

FORWARD into FORTY-THREE

With Our Men in the Service.

NOTE—This column is dedicated to news of men and women from Novi and Northville community who are in the service.

South Dakota
Well, it's been nearly five months now since I left home to come into the Army. I've received the Record all of this time except for the first two or three weeks when I wasn't yet settled. You can't quite realize just how much I look forward to receiving it each week and reading about home. I never really appreciated the old town until I had to leave it. The paper has followed me from Fort Custer down to St. Petersburg and Clearwater, Fla., and now up here in South Dakota.

My wife arrived here the 19th of this month. I feel on top of the world now. Both of us look forward to the arrival of the paper each week.

Some people might think it silly to be sentimental about home and news from home but nobody knows better than I just how much your paper is appreciated by us fellows in the service.

I wrote to tell you that I came to know Harvey intimately during the campaign and saw, in action those qualities which stamped him as officer material in our garrison days in Australia when he was rapidly made a sergeant.

(By this writing I believe he is a staff sergeant or close to it). His endurance and courage under the most adverse conditions was like the short of phenomenal; he was a quiet unassuming leader. When he became ill, I practically had to court martial him to finally get him to agree to be evacuated to the hospital. He was a real soldier and the medical detachment was proud of his work. I personally did my darndest to get him a commission; he refused a chance at an infantry commission and the chance in the Medical Administration Corps is relatively nil.

Word comes from Albion that Phil Baldwin, formerly of Northville, was home on leave before reporting to Nashville, Tenn., for assignment to a flight training center.

Harry Lee Ray is convalescing at the base hospital at Camp Meade, D.C., after having injured his hand.

Bob Parmenter of E. Bass Line was home just overnight on a very short leave last week. He returned to Hancock, Upper Peninsula for transfer to duty elsewhere. He is in the coast guard.

Ralph L. Hay, Jr., recently inducted into the Army is training at Fort Warren, Wyo.

(Continued on back page)

I am sending my thanks to you and your staff. Receiving a paper from a home town takes the burden off the hard army life. I am very grateful for the paper and am sure the rest of the boys in the service who receive your paper are too. I don't know how to repay you.

Yours very truly,
Pvt Carlton Hardesty

Essential Dates and Information Affecting the Welfare of the "Vanishing Civilian"

This is a regular weekly feature designed to aid you in your current purchases of items rationed by the government. This newspaper believes this service will enable individuals to cooperate more fully in winning the war on the home front.

SHOES—Stamp 17 in War Ration Book One is good for one pair of shoes until June 15. Stamps may be interchanged among members of one family. Stamp No. 18 (1 pair) will become valid June 16.

FUEL OIL—Stamp No. 5 good until Sept. 30, 1943. Auxiliary applications for fuel oil must be made on preprinted form and sent to the Rationing Board for your area. Applications for 1943-44 fuel oil rations will be mailed to present users in approximately the same amounts as was granted to the original ration last fall. Owners need not prove non-contractibility for household heating rations.

COFFEE—Stamp No. 24 (1 lb.) becomes valid May 31 and is good through June.

SUGAR—Coupon No. 23 becomes valid June 1, and will be good for 5 lbs. through August 15. Coupons No. 15 and 16 are good for 5 lbs. each for home canning purposes. Housewives may apply to their local boards for additional rations, if necessary.

Coupon for sugar for home canning available at local ration board on and after May 15.

MEATS, FATS, FISH, CHEESE, ETC.—Red stamp J and K good through June 30. It becomes valid June 6.

Here is how meat and fats rationing is different from canned goods. Your butcher can give you "change" in one-point ration stamps when you find it impossible to give the exact amount of stamps.

Prices of stamps are adjusted from time to time, depending upon demand and supply, as illustrated in the reduction in values of prunes and raisins. Prunes and raisins were dropped from 8 to 12 points; dry beans, peas and lentils were reduced from 8 to 4 points per pound.

PROCESSED FOODS—Blue stamps. G. H. J. remain valid through June 7. K. T. M. will continue good through July 7.

GASOLINE—No. 6 Coupon valid May 22 to July 25.

"B" Book—Tickets good until date on ration card. Tires must be inspected every 4 months. "C" Book Tickets good until date on ration card. Tires must be inspected every 3 months.

"T" Book—Truck tires must be checked every 2 months or every 5,000 miles, whichever comes first.

GAS RENEWALS—Renewal requests for "B" or "C" gasoline coupons may be made by mail. Blanks may be obtained at the Record office. Fill in the application (making it consistent with your original application) tie your tire inspection sheet to the application and mail to Rationing Board, Plymouth, Michigan. New coupons will be mailed to you. You need not surrender your present "B" or "C" book until requested to do so by the Board issuing the new book to you.

BOARD HOURS—The Plymouth Rationing Board No. 33-82-19 is open six days a week from 8 a.m. to 5 p.m. except Wednesday afternoon when the office is closed to the public in order to keep up on clerical work. Thursday night office is open until 8:30 p.m. People in Oakland County may contact the board at branch offices in South Lyon, Farmington and Walled Lake or at the main office in Pontiac.

Women Must Work
By December, 1943, one-third of the female population of working age—17.4 million women—will be required for the civilian labor force and the armed forces. Lower Potato Prices? Per Cent. Consumer ceiling prices on

For Over 70 Years—Friend, Companion and Kindly Counselor The Northville Record

Volume 72, Number 51

Northville Michigan, Friday, June 4, 1943

\$2.00 PER YEAR IN ADVANCE

Proclamation

To the Citizens of Northville, Greetings:

WHEREAS, June 8 to 14 is designated as Flag Week by the United States Flag Association which sponsors throughout the Nation this week commemorating the 34th birthday of our Flag, and

WHEREAS, the observance this year is dedicated to the War Savings Program of the United States Treasury Department with the slogan "Save By Sacrifice" and the object of selling 160 million dollars worth of War Bonds over and beyond normal purchases for the war.

Now, Therefore, As Mayor of Northville, I proclaim the week of June 8 to 14 Flag Week; direct that our Flag be displayed on all municipal buildings; and urge that our citizens display the National Emblem at their homes, places of business and elsewhere.

Furthermore, I urge our people to participate in the Flag Week War Bond Campaign so that our City will discharge with honor and distinction its share of responsibility in this campaign of homage to our Flag and aid to the victory for which our brave sons on the battlefronts of the world are offering all that they possess.

In Witness Whereof I have hereunto set my hand and caused the seal of the City of Northville to be affixed this 31st day of May in the year of Our Lord Nineteen Hundred and Forty-three.

Elmer E. Perrin,
Mayor of the City of Northville.

Flower-Garden Show Will Be Held June 9

The fifth annual flower and vegetable show of the local branch of the Women's National Farm and Garden association will be open at 2 p.m. Wednesday, June 9 at the Library. The exhibit this year will include flowers, vegetables and miscellaneous hobby collections.

All exhibits must be at the Library by noon of that day and amateur gardeners are urged to send in exhibits. The exhibit arrangements are in charge of Mrs. Joseph Hoehl, chairman. Mrs. Herbert Martin, Mrs. Roy Matheson and Mrs. B. E. Warner miscellaneous hobby collections. For detailed information, phone Mrs. Hoehl, 110.

Plan For Alumni Reunion June 18

The annual alumni reunion of the Northville High School will be held at Cass Benton Park Friday evening, June 18 at 6:30 p.m. The event will be in the nature of a basket picnic with everyone bringing their own supper.

An interesting program is being prepared by Jack Blackburn, president of the organization. Everyone is invited to attend.

Dog Licenses and Tags Ready Monday

Dog licenses and license tags will be ready for distribution on Monday, June 7, at the office of the village clerk, Mrs. Alexander at the Village Hall.

In order to obtain a license, dog owners must first have a certificate of vaccination in accordance with Village ordinance No. 116.

The cost of license and license tag is \$1.00 for males and \$2.00 for females.

Prunes and raisins were dropped from 8 to 12 points; dry beans, peas and lentils were reduced from 8 to 4 points per pound.

PROCESSED FOODS—Blue stamps. G. H. J. remain valid through June 7. K. T. M. will continue good through July 7.

GASOLINE—No. 6 Coupon valid May 22 to July 25.

"B" Book—Tickets good until date on ration card. Tires must be inspected every 4 months.

"C" Book—Tickets good until date on ration card. Tires must be inspected every 3 months.

"T" Book—Truck tires must be checked every 2 months or every 5,000 miles, whichever comes first.

GAS RENEWALS—Renewal requests for "B" or "C" gasoline coupons may be made by mail. Blanks may be obtained at the Record office. Fill in the application (making it consistent with your original application) tie your tire inspection sheet to the application and mail to Rationing Board, Plymouth, Michigan. New coupons will be mailed to you. You need not surrender your present "B" or "C" book until requested to do so by the Board issuing the new book to you.

BOARD HOURS—The Plymouth Rationing Board No. 33-82-19 is open six days a week from 8 a.m. to 5 p.m. except Wednesday afternoon when the office is closed to the public in order to keep up on clerical work. Thursday night office is open until 8:30 p.m. People in Oakland County may contact the board at branch offices in South Lyon, Farmington and Walled Lake or at the main office in Pontiac.

Women Must Work
By December, 1943, one-third of the female population of working age—17.4 million women—will be required for the civilian labor force and the armed forces. Lower Potato Prices? Per Cent. Consumer ceiling prices on

Village Zoning Ordinance is Defeated at Poll

362 Ballots Are Cast in Village Election, the Proposal Being Defeated By Majority of 52 Votes

Precinct Vote

Tuesday, June 1, 362 qualified voters went to the polls to register their approval or disapproval of the zoning ordinance as previously passed by the Village Commission. The ballots gave 155 "Yes" to 207 "No," defeating the ordinance by a majority of 52 votes.

The vote by precincts was as follows:

Precinct No. 1—Yes, 107; No, 114. Precinct No. 2—Yes, 10; No, 93.

Trophy Given to Bowling Champs

Power House Team Wins Championship in House League.

The 1943 bowling champions of the house league at Northville Center Recreation goes to the Power House team of Maybury Sanitorium. The trophy was presented to the winning team by Angelo Gadioli Thursday evening, May 27 at the final meeting of the season.

Members of the winning team are Captain Merle Clark, Charles Milne, Sam Geraci, Earl Fitzpatrick and Fred Curcio. Sam Geraci was heir to the Power House team and a group of about twenty friends at a buffet supper Wednesday evening in celebration of their victory.

Scouts Presented With New Charter

Tuesday evening the Northville troops of the Boy Scouts met at the school house about twenty-five members being present. Executive Earl Silver was present and presided over the chartering of the troops to the units. He complimented them on their work and accomplishments and suggested higher goals for next year.

Plans are in the making for an over-night hike to the cabin by the patrols.

New Point Values Effective June 6

The Office of Price Administration today announced the new point values effective June 6 for canned and bottled processed foods, soups, frozen and dried fruits and vegetables.

Only a few changes appeared in the new list as compared with the list which it superceded.

Changes indicate that an item has become scarcer if the value rises and more ample if it becomes less in point value. The minor changes this week reflect a stability in the availability of most of the processed items.

WHAT HAPPENS TO OUR MEAT SUPPLY

WITH LEGAL MARKETS

Meat must be stamped with slaughterer's plant number.

Slaughterers must set aside certain amounts for war use.

War and civilian needs are met.

CUT IN BLACK MARKETS

Supply for war needs is endangered.

Block market dealers avoid inspection.

Valuable meat by-products are wasted.

Honest people get less while cheaters pay fancy prices to get more than their share.

IT'S A BLACK MARKET IF...

You get meat w/ these points...you pay more.

...you get points w/ these points...you pay less.

...you get meat w/ these points...you pay more.

...you get points w/ these points...you pay less.

...you get meat w/ these points...you pay more.

...you get points w/ these points...you pay less.

...you get meat w/ these points...you pay more.

...you get points w/ these points...you pay less.

...you get meat w/ these points...you pay more.

...you get points w/ these points...you pay less.

...you get meat w/ these points...you pay more.

...you get points w/ these points...you pay less.

...you get meat w/ these points...you pay more.

...you get points w/ these points...you pay less.

...you get meat w/ these points...you pay more.

...you get points w/ these points...you pay less.

...you get meat w/ these points...you pay more.

...you get points w/ these points...you pay less.

...you get meat w/ these points...you pay more.

...you get points w/ these points...you pay less.

...you get meat w/ these points...you pay more.

...you get points w/ these points...you pay less.

...you get meat w/ these points...you pay more.

...you get points w/ these points...you pay less.

...you get meat w/ these points...you pay more.

Northville's Yesterdays

ONE YEAR AGO

Northville High School closed the baseball season as champions of the Southwestern Oakland County League, having lost only one game during the season and that on a default.

The report of the Poppy Day sales conducted by the Legion Auxiliary with Alon F. Peters and Mrs. Claude N. Ely as chairman showed a net profit of \$2400.00 for the rehabilitation program.

TWO YEARS AGO

The N. S. Dramatic Club gave a performance of "Here Comes the Prince." The cast included Marvin Schoultz, Peg Walker, Betty Findley, Sam E. Adams, Jane Boelens, Eber Lester, Arthur Mitchell and Doris Tews. Twenty-two members of the Methodist Church were guests at a potluck dinner at the home of Mrs. Frank Miner, Waller Lake, former of Northville.

Mr. P. T. A. gave a banquet for students with an average of 1500 for the school year. Mrs. Ward Lester was toastmaster for the evening. Responding

to the question, "What is the best thing about Northville?" the girls chosen because each rated highest in his respective class were senior Wilma Rattenbury; junior, Evelyn Kinney; sophomore, Mary Louise Boyden; freshman, Mabel Douglas; 8th grade, Marjorie Chase; 7th grade, Alice Lauer. Fifty-four students with B or better rating were present as honor guests.

RED CROSS CANTEEN PRACTICES OUTDOOR COOKING

Five of Northville's Red Cross Canteens participated in an emergency meal practice in outdoor cooking at Riverdale Park Wednesday afternoon. For Wednesday, Alice Haugen, Clyde Ely, Horace Boyden and Mrs. Alexander Laurence, who was the last lesson in a refresher course for completion of which they will receive national Red Cross certificates qualifying them for teenage work anywhere in the country. About 35 women from Plymouth, Livonia, Wayne, Romulus, Rosedale, Galdens and Northville participated.

Michigan business executives, who have recently visited Washington, have expressed privately their concern over present symptoms of runaway inflation. OPA's failure to hold price ceilings is just one factor. Another is the wobbly policy whereby the War Labor Board continues to pierce wage ceilings and whereby the 48-hour work week is being extended to more key industries.

Although the nation did over-subscribe the \$13 billion, second war loan by around \$3 billions, the fact still remains according to public statements made by William M. Robbins, chairman of the United States Treasury Department's war finance committee - that only 7 per cent of all bonds sold were "E" bonds. These bonds are popularly called "poor man's bonds" because of their low interest rates. The subsequent decline in bond prices has caused the banks, insurance companies, trust companies, manufacturing concerns and a number of units,

On the political front, the visit of Wendell L. Willkie to Michigan last Sunday over one million people joined the line up at Midway to militate for the 1944 election. A powerful segment of our way toward Midway is the slogan "Support Tom Dorey, New York's Own" for its message to the press. The nomination of Senator of State Dorey of Newark is probably the strongest, but the Willkie contingent at Michigan polls in 1940 is not forgotten among the fighters. The soaring popularity of his Gulliver's travels, "Our World," is boosting the Willkie cult. Frank McRae, national consultant, was present at the Willkie reception in Detroit.

The labor shortage in Michigan, due to become worse in 90 days if fathers under the age of 38 are called to military duty, may be somewhat by the current cut-back of production in key war plants. Michigan's industrial capacity is near to the top. As the government revives schedules later is being released.

More airplanes and fewer tanks order, this spring's schedules are due to increasing belief that the United Nations may seek to knock out Germany and Italy in 1943 by air attacks and limited invasions. Norway and Italy, for example - and leave the big continental attack to 1944. The grand invasion may possibly come earlier if Germany weakens internally under continued air assault.

Betting odds still favor President Roosevelt as the democratic presidential nominee in 1944. Churchill's masterful address in Washington increased this belief. The Lewis swing to AF of C is regarded as a "beat Roosevelt" move. Lewis favored Willkie in 1940.

Continued rainy weather, accompanied by cold temperature, hasn't improved the prospects of a good food crop in 1943. Michigan gardeners are urged to plant non-perishable vegetables which can be stored next winter and to overlook the traditional luxury items of lettuce, onion and radishes.

On the walls of Governor Kelly's executive office is a huge chart showing the state's various administrative offices, commissions and agencies. Reason: Kelly is surveying governmental units with the thought of consolidations and simplification.

Despite gasoline rationing, the vacation resorts in the lower peninsula - especially those served by railroads and buses - anticipate a good season this summer. Demand is heavy for cottages.

Lieutenant Governor Eugene C. Keyes, who spent several years of his boyhood on an Ontario farm, recently inspected a farm near Howell. His idea: A good farm is a good investment.

West Point Park News

By Mrs. Wm. Zwahlen

Mrs. Stanley Schilling of Pembroke ave., was hostess to the Sunshine Sisters on Wednesday afternoon. Seventeen ladies and several children were present, this being one organization which encourages mothers to bring the babies with them to the regular sessions. After the hymn singing, a devotional service was participated in and there was the usual contribution of "sunbeams" or happy thoughts brought in by the members. This is a most inspiring part of the program of the Sunshine Sisters' meetings.

There was a roll call of the boys in the service from the neighborhood, with a bit of news regarding each one when such was available. At the close a lunch was served. The next meeting will be held in the Neighborhood Church on Wednesday afternoon, June 9 at 2 p.m.

Mrs. George Welch, who was ill most of the winter, is able to get a little.

Mr. and Mrs. Joe Roberts and daughters, Clara and Audrey, visited relatives in Lansing over Sunday. Miss Clara Roberts will remain in Lansing for two weeks.

Jimmy Rice son of Mrs. Blanchette of Hubbard ave. has been home on furlough.

Wallace Buckingham of Norfolk ave. celebrated his seventh birthday Sunday afternoon.

Mrs. Margaret Martin celebrated her 75th birthday Saturday.

She was the recipient of a number of beautiful gifts and a great many cards.

Mr. and Mrs. Edwin Johnson of Hubbard ave. quietly celebrated their wedding anniversary on Saturday evening. A few guests spent the evening with them.

Week-night services are being held in the Neighborhood Church each Tuesday. Last week Rev. Cameron announced that these Tuesday night services will be a feature of the Neighborhood Church activities for the summer.

Mrs. W. J. Edington is enjoying a stay with friends in Northern Michigan.

Little Jimmy Muir of Shady-side ave. has been somewhat under the weather for several days.

The Young People's group of the Neighborhood Bible School will hold a business and social meeting in the Neighborhood Church on Wednesday evening, June 9 at 7:30 p.m.

Mrs. Stratton of Mayfield and Norfolk ave. has been unusually poor health lately. Her daughter, Mrs. Griffith of Detroit, has been with her for several days.

Mr. and Mrs. Clarence Broquet of Detroit spent Wednesday evening with their mother, Mrs. Frank Broquet of Norfolk ave.

Mrs. June Vance is now employed in Ypsilanti.

Miss Jane Tepper of Royal Oak, was the Sunday guest of Miss Shirley Zwahlen.

BUILDING CODE FOR THE VILLAGE OF NORTHLVILLE

An ordinance creating a Department of Buildings for the Village of Northville, Michigan, and regulating all matters concerning or pertaining to the construction, alteration, and maintenance of all buildings and structures, including signs, fences, walls, dikes, tents, towers, tanks, bins and similar objects in the Village and defining the duties of the Department of Buildings in relation thereto, and providing a penalty for the violation thereof.

It is hereby ordained by the people of the Village of Northville, Wayne County, Michigan:

The following provisions shall constitute and be known as the Building Code, and may be cited as such and presumptively proved for all matters concerning, affecting, or relating to the construction, equipment, alteration, repair, occupancy, and removal of buildings or other structures whatsoever erected or to be erected in the Village of Northville, Wayne County, Michigan.

SCOPE.
All new buildings erected in the Village of Northville shall conform to the requirements of this code unless otherwise specified, and all regulations in this code, unless otherwise specified, shall apply to new buildings. Additions to existing buildings shall comply with the requirements given herein for new buildings.

Existing buildings, damaged by fire, collapse, or act of God to the extent of more than seventy-five (75) percent of their value shall be rebuilt in conformity with the provisions of this code.

For the purpose of this code, the value of a building shall be deemed to be the assessable value as assessed for Village taxes.

ARTICLE I Enforcement

Section 1.01 Powers and Duties of the Department of Buildings.

There shall be, under the authority of the Village Commission, a Department of Buildings consisting of an Inspector of Buildings and such assistants as may be necessary for the proper enforcement of this ordinance. Nothing in this ordinance shall prohibit the combination of the duties of the Inspector of Buildings with those of some other Village officer, such as the Chief of the Fire Department, if in the opinion of the Village Commission, such a combination is for the good of the Village.

The Inspector shall be appointed by the Village Commission and may be removed by the Village Commission if, in its opinion, it is necessary for the food of the service.

His compensation shall be established annually by the Village Commission. It shall be his duty to enforce all the provisions of this ordinance and supervised the work of his assistants. He and his assistants shall have the power and authority to enter any premises for the purpose of inspection at any reasonable hour, when properly identified.

Such employees of the department as may be necessary shall be appointed by the Inspector of Buildings, with the consent of the Village Commission, and shall be paid such compensation as may be determined by the Village Commission. They may be removed at any time by the Inspector of Buildings with the consent of the Village Commission, if, in their opinion, such a step is for the good of the service.

They shall perform such duties as may be prescribed by the Inspector of Buildings and shall devote as much of their time to the work of the department as necessary to carry out his duties and shall not, during his time of office, be engaged in any private work pertaining to the erection of buildings or the handling of building materials or supplies within the Village of Northville.

In case the Inspector of Buildings is personally interested in the construction, the Village Commission shall designate some other person to examine the plans and inspect such building.

Such employees of the department as may be necessary shall be appointed by the Inspector of Buildings, with the consent of the Village Commission, and shall be paid such compensation as may be determined by the Village Commission. They may be removed at any time by the Inspector of Buildings with the consent of the Village Commission, if, in their opinion, such a step is for the good of the service.

They shall perform such duties as may be prescribed by the Inspector of Buildings and shall devote as much of their time to the work of the department as may be necessary to properly carry out their duties, and they shall not during their time of office be engaged in any private work pertaining to the erection of buildings or the sale or distribution of materials or supplies within the Village of Northville.

The powers and duties of the department shall be to supervise and control the construction, alteration, moving and repair of all buildings and other structures governed by this ordinance and to make and enforce the necessary orders, to insure safe and secure structures, adequate and safe exits, and reasonable resistance to damage by fire or conflagration.

It shall be the duty of the department to inspect, and when necessary to condemn all dangerous structures, to inspect all buildings and other structures during the course of erection, alteration, repair or removal; to inspect all places of public assembly at least once a year, and to make such other inspections of buildings as may be deemed necessary by the Inspector of Buildings for public safety; to receive and examine all plans, specifications and applications for permits, to approve or disapprove same, to issue all building permits, to collect all fees and pay

the same over daily to the Village Treasurer, and to keep proper records of the department.

Section 1.02 Administration

General Provisions, Applications for Permits.

Before proceeding with the erection, alteration, repairs, moving or change of occupancy of any building or other structure regulated by this code, except for minor alterations or repairs costing not more than one hundred dollars (\$100.00), a permit shall be obtained from the Department of Buildings. To obtain such permit the applicant shall furnish the Inspector of Buildings with a copy of the code, and the date of issuance of such permit has been issued.

Permits for structures upon which work is not started within six (6) months of date of issue, and permits for structures upon which work has been abandoned for six (6) months, shall cause the Inspector of Buildings to issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

Permits for structures upon which work is not started within six (6) months of date of issue, and cause to be in effect the Inspector of Buildings may issue a notice of a fine of not less than one hundred dollars (\$100.00).

BUILDING CODE

(Continued from preceding page)

along the center of said Plymouth Avenue, to the center of Main Street, thence in a westerly direction along the center of said Main Street to the center of Grasswood Street, to the center of said Grasswood Street for a distance of two hundred (200) feet, thence in a westerly direction at a distance of two hundred (200) feet from the center of said Main Street to the center of said Hutton Street, thence in a northerly direction along the center of said Hutton Street in the point of beginning.

(a) Prohibited occupancies, in fire limits: No new occupancies shall, hereafter be established within the fire limits for the storage of oil, gasoline or explosives; for the collection or storage of waste paper, rags or junk; for the manufacture or storage of lumber or fuel of any kind.

(b) Construction in fire limits: All new buildings of additions to existing buildings in the fire limits shall have walls of reinforced concrete, brick, hollow clay tile or cement blocks or other equivalent masonry, and shall have a projected Underwriter's Class B roof coverings. No public garage, cleaning establishment, coffee roaster or bakery shall thereafter be built in the fire limits unless it be a type 1 or fire-proof building.

(c) No frame building shall thereafter be built or enlarged in the fire limits nor shall any frame building be erected, hereafter, within the fire limits or moved from one part of the fire limits to another. Frame buildings destroyed by fire or any other cause to an amount greater than seventy-five (75) percent of its assessed value, exclusive of foundation, shall not be repaired or rebuilt but shall be removed.

(d) Existing occupancies: No existing prohibited building or occupancy shall be required to be removed from the fire limits, but none shall be allowed to be enlarged, and any existing prohibited occupancy which shall discontinue its use, its premises in the fire limits for the months shall not be allowed to resume operations.

(e) Exceptions: frame structures shall be allowed within the fire limits for the use of builders or contractors.

(f) Wooden fences not more than ten (10) feet high.

(g) Wooden balconies, not exceeding ten (10) feet in width and not standing to within ten (10) feet of the lot line.

(h) Bay windows when covered with combustible material.

(i) Small ovens not exceeding one hundred and fifty (150) square feet in area and not more than eight (8) feet in width.

Wooden sheds or outhouses shall not come within ten (10) feet of a side lot line nor within thirty (30) feet of any other building on the lot.

ARTICLE IV. Classes of Buildings and Requirements

Sec. 4.01. Class A Buildings.

All manufacturing buildings, warehouses, stables, storage sheds, power houses and similar buildings shall be known as Class A Buildings.

TYPE

Class A Buildings not over one (1) story or twenty (20) feet may be of any type of construction if higher than this, but not over three (3) stories or thirty-five (35) feet of Type 1, 2, or 3 construction. If over three (3) stories but not over five (5) stories or sixty (60) feet of Type 1 or 2; or over five (5) stories of Type 1 construction.

Mixed Occupancy.

No Class B use shall be established in a Class A Building unless separated by a fire wall with fire doors or a fireproof floor.

Stairs.

There shall be two (2) stairways in all Class A Buildings over two (2) stories high and in all story buildings of more than three thousand (3,000) square feet in area. There shall not be less than one (1) stairway for each six thousand (6,000) square feet of building area or major fraction thereof and no part of the building shall be more than one hundred fifty (150) feet from a stair. In no case shall more than seven hundred (700) persons be employed above the first floor for each stairway. All stairs shall be at least three feet six inches (3'6") wide in the clear with risers not over seven and one-half (7½) inches and treads at least ten (10) inches wide.

Doors.

Exits as wide as stairs shall be provided near the bottom of all stairs. From the first floor there shall be at least forty (40) inches of exits for every ten thousand (10,000) square feet of floor area in addition to the exits at base of stairs and in one (1) story buildings there shall be at least two (2) exits for every building over three thousand (3,000) square feet in area and at least forty (40) inches of exit for each ten thousand (10,000) square feet in area.

All exits shall be at least three (3) feet wide and shall be well distributed.

Enclosures.

All stairs, elevators and other vertical openings in buildings over two (2) stories high shall be enclosed in brick, tile, concrete or gypsum walls at least eight (8) inches thick for types 2 and 3 construction and four (4) inches thick for type 1 construction provided with self-closing doors from the basement to the roof.

Openings and Exposures.

Windows less than ten (10) feet from adjacent property lines and those facing alleys or courts less than twenty (20) feet in width shall be fire windows or shall be protected with fire shutters. Parapet walls eighteen (18) inches high shall be provided over all walls less than ten (10) feet from side property lines except on fireproof buildings.

Stair.

There shall be two (2) stairways from every floor above the first floor and from every base story accommodating fifty (50) or more persons, and from every floor above the second floor, if the capacity above the first floor exceeds four hundred (400) persons, there shall be one (1) additional stairs for each extra two hundred (200) persons or major fraction thereof. There shall not be more than one hundred twenty-five (125) feet from any part of the building to a stairway and the stairs shall be widely separated. All stairs shall be at least three feet six inches (3'6") wide and shall have treads of at least ten and one-half (10½) inches and rises not exceeding seven (7) inches.

Fire Appliances:

Buildings over forty (40) feet high must have one (1) standard pipe with hose connections at front and a "Siamese" connection outside of the building for each fifteen thousand (15,000) square feet in area, the location and size of thread to be approved by the Fire Department.

In specialized buildings, such as power houses, crane sheds and chemical plants, the Department may permit such variations from these requirements as are deemed safe by good standard engineering practice.

Section 4.02. Class B Buildings.

All garages, paint-shops, rag shops and storage rooms, dry cleaning establishments and buildings for the storage of inflammable liquids or similar hazardous materials shall be known as Class B Buildings.

TYPE

All Class B Buildings shall be of Type 1 construction except that Class B Buildings, other than those in the fire limits, not more than one (1) story high, or eight hundred (800) square feet in area, shall be of Type 2, 3 or 4 construction and that those over eight hundred (800) square feet in area, but not more than two (2) stories high, may have only one and five-eighths (1⅛) inch matched and dressed lumber supported on unprotected steel or on beams of forty-eight (48) inches in size.

Openings less than five (5) feet.

All Class B Buildings shall be of Type 1 construction or ten (10) feet from other buildings on the same property shall be protected by fire doors or windows.

Clothes and eaves.

There shall not be more than seven (7) seats between any wall and an aisle and not more than fourteen (14) seats between two (2) aisles. The seats shall be at least twenty-eight (28) inches apart to back to back. The aisles shall be at least two feet six inches (2'6") wide for wall aisles are three (3) feet for other aisles measured at the end furthest from main exits and shall increase in width approaching main exits by two (2) inches per each ten (10) feet in wall aisles and four (4) inches per each ten (10) feet for other aisles.

Openings and Exposures.

Buildings less than ten (10) feet from adjacent property lines or less than twenty (20) feet from other buildings on the same property shall be protected by a standard pipe.

Fire Appliances.

Fire appliances shall be provided as required in Section 4.01 for Class A Buildings.

Exceptions.

Gymnasiums may have running tracks constructed of laminated wood supported on bare steel beams.

Section 4.03. Class E Buildings.

All theatres and moving picture shows and all other auditoriums provided with a stage equipped with a stage loft for moving picture scenery shall be known as Class E Buildings.

TYPE

All Class E Buildings shall be of Type I construction, except that the gridirons and pin rail supports may be of bare steel in large red letters.

Dry cleaning plants shall not be over one (1) story high and shall not be less than ten (10) feet from any other building. They shall be constructed and operated in accordance with the "Regulations of the National Board of Fire Underwriters for Safeguarding Dry Cleaning and Dry Dyeing Plants" edition of 1936.

Section 4.03. Class C Buildings.

All stores, offices, restaurants, recreation buildings for bowling, pool or billiards, and similar buildings shall be known as Class C Buildings.

TYPE

All Class C Buildings three (3) stories or less in height shall be of Type 1, 2, or 3 construction; those over three (3) but not over five (5) stories of Type 1 or 2 construction, and those over five (5) stories of Type 1 construction.

Mixed Occupancy.

No building of Class C shall have any part used for Class A purposes unless it is entirely separated therefrom by fireproof walls and floors and has separate exits.

Class C Buildings shall comply with all the requirements of Class A Buildings with regard to stairs, exits, enclosures, openings and exposures, areas and fire appliances.

Section 4.04. Class D Buildings.

All schools, churches, dance halls, lodge halls, auditoriums and similar public buildings shall be known as Class D Buildings.

TYPE

Class D Buildings not over one (1) story high or two thousand (2,000) square feet in area may be of Type 4 construction; if over one (1) story but not over two (2) stories or thirty (30) feet high, or if more than two thousand (2,000) square feet in area, shall have two (2) exits.

All stairs except dressing room stairs to stage basements shall have treads of at least ten and one-half (10½) inches and risers not exceeding seven (7) inches.

Stairs and Exits.

Main exits shall lead from foyer having an area of at least one (1) square foot per seat in the theatre to a public street either directly or through a fireproof

construction equally fire resisting.

Mixed Occupancy.

No part of Class D building

shall be used for Class A or B purposes and no Class B building

shall be so constructed within

twenty (20) feet of a Class D

building.

Stair.

There shall be two (2) stairways from every floor above the first floor and from every base

story.

Openings and Exposures.

No frame wall or porch of any

Class F Building

shall be used for Class E

uses.

Stair and Exits.

All Class F Buildings except

falls, porches, and skyways,

shall have exits as required in

the Housing Code.

(See Sections 46 and 50.)

Drain.

Emergency exits at the sides of

the theatre shall be provided in

streets, alleys or courts lead-

ing to streets or alleys. For the

areas of six hundred (600) persons

or less, one (1) exit

per hundred (100) persons

and one (1) exit per

hundred (100) feet of

width.

Enclosure.

Stairs and elevators shall be

enclosed as required in the State

Housing Code.

(See Sections 46 and 50.)

Framing.

The walls of all Type 4 Com-

mercial

buildings

shall be at least

one (1)

inch thick.

Openings and Exposures.

No frame wall or porch of any

Class F Building

shall be used for Class E

uses.

Stair and Exits.

All Class F Buildings except

falls, porches, and skyways,

shall have exits as required in

the Housing Code.

(See Sections 46 and 50.)

Drain.

Emergency exits at the sides of

the theatre shall be provided in

streets, alleys or courts lead-

ing to streets or alleys. For the

areas of six hundred (600) persons

or less, one (1) exit

per hundred (100) persons

and one (1) exit per

hundred (100) feet of

width.

Enclosure.

Stairs and elevators shall be

enclosed as required in the State

Housing Code.

(See Sections 46 and 50.)

Framing.

THE NORTHLVILLE RECORD

BUILDING CODE

(Continued from preceding page)

deterioration and not subject to accidental overturn.

ARTICLE XII.

Plumbing, Electric Wires, And Gas

Section 12.1: Plumbing

In all plumbing shall be done in accordance with the "Recommended Minimum Requirements for Plumbing in Dwellings and Similar Buildings," published by the Bureau of Standards, Department of Commerce of the United States in 1924, pages 18 to 46 inclusive, and as follows:

(1) Basement or Cellar Floor Drains. Basement or cellar floor drains may be tributary to rain-water drains and shall connect last from "D" traps of not less than three (3) inches in size, so constructed that they may be readily cleaned and having a depth of water seal of not less than three (3) inches. The drain outlet shall be so located that it is at all times in full view and shall be provided with a removable strainer head of approved strength and material. Floor drains in areas shall be connected with a standard bell trap.

(2) Conductors. The roofs, paved areas except driveways, and courts of all buildings, except garages erected on rear of a lot, shall be connected into the drainage system. All conductors, from a point five (3) feet inside of basement or cellar foundation walls or foundations shall be of cast iron installed as per specifications hereinafter enumerated. Outside cast iron conductors leading to stormwater lines, laid wholly outside of the buildings, shall be properly supported in order to prevent settling in filled earth alongside the foundation wall and shall be extended horizontally to a distance measured at right angles of three (3) feet from the foundation wall before connecting to crock sewer. Outside cast iron conductors leading through or beneath the foundation wall into the drainage system beneath the building shall extend three (3) feet inside the foundation. All outside cast iron

conductors shall terminate not less than six (6) inches above grade with hub ends.

(3) Vent stacks. Any three (3) inch horizontal drain pipe over eight (8) inch length having two or more fixtures attached thereto must have a two (2) inch vent stack extending to the roof line.

(4) Septic tanks. Installation of septic tanks shall be installed where no public sewer is available. Tanks shall be discontinued when facilities for public sewerage lines are made available. Septic tanks and disposal beds shall be installed under the supervision of a plumber and shall be subject to inspection and approval by the Inspector of Buildings. It is recommended that a single vented house trap be installed on the building side of the septic tank, provided it is adequately protected against freezing.

(5) All wastes created either in toilet rooms or bathrooms, shall be connected to the septic tank. Subsoil shall by-pass the septic tank and may be discharged into the disposal field of septic tank.

Wastes from all kitchens, restaurants, and any other sources of grease shall be connected to approved grease traps before entering septic tank which shall be cleaned out whenever necessary.

(b) No storm, water or roof drains shall be connected to the septic tank.

(c) Septic tanks shall be constructed of concrete having an ultimate compressive strength of at least three thousand (3000) pounds per square inch at the end of twenty-eight (28) days, or of metal. Bottom slab shall be at least six (6) inches thick, reinforced with three-eighths (1/8) inch round bars, twelve (12) inches on centers both ways, or with No. 6 gauge mesh, six (6) inches on centers. Side walls of tank shall be constructed of at least six (6) inches of concrete reinforced with three-eighths (1/8) inch round bars, twelve (12) inches on centers both ways, or with No. 6 gauge mesh, six (6) inches on centers. Concrete, reinforced vertically with one-half (1/2) inch round bars, six (6) inches on centers, and

twelve (12) inches on centers, shall be provided for each tank.

Provisions shall be made for inspection and cleaning. Metal tanks shall be subject to inspection by the Inspector of Buildings.

(d) Septic tanks to provide for from four (4) to six (6) persons shall have a capacity of five hundred (500) gallons; from seven (7) to ten (10) persons eight hundred fifty (850) gallons; and from eleven (11) to fourteen (14) persons twelve (1200) gallons.

Tanks shall be at least six (6)

feet beyond the foundation wall of the building it serves and tank and disposal field shall be at least fifty (50) feet from any well.

Section 12.02 Electric Wiring.

All electric wiring shall be done in accordance with the "National Electrical Code" as recommended by the National Fire Protection Association, edition of 1936.

Before proceeding with any electrical wiring a permit shall be obtained by the contractor from the Department of Buildings application for such permit shall show the location of building number of circuits, owner, electrician, and such other reasonable information as the Department may demand. Application shall be accompanied by the necessary fee which shall be one dollar (\$1.00) for the first circuit or less and twenty-five (25) cents for each additional circuit.

Section 12.03 Gas.

All gas supply lines of two (2) inches internal diameter or larger and all lines supplying gas to theatres, assembly halls and public buildings shall be provided with a shutoff valve outside of the building in a place accessible to the Fire Department. Keys for shutting such valves shall be supplied to the Village without charge. All such valves shall be plainly labeled "GAS" and the owners of the building shall be responsible for keeping them accessible to the Fire Department at all times. All permanent or fixed gas appliances shall be serviced by rigid metal piping.

When providing gas service to any building, the Company supplying the gas shall make a reasonable test for leaks in the piping within the building, and if leaks are found, shall notify the owner or contractor and the Department of Buildings.

ARTICLE XIII

Encroachment Into Public Property.

Section 13.01.

No portion of a building, or other structure, shall encroach upon or project into any street, alley, park or other public property without a special permit having been issued therefore by the Village Council except as specifically stated herein and the erection of any building and the support of any building part which encroaches on public property shall be liable to the Village Council for any damage which may result to any person or property by reason of such encroachment, whether or not such encroachment is specifically allowed by this code.

The owner of any building or other structure shall promptly repair or encroach upon my public property short of such encroachment portion of his building or other structure so far as required to do so by the Village and the Village of Northville shall not be liable for any damage resulting to the property owner by reason of such repair.

All such projections on buildings shall be structurally safe and all kept in safe condition and reported when necessary in the opinion of the Inspector of Buildings by and at the expense of the owner of the building from which they project.

Section 13.02.

Festings or foundations may extend into street or alley lines not to exceed three (3) feet when wholly below the level of the ground provided such footings or foundations do not interfere with or damage any sewers, pipes or conduits of the Village of Northville or any public service corporation.

Base course of buildings when of masonry may extend into streets not to exceed six (6) inches but such projections shall not be more than three (3) feet high.

Section 13.03.

Wheel Guards may extend into alleys not more than eight (8) inches but such guards shall be of metal or concrete and not more than twenty (20) inches high.

Plasters of masonry at the entrance of buildings may project into streets not more than four (4) inches.

Window sills and cornices over windows if of masonry may project into streets or alleys not to exceed four (4) inches.

Section 13.04.

Cornices and eaves (including gutters) of buildings of Classes F and G of combustible materials may project into streets or alleys not more than eighteen (18) inches but such cornices must be at least twelve (12) feet above the ground and not more than twenty (20) feet above the ground or above the roof line.

So complete was the silence that auto horns could be heard a half mile away.

Suddenly from a place close at hand came a call, "Hello-o-o Glacier Point." The walls took up the call and one echo piled on top of the other. As they died away an answer came from out the night thousands of feet above the valley, "Let the fire fall-1-1-1."

A quartette began to sing in muted voice. From out of the sky poured a stream of liquid fire, twisting and tumbling to finally fall off a ledge 900 feet below.

In two minutes the spectacle was over. The lights came on and people moved away in groups. There wasn't much conversation. Something holy had just been witnessed.

In 1884 Abraham Lincoln signed an act of Congress setting aside Yosemite and the Mariposa

groves as a public trust. In 1890 the greater Yosemite National Park was created. Today it embraces 1189 square miles of spectacular mountain scenery.

Into this area has been crowded everything to make a successful National playground. Everything includes one ritual found in no other place on earth—The Firefall.

Throughout the summer season as darkness approaches everyone gathers at the base of Glacier Point. A program of free entertainment is in progress. Gifted artists help pass away the time.

As the hour of nine approaches an air of expectancy falls over the throng. Everyone turns and faces the cliff, its top just barely visible thousands of feet above, silhouetted against the sky.

Promptly at nine the valley lights flash on and off in prearranged signal. Complete darkness settles. Absolute silence reigns. Last summer I was one of 28,000 who saw this spectacle. So complete was the silence that auto horns could be heard a half mile away.

Suddenly from a place close at hand came a call, "Hello-o-o Glacier Point." The walls took up the call and one echo piled on top of the other. As they died away an answer came from out the night thousands of feet above the valley, "Let the fire fall-1-1-1."

A quartette began to sing in muted voice. From out of the sky poured a stream of liquid fire, twisting and tumbling to finally fall off a ledge 900 feet below.

In two minutes the spectacle was over. The lights came on and people moved away in groups. There wasn't much conversation. Something holy had just been witnessed.

STATE OF MICHIGAN THE PROBATE COURT FOR THE COUNTY OF WAYNE No. 308-038

In the Matter of the Estate of
Nellie Weston, Deceased.

Notice is hereby given that
creators of said deceased are
required to present their claims in
writing, and under oath, to said
Court at the Probate Office in
the City of Detroit, in said County
and to serve a copy thereof upon
Lorraine Lipp, administratrix of
said estate, at 440 Eaton Drive,
Northville, Michigan, on or before
the 3rd day of August, A.D., 1943,

and that such claim will be
heard above ground level such
cornices and eaves shall be con-
structed entirely of incombustible
material.

No cornices or eaves shall pro-
ject into any street or alley at a
less height than twelve (12) feet
above ground level.

No cornices or eaves shall pro-
ject into any public property
more than one (1) inch for each
foot that such projection is locat-
ed above ground level and in no
case shall this projection exceed
sever (7) feet nor more than one
tenth (1/10) of the width of the
street or alley into which it pro-
jects.

Section 13.06.

Section 13.07.

John L. Crandall, Attorney

State of Michigan
County of Wayne, ss. 307,71

At a session of the Probate Court
for said County of Wayne, held at
the Probate Court Room in the City
of Detroit, on the second day of
March, 1943, in the year one thousand
nine hundred and forty-three, in
the presence of the Clerk of Probate
Court, John L. Crandall, and the
Judge of Probate, Patrick H. O'Brien,
Judge of Probate, Clifford L. Wilson,
Deputy Judge of Probate, and the
Court Clerk, Carl W. Bischoff, Deputy Clerk.

WHEREAS, the said hearing

was held at the time and place

appointed by said resolution and

the Board did then proceed to

view the premises in accordance

with the statute, and

WHEREAS, it appearing from
said hearing and view of the
premises that the public will

have no further use for the alleys
in said subdivision so partitioned
to be abandoned and discontinued

as public highways, and

the term of existence of said

corporation terminated by limit

ation April 15, 1943 and will not

be renewed, and that the last

Board of Directors of the corpora-

tion has filed a certificate to that

effect with the Michigan Corpora-

tion and Securities Commission.

FIES SAITH THE LORD

The Lord am angry with the world, I am holding my spirit from the inhabitants of the earth. I have sworn in my wrath and decree, wars upon the fact of the earth, and the wicked shall come up over every man.

Therefore, I revoke not the judgments which I shall pass.

For all who shall go forth weeping, wailing and gnashing of teeth, years to those who are found on my hands.

For a blossoming scourge shall go forth among the inhabitants of the earth, and shall continue to be poured out from time to time if they repeat not until the earth is empty; and the inhabitants thereof are condemned.

And this gospel shall be preached unto every nation, and kindred, and tongue, and people.

And for this cause, that men

allowance; nevertheless, he that repents and does the commandments of the Lord shall be forgiven.

What I the Lord have spoken, I have spoken, and I excuse not myself; and though the heavens and the earth pass away, my word shall not pass away, but shall all be fulfilled, whether by mine own voice or by the voice of my servants; it is the same.

Before a spot was fired, in the present war, the Lord made known to me what was to come; he showed me, not only what was to come to pass, but made known unto me some of the nations that would be involved.

These things I published and sent to every state of the United States; to many principle cities, newspapers, magazines, radio stations, churches and government officials.

For my efforts and timely warning I was laughed at, mocked, called insane, and declared possessed of the devil. Nevertheless most of the things I prophesied, in the name of Jesus Christ, have been fulfilled, and the balance is now in the advanced stages of fulfillment, and will be fulfilled shortly - in the people of the United States do not repeat and obey the commandments of God.

For thus saith the Lord, the God of Israel: Behold, this is a choice land, and whatsoever nation shall possess it shall be free from bondage, and from captivity, and from all other nations.

The vine of the wrath of God and shall be tormented in the presence of the holy angels; and in the presence of the Lamb. And the smoke of their torment shall ascend for ever and ever, and they have no rest day or night, who worship the beast and his image, and, whosoever receives the mark of his name.

Some ask did you never do a wrong? Yes, but when the truth was presented to me I had sense enough to clean house.

It is not so great a sin to do wrong as it is to continue in sin after the wrong is made known.

George Biery

(Continued from front page)

which one doesn't get home often. I'm down here in Ft. Myers, Fla., teaching Aerial Gunnery and expect to reach combat duty soon. It can't come any too soon.

Hoping this letter finds everyone in the very best of health, I remain

Sgt. Lowe Heichman

Cpl. R. H. Kelly arrived home Wednesday for a ten day furlough with his mother, Mrs. C. Butler of 525 Orchard Drive. Cpl. Kelly will report for duty at Marshall Field, Ft. Riley, Kansas, at the end of his furlough.

Adak, Alaska
This is the first time I have had a lot of time for letter writing since I have been in the Navy and I would like to express my appreciation to you for sending me the home (post) paper. When a person is so far away from home as I am, he sure appreciates a little news from home. I have been running around all over Alaska but I am still receiving the paper, even though it is a little late.

There is not much more I can say but thank you very much and if I can ever do the paper a little good, just let me know.

Roy Dickson Bentley

Corporal John Hochkins has been transferred from Kansas City, Mo., to Boeing Aircraft School at Seattle, Washington.

Frederick L. Johnson's Base Line Road, recently inducted into the U. S. Navy, has been assigned to the U. S. Naval Training Station, Great Lakes, Ill.

Bob Lyke was home over the week-end. He returned to Camp Custer Tuesday to get his transfer orders.

Carl Taylor was home on leave this week.

Gulfport, Miss.
I am now of a new station and would appreciate having the Northville Record if it is possible.

By coincidence, I ran into a Northville boy here named Bud Knutts. Thanking you for past kindness, I remain

Yours truly,
Ensign N. E. Walker

IT'S SAFE
because every bond is recorded in our bank records and kept in our bank vaults.

IT'S CONVENIENT
because you can deposit or withdraw your bonds at any time during banking hours.

IT'S INEXPENSIVE

George Biery

(Continued from front page)

which one doesn't get home often. I'm down here in Ft. Myers, Fla., teaching Aerial Gunnery and expect to reach combat duty soon. It can't come any too soon.

Hoping this letter finds everyone in the very best of health, I remain

Sgt. Lowe Heichman

Cpl. R. H. Kelly arrived home Wednesday for a ten day furlough with his mother, Mrs. C. Butler of 525 Orchard Drive. Cpl. Kelly will report for duty at Marshall Field, Ft. Riley, Kansas, at the end of his furlough.

Adak, Alaska
This is the first time I have had a lot of time for letter writing since I have been in the Navy and I would like to express my appreciation to you for sending me the home (post) paper. When a person is so far away from home as I am, he sure appreciates a little news from home. I have been running around all over Alaska but I am still receiving the paper, even though it is a little late.

There is not much more I can say but thank you very much and if I can ever do the paper a little good, just let me know.

Roy Dickson Bentley

Corporal John Hochkins has been transferred from Kansas City, Mo., to Boeing Aircraft School at Seattle, Washington.

Frederick L. Johnson's Base Line Road, recently inducted into the U. S. Navy, has been assigned to the U. S. Naval Training Station, Great Lakes, Ill.

Bob Lyke was home over the week-end. He returned to Camp Custer Tuesday to get his transfer orders.

Carl Taylor was home on leave this week.

Gulfport, Miss.
I am now of a new station and would appreciate having the Northville Record if it is possible.

By coincidence, I ran into a Northville boy here named Bud Knutts. Thanking you for past kindness, I remain

Yours truly,
Ensign N. E. Walker

IT'S SAFE
because every bond is recorded in our bank records and kept in our bank vaults.

IT'S CONVENIENT
because you can deposit or withdraw your bonds at any time during banking hours.

IT'S INEXPENSIVE
because there is no annual charge - no time limit - we will keep your bonds until they mature if you wish. There is an initial charge of \$1.00 to cover expense of opening an account. The only further expense is 25c per bond when deposited (any denomination) for any length of time. No charge when bonds are withdrawn.

Bring your War Bonds in to this Bank for SAFEKEEPING and open an account. Simple as A. B. C. - Convenient - Inexpensive.

Only United States Government Registered War Savings Bonds accepted for Safekeeping.

COMMERCIAL LOANS - CHECKING ACCOUNTS FOR BUSINESS MEN AND INDIVIDUALS - LOANS OF ALL TYPES
