Big Scrap Bingo Party Is Saturday Night at Main Four Corners

Northville's scrap harvest got off to a flying start the first few days of the local drive with credits of nearly 50 tons of scrap weighed out at licensed dealers, as well as nearly 20 tons of scrap dumped into the big heap at the rear corner. With the continued cleaning and gathering still in progress, the Northville community will probably get the credit for saving approximately 100 tons of scrap material in the war effort. But every home and garage in the community needs to be combed for scrap. The task is a long and hard one, and every one is urged to do his or her share in the war effort and get the credit for it.

The School Board has recommended the purchase of the modern materials ship from the present location in the high school to the 1001 room in the basement of the school and forming the dormitory. Under this arrangement, the room will be used as a boat locker in case of any fire, and as an additional storage room, since it is a large room.

The plan is to have the boat locker wing be incorporated in the number of dormitory rooms in the new building. The plan is to have the plan for the new building be for 1001 rooms, 15 to 20 corridors and the wing.

Northville Servicemen - - American Heroes

Lester—the first ton of scrap donated to the community scrap pile—came from the Legion Hall—and a real contribution it was—where could the leadership in a full realization of the NEED be more appropriate than from the Legionnaires? A one-pounder, naval gun, a Vickers machine gun, bayonets, wire, hand grenades, cartridge cases, all metal mementoes of the first World War, went into the pile Friday evening. And these items mean much to the Legionnaires. Will you do as much? These implements of iron the boys hope will return to Europe again with interest.

Village Stores Employ Northville Graduates as Clerks and Stenographers

This year more than ever before, graduates of Northville high school are working in nearby industrial plants. The war conditions have created opportunities for graduates to earn a larger income and at the same time aid in the line of defense. During the summer, Prin. G. V. Harrison was employed at the Bomber plant, but resumed his job in N. H. S. this fall. Richard J. Spence, the former chemistry teacher here, continues his job as instructor at the Willow Run Bomber Plant.

The following graduates of N. H. S. in the class of '42 are now working at the Bomber plant: Jim LaRue, George Hunter, Richard Palmer, Tom Widmaier, Earl Sessions, Eugene Cole and Carter Church. Those working in Kelsey Hayes are: Raylus Jones and Nedma Groter. Raylus Jones works at the local Ford plant.

Former students of N. H. S. are also employed at defense plants. Those at the Bomber plant: Frank Bougie and George Snowdridge; Margie Parnmenter at Kelsey Hayes; Shirley Price at the Bell Telephone company in Northville. Betty Mercer and Norma Houghton are working at the D. J. Rea's company. Jack Peters and Bill Light are employed at the Ford Plant in Northville.

Going through the different stores and shops of Northville are: Donna Miller at Sun's Drug Store; Betty Butterworth and Doris Brown at the drug store; and Doris Brown at the drug store.

The class of '42 has been added to the class of '41. The class of '42 has been added to the class of '41. The class of '42 has been added to the class of '41.

A few of the boys went to the hospital stations. Don Bernard is at the Mable Stenographer Night Mix and Pamplin and Mike Gagne. While services are at the First Wing.

Probably the only person of the '42 class who is still near school is Maxine Coe, secretary to Prin. G. V. Harrison.

At the Seniors' Tube in South Lyon there is a group consisting of Myra Hubbard, Jeanette Clark, Ralph Ray and Leo Hollis. Ann Shoppard can well boast of this job which is the only one of its kind being held by any member of the past graduating class; he is a policeman.

Max Coe also has a job that is different. He takes care of horses at the Northville fairgrounds.

Working on farms at the present are Robert Crawford and Frank Danbara. Ruth Gagnon is employed at the T-Rose Egg Farm.

Carroll Carlson Hansen is working at Jewell's Cleaners in Plymouth, while her husband is in the United States Coast Guard.

Club President

E. V. Ellison is president of the Teachers' Club. Miss Theresa Mackey is vice-president, and Miss Ruth Knapp is secretary-treasurer. The first event planned by the club was a picnic Wednesday evening in the park, where members of the board of education and their wives were guests. Miss Selma Jarvis headed the committee on arrangements, assisted by the Miss Kathryn Gillmer, Pearl Hensch, Frances Rounson, Margaret Carpenter and Gertrude Witt.

Around the School

Miss Ruth Knapp, school nurse, will again visit home rooms to give worthwhile information on contagious diseases and how to avoid their spreading. Colds will be a major subject, because through careless habits students often give their colds to others.

This year a new Spanish class has been added to courses of Northville high school. High interest has been created by a class of 27 pupils aged 14-16. Several teachers during the first few days. Charles Vance conducted study from the blackboard as the pupils did not attend, but the boys came last Tuesday and today. All the pupils are now in the class and no longer be in the class.

The new Journalism class is a real success story. The 11 members of the class, led by Mr. Marshall, are all working on their projects. The class is a real success story.

The first class held its first meeting on the 19th. Wednesday, Sept. 16. The purpose of the class is to give the students a chance to learn the art of journalism.
