9 Northville Boys Enlist in Army and Navy Ranks

Board 61 Sends New Group of Selectees to Detroit for Physical Exams; One Enlistee Takes Special Tests

Not wanting to be called nine Northville boys enlisted in the Army and Navy during the past week and six more reported to the induction center in Detroit, Michigan for physical examinations. The group of boys will all be called for their physicals within the next group of selectees.

The boys who have reported to the induction center are: Robert L. Smith, 17; James E. Smith, 17; James E. Smith, 17; James E. Smith, 17; James E. Smith, 17; James E. Smith, 17; James E. Smith, 17; James E. Smith, 17; James E. Smith, 17.

To Take Office

F. Alton Peters will be in charge of the new office.

Collect That Scrap A Front Page Editorial

Collect That Scrap! . . .

In response to the War Production Board's request to the newspapers of the country for help, The Northville Record pledges its full co-operation in the W.P.B.'s forthcoming drive for scrap metal.

Donald M. Nelson, Gen. Somervell and Admiral Robinson, in their appeals to the representatives of the press assembled in Washington, left not the slightest doubt that the scrap situation today is one of the most pressing—if not THE most vital—problems facing the country in its war effort.

Especially significant was the plea that scrap of all kinds be collected and started on its way to the mills BEFORE SNOW FLIES.

Thousands of tons of it lie out in the open. Snow will hide it. If it is covered by snow in the early winter it will stay hidden until the spring thaws! And the mills will need it desperately long before that time!

Gather YOUR scrap NOW in convenient piles for collection, and the newspapers will give you the details.

But gather it NOW, so that when the collecting time is arranged you will be ready to co-operate AT ONCE!

ANY metal is needed—steel, iron, copper, brass, lead, zinc, tin, aluminum and rubber.

Collect it in your basement or garage so it can be taken to the curb on the day collections are made.

If you are on a farm pile the scrap near the highway whence it can be moved readily to the curb, which collects it later.

Scour the house! Scour the garage! Scour the basement! Scour the farm! Anything made of steel, iron, copper, rubber, brass, lead, zinc, tin or aluminum is NEEDED FOR THE WAR EFFORT. It means that it is needed FOR YOUR PROTECTION.

Banquet Speaker

Clark Tibbitts will be the speaker at the banquet.

Primary Election Brings 380 Voters to Polls, Tuesday

Northville Township Supports Eaton and Dondero; Snow and Lyke Are Convention Delegates

Novi To Zone

The primary election drew 380 voters in Northville township to the polls Tuesday, Sept. 15, where they were loyal in traditional republican manner to Elton R. Eaton, another candidate, and George Dondero, representative of the 17th district. These backing of Dondero was a surprise to many, but . . .

It was estimated the vote by a margin of 100 in the township seat.

For the first time since their election to the polls Monday, Sept. 14, in east Detroit, the special election held by Northville township on the granting of a franchise to the 17th congressional district. Only one person was a absentee voter.

6 Take Exams

A certificate for distinguished service is being presented to the National War Savings program by the Northville Record. The certificate was presented to the boys by Frank N. Hays, chairman of the War Savings committee of Michigan, and W. W. Sullivan, office manager of the War Savings staff.

Villagers Attend Zoning Hearing

Thursday evening the third hearing by the village council and the planning commission to hear objections to the proposed zoning ordinance found approximately 50 villagers in attendance.

Mayor Elmer E. Perrin presided and following explanatory remarks by Mr. Parker and T. Glenn Phillips, who stressed zoning as being just good neighbors and allowing orderly and planned growth and protection to established homes, local residents were heard. Speakers were: Forest Doren, Ed Wood and Ann F. J. Cochrane representing the Local O.C.O. Welfare League; Mrs. E. W. Hawke, William Gregory, Henry A. Grammer, Chad Smith, Harper Brown, Orley G. Owen and Messrs. Woodard and Thompson.

2 Village Teachers Get Masters Degrees

Two Northville teachers were granted their Masters degrees this summer. One goes to Mrs. Marshall Harnock for work done in English at the University of Michigan. The other was granted to Mrs. Wanda Smith, Harper Brown, Orley G. Owen and Messrs. Woodard and Thompson.

Lutherans Observe Mission Sunday

Sunday, Sept. 20, is Mission Day in St. Paul's Lutheran church and the occasion will be marked with two special services.

The Rev. P. Gramper of St. Paul's Evangelical church, Farmington, will be the guest speaker at the 10 a.m. worship hour.

An institutional missionary film will be shown at 8 p.m. in the church. These services are open to the public.

Tryon Horses Win 13 Heats out of 15 Starts on Track

Don Tryon at the Crockett racetrack is proud of two of his horses that have been performing on the track—Capra, Grand and Captain Barash.

Captain Barash, starting 15 heats, has won 13 since the Northville Fair has yet over a year ago.

Lloyd H. Green Post To Install Officers

Lloyd H. Green, development administrator of the Lloyd H. Green Post of the American Legion, will be here at 8 p.m. Friday, Sept. 25 to expedite installation rites for the post in the Legion Hall.

Farmers To Elect County Delegates

Members of the Wayne County Agricultural Conservation Association who live in the Northville-Plymouth area will meet at 8 p.m. Friday, Sept. 18, at the Waterford school for the purpose of electing delegates to a county convention, who will in turn elect the county committee.

Committee members will also be elected to administer the Agricultural Conservation program for 1942.

The power of vote and membership are given to any farmer who is participating or cooperating in any program developed under any act of Congress and administered during the current calendar year through the Agricultural Conservation Administration and who has received or will receive a payment for compliance with such program. This holds true until such time as it is determined that he will not qualify for a payment or grant of conservation materials or services in the county under any such program. Voters will be asked to sign Form NCR-705 before casting a ballot.

Couse Shows Film to Exchangees

Wednesday night Waterford Couse of Northville, one of the leading conservation engineers in the State, will show the Exchangees and other members of the Wayne County Agricultural Conservation Association a film, "The Story of the Soil" at the Waterford school.

Mr. Couse explained that the work of the conservation engineers is to help the farmer in the Northville-Plymouth area. The film and the exchangees were held at the Waterford school.

Sheet Practice Starts Sunday

The sheet practice starts at 10 a.m. Sunday, Sept. 20, at the Waterford school for members of the Wayne County Agricultural Conservation Association. E. Henry, secretary, announced today.

Mr. Henry said that the practice will be held at the Waterford school on the farm on the Territorial road.

Sheet practice has on hand are the 12-16-20 gauge ones.

Ever notice that, generally speaking, it's the most misinformed person that seems to speak louder than the rest of the crowd?

• To Zone or Not to Zone
 Northville experienced an old-fashioned townmeeting last Thursday night when villagers turned out for the third hearing on the proposed Zoning Ordinance as drawn up by the planning commission. Two previous hearings failed to bring out more than a few villagers but this time the Northville Local No. 895 C.I.O.-U.A.W. took up the issue and rallied villagers to the consideration of the problem, thereby doing a patriotic duty, for it is only thru the clash of opinion that we arrive at the best in a democracy.

The best of the objections presented centered around personal opinion of the effect of the proposal upon housing and care of an influx of defense workers.

Zoning, according to its proponents is nothing but a good neighbor policy set up in a village ordinance that aids in protecting present use, and change of use that might depreciate property in the immediate area. Flexibility and change are provided for by a clause that sets up a Board of Appeals that strives to correct any injustice or hardship that might arise and reconcile that problem with a good neighbor policy of adjustment. 96% of the urban peoples of the nation now live under "Zoning" and Northville is surrounded by zoning—Plymouth and Livonia township have zoning. Novi township approved the project Tuesday. Ypsilanti, with all the problems of Willow Run and practically all government projects, follows a zoning plan. Personally, we feel that Northville has much to gain in the establishment of a fair, equitable and flexible zoning ordinance, but let's make it meet the tempo of the times and at the same time let it not be later said that Northville was there with only "Too Little and That Too Late."

When inclined to protest a lowering of meat prices in this country, remember you will do well to consider Britain's situation. Germany's use of one-half cent per pound and Britain's allotment of only five cents a pound.

• Everybody Isn't Picky
 While it is true that not every bill the Congress of the United States passes is a masterpiece of legislation, it is also true that many of the bills that are passed are of a high quality. It is a pity that many of the bills that are passed are of a high quality, but they are not always of a high quality. Uncle Sam has scamped the bottom of the barrel for steel metal. Unless plain Americans everywhere, in thousands of villages and towns and cities, and on thousands of farms everywhere, dig down into their own scrap barrel, American boys will go without vitally needed tanks and airplanes and other arms of war and our Allies may be deprived of weapons with which to fight our battles before we can open our Second Front.

That's a pretty long sentence, but it may be a longer one—as a dictator would impose it—if we Americans fail to deliver. But it's the plain truth.

Duck Season Starts Saturday, Sept. 26

When duck hunters fire the first shots of Michigan's 1922 hunting season at sunrise Saturday, Sept. 26, there will be plenty of conservation officers on hand at the popular spots to make sure there is proper understanding and observance of the 1922 regulations, the conservation department reports.

Shooting grounds at Monroe, Lake St. Clair, Saginaw Bay, and Houghton and Marquette Lakes are among the areas that will have reinforced law enforcement personnel.

More liberal than in recent years, the duck hunting regulations this season permit shooting from sunrise to sunset in a 70-day season. The once rigidly protected wood duck may now be shot, but only one may be taken in a day of had in possession. Not more than three redheads or buffheads may be taken, singly or in the aggregate, in the daily limit bag of 10. Repeating shotguns must be plugged to conform to the three-shell limit.

Waterfowl hunters need both the state license and the federal duck stamp. Mr. and Mrs. E. J. Hammermaster spent Sunday buying Christmas stock in the Suhl building.

THE FRONT LINE Is in YOUR BACK YARD!

You Say You Want ACTION! You say "Why don't we take the offensive?"

O. K.—Here's Your Chance!

Now YOU can supply the action. Now YOU can take the offensive.

Here's how: appoint yourself to the job and start right out—today!

BE A WASTE WARDEN!

Don't put it off. As soon as you have read the first page, go down into the basement and up into the attic and into the back yard... and DO something.

Remember that Johnnie B-B gun will make a fine... Remember that those cleaning rags... can do a better job protecting...

HOW TO SAVE

Flatten out cartons, boxes, tin cans, bottles; keep dry and clean. Put newspapers, magazines and tin in separate bundles. Keep rags, metals, and rubbish, separately in cartons or bags for collection. Let your children help; it will give them a part to play in the Victory program.

HOW TO DISPOSE OF WASTE

You may collect all your material to a collector truck... or you may prefer to donate it to a charitable organization which collects it.

If you prefer to sell and a collector does not make several rounds in your neighborhood, look through the advertising section and get in touch with a collector. Wait until your collection of waste paper has reached 100 pounds to get a 5-foot high barrel and put it on the curb. Dispose of metals, rags, and water at the same time.

If you take your collection to the nearest junk dealer's yard, be sure it is you will help to get the scrap on a collection truck.

If you prefer to donate it, you may arrange with your local organization, or other organization to collect it from your home.

GET IN THE SCRAP

America's War Industries Need: METAL - PAPERS - OLD RAGS - RUBBER Get It Back in War Production!

IMPORTANT

This is a big country. Parts of it are so far from the mills that waste paper, old rags and rubber that it is not practical to collect and ship them hundreds of miles. If you are not sure about what materials can be salvaged in your neighborhood, consult a dealer, collector or charitable organization making collections.

So, let's go — America. Salvage now — for Victory!

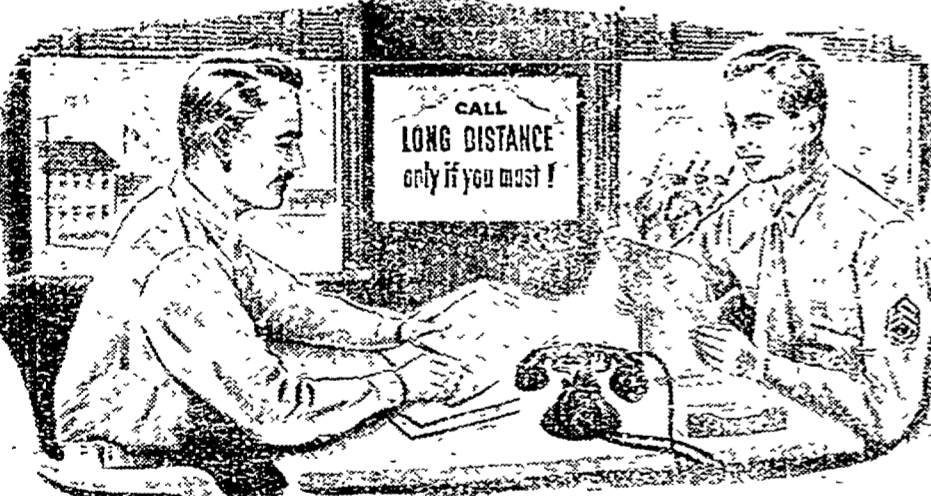

WHAT TO SAVE

Waste Paper: Save waste paper—don't burn it! Wrapping paper, card board cartons and boxes, paper bags, newspapers, magazines are needed to make new paperboard to pack foods, airplanes and tank parts, shells and ammunition and other articles. Hold for future needs.

Old Rags: Cast-off clothing, burlap bags, draperies, mattresses, pillows, discarded carpets can be used in factories for wiping rags and for roofing and flooring materials in emergency construction.

Scrap Metals: IRON, STEEL, BRASS, COPPER, ALUMINUM, LEAD, etc. are needed. Dispose of discarded tools, metal beds, stoves, railings, tire chains, nuts and pans, picture frames, hangers, toothpaste containers, pipe and hardware, batteries, tin cans, and anything else made of metal.

Old Rubber: Discarded auto tires and tubes, rubbers, overshoes—can be reclaimed for military uses—and to make new tires and tubes. Do not discard anything that is still useful and that might have to be replaced.

The Army and Navy are doing their part to ease the long Distance load... ARE YOU?

Our Army and Navy have issued orders to their personnel to restrict the use of Long Distance telephone lines, making only such calls as are absolutely necessary. Officers and men are doing their part. They know the necessity of keeping the lines and central office apparatus clear for vital military and war production calls.

Today, many lines are crowded with war calls. Adding enough new equipment to handle all the increased load is impossible because of material shortages. So it's up to all of us to make the most efficient use of what we have. Here are some of the ways you and all other civilians can help:

- 1. Make only the most essential Long Distance calls.
2. Keep all your conversations as brief as you can.
3. When possible, give the number of the distant telephone you are calling.

The same kind of cooperation will help improve local service, too. Your own telephone line may never carry a war message, but every call you make passes through a busy central office where it may tie up a war call. Try to keep your calls short. Help save wires for war!

* War calls must go through *

MORTGAGE SALE—Default having been made in the terms and conditions of a certain mortgage made by Sarah S. Marks, to James H. Potts and Alma Potts, his wife, dated the twenty-third day of September, A.D., 1914, and recorded in the office of the Register of Deeds for the County of Wayne and State of Michigan, on the thirteenth day of October, A.D., 1914, in Liber 715 of Mortgages, on page 398, on which mortgage there is claimed to be due, at the date of this notice, for principal and interest, the sum of Nine Thousand Five Hundred and 50/100 (\$9,550.00) Dollars. No suit or proceeding at law or in equity having been instituted to recover the debt secured by said mortgage or any part thereof, and the mortgage being in default, therefore, by virtue of the power of sale contained in said mortgage, and pursuant to the statute of the State of Michigan in such case made and provided, notice is hereby given that on Thursday, the third day of December, A.D., 1942, at twelve o'clock, Eastern War Time, said mortgage will be foreclosed by the sale of public auction to be held at the office of the Southern Congress Street entrance to the County Building in the City of Detroit, Wayne County, Michigan, (that being the building where the Circuit Court for the County of Wayne is held), of the premises described in said mortgage, for so much thereof as may be necessary to pay the amount due, as aforesaid, on said mortgage, and all legal costs, charges and expenses, including the attorney fees allowed by law, and also any sum of money which may be paid by the mortgagor, at or before said sale, necessary to protect his interest in the premises, including taxes and assessments. When said premises are sold, the proceeds therefrom, as aforesaid, shall be applied, first, to the payment of the debt secured by said mortgage, and all legal costs, charges and expenses, including the attorney fees allowed by law, and also any sum of money which may be paid by the mortgagor, at or before said sale, necessary to protect his interest in the premises, including taxes and assessments. When said premises are sold, the proceeds therefrom, as aforesaid, shall be applied, first, to the payment of the debt secured by said mortgage, and all legal costs, charges and expenses, including the attorney fees allowed by law, and also any sum of money which may be paid by the mortgagor, at or before said sale, necessary to protect his interest in the premises, including taxes and assessments. When said premises are sold, the proceeds therefrom, as aforesaid, shall be applied, first, to the payment of the debt secured by said mortgage, and all legal costs, charges and expenses, including the attorney fees allowed by law, and also any sum of money which may be paid by the mortgagor, at or before said sale, necessary to protect his interest in the premises, including taxes and assessments.

"TRAILER VAGABOND"

By WARREN BAYLEY

BOYS' TOWN — CONTINUED
 Some two years ago when the motion picture "Boys' Town" was released to the public, a banquet was held in Culver City, Calif., home of MGM, the studio that made the picture. The guest of honor at the banquet was Father Flanagan, Director of the orphanage, St. Joseph's, in the city of Chicago.
 Mr. Flanagan made a speech to the assembled stars, technicians, dignitaries, etc. In addition to the praise and thanks he gave Father Flanagan and others who made the picture possible, he made an outstanding offer—he offered Father Flanagan his personal check for the amount of one million dollars. He asked only in return that Father Flanagan build a Boys' Town in Los Angeles and take personal charge of the Home.
 Now one million dollars is a lot of money. Certainly the climate of Southern California must have appealed to Father Flanagan. Also, the fact that he could continue his work without the ever present mortgages that had curtailed his efforts from the beginning. But he turned it down. He had the courage of his convictions and to his mind his place was in Nebraska among his children and the work that was so far from finished.
 In his new role, each Father Flanagan showed Mr. Mayor and I believe that the other contribution to the cause of homes and abandoned children. It must be clear to all that the effect of self-government is advocated by Father Flanagan. Some day when you get a chance to visit there, you will see that Boys' Town is a City of Truth.
 The City of Truth is the City of the future. It is the City of the future.

Marian Frances Erwin and H. J. Johnson Exchange Vows in Home Rites, Saturday

The marriage of Marian Frances Erwin, daughter of Mr. and Mrs. James N. Erwin, of 1540 N. 15th road, to Harry J. Johnson, son of Mrs. Charles Johnson of St. Louis, was solemnized in the presence of 34 guests at the Erwin home Saturday noon, Sept. 12.

The Rev. William Richards, of Northville, performed the simple but extremely beautiful and inspiring ceremony in front of a large mirror formed the background for the bride. Mrs. Karl Boyer of Remus, sister of the bridegroom, played "Bridal Rose" by Leo Oelmler.

Given in marriage by her father, the bride wore a white jersey street-length dress with gardenias in her hair. She carried a bouquet of white roses.

Miss Norma Erwin, sister of the bride, was maid of honor. She wore a white crepe-satin-length dress and carried peach gladioli and Delphinium.

Clarence E. Johnson of St. Louis, was his brother's best man. For her daughter's wedding, Mrs. Fredy selected a beige crepe dress. Her shoulder corsage was of talsamum roses. Mrs. Johnson wore a print of blue and white. This was accompanied with a modern corsage.

Following the ceremony, a dinner was served. The bride and groom were escorted by the bride's father to the home of Mrs. George W. Smith, where the bride and groom were to be married. Yes—You Can Help Him...

...and here's how!

Gas is speeding the production of the weapons of war—ships, planes, tanks, guns, shells. As a fuel, Gas is vitally important in winning this war. Lead your help by an economical use of GAS—the Nation's Fuel—on the Home Front.

HERE'S A THREE-POINT PROGRAM FOR ECONOMY CONSERVATION IN YOUR HOME

IN THE KITCHEN... Cook the low temperature way that saves Gas and Vitamins. Roast at lower temperatures and reduce meat shrinkage.

IN THE BATH, LAUNDRY AND KITCHEN... Repair leaky hot water faucets to save water and Gas. Don't heat more water than you need.

News from Walled Lake

By Charles E. Hutton
A reception for the 44 staff members of the Walled Lake school faculty will inaugurate the current season's activities of the Parent Teachers' association in the school auditorium at 8 p.m. Thursday.

We're Busy Helping Uncle Sam

LAST YEAR America's railroads moved 475 billion ton-miles of freight, history's greatest traffic job. (We'd like to tell you how many millions of soldiers and sailors we carried, but . . .)

This year the railroads may haul 50 million carloads of freight—10% to 15% more than in 1941.

We did the 1941 job pretty easily because freight shippers and receivers and the public cooperated. We can do this year's bigger job if we again get that cooperation.

This all-out war requires all-out transportation. Uncle Sam is depending on the railroads for that. We're handling 70% of his military freight. To let him down would be tragic.

So "the tall man in the high hat" comes first.

At any time now there may be one, even two or three fewer cars in your passenger train. You'll excuse it, won't you? Uncle Sam will be using them.

Or your freight may move out, or come to you, a little later than you had hoped. We're certain you'll overlook that, too. We'll be moving important things for Uncle Sam.

We knew you would. And you'll be helping him, too.
