World Upheaval

Do you ever stop to think that the world is on the eve of a great change? The world of tomorrow isn't far away. We are in the process of a great change and a great upheaval. A lot of the things to which we of the older generations have become accustomed the passing and will never come back.

A new order, which may seem strange to us, is here, and here to stay for a long time. It is a revolution and it isn't a revolution. It is one of those upheavals the like of which have come at periodic intervals to the race in the past. The only satisfaction in the change may be derived from a contemplation of similar changes in history.

Following each epoch and each upheaval a better period has followed. Humanity has gained something and because of it lived a fuller life. Such upheavals today constitute a greater problem of adjustment than in the past because life and the whole scheme of living has become more complex and more involved. These upheavals today, as in the past, have come because the leadership of the race has not looked far enough ahead and traveled fast enough to suit changing desires of the mass.—Dearborn Independent.

Did the village pass up the great opportunity in the roping matter. Some are so inclined to think of the matter.

National Dairy Month

The National Cooperative Milk Producers' Federation announces that June has again been designated as National Dairy Month. As in the past, intensive effort will be given to stimulating interest in milk and milk products.

That is of great importance to all the states. Milk is the most universally produced farm crop. It provides a part of the income for millions of farm families, and all of the income for hundreds of thousands. From the consumer's point of view, milk is among the most healthful of foods, and dietary authorities point out that consumption in this country is not generally below what it should be.

Marketing cooperatives will be among the leaders in forwarding National Dairy Month. These cooperatives have achieved some of the most notable successes in the dairy field, and they have proven themselves invaluable to profitable dairy farming.

The most hazardous traffic corner in Northville is near the high school. A crowd of high school pupils leaving the parking ground and driving onto Main St. showed only a streak of red stopped before crossing the Main street and pedestrian traffic. High school pupils can do better than that if they stop to think.

Milford is said to be enforcing an ordinance prohibiting bicycle riding on the sidewalks of that village. We hope that Northville never forgets its boys and girls and the part they play in our lives to rule them off the sidewalks into the stream of motor traffic as it flows on most of our thoroughfares.

Pedestrian traffic is relatively light and a little courtesy and tolerance of the boy or girl with a bicycle must be tempered with a generous flow of good judgement. After all, our boys and girls are our most priceless possessions. Let's not subject them to more risks of life and limb than absolutely necessary.

The German government is thorough and efficient. Its aim is to build a war machine that can control the world. To do this the German government wishes to grow an army of stalwart boys, and to make this possible it decrees that women under 25 years of age shall not smoke cigarettes. Is there a lesson in this for the American girl?—W. H. Berkeley in The Cassopolis Vigilant.

This is the beautiful time of the year in and about Northville. Take time to walk a bit. In our cars we fail to catch the full beauty of the flowers and the yards of Northville. A stroll about the town will reveal much of beauty that you have never quite appreciated.

FOOD FOR FIGHTERS

Forty baskets to the acre in this field of Michigan beans! Michigan is an improved variety of disease-resistant, heavy-bearing white navy bean developed by the Michigan State College Agricultural Experiment Station.

Army and Navy menus have undergone changes since 1918. But good old nourishing beans are still a staple item in the American service diet. The farms of this State produce about 450,000,000 pounds of field beans a year—nearly a third of the nation's entire crop. Both in acreage and total yield, Michigan leads all other states in bean production by a wide margin.

Beans represent cash on Michigan farms. Field beans account for some \$11,000,000 of the State's annual farm income.

THE DETROIT NEWS

Detroit, Michigan.

June 13, 1941.

Kind Sirs:

Your story of the Metropolitan Spelling Bee appeals to an optometrist in that the fatal word to the runner-up was "Octagon." Octagon is a word written a thousand times a year in our profession. It is almost routine in style and technic to us. That it should be difficult to others does not seem possible. And then when we learned the result of the National Contest, not only were we proud of Detroit's National Champion, but we felt that the contest was a triple victory for Detroit. The winners of second and third places were sponsored by papers published in Akron, O., and Miami, Fla., by John S. Knight of The Detroit Free Press.

In the span of 68 years of outstanding leadership in an ever-changing and growing metropolis, countless thousands have expected and accepted the manifold contributions of The NEWS as part of their daily routine. The NEWS to them is as much a part of the day as the sunrise and as essential and as appreciated as the water in the tap. Just an expected tradition and daily habit that few reflect upon the great part The NEWS fills in our daily life.

With an ever broadening recognition of the ordinary individual, ready pen for the heroism of the commonplace, and the unsung hymn of praise for kindness, whether in places high or low, The DETROIT NEWS finds time to point the way and light the pathway. One friend pointed out that the real underlying policy of The NEWS was spoken by Shakespeare: "Be just, and fear not, let all the ends thou aimest at be thy Country's, thy God's and Truth." Detroit is a better city today for having thus interpreted the motivating ideal of The DETROIT NEWS.

In reviewing the many child and youth activities unselfishly sponsored by The DETROIT NEWS, I wonder how many of the thousands of readers ever pause to give credit to that greatest of home newspapers for its broad scope of encouragement to the youth of Michigan. As in no other metropolis in the nation boys and girls, and the coordinating of heart and hand have positive aid in character building. With no attempt to chronicle all, or even place them in order of evaluation may we just mention . . . the Spelling Bee . . . the Soap Box Derby . . . Bird House Contests . . . Handicraft Clubs . . . Hiking Clubs . . . Camera and Outdoor Groups . . . Cooking Schools . . . Young Writers' Clubs and Home Makers' Helps.

Under the stress of war time interest many religiously follow the daily interpretations of events as they flow from the pens of S. L. A. Marshall and Russell Barnes. In their columns, opinions, current events, history, and personal experiences vie with each other in giving meaning to the news of the day, and find grateful appreciation. W. K. Kelsey, in his daily commentary found on the editorial page goes back of the news to find out the whys and wherefores. To lovers of poetry, the poems of Ann Campbell strike home in rhythm and thought. Sport hounds, great and small, veteran or rookie, all find time to follow the great master, H. G. Salsinger, and more and more the pictorial story of current situations as drawn by Mr. Thomas receive approving nods. Dr. Crane aids in perking up the old I. Q. with his daily mental setting up exercises, while inspiration rides cold type as Dr. Jones speaks in mild tones of religion and the inspiration of the hour.

Through all the manifest contributions to the social and cultural life of the city there runs an ever visible thread of unselfishness. There is an apparent willingness to share the opportunities and benefits of urban life with folks outside the city. Those outside the city are allowed to enjoy and participate in the special events sponsored by The NEWS, thus building for the future and welding rural and urban ideas into ideals of unselfish sharing of interests and opinions. The obvious willingness of your staff to carry the facilities of a great newspaper into the social and civic life of neighboring communities and help make lesser occasions successful, stand out as an unexcelled contribution to civic conscientiousness in many a small town. This outstanding service we attribute to the wise helpfulness and understanding of Lee A. White and his associates.

Through the year great headlines have chronicled graft exposures, criminal revelations, war, peace, civic movements and a thousand and one things have passed through the slot. Applause and censure, approval and criticism, have been part of the daily menu. With all the great scoops, all the feature writers, syndicated articles, the true greatness of The DETROIT NEWS as attested by 68 years of service lies in the quiet dignity of its acceptance as a great public service. For in the quiet, expected acceptance of a public service lies an inherent trust and approval far more genuine and sincere than the loud outbursts of applause.

In conclusion, somehow we think of The DETROIT NEWS and its mission in the great metropolis of Detroit and the people of eastern Michigan in the words of Grace Holmes when she wrote:

"It is just the little homely things,
The unobtrusive friendly things
The 'won't you let me help you' things,
That make our pathway light."

Sincerely,

John A. Ross

Mrs. Jack Tallman was quite ill the first of the week. Mrs. Clinton Ault is now at her home, convalescing from a throat operation performed at Seasons hospital, Northville, the first of last week. Mrs. John Weagle is having extensive improvements made on her home on Norfolk avenue. They were accompanied by their eldest daughter, Mrs. Edwin Johnson and son, Eddie. Mrs. Johnson was to be her sister's matron of honor. Owing to the ill health of the bride, Gordon, Cameron and the probability of Sunday transportation difficulties the Sunday night service in Mr. Cameron's mission has been abandoned for the time being. However, it is hoped to make the Bible School, which meets about 3:45 p. m. more profitable than ever. There will also be a week-night service to which all are invited at 7:45 p. m. every Tuesday. Miss Helen Boyard, whose home is in West Virginia, is the guest of her aunt, Mrs. Leslie Boyard. Miss Ina Mae Tallman was honored a birthday surprise by several of her young friends at her home Saturday afternoon. She received a number of useful gifts. Dainty refreshments were served. In fact it's everything a mother would want for her children's teeth. But it's even more than that. Pontiac is the first big car I've ever had—and I can tell you there's a whole difference between owning a big car and a small one. You have more room of course—but that doesn't ride to tell the story. You get a big car big—and by that I mean Pontiac gives you enough length and weight, without which no car can really be comfortable. But most important of all is the feel Pontiac gives you—you know you're really got hold of something when you get behind the wheel! Call it pride of ownership or whatever you like, but Pontiac certainly gives you a lot of it. Yes, Pontiac is priced so low that my monthly payments are unbelievably small. Also I'm getting even better gasoline and oil mileage than from the lowest-priced car I previously owned. Furthermore, Pontiac will save me money on repairs and upkeep. So I'm saving plenty all around. Yes, sir—I signed off mooring worries when I signed the order for a Pontiac 'Torpedo.' You'd better do the same—today—at your Pontiac dealer's!"

FATHER'S DAY

Father's Day is next Sunday, June 15, and if you haven't already gotten Dad something, here are a few timely tips.

GIVE PIPES

If he's a smoker, he'll be crazy about any pipe you bring home from Gumsell's. We have the most complete selection in town, and also carry pipe racks and stands, tobacco pouches, etc. Pipes from **25c**.

IF HE SMOKES

A box of his favorite cigars, a carton of the cigarettes he likes best, a jar of mellow tobacco or a "mix your own" tobacco kit—these will warm the heart of a Dad who smokes.
