A.J. Holmes has given his walk to the scrap rubber drive. The side walks were made of old rubber belts; 26 to 30 inches wide. The collection amounts to 26,000 pounds of rubber.

* * * * *

Get in the Scrap...

The Nation is facing a crisis in obtaining scrap for the steel industry. To remember the ship loads sent to Japan doesn't help. Bygones must be bygones, and for ever's time of steel a half-ton of scrap is needed to "mother" the pouring. Unless we do our part on this Home Front and get in the scrap, steel production must suffer, and our boys on the battle line face hardships and death for want of supplies from the HOME Front.

Northville is being called to join in this nation wide hunt for scrap iron-junk. Chairman W. E. Forney of the Salvage Committee is setting up arrangements for the collection of junk. Northville must come through on this drive just as she did her part and is doing her part in selling Defense Bonds.

Much of this must come from the farms, and it is believed most of them can furnish from 500 to 1,000 pounds of old iron and other needed metals. What's more it must be done now. It isn't a convenient time to ask for it—fields have to be harvested and tasks are at their peak load—but war doesn't wait upon one's convenience. The furnaces making the steel for tanks, guns, airplanes and weapons needed in the protection of our homes from the invasion plans of the enemy, must be fed now. Unless we have security in protecting what we harvest, it is useless to do it, and without weapons we have no security. Our democracy is nothing sacred to enemies who would destroy it.

All of us have old tools, old stoves, hardware, metal beds, pots and pans, butteries, hangers, old machinery, and other articles which are lying around in basements, barn yards or fence corners, rusting away. This material is needed for shells, planes, battleships, armored cars, sub-marines, ambulances, etc. Now is the best time to gather it before winter snows and frozen ground cover it up and it will be lost to rust until next spring.

Some farmers say they keep junk-machinery for spare parts. If you may need a gear or wheel, take it off, but get the rest of the obsolete machine to the junk dealer. The need is urgent, and the necessity of supplying the materials of war have priority with all patriotic citizens.

We have just finished a drive for old rubber but our government did not get all it needed and people who still have some can still take it to the gas stations from which it has not yet been gathered. This is needed for gas tanks, barrage balloons, life boat hulls, position bridges, tires, etc. Junk? There ought to be a more reverent name for it now—our steel and timber company executives say. Junk now turned over to the government may save the lives of our soldiers and sailors later on. It is our duty to aid in all these drives for a vital war material.

Doughboy's Lament...

Don't write a poem,
The censor's to blame.
Just say that you will,
And sign my name.
Can't tell where we sail from,
Can't mention the date
And can't even number
The medals that you've won.
Can't say where we're going,
Don't know where we'll land,
Couldn't inform you
It met to a band
Can't mention the weather
Can't say if there's rain
All military secrets
Must remain
Can't have a flashlight,
To guide me at night
Can't smoke a sigarette
Except out of sight
Can't keep a diary
For such is a sin
Can't keep the envelope,
Your letters come in
Can't say for sure, folks,
Just what I can write.
So I'll call this my letter
And close with "Good night"

The fair is over and everything points to breaking even financially—and that is something to really brag about.

about, too. It took courage and a lot of work to go along with the fair in face of conditions and circumstances that beset its inception and actual operation in a wartime economy—decision and indecision, today this, and tomorrow that—and only one thing certain and that being the next thing would be something else. Again I say it took courage to carry on. So Cheering, and our hat is off to you, Bill Forney, and your stout-hearted efforts.

There was a dream... that men could one day speak the thoughts of their own choosing.—There was a hope... that man could one day stroll through streets at evening, unafraid.—There was a prayer... that each could speak to his own God—in his own church.—That dream, that hope that prayer became... America—Great strength, youthful heart, vast enterprise, hard work made it so.—Now that same America is the dream... the hope... the prayer of the world.—Our freedom—it's dream. Our strength—its hope. Our swift race against time—it's prayer. We must not fail the world now. We must not fail to share our freedom with it—afterwards... NORTHVILLE'S YESTERDAYS

One Year Ago

The first edition of the Northville News was printed and brought the news to the public on Sept. 1, 1889. The paper held its first meeting at the home of Mr. and Mrs. Arthur Griffin, 111 Main Street, on Sept. 1, 1889. President of the new organization was Mr. George C. Casterline, and Vice-President was Mr. W. E. Forney, the editor of the paper.

Five Years Ago

The late President and First Lady of Oxford were invited to the annual ball of the Oxford C. I. O. at the Mountaberry Hotel on Aug. 6, 1936. Kathryn Marburger, Mrs. Graham, was to that year the Queen of the affair received

when honors for class entries at the Junior Horse Show were passed to the 2nd Michigan Volunteer Infantry, which held its 39th annual reunion at Pontiac last week.

Blue skies and a hot summer sun beamed down upon thousands of fairgoers who crowded into the grounds to see the last week to attend the twenty-first Northville Wayne County Fair.

After many months of serious ill-

ness, a boy, Holmes, 23, died Aug.

25.

Achille Kreiger and William Keeler were united in marriage Aug. 28.

Ten Years Ago

The first poultry show I have seen this year at a county fair—that is just what Governor M. Brucker said to A. E. Fuller, head of the department at Northville Wayne County Fair, Frey.

Riding around the rim of the paved oval track at 60 miles an hour was one of the thrills that visitors of the Northville Rotary club enjoyed Tuesday afternoon on the occasion of a visit to the General Motor's proving ground at Milford.

Mr. Keller and George Harrelson, who founded the club, Aug. 18,

Spoke today for New York's newest Mrs. Lee, who returns Monday on the Major's list with relatives and friends in Bay City, Huron and Endicott.

Jean Montgomery fell last week from a bench and broke her arm.

Twenty-five Years Ago

George Allan, respected resident of the village for 25 years, died May 10.

Northville schools opened Tues-

day with a full corps of teach-

ers and 300 students of 330.

Mr. and Mrs. Arthur Griffin have leased their farm on the Fethy Road to W. B. Baughman.

Earl Baughman has purchased

the property and also the

house of Mr. and Mrs. Baughman.

L. C. Mead was reelected secre-

etary-treasurer of the 2nd Michi-

gan Volunteer Infantry, which held

its 39th annual reunion at Pontiac

last week.

To the Editor

The Northville Record,

Northville, Michigan.

Dear Sir:

I am writing this letter to thank you for sending me The Northville Record, for it gives me a chance to hear of the news from my home town, and makes me feel closer to home.

We soldier boys are trying

hard to make ourselves at home.

Yours sincerely,

Pvt. Harry R. Ritchie

Here in Northern Ireland, in which the people here are very nice to the American soldier. We are training hard so we hope to end the war soon. I will close, thanking you once again for our weekly paper.

Yours sincerely,

Pvt. Harry R. Ritchie

News from Walled Lake

By Charles E. Hutton

Enrollment of Walled Lake Consolidated Schools students will be made on the first day of school this year, rather than during the preceding week, as in past years. This step was taken to minimize the need for extra travel by pupils and parents, in the interests of the economy.

However, all pupils attending the schools for the first time or those who are returning after having attended another school are asked to report at once to the school office, so that high school credits may be recognized, thus permitting

School begins for teachers Sept. 18, with a teacher's meeting in the morning; Sept. 19. Lower grade pupils will report directly to their new grades Wednesday morning, Sept. 9. The upper grades will meet in the gymnasium for enrollment instructions.

New books will be on sale at the school bookstore when school starts. Book lists will be ready next week and will be available to parents who desire to exchange used books.

No transportation will be provided for non-resident pupils during the semester, nor will the school accept any non-residents below the ninth grade.

George Goodrich and Gaylord Vreeland were among those who left Monday for Fort Custer.

The Ira Carnes are spending two weeks at Hi-Lo club near Lexington.

Mrs. Minnie M. Shilton is visiting relatives in Detroit.

An "old school" reunion will take place here, Sept. 19 at Stone Crest with dinner served at six o'clock. Reservations should be made with Miss Ruth Bradley before Sept. 10.

DO RIGHT BY YOUR

refrigerator

...it must "keep things cool"
until Victory!

YOUR REFRIGERATOR will last longer if you take reasonable care of it, and that's doubly important today when no more refrigerators are being made. Remember that the one you now have must keep cool for the duration. Treat it accordingly!

(1) Defrost regularly according to manufacturer's instructions, and empty drain water immediately. Heavy frost on the coils makes your refrigerator work overtime, and increases operating cost. Never use a knife or sharp tool for defrosting.

(2) After defrosting wash the entire interior of refrigerator (coils, shelves, trays, etc.). Use lukewarm water and mild soap, followed by fresh water with a little baking soda. This banishes ice-box odor and leaves your refrigerator clean and fresh.

(3) Wipe up fruit and vegetable juices as soon as they are spilled. (They harm the finish.) Wash the outside surface of your refrigerator with warm water and soap, and dry with a soft cloth.

(4) Don't overcrowd your refrigerator. Place leftovers in small containers to save space. Always let hot foods cool before placing in refrigerator.

(5) Unless the motor of your refrigerator is hermetically sealed, have it oiled and inspected regularly.

(6) Be sure there is adequate air circulation all around your refrigerator. Move it an inch or two out from the wall if necessary. The Detroit Edison Company.

Fenner Takes Issue
on Liquor Control

Clyde V. Fenner, former State Senator, and a candidate in the primary election September 15 on the Republican ballot, takes issue with the present incumbent, Clarence A. Reid on State liquor control.

During the last session of the legislature, Senator Reid cast his票 to militantly oppose four bills introduced or sponsored in the Senate by Senators Earl W. Brydges and C. Jay Town. Each of these measures was designed to give the state better control over the liquor business.

Former Senator Fenner contends that the people of Highland Park Northwest, Detroit; Plymouth and Northville are not convinced that the purpose of state liquor control is to create profits for either saloon keepers or the state or that it is desirable to increase either the number of liquor outlets or the volume of liquor sales.

He says that the 18th Amendment became a part of the United States Constitution because of widespread public disgust over the flagrant violations of both moral and civil law by distillers, brewers, saloon-keepers and many politicians who actually represented the liquor interests instead of the people. Prior to 1918, saloon-keepers were notorious contributors to political campaigns ignored, the law remained open all night, operated on Sunday, sold liquor to intoxicated people, permitted gambling and other vices, with the result that they were put out of business by outraged public opinion.

It is the contention of Mr. Fenner that any man holding public office today, particularly one chosen

SENATORIAL CANDIDATE

Clyde V. Fenner

to represent the very decent people of Highland Park and Northwest Detroit fails in his representation when he opposes reasonable restrictions and controls over the liquor business. He contends further that such blind antagonism to state control is not helpful to the responsible, better-class liquor dealers who themselves realize there is a growing tide of protest against tax control which may in time result in a return of either total abolition of maternal prohibition.

Liberal minded people, distillers and brewers with large capital investments, the better class of cafe proprietors, realize today that we have at least 50 percent too many retail liquor outlets, with the result that many so-called beer gardens in these mad scramble for profit are selling liquor to boys and girls. Court records show that nearly one-half of serious automobile accidents are caused by drivers driving liquor

retailers in altogether too many instances maintain cheap dance halls and lead entertainment primarily to citizens. People decent people object to saloons in the immediate neighborhood of schools and churches.

Mr. Fenner believes the citizens of the 18th Senatorial District are entitled to an explanation of Mr. Reid's constant support of unrestricted liquor sales and advertising in the State Senate. Former Senator Fenner says he has never been known as a reformer but has always considered himself to be a very liberal person. But his position on the very important liquor control issue is that a state senator fully represents the great majority of his constituents in the 18th Senatorial District when he stands unreservedly for state, definite and positive state control of the liquor business with emphasis at all times on promoting temperance instead of profit.
