto and Charles of Detroit and Walter of Highland Park. Funeral services were held at 2 p. m. Monday at the residence, with burial in St. Charles Lutheran cemetery, Detroit, with the Rev. Paul Graubner officiating.

State Pays Last Quarter's Weight Tax Collections

The State Highway Department announced this week it was vouchering to the auditor general for payment allocations to counties of \$471,895 in automobile weight tax collections for the last quarter of 1939.

The money represents purchases of 1939 automobile license payments for the last three months of that year. It does not include any 1940 license plates sold during the period. First returns from the 1940 plate sales will be made on or before April 15.

Total 1939 weight tax collections amounted to \$19,833,910.28 as compared with \$18,877,065.10 for 1938. All weight tax collections are distributed directly to counties where they are allocated to county and municipal highway purposes.

The allocations of nearly interest, follow: Oakland, \$23,073.33; Washtenaw, \$5,913.10; Wayne, \$109,100.31.

The third of the winter series of benefit senior-card parties was held Thursday evening in the high school gymnasium. Mrs. Henry S. Willis and Mrs. Harry F. Blake took over the hostess duties for the members of the class.

Counties Receive Gas Tax Returns

The State Highway Department this week sent vouchers for \$1,275,000, the last half of the 1939 gasoline tax return to counties, to the auditor general for payment.

State Highway Commissioner Murray D. Van Wagener announced allocation of the payment by counties as required by statute. The allocations to nearby counties was:

Oakland, \$36,276.67; Washtenaw, \$19,857.65; and Wayne, \$417,837.64.

State Land Auction Sale Opens, Feb. 13

Auditor General Vernon J. Brown today expressed gratification at the interest being shown in the coming auction sale of State-owned properties which one-time owners lost because of tax-delinquencies.

It is not the desire of the Board or the State of Michigan to dispossess any owner. For that reason, we have adopted very liberal terms which should meet every reasonable request.

Owners may bid at the auction sale, and if other bidders appear, they need not enter into competitive bidding, but may within 30 days meet the bid of any other bidder. Purchasers who had no previous interest in the property must pay cash, but the Board is extending a liberal contract to former owners so that they may pay the amount of their bid over a period of time in monthly installments.

One word of warning should be noted, however, the owner should be certain that at least the minimum bid of 25 per cent is made at the sale. While it is true that the owner has the right to meet any bid during the 30 day following such bid, it is entirely possible that some properties may be offered upon which no bids will be made. In such cases the owner would not have the privilege of meeting a bid because no bid had been offered. The owner should, therefore, protect himself by seeing that at least the minimum bid of 25 per cent of the 1938 assessed valuation is submitted.

No written bids or prior bids can be accepted," he affirmed.

**Young People Merge Two Church Groups**

Christian Youth Comrades is the name given to the new organization of the Baptist and Methodist young people. The group is to meet each Sunday evening until Easter.

The plan was worked out last week by the Rev. Dr. Howard P. Chapman of the Baptist church and the Rev. Harry J. Lord of the Methodist church, who met in session with young people from both of the churches.

The merger has been made because the leaders feel that when young people of the community share school and social life together, they should have an opportunity to share religious values together. Part of the meetings will be held in the Methodist church and part of them will be in the Baptist church.

Three committees—devotion, community service and recreation—are to be formed to carry on the work. Dr. Chapman is to be the adviser for the older group.
