King's Daughters Plan Baskets for the Needy

Charity Work of Local Unit is Aided by Proportion of Funds from Goodfellows Sale.

Remember Shutins

No home in the Village will be without a Christmas basket this year, thanks to the efforts of the King's Daughters. They have been planning in their determination to seek out homes where perhaps there is no provision for the holiday season, and to make Christmas the happy time it should be in every home.

The members of the group take time off from their own Christmas preparations to go to the homes and pack the baskets and see to their distribution.

The King's Daughters are still on the lookout for needy families in an effort to have everyone taken care of.

Shutins should be reported at once if there is any need. There are many funds and many workers to help out of any year this year, thanks to the generous donations of the Goodfellows newspaper sale on Dec. 23.

In addition to these gifts of food baskets and toys this group also helps the shutins with baskets of food and Christmas messages of greeting.

The shutin list for 1943 was compiled by the King's Daughters and is being distributed by the Kings Daughters.

The King's Daughters are going to the homes and packing the baskets and see to their distribution.

A Merry American

CHRISTMAS

THIS Christmas of 1942 calls for that last full measure of devotion in the heart of every Northville American. Devotion to the principles, born of the first Christmas, that war can never destroy. Devotion to family, friends, and all those rich warm traditions surrounding the government of the people, by the people, and for the people.

Your own prayers will be in character with this deeper Christmas spirit as you share and help others. You of Northville have shopped early, mailed early, saved gas and tires, cut on your fuel bill, accepted your cut in food ration, remembered the boys in the service in a thousand ways, bought war bonds and salvaged scrap. You have cheerfully accepted every request made upon you by your Uncle Sam. Your Northville merchants join with your Record in offering to you congratulations and wishing you every holiday happiness.

Keeping In Step With Our Times

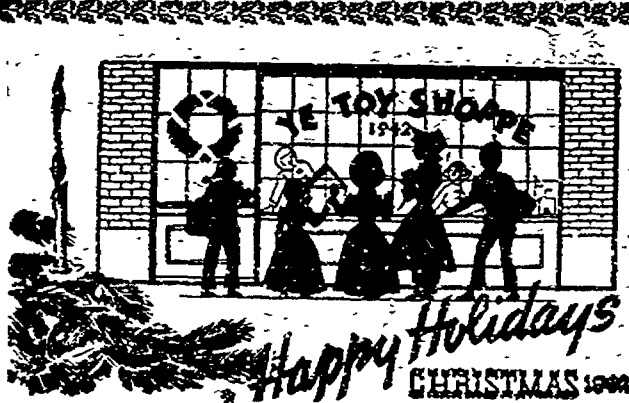

Essential Dates and Information Affecting the Welfare of the "Vanishing Civilian"

Week by week war is trimming off all luxuries—pleasure driving, that extra cup of coffee, and a warm evening in an oil heated home, all are or will soon be fond memories.

WPA Chairman Nelson, Dec. 9, announced that war production factories would be expected to observe normal working schedules on New Year's Day.

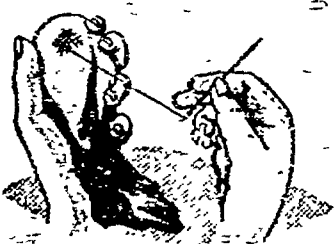

Approximately one-half of the estimated 1943 pack of popular canned fruits, vegetables and juices will be reserved to assure the armed forces, Lend-Lease and other specified Government agencies an adequate supply of canned goods in 1943-44.

OWI December 9 released a chart based on National War Labor Board figures showing that many of the strikes in 1942 were in the past 5 years.

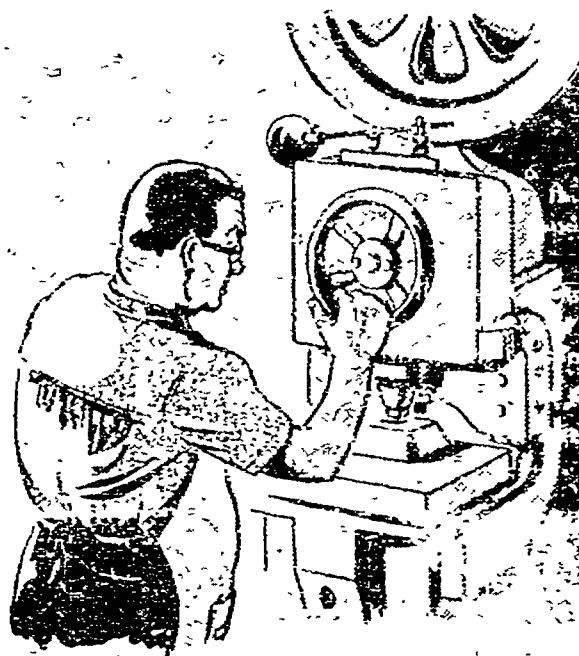

GOOD WILL, music, happiness, health
—a foursome without a peer—our wish for you and yours as Christmas comes in this fateful year of 1942. Your kindness has meant a great deal to us, and we thank you most cordially.

What has darning socks to do with

Bigger production ON A PUNCH PRESS?

Ask any woman what kind of sewing is most trying on the eyes. She will probably tell you fine stitching or mending, or even darning socks—because it means using black thread on a black background (or matching colors of thread and material). There is NO CONTRAST to help make seeing easy.

The same thing is true on a punch press, a lathe, or almost any kind of factory machine. Such machinery is usually painted dull green, deep gray or black; and against drab factory walls and floors and ceilings, it blends into a dark mass that makes seeing very difficult. Worse still, the color of the work piece is often the same as the machine—increasing the accident hazard and causing fingers to slow down or fumble.

It isn't practical to darn black socks with white thread. But something CAN be done about improving seeing conditions in factories, through the use of "two-toned" machines, and lighter walls and floors and ceilings. A paint brush and a few minutes' time can transform lathes, presses, drills... clearly marking the "danger area"—the point of work—and furnishing sharp contrast between the machine proper and the piece being handled. Combined with good lighting, this speeds up production on nearly every kind of job. Workers can SEE better, and are able to perform their tasks more efficiently. Errors are cut to a minimum. Flaws are quickly and readily spotted. And accident hazards are greatly reduced.

For helpful advice on the use of LIGHT and COLOR CONTRAST in your plant, make use of Detroit Edison Lighting Advisors. Their services are available without charge. Call RA 2100, Lighting Division, The Detroit Edison Company.

Congressional Comment

Beginning January 1, 1943, all persons having an income exceeding \$12 a week, \$50 a month, or \$600 a year, will be subject to a new victory tax. The victory tax is levied in addition to the regular income tax and will, in most instances, be deducted at the source or out of wages.

In order to simplify the deduction of the victory tax by employers, who are required to make quarterly returns to the U. S. Treasury, the Revenue Act of 1942 (Subchapter D) provides a schedule of weekly, bi-weekly, monthly and semi-monthly deduction brackets. For instance, if a worker's weekly wage is over \$12 but not over \$18 a tax of 10 cents will be deducted. The weekly schedule is in 54 brackets and the amount of the weekly deduction increases 50 cents for each bracket.

If a worker's monthly wage is over \$52 but not over \$60, a tax of 20 cents will be deducted. The monthly schedule is in 50 brackets and the amount of the monthly deduction increases \$1 for each bracket. From \$100 the schedule is in 50 brackets and the amount of the monthly deduction increases \$2 for each bracket.

The status of the individual will be disregarded in determining the victory tax deduction. The schedule of deductions set up in Subchapter D of the Revenue Act applies alike to heads of families and single persons.

Tax Credits

Three types of credits are allowed against the victory tax, as follows:

1. The amount paid by the taxpayer during the taxable year as premiums on life insurance, in force on September 1, 1942, upon his life, or upon the life of his wife or upon the life of any dependent.
2. The amount by which the taxpayer reduces his outstanding indebtedness during the taxable year.
3. The amount the taxpayer invests in obligations of the United States during the taxable year.

The total amount of such credits for the taxable year can not exceed the amount of post-war credit or refund allowable to the taxpayer under the provisions of the Revenue Act.

As soon as practicable after cessation of hostilities in the present war, the following portions of the victory tax paid for each taxable year may be credited against any income tax then due from the taxpayer and the balance refunded immediately to the taxpayer.

1. In the case of a single person, 40% of the tax or \$500, whichever is the less.
2. In the case of the head of a family, 40% of the tax or \$1,000, whichever is the less.
3. For each dependent, an additional 10% of the tax or \$100, whichever is the less.

Every individual having a gross income in excess of \$600 for the taxable year will be required to make a return showing forth the amount of his gross income and the deductions and credits allowed under Subchapter D of the Revenue Act.

The Revenue Act of 1942 contains a clause which provides that the victory tax shall not apply to any taxable year which commences after the date of cessation of hostilities in the present war with Germany, Japan, and Italy. The date of cessation of hostilities will be fixed by presidential proclamation or by joint resolution of both Houses of Congress.

VICTORY'S SONS

Another hero of the Philippine war is Captain Arthur W. Weimuth.

His fellow officers of the 57th Infantry Regiment dubbed him the "One Man Army."

During the bitter fighting of the Bataan he showed just how fighting mad he was.

Day in, day out he chafed up more and more enemy casualties because of his uncanny ability to hit the target outlined in the sights of his gun.

A check-up showed that within the fighting time of the Bataan campaign he had killed at least 116 Japanese with his Tommy gun and Garand rifle.

For his gallantry he was awarded the prized Silver Star, the Purple Heart with two clasps and the Distinguished Service Cross.

Although Captain Weimuth has not been heard from since the Battle of Bataan, his deeds provide an ever-living chapter in America's history.

M.S.C. Pledges Farm Information

Nearly a century of service to gear itself through its agricultural Michigan agriculture becomes a wartime fountain of information. Some of the special efforts to get for farmers of the state faced with useful information to farmers have unprecedented demands for food being outlined by E. L. Anthony, in 1943 as Michigan State College dean of agriculture.

"Every county in the state has ready access to aid that the college's representatives can offer," the dean promises. "Through the extension service, farmers locally can contact their county agricultural agents or families can get information and other aid from county club agents and home demonstration agents."

Some of the specific steps the college staff is taking include a county-by-county schedule of local meetings which will bring into every county in the state teams of qualified specialists who will offer time and labor-saving tips, shortcuts to better quality and greater volume of feeds and foods.

State and county fair boards will also be active in this effort as they contact each of the state's 185,000 farmers to acquaint individuals with state and county production goals and gain an indication of how Michigan agriculture can meet the war crisis.

On the college schedule will be the 26th annual Farmers' Week, streamlined to three days, Feb. 2, 3, 4. Earlier, the statewide extension service staff will gather at East Lansing Jan. 6, 7, 8 to map out the widespread distribution of information on crops, soils, poultry, dairying, animal husbandry, 4-H club work, agricultural engineering, insect control, forestry, horticulture, conservation, home economics, farm management and animal pathology.

Penny Milk Fund Progressing Nicely

The Penny Milk project to provide children of the grade school a bottle of milk a day at the cost of one cent to the children, the rest of the expense to be borne in part by the Mothers Club and in part by the Mothers Club and their collections of pennies from the milk bottles placed on counters in the school building. Practically every child in the grade school is taking advantage of this opportunity to get an extra bit of vitamin A.

An outdoor cupboard of easy access from the inside of the grade school building is being completed. This will protect the milk from the time it is delivered to the time it is distributed to the children. The bottles when emptied are returned to this cupboard and thus kept as sanitary as possible for reuse.

At present it is possible for each child to have only one bottle per day, but it is hoped that later arrangements will be made to allow each child as much milk as he wishes.

During the first month of distribution Nov. 11 to Dec. 11 6353 bottles of milk were given out.

Keeping In Step With Our Times

(Continued from front page)

heating be curtailed as much as possible; that all churches, public buildings refrain from all unnecessary activities; that farmers burn as much wood as possible; that lighting plants cut their hours of service. The war pinch is beginning to be felt. There is an acute metal shortage and many coal dealers are unable to supply their customers with coal.

Senators investigating gasoline and fuel oil rationing reported that the oil program was bogged down in a formula of complex calculations by experts who disdain a simple percentage cut procedure.

Price Administration formula fixers, the special defense committee reported went back 45 years in their exploration of temperature statistics and came up with a 14 percent increase in fuel oil rationing. Even that old weather standard, humidity.

Instead of assuming the average householder had not deliberately wasted money in previous years by purchasing fuel oil he did not need and cutting his allotment on a percentage system based on the need for articles or new points by having more plentiful ones. Incidentally the first date for obtaining Ration Book No. 1 has been postponed to Jan. 15.

The 1942 ration book movement on the Great Lakes has exceeded the WPA's goal of 91,000,000 tons by 117,000,000 tons. The last one carrier has cleared the Upper Lakes with the cargo which will bring the season's total to 92,000,000 tons. This is a 14 percent increase above the previous record high of 80,160,000 tons, established last year.

Sugar Stamp No. 10 will be good for three pounds of sugar until Jan. 31. Production of film for camera enthusiasts, both snap shot fans and movie picture amateurs, has been cut 50 percent below the 1941 output. Members of "Share the Ride" groups will not be subject to insurance liability for carrying passengers. Consumers of sugar and coffee, who eat 14 or more meals a week at the same boarding house or restaurant must give up their ration Book No. 1 to the proprietors but they will get them back temporarily to secure Ration Book No. 2.

The Office of Defense Transportation wants everybody to abandon meetings and conventions that will not contribute to the winning of the war.

Because "the adventures of games as usual are unfortunately outweighed by the needs of war," ODT Director Eastman ordered Dec. 1 that use of school buses for sports will not be authorized.

The government is ready to extend the coal mining hours to a 12 day week and assures ample supply for all, including those who are converting.

In anticipation of a much wider extension of rationing next year, it has been found desirable to change the method of issuing ration coupons to a more flexible one, adapted to a wide range of foods and other products.

War Ration Book No. 2 to be issued around the first of the year, will be used to secure goods under a new system known as the "point system." This is a program for rationing a group of related or similar commodities that can be substituted for one another in actual use. Under this system a low point value will be given to a plentiful commodity and a high value to one that is scarce. Each individual may "spend" his points to buy any of the items in the point-rationed group in any way he likes, but when he has "spent" or consumed the points represented by his points for the month, he cannot buy any of these items until the next ration period begins.

Selective Service registrants will be required to carry classification cards as well as registration cards with them at all times, beginning January.

Agriculture Secretary Wickard announced 1942 food-for-freedom goals, the highest production in the history of American agriculture. The goals will shape next year's farm production to the needs of the United Nations and are aimed at maintaining or exceeding the record.

At this time, when common tasks begin to glimmer with new glory, we pause to wish you all the Christmas joys this joyous season can bring.

level attained this year. The 1943 corn acreage allotment for the commercial corn area will be 43,122,000 acres, as compared to 41,338,000 acres in 1942, in order to insure feed for 1944 and beyond.

Donald Nelson says that Christmas shall be a full holiday in defense plants, and that on the anniversary of the birth of the Prince of Peace we should rest from the production of the weapons of war. After Christmas, drive ahead with renewed energy, and whip the big production job of 1943.

Beekeepers who have exhausted their 1942 sugar stock may draw on their 1943 and 1944 ration to the extent of 15 pounds per colony.

"Save a shovelful of coal a day" is the slogan that is to rule and to be urged in every American household this winter.

Fuel cuts may mean closing of schools for a month or more this winter and chilly evenings in movie theatres and bowling alleys are in store for the eastern United States as the result of the African offensive.

Collection of worn or discarded silk and rayon hosiery through all retail stores having women's and misses hosiery department, is scheduled to start Nov. 16. Please wash them before turning them in.

Conversion to coal or some other alternate fuel, it still warns, "is the best way for home owners to be certain of adequate warmth this winter."

Here's a good hunch on gasoline rationing: By properly endorsing your ration coupons at once, you will avoid the inconvenience of having to do so when you buy gasoline at the service station. Also, this advance measure will help protect your ration book from possible misuse in the case of loss or theft. The Office of Price Administration points out that it is not necessary for ration holders to wait until they buy gasoline before endorsing coupons. So write your name on the back of your coupons immediately.

Christmas Greetings

Rising above the turmoil and cares of the world is the majestic story of Bethlehem. May the star that shone then still cast its light for you and all of us, revealing new pathways to happiness and achievement. Christmas Season

(Continued from front page)

Celebrating the Christ child in the manger will be displayed beside the church as usual this season. There will also be two masses celebrated Christmas day, for mass at 8:30 in the morning and the high mass at 10:30.

St. Paul's Lutheran church will have their Sunday school entertainment Christmas Eve at 7:30 when Santa Claus will make his appearance there. There will be special Christmas services, Christmas morning at 10 a.m.

The Methodist congregation young and old, enjoyed a Christmas party Tuesday evening, Dec. 22, with a dramatic program featuring a play presented by the

adult class of this Sunday School. There were also pageants in which the younger groups took part. Santa Claus made his visit at the church house with candy for all. Next Sunday the church members will gather together at 7:30 in the evening for a New Year Candle Light service.

The members of the Baptist church are marking the season with special program in the individual Sunday School groups. Their Christmas services were held Sunday morning to their recent loss of their beloved leader, Rev. W. A. Chapman, there will be no Christmas service.

In the grade school the advent of Christmas was heralded by groups of carolers and parties in every room. The members of the French club of this high school gave a French party at the school house. Each home room in the high school had its own party too at various times during the week so that all the high school students were so near to their Christmas before separating for the holiday vacation.

The various groups of carolers will have their own special programs in the home of any ill or infirm who express their wish for this special comfort.

The year more than ever, the Christian significance of the village is manifest in our village.
