\$1.50 PER YEAR IN ADVANCE

## Northville Nears \$2000 Mark in Red-Cross Drive

Northville Is First Township in Wayne County To Go over Top; To Start Classes

### To Instruct Here

Michigan's attorney general declares the Chicago plea of impairment of health has no merit and the demand for more water is merely an attempt to nullify the court's order. Rushton insists that the diversion of more water will greatly impair Great Lakes navigation at a critical time when water-borne commerce is so essential for the movement of defense material. He charges the Chicago Sanitary district world wide \$1,500,000 a year for itself, in wages by such an increase.

Shipping interests and commercial fishermen have consistently claimed that diversion of lake water reduces water levels in harbors and on shoals to the danger of lives and property. Rushton says he considers it his duty to vigorously oppose any attempt to take water from the lakes.

Plans for Tanks

Automobiles will be compelled to give up the sentimental custom of taking their undated license plates or garage walls. Collection of old plates will save hundreds of tons of scrap for use in tanks, armored cars, guns and projectiles, in the opinion of Secretary of State Harry F. Kelly.

To accomplish this salvage, the state will designate depositories for the collection of old plates. Drivers holding new licenses will be asked to remove their old ones and turn them in at the branch offices.

Discarded plates dating back over many years, which have been frequently saved as a sort of curious family heritage to posterity, are being asked for to ease our fighting men's task.

What About Schools?

Michigan schools are a concern to the schools under wartime conditions. Realizing that state government cannot hope to cope with the crisis in school financing and meeting the needs of boards of education, educators are turning to the federal government for help.

Efforts to assist industrial areas where defense plants are operating are finding the need for new school buildings now serious. If proposed Michigan school project is approved by the federal authorities a total of \$41,271,000 will be available.

Both the non-partisan and the Michigan Non-Partisan News Letter are in the interest of the schools. Both are asking for help.

Boys' and Girls' Basketball Teams Win Two Games

Melvindale and Redford Union Are Defeated by Mustangs

Both the girls' and the boys' high school basketball teams were victorious in their games last week.

Registrants are asked to enter the school building at the south door and go directly to the gym where a corps of workers will be on hand to register persons as rapidly as possible.

Volunteer registration clerks are still wanted. Persons who have time to aid in this manner are asked to leave their names at The Record office.

From board of comes the information that headquarters want a few men to go to Ft. Custer, Mich., for selective army training.

Because of recent government orders the number of men wanted each month will not be published.

That is the proposal to revise Michigan's constitution.

A similar proposal was submitted in 1926 and turned down by the voters 235,000 to 170,000. The need for revision has been argued sporadically by various interests in certain sections of the state, but the question has not come to the voters since its turn down 10 years ago.

George E. Anthony, chairman of the study commission, will be shown at 7:30 p.m. Monday, Jan. 26, in the Presbyterian church house.

Two sub-committees will be ap-

pointed to study specific sections of the present 20-year old constitution.

The revision proposal is ap-

proved by the voters in November.

An important question of state government which must be answered by the voters next November has been over-shadowed by the war crisis and other issues of more or less political complexion.

The Oldest Paper in Wayne County Outside the City of Detroit

### It's Up To You in '42!

We note that the National Association of Railways has spoken in favor of expanded commuter service as one of the coming adjustments of a war time economy. And here in Northville we won't get anything unless we ask for it and then we may be turned down—but we have been turned down by better folks for less valuable things.

Would you like to have a petition drawn up and left here at the Record for those interested to sign up—or what?

This is a battle of the factories — of a 14 hour day vs an eight hour day, and at half the pay, plus seven years start by our enemies. Words win wars, but words keep us happy and hopeful.

Home Rule for Wayne County, and what good will that do? If we can't clean up our own county why should we expect the rest of the state to expect us to control their picture. In the way we have been going our contribution would only make worse. Worst. Remember our state folks are very suspicious of Detroit and Wayne county politics and politicians.

The operating cost of an American bomber is about \$140.00 an hour.

### Look For Substitutes

One thing we Americans are going to have to learn to do during this war period and perhaps a long time afterward is to do without great many things. Already we are told there is a shortage of rubber and that our motorists ought to be careful of their tires and make them last as long as possible. There will be other commodities on the shortage list if this present war lasts anywhere near as long as our military experts expect it to last.

What is true of the individual is true of the manufacturer. Those industries which are busy on war and defense work get a priority on materials. This is necessary if we are to go ahead and win the war. Nothing can be done about it so far as these war materials are concerned.

A great many small industries may be forced to shut down until they can get the materials needed in their products. That is, they will be forced to close down until such time as they can find some satisfactory substitutes for the materials which cannot be had. This is a fine time for our chemists and our inventors to come to the fore. If something can be found "just as good" for the manufacture of non-military articles then this will serve a double purpose of satisfying the consumer's wants and keeping the plant going.

The war will bring many dislocations. Many plants will have to shut down entirely or in certain departments this will mean unemployment in some lines. Sooner or later these things will adjust themselves. But in any event this is no dislocation comparable to the tremendous sacrifices of the young man who gives up his business or his job and risks his life in the interest of his country.

Americans will have to learn to get along on certain substitutes, and it will be done just as it has been done in our fathers' days.

While there may be substitutes for certain material things there is no substitute for courage, patriotism, loyalty and one's determination to do his duty. So long as these qualities remain this nation cannot be whipped, no matter how many autocratic tories we have for pictures cars, or whether or not our tea and coffee are the genuine article.

### Things To Watch For

Typewriter parts made of synthetic materials—du Pont chemists are planning to use different plastics in making a number of parts that are presently made of metal... Wallboard made of asbestos—it's the latest material tried for the purpose of the U. S. Department of Agriculture which reports that asbestos wall fiber can be converted into a number of good insulating qualities... A lady's handbag equipped with a special compartment for holding a copy of the Reader's Digest... A new film by the Eastman company, called "Kodacolor Roll," which will enable amateurs to make color pictures with ordinary roll film cameras; it should be on the market early in 1942—John Cradock.

It would be interesting to see what a lie detector revealed when tried on a politician who promised economy.

Of Capt. Colin Kelly, who died sinking the Jap battleship "Harmone," Carl Sandburg said: "He was one of those messengers of destiny, who forgot himself into immortality."

### HUMPTY DUMPTY

### War Relief Activity Speeded by Christian Science Committee

It has just been announced from Boston that the relief work carried on by The Christian Science War Relief Committee is to continue for people abroad regardless of the entry of the United States into the war, and the Committee is preparing to extend its work to provide for any possible need in this country as it arises.

The need the church contends in Britain is increasing great because clothes, especially for growing children, wear out and also because the clothing of whom persons started the war must be replaced.

The church's service men which were sent to Iceland were captured before they left with 43 sailors, 20 seafarers, 77 helmets, 100 hours of socks and 100 pairs of gloves. Other army groups have been supplied with similar articles where needed.

The committee has helped Britain more than any other country because its need has been great and because transportation to England has been available. Clothing for China has been given to some extent and when the need arises it becomes possible to send relief goods to U.S. Possessions. All will be done.

Mr. and Mrs. Charles Perry were called to Capet because of the death of W. A. Harrison, brother-in-law of Mr. Perry. They made the trip with Mr. and Mrs. Henry Hall.

## The Farmers' Corner

By E. I. BESEMER  
County Agent

For many farmers in Michigan, 1942 will be the first year they will have had to make out an income tax report. This information has been revealed by E. B. Hill, head of the farm management department of Michigan State college.

Every farmer who is single, or who is married and not living with his wife, must make a return if his income is more than \$750 a year. If he is married and living with his wife the returnable blank is due if his gross income is \$1500 a year. As his share in the all-out war effort, practically all farmers will welcome the opportunity to share in the tax. Even though they make a return, they will pay no taxes unless there is a balance after personal exemptions and other lawful deductions are taken off of the gross income. Every farmer should obtain from the collector of internal revenue at Detroit or from one of the 12 offices in the state, two copies of Form 1040 and 1040F. After that is done, his figuring starts. On Form 1040 everybody determines whether he has to pay an income tax and in what amount. Partly corporate instructions are given on a sheet which accompanies the form.

Form 1040F is a schedule of farm income and expense and is filed with Form 1040 when the farmer filed on the cash basis. Form 1040F and 1040 is optional, if the report is \$1,000 or less.

Farmers are entitled to certain amounts of depreciation and depletion. Depreciation is the loss in value of property over a period of time, as fixed by law, and depletion is the gradual wearing out of property in operating the farm.

Certain expenses can be deducted, such as interest on farm buildings and equipment, taxes, insurance,

etc., and the cost of labor and supplies.

Find in the instructions the report on a farm.

For details concerning the new tax laws, see the "Farm Income Tax Guide," which can be obtained from the collector of internal revenue.

The Agricultural and Home Farm Family having for 1942 will be discussed at a meeting in the Wayne County 4-H Club hall Jan. 29, according to E. B. Besemer, county agricultural agent.

R. V. Ginn, agricultural economist of Michigan State college, will discuss production goals, farm programs, family living, and general farm economic problems.

Miss Emma Dubard, Wayne county home demonstration agent, will discuss family living problems as related to adequate nutrition.

Agriculture must grid itself for wartime production. Farmers, generally speaking, have indicated that they can meet the "Food for Freedom" goals.

The Outlook Meeting is for all the family, another 4-H club members and older youth. You are invited to bring someone.

The Wayne County members of the Michigan Livestock Exchange will meet at 2 p.m. at the Romulus Town Hall, Wednesday Jan. 21.

J. M. Swegle, Plymouth, is the chairman and will have charge of the meeting.

J. H. O'Malley, secretary of the Michigan Livestock Exchange, will discuss services by the Exchange and D. H. Stark, Livestock Marketing specialist, Michigan State college, will discuss Livestock Marketing Problems in Michigan.

The election of officers for the Wayne County 4-H Club will take place also delegates to the annual meeting will be chosen.

All interested in raising livestock are invited to attend.

**LEGAL NOTICES**

To the Highway Commissioner of the Township of Livonia, Wayne County, Michigan:

You are hereby notified that the Board of County Road Commissioners of the County Wayne, Michigan, did, at a meeting of said Board held Tuesday, December 23, 1941, decide and determine that the certain sections of road described in the minutes of said Board, in the minutes of said Board, in the jurisdiction of the Township of Livonia, Wayne County, Michigan, did, at a meeting of said Board held Tuesday, December 23, 1941, decide and determine that the certain sections of road described in the minutes of said meeting fully described and contained should be absolutely abandoned and discontinued.

Minutes of the meeting of the Board of County Road Commissioners of the County of Wayne, Michigan, did, at a meeting of said Board held Tuesday, December 23, 1941, decide and determine that the certain sections of road described in the minutes of said meeting fully described and contained should be absolutely abandoned and discontinued.

Minutes of the meeting of the Board of County Road Commissioners of the County of Wayne, Michigan, did, at a meeting of said Board held at 3800 Bartram Tower, Detroit, Michigan, at 10 o'clock a.m. Tuesday, December 23, 1941.

Present: Commissioners Wilson, O'Brien and Breining.

It was moved by Commissioner O'Brien that the Board assume jurisdiction over the following sections of alleys in the Township of Livonia:

An extension southward to West Chicago Street of the public alleys east and west of Cardwell Avenue—Gurney's Garment Annex—Gurney's Garage purposes for the use of the public in the plat of New Detroit Subdivision No. 1 of the west 1/4 of the east 1/4 of the northeast 1/4 of Section 38, Town 1 South, Range 9 East, Livonia Township, Wayne County, Michigan, and recorded in Liber 82 of Plats, Page 58, Wayne County Records, being more particularly described as the westerly 15 feet of Lot 113 and the westerly 15 feet of Lot 109, respectively of the aforesaid Sections 38, in all 300 square feet of land.

The motion was seconded by Commissioner Breining and carried by a vote of 3 to 2.

WHEREAS it is the desire of the Township of Livonia, Wayne County, Michigan, to have the following roads graded and paved:

NOW THEREFORE BE IT RESOLVED, That the following roads be graded and paved by the Board of Commissioners of the Board:

THIS NOTICE IS GIVEN UNDER AND BY VIRTUE OF ACT NO. 26 OF THE PUBLIC ACTS OF 1940, AS AMENDED.

In testimony whereof, I have set my hand at Detroit this 30th day of December, A.D. 1941.

BOARD OF COUNTY ROAD COMMISSIONERS OF THE COUNTY OF WAYNE, Michigan, as aforesaid, Librarian of Place, Page 6 of Wayne County Recorder, being 0.096 miles of alley be and the same is hereby abandoned and discontinued as a public highway.

BE IT FURTHER RESOLVED, That this Board believes it to be to the best interests of the public that said alley so abandoned and discontinued should be absolutely abandoned and discontinued.

Minutes of the meeting of the Board of County Road Commissioners of the County of Wayne, Michigan, did, at a meeting of said Board held Tuesday, December 23, 1941, decide and determine that the certain sections of road described in the minutes of said meeting fully described and contained should be absolutely abandoned and discontinued.

Help National Defense

Miss Ruth Knapp, the school nurse, made the rounds of the home rooms the last two weeks speaking about posture. She explained the necessity of having good posture in order to have good health.

Prin. Paul D. Carter reports that \$15 worth of defense stamps were sold up to this time. The sixth grade science class had a movie Thursday, "The Lost World."

## Have You Wished You Could Bowl?

Undoubtedly, you can. Chances are it's one of a dozen or more simple, common reasons that have caused this pleasure to be put off. Stop in TONIGHT and talk it over with us; there's no cost or obligation. We'll gladly arrange a convenient time for you to come in.

Miss Frances Robinson's kindergarten class has made a toy store. They erected a snow scene in the classroom.

Miss Selma Jarvis' first graders have started their new primers and the workbooks connected with them.

Miss Alpine Scott's second graders have made Mexican piggy banks. They have put their bird feeding station up and are observing the different kinds of birds. They are studying the weather and here and there are making weather work books. The children are learning to read charts. Tommy Mechem had a birthday party Jan. 5, and his mother came to the classroom and served ice cream and cake to the children. Lynwood Keler has returned to Northville but is home with the chicken pox.

Miss Jeanne Haroun's first graders have made snowflakes and snowman decorations. Later on snow pictures will be made. They also have new citizenship helpers.

Miss Ruth Youngman's second graders are studying about Alaska. Those who are able to do especially good work are allowed privileges at the workers table. Donald Blair is ill with the chicken pox.

Eugene Hogue from Miss Beari Houch's third grade has moved to Ohio. There are room decorations of vegetables which the students made. They're now studying the dangers of ice skating.

Miss Margaret Carpenter's fourth graders are studying about the Switzerland mountains, and will make a Swiss scene in the sand table. There are 14 students who are on the Dental Honor Roll in her class.

Russell Shedd's sixth grade class has completed the gods of the army of Troy. His fifth grade class is studying the story of the Trojan War. The class in question is none other than Pat Radziszewski who is 1981 Elmer Milt road.

### Senior Sketch

Howard Brody, a member of the Northville High School class of 1934, is born Oct. 26, 1914, in Indiana. He attended Detroit schools until coming to Northville to finish his last three years of high school. His Northville residence is 535 Dimon.

Howard is interested in golf, basketball and swimming. He loves blue-eyed blonde girls and vacations. His dislikes are long speeches and girls wearing too much make-up. The highlight of his life was his first date. He helped with the youth projects and was a member in the Senior Youth. His secretary of the Hi-Y Club was a member of the Bay Club for three years, a club of the year of Star Scout.

Howard has traveled to Canada and throughout Michigan. He has an ambition to prepare himself in either the field of conservatory or aviation.

**"PLOWING IN"** a new cable line. These huge machines bury several miles of telephone cable a day.

## Cables for America's Battle

In the past year, while the nation was preparing for the present struggle, Michigan Bell spent \$28,000,000 largely to meet the need for increased telephone service.

Part of that total went into new buildings, additions and new central office equipment. But a large and important share was buried in the ground—in the form of telephone cable. 448,000 miles of new telephone wire were used in the cables placed by Michigan Bell

in 1941—enough wire to go more than 18 times around the earth!

Hundreds of miles of new cable bring telephone service to military bases and munitions plants. Other hundreds supply the swiftly growing districts of defense workers' homes. As long as the necessary materials can be obtained, your Telephone Company will do its level best to provide good telephone service for all who need it.

### SCHOOL AIR-RAID DRILLS

A few short weeks ago we were in no way concerned with the topic of air-raid drills, except as they were being practiced in far away countries. Events on and since Dec. 7 have awakened us to the realization that we are also in the danger zone and must be prepared for any emergency, no matter how remote.

One of the most important new duties that has developed in the schools is the provision for the maximum physical safety of our school children if air raids should ever come to Northville.

Let me assure you, the parents of these children, that the faculty is following closely the furnished instructions of the Civilian Defense Department of Civilian Defense and is adapting them to our own particular building conditions. Very shortly, drills will be undertaken and carried out in a manner that will insure the maximum of protection and a minimum of excitement and emotional disturbance to the boys and girls.

A bulletin of information concerning this program and instructions to the parent will be sent to every home as soon as plans are completed. You will receive it shortly.

R. H. AMERMAN,  
Superintendent of Schools

### Senior Sketch

In the N. H. S. senior class there are several musicians and one is a boy born in Redford, July 27, 1924. He especially likes woodworking and camping girls. Other interests are music, hunting, and model airplanes. Out of two of these hobbies has grown his ambition to become a professional wood-worker or musician. Going to Washington is the highlight of his life.

He is a member of the Biology club and also the boys' glee club. He has been a member of the choir for the past two years and a member of the band for the past three. During the winter months he has been working on maps for the Hop-a-long Cassidy show at the Fair.

The man in question is none other than Harry Jackson, who was one of school's all-time track stars.

The man in question is none other than Harry Jackson, who was one of school's all-time track stars.

### Waterford News

By NORMAN L. RAVIFT

11-12 MI. N. E. ON HIGHWAY 12, Waterford, Mich.

Mr. Eugene L. Smith, 27, of Waterford, is the son of Mr. and Mrs. Eugene L. Smith.

Mr. and Mrs. Eugene L. Smith are the parents of Mr. Franklin Philip, Miss Marjorie, Mr. Philip and Mallery. He is of Detroit, but is a citizen of Waterford.

Those under the age of 3 are Julian, Marion, Mrs. Clark, William, Diane, Robert, Tom, and Jean Campbell, Claudine, William, Eddie, Waterford.

Friday, Mrs. Arthur Getty, and her mother, Mrs. Mary Getty, visited Mr. and Mrs. Ralph Gott in Ypsilanti.

Sunday, Mr. and Mrs. Charles Buttevinore and daughter, Jean, were guests of Mr. and Mrs. Edward Zurbrick at Keego Harbor.

Mr. and Mrs. Elmer Perkins and daughter Madeline visited off and on Mrs. Floyd Wooster in South Lyon.

MISS Blanche Miller spent the entire semester at Washington.

The eighth grade are having their semester examinations this week.

Shirley George entertained the Waterford Jr. Red Cross Tuesday. Present were Delphine Bogard, Schuler, Lois, and Doris Dean, Thomas Grover, Madeline Perkins, Anne Aida.

WATERFORD SCHOOL

By the Pupils

Last week we had our final test in spelling to the first half of the year. Those who had "A" were:

Robert Campbell, Tommy Campbell, Patty Clark, Raymond, Grace, Nancy Farren, Robert Grice, and we had our mid-year reading test.

Bobby Clark. Several were absent Friday because of illness.

Friday, we played a quiet game called "Truth or Consequences".

It was lots of fun.

Saturday morning our boys 4-H Club met at the home of Howard Bowring for their first meeting.

We have a new reading chart for beginning reading.

In our weekly readers this week section WXYZ

### Around the School

An essay contest sponsored by the American Legion Auxiliary is available for all Junior and Senior high students. The subject of the essay must be "Characteristics of a Good American". The length must not exceed 500 words. The Department award will be a beautiful bound set of World Book Encyclopedias, and the National award will be \$100 in cash.

The grade school children have a box in their room for the collection of waste paper for National Defense instead of the waste paper basket.

N. H. S. Girls will play a basketball game with Berkley on the evening of Jan. 29, with Flat Rock on their court.

Yesterday, the N. H. S. girls played a basketball game with Berkley in the Northville High gym. Only the first team girls played because Berkley maintains just one team.

The awaited Northville and Plymouth basketball game will be held January 30, at Plymouth high. No boys' games have been played this week so we are saving all our cheers for next Friday, Feb. 6. Plymouth will play a return game in the Northville gym.

There was no school yesterday nor today because of exams Tuesday and Wednesday of this week.

The high school home ec. club went on an ice skating party a week ago Tuesday night down to the Mid. Ford. Dorothy Fraz was hostess to the group at her home after skating where refreshments were served.

### Senior Sketch

In order to introduce you to the facts of Dick Smith's life you will first want to know that he was born at 45720 West Elm Mills road and has lived there ever since. Dick enjoys a farm and makes gardening his hobby. His horses are not judge entries, French, dicing and his dog "Tiger". People also show much interest in a person and group project, really "big" dogs.

He has traveled three-four months and to Kentucky.

Dick has been a member of the Knights of Columbus, the assembly, the men's committee, the 4-H and many committees and he took part in the color guard.

His ambition is to be an executive to be wife.

## THE STORY OF ELECTRICITY

Number Two in a series published by The Detroit Edison Company

For more than 2,000 years after Thales' experiments with amber and lodestone, his discoveries lay dormant. No one recognized their great importance and significance, or troubled to follow them further. Not until the year 1600, in the reign of Queen Elizabeth of England, was the thread of electrical knowledge again picked up.

Dr. William Gilbert, Physician, in Ordinary to the Queen, was a far from ordinary person. A doctor by profession, he performed and recorded so many experiments with "electrics" that his observations were published in a book, "De Magnete". This monumental work represented 17 years of study and research, and is a magnificent example of inductive philosophy. Written with the "inquiring mind" of a true scientist, Gilbert's book laid the foun-

dation of the whole science of magnetism as we know it today. Queen Elizabeth and her Court were so interested in his demonstrations that he was granted a pension of £100 a year to further his studies.

Gilbert took up the study of amber, and showed that its power of attraction was common to many other materials: glass, resin, sulphur, rock crystal, sapphire, diamond. These substances he called "electrics". He also showed that the earth itself is a giant magnet, and that this explained the behaviour of the magnetic compass. He used a sphere of lodestone to demonstrate to the earth's magnetism. He also devised the "venomium," a light needle or pointer mounted on a pivot for detecting electric charges. The Great Fire of 1666 destroyed nearly all of Gilbert's instruments.

and Queen Elizabeth discuss

magnetism

### Experienced Assistance

with your

INCOME TAX</

**Michigan Mirror**

(Continued from front page) or leave it to the voters to decide whether any change at all is needed.

The present constitution was adopted by the voters in November 1908.

**Changed But Twice.**

It is interesting to note the people of Michigan have changed their constitution but twice in 107 years. The original 1835 constitution lasted 15 years until 1850.

The state then operated 56 years until 1908, when the second law was adopted ten years before the Civil War, making the score 5-3 in favor of the new constitution.

Michigan is still operative after 33 years of service. It took the 96 delegates

two minutes of the first half and

the first part of the third quarter.

In the third quarter Care made

a basket and Murray foul shot fol-

lowed. The score was 10-7 in Northville's favor.

Gladys Clark, substitute for Mrs. Jones, second quarter, and Marcelle Funke substituted for Gladys for the last two quarters of the first half and

the last constitutional convention from October 1907 until March

1908 was approved by the voters in December 1908 by a vote of 244,705 to 130,783.

School constitutional conventions were

held by the legislature in 1867 and

1872, but revisions recommended in both cases were rejected by the voters.

The 1857 attempt to change lost 71,733 to 10,582.

The second attempt in 1873 was rejected 39,265 to 12,634.

Warriner, in past years on the part of Michigan citizens is indicated in the unsuccessful attempts to tamper with the state constitution. Whether that attitude still prevails remains to be demonstrated. Advocates for the new constitution have given themselves to keep the referendum relative to calling a constitutional convention in November and the first approval of revisions of made by that convention.

**Was Jitters.**

Some folks affected with war jitters are still suffering from the shock of Japanese treachery at Pearl Harbor. They expect everything to click from the mile yellow line, from home to according to the destruction of twin families at the home church.

Some weeks ago certain citizens of the country were warned against powdered sugar in Japanese canned goods.

In Detroit recently a woman reported a group of police reporters with a "Japanese spy ring" working in their city and on their way to Japan.

The Redford Union girls' basketball team had 11-11.

The win over Redford Union by the boys brought the Mustangs back into the victory line after one defeat from Farmington.

The Mustangs took control of the game and held it to the end of the rough and tumble game. Each of our boys scored at least one basket during the first quarter. McCloud made 2700 blocks plus a foul shot, while Redford Union one basket and a foul shot. In the second period McClellan again scored 4 more points, while Hartman (Capt.) and Peal Harbor. Their expect everyone to click from the mile yellow line, from home to according to the destruction of twin families at the home church.
