USO Canvassers Ready To Start Drive, July 27

\$1500 Is Goal of Northville, Plymouth and Livonia Townships

Headed by two young chairman, Mrs. Herbert Berndt and Nelson C. Schrader, the USO drive to raise \$1500 in the townships of Northville, Plymouth and Livonia will get under way in the village on Monday, July 27, and continue through Friday, July 31.

The residential district will be canvassed by Mrs. Berndt and her corps of workers. Mr. Schrader's responsibility is the business section.

Business leaders in Northville, Plymouth, Livonia and the surrounding townships have distributed fliers throughout the village asking people to attend the Picnic Day at 1 p.m. on Saturday, Aug. 1, and to contribute \$1.00 each for the campaign.

Plans call for the money to be used to provide recreation for the afternoons. Funds per cent will be given directly to national campaign. The rest will be retained in the three townships for the long

drive. The money will be turned over to the Red Cross.

Red Cross Issues Emergency Call for Blood Donors

An urgent call is being issued by the Red Cross血库 for blood donors to help meet the emergency created by the recent bombing of Pearl Harbor.

Ask Householders To Aid Drive by "Preparing" Tin Cans

Northville householders are asked to cooperate in the tin salvage drive by bringing their cans to the Village Warehouse located next to the cemetery on West City street. Persons unable to bring the cans to the warehouse, are asked to put them in square containers at their curb, where they will be picked up.

Instructions which come from headquarters ask householders to prepare their cans for collection by having them rinsing paper labels, opening bottoms as well as

the tops, and flattening them.

Box cars have distributed fliers throughout the village asking

people to attend the Picnic Day at 1 p.m. on Saturday, Aug. 1, and to contribute \$1.00 each for the campaign.

It is all right to talk a little about what we are going to do when the war is over, but we ought to devote most of our time doing what has to be done before the war is finished.

* * * * *

Looking Ahead . . .

Everybody in this country regrets that when we were at peace we weren't foresighted enough to prepare for war. Now that we are at war, let us hope that we will at least realize the importance of preparing for peace.

The peace that follows the war can be, to the people of this country, a wonderful adventure in a scale of higher living than we have ever known before. Or it can be almost worse than war itself.

Which kind of peace we will have will depend largely on what men are appointed now to work out the master plan which will keep our economy functioning at full speed when the war production ends. Men like Donald Nelson are doing a fine job of handling the war job—but let us hope that a group of equally intelligent, efficient and visionary men will soon be assigned the job of planning for the post-war period.

"Life is ten per cent what we make it and ninety per cent how we take it," says Wm. E. Bocking of Yale. His figures may not be exact but there's a lot to what he says.

Our Job . . .

Continue to get in the scrap! Rubber and metals are particularly vital at this time, and every loyal citizen should be sure that every scrap of this scrap is on its way to the recharming mills.

In Northville, waste metals may be placed at the curb for the regular city pickup. That includes tin cans, which should be flattened with the foot. Rubber may be left at your nearest gasoline station.

You will be surprised at the conversion value of scrap, as the following paragraphs show:

1 hot water boiler - could supply steel for 137 mm. gun.

1 five pound flatiron - could supply iron for 4 hand grenades.

1 woolen suit could supply wool for 2 army blankets.

1 double blanket - could supply wool for 3 army blankets.

1 bed springs (60 lbs.) - could supply steel for 2 1/2 inch 105 mm. shells.

1 stove (250 pounds) - could supply iron for 1 500-pound aerial bomb.

10 pound window weight - could supply iron for 1 3/4 inch 75 mm. shell.

1 pair roller skates, 2 door hinges, 1 door lock, 1 old spade, 1 trash bucket, 1 trash bag - could supply metal for 1 20-caliber machine gun.

160 old news papers - could supply fiber for 80 75 mm. shell containers.

25 feet of garden hose - could supply rubber for gas masks.

1 pound brass pipe - could supply brass for 18 .30 caliber cartridges.

1 pound of lead - could supply lead for 10,000 rifle ball cartridges.

1 men's leather overshoe - could supply rubber for 1 pair army shoes.

The entrance of Dr. Hale Brake of St. Ignace into the race for the Republican nomination for lieutenant governor of Michigan, brings into the contest a man of proved ability and one who rates high in the State Senate, of which he is now a member. The other contestants, to date, are former theater governor Thomas Read of Shelby and Eugene Keyes, the doctor lawyer dentist of Dearborn who got himself nominated by an expensive advertising campaign two years ago and then lost out at the November election. Frankly, Keyes is not our ideal as a candidate for this important place, for he is a political unknown and has had no experience in state affairs. Money spent for advertising two years ago got him nominated out of a field of nine candidates, Keyes receiving less than twenty-one per cent of the votes cast. Tom Read is a friendly man but he is presumed to be affiliated politically with Frank McKay and this will turn many votes against him. Senator Brake did not tie up with anyone but runs solely on merit and on his record as a Senator. He is not so well known as Read nor so well advertised as Keyes, but if the people get to know about him before the primary election in September we believe they will nominate him. Personally we are for Brake.

Utilizing Michigan woman-power for Michigan war jobs, so the officials say, would avoid putting new burdens on housing in industrial centers. Women workers would lessen the likelihood of heavy relief loads for imported workers stranded here at the close of the war.

Well, that's one way of looking at it.

It's not a pleasant outlook. It is another call for sacrifice.

In our opinion the Michigan home front is far ahead of Washington in its willingness to forego individual pleasures for national security. We're ready for the job. As soon as the leaders at Washington can make up their minds what they want us to do, we'll deliver the goods.

Michigan will not fail!

ALEUTIANS IMPORTANT

Behind the army-navy attempts to blast the Japs out of the Aleutian Islands is more than natural sympathy to having an enemy on American soil or the fear of an invasion of Alaska.

These are important. But, in addition, events in Egypt may mean that more than ever we shall have to use these vital stepping stones of the Aleutian Islands to carry the war to the heart of Japan.

To get the full significance of the picture it is necessary to recall that ever since Pearl Harbor there has been an honest difference of opinion among U. S. war strategists as to whether we should concentrate on fighting Japan in the Pacific or Hitler in Europe.

At one time, shortly after Pearl Harbor, high-up U. S. naval advisers worked on an elaborate war plan, which is no longer a secret, for concentrating almost all our naval strength in the Pacific and making a direct attack on the Japanese Islands—at a time when the Japs had their bases dispersed to Manilla, Singapore and the South Seas.

But the plan meant leaving the Atlantic coast relatively unguarded,

also virtually abandoning convoys to Britain and Russia. In the end

it was decided that the Russian front

was all-important and must be sup-

plied at all costs. The wisdom of

this decision seems to have been borne out by subsequent events.

Japs Worried

However, those who urge the all

out war in Asia have persisted, and

their argument has been strength-

ened by recent developments. One

is the fact that the Japs, obviously

scared at the prospect of a second

front in Asia, are trying fever-

ishly to clean up the Chinese before

China gets into the war again.

Year of a hard frost in Asia, China

was why the Japs seized part of

the Aleutian Islands.

Main development, however, was the defeat at Tobruk and the serious Nazi threat to the entire Near East; for if the Near East falls, with its vital supply route opened by American railroad engineers from the Gulf of Persia to the Caucasus, then it may be absolutely imperative to open new supply lines to Russia via Alaska and Siberia.

And, even more important, the entire focus of the war, so far as the United States is concerned, may turn to the Far East, for, if Hitler secures the oil of Iran, Iraq and Mosul, it may be the wisest strategy to knock Japan out of the war first—because the Nazis will have the resources to continue for a long time.

WHAT IS AN EXPERT?

When Federal Communications Chairman Lawrence Fly appeared before the house interstate commerce commission recently, he was asked by Representative Clarence Brown of Ohio:

"What is your definition of an expert?"

"Well," replied Fly, "I once heard an expert described as any damned fool away from home."

"Do you pick your experts at the FCC on that basis?" inquired Congressman Brown.

"No," said Fly. "We generally take them from the industry, where they have proven their worth."

"I am asking these questions because of a peculiar experience I had recently," explained the Ohio congressman, and went on to tell how a congressional committee had referred him to an expert on accounting, a young man who graduated from college in 1939, and was still a trifé wet behind the ears."

A short time later, Brown continued, he called at the War Production Board on another matter pertaining to metal," said Brown. "This time I was referred to an expert on copper and believe it or not, Mr. Fly, it was the same agent."

And, Brown warned the chairman of the Federal Communications Commission, "if I ever come down to clean up the Chinese before China gets into the war again, I'm going to compare you with that expert and find this will be the same young man."

Following this, I again called at the WPS on a matter pertaining to metal," said Brown. "This time I was referred to an expert on copper and believe it or not, Mr. Fly, it was the same agent."

And, Brown warned the chairman of the Federal Communications Commission, "if I ever come down to clean up the Chinese before China gets into the war again, I'm going to compare you with that expert and find this will be the same young man."

Long Distance Calls

1. Make only the most necessary calls during the business day.
2. Avoid the rush hours. When possible, call before 9 A.M.; between noon and 2 P.M.; between 5 and 7 P.M.; or after 9 P.M.
3. Plan what you want to say, so that the call will be brief.
4. Whenever possible, give the number of the telephone you are calling.
5. Don't call Washington, D.C., unless you must. Trunk lines to the nation's capital are already overloaded with war messages.

Thoughtful use of telephone facilities in these days is a real contribution to the war effort—one that every citizen can make. The Telephone Company will continue to provide the best service possible under present conditions. But now, and for the duration, **WAR CALLS COME FIRST**.

Parsonage Rites Unite Betty Carlson and John Gibson, Friday Evening

Betty Carlson, daughter of Mr. and Mrs. Arthur C. Carlson, began the bride of John Gibson, son of Mr. and Mrs. J. D. Gibson of West Six Mile road, in a quiet ceremony best man. The wedding took place at 3 o'clock. Mr. and Mrs. Gibson are graduates of the Northville High School Methodist Parsonage, with the Rev. both being members of the Class of 1942. They are making their home in Northville.

NOTICE!

To Village Taxpayers:

The Village of Northville is considering taking over the assets and operation of the Rural Hill Cemetery, and will act on the proposition at their next regular meeting, August 3rd, 1942. YOU are invited to be present at this meeting to express your opinion on this proposal.

GUARD YOUR FRIENDS WITH YOUR BUDGETS

It takes food, gas, farm machinery, gas and lumber to maintain the home-front. Completing International debts is not cheap—it is you who are going to pay Uncle Sam to do a thorough job.

If American farmers buy their proportionate share of WAR BONDS, they alone can finance 30,000 ships, planes this year. Think what a cross-funding an air fleet like that could do!

Aff-Chalmers believes that WAR BONDS are today's best and safest farm investment.

That American farmers, by buying WAR BONDS every market day, can make total victory the easiest road to war.

The quickest and surest way to achieve it is for farmers themselves to take the lead-ership. That is the aim of the "Aff-Chalmers War Bond Council," formed by the U.S. Treasury Department.

Send a post letter today—to the War Bond leader in your community!

Second Half of Softball Schedule Set for Five Teams

The Recreation program is placing emphasis on supervised swimming at the village reservoir, where the water is about four feet deep.

Director Charles Pink is on guard there from Mondays through Fridays, 2 to 5 p.m. Swimming instruction is given from 3 to 3:15 on these days.

The Nursery School for preschool age children (2-5) is held on these days in the Boy Scout building from 10 a.m. until noon. Mrs. Charles Pink is the supervisor.

Mr. Pink has released the second half of the football schedule:

July 21—Ford Valve vs. Maybury at San.

July 26—Elk vs. Ford, at Ford Field.

July 29—Atkinson Service vs. San. at Ford Field.

July 30—Ford Valve vs. South Lyon there.

Final 2 Teaching Contracts Signed

Math and Science Teachers for High School Hired This Week

Contracts were signed this week to complete the teaching personnel of the Northville schools.

The signatures needed were for one high school vacancies of math, caused by Miss Edna Brusiloff's resignation, and science, caused by Richard Sonnen's resignation.

Replacing Miss Brusiloff is Miss Dorothy Loveland of Dexter, who has her A.B. degree from Michigan State Normal College at Ypsilanti. For the past two years, she has taught at Kinsley.

Thomas Hargrave of Alanson had some 17 years teaching experience to his credit, and teach high school science. He comes here from Cedarville. Most of his teaching has been in Alanson county. He has been in business for himself and has been an FFA crop worker in Benton Harbor. His A.B. degree was granted at Kalamazoo.

Tim Salvage

(Continued from front page)

Because 1942 is an important year in maintaining its prime, Tim Salvage is giving off by a \$2500 per cent of his savings for the benefit of the town of Northville. On June 1, 1942, he turned over \$1000 to the town. This amount will be used in the purchase of a fire truck. It will take time to gather enough money to buy a truck and repair it.
