\$1.50 PER YEAR IN ADVANCE

Dr. I. W. Snow, a member of the Medical Emergency Corps, spoke Sunday afternoon at the corps' practice session which was held at the headquarters in the Charles Murphy home.

The classification and treatment of burns and the use of hypodermics were points of instruction given by Dr. Snow.

Corps members are still working on the bandaging of fractures in their practice periods.

The committee has plans in the making for the sponsoring of a project in order to raise additional funds for more equipment.

Here are some rules for the proper display of the American flag as suggested by William T. Kerr, founder and national president of the American Flag Day association:

When a large flag is borne horizontally by a number of people, the blue field is forward and to the right. In a procession the flag's place is on the marching right. On a staff the flag's place is in the center and highest point in a grouping with other banners. In the chancel of a church the flag staff should be at	the speaker's right, other banners should be at his left. In the body of a church the flag's place is at the congregation's right. Do not use the flag as drapery. Use bunting. Give the banner briskly to the breeze in raising it. But lower it slowly and ceremoniously. When the flag is used on a motor car, the flag should fly from a staff. Never permit a fold of the flag to touch the ground—the skies are its place.

The secretary of the school year ended in March. The report has been approved for publication and will appear in an early issue of The Record.

In giving a summary of the year's activities as far as the administration was concerned, Supt. Russell H. Amerman stressed the affect the war program had had on the schools and of recent requests that had come to the schools to further tie in with the trend of national emergency.

"We've been asked to see what can be done to provide a nursery for pre-school children whose parents are working in war industries; they want us to teach aviation in the high school, developing an air-

Following the business meeting of the organization, about 150 delegates banqueted at the church house of the Presbyterian church. Comd. Frank Wilson of the Norwegian post, presided, and called upon Mason Gibson, who introduced the past district commander and other notables present. Arriving as guest was W. H. Johnston, district president, who declined to present her officers and past district officers.

Walter Scott of the State Department, was the principle speaker in the evening and most fittingly presented the work and functioning of the Veterans Bureau. The winner of the district Americanism essay contest read her prize winning essay.

ANNUAL REPORT

of the Village of Northville

From March 1, 1941 to February 28, 1942

April 17, 1942

The Honorable Commission
Village of Northville, Michigan
Gentlemen:

We have examined the balance sheet of the Village of Northville as of February 28, 1942 and the statements of receipts and disbursements and income for the fiscal year then ended, have reviewed the system of internal control and the accounting procedures of the Village and, without making a detailed audit of the transactions have examined or tested accounting records of the Village and other supporting evidence in accordance with accepted auditing procedures and by methods and to the extent we deemed appropriate.

The accounts for all funds except the Water Department Fund have been kept on a modified cash receipts and disbursements basis, all assets and liabilities are reflected in the accounts, but revenues are recognized only when cash is received.

In our opinion, the accompanying balance sheet and related statements of receipts and disbursements and income present fairly the position of the Village of Northville as of February 28, 1942, and the results of its operation for the fiscal year, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Yours very truly
Briggs & Iserman

With Saturday golf very much on the decrease but evening golf in the twilight hours increased proportionately. Meadowbrook Country Club is getting things under way for a busy season, with stress placed more on golf than on big parties.

The presentation was made by Mrs. H. O. Whitmore at a recent meeting held at the Oakland Hills Country Club.

The fine garden transition adopted the best of modern garden architecture with an ascending growth with small plants of luxuriant specimens and masses of flowers and shrubs placed at right angles to the eye in the distance in a natural way.

On two other occasions Mr. Hillaire has won Michigan Horticulture Society awards. One was for the best institution landscape and the other for the best landscape for the grounds of the Oakland Hills Country Club.

Army Board Clarifies Dependency Question

From Board of Claims the following army release comes by E. J. Healy:

He said: Army headquarters has decided that one dependency problem should be clarified in the minds of the public.

"An unborn child is a dependent, its pregnancy resulting from marriage consummated after Dec. 8, 1941, or for the primary purpose of providing a dependent, dependent shall not be considered to be cause for Class III classification."

"As above indicated, selective service policy has been changed in reference to dependency claims involving pregnancy, with the evidence of consummation of intent to evade military service. This change is premised on the imminence of allowance and allotment benefits for dependents of men in the armed forces."

"A dependency acquired after Dec. 8, 1941, or acquired when selection was imminent, including pregnancy, birth or acquiring a child, will not be cause for classification in Class III," he stressed.

Northville Police and the Auxiliary Police formed a net around the Maybury San and Northville area. Patrolman Pete Boren and Barton M. Connors brought in Hemanway and Chief of Police Frank A. Rodocker brought in Wade and Conso. The three men are also wanted in Detroit on charges of stripping cars.

**Saving
1,000 DRIVING-MILES PER DAY—**

**...how Detroit Edison customers
are aiding the War Effort**

A short time ago we asked your patience in the matter of Detroit Edison delivery and service calls, explaining that it might take a little longer for an Edison service man to arrive, and that deliveries might not be quite so prompt. We did this in an effort to save cars, tires, man-hours, gasoline... yet still provide reasonably good service for our customers.

You have cooperated generously in this program, and thanks to your patience, we can report worthwhile results. By ROUTING customer calls that is, by grouping all the calls in a certain area so that a man can handle more in a single trip, we are saving 1,000 miles of driving per day. Our customers have not been inconvenienced too greatly. The latest figures show that 81 PER-CENT of all customer calls are answered within an hour.

Meanwhile material shortages grow more critical. We are making further studies on how to achieve even greater savings in rubber, gasoline, and man-hours, and still maintain good service. We know that if we are obliged to adopt a new plan along this line, you will cooperate with us as wholeheartedly as you have done in the past. Patience can be patriotic, too.

EDITORIAL

Next Thursday, June 18, 75 seniors will be graduated from Northville high school. Although this is not the largest class to graduate, it is the second largest, the "Class of '39" graduating about 10 more students.

However a large percentage of the present graduates attended N. H. S. since kindergarten days.

Our number has been depleted by

at last three former members who are now in the armed forces, Lawrence Bogart, Harold Hubbard and Roy Dye. The future will scatter this class, some going to foreign lands by serving their country; others will be taking college courses and others will find employment near home. Wherever they go may their efforts be useful. The best of luck goes with them.
