Methodists Plan Church Building Improvements

An extensive improvement and renovation project is the goal for the Methodists this year, with most of the work directed toward making the church house more attractive and adequate for the demands which the church program makes upon its use.

Members of the church official board have authorized that work get under way as rapidly as funds come in to cover the expense.

The tentative improvement plan calls for the removal of the present furnace in the church house and the installation of steam heat covering the ceiling and walls with sound absorbent material to reduce the echo which at present makes speaking in the room difficult.

Blue Stamp "Buys" Exempt from Tax

Retail merchants of Wayne county, where the federal Orange and Blue Food Stamp Plan is now in effect are advised by the State Board of Tax Administration that "blue stamp purchases" of designated surplus commodities are exempt from state sales tax. This is because such sales are sales to the federal government and therefore tax exempt since blue stamps are redeemed by the federal government. Merchants to obtain this exemption are required to show these "blue stamp sales" in their monthly gross sales reports to the state tax department. "Orange stamp sales" are held taxable by the State Sales Tax Administration because they represent sale of regular stock on the merchant's shelves, not "surplus commodities."

THE DANCING BEAR!

What Does America Have To Defend? ...

A spirit of freedom the most precious gift from our forefathers.
A people's government, controlled by them, and determined to be free.
A great people, over 132 million souls of many races and creeds.

What more honorable career may a young man choose than that of defending his native land? ...

Two men spoke from the great stage of the Metropolitan Opera House on the night of Nov. 3, 1932, to a huge crowd of cheering New Yorkers. It was the final rally of the Roosevelt supporters to oust Herbert Hoover from the White House.

I resent at any time or any place the attitude that the safety of this country depends on any man holding his job ...

The second man said something of the same kind when his turn came to speak:

A great man left a waterword that we can well repeat: "There is no indispensable man."

The first speaker was Owen D. Young, author of the Young Reorganization Plan and former head of the General Electric Company. The second was the then Governor of New York — Franklin D. Roosevelt.

Six hundred Methodist men at Ann Arbor applauded when their new bishop said, "Yesterday my son registered. I sent him this telegram: 'Congratulations, son, today you register for Home, God, Country and the World.' ..."

On the Home Front ...

America's greatest defense is in strengthening the democracy right here at home ...

And what's more, no man or woman need work his or her shirt off his or her back ...

Time describes his campaign tour as a tour in the annals of American politics ...

Turn your attention to the Battle of America, forget for the next few weeks the European conflict about which you can do nothing but wish.

Infantile paralysis cases are still being reported and parents everywhere should be on guard for early symptoms.

Navy Day is usually observed on Oct. 27, the birthday of Theodore Roosevelt, "The Father of the American Navy."

In his proclamation calling for the public observance of this day, Governor Luren D. Dickinson says: "This year, we view with added significance and satisfaction the strength and readiness of our sea forces, because we realize, in the light of tragic events in other parts of the world, that they form the barrier which stands between war and peace for the people of America."

An allotment of \$109,296 to 126 high schools in Wayne county for helping needy students to earn part of their expenses has been reported by the State Director of the NYA Student Work Program.

Of the \$2,351,758 primary interest fund ready for distribution Wayne county receives \$1,236,416. Washtenaw receives \$48,227, and Oakland county, \$192,945.

News from Walled Lake

By CHARLES E. HUTTON The "Autumn Frolic" as the Civic Welfare club dance, Saturday night, was nicknamed, turned out to be a pleasant affair, enjoyed by all who attended. Unfortunately, quite a number of the townspeople were frolicing about at points north over the week end, in quest of light game and to satisfy the sporting instinct, and so the dance wasn't so well attended as could have been. The music was exceptionally good, too. The L. B. Miles and the S. J. Voorhees entertained at post-dance parties in their homes as did the M. G. Posts, I think.

The varsity eleven could offer little in competition with Clawson, Wednesday, and was defeated, 26 to 6. Holy is here this Friday for the third league game on the Walled Lake schedule.

We mentioned something last week of the wedding trip of Mr. and Mrs. Leon Glitz. Since then they have returned and we find they traveled a total of some 6,000 miles, and included a stop at San Antonio, Hot Springs National Park, Mexico City, Tuxco, Mexico, via the new Pan American highway, and a return by way of New Orleans and Manhattan, Cay, Ky. They were gone about four weeks.

Advertisement for State Ballot No. 4: Bills to Kill Competition. The anti-advertising movement in the legislature is to come to a head in the senate tomorrow in the form of a final showdown on the bill (State Ballot No. 4) prohibiting the advertising of prices by dentists. Another similar bill reported out of the committee in the House would forbid beauty parlors to advertise prices, and a third one would put a like restriction on chiropractors. An earlier bill, the progress of which we have not learned, would forbid watch-makers to advertise their prices, and it is reported that still another in-terested not long ago would forbid barber shops from advertising their prices, even the ancient barber's pole. Such bills are commonly referred to as anti-advertising bills, but in reality they are anti-competition bills. The prohibition of advertising is only incidental. The main purpose is to keep prices up by preventing competition on the part of those who are willing to work for lower prices because they are desiring the public interest. That is why The Telegram and many other newspapers of the highest standards, are opposed to such laws. It is not because such legislation would deprive them of revenue, but because it is bad public policy. Our own revenue from such advertising is insignificant; we have in the past years carried some beauty parlor advertisements containing references to prices, but our business department cannot recall any such advertisements from dentists, chiropractors, or watch-makers. But if any man or woman in these lines of business chooses to advertise prices, or to announce lower prices than somebody else charges, there should be no law to prevent it. Such a law would not be in the interests of the public. The idea of various groups getting legal protection for their own business is running rampant these days. If it keeps on, everybody will be trying to get laws passed to make it harder for others to enter his line of business, and to prevent competitors from working or selling at cheaper prices than he. Legislative favor does not stop, every trade and line of business will be a sort of privileged guild with limited numbers, special licenses, regulated methods, and prices held up artificially by legislation. There is no public demand for such laws. The public does not want them because they are desiring the public interest. They are solely the work of pressure groups, operating on politicians who are looking for votes. Politicians who think the votes of the pressure groups are important, and who imagine that the people don't know or care, will take up some morning to find that the people do know and care a lot, and that the people have voted more votes than the pressure groups. -Tuesday, May 9, 1939

CONGRESSIONAL COMMENT

by **GEORGE A. DONDERO**
Member of Congress, 17th Michigan District

Bills are introduced in the U. S. House of Representatives by dropping them "in the hopper," which is a box near the Speaker. The Parliamentarian of the House examines each bill and determines which committee it should be referred to and so indicates. The bill is then numbered and sent to the Government Printing Office for printing. All bills are printed and a copy of any pending bill may be secured upon request.

A bill may be the result of conferences between Congressmen and their constituents; it may be introduced at the request of someone, or some particular group, or it may be drafted and introduced solely by the Congressman.

House rules grant the right of reference to the Speaker. However, the average bill is never seen by the Speaker until it reaches the House for debate. The Parliamentarian, trained in law and parliamentary procedure, refers the bill to a committee having jurisdiction of the subject matter of the bill. If the Parliamentarian's decision is contested, the Speaker must rule. The House itself, in extreme cases, may be called upon to determine the proper committee for an important bill.

Mid-Winter Festival of Chamber Music To Be Given in Ann Arbor in January

Charles A. Sisk, president of the University Musical Society, University of Michigan, is optimistic over the future for musical activities. The Society over which he presides is expressing its optimism by the expansion of its concert activities this year. A new series of concerts supplementary to the well known Choral Union and May Festival Series has just been announced.

The Musical Art Quartet, New York City, has been engaged for a special three concert mid-winter festival of chamber music. This series will be given in the elaborate auditorium of the Rackham building, the University's new monumental School of Graduate Studies.

The Quartet is composed of four distinguished musicians who have brought their performance to a high point of excellence in the field of chamber music.

Sascha Jacobsen, the founder and his associates, Marie Roemert-Rosnoff, Paul Bernard and Wilhelm Hymanson are all artists of solo calibre, and have had wide experience playing alone as well as in ensemble. Fourteen years ago they united their artistic resources into a group which has set a high standard of quartet playing. Mr. Jacobsen plays the famous "Red Diamond" violin dated 1732. Mr. Bernard plays the "Allegretto" violin of 1703. Mr. Hymanson plays the "Gibson" viola of 1728 and Madame Roemert-Rosnoff, the "Pawle" violoncello of 1730.

The concerts will be given Friday evening, Saturday afternoon and evening, Jan. 24 and 25, 1941. Pickett Serkin pianist, will appear in the Choral Union Concert Series in Hill Auditorium, Ann Arbor, at 8:30 p. m., Thursday, Nov. 7.

Mrs. Robert M. Wilson of Salem, has a hobby of collecting salt and pepper shakers. The distinguishing feature of her collection is that most of her 65 sets were gathered as souvenirs from different cities which she has visited. A pair of pelicans carry the stamp of Charlotte on them, and a set of tulip shakers from Windsor, Ont., bear the insignia of the Canadian maple leaf. Mrs. Wilson has a salt and pepper set of crabs from Mackinac City, a set of elephants from Lansing which she considers rather appropriate. She also has many other sets, many of which she has gathered on vacation trips. Her oldest set (now 4 years) once belonged to her husband's grandmother.

"I have pledged myself to win recovery for America. This pledge is just as important to the farmer as it is to the business man. And I know how to fulfill it. I will, with your help, bring this nation of ours together."

people over this phase of state administration. Would this transition be good or bad? That is the question the voters must decide...

Merit System... Probably the first question in the mind of the voter is "Why is it deemed necessary to strip the legislators of this power?"

It will be remembered that the 1937 Democratic Legislature passed the bill setting up American Boy civil service. Frank Murphy, then governor, imported William Brown from California to administer the system...

At that time the newly elected Republican legislature reversed the system by which Murphy created the positions... but there were observers in politics and out who felt the liberalization was justified on the basis that Brown had sought to do the impossible...

Further, the amendment manipulates the state purse-pouch. It directs the legislature to appropriate not less than one per cent of the total state payroll for the merit system...

At the same time the amendment has been raised. Various organizations, which are supported civil service and which formerly opposed the Merit System...

The Michigan Federation of Labor has attacked the amendment because it pre-allocates funds and on the ground it would jeopardize the bargaining rights of labor.

On the other hand, proponents of the amendment emphasize the efficiency angle. The words of Samuel H. Ordway, Jr. of New York City, president of the National Civil Service Reform League, illustrate this point.

"Each of us as citizen and taxpayer," he said in a recent talk in Lansing, "is concerned not only with getting a dollar's worth of service for tax dollar paid but, for the preservation of democracy itself, in seeing that all these services are as effectively rendered as skill, most painstaking, and high morale can assure."

American Boy Is Companion To Thousands

Hundreds of thousands of boys and young men read The American Boy magazine every month and consider it more as a living companion than as a magazine.

It is so much a buddy to me as my neighborhood club," writes one high school senior. "The American Boy helps to understand a boy's problems and concerns."

Teachers, librarians, parents and leaders of boys' clubs also recommend The American Boy enthusiastically. They have found that as a general rule regular readers of The American Boy advance more rapidly and develop more worthwhile characteristics than do boys who do not read it.

Trained writers and artists, famous coaches and athletes, explorers, scientists and men successful in business and industry join with an experienced staff to produce in The American Boy the sort of reading matter boys like best.
