BUDGET
ONE-AND-A-HALF CENTS
of the average family budget dollar
OF ALL THE ITEMS in the family budget, probably none gives so much for so little as the money you spend for electricity. Only a CENT-AND-A-HALF of the average budget dollar goes to pay your electric bill... yet look at the things electricity does:
It lights your house, washes and irons clothes, cooks meals, vacuum-cleans rugs, washes dishes, makes toast and coffee, grills sandwiches, bakes waffles, keeps accurate time, runs a food mixer, operates the radio. Here is how the cost of electricity compares with other items in the average family budget:
AVERAGE FAMILY DOLLAR
Food 35.2c
Rent 17.5c
Clothing 10.9c
Personal Care, Recreation, Household Expenses 10.8c
Gifts, Contributions, Miscellaneous 6.3c
Transportation 6.1c
Household Furnishings 4.4c
Fuel, Ice 3.8c
Medical Care 3.5c
Electricity (at Detroit Edison residence rates) 1.5c
TOTAL \$1.00
Small as it is, the 1 1/2 cents for electricity does a BIG job, especially at a time when nearly all other living costs are rising. Electricity is one item that has NOT gone up. The average unit cost of residential electricity is at an all-time low. The Detroit Edison Company.

Training Offered To Scout Workers

Preparing for an intensive, wartime program and rejuvenation of Northville's Boy Scout organization the Northville council is cooperating in a series of seven weekly training meetings to start later this month. You are invited to assist in this work by calling either Russell Clark or Nelson Schrader.

This series constitutes a course in instruction prescribed by the National Council of Boy Scouts of America and will teach you things about your own boy that you never thought existed. It will show you what Scouting is, and exactly how you can fit in. You are cordially invited to attend these meetings at 7 o'clock.

The machinery represented in this program can do more for our boys than any other one agency and is already well established in this area. It works because it is built on the solid foundation of experience; it has the momentum developed during 30 years of successful operation. It is the one program that reaches right into the home, the Boy Scout Program, and in it lies the opportunity.

The Boy Scouts are the one organization that provides the highly diversified program necessary to cure and hook the interest of every type of individual. In each area, it is exactly the kind of thing in which he is most interested. In the near past one thousand nine hundred and forty-three, the Scout program, the nine-year old is tested and prepared for three years for that part of Scouting which starts when he is twelve and continues to influence living habits for the rest of his life.

Scouting offers you the perfect contact with the youth of Northville. The ideal chance through which you can give them the break they are asking for. Scouting needs more man-power, not because it is bogging down, but because it must attract a member of the all-time because there is an active group of men behind it, but the organization must be bigger and therefore there must be many more active members. Your help, and any sympathy, is most needed. There is a job in Scouting for you. It doesn't mean that you leave your own work, but that you give your spare time to a worthwhile organization. The successful organization of Boy Scouts requires imagination, and if you qualify, you are invited to the training program. This is not a cry for help or the last gasp of a dying idea. It is an appeal of thinking men to get on the bandwagon of a going, two-troop organization that interests business. Will you enlist and help?
