Good Friday

And when they were come to the place, which is called Calvary, there they crucified him, and the malefactor, one on the right hand, and the other on the left.

Then said Jesus, Father, forgive them; for they know not what they do. And they parted his raiment, and cast lots.

And it was about the sixth hour, and there was a darkness over all the earth until the ninth hour.

And when Jesus had cried with a loud voice, he said Father, into thy hands I commend my spirit: and having said thus, he gave up the ghost.

Township Remains Traditionally Republican, Contrary to County at Large which Went Democratic; Judicial Vote Follows Closely; County Friend; Amendments Favored

No Contest in Local Offices

With only one ticket, the republican, in Northville township, the annual spring election Monday, Apr. 7, brought no local contest. Despite the lack of interest at home, 531 qualified voters went to the polls in this township.

Remaining traditionally republican, Northville township's vote went contrary to the county at large which was mainly democratic.

In the circuit court judge race, Northville's selection of 18, lacked only a few cases of being the winners. incumbent Henry G. Nichol, endorsed here, lost. CIO-endorsed Earl M. Neuenfeldt, did not rank among the high 18 in Northville. In the measure, the other newcomer, Thomas J. Murray, was not favored here.

Deputy G. D. Kennedy who led Earl G. Smith in the highway commissioner race, lost to the favorite candidate here, Northville's Eugene J. Ely.

Republican E. B. Elliott, State Commissioner of Public Instruction, was favored in Northville over his opponent, P. W. McFarland. McFarland received the favorite through-out throughout the county. Back to his constituency, Elliott.

Northville follows the trend on the amendment vote favoring both the proposal to provide that amendments to the State Constitution on any day be proposed in both houses of the legislature and that the proposal be passed by both houses of the legislature and registered as a law.

At the township supervisor election, William A. Ely, over Fred W. Lake, Treasurer, M. J. Koldyke, J. L. J. of the Board of Health, Member, T. P. Carrington, and in the school board, the election was no contest. The election was held in the school building, Jan. 6. A. H. W. J. and Roy Koldyke.

At the township supervisor election, William A. Ely, over Fred W. Lake, Treasurer, M. J. Koldyke, J. L. J. of the Board of Health, Member, T. P. Carrington, and in the school board, the election was no contest. The election was held in the school building, Jan. 6. A. H. W. J. and Roy Koldyke.

Whosoever Believeth...
Reverently in the midst of the soft mystical light filtering through stained glass windows millions of people will gather Easter Sunday. On millions of others the light will be clear, for bonobers are no respecter of beauty or creed.

Out of darkness comes day... from despair comes hope. Many centuries ago a misunderstood Jesus seemingly fell prey to darkness. But the light of that morn nineteen hundred forty-one years ago showed that He triumphed. He proved that things of the spirit do not perish, that Easter is an unforgetten and unbroken promise. "Easter lilies will fade and die. Their seeds will live and grow. A tree in winter seems without life but the light of Spring brings Easter.

I like to see a man proud of the place in which he lives. I like to see a man live so that his place will be proud of him. Be honest but hate no one, overturn a man's wrongdoing but do not overturn him unless it must be done in the overturning of the wrong.—Abraham Lincoln

You Speak A Thousand Times...
On the diffusion of education among the people rests the preservation and perpetuation of our free institutions.—Daniel Webster.

The Spring election over, Northville now turns to an event of keen local interest and immediate concern. Our school board has engaged a policy, and at the same time asked us to vote in its favor upon the same. The board agrees to be bound by our verdict. For the first time you may quickly, easily, and without fear, express your view upon an issue of long standing in the community. You are asked thoughtfully to place your "X" in the proper square on a ballot.

The issue has been an anxiety-disturbing element in our community long enough. Let us seek to make our public schools a unifying influence in our community. May prejudice, personalities, whim or caprice yield to the privacy of the ballot booth to the quiet reasoning of your better judgment. Make the future betterment of our Northville schools the deciding factor in this issue of opinions.

Let us further season our judgment and weigh the issue in the ever present knowledge that one thousand Northville boys and girls, those most vitally affected, remain silent, impartial, while you and I decide the merits of this question.

Advantages and disadvantages, fact and fancy, past and present suggest that there is much to be said on both sides. It is no one-sided matter, but wherever the preponderance of the evidence rests, your better judgment suggests that thoughtful consideration dictates your decision.

May we as a community and as individuals purge ourselves of selfishness and in a straight-forward, clean and upright manner cast our ballot for the best interests of those we love the most... Our Children.

Let us see to it that in word and conduct, we as parents can keep the issue clean, and win, or lose, be such a parent, guide and counselor that even our children and the other boys and girls of Northville may know that we, too, are good Americans... even as we hope and pray they will be. Your vote has a thousand echoes.

By plain coincidence, two Washington news stories were released the same day and carried side by side on the front page of one of Michigan's leading newspapers. One headline read: "Defense Cost at 40 Billion; Signing of Aid Fund Bill to Step Up Activity." The other headline read: "Taxes Average \$410 a Family. That's \$109 Per Capita, or 23 Per Cent of the National Income." Inadvertently, a perfect lesson of cause and effect was portrayed graphically:

ALL IN THE SAME BOAT!

To the Editor

Note: Letters appearing in this column express the opinion of the contributors and do not reflect the policy and opinion of The Northville Record.
Dear Editor:
The Northville School Board has seen fit to ask the voters' and parents' opinion of the continuation of married teachers in the schools. It is hard to understand how such a question could ever have arisen on merit. It is easy to see how the Board might yield to public pressure in times of stress and unemployment and by off loading teachers whose husbands are working in order to ease the economic burden of the community. But now, of all times, to do such a thing! There is little unemployment. Single women teachers among them, are flocking into government jobs and into industry where the pay is greater than that of our Board. It seems likely that by next fall the Board might think itself lucky to have enough teachers, married or single, to run the schools properly. I for one shall register my vote against eliminating married teachers.

Married teachers are established and are likely to remain available to the school for a long time. Will not single teachers be transient and tend to spend a year or two here where the pay is low in order to get experience and then the better ones of them move on to better paying positions? Why should the Board want to eliminate the married teachers simply because they are married? It is conceivable in certain instances that domestic responsibility might weigh on the teacher's time and cause her to be unable to give her best to the school, but does that hold for all married teachers? A teacher is no less able to instruct my child because she marries. Does the Board have evidence that married teachers will tend to remain at home in the evenings are less prepared for the work of the morning than the single teachers who usually will be out socially much more than the married stay-at-homes? From conversation with Board members it appears that the Board has no evidence that married teachers lose more time from work than single ones because of others in the family. Does not the whole issue turn on...

teaching efficiency. Whether a teacher is married or single seems so far as efficiency is concerned, just as important as whether her eyes are blue or brown. For the sake of my child's training, I care not whether the teacher has a husband or children if she is a good teacher. It seems unfortunate to me that a question of this sort should ever have to be decided upon by public ballot. But it is up to us now. I urge parents and voters to go to the polls on this question and register their reaction to this proposal. H. S. WILLIS.

By E. L. BESEMER, County Agent

Lawns Need Early Treatment
Now is the time to get the lawn in condition for a season of enjoyment and use, according to County Agricultural Agent E. L. Besemer.

A spring application of commercial fertilizer should be applied now so as to give the grass an early start. Use a 10-5-4 fertilizer at the rate of 10 pounds per 1000 square feet and spread it evenly over the lawn.

Birthday congratulations to Mrs. Zewel Parcells, Apr. 13. William Brannan of Williamston, grandfather of Kenneth A. Kitchen, will be host for Easter Sunday to the Kitchen family.

Attend Church Thieves, murders and other transgressors of the law paid the penalty for their crimes in crucifixion on the Cross.

It was not until after the crucifixion of Jesus Christ that the Cross ceased to be an emblem of shame. It became the insignia of Christian society, with the promise that whosoever looked upon the Cross and believed would have life abundant and eternal.

Sunday, April thirteenth is Easter Sunday in every church throughout this country. Ministers everywhere will tell again the story of life, death and resurrection of this same Jesus who changed the Cross from one of death to one of life, honor and glory.

You are invited to attend church anywhere Sunday. A welcome awaits you. You will hear a message that will help you bear your cross without complaint.

The business and professional men of Northville take this method to urge you to attend church on this Easter Sunday.

Meet your banker and know your bank
BANKS affect every man, woman and child, whether a bank customer or not. Our economic system is based on money, credit and banking. Our food, our clothes, our homes, are made possible by credit to the farmer, the shipper, the manufacturer and the merchant.
Banks, and the credit they supply, have helped to make possible the American system of enterprise and the high American standard of living. And in so doing they have contributed to the well-being of every person in the country.
Practically every human problem eventually resolves itself into a question of finance. Practically every human activity calls directly or indirectly for money. Business and people are heavily dependent upon banks, for they are the keystone of our financial and industrial arch.
Our modern business is so complex that it could not function without banks. The permanent, carefully-built progress of any community—not the false, temporary progress of sporadic booms—is dependent upon the alert foresight and conservative, experienced judgment of its business men and bankers.
We believe you will find it profitable to know your Bank—just what it means to you as an individual, how it functions, and why banks are such an essential part of the economic structure of the country. That is why this week of April 14 to 19 has been set aside for you, so that you may visit our banking quarters and learn just what your bank means to you.
All Michigan banks will hold open house Thursday evening, April 17, from 7:00 to 9:30 P.M. Everyone is cordially invited to stop in and view our operations. No business will be transacted.

Eugene Ormandy To Conduct Philadelphia Orchestra in May Festival Concerts

Eugene Ormandy, the distinguished maestro who will bring his Philadelphia Orchestra to the Forty-Eighth Annual May Festival in

Hill Auditorium, Ann Arbor, May 7-10, was signally honored recently by the Board of Directors. At the beginning of this, his fifth year, with the famous organization, he was re-appointed musical director for a five-year term. A memorandum transmitted to him with the formal contract stated that it expressed the appreciation of the directors for his distinguished services to the orchestra, had their confidence in his ability to uphold and build existing standards.

Mr. Ormandy and orchestra are virtually of the same age. The orchestra was founded in 1900, and the conductor was born late the preceding year, in Budapest. When five years old he was accepted as a student of violin at the Royal Academy of Music. At 17, he became a professor. Hoping for a career in business, he came to the United States in 1921. Mistakenly in the concert field led to opportunities as a conductor. Engagements in New York theatres and radio studios, where he met with astounding success, resulted in invitations to guest conduct, in New York and in Philadelphia, where his triumphs were so great that shortly thereafter he was invited as permanent conductor of the Minneapolis Symphony Orchestra, where his success was phenomenal. In 1928 he was invited back to Philadelphia as full conductor, and two seasons later was appointed Conductor and Musical Director. This extraordinary progress was made possible by reason of his great technical skill and by his intimate knowledge of the scores and his orchestra.

His outstanding musicianship and his sympathetic co-operation in all matters pertaining to the intricate problems involved in producing the Ann Arbor May Festival on so important a scale, led to the re-appointment of the Philadelphia Orchestra for the occasion year after year, according to Charles A. Sisk, President of the University Musical Society under whose auspices the festival is maintained. Six festival concerts will be given this year.

The Northville fire department has been busy this week extinguishing three fires. One had to be put out Sunday in back of the Perc Marquette cafe; Monday there were two fires, one that started on the Tall road and spread over the Franklin Hill. The other was on the old Portwood place and went through the furnace hood. Six Michigan Road road.

SABOTAGE, LABOR, EMPLOYER

Most tragic thing about the present chaotic labor situation is the black eye which a minority of labor is giving to their co-workers all over the country. In the majority of plants and shipyards, men are working without interruption.

But in certain key plants, so vital to the national defense that they could not have been picked by accident, a small minority have bogged down production. Sometimes this happens through strikes, sometimes through slowing-up and sabotage so deliberate that behind it must lurk a definite attempt by Communists to hold back national defense.

While labor has been hitting the headlines for defense obstruction, less publicized, but equally obstructive has been the attitude of certain business elements, among them the shipbuilders, who disordered endlessly with the U. S. maritime commission regarding the construction of 200 desperately needed cargo vessels.

This program was adopted in January, but to date the commission has not been able to complete negotiations for quite all the 200 ships.

The Bethlehem-Fairfield Shipyard, Inc. of Baltimore, for instance, battled the commission for two months over a fat fee.

The commission proposed a \$110,000 basic fee per ship, to be reduced to \$60,000 if not delivered by a certain deadline, or increased to \$140,000 if produced ahead of time. But Bethlehem rejected the penalty clause, vigorously insisting on a fixed fee, regardless of when the ships were produced.

For weeks, while the shipping crisis daily grew more critical, the controversy raged. Finally, on March 18, the company accepted and accepted the commission's terms.

Under their Bethlehem-Fairfield stands to collect a total fee of \$5,500,000 on the 50 ships assigned. In addition it also garnered \$7,338,000 governmental contract for 13 ways and other construction in Philadelphia.

JULY OR ELSE FOR HITLER
No one can ever tell just what is in the mind of the German Führer. He is a man of many guises. He is a man of many moods. He is a man of many secrets.

These various characteristics will be the subject of a new book, "Hitler: The Man Behind the Myth," by the author of "The Rise and Fall of Hitler," published by the New York Times.

1. The necessity of feeding food for Europe next winter.
2. The necessity of finding more oil, especially if the British succeed in blowing up Rumanian oil wells, which they definitely plan to do.
3. The necessity of pulling a new rabbit out of the hat to please the German people. So far Hitler has pulled out new victories at periodic intervals—Austria, Czechoslovakia, Poland, Norway, the Low Countries, France. But the rabbits have come fewer and harder recently. The German people are reported to be restless.

Only answer to these dilemmas is Russia. The vast and fertile fields of the Ukraine, rich in wheat, iron ore and lying just across from the oil fields of the Caucasus, are sure to beckon to Hitler.

And if he still is unable to take England by July, it more than likely seems that he will bite off the Ukraine. This possibility increases if war in the Balkans disrupts the spring planting. For one reason Hitler has been so patient with Yugoslavia is because the crops of the Balkans are vital to Germany. All of which is not being lost upon Russia.

FLOATING DEFENSE HOMES
Defense chiefs may soon inaugurate mobile housing units for defense workmen on the water as well as land, if the novel plan of Housing Coordinator Charles F. Palmer pans out.

First negotiations of this sort were for the purchase of an excursion boat to alleviate a serious housing shortage at Portsmouth, Va., where a giant naval construction project is under way. If successful here, the plan may be tried out at other seaboard defense centers.

Palmer hopes eventually to have a number of these "floating hotels."

DIZZY QUARTERS
The tremendous expansion of defense activities the last few months has sprawled already overblown government offices in Washington into some unusual places.

WILDLIFE

(Continued from page 1)
Last July when the Bureau of Fisheries and the Bureau of Biological Survey were consolidated by President Roosevelt.

The consolidation effected under the Secretary of the Interior Harold I. Ickes, has resulted in coordinating the conservation efforts of the two organizations. Wildlife continued. The lines of work conducted by former bureaus still continue, he added.

Giving an outlook, E. R. Widmyer states that not all phases of wildlife conservation can be viewed optimistically.

Unless action is taken promptly, the fur resources of the United States will suffer a marked depletion that may lead to extinction of some of the valuable species," he asserted. "The war abroad has created a serious situation. Furs of wild animals cannot be imported, as formerly, and we are not making inroads on our own fur animal supply."

The difficulty, he explained, is that we lack adequate knowledge concerning the status of fur animals in the States.

"It has been said again and again, but cannot be repeated too often, that more fur animals are being taken than are being produced," he further asserted, adding that controlling diseases of fur animals and other wildlife is another important task of the Fish and Wildlife Service.

The Michigan State Board of Agriculture transacted routine business of all hours the state stipulation of \$1,000 to the fire department, approving all township bills, and granting customary allotments to the township's four cemeteries.

News from Walled Lake

By CHARLES E. HUTTON.
Police should be the lead story of this column this week, in keeping with the general news tenor of the issue. So we shall now take a political plunge into the rather shallow pool of Commerce Township's ballot totals, resulting from Monday's election.

We ran true to traditional form here—Republican—despite a polling turnout of about one-sixth of the town's balloting power; 222 votes were cast from 7 a.m. until 8 p.m.

James L. Gardner of Commerce remains as the town's highly respected supervisor. Earl V. Garner continues his good job as clerk. Mrs. Carolyn Embree remains as treasurer. Arthur M. Richardson is the new justice, and Charles J. Nelson the new member of the board of review. Co-sponsors are James W. Santa, Ralph Rasmussen, George W. Ellenwood and Frederick Thompson.

Both amendments carried Supreme Court justices were re-elected, and circuit judges of the sixth judicial district reelected in office. The Michigan State Board of Agriculture transacted routine business of all hours the state stipulation of \$1,000 to the fire department, approving all township bills, and granting customary allotments to the township's four cemeteries.

Book Worms Hold Meeting

Prin. G. V. Harrison Gives Talk To Club about Value of Trees

Pat McCutcheon presided over the tenth meeting of the "Book Worms Club" Apr. 4. Twenty-one members were present. Details of a bake-sale were to be prepared by a committee consisting of Dora Tibbatts, Betty Lucas and Douglas Slessor.

The meeting was then turned over to the program chairman, Suzanne Howell and Anne Jean Flaherty. The program was opened by a song "Arbor Day". A report on the origin of Arbor Day was then given by Suzanne Howell. Short reports on historical trees were given by Anne Jean Flaherty on Charter Oak; Betty Lucas on Washington Elm; Marjorie Gibson on historical trees in Michigan; Marjella Rose on old French pear trees in Detroit.

Grade Notes

Mrs. William Czuzmar's kindergarten has been looking for worms for their toads. Henry Wittels and Sandra Tibbatts are new pupils.

Mrs. Clark sent Easter cookies to Miss Selma Jarvis' first grade. They wish to thank her. Mrs. Palmer and Mrs. Orla G. Owen visited one afternoon last week.

Miss Beulah Miller's first grade is having an Easter luncheon Thursday. They are making Easter baskets and decorating the room with rabbits.

Miss Margaret Carpenter's fourth graders have organized a bird club of 18 members. These people have made fine ship pictures. B. G. Potter, Charmon Ward, Norma Jean Calkins, Pat Helen Cora Clark, Nancy L. Corning, Helen Stanton, M. Corning, and Edna have been elected.

Mrs. C. H. Bannitt, fifth grade have an account, together with passing coats in hats. They are studying Egypt for the travelogue. Before Blackett is spending a week in Tennessee. Forrest Satchel and Helen Greenhoe have been ill.

Miss Ruth Cassidy's fifth graders are studying ancient Greece to the traveling. There was a surprise birthday party to the class for Dorothy Edmondson.

GRAD SCHOOL PLAYS Miss Ruth Pierce's third graders gave a group of three plays Thursday, Apr. 3, about health. The first play, "The Health Fairy," was about a little boy eating too much candy.

The second play, "The Cold Browless Stone," was about catching colds. The cast was: Douglas Green, Katherine Framp, Norma Jean Lemmon, Helen Stanford, Bobby Calkins, Ruth Stratton, Reginald Bailey, Beverly Brice, David Revitzer, Patty Gregory and Buddy Campbell.

The third play, "The Lost Book," was about good hearing. The cast was: Jack Markell, Mary Ann Ayers, Donna Jean Schutte, Tulae German, Joyce Wick, Marilyn Moore, Lauramae Wick, Helen Stanford, John Poulus, Jerry Gillmer, Frank Martino, Dick Coolman, Jack Gates, Jerry Heaton, Billy Taf; and Charles Stephens.

The Senior Play

... had several sides. A record-breaking audience saw young players display their talents. Leslie G. Lee said, "Don't be scared - it's fun, and good experience for you." But what of our dear Theopians - the victims of this public slaughter of hopes? Hands were cold and clammy, nerves were ragged, and hearts pounded tantalizingly in tight throats. The curtains parted. The show was on!

EDITORIALS

Spring April showers, and spell-binding rush upon us at this time of the year. We are especially interested in the last mentioned since it concerns a competitive spelling opportunity for Northville students. The grade winners having been determined in the March contest, have now had a chance to try their skill in the school bee. Eventually the lucky winner of the final contest will inherit a trip to Washington. That student could be from Northville as well as from any other place.

Travel Tips and Tidings

Every senior, industrious enough to have worked 180 hours for the class will receive a free trip to Washington, Apr. 22. Ordinarily the trip costs \$38.45. Upon completion of this journey many will undoubtedly have regrets that they took some portions of their wardrobes and left others home. So we thought maybe we could give you a few tips.

Around The School

Miss Beulah Miller's first grade is having an Easter luncheon Thursday. They are making Easter baskets and decorating the room with rabbits. In this lovely spring weather, the young girls have been invited to have a picnic at the school grounds.

Twenty members of the Biology club accompanied by Miss Gladys Ludwig, visited the Flower Show, Apr. 10 traveling via Bldg. bus.

The first hour art class which consists of all girls is working on copper ash trays in the boys shop. The only tools that they are using at the present time are the hammers and files. The shop boys made wooden forms for the girls to work with. These trays will be on display in the show window in the lower hall of the high school at a later date.

The Business Law class, taught by E. C. Moilema, had a test Thursday, Apr. 5, on "Law of Negotiable." The chapter that follows this is "Law of Sales." Business Law is a one semester class following sociology.

New paper racks will be installed soon for the school library. They were made by one of the manual arts classes. There are two of them - each holding eight to ten papers.

Mystery Comedy Given by Seniors

Two appreciative audiences last Thursday and Friday witnessed the performances of the senior play "The Valley of Ghosts" presented in the high school auditorium under the direction of Leslie G. Lee. With Ida Marie Walker the student director.

The play, a mystery in three acts, told of 12 persons gathered in the old homestead belonging to the deceased Lucille Evans, to hear her will read.

Minnie Strange, the weird housekeeper, played by Alice Bentley, was suspected of having a gang of cut-throats to drive the heirs, Jack Martin and Helen Wayne, played by Bob Doyden and Valora Wheeler, out of the house so that the money will revert to her.

Much of the comedy is supplied by the four negroes, two of whom are the servants of Jack and Helen and the other two being their friends, who, because of their suspicious and easily frightened natures are literally sitting on pins and needles because of the queer, weird happenings.

Jonathan Black, the lawyer, played by Billy Beyer, is finally pointed out as the crook who tried to gang to scare the others and who killed Lucille Evans.

Other cast on the Thursday cast were: Sally Ann, Helen's maid; Betty Stillwell, Amos Hill, Sally's friend; Ronald Anderson, Pete, Jack's chauffeur; Chandler Parker, Gay Violet, Pete's girl; Betty Barry; Mrs. Scott, the crazy woman; Marge Rubbert, Elva Todd, Ruth Frank, Wilma, and Walter, Neffmeyer, and the ghost, Ed. Widmayer.

Tonight's cast includes another record performance. Those taking part will be: Minnie Strange, Myrtle Burgess, Sally Ann, Jane Ely; Mrs. Scott, Ida Marie Walker, Betty Stillwell, Chandler Parker, Elva Todd, Jeanne Smith, Jonathan Black, John Costello, Jack Martin, Bob Doyden, Pete, Douglas McCuskie, Amos Hill, Ronald Anderson, Watchman, Edward Evans, and the ghost, Ed. Widmayer.

How does your garden grow?

This is the time of year when Michigan folks turn with joy to their spades and rakes and seed packets. Nowhere in America do people think more of their flowers and kitchen gardens. Nowhere are finer vegetable and flower seeds produced. Michigan is world-famous for the breeding and marketing of improved seeds, bulbs and flowers.

To seedsmen and commercial flower-growers the telephone is indispensable. Because speed is so important in their business, seed orders for the short planting season are filled and shipped within a few hours of the time they are received. Ordered by telephone, fresh-cut flowers are rushed daily from Michigan's 700 greenhouses to city dealers.

And when you want a bouquet for the table or plants for the window-box, you have only to pick up your telephone and call the florist.
