\$1.50 PER YEAR IN ADVANCE

STATE CAPITOL, Lansing—As leading politicians see it, Michigan citizens are concentrating too much attention on Hitler's threatened "Axis" party in England and our entry as a belligerent into the war. It so happens that an important election is to be held next Monday, April 7.

But to judge from conversation to be heard at dinner tables and in places of business, the Michigan election hasn't been getting the attention it deserves.

Not only that, the international situation and our domestic boom have combined to put legislative problems into temporary eclipse. James Easwell, liberal correspondent for the Detroit Free Press, phrased it this way:

"Michigan's legislature always is conservative, but this year the radicals sing exceptionally small. Advancing prosperity and public preoccupation with war and defense contribute to this state of mind."

Highway Race  
Interest in the election, Monday centers on the offices of state highway commissioner.

G. Donald Kennedy, Democratic nominee, has enjoyed an advantage over the Republican nominee, Leroy C. Smith, in time for campaigning. Kennedy knew many months prior to the convention that he would be the nominee. Smith did not.

Consequently the Smith campaign was slow to get started. Republicans have been raising an issue of politics in the highway department and emphasizing Smith's 32 years' experience as a highway engineer, while Democrats have plugged consistently and vigorously on a pledge to continue the Van Wagoner policies and on Kennedy's personal knowledge of the job.

The contest has been enlivened somewhat by activity of county road commissioners against Kennedy and in behalf of Smith. County road men have felt for years that the state department was taking over too many roads and spending too much money.

Whoever is your choice, and we hope strictly to a non-partisan line, be sure to vote TWICE—one for the short term, and again for the long term, so that you cast your ballot for state highway commissioner.

#### Control of Board

In order to obtain control of the state administrative board, Democrats would have to put over both Kennedy and Edward McFarland, nominated for state superintendent of public instruction.

Eugene B. Elliott, Republican incumbent, passed a state-wide resolution as an educator, McFarland a professor at Wayne university was chairman of the liquor control commission during the Murphy administration.

Other party nominees are for the state board of agriculture, two to be elected, University of Michigan regents, two to be chosen and the state board of education one to be picked.

#### Forgotten Amendments

In the neglected class are two amendments which will appear on a separate ballot.

The amendments, in brief, are designed to prevent fraud in petitions for referendum and initiative. They would require a person to be a "registered voter" before he could sign a petition and the secretary of state would be authorized to determine the validity of all signatures.

## • Nine Reasons for Going to Church . . .

As we approach Holy Week and its attendant applications to the religious and moral uplift in the community, we are reminded of one of the finest statements of the advantages of church attendance ever presented. Theodore Roosevelt named his nine reasons for going to church. Here they are:

1. In this actual world, a churchless community, a community where men have abandoned or scoffed at, or ignored their religious needs, is a community on the rapid down grade.

2. Church work and church attendance mean the cultivation of the habit of feeling some responsibility for others.

3. There are enough holidays for most of us. Sundays differ from other holidays in the fact that there are fifty-two of them every year. Therefore on Sundays go to church.

4. Yes, I know all the excuses. I know that a man can worship the Creator in a grove of trees, or by a running brook, or in a man's own house just as well as in a church. But I also know, as a matter of cold fact that the average man does not thus worship.

5. He may not hear a good sermon at church. He will hear a sermon by a good man, who with his good wife, is engaged all the week in making hard lives a little easier.

6. He will listen to and take part in reading some beautiful passages from the Bible. And if he is not familiar with the Bible, he has suffered no loss.

7. He will take part in singing some good hymns.

8. He will meet and talk to, or speak to good quiet neighbors. He will come away feeling a little more charitable toward all the world, even toward those excessively young men, who regard church-going as a soft performance.

You good folks, "You go to your church and I'll go to mine, but let's all walk alone together."

## • Election Next Monday . . .

Next Monday, April 7, is election day in our Township but not there is no real election. So far as in our County government are to be elected, and the usual state ticket looks like we expect to choose in favoring a number of important offices. In the County, the election of the judiciary domain is entirely悬而未决, as regards the present time when Weis is re-elected and the re-election of Detroit is apparently a foregone conclusion, it cannot be and racketeering. Under the pressure of the circumstances an ill-chosen judiciary is worse than none, however. Look well to these offices this spring.

On the state ticket, education and agriculture and the issue of the administrative board control, apparently assert themselves. Democrats feel that the election should give them these places on the administrative board with majority control. Republicans seek to enhance and hold the present bi-partisan Michigan State government balance of power and justify the unassisted convention of the party. And there are the issues. Check well your man for Superintendent of public instruction — especially you who have children in school. Personally we believe that Mr. Elliott is qualified and deserves re-election. Again we see no reason for a closer tie up with liquor and our public schools as represented or intimated in the Democratic tie up in this election. A qualified incumbent as state highway commissioner is challenged by a qualified Wayne county man. Here the issue is the control of the personnel and political strength of this department in state government. The state ticket will pretty largely be carried along in toto with little splitting of the ticket. So look well to your X's.

The records of past elections show that spring elections have not always been given proper consideration by the people. This is best evidenced by the fact that between 700,000 and 850,000 people voted in the 1935, 1937 and 1939 elections, only a small part of the 2,085,929 voters in Michigan who voted for President last fall.

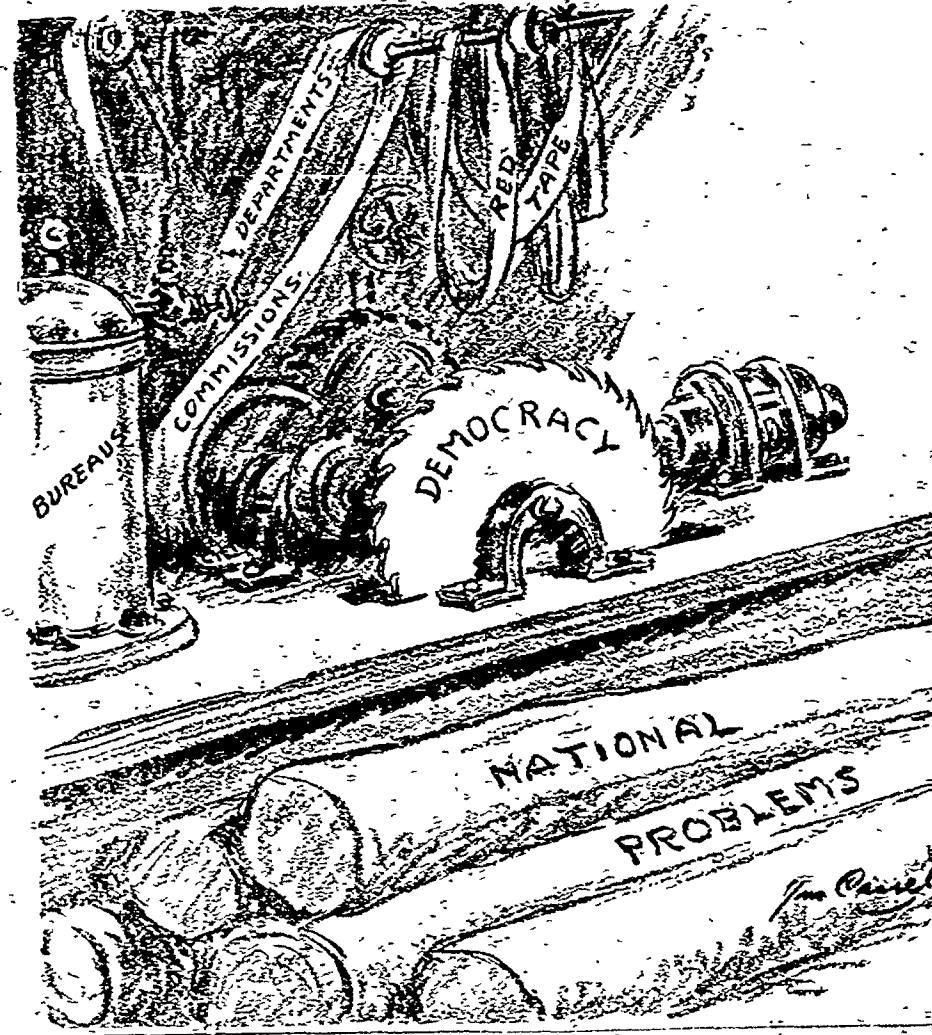

At this election the people will be called upon to determine who shall construct and maintain their highways for the next few years; who shall be selected to guide the education of the youth of this state; who shall be elected to the Supreme Court; and, last but not least, whether Proposals No. 1 and No. 2 upon the ballot, in regard to fraudulent petitions, shall be adopted.

In the trying days that are ahead all will not be called upon to take their place at the forge, the press, or the anvil, in shaping the sinews of war necessary to defend this land. Nor, will all be called upon to don the uniform of service. But, there is one contribution that all can make, and that is to first clearly realize the privileges-to-day of American citizenship, and to prove to all that they appreciate those privileges by exercising same.

\* \* \* \* \*

News reports tell of a threatened strike by highly paid workers in a big army cantonment, because the contractor in the case has employed some non-union workers — free American citizens who have a right to work. If the "dollar-a-day" young men who have been conscripted into the army threatened to walk out because they didn't agree with the idea of a new bunch of conscripts coming into camp, the crackdown would be swift and harsh.

## Novi High School and Grade Notes

## CHOOSING A CAREER

In choosing a career one should make a careful analysis of his personal abilities, likes and dislikes. Then try to select a vocation into which his qualifications best fit. One should choose a career which is in the grades if possible. Then he can start his preparation for the work chosen, before he has finished high school. If this is done one can take subjects in high school that will help him to start preparing himself for the career that he has chosen. If one can go on to college it will help him to make a better success of his chosen life work.

Monday April 7<sup>th</sup>

**EUGENE B. ELLIOTT**  
President Michigan  
Superintendent of Public Instruction

Vote for Smith twice, short term and long term.

Tuesday, time: 10 a.m.,

Citizens of Michigan:

Today's critical times demand the highest qualified public servants.

In state convention, 2106 Republican delegates chose unanimously for state offices men of outstanding ability and experience.

You have an unusual opportunity Monday, April 7. You will decide by your vote whether YOU want politics in your schools and your highways.

Elect LEROY C. SMITH state highway commissioner. He served NINE YEARS as deputy commissioner and engineer; TWENTY-THREE YEARS as Wayne county road engineer. Here is a nationally-known road builder. He pioneered the first

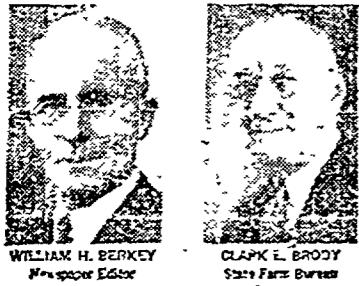

national defense type roads in Michigan. He originated the idea of tourist park facilities in Michigan.

A native of Mecosta county and former resident of Benzie county, Smith knows the needs of local government—he's tops in his field!

Re-elect EUGENE B. ELLIOTT state superintendent of public instruction. He will continue to keep schools out of politics. Here is an able public servant who knows Michigan's educational problems. He, also, is tops in his field!

Other Republican nominees, whose names and pictures appear below, join in this appeal: "For Good Government in Michigan, Vote Republican on Monday, April 7."

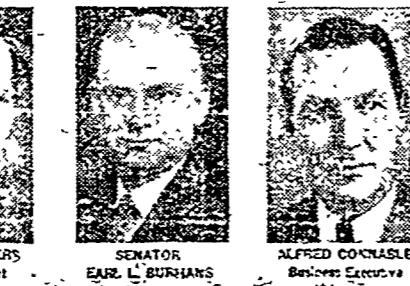

Michigan deserves the best!

"For the last eight years, the team of Gov. Van Wagoner and Commissioner Kennedy have carried out a highway program which caused us in Washington to look upon Michigan as the nation's model for trunkline construction and maintenance," said McDonald.

"Today, more than ever, we look to Don Kennedy to lead the way in defense highway problems," he added. "Mr. Kennedy's plan for a Harper-McGraw cross-town express highway in the metropolitan area is President Roosevelt's pet project. Construction will start as quickly as Congress acts on Mr. Kennedy's requests for funds."

McDonald stressed that Michigan's "number-one highway problem" is congestion on industrial access routes and on main arteries such as Grand River Avenue, which Kennedy's department plans to relieve with a parallel elevated express highway.

"The Harper-McGraw cross-town route, from Alpen Park to Harper and Seven Mile Road, will serve 15 per cent of the area's defense and peace-time industries and employees and will be a national model for other states to copy," McDonald said.

Mayor Jeffries and Gov. Van Wagoner also spoke at the defense-roads conference, and said the new expressway program is vital to the continued growth of the Detroit metropolitan area. "Inadequate streets threaten the very life of the industrial area," said Jeffries.

## DAR Convention Is Held Friday at Port Huron

Virginia Rock and Marilyn Cavell To Receive Medals in May

Marilyn Cavell, chosen by the high school faculty and senior class as the "Good Citizen" of the senior class, attended the annual D. A. R. convention held at Port Huron last Friday. Marilyn and Virginia Rock, of the Plymouth high school were taken by Mrs. Henry Baker, an active member of the D. A. R. Society in Plymouth.

Marilyn and Virginia were chosen as the "Good Citizens" of their classes through their demonstration of leadership, dependability, cooperation and patriotism during their entire course to an outstanding degree.

During the two-hour drive to Port Huron, the two girls found that their interest followed in practically the same lines. Both are interested in public speaking, particularly in speech and drama, and journalism — Marilyn particularly in speech and drama, and Virginia mainly in speech and journalism. Both girls have participated in debate, forensics, class plays, operetta, and have held important offices. Marilyn is president of her senior class and Girls' N. C. A., and editor of the 1941 Palladium. Virginia is president of the Student Council and assistant editor of the Pugmire, Pan's the school newspaper section.

Last year D. A. R. winner to Washington, D. C. Archibelle Gordan, presided over the luncheon. She gave a brief description of travel to Washington. She said she was not the people I saw, big, fat Washington itself that impressed me. She recited several poems — most of which were of her own composition. The girls all liked them. Archibelle and Archibelle asked to be called more interesting and funnier than the main speaker of the day.

Marilyn and Virginia will be given a certificate and a citation by local chapter of the D. A. R. Honor Assembly, sometime in May.

### Washington MERRY-GO-ROUND

Washington, D. C.  
BIGGEST CROP BUYING  
PLAN YET

During debate on the farm bill, Senator Murray of Montana rose to the vice president's dais and whispered to Henry Wallace's ear. The bill, he said, ought to contain a provision whereby Britain could buy or borrow farm products as well as armaments.

Vice President Wallace replied that he thought so, too, but had not felt it necessary to "spell it out" in the bill. However, he mentioned the matter to Senate Floor Leader Borckley, who offered an amendment to the lease-land bill.

This was the simple mechanics whereby the biggest farm purchase plan since the last war has started. Most people don't realize it, but the lease-land act makes the United States for only the area for Great Britain, but also her granary, packing house and slaughterhouse.

A total of \$1,300,000,000 has been allocated out of the Seven billions for British defense—all of which will bring sorely needed help to the farmers. So while industrial regions have prospered in this war, the farmer so far has not.

In the last year not only England but France, Italy and the Scandinavian countries, even Russia need food and cotton. Farm prices soared. But in the last year these areas except England have been cut off from American markets or the British blockade.

As a result, farm prices are low and surplus mounting. We have a corn carry-over four times normal of 700,000,000 bushels. The wheat carry-over is 460,000 bushels, of which the government has 11,000,000 bushels of cotton under loan or wholly owned. It is 372,000,000 pounds of tobacco, 2,750,000 pounds of sugar, butter, 3,600,000 bushels

surplus vegetables and 55,000,000 pounds of surplus fruit. In other words, the agricultural situation is critical. It faces a mounting overstock.

Secretary of Agriculture will continue his stock program, such as exists now, and the market price will be raised, which England does not do. The Department of Agriculture expects to have the new crop in time to meet the needs of foreign countries, which will greatly help the price of corn in the first place for the corn belt.

However, if not the British will buy the corn, the United States will have to buy it itself, which means that the market price will be increased. This is what happened in 1937. The market price of the corn belt was 10 cents a bushel, but the price of corn in the first place for the corn belt.

Two new battleships, the North Carolina and the Washington, originally slated for commission late this year, will join the fleet in June, increasing the number of "battle-wagons" to 17. Fifteen others are under construction.

Naval chiefs estimate that the top number of destroyers to come off the ways this year would be 12. But actually 17 will be completed in the next nine months, bringing the destroyer fleet up to 17, a large part of them super-craft of the latest design.

Here's the present status of the whole fleet:

Ships on hand—15 battleships; 18 heavy cruisers; 15 light cruisers; 150 destroyers, including 74 over-age; 10 aircraft carriers; 10 aircraft tenders; 6 aircraft carriers. Total combat ships in commission—322.

ment and discussion in the community. As the individual respon-

sible for casting the deciding vote, I would like to explain my approach to the problem and the reason for my decision. Since it is generally

known that I do not believe that our teaching staff would not be adversely affected by the adoption of the Resolution. After careful, impartial consideration of the Resolution, my vote was cast in the affirmative. Subsequent discussion of this matter with other persons in the community, and further deliberation, have not caused me to regret the manner in which I cast my vote.
