

Novi High School and Grade Notes

The ninth grade held a class dinner June 1. MacDermid, first base meeting May 22, and it was decided Doris Wedland, third base; Irene that they should decorate for Fox, left field; and Freda Bidwell, the tenth grade graduate. The right field, Russell Baker was the boys and girls are going to see only eighth boy to play baseball in which can think up the best design, the game Monday with Dublin in which the ninth graders are reviewing the Dublin school. Russell was the in science, and preparing for the semester test.

In games each student is given a number of the true and false statements on handwriting. They will be lost by the score of 12 to 11. They ask each other the statements in will play a game on Monday with class. Loreta Baker has done most New Hudson. They also played statements. She has about 100. Leanne Putnam is second with about lost that one also.

At the end of the fifth inning it was tied at 13 runs and looked quite promising for Novi, but the girls let Dublin score some runs of the week they made up sentences and lost by the score of 20 to 13.

The eighth grade girls who play softball Tuesday with Dublin at the fair Wednesday for a picnic.

They held their Citizenship this meeting there and then had a ball game. They saw many different birds as well as frogs and snakes. Jimmy Mitchell visited the room Friday.

The sixth graders are studying percentages and finding it very interesting.

Fifth graders had a geography quiz Thursday. Marjorie Lees had the most points. Paul O'Nell was second.

The third and fourth grades have been studying the pictures of Sir Joshua Reynolds. We like the pictures "Angel Heads" and "The Infant Samuel."

Dame Speare has returned after an absence caused by a broken arm.

The boys and girls are reading a number of books from the Northville Wayne County Library.

Third and fourth grade each had a spelling Friday afternoon the girls against the boys. Third grade winner is LeRoy Holmes and the fourth grade winner is Phil Jean Horan.

The first and second grade boys and girls went for a walk Thursday. They brought back leaves from all of the trees they saw. Now they are going to paint the trees they saw.

After hearing the poem, "The Devil's child," made a gang-nam boy and a calico cat.

Berrett Sodack's little brother visited school one day this week.

The beginners have planted beans and peas and are waiting impatiently for them to start to grow.

Labor Plan Fits Best Pay Farms

Figures taken from more than a thousand Michigan farm accounts indicate that a farmer who "invests" a relatively high number of productive days' labor on his farm each year finishes the year with a very satisfactory labor income.

Variations on some individual farms were evident to C. O. May, farm management specialist at Michigan State College. Yet averages were significant.

When the "per man" number of productive days of labor for the year averaged 188 the average labor income for that year was \$256 on 168 farms.

There was another group of 362 farms which provided an average of 192 productive days of work per man for crop, livestock and other income-producing ventures.

The labor income for this group averaged \$261. Farms numbering 227 averaged 242 productive days labor per man. On these the labor income for the year averaged \$46.

Two other groups were included in the study. One group of 16 farms had an average of 287 days productive work per man and resulted in an average of \$552 labor income. Still higher are the 56 farms which found on 124 days the productive labor rate per man averaged 250 days.

It must be taken for granted, however, that a "farmer" in one of these groups actually spent only 16 days on productive projects or much as 238 days. Much lateness because of variations in the efficiency of the men in performing the work.

BOMBER OUTPUT

Though far unimpaired by the White House, two impeding factors lie behind the President's sensational letter to Secretary Stimson asking for an immediate increase in the monthly output of bombers.

One was the obvious need of providing Britain with more and bigger planes to carry the offensive to Germany. Second, known only to inside authorities, was intelligence information that the Nazis are increasing the bomber force of their Luftwaffe. The reports are that the German air force now consists of the following:

Six main air fleets, each comprising 1,000 bombers, 250 fighters and 75 reconnaissance planes, a total of 2,250. Also, there is an independent air unit of 2,750 planes, a naval air service of 1,600, an operational training unit of 650, and a transport organization of 3,800 planes. In addition to these first-line ships, is a reserve of 12,600 fighters plus 5,000 trainers and transports.

Gross total: About 33,600 planes. German airplane production capacity is estimated at 3,000 planes a month, including about 500 bombers. However, except for bombers, Germany is not now using her full productive capacity as she doesn't need that many new planes a month.

• The Greatest Memorial Day Address

We believe that as never before in our generation, the Lincoln Gettysburg Address carries a message for Memorial Day in 1941. Interpreted in the light of governments of the people today, its call for rededication resounds throughout the land.

"Four score and seven years ago our fathers brought forth on this continent a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal."

Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. We are met on a great battle field of that war. We have come to dedicate a portion of that field as a final resting-place for those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this.

"But, in a larger sense, we cannot dedicate—we cannot consecrate—we cannot hallow—this ground. The brave men, living and dead, who struggled here, have consecrated it far above our poor power to add or detract. The world will little note nor long remember what we say here, but it can never forget what they did here. It is for us, the living, rather to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us—that from these honored dead we take increased devotion; that we here highly resolve that these dead shall not have died in vain; that this nation, under God, shall have a new birth of freedom; and that government of the people, by the people, for the people, shall not perish from the earth."

• Strike! . . . While the Iron Is Cold?

We have had a lot of talk about whether or not strikes were causing much havoc in the defense program, but until recently we haven't had very much in the way of calm and authoritative figures. Now The National Association of Manufacturers has issued some statistics on defense and other strikes that should sweep a number of unsupported declarations into the discard.

The N.A.M. study shows that total number of man-days lost from strikes in the first three months of this year were more than three times as great as for the same period in 1940. In all, 3,622,918 man-days were lost in January, February, and March of this year; and of this total, 1,578,000 man-days were directly in defense industries.

The time lost in those industries would have been enough to equip about 1,402,480 American soldiers with the latest Garand rifles, or to provide more than five billion rounds of ammunition for those rifles. Seen in those terms—or in any others—the harm done can hardly be minimized.

The great danger lies in the attitude of some who continue to claim, in the face of the evidence, that the number or result of strikes in defense is really not very important. The figures knock that complacency galley-west.

Defense is either vital or it isn't. The American people think that it is, and will be paying billions in taxes to support their belief. In the light of that stand, there is an all-important need to work out solutions for any problems that arise without recourse to strikes that cripple our all-out effort for national defense.

American Gobblers are being flown to England today in ten hours.

OURS IS A WORLD of contradictions. Here, security; there, destruction; here, neighborliness; there, hate and fear; here, independence; there, slavery.

These blessings — this security, this neighborliness, this independence of ours — were bought at a dear price. We've paid for them with the sweat of our brow, with the blood of our fathers and sons and brothers, with the thousands of crosses at Arlington and Flanders. And it's a debt that isn't paid in full, not yet.

For we owe the debts of gratitude and honor and respect to those who bought us those blessings. And we owe the greater debt of duty to them, so that their blood — our blood — shall not have been shed in vain. Tomorrow, Memorial Day, 1941, let's pledge that duty to them.

NEWS of NOVI

By Mrs. Luther Rix

The Novi Rebekah ladies had a
luncheon last Thursday evening at
Sunday at Milford with Mrs. Tuck's
mother, Mrs. Nelle Bush.

Mr. and Mrs. George Tuck and
family of Royal Oak spent Saturday
evening with Mr. and Mrs. Walter Tuck.

Walter Tuck, of Novi, Bill Fore-
man, Glen Angel and Robert Pow-
ers of Northville went on a three-
day lake fishing trip to Algoma last
week. They brought home the lit-
tle.

Mrs. Luther Rix, spent Wednesday
in Detroit as the guest of her sister
and law, Mrs. George Schwartz.

Mrs. Mary Lod Smith spent the
week end with her parents, Mr. and
Mrs. Herman Smith.

Methodist church Sunday, June 1.
The public is invited.

dispensable commodities such as
gasoline, or any commodities whose
consumption traditionally has been
controlled through taxation. Most
other tax increases imposed at this
time ranged from 10 per cent to
15% per cent.

Now gasoline again is being
singled out for the greatest pro-
posed increase in tax rate. If the
current proposal to increase the
tax from 1 1/2 to 2 1/2 cents were en-
acted, it would result in an increase of
150 per cent over the basic 1
cent rate of the Federal gasoline
tax which was in effect prior to the
first defense tax increases in 1940.

Now the comparable defense tax
increases proposed for automotive
equipment parts and accessories
which are special taxes paid by
motor-vehicle operators, approach
the rate of increase proposed
for gasoline.

In fairness to the Michigan mot-
orist, therefore, these facts should
be carefully considered. Motor-ve-
hicle operators in this State are
now paying a total special sales tax
on gasoline of approximately 38.6
per cent. Michigan's 3 per cent
general sales tax is considered a
rather heavy levy. Yet the con-
sumers of gasoline pay a special
sales tax which is 12 times as
great.

According to a statement presented
in the House by Rep. George A.
Dondero, motorists in Michigan pay
a total tax of approximately 38.6
per cent on gasoline. In presenting
this statement, it was pointed out
that the figures would apply in a
greater or less degree to every
State, the percentage being greater
in States having a gasoline tax in
excess of 3 cents a gallon and less
in States where the tax is under
3 cents. Rep. Dondero declared
that "before we tax gasoline and
oil any more it would be well to
consider other commodities that
now bear a far less burden of taxa-
tion in proportion."

The statement presented by Rep.
Dondero follows:

"The Woman's Society of the Meth-
odist Church will sponsor an ice
cream social to be held on the
Harry Newman lawn Friday even-
ing, June 6.

Mrs. Willie R. Miller, entertained
her sewing club with a dinner at
West Grand River. The wine storm of last Thursday
did quite a bit of damage to the
trees in this locality. Large limbs
were blown off and several up-
rooted.

nesday, May 21, at the University

Warning has been issued by the
entomology department, Michigan
State College, that two fall broods of
codling moths are likely to occur

This means that all apple growers
should make special effort to
secure better than usual control of
the first brood.

Careful work on the Calyx spray
and First-Broad cover sprays with
possibly one more cover spray than
usual might do the trick. Fixed
nicotine in the extra covers will re-
duce the residue hazard.

Early season control of the worms
on cabbage may save lots of trouble
later. Arsenicals are safe until
the heads form.

A cheap and satisfactory mixture
is 1 lb. calcium arsenite and 19 lbs.
of agricultural gypsum.

Start early, repeat every week if
any worms begin to show or if the
white butterflies are numerous.

Asparagus beetles may be con-
trolled by dusting with a mixture
of 1 lb. Cube of Derris and 3 lbs.
flour or talc. Hit the new shoots
and the insects.

Repeat every day until no more
beetles or eggs are noticed.

Guarding 'The Rock' From Sea and Air

A view from an accompanying British war plane high above Great Britain's Rock of Gibraltar, showing another plane on patrol duty, winging high over the harbor, wherein are several men of war. All are on the alert against attack by German planes from the air and German troops that might be given a "corridor" down to southern Spain by the Fascist government. The Rock, which is one of the most formidable fortresses in the world, is Great Britain's effective western door to the Mediterranean, through which British commerce and warships flow from day to day.

News of West Point Park

By MRS. WM. H. ZWAHLEN
Friends of the Rev. Gordon Cameron were grieved Sunday to learn that he had been quite ill for several days and would not be able to conduct the usual service. However, efficient teachers carried on the Sun-day school, which meets at 3:45 p.m. and in the evening Mrs. Sullivan, a deaconess, led a fine discussion on the subject of "Prayer." Next Sunday, Mr. Cameron expects to be well enough to carry on again.

While working around her home last Tuesday, Mrs. Margaret Martin fell and sustained a bad leg injury. She has been confined to her home for several days.

At the home of Mrs. Edwin Johnson, Mrs. Norbert Schmidt tendered a bridal shower to Miss June Ault, a house guest of Mrs. Johnson's last Monday. About 50 guests were present at the shower, and many beautiful and useful gifts were bestowed upon the bride-to-be.

The Rev. Gordon Cameron's service for young people which has been held on Friday evenings, will from now on be conducted on Thursday evening. All young people in the community are urged to attend and enjoy these services. Old-folks are also welcome.

Mrs. Dorothy Edwards, teacher at Pierson school has announced her engagement to Ray Whalen of Detroit, June 7.

Mrs. Zane Wolfe who for some years has been a teacher at the Pierson school, was honored at her birthday, celebrated by her parents at their school last Wednesday afternoon. She was presented with a diamond ring. The affair did not go on the nature of a formal party, since it is understood Mrs. Wolfe will return to Pierson school next September.

Mrs. John Weigh was a visitor at Detroit Friday.

Scholarships

(Continued from page 1.)
Mrs. B. E. Larson, Dr. Howard R. Chapman and Mrs. Robert Power. Members of the board of governors during the year have been: Paul E. V. Harrison, president; Mrs. E. A. Chapman, vice-president; John A. Boyce, treasurer; Mrs. L. M. Eaton, secretary; Russell M. Steinberg and Mrs. Waldo Johnson, members of the board.

At the meeting held Thursday evening, Mr. Boyce and Mr. Harrison retired from the board. Succeeding them are the Rev. Dr. Howard R. Chapman and Paul D. Carter. The board has not elected officers for the new year as yet.

Each award covers two semesters fees in any of the University's undergraduate schools, according to the announcement made by Dean Clarence S. Yeatman, vice-president of the University in charge of educational investigations.

Recipients of the awards are selected on the basis of scholarship, character and financial need. Most of this year's winners were chosen from recommendations made by local University of Michigan clubs and alumnae groups. A small number was also selected from those recommended by groups or alumni in communities without sufficient alumnae to form a University of Michigan club.

Students who maintain a satisfactorily high standard of scholarship during the terms of their awards are eligible for similar awards in their successive years at the University. This year there are 268 scholarship winners of previous years enrolled in the University. More than 700 students have been sponsored by University of Michigan clubs in the 21 years since the scholarships were founded.

This University of Michigan alumnae scholarship was made available to Northville students by the organization last year of the local University of Michigan club. There are 73 new scholarships available each year through active clubs or alumnae groups. The Northville club now has a membership of 63 and so has the privilege of submitting the names of three nominees for scholarships.

Operetta

(Continued from front page.) Ruth wishes to become Mr. wife. Having seen but one woman, Frederick does not know whether she is beautiful or plain. She says she is beautiful, and he goes out to take her.

Just then, however, a group of girls' wards of Major General Stanley (Bob) Baker happen upon the scene. Frederick sees their beauty and falls in love with one of them. Of these girls, Melbel (Betty Yentes), Ruth (Frank) is the only one to take an interest in him. The pirates rape the other girls and threaten them with marriage. The Major-General's the Pirate King (Doug McChesney) is torn between the two, but he is an orphan and so waits upon their sympathies until they release his girl.

Thus he troubles the Major-General, and he sits brooding over his ward's sympathy toward him.

Meanwhile, Ruth and the Pirate King inform Frederick that he was born on February 29, and that he has really only had five bird days instead of twenty-one. True to the code of honor, Frederick resigns the pirates.

As the curtain falls, everything is cleared up—Melbel and Frederick are to be married, and the pirates are to marry the Major-General's wards.

Tickets may be obtained from any member of the choir or from the bookstore. Reserved seats are 25 cents; student tickets are 25 cents; and adult tickets are 35 cents.

Mr. Ernest pointed out that if quotas are voted down, government wheat loans on the current crop are prohibited by law because loans on an uncontrolled surplus are an unwarranted risk of public money.

Without loans, he said, wheat farmers would face falling prices. Farmers would shift to dairying, stock feeding and poultry raising. Low-priced wheat resulting from an uncontrolled surplus would mean incomes lower for other farmers.
