MAIL SOLDIERS' XMAS GIFTS BEFORE NOVEMBER 1

READ THE RULES—The following rules issued by the Postoffice Department in cooperation with the Army Postal Service of the War Department apply to the mailing of Christmas parcels for members of our Armed Forces serving outside the continental limits of the United States.

TIME OF MAILING—Christmas parcels and greeting cards should be mailed during the period beginning October 1 and ending November 1, 1942, the earlier the better. Each package should be endorsed "Christmas Parcel". Special effort will be made for delivery in time for Christmas.

SIZE AND WEIGHT—Christmas parcels shall not exceed 11 pounds in weight or 16 inches in length or 42 inches in length and girth combined. However, the public has been urged to cooperate by voluntarily restricting parcels to the size of an ordinary shoe box and the weight to six pounds.

USE CARE IN PREPARATION—Remembering the great distances these parcels will be transported and the necessary storage and frequent handling, it is absolutely necessary that articles be packed in substantial boxes or cartons and be covered with wrapping of sufficient strength to resist pressure of other mail. Each parcel is subject to inspection and delay may be minimized by securing covering to permit ready inspection of contents.

PROHIBITED MATTER—Inflammable materials, poisons or compositions likely to change in transit are prohibited. No perishable matter should be included in parcels.

HOW TO ADDRESS PARCELS—Addresses must be legible. Parcels addressed to overseas Army personnel should show in addition to the full name and address of the soldier, the name and rank of his commanding officer and the address of the post office where the parcels are addressed.

POSTAGE MUST BE FULLY PREPAID—The rate on parcels of fourth-class matter (exceeding eight ounces) being the same as for ordinary mail. The post office where mailed to the post office in the care of which parcels are addressed.

GREETING MESSAGES PERMISSIBLE—Messages such as "Merry Christmas", "Don't open until Christmas" and the like may be placed on the covering of the parcel if it does not interfere with the address. Cards may be enclosed and each may bear a simple dedicatory inscription.

INSURANCE AND REGISTRY—Gifts of value should be insured. Articles of small size and considerable value should be insured and sent as first-class registered mail.

MONEY ORDERS—The Army Postal Service recommends use of postal money orders to transmit gifts of money to members of Armed Forces outside the United States. These are cashed at A.P.O. in local foreign currency at rate of exchange on date of presentation.

county and the amendment, although it is a Wayne county issue, and be submitted to the voters of that county.

The county board of supervisors, in a resolution passed last week, has authorized the county clerk to prepare and distribute to the voters of the county a copy of the proposed amendment, and to the voters of the county a copy of the proposed amendment, and to the voters of the county a copy of the proposed amendment.

With all the talk of a new constitution, and the fact that we are now in the midst of a war, it is not surprising that the people of Michigan are interested in the proposed amendment to the constitution. The amendment is a simple one, and it is one that we all should be interested in.

The amendment is a simple one, and it is one that we all should be interested in. It is a simple one, and it is one that we all should be interested in. It is a simple one, and it is one that we all should be interested in.

Proposition No. 2 is a constitutional amendment to permit home rule in Wayne county, substituting a 19-member county commission for the present board of supervisors. The numbers of the amendment are 100. More about this later.

Proposition No. 3 is a referendum on the milk marketing act.

Last July this column quoted the views of Stanley M. Powell, executive of the Michigan Farm Bureau and a dairy farmer near Ionia, on proposed reform in government.

At that time we offered a interpretation the following observation: "Home rule for Michigan's most metropolitan county and a state constitutional convention are two separate, distinct issues. Yet they will be inevitably linked together in the public mind because each seeks to accomplish the same thing: Reform of local government. The Wayne county amendment to the state constitution would effect governmental reforms for Wayne county, with the permission of the rest of the state. The constitutional convention would tackle the same need on a state basis."

This week, in a spirit of fair play, we present the viewpoint of the Citizens Committee on Home Rule for Wayne county as given to us by Clarence E. Wilcox, chairman. His statement follows:

"In one of your recent reviews of state affairs, you commented on the various questions to be submitted to the people in the November election including Proposition No. 2—the Wayne county Home Rule Amendment."

"You expressed the thought that voters in the rural sections look with suspicion upon any measure emanating from Detroit or Wayne county."

"As chairman of the State Committee for Proposition No. 2, I am, of course, deeply concerned over the attitude of voters outside Wayne

schools and state institutions of higher learning, have the same ideals, the same outlook as do those of the big cities. They act alike, and think alike, and have similar aims.

"Place them in a situation where they must choose between good and bad, or right and wrong, and you will find them on the side of that which is good and right."

"If they feel they desire to help a neighbor in distress, and we people of Wayne believe we ARE in distress, under present conditions of county government, their interest will be to reach out a helping hand, as they would expect to be helped themselves by us under similar circumstances."

"We have enough confidence in our neighbors of other counties to believe implicitly that they will consider Proposition No. 2 on its merits as a measure designed to bring about better government, and that in so doing they will join with the vast majority of the people of Wayne in voting 'Yes' on Proposition No. 2 in the November election."

Mrs. E. D. Perry of Oxford, spent the week-end with her daughter, Mrs. B. F. Grissom of Randolph street. Mrs. Perry, a niece of the late Frank Neil, brought along a picture of the interior of the Record office in the days of old times, and a photo of the late Neil. The picture is in the window. Perhaps you might identify the three people in the photograph.

TELL'EM-SELL'EM THROUGH THESE AD COLUMNS

YES, WE HAVE AND PLENTY OF IT!

But owing to labor shortages we are having to hold up local deliveries to unload cars as they are now arriving. But we have plenty of coal, and are getting more coal daily, and we will deliver it to your bin as rapidly as possible under the strict government regulations imposed upon us to conserve tires and trucks.

Your Coal Dealer Has Regulations, Too.

There are certain regulations which we must conform to that often bring criticism from our patrons. But Uncle Sam's rules and regulations stand, and neither you nor I can change them. Orders for half ton deliveries, or orders for delivery same day, can no longer be accepted. Because your government reduced all truck mileage to 25% this makes it necessary for your coal dealer to route his deliveries every day so that every truck will leave the yard with a full capacity load.

Due To Shortage of Labor

We Cannot Deliver Less Than Half Ton

No Carry Orders Will be Accepted

We Must Halt Deliveries to Unload Cars; Uncle Sam Says So. But you will get your Coal in Due Time

FOLLOW THE CROWDS

Good-by, now—
I'll tell you all about it when I see you!

BE BRIEF—

AND HELP SPEED WAR CALLS!

It's a fact that by keeping your own telephone conversations short you can help the war effort. Central office equipment can handle only so many calls at a time. Some of them may be important war messages, and war calls must go through. By cutting down the length of your calls you help free the equipment for handling war calls speedily and efficiently.

Because the telephone is vital to all war activity, many local offices and long distance lines are crowded with calls. In normal times we would install enough new equipment to handle the added load. But we can't, now, because of material shortages. So it boils down to this: Every one of us has a duty to help keep the lines clear for war.

HOW YOU CAN HELP

1. Keep all your telephone calls as brief as you can.
2. Make only the most essential Long Distance calls.
3. On a Long Distance call, give the number of the telephone you are calling, if possible.

And please don't call Information for a number when it's listed in the directory. Help save the wires for war!

MOTHERS OF MICHIGAN
What have you to gain by our work?

WHAT does it mean to you, mothers—yes, and fathers and wives and sons—that your Consumers Power Company is working night and day in war production?

War reaches into the home and calls your men to the armed forces to protect the homeland. War calls men and women to drop the occupations of peace and stand to duty in mill, farm or factory, and directly or indirectly, drive toward our one greatest need today: WAR PRODUCTION. So does war change everything in life—until Victory wipes out aggression and treachery, and restores the security

of home and family. THAT'S what there is for you to gain.

What does our work mean to you in this critical hour? Right here and now, our workers, your fellow citizens, are enlisted in the nation's cause.

Industries here, and the jobs of their workers, look to and depend on us for gas to turn out the war materials that, in the hands of your men and the nation's men, help arm them for your defense.

There's but one job today, and that is it. We must put nothing in the way. We must not fail them!

Under used shotgun shells and turn in just the metal tube. Sportsmen's clubs, it was said, could permit a valuable service by salvaging and turning in some cases be exchanged for quantities of brass new in the area of the range and the shooting grounds.

When we are approached a sportsman we are told that he has no more shells and is in a hurry to turn them in. It is requested that hunters who have shells to turn in, please do so as soon as possible. The shells are being turned in for the purpose of being used in the range and the shooting grounds.

Hunters are asked to turn in their shells as soon as possible. The shells are being turned in for the purpose of being used in the range and the shooting grounds.

First Aid Class on Monday Evening

Each Monday evening at 7:30, for the next four weeks, Dr. E. H. Sahly will teach the standard first aid class. Any air raid warden who has not yet had the required first aid training, is invited to attend this class, which is open to anyone interested, of course. It meets for two hours each Monday evening. This coming Monday, Oct. 19, will be the second meeting, but anyone unable to attend last week, can still enroll. After the second meeting, the polls close.

The advanced first aid class, taught by Mr. Walter E. Miller, held its first meeting last Thursday, in the high school. This course is open to anyone who has passed the standard first aid course. While partly a "refresher" course, it also goes into the actual practice of first aid and presents much new material.

There still is time to enroll in this class, also, but next Thursday, Oct. 22, at 7:30 p.m. is the last chance.
