School Sport Week Is Marked by Two Basketball Wins

Girls Win from Redford Union; Boys Take Berkley Game on Home Court; Second Teams Victorious

Home Game, Feb. 9

The Northville high school basketball team is out tonight to make its third straight win by defeating Redford Union at 7 o'clock, Feb. 9, on the home court. In the first meeting of the two teams, Redford Union trounced the home team by a 29-25 victory.

Two basketball wins characterized the Northville high school sport calendar last week when the girls defeated the Redford Union team on the Redford court, Thursday, and the boys defeated Berkley Friday on the home court.

The win for the girls practically assures the team of tying the championship title with Hazel Park, marking three successive titles of title-winning for the girls under the coaching of Miss Gladys Ludwig.

Batt Is High Scorer

In the girls' game, Thursday, Mary Frances Batt was the high scorer, taking a large share of the points in the final score, 30-23. In like manner, the second team took the game from Redford Union with the score, 17-15.

The Northville first team players who saw action in the game were: M. F. Batt, C. Carlson, A. Matthews, J. Ely, P. Jones, M. Cavell, Y. Taylor, M. Coo, and I. Walker.

Mustangs Play Well

The following night on the home court, Coach Harry B. Smith's Mustangs took the Berkley game with a 28-25 score.

Speed was displayed all through the game with both teams showing some fine basketball. Northville made the first basket and kept the lead throughout the game. George Houghton and Jack Holcomb were both in the game and will probably be in the starting lineup against Redford, Friday night.

The history and background of the art of preserving fresh food was the subject of a very interesting and informative talk presented at the Exchange club Wednesday noon by C. Anger of the H. J. Heinz company of Detroit. The picture took the audience back to the days of Napoleon and on through the day of Louis Pasteur, the Civil War, and into the clean, sanitary plants of the Heinz company today.

Appeal Is Made for Tax-Minded State Citizens

E. T. Conlon Tells Rotarians that Public Is Responsible for Government Cost

With an appeal for Michigan citizens to become tax conscious and stressing the available services of the State Chamber of Commerce, Ernest T. Conlon, secretary of the organization, urged Northville citizens to realize what they are paying for and the people who are really responsible for the cost of government.

Mr. Conlon, following his introduction by John Litsenberger, stated that 25 cents of every dollar goes for the cost of government. There are 154 taxes on a dress, and 136 hidden taxes on a pair of shoes. One employer of 60 men stated that if his tax burden was the same as in 1935 the difference would amount to a raise of \$14 a month for each employee. In ten years the cost of Michigan government has increased from 100 million to 247 million dollars.

Mr. Conlon did not infer that all funds should or could be cut, but that economies must come, and that Michigan people were becoming more tax conscious, that groups were studying the matter and that tax clinics scheduled throughout the State this year were preparing a list of straight forward and concrete recommendations that would be presented to the next legislature.

● An American Anniversary . . .

The Boy Scout Movement was founded in America thirty years ago this week. Most of us have watched it grow and gain in influence, with great satisfaction. It is something vital to "The American Way" and through three decades, its service has gained the confidence of all people.

It would be difficult to point to any single quality of the Movement and say with positiveness, "Here is what makes Scouting great." But in our judgment one of its outstanding contributions to the nation, particularly in these times of world travail, is its simply-worded Twelfth Scout Law. It epitomizes all that we as a people stand for; all that our forefathers pioneered for when they were fashioning a safe homeland out of a wilderness.

Read its stirring words. They are worth memorizing and, more than that, they should be lived by all of us who have the high privilege of being Americans.

Here is the Twelfth Scout Law:

A scout is reverent.

He is reverent toward God. He is faithful in his religious duties, and respects the convictions of others in matters of custom and religion.

All Americans worthy of the name, all who believe in the Declaration of Independence, the Bill of Rights and the Constitution of the United States have an abiding faith in such a principle because it is their very guarantee that so long as it is a living thing they will always be free and independent.

Gov. Dickinson has set Sunday, Feb. 18, midway between Lincoln's and Washington's birthdays, as Citizenship Day, to be observed in the churches. Why not a Citizenship Day to be observed in the homes and joints of the State. Or maybe the State police might round up a few of the boys for a good dose of citizenship à la castor oil.

● Lincoln . . .

Marking the birthday anniversary of Abraham Lincoln we feel that Lincoln is most revered today for his simple philosophy of life, a quality that never dimmed even after he reached the White House. His philosophy of life was the expression of a simple man, who respected the wisdom of the Almighty . . . who firmly believed that Faith was man's greatest and only hope.

Since then, the United States has faced other troubles. Today there are great problems to be solved. It is not enough that we admit these problems. It is most important that we have faith in our ability to meet these emergencies. The Faith of Lincoln is needed, today, in every American home.

We get a big laugh . . . out of politics. Michigan democrats roast the Dickinson administration for an unbalanced budget, and Michigan republicans rub it into the Roosevelt administration because of the unbalanced budget. Isn't it funny?

Haven't purchased the nice new aluminum plates for the old bus yet—have you? Twenty more days until . . .

"Do you know where you are going," asked the conductor on the night train from Detroit to Northville of Mr. and Mrs. M. J. Boelens; then of Adrian, when 20 years ago they came to make their home in Northville. According to Mr. Boelens the thermometer was setting around ten below of that February night. Twenty years is a long time looking ahead—looking back it seems only a brief breathing spell. Our congratulations to Mr. and Mrs. Boelens, and their fine family, "they are the salt of the earth."

Another accident at the Novi road crossing. Guess the P. M. mid-night freight will have to kill off a few more before the crossing is protected. It has been open season for Northville folks at this spot—but wait until the blood of Oakland county people is spattered along the railroad—then watch for action. Wouldn't it be better folks to offer the ounce of prevention?

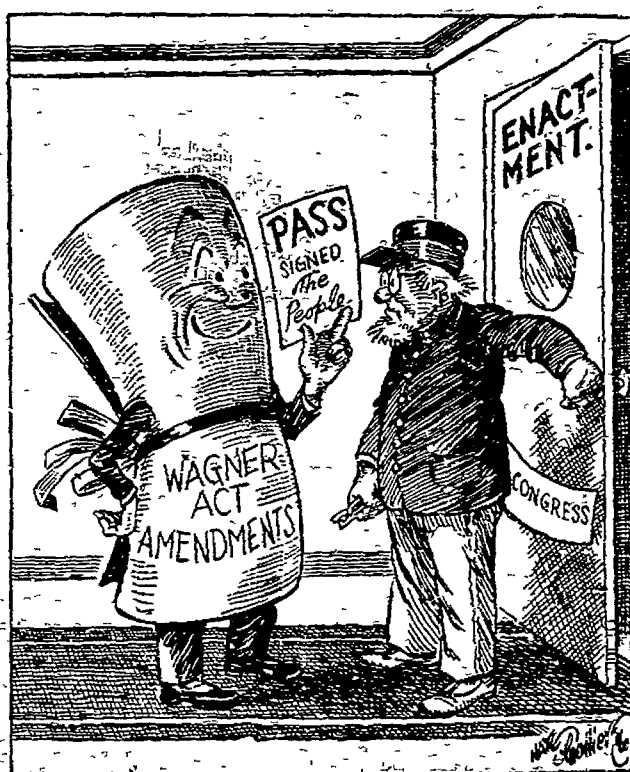

We regret very much the passing of the Louis Store under the able management of Miss Peterman. We shall miss these splendid window displays. Our best wishes go with the Petermans as they journey to Mexico to make their home. And, cheerio, kind folks.

We read with interest the editorial account of Dr. Amos Wheelock of Goodrich. His work and contribution to that community—and his tragic death. And giving a personal touch, as a boy, Lou Stewart, Northville druggist, used to drive the horse for Dr. Wheelock. Dr. Stewart, Lou's father, Dr. Sutherland, and Dr. Wheelock were the big three in the Grand Blanc-Goodrich region for many years. We often wonder if today will produce stalwart and great characters like these men of old.

Is cutting across corner lots, running through back yards, good citizenship? Ask your Scout leader.

Those escape winter advertisements, wooing us to the southland don't seem to have the same appeal that they did. As we watch the leaves drop in the February sunshine, we think of that zero weather marching from Atlanta to the sea. We may have drawbacks in Michigan, and our mercury may range from 100 degrees to 10 below, yet with all we Michiganders are prepared.

LET HIM IN!

DOGS KILL SHEEP
Sheldon Thornton, sheep breeder of Highland, felt the scourge of every sheep man, when dogs visited his flock Wednesday morning, raising havoc. About 10 of the sheep were maimed and will die, and about 30 others were bitten by the dogs. The attackers were an Alredale and another small dog, and both are dead, caught in the act by Thornton and dispatched. The attack occurred in the barn, the dogs entering the building. The sheep scattered, and one dog was caught chasing frightened sheep around the pasture field.

It's the Early Bird that gets the Fun

The model illustrated is the BUICK SUPER, model 51 four-door touring sedan \$1109 delivered at Flint, Mich. White, decaul tires additional.

ONE of these days the itch is going to hit you to get out and get in on the fun a Buick can be in the spring-time.

You're going to feel an irrepressible yen to touch off that husky, sweet-singing Dynaflex power plant and swing out in gentle coil-spring comfort to take in the fresh spring landscape.

Maybe, like others we know of, you've even got the model picked out, and are just "waiting a few weeks" to do something definite about it.

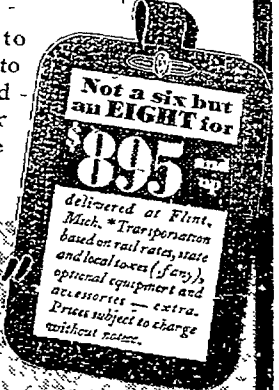

But may we emphasize, in purely friendly interest, that a lot of other people probably have the same idea.

And that when they start buying in droves—as they do every year about the 1st of March—even Buick's big factory has trouble keeping up with them.

Farm Feature Starts Today in The Record

Farming Expert Brings Subscribers Valuable Ideas from Every State

In this issue appears the first installment of a regular weekly feature which will be prepared for The Record by Willard Bolte.

This nationally known writer and radio commentator on farming topics is a graduate of Michigan State college and was formerly head of poultry and animal husbandry departments at the Utah State college and the Rhode Island State college.

In addition to his teaching and extension station work, Mr. Bolte has had practical farming experience in Michigan, Illinois, New York, North Dakota and Georgia, having spent the summers in his youth working on farms in these States.

For a number of years he operated an 80,000-acre chuck, battery in Indiana and he is the author of several books and experiment station bulletins.

In addition to preparing his farm sketches, which appear in a large number of newspapers, Mr. Bolte is the editor of The Experiment Station News and states that between these activities and running his 425-acre farm in central Indiana he manages to keep out of mischief.

We know that these weekly ideas and sketches will prove valuable and interesting to our readers who own or operate farms—and our 4-H club boys are particularly urged to keep a scrapbook of the items of permanent reference value.

Mary Vesjak and Frances Poleski have finished a unit on cotton. They found pictures and samples of different things made of cotton. They wrote stories about cotton and made a booklet on this unit.

Shaffer Gives War Cry

"We're in the war," Mr. Shaffer of Battle Creek, warned his audience that "with Franklin D. Roosevelt, we are treading the road to war just as we did in 1915 and 1916," Mr. Thompson, chairman of the Republican State Central Committee, came out with a 1940 party platform for Michigan.

"He is pairing for time," Shaffer charged. "He is looking for a new war emergency. He can't be trusted and you know it. He is a proved internationalist and so long as our Government we can figure on being involved in any emergency that arises."

"Senator (Vandenberg) is the most able and (by the Democrats) most feared Republican statesman of the day," Shaffer said. "He will be the next President."

"The Congressman, a recent vigorous critic of Army waste, insisted that America is virtually immune from attack and that its greatest threats come from within rather than without."

Campaign Props

Thompson "cast aside the cloak of partisan hypocrisy which the chairman of a political party which is supposed to wear" and blazed a Republican trail for 1940.

"Divorce government finances from elective office as much as possible," he suggested. "Replace the obsolete State Tax Commission with a Department of Finance to collect all revenues."

"I have 80 per cent of the people of Michigan would be happy to see the State get out of the retail liquor business and proceed to collect the same amount of revenue from wholesale distributions."

"I believe that the people of Michigan want an honest, economical merit system in state employment, with intelligent consideration for the exemption of individuals who determine policy in any department."

"We should give more attention to adult education through extension courses of our universities."

"Our school system could well afford to supply free text books by using some of the economies we, as individuals, are forced to employ."

DON'T
 FORGET THAT 1940 IS THE YEAR TO BUILD OR THAT NOWELS IS THE COMPANY TO SEE

FIND OUT FOR YOURSELF...
 1 ASK YOUR CONTRACTOR—Will I get a better constructed, better insulated, more livable house, at less money?
 2 ASK YOUR BUILDING MATERIAL DEALER—Are materials as good today as they were in the good old days? (House for house, job for job, materials are better for less money.)
 3 NOW ASK YOURSELF—Can you afford to continue to pay rent? When for your rent dollar (no more for the same house) you can own your own home dig in your own garden, mow your own lawn, plant your own trees and no landlord.
 4 ASK YOUR BANKER—Are interest rates today on loans and mortgages as low or lower than they have been? Has money ever been as available to the home builder as it is today?
 5 ASK YOUR ARCHITECT—Have houses ever been as well designed and had as many labor and expense saving ideas?

When you have satisfied yourself on these questions then sincerely ask yourself if you are not better off by investing some of your savings and earnings in a better home in which you may hope to live the rest of your life.
 Again, we say with confidence, you can actually get more house construction for the same dollar today than at any time since we lost sight of the depression.

N. Y. A. Program Promoted Here

Teachers and Janitors Receive Assistance from Students

We have a few N. Y. A. students (National Youth Administration) working in the Northville high school.

These students are paid \$6 a month by the Federal government for their work. The students that are on this project are: Fred Robinson, who helps Wm. Lemon with janitor work; Bob Hunter who takes care of the Scout building; Bob Ross who helps Delbert Westcott in the grade building; and Maxine Lemon, who helps Mr. Lemon in the sweepings of the high school. Three girls, Madeline Robinson, Dawn Sutton and Addie Mae Bartrum are helping teachers with their office work. There are more on this program this year. The number has increased from 3 to 7 in the past three years.

The object of this program is to assist the young people to further their education by giving part time employment.

EDITORIAL NOTES

The month of February might easily be called the "historical month." Feb. 12 marks the 131st anniversary of Lincoln's birthday. In commemoration of this great day, a discussion will be held in each homeroom.

On the 14th, just two days after Lincoln's birthday, cupid will make his appearance in the form of many

Valentines, both comical and serious. The grades plan to hold parties that afternoon.

Washington's 208th birthday anniversary will be celebrated on Thursday, the 22nd.

This being Leap Year, remember girls (!), there will be one extra day in February.

Traveler Is Guest of Northville High

Robert Griffin, who has traveled extensively in Mexico, was the Northville high school's guest speaker, Wednesday, Feb. 7.

Mr. Griffin spoke on and showed technicolor movies of Mexico City, fiestas in rural and city life, ancient pyramids of the sun and moon, picturesque market scenes, complete and thrilling bull fights.

These pictures were taken by Mr. Griffin during his travels through the "Land of the Aztecs and Spanish Conquistadors."

Student Council Sells "Pads"

The Senior Student Council is selling "Magic Pads." They are scratch pads that are very useful for taking notes in classes. After you have written on them, just pull up the paper and it's all ready for you to write on again. The pads are ten cents apiece and they really save paper.

The junior high students may purchase them in Mrs. Ida Cooke's room and the senior high students may get them from any member of the Senior Student Council or in the office.

Profits Due to Large Attendance

The senior card party which was held Feb. 1, was very successful with an approximate profit of \$35.

The lucky winners of the door prizes were Leslie G. Lee, Mrs. O. F. Reng, Phil G. V. Harrison, Mrs. W. H. Hensch, Phil Paul D. Carter, Mrs. W. Ely, Mrs. K. E. Smith, Dr. H. S. Willis, Charles Yahnke, Mrs. Charles Wilson, Mrs. W. E. McCafferty, Mrs. George Simmons, F. Potter, Mrs. Miner and Mrs. Roy M. Van Atta.

These prizes were donated by the following students and local merchants: Rogers, Smiths, A. & P., Wolf's, Owens, Gussells, Stewart, Farmers Market, Northville Hardware, Hi-Speed Gas Station, Pennington Beauty Shoppe, D. & C. Store, E. M. B. Rivera's Trofost, Kendall Willis, Corky Sipos and Mrs. Johnson.

Class Notes

On Thursday, Feb. 1, Miss Jane Lentz's home economics class went to the E. M. B. Meat Market to learn the various cuts of meat. The cuts were shown by Charles LeFevre.

The French club met at Miss Inne Palmer's home, West Main Street, for their monthly meeting, Monday evening, Feb. 5.

The home economics room looks very modern with the new electric stove, which was a gift from the Detroit Edison company. Miss Jane Lentz, the Home-Ec. teacher, said it was their first step in modernizing the class room. The stove has three burners, and a built-in cooker, and the odor that pours up through the hoods second and third hour proves, to our satisfaction, that the burners are all in use.

Mr. and Mrs. J. H. Strandberg and son Tommy were Saturday evening guests of Mr. and Mrs. L. B. Holmes.

Basketball Teams Look Forward

Two Leagues Are Formed, 10 Teams Practice Basketball Throwing

The Northville high school is looking forward to some big years in basketball because the two gym classes are getting experience. They are divided up into teams, making two leagues.

These teams practice the fundamentals of basketball, and also are taught to play a clean game. Teams are chosen and each team elects a captain. There are seven boys to a team. Some of these boys will not be in a Northville lineup in years to come but they are getting a lot of enjoyment out of it. There are four teams in the freshman gym class and six teams in the junior high gym class. They play on the average of one game a week, and they have been playing since Wednesday, Jan. 24.

Around the School

The Dramatics club had a tobacco party Wednesday, Jan. 31. Those that went were: Jean and Joan McCullough, Rhea Walling, Marge Edmondson, Dorothy Congo, Edythe Amerman, Amelia Sutton, George Hunter and Bob Farmer. They were chaperoned by their sponsor, Miss Estelle Griffiths. After tobogganing till 8:30 they went to the show.

The senior play committee has chosen two plays from which they hope to choose the final one, for the annual senior play. The plays are "The New Co-ed" and "Little Germaine."

The seniors on the play committee are Pat Klein, Doris Hubbard, Corky Sipos and George Houghton.

Last Friday night's victory over the unbeaten Berkley team was certainly one to be celebrated. This was done by means of a turntable dance following the game. The new records were enjoyed by many students as well as alumni. This was the last turntable dance for the basketball season.

The seniors have received the hot pads and broom holders which are being sold by members of the class. It is impossible to tell how many have been sold because all money is still in the hands of the students selling the articles. The hot pads may be purchased in sets of three for 35 cents. The broom holders may be bought for 10 cents each. If you are interested in purchasing either of the articles, call the school and your order will be delivered.

Grade Notes

Mrs. O. F. Reng's second grade children have finished their post office and are busy writing letters, mailing them, buying stamps and money orders, mailing and insuring packages at their school room post office. Improperly addressed mail goes to the dead letter office. Frank Martino has been chosen postmaster and William Canfield is mail carrier.

The children in this room received a card from Billy Taft this week. He is in Miami, Fla. and states that it is so cold there that he cannot go to school. Replies to Billy's card have been written by each pupil. Another nice letter received this week was from D. J. Stalk, assistant postmaster, congratulating the group on their post office activities.

Tuesday, Feb. 6, Harry German, Jr. gave a very interesting talk to the group on his duties as a postman. The following day letters of thanks were written to him by the children.

Miss Selma Jarvis' third grade had a skating party, Thursday, Feb. 1. The pupils left the schoolhouse at 3:30 and skated until 4:45 returning to their room where a nice luncheon was enjoyed. Jack Milligan has moved to Detroit.

The fifth and sixth grade students, with the help of their teachers, gave an amateur show Monday, Feb. 5. The price of admission was two potatoes. The program was held from 10 o'clock to 10:45, in the basement of the grade building. Ann Davl, Florence McCluskie and Ruth Guradin each sang a song, accompanied on the piano by Phyllis Kreyer, Marilyn Coss, Audrey Keller, Esther Stanford and Ann Hopkins each contributed dancing. The object of this amateur hour was to obtain potatoes for the hot luncheon project.

Senior Sketches

Peggy McCullough, who was born in Wyandotte, Nov. 4, 1922, is now a senior at Northville high. When a "babe in the cradle" she moved to Canada where she lived for some time, later moving to Illinois and back to Michigan. During these moves Peggy formed some of her life long hobbies, such as playing the piano, singing, horseback riding and roller skating. She claims Mary Margaret as her Christian name, but Peggy seems to fit her better—so Peggy she is.

When she leaves Northville she plans to go to Michigan State college.

"MODEST HERO"

Humbly our friend, the milk bottle, goes about its daily task. Heroically it performs its noble work—keeping the health and happiness. A modest hero whose only reward is the well-being of those whom it serves. Let this hero be your obedient servant... TODAY!
