Bells to Ring =
Church bells will ring from 10 to 10:15 p.m. as signal for extinguishing all lights. They will be tolled again at 10:15 to 10:15 as an all clear signal. If planes are heard over the village during the blackout, it is understood from headquarters in Detroit that they will be any ships carrying photographers who will take pictures to determine the effectiveness of the blackout.

May 2: Every resident of the Detroit Metropolitan Area is uniformly advised by the new Detroit city blackout ordinance. Northville's ordinance is similar. The ordinance, not only requires the uninterrupted cooperation of every household, but also places a specific responsibility on all owners of stores, apartment buildings and factories.

Provisions of the two ordinances are as follows: covering every phase of conduct in an all-night from the extinguishing of all lights to the regulation of traffic. Most important, however, are the rules covering the blackout period. Any light visible to the outside can serve as a focal point for temperature. A pattern of lights is an even better guide.

Outside communities have been asked to hold blackouts simultaneously with Detroit, May 2. This move is essential, not only for the safety of the outside towns themselves, but also places a specific responsibility on all owners of stores, apartment buildings and factories.

Following are the requirements for the registration:

7 a.m.-9 p.m.:
Luther Lapham
W. H. Castiglia
Charles P. Murphy
Harry Riedman
Eral Clark
Neil H. Hargrave
David Day
Mrs. Charles P. Murphy

Under the blackout provisions, each householder is held responsible for the lighting in his own home. This means all lights on the outside and any inside light which might be visible from the outside. If Mr. Householder wishes to leave his living room light on, he may do so, providing no covers doors, windows, skylights, or any other opening to prevent any light from being visible from the outside. He may use blinds, shades, paint, cardboard, any method sufficient to prevent the light from reaching the outside.

But the ordinance exists in more territories than just private homes.

It applies to all buildings of every kind or description, whether they

Village Physician Will Talk Sunday to Medical Corps

When members of the Medical Emergency Corps meet at 4 p.m. Sunday, April 26, at the school, they will hear a talk by Dr. J. E. Schiady, a member of the corps, tell something about the organization and workings of such emergency groups.

The practice session will find the ambulance, station wagons, nurses, first aiders, drivers, and doctors going out to take care of simulated casualties at four places to be designated later.

Practically all of the equipment ordered by the corps has been received for use at Sunday's casualty practice.

Judges for Spring Charity Horse Show Announced

Barham of Tennessee, Will Be Here for Saddle Divisions; Conway To Judge Hunter Classes

Boxes Available

From Committee members of the Northville Charity Horse Show came the announcement today that two outstanding judges would be here to judge the ring events May 22-24 at the fairgrounds.

Here for the saddle division will be H. Christian Barham of Milford, Tenn., who has judged some of the biggest shows of the country, as well as being an exhibitor at Madison Gardens and the International Show at Chicago. He is popular with exhibitors and professional trainers.

Equally of high calibre is the judge who will be here for the hunter classes. He is Ian Corrigan of Cortago, N.Y., who has judged the East's finest shows. Hunters and jumpers from his own stable have been popularly known as "the best in the East." This will be Mr. Conway's first official appearance in this section of the country.

The judge for the saddle classes has not been announced.

There will be 52 classes of competition which is to aid the crippled children of the state, sponsored by the Rotary Club. The stake classes are all \$500 this time. The stakes will total \$2500 in cash, trophies and Defense Bonds, which will be given to the three top winners.

The "B" list comprising the Indiana industrial workers at war plants and farmers who depend on their passenger cars to transport farm supplies—seeds, grain, etc.—will be included.

The average citizen is plainly out in the cold. When his present rubber tires are worn out, he must depend on getting a used tire—or else.

While the average automobile in Michigan has tires good enough to last out the summer, family transportation must suffice generally to an end of fall or winter unless rubber chemists come to the rescue.

Army's Mental Units Discussed at Rotary by Dr. S. W. Bijou

Dr. Sidney W. Bijou of the Wayne County Training School was the guest speaker at the Rotary luncheon last Tuesday.

He was introduced by Dr. Ted G. Hedges. Dr. Bijou spoke upon the subject of "The Problems of Weeding Out Mental Units in the Draft."

The Doctor explained the problems presented to the Army in having men crack under the stress of great mental strain at construction sites.

A rubberless tire is also being studied by the Goodyear Tire and Rubber Company. Officials have revealed that fabricated tires made entirely without rubber are being given road tests today.

Paul W. Litchfield, chairman of the GoodYear board, declared that 24 months time would be needed before any large amount of synthetic rubber tires would be available from the government-financed synthetic rubber plants already authorized.

Exchange Cuts Birthday Cake

Wednesday noon, Exchange members of the Northville Exchange club and of the chamber members, E. L. Smith, L. C. Stewart, Charles Dolph, Carl Eby, the Rev. William Plaehn and W. H. Elliott were present for the occasion.

Carl Eby cut the cake and L. C. Stewart and Elmer Smith served Charles Dolph presented a brief history of the club and figures and facts accumulated through the years; Carl Eby and Lew Stewart made brief remarks and Pres. Elmer outlined the criteria for a successful club and measured Exchange's activities through the years beside the same.

Next week there will be no lunch on here, but the club will attend a charter presentation night in Detroit.

Northville Rotarians are planning on attending the district convention to be held in Windsor the next week end in May.

Richard Loomis of the Army Air Corps, temporary command, has been transferred from St. Louis, Mo., to Northville. Mr. Loomis, former chief of police, resigned his office, Mar. 1, to pilot planes for the army.

A new kind of isolationism may result from this scarcity of rubber tires, changing living habits of the public.

Bill Scholitz received orders this week to report immediately to Dallas, Tex., for Navy Air Corps assignment.

Rotarians Elect Club Officers

Friday evening, the new board of directors of the Northville Rotary club elected the officers of the organization for the ensuing year.

The new officers are: president, Dr. Joe E. Schiady; first vice-president, Neil Bergfeld; second vice-president, Dr. Ted Hedges; secretary, Dr. D. H. Van Horne; treasurer, E. M. Egart. The officers-elect will take office July 1, 1942.

The board of directors for the new year includes Mr. Hammard, Dr. Siegel, M. C. Gundlach, Dr. Selby, Paul Carter, Charles Scholitz and W. H. Gansfield.

To Start School for Raid Wardens

10-Week Class Meets Tuesday, May 5, in Northville High School

Beginning at 7 p.m. Tuesday, May 5, a 10-week air raid warden training school will be conducted in the Northville high school.

It is expected that there will be enrollment of some 40 persons

for the training classes which meet for two hours each day and Thursday.

From this group, a raid warning for the entire section of the village will be turned to serve under Warden Chet Smith along with firewatchers and a demolition squad.

Meadowbrook Pro Issues Call for Club Caddies

With a new practice tree and green under construction at the Meadowbrook Club, things are taking shape for the opening of the golf season and Pro Eddie Slade has issued a call for caddies, ages 14 to 18.

The club will continue its hobby craft and recreational program of this year for the caddies. Too, this year the caddies will vie for prizes in the victory garden line. The club has authorized the planting of vegetable gardens this year, rather than flower beds.

R. T. Mitchell, club president, will give prizes at the end of the season to the winning gardens.

A Month of Campaigns

The Michigan Tuberculosis Association has set aside the month of April for its fifteenth annual Early Diagnosis Campaign with the slogan "Tuberculosis: find it, treat it, conquer it."

Michigan reports reveal that only two persons out of ten enter the sanatorium in the early stages of tuberculosis. The tragedy of cases found too late has caused the Michigan Tuberculosis Association to campaign with an intensive educational program during April.

April, too, is the month for a similar educational drive sponsored by the Women's Field Army of the Society for the Control of Cancer. April has been designated as Cancer Control Month by Congressional Resolution and during this month a nation-wide emphasis is being placed on cancer education.

One of the most important, and often one of the least understood, health problems in Michigan is that of cancer and its control. Because of the fear and mystery that have always surrounded this subject the attitude of the general public is still largely that cancer is an incurable disease from its beginning and the least said about it the better for all concerned.

March 8th, 1942 was the thirty-fifth birthday of the Depositors State Bank of Northville.

Price Control

We are still of the opinion that the half-way price control business as now functioning is only an educator for the real ceiling business that must ultimately come if the old problems of war time and post-war finance are to be avoided. The roof is for wages, farm products, and industry and everything. A half roof over your house rots the entire structure. And another thing, if a general ceiling were placed on everything, heating would cease, because the peak of profit (except bootlegging, and tires are being bootlegged now) would be reached and supplies now in hiding (existing higher) prices would come out for use. It's coming as sure as Christmas when the administration gets up courage enough to do it, and the sooner the better.

School children are complaining that waste dealers are ripping them off the paper and waste material they are collecting. If so, it's pretty small stuff. So watch your weights, and protect the kids. Shouldn't waste dealer carry more than a passing!

Home Rule—By Whom?

Betreib papers are whipping it up for the HOME RULE Amendment, but he who the metropolitans are setting up a picture that makes out county Wayne look farther away than Australia is far as representation is concerned. While jumping at a physiological time when folks recall the rotteness of the County picture and suggesting that anything is better than what we have, they are ignoring out county Wayne as if we had the smaller. Study the business folks, with both eyes open. It doesn't look so good to us. Read the Detroit dailies' articles on this business with your finger crossed, or your hands raised in supplication for an honest look in.

* * * * *

Secretary of State Harry Kelly appears to have laid kegler vision than officials to other states when he ordered 1942 state license plates made so that they could be used more than one year by providing for a small rear plate to be bolted on in succeeding years, thus saving many tons of steel annually. Now our national government has ordered that other states do likewise.

* * * * *

Folks west of Northville do not receive the suggestion that the sanatorium farm be worked with prison labor with much enthusiasm. And why should they? Their position protesting against that procedure is founded on good judgment. Their engagement of the case against the project and their constructive suggestions to utilize the farm lands through other means shows forthright and good sense. Undoubtedly Mayor Jaffers and the council of Detroit will listen to the suggestions in good faith as they are made.

* * * * *

Germany and Japan exit the State into a god. Well we haven't done that—nothing so thoroughgoing as that! Make the State Providence, the Great Provider—not a god, but a cow to be milked. And more and more a "sacred cow". A self-governing people would exhibit more of the characteristic independence of the American Eagle.

Stuart Webster was addressing a family gathering audience when an ominous movement began in the crowd, the people swaying back and forth with increasing ardor that threatened pain and injury. Sensing the danger Webster interrupted his speech and cried, "Let everyone stand still—stand firm!" Everyone was restored, danger past. That, said Webster quietly, is what we mean by self-government. And that is precisely what we need. (W. J. Cannon on the Ford Sunday Evening Hear.)

Nelson C. Schrader, president of the Northville Fair Association named his committee for the Sept. 10-12 Fair, then the Board met on Friday evening in the Village Hall.

The board of education's recent resolution 100 to grant contracts to married women teachers in the Northville school system received opposition of the qualified school citizens in the referendum held Friday. The special election brought 360 voters to the polls, where 226 ballots were cast in support of the resolution and 134 were opposed.

Rather Stevens, former Rep. of the 18th District, April 10, 1941, the W. H. C. gave a farewell visit to Mrs. R. K. Myers at the home of the president, Mrs. W. A. Parmenter, April 11.

Robert Bray will leave Friday morning for Cleveland, Tex., where he will take up his work at flying radio in the air corps.

• Five Years Ago

Friday night, April 5, 1937, W. H. Stevens will meet Mr. W. E. Parmenter, 15-year-old son of the Northville citizen Harry H. Clark, at the new veterans hall, F. J. Miller Street, Elgin, A. Nathan, director, and Ned Thompson, secretary, will be present.

Mrs. H. S. White was named president of the local community center for the second consecutive year, the Northville Woman's Club, April 12, 1937, at the annual meeting.

The second marriage of Ruth Richardson and Samuel Brown, the octogenarian wife of three sons, was celebrated April 13, 1937, at Elkhorn, Wis.

In Twin City, Harry H. Clark, president of the local community center, will be granted the first opportunity to do in the hundredth anniversary of the Red Cross.

The interior of the local clothing plant has been remodeled and reorganized by the Bush Company so as to take care of the Plymouth service. A group of the mackinaw went to parish in New York state, some to Wyoming, and the balance were purchased by the Northville Milling company.

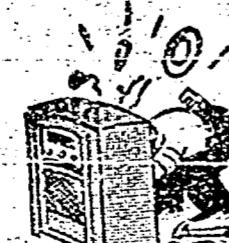

There is surely no longer any reason to urge the citizens of Northville to display the national colors. The business places, residents and automobiles that were not decorated with the red, white and blue of Old Glory are made annually conspicuous by the absence of such ornamentation.

• Ten Years Ago

The organization plan to open the Northville bank provides for the separate opening of the two, with merger afterward. Now the news comes from the state banking department of Lansing that it suffices.

People are going to get better acquainted with their neighbors especially the man who has an apartment with good tires!

ELECTRIC POWER for Industry

Last February 9th, the nation advanced its clocks and watches one full hour "for the duration." People ask us—"What has the adoption of War Time meant in actual saving of electric power?"

The huge turbo-generator you see above produces seventy-five thousand kilowatts of electricity—enough to take care of all the electric service requirements for a quarter of a million average families. A single one of these machines, complete, costs one-and-a-half million dollars, not counting transmission or distribution equipment to handle the current it produces. These great generators are put "on the line" as needed to meet peak-load requirements for electric power. Prior to February 9th, in the late afternoon, the demand for electricity from our power plants began to rise rapidly as lights were turned on, and electric ranges started cooking the evening meal. This simultaneous demand for power—from homes, stores, and factories—resulted in a high "peak" load, because lighting and cooking came together.

Since February 9th—after the nation changed to War Time—lights are turned on later. The home lighting load has been separated from the commercial lighting and cooking load, and fewer machines like the one above are needed to meet the evening "peak." It is estimated that our evening 30-minute peak has been reduced 50,000 to 75,000 kilowatts by the change to War Time. This releases valuable generating capacity needed by industry for the manufacture of war materials. Incidentally, The Detroit Edison Company's total generating capacity is now 5½ times greater than at the close of World War I. The Detroit Edison Company.

Woman's Page Editor To Be Guest Speaker at Achievement Day Program, May 7**Exchange Professor from England Closes Winter Lecture Series**

An exchange professor from England, Norman Hadden of Adrian college, Adrian, was the final lecturer on the winter series sponsored by the Coordinating Council, Wednesday evening, April 22.

Mr. Hadden came here at the invitation of the Northville Teachers' Club. He has been in this country for three years. His talk had of British-American relations and the closeness of the two countries in pooling their ships and materials for war efforts. He stressed, too, that the relationship had a dual background for peace days when it is expected that the two nations will work together more than they did after the last war.

In giving the importance of the bond among the allied nations, Mr. Hadden cited the dangers of propaganda released by enemies. Criticism of our allies is just what Hitler wants, he said.
