LANSING.—More leadership in our war effort may be the 1942 bid of Michigan Republicans.

When a war is going well, citizens are usually satisfied with the men who are running the war. But when military reverses come—Singapore, for example—the same citizens awaken from general complacency to demand better and more vigorous leadership.

It is ironical, in a way, that frequently this is the case. Too often it was the same leadership which encountered indifference, if not outright resistance, to suggestions that the enemy might reach our own shores. Then when the enemy approaches nearer, the same public turns in partial panic upon their own leaders for “failure to act.” Such may be the case in Michigan.

When you get alarmed, you get mad. And angry voters are entitled to vote for a change.

Defeats continue to accumulate, and the likelihood is that they will as we bring men and equipment for battle. Republicans may find themselves armed with a psychological weapon made to order for victory in November.

This is mere observation not prediction.

Governor Murray D. VanWagenen has been accused of political favoritism in appointment of county councils or defense, fire rationing officials and even Red Cross chairman.

He countered with a statement that only 48 per cent of his appointees were Democrats, that the state council of defense was “overwhelmingly Republican.”

Republican congressmen, such as Rep. Jesse P. Wolcott, charge the national administration with failure to tell the truth about our losses at Pearl Harbor. Wolcott decried recently in Japan that eight out of nine American capital ships, light and heavy cruisers and battleships, as well as 473 bombers planes, were destroyed.

President Roosevelt said in a press conference last week that this sort of rumor was “rot.” And he “spelled it out—rot.”

“Under certain conditions,” the President added, the enemy could drop bombs on Detroit—a statement that is said to have startled reporters at his press conference.

German submarines have sunk numerous American oil tankers off the Atlantic coast. Dutch oil refineries were damaged by shells fired from an enemy submarine cruising only a few hundred miles from the Panama canal.

Loss of Singapore and the prospect that the Japanese will make a clean sweep of Sumatra, Java and other Pacific strongholds have sent a note of alarm over Allied Nations.

Senator David I. Walsh, Massachusetts Democrat, chairman of the Naval Affairs committee, declared on the Senate floor the coasts of the United States were “almost defenseless” and it might be necessary to “bring back our Navy from the four corners of the earth simply to protect our shores.”

Other alerts in the wind as to 1942 Republican strategy:

Rep. Dewey Short, Missouri congressman, states of leadership in Washington has contributed to a feeling of complacency. Until that smugness has disappeared, we are in danger of losing this war.”

Rep. William W. Blackett of Flint: “This is no time for petty politics. America is on fire. It is our duty to put out the fire.”

Senator Arthur Vandenberg: “The liner Normandie was not sunk by an enemy at sea. It was sunk by an enemy at home—which is definitely more ominous—and that enemy was either sabotage or negligence.”

“

Foremost in the Republican lime-light is Secretary of State Harry F. Kelly. Kelly was not caught in the draft in the World War, but he may be in this one. The Draft Kelly for Governor campaign, launched months ago, is gathering momentum.

Kelly is from Detroit where much of the Van Wagoner political strength has centered. He was wounded while fighting in France. As secretary of state he has talked comparatively little; like Coolidge, he has built a reputation of being a man of strength as well as a man of action.

Many Republican strategists in the winter hot-stove league believe Kelly is a logical choice to head the 1942 ticket.

Kelly's pronouncements, made in recent series of public addresses, include these remarks:

“We stand behind the administration 100 per cent in the prosecution of the war, but we also support the party whose principles we hold sacred.”

“This is a time of trial and sacrifice for America, and as in every such crisis we turn to Lincoln, the man of the common people, for help and guidance.”

Americans have always been opposed to dictatorship and oppression of any kind by government. We stand for liberty, knowing that

Registration for Village Election Ends Saturday

Petitions for Offices Are To Be Filed by Feb. 28; Contest Seen for Mayor, Treasurer and Council.

Election Is Mar. 9

The voters' registration books for the village election, Mar. 9, close Saturday, Feb. 28. This is the deadline, too, for the filing of petitions for the elective offices.

To date, there is assurance just there will be competition in the mayor and commissioners race.

Mayor Carl H. Britton is being opposed for the second time by former Commissioner Elmer L. Perrin.

Five persons are petitioning for the

incumbents, George Hicks, Carl Schoultz and Orlow G. Orton are

opposed by Luther B. Lapham, a

newspaper to the village political field, and former commissioner William T. Gregor.

The two-year council vacancy caused by the death of the late Fred P. Simmons, had brought Claude N. Ely into the contest. He has no competition.

With only one day to go for the filing of petitions, Bert C. Stark remains unopposed for the assessors

post; Mrs. P. R. Alexander is filing

for the clerkship and she is unopposed. Treasurer C. Harold Bloom is not seeking reelection to the treasurership. A petition is being circulated for A. Russell Clark.

President Roosevelt said in a press conference last week that this sort of rumor was “rot.” And he “spelled it out—rot.”

Telephone Company Reduces Service Rates, April 1

The Michigan Bell Telephone company announced today that uniform schedules of local service rates will go into effect, with Billing dates beginning Apr. 1, at exchange of comparable size and with less than 10,000 main telephone stations.

John R. MacLachlan, manager for the company, said that local telephone charges of about 28,000 customers in 68 exchanges will be reduced a total of \$120,000 to \$130,000 a year as a result of the rate adjustment. The uniform schedule is obtained in a recent order of the Michigan Public Service Commission growing out of negotiations with the company.

Mr. Loomis' resignation will come before members of the village commission at the regular meeting on Tuesday, Mar. 2. It is expected that an appointment will be made to fill this vacancy until after the village election, Mar. 9.

News from Walled Lake

By Charles E. Hutton

Fire Chief Harvey Segnit of the Comerford township fire department, is awaiting response to his efforts to organize an auxiliary fire fighting force, to conform with civilian defense specifications. Official data blanks have been mailed to men of the local district, with the request that they be executed and returned promptly, so that specialized training can begin as soon as possible.

An initial course in Red Cross train will start sometime this week, according to Dr. O. R. McKenzie, provided the auxiliary defense unit of firemen is ready, and a place can be found in which to hold the classes. Further training will later be provided by the State defense administration.

Chief Segnit has also disclosed a plan for the organization of a company of volunteer firemen for home protection to act in the event that the regular department had been summoned to an air raid fire in an industrial district, in accordance with civilian defense regulations.

Announcement is made by Mr. and Mrs. Francis McClelland of

helps lower your electric rates

Most of the electricity produced in the Detroit area comes from coal burned in large power plants. The heat energy in the coal is transformed into electrical energy and sent out to customers' homes over wires. For many years, our engineers have devoted time and effort to squeezing MORE electrical energy out of LESS coal. How successful have they been?

Back in 1906, three-and-a-half times as much coal was required to make electricity as today. In 1912, two-and-a-quarter times as much was needed. By 1925, the amount was down to one-and-a-half times as much. And today, with more energy being "squeezed" from coal than ever before, the amount of coal required is still being whittled down.

Coal is only a small part of the total cost of making electricity. Other factors are involved. But the story of coal typifies the many improvements we are constantly making—large and small—to lower the cost of electricity. The average price per kilowatthour paid by our residence customers today is 46 per cent less than in 1921. The Detroit Edison Company.

Start the New Year

Avoid Income Tax Trouble

in 1942

Keeping adequate financial records is the surest way to avoid tax difficulties. Not only does the federal law require the farmer to keep ample records but experience and common sense point the wisdom of such practice.

With the importance of farm financial records in mind, the Northville Record has been able to complete arrangements to furnish, in combination with a year's subscription to the paper, a copy of "Agricultural Records," the easy accounting system for farmers, at a special price of \$1.79.

The regular price is \$5.50 and only by offering the record system to you with a year's subscription to your newspaper can we supply it at this remarkable special price.

Here is how the offer works. If you are a subscriber to this paper, you merely extend your subscription for one year at the usual price and are thereby entitled to buy one copy of "Agricultural

Records" at the special price of \$1.79. If you are not a subscriber now, you may subscribe to the paper for one year at the regular price and become entitled to buy one copy of "Agricultural Records" for the special \$1.79 price.

If you think of trouble when you think of making income tax returns, you need a copy of "Agricultural Records" because it:

1. Requires no bookkeeping knowledge.
2. Takes only a few minutes a week.
3. Makes a permanent record of your income and expense.
4. Shows how to figure farm income and deductible expense for tax reporting.

We'll be glad to show you a copy of "Agricultural Records" and explain just how to use it. The whole thing is so simple that the explanation will take almost no time.

Stop in at the office next time you're in town and talk it over.

**Help Speed War Calls!**

This picture is to remind you that you can improve your own telephone service and lend a hand in speeding important war messages if you avoid those "peak" periods — 10 A. M. to 12, and 2 to 4 P. M. — when telephone lines are likely to be overloaded with calls. Michigan Bell now is handling an average of more than 5,000,000 calls daily — many thousands more than ever before. War calls must go through, even though it is becoming increasingly difficult to meet service needs as readily as in the past. By doing your telephoning at off-peak hours, and keeping your calls as short as possible, you will be helping to speed the messages that are vital to victory.

**"Summer Chills"
Is Rehearsed
by Senior Class**

Twice daily, at 3:30 and 7 p.m., rehearsals for the senior play, to be presented Mar. 19 and 20, have been going on. The play is a comedy written by the senior sponsor, Charles Yahn, about typical teenage boys and girls at a summer camp in the Adirondack Mountains. It is entitled "Summer Chills."

Only one adult appears in the play, Mr. Wilson, one of the camp counsellors, played by Walter Fox.

There has been quite a bit of confusion about qualifications needed for getting into the defense training classes. E. V. Ellison wishes to state that there is no definite amount of schooling needed for entering these training courses, that the classes are based on the ability of the people and the preference of different subjects.

Because of the apparent need for a large number of women workers, there will arise a demand for the preparation of women to do such work. Classes for this training will be set up as soon as enough are interested. Persons interested are to contact Mr. Ellison at the grade school. Those who are interested do not have to be working in defense industries.

Seven committees have been appointed to assist in the production of the senior play. Three committees have already begun to function.

Their membership is as follows: Advertising—Blanche Miller, chairman; Edith American, Janice Covell, Phil Jones, Florence Rontchik and Myrna Hubbard; properties—George White, chairman; Misses Funkhouser, Paul Dore, Tom Widmaier, Frank Zornig, Seener James, Reid, chairman; Carter Church, Don Barnard, Ray Runge, Ralph Hay, Maxine Lemon, Dorothy Jane Congo and Madeline Perkins.

Miss Frances Robinson's kindergarten class is studying about birds. They have brought food for the birds.

Miss Jeanne Harroun's first grade class and girls are reading about farm. They have made a farm on the floor of the room and have brought farm tools for it. Farm drawings will be made in their art class.

Macau health pictures are on a language and posture lesson for February health class. The plan is to make health posters and do fine hand cutting of pictures.
