Red Cross Call Is Urgent

Money Needed To Buy Supplies for War Refugees; Snow and Van Hove Make Plea

Stepping in line with the local Red Cross plea for immediate contributions to aid the war refugees, Dr. L. W. Snow and D. H. Van Hove came forward this week to stress the need for the quick response of villagers to do what they can to aid the Red Cross program.

"It is a worthy cause and there is a great need for contributions—large and small—in response to the Red Cross emergency call," asserted Dr. Snow and Mr. Van Hove.

Mrs. Eber Ward Leister asserted that every cent contributed now would be sent directly to the war zone. "Nothing will be kept here for relief or expenses," she said.

From Red Cross headquarters comes word that ten million dollars is the minimum need and it is needed at once. Contributions may be made locally to Mrs. Lester, or to the Detroit Chapter, American Red Cross. The Detroit quota is \$500,000. This money will buy materials in this country for garments, surgical dressings, medical supplies, ambulances and field hospital equipment to be sent to all countries where needed.

There are hundreds of thousands of refugees without homes without clothing without medical supplies or attention.

"Last year the Auxiliary extended help to 126,351 disabled veterans, spending \$93,297.71 in the work. A large part of this money came in the form of Poppy Day contributions without which we would have been unable to give such extensive aid to these unfortunate men. Most of the money contributed here on Poppy Day will remain in Northville for use in the work of the local unit among the casued and dependent families here," she explains.

In A Button Hole . . .

Next Saturday millions of poppies will grow in the button holes of as many Americans. The flower bespeaks remembrances of those who died on the poppy studded fields of France and Belgium. In those days it was the only touch of life and beauty in all that region of devastation known as the Western Front.

Today, as then, the Poppy is designed to lighten burdens. Today the poppy symbolizes our desire to lighten the burden of those who yet suffer physically and mentally from the aftermath of that war—the disabled veteran, and the families of the dead and disabled of that war. The poppies are made by disabled veterans, and the income contributes to their meager resources. This work is the major contribution to the welfare of those who bore the burden and heat of the day in 1917. The poppy in your button hole speaks of remembrance, of help, appreciation, and consideration in terms of real honest to goodness welfare work.

Decision Day . . .

Memorial Day of 1940 speaks a dual language. The hour calls for not only rededication, but decision. As the nation rededicates itself to the unfinished task of those who gave their last full measure of devotion, may it find true inspiration and guidance for the momentous decisions now forced upon us by the impending weight of world events. We honor the dead best by serving the living better. Action forces action and America stands at the cross roads. What will be America's answer?

The grim fact of total war, no longer a vision, brings America face to face with momentous decisions. What if . . . if, and if. But it's must be considered, and practical answers must be ready for any eventuality. Ours is a civilization of construction, if others choose to the contrary will we see peace in our lifetime, in this last great democracy on Earth. Peril impends our decision or indecision. Wishful thinking has inspired Americans too long. Grim realities must now be faced quickly and effectively.

Twenty years ago America said never again European meddling-war debts, war millionaires, and heroes were suckers. Splendid isolation—green water, mystic security, and fond ignorance has blinded us to stern realities. Today isolationists stand mute. Foreign countries know more about our protective and fighting forces than do American themselves. Congress preferred to dwarf the army—to listen to bureaucrats, throttle air forces—to be a little more lenient with the navy. Internal politics, quibblings and pork for November votes dominated appropriations. Today a new public opinion has found tongue—shades of Gen. Mitchell, warnings of Col. Lindbergh are recalled by thinking Americans. So far America in Europe has brought trouble not Europe in America. We must prepare for the possibilities of the latter. Further we must not forget the west while our eyes are turned Europe and American diplomats and officials talk too much.

A changing world, fanatically dreaming two decades ago finds dreams come true, and how? America stands at the crossroads of a policy. Which shall it be—Isolationism—Moral Doctrines—World Power. A great democracy paces a world where the will of its people counts. The nation looks to the President to tell the truth, to lead the way—the way to security, to intimate peace and triumph of freedom and democracy.

"From these honored dead let us take increased devotion", that "this government of the people, by the people and for the people may not perish from the earth." "With malice toward none, with charity for all, let us do the right as God gives us to see the right." Inspiration, decision, action, therein lies the message of Decoration Day in this year of 1940.

It's great to be an American
And live in the land of the Free.
It's great to have an Uncle Sam
And a Statue of Liberty,
Standing erect at our Eastern Gate
Holding aloft in her hand,
The flaming torch with its burning light
Of the shining stars on high,
And the beam sends forth a promise to men
That Freedom shall never die.

It's great to have an American Flag
Of gorgeous red, white and blue,
It's great to see that banner wave
And know that it stands for YOU
To know that it stands for the things you want
For ideals great and good,
It's great to know it gives you the right
To live as free men should.

Democracy In A Crisis . . .

(By Henry Hitt Crane, pastor of the Central M. E. Church, Detroit)

"Democracy will be developed if we trust it, believe in it, understand it and practice it. All we need is to realize that the only cure for bad Democracy is good Democracy."

"The thing that bothers me is the fact that we are developing all too insidiously this most terrible conviction that if you want anything done you have to do it in terms of factional functioning. For instance, the thought of 'I want to put something over' is most repugnant to me."

"Remember, when you begin to function as a Republican or a Democrat, or as a Catholic or as a Methodist, or anything else before you function as a human being, that moment you forget what democracy is all about. That moment you become a class-conscious creature and the class idea is the most destructive idea to the outworking of Democracy that I know."

Lansing—Democratic government is like Alice in Wonderland. It is marked by conditions both contradictory and inconsistent. Little wonder that the average citizen becomes confused.

For example, the State of Michigan collected \$124,037,881 in twelve months ending last June 30 which it promptly turned over to 23 counties. Where money was this State or county?

State payrolls totaled \$2,372,681 more in the past fifteen months than in the same period of 1937-38, yet the increase in payrolls can be traced largely to state functions which receive substantial federal aid. Were it not for federal aid in such functions, the state payroll would show a decline for 1939 compared with 1938. The increase of payrolls in federal aid departments in this period was \$304,011, unemployment compensation alone was responsible for \$1,250,000 of the added \$1,487,000. Only other departments in non-federal aid departments kept the average from being more than in 1937-38.

Real Estate Relief
The situation whereby the state returns to local governments such a staggering sum of money and not develop overnight.

According to Auditor General Vernon J. Brown, the 1939 tax limitation amendment, enacted in 1937, was another illustration which Auditor General Vernon J.

the depression year 1933, is largely responsible for the trend to shift tax responsibility from counties to the state. Convinced that home owners were deserving of tax relief, the legislature enacted a moratorium on foreclosure of mortgages and, upon passage of the tax limitation amendment withdrew all claims to real estate taxation.

A sales tax was adopted as a substitute. This little tax on transactions became a hidden tax because it was merely added to the consumer's purchase price. The consumer paid it in small dribbling amounts, a few pennies here and a few pennies there. The tax total was never apparent, and not one person in 100,000 ever took the trouble to ascertain how much these tax payments meant to his budget in a year.

Obviously unfair because it imposed an equal burden on all consumers regardless of their ability to pay, the sales tax nevertheless has become popular with public officials because it has been productive of high revenue, fairly paid to the consumer, and reasonably simple to compute and to collect.

Most Serious Problem

In the judgment of the auditor general whose department has an outstanding record for economy, the most serious problems which the 1941 legislature must face will be that of either curtailing these grants or to seek some new source of revenue for support of the ordinary functions of the state, leaving present revenue to be distributed to local units of government.

In Michigan county alone, the home county of the capital city, the state turned over to local government the astounding total of \$3,281,900 in the following allocations: Schools, \$1,203,000; welfare, \$1,193,000; highways, \$681,000; health, \$121,000; liquor license revenue (ostensibly for enforcement) used \$28,000.

The obvious difficulty arises when pressure groups cry for more money to be returned to local governments for local services and when the state government seeks more funds to meet growing needs.

And then, there is the familiar case of old age pensions for which the state proposes to add a minimum of 25,000 deserving persons to the assistance roll.

If more money could be spared, additional sales taxes could be collected by the state, so recent experiments have showed. Uncollected tax claims totaled \$4,690,000 on March 1 for all state departments, and only a lack of enough auditors to investigate the cases prevents the state from getting more of this revenue for public use. Figure that one out!

Crippled Children

In 1939 the state legislature motivated by a belief that a lower ceiling had to be placed on medical expenditures for crippled children (probable judges having formerly had the power to authorize bills which the state was to pay), cut back appropriations for this purpose.

Immediately the cry was raised that the administration was nursing economy at the cost of children's lives.

The governor's office for months defended the legislative action. Only this month was a change of heart evidenced following an annual report of the Couzens-endowed Children's Fund of Michigan in which the legislature was charged with failure to appropriate adequate funds for the treatment of mangled, afflicted and crippled children.

Here was another illustration which Auditor General Vernon J.

Mechanical Mutt

Elektro, the mechanical man, and Sparko, the mechanical dog, get together in New York, where they are on display at the fair. Sparko barks, wags his tail and sits up. Elektro is equally versatile.

Fightingest Man

Gen. Paul Rollet, 71, "fightingest man in France," has requested active war duty. Rollet was retired in 1937, after 46 years of service. He is one year younger than Gen. Maxime Weggand, chief army head in the Near East.

Brown probably had in mind when he declared that the 1941 legislature must either resist demands of local governments for more tax money or must tap new sources for additional public revenue to meet its own pressing needs.

With a bookkeeping deficit of around \$10,000,000 (the state having borrowed this amount from its own special funds in order to pay operating bills) the situation of Lansing is complicated further. No matter what is done, someone is sure to complain.

Mr. and Mrs. Leo Mannie spent Sunday in Detroit.

JOHN A. ROSS

OPTOMETRIST

ANNOUNCES

The Enlargement of His Offices and the Installation of a New Bausch & Lomb

PERIMETER

The new Perimeter is the culmination of years of study by two famous authorities on light and vision. The purpose of this complex instrument is to chart the visual fields of the eye. With it the examiner can record, in permanent form, the external limits of the patient's vision. Analysis of these records often gives the first indication of impending eye disease or toxic condition interfering with vision. The importance of this new instrument cannot be over-estimated. With it... the cause of many eyesight troubles may be definitely traced... Conditions that are baffling without its use are revealed in time to prevent serious consequences.

To better serve the needs of our hundreds of patients, we have also enlarged our offices... These important steps forward have been made for your convenience and for your protection. This effort assures you of perfect vision.

Be a Pal -

Help a Vet!

Buy a Poppy, Buddy . . .

SATURDAY, May 25th is Poppy Day. Again it will be our pleasure to contribute a little something toward a debt that can never be fully repaid. Wear the Poppy—it will mark you as one who is conscious of his obligation to those who made the final sacrifice. For Poppy Day is a living memorial to those honored dead. Every cent that is to be collected will go toward making life a little lighter for those who still bear the scars of battle, the "Vets" in our hos-

pitals. You may be thinking that the little you could afford to give would be of no help. But no matter how small your contribution, it will help—it is needed. These boys gave more than all the money in the world could buy back for them—let's not let them think that we've forgotten. Northville's prettiest girls will be waiting for you tomorrow . . . a great big smile goes with each poppy! We'll show our boys that we have not forgotten what they did for us back in '17 and '18.

British Troops Hailed as 'Saviours of Belgium'

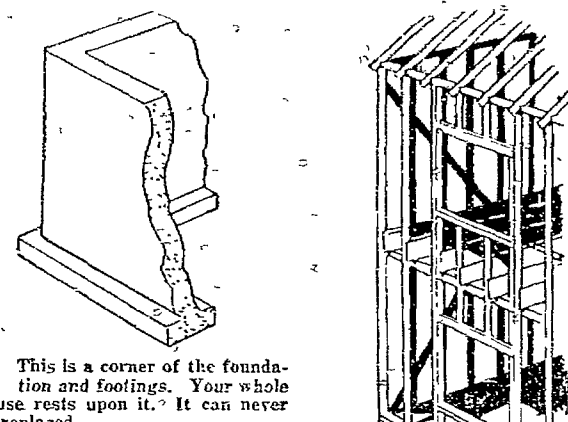

Although many other pictures have appeared since that day, none tells more clearly than the above, the enthusiasm with which the Belgians welcomed the first appearance of British troops to combat the second German invasion of their country in a quarter of a century. This picture was among the very first radiated on that historic day.

He Boosts Willkie for G. O. P. Nomination

Looking at a picture of Wendell Willkie, his favorite presidential candidate, is Russ W. W. Hays, Jr., who recently resigned his position as editor of the Northville Record in order to promote Willkie for President. Willkie, president of the Commonwealth & Southern Electric, frequently has been mentioned as a Republican "dark horse."

DON'T NEGLECT FUNDAMENTALS
IN YOUR NEW HOME

1 This is a corner of the foundation and footings. Your whole house rests upon it. It can never be replaced.

2 This is the same foundation with timber skeleton now in place. Again here is a part of your home that can never be replaced.

3 Here is a rough window opening from the inside. Notice how the framing members are doubled all around the opening. Dark shaded portions show insulation in place between the studding.

Glitter of Gadgets Often Distracts Builder From Quality Where It's Needed Most

Are you building a house for the first time? Then chances are you are in kind of a daze. There are so many things to decide, so many things to buy, so many more things you want and can't buy because there is just so much money. Now there's nothing less glamorous than the concrete footings and foundation. One doesn't show them off to one's friends, but if you skimp on either, you'll be busy for years to come trying to cover up cracked walls that all your friends will see.

Don't Skimp On Framework

Likewise the timber skeleton or frame of your house is going to be all covered up, but if you skimp on it you'll have sagging floors that squeak at every step.

And how about those great big holes in the wall, the rough window openings. You can buy win-

dows and window frames to fill these holes pretty cheap. And you'll pay for them for years to come in heat lost, drafty floors and wet walls. Or you can buy carefully designed, precision built, and factory fitted windows and window frames complete with weatherstripping that will be a joy and a comfort every year that you live in your house. Yes, and you'll find that the extra cost was money well spent because of heat bills, repair bills and redecorating bills saved.

Can't Replace Windows

Good windows are a permanent part of your walls. They protect your investment in insulation and quality construction. Any home without weathertight windows is only one-half insulated. So when you build, get down to fundamentals. Always remember—you can add the gadgets any time, but you can't replace footings or timbers or windows. They've got to be good right from the start.

EDITORIAL NOTES

All of you certainly have heard the expression, "WPA" here we come, haven't you. That seems to be the motto of most seniors lately. This made up the theme of a movie last week witnessed by the senior high and sponsored by Westinghouse. A young boy and his father were the main characters. The son, a student in high school, and his dad were going to take a trip to the World's Fair and before leaving were marked about how there were no

openings for boys his age except with the WPA. At the fair they visited most of the points of interest: the science building, the Westinghouse Building and many others. Here they saw that there were many opportunities and openings for boys graduating age to step into especially after a college course in one of these many things. Lots of us have to create our own jobs, but most of us, if we put our mind to it and work, can find a place and do what we are interested in.

Shop Exhibit Held Thursday, May 16

The annual general shop exhibit was held last week May 16, exceeding that of last year in many respects. All the boys brought the things from home, and they were about 200 pieces of woodwork there, but this included only about 60 to 70 percent of all the material made in shop. Among some of the things were two toboggans and about 14 tables not including cabinets and trunks.

Senior Snatches

On! I'm not that tall. Why that isn't possible. These were some of the remarks heard by the measure last week when getting the sizes for caps and gowns to be used at graduation. They are to be navy blue with yellow tassels and white collars for the girls. Thrown in for extra measuring, the seniors can keep the tassels as a souvenir of that night if they pay a quarter. "What? More money? Now what for?" Yes, the seniors (or their parents) will have to dig deeper into their pockets to pay for the graduation announcements and cards. The invitations are different this year with an etching of the northeast corner of the high school showing the match familiar—Prin G. V. Harrison's office. The engraving is also very unique.

Sixty of the nations outstanding outdoor motor boat pilots will compete at Belleville Lake at 2 p. m. Sunday, June 2, it was announced today.

Seniors

At the senior class meeting Thursday, May 16, the class decided when the annual skip day should be which by the way is a secret. The class also decided that they will take a boat trip June 14 to Cedar Point. Confirmites have been chosen to measure the seniors for caps and gowns for graduation which is to be June 13. Well, don't be surprised if one of these days soon you will not see any 1940 seniors in school.

Union Chapter 55, will have an opportunity to witness the conferring of the M. E. M. degree in long form by the Palestine Chapter, at 7:30 p. m. Wednesday, May 23, in the lodge. The announcement comes from R. F. Coolman, secretary; and Herman Reinhardt, H. P.

Hi-Y Club Elects Officers, May 14

Frank Eaton Is New President for Next School Year
Reeves Is Vice-President

May 14 was the election of officers night for the Northville Hi-Y club. The new officers are: Frank Eaton, president; Eugene Reeves, vice-president; Lewis Foreman, treasurer; and Louis Herrick, secretary. For the club's next meeting, May 20 a winter was planned. The club invited all the freshmen in the high school to come if they are interested in joining the Hi-Y club next year. The charter for the club arrived the week of May 13. The frame for the charter will be made by Wherry, Holt and the Hi-Y plaque will be made by Clayton Rodgers.

SENIOR SKETCHES

Wilford Franklin Wilson, senior class president, was born Dec. 3, 1921, about five miles west of Northville, where he has lived ever since. He started to school at Thayer grade school, near his home, and went to school there until he had completed the eighth grade. Next he came to Northville Co. school, from where he will graduate next month. Wilford has been a very enthusiastic and active member of the class of '40, and as we have already mentioned, was elected president for his senior year.

Mr. 31 Moon & Ford seems to be Wilford's hobby. He claims that all he does is drive it, then take out the rattles and squeaks. He also does woodworking very well. Pastimes are very numerous, including dancing, swimming, roller-skating, jockeying, hunting, fishing and movies. In fact, there are very few things which Wilford doesn't do. In his spare time, after school, and week ends, he works at Warner's Gas station.

Grade Notes

The children in Mrs. O. F. Reng's second grade room have been working on a farm unit. In connection with their safety work this class made up several original safety verses.

The fifth and sixth graders of room 25 are working out a demerit system. The pupil starts the week with 100 points and he keeps winning or losing points. At the end of the week the highest he may have is 125 points. The pupils give each other demerit slips for breaking rules.

The patrol boys went to the ball game Friday afternoon.

Around the School

The first and third hour biology classes took a trip to the Natural Science Museum, Ann Arbor, May 16. Members of the two biology classes, along with Mrs. Gladys Ludwig, the biology instructor, Miss Estelle Griffiths' English 10 classes have been writing themes and from them are listed the names of the best themes and the students who wrote them. Julia Politz—Miss Herring, the Dressmaker; Carrel Carlson—The Hermit (a poem); Don Barnard—Mail Pilot Story; Edythe Amerman—Ye Old Curiosity Shop in Washington; Robert Vogtlin—Prelude to a Drama; a scene; Eugene Reeves—Shopping; Myra Gibson—School Prince; Florence Renschler—A Day on a Wyoming Ranch; Hanson, Edgewood—My Futile Experiment; Louis Rossow—My Science Experiment; Tom Widmaier—A Group of Loafers.

Wednesday, May 22, 15 students of the Speech class accompanied by Miss Griffiths, instructor, attended the matinee at the Lyova Mendelsohn theatre in Ann Arbor. They saw the stage play, "A Winter's Tale" by Shakespeare.

We have a change of date to make regarding the operetta! Instead of May 28 and 31, the dates will be May 29 and 31. Practices continue and promise a fine performance.

Two new students have enrolled at "dear old alma mater" and we sure do hope they will like it here! Fred Sweet, a freshman by the way, came from Hutchins Intermediate in Detroit and Donald, another mighty freshman came from Jefferson Intermediate in Detroit. Fred now lives at 1316 Beck road, and Donald lives at 370 Fairbrook.

Of the 20 students who went out for track at the beginning of the season, only a very small number found time for practice. Therefore the track team has been abolished for the remainder of the season. Coach Neville Walker will devote time planned for track to the baseball team, assisting Coach Harry B. Smith.

Mr. and Mrs. Lynnwood Whitaker (nee Betty Greer) of Concord announce the birth of a son Robert Earl, May 10.

Tree-Top Table

Here's something new in tables, displayed at Chicago's Merchandise Mart. The table will hold a six-foot tree. Julia McCarthy is admiring the cactus, but plans on planting an evergreen in her own tree table. The new home-furnishing is constructed of amber mahogany, with a copper lining and leather top. One of the most unusual pieces of furniture exhibited, it attracted widespread attention from dealers all over the nation.

WARM-WEATHER cooking is

as easy as this!

THE modern way of preparing meals is cool and pleasant... as easy as plugging in your electric toaster. Simply put a whole dinner into your electric cooker at one time, and go out for the afternoon while the meal is cooking. When you come home your dinner is waiting, perfectly cooked and ready for the table.

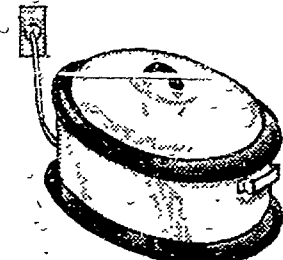

Spend extra hours out-of-doors

An electric cooker brings you freedom from the kitchen, more leisure time to spend out-of-doors. You'll enjoy the cleanliness and convenience of this up-to-date cooking

method. But you'll also marvel at the deliciously different FLAVOR of foods cooked electrically.

Electric cooking is healthful, waterless cooking. Important minerals and food values are SEALED-IN... meats and vegetables cook to melting-tenderness in their own juices. Your electric cooker will roast a 15-pound turkey or a whole ham. It will bake pies, cakes, biscuits. It will steam and stew. And it is economical to use.

80,000 OF YOUR NEIGHBORS now use these electric cookers. See them on display in many different sizes and models—at furniture and department stores, hardware stores, electric appliance dealers and all Detroit Edison offices. The Detroit Edison Company

for a recreational center for younger persons over 18 years of age. Speaking for the teachers, Coach Harry B. Smith told of the increased responsibility that added extra curricular activities had placed at the school doors during the past few years.

Supt. R. B. Amerman stressed

character training, saying that mental training was of little value if there was no moral stability. A good teacher, he said, must have

personality, tact, character, professional ethics, and a sound educational training. Summarizing the ideal teacher, he commented: "A

good teacher is one who can see in the ordinary child, extraordinary possibilities." At the social hour, Mrs. Eber

Ward Lester, Mrs. Joseph McGluskie, and Mrs. George I. Price were hostesses. Some 150 parents attended.
