With Our Men in the Service

NOTE—This column is dedicated to news of men and women from New and Northville community who are in the service.

Springfield, Mass. Very much. Mr. Walter Couse, I pressure, handed it my name and address and I wish to thank him too, thereby killing two birds with one stone.

Thanks loads for the Record. Since I have moved here, I feel more lonely than I ever have before. (Perhaps because I just had a furlough) and your paper is a most welcome treat.

Yours truly,
James Travis

Bee Powers has been transferred from Ft. Meade, Md., to Camp Kilmer, N.J.

John Beauchamp is now stationed at Boston, Mass.

Pvt. James Reim and Pvt. Carl Schoultz have both been transferred from Miami Beach, Fla., to Ft. Riley, Minn.

Jack Peters, recently inducted into the Army, has been assigned to Ft. Leonard Wood, Mo.

Essie Niider, who is stationed in Iceland, has been promoted to Corporal.

John S. Angel, who is stationed at the Army Air Base, Walla Walla, Wash., has been promoted to Corporal.

Sgt. Stanley Taylor, who has been stationed at the U of Florida, is home on a furlough. Taylor's father is ill in Harper, Missouri.

Shortly after my last letter to you I was shipped overseas. I am now in North Africa. I was in hopes I would get to go home for a few days before being shipped, but furloughs are a thing of the past, I guess.

I received two copies of the Record yesterday. They were the first I had seen since I left Camp Wollers. I hope they keep coming now. I sure missed them when they didn't come. Thanks again for sending me the Record.

Africa may be home to some people but I'll take good old Northville.

Yours Truly,
Pvt. G. A. Banks

Just a line or two to let you know the Record is coming to me alright and that I appreciate it.

Your paper fascinates me for the reason that so many boys I know or knew back home are brought back to my mind and again and again. I am reminded what a huge undertaking this all is. Probably the biggest undertaking the world has ever known. We can't be reminded too often and I'm sure with the help of so many fine fellows we can't lose.

It's nice too, to keep track of what's going on back where we last walked around as civilians.

Often in the army we forget much or what goes on outside.

We won't be here after July 10.

We take off for maneuvers until about November 1; but this will be our last permanent station and I will endeavor to keep you posted as to my address. Will enjoy reading the Record wherever I am.

You may have heard of the fine reputation of our division, even back as far east as Northville. I understand it as far west as Oklahoma already. As long as we keep up the good work we'll see action, we're sure.

Your column dedicated to the news of men and women in the service is quite a thing. I would like to see a map of the world with a pin inserted representing the destination of all the copies you mail each week. I'm sure the pins would be well spaced, and there'd be plenty of them.

Respectfully yours,

Sgt. Maxwell S. Austin

I have been getting the Record for over a month now, and I appreciate it more than I can say.

I was very fortunate in being transferred from Jefferson Barracks, Mo., to Michigan State College. Would you please send the Record to my new address which, by the way, is a "honey."

Thanks again for the Record.

Yours sincerely,
A. S. Alvin J. Sheppard

Let's help our farmer neighbors with their hauling problems

AMERICA'S farmers have the tremendous responsibility of raising more food this Summer than ever before in the nation's history.

Farm manpower is scarce. Every hour of every farmer's time is vital to victory. Let's help conserve it.

Don't keep any farmer waiting. Owners of stores, operators of markets, warehouses, elevators, terminals and processing plants, can aid substantially in the success of the "Food for Victory" program by expediting the loading and unloading of farm products.

Every farmer is an essential home front soldier. Don't keep him waiting. He has a long way to go and no time to waste.

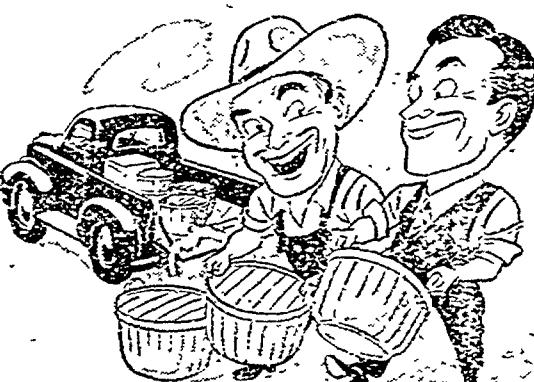

Studebaker dealers are co-operating. Studebaker dealers go out of their way to help obtain parts for all makes of trucks.

They co-operate further by handling special repair jobs for farmers as fast as possible.

Many Studebaker dealers have special facilities for locating used trucks, that have been idle or in part-time use, for sale to farmers.

Keep your car and truck up to par. All trucks and cars must be kept in good shape to safeguard the nation's vital transportation life lines. And that's especially important this Summer.

Drop in for regular inspections. Studebaker dealers are co-operating.

baker dealers' mechanics are Essential Transportation Workers who can spot and correct truck or car trouble before it becomes serious.

Ask for free copy of Studebaker's valuable, new, 48-page book, "Care and Maintenance of the Farm Truck"—or write Studebaker Truck Division, Dept. N, South Bend, Indiana.

DRIVE MILITARY TRUCKS—OTHER VEHICLES

Because of the 10 p.m. curfew in Detroit, we had decided to leave early for the boat docks. The steamer, City of Detroit III, was to depart at 11:30 o'clock. A Checker cab drove in sight, and we flagged it to the curb.

Cab drivers are proverbial sources of much information and gossip, and this driver—a husky white chap of about 45 years, was no exception. I started off with reference to my friend's remark about "hoodlums" who had taken over control of the city after federal troops arrived at 11 p.m., the night before.

"I killed one of those niggers myself last night," he said.

"A white man, driver of a Checker cab in Detroit, said this to me in bitter hatred but as casually as if he had just brushed off a fly. It was an amazing aftermath of the Detroit race riots, the like of which this nation has not seen in 20 or more years."

I had left the state capital for Detroit to meet Philip T. Rice, publisher of the Midland Daily News, and accompany him to Cleveland for a conference with officials of the War Manpower Commission. While waiting for a cab in front of the Book-Cadillac hotel, I heard a cheery voice and turned around to greet a friend of mine from a state office in Lansing. He resided many years in Detroit.

Our conversation began and ended on the topic of the previous evening's baffling fight in the heart of Detroit—the city hall, Grand Circus Park, Woodward Avenue, and the bus terminal on Washington boulevard, just to mention a few.

The state executive gave an explanation of the race riots which I have substantiated since from two army officers. Here it is:

From army officers we learned that Sunday, June 20, had been a hot and sweltering day in Detroit. Belle Isle was swarming with Negroes—about 70,000 or more were there—trying to get away from the heat.

Why did they go to Belle Isle? "Paradise Valley," the Negro section along Hastings Avenue, is filled with old houses, shabby business buildings, and crowded apartments. The Negroes have "parks" of their own; their dwellings are congested and stuffy; the day was hot; so they went to the river front. It was just as simple as that. Would you in their position, have done likewise?

In many Detroit public schools, the white boys and girls mingle with Negro boys and girls. Teenage white youngsters formed a roughly proportion of the hoodlums. They were most sullen in逆境.

Negroes retaliated by smashing windows, looting "white" stores up and down Paradise Valley. The mattock \$10 per person. In words, "Negro Owned" were enough to scare a store, from the quota was 1.8 times what it was for the mob.

Yes, and all this in Michigan! Yes, and all this in Michigan! Yes, and all this in Michigan! When you try to analyze the Detroit race riots—and in our opinion, they will have to return again—it's when the two parties—you can't help but wonder about our so-called civilization and whether it is more than skin deep; about the freedom for which our American boys are fighting on the deserts of Africa and the tropical isles of the Pacific; while we would deny the same freedom to fellow Americans back home.

It all contributes to a confusing, irrational and illogical situation where emotions put rational reasoning into hurried eclipse. The solution is not easy. Here are the ingredients which won't mix: Thousands of whites who have been transplanted from a Jim Crow South into a prosperous tolerant North; thousands of Negroes who have gone from the shadow of social restrictions into the sunlight of social equality.

In the meanwhile, this amazing fact exists. Detroit, an arsenal of democracy, producing arms for the battle of freedom, is being guarded by U.S. troops to maintain peace among the makers of death-producing weapons.

We still remember the hatred of the taxi driver when he said: "I killed one of those niggers myself." The words were not only savage, cruel and brutal. They evoked a frightening spectre.

A rise of 1.7 per cent in food prices increased the total cost of living for non-rural workers by 0.9 percent in the month ended May 15, nevertheless, the cost of items making up nearly 80 percent of the family budget remained practically unchanged.

This increase of 0.3 percent compares with a rise of 1.5 percent in the month ending March 15 and 1.1 percent in the month ending April 15.

WATCHERS OF THE SKY

Night and day, at lonely outposts in northern Michigan, thousands of air spotters voluntarily undergo hardship and loss of sleep to protect our industrial areas from bombing raids.

They rarely get into the headlines. Often they watch patiently through the hours without seeing or hearing a plane. But the duty they so faithfully perform is vital. In case of air attack it will be their trained eyes and ears that detect the approach of Axis bombers.

A telephone stands ready in every spotter's post. With the words "Army Flash" the spotter gets an immediate connection with the nearest army information center. And if the aircraft he reports cannot be identified as friendly, fighter planes roar into the air at once to intercept the enemy. At the same time all Civilian Defense centers in the threatened area are warned by telephone to prepare for a raid.

Citizens of Michigan who sleep soundly in their beds at home owe a debt of gratitude to the Aircraft Warning Service.

Rev. Fredsell and Jack Blackburn each captained a team of soft ball players, with about 20 men and women on each team. The results of this contest will never be known, as each captain claims the victory for his team, and any lack of skill on either team was more than compensated by enthusiasm.

Splendid Delegation of Young People Will Enjoy Privileges of Summer School

Twenty-one delegates, among the young people from Northville, are attending the Presbyterian Conference at Waldenwoods during the period from June 28 to July 12. This is the first time that the Presbyterian Church here has ever sent more than three or four delegates to the Waldenwoods conferences which offer youth groups classes and discussions in social and religious problems amid ideal summer camp surroundings. It is a practical contribution toward solution of Youth's problems in wartime.

The delegates attended in two groups. The first group of 15 was chosen from the senior high school age group to attend from June 28 to July 5. From July 5 to July 12 six of the younger delegates will attend.

The first group, who left last Monday, will return this coming Monday and Friday. Tom Curt, Ann F. Davis, James R. Green, Gwen Howell, Dorothy Leavenworth, Florence McCluske, Bob J. Masters, Leslie Nagy, Ella Orr, Betty Jean Snow, Esther Mae Stanford, Coralyne Stephens, James Howarth and Pauline Redgers of the Methodist Church who joined the group.

The second group, who will spend the week of July 5 to July 12 at Waldenwoods is comprised of Charles Freydl, Jr., Dorothy Griguer, George Locke, Jr., Mickey Nagy, Marie Scarfoff and Elaine Vogtin.

All delegates will present a report of some phase of the conference program to the congregation the last Sunday in September.

June 30 Cold, Yes About 50 Degrees

After a week of sweltering heat, the northwest wind brought temperatures of 37 degrees Tuesday night and 57 degrees Wednesday morning. Smoke rose from many chimneys in the village Wednesday morning. Rev. Leslie Williams was a guest at Rotary Wednesday.

Rev. Lloyd Young of the Baptist Church was the guest speaker Wednesday noon. He stressed Christianity as the solution of the world's problems.

Local Court Case Is Cited

ire of Detroit Judge Is
Arraigned By Northville
Rent Case

An order that a Northville landlord, Henry Wick, and a Northville justice of the peace, Del Campbell, be cited for contempt of Federal Court, was issued Monday by Judge Arthur F. Lederle to Carleton H. McIntyre, CPA rent division enforcement attorney.

The proceedings which aroused Judge Lederle began last December when Campbell, in an action brought by Wick, ordered a tenant, James Goodale, evicted from the property at 529 Horton Ave., Northville. Wick said he wanted to occupy the property himself, but failed to get the necessary certificate from the CPA. The result was a Federal Court injunction restraining the eviction.

Neither Wick nor Campbell was discouraged. On May 14, Wick again served notice on the same tenant to move, but again he neglected the CPA certificate so that he would himself occupy the premises. Campbell set Monday for the date of the hearing on the eviction order and again McIntyre came into Judge Lederle's Court with another request for a restraining order.

Surveying the situation Judge Lederle decided that the injunction was not adequate and instructed McIntyre to prepare a contempt citation.

Legion Plans For New Home

The Lloyd H. Green Post American Legion is busy raising funds among its members for the purchase and renovation of the Neel property which they purchased a few weeks ago. The boys of the post are subscribing funds for the project, after which they expect to ask contributions from the people of the community.

Committees are busy working on plans and arrangements for the proposed revamping of the property as well as formulating plans for the solicitation of funds throughout the community. A meeting of various people and organizations of the community will be held at the Legion Hall this Friday night.

Mrs. Janice Farrell and Miss Valeria Fisher of San Francisco, Calif., are spending a week with the Homingers at W. Eight Mile Road.

The World of Tomorrow

Character One

"Where did we come from? What are we here for? Where are we going? After death do we live? Is there a God? Can anyone know the answer to these questions? Is it possible for one to obtain a personal knowledge of these things?"

There are two ways of knowing a thing: through the testimony of others and through personal experience. The testimony of others may be either by word of mouth or by the written word. A personal experience is obtained through the senses of seeing, hearing, and feeling. Knowledge derived through the testimony of others is subject to much error, while pure unerring knowledge is the result of personal experience: the attestation of facts acquired through trials, tests and application, perceived directly by the senses of feeling, hearing and seeing.

In the written word we have two kinds of testimonies: history and scripture. Scripture is the

testimony of men who have discovered the reality of a God through personal experience, and through personal experience recorded their findings for the benefit of friends, relatives and future posterity.

In many cases scripture is copied by man, rewritten and translated from one language to another, in so doing, many times mistakes and errors are made. The wrong word is sometimes used, or a word is left out, and in some cases the wrong word is used, which causes a wrong impression to be implied. Out of these errors and mistakes have come many versions of the original scriptures; various interpretations, opinions, commentaries, documents, and bibles of sects and religious organizations.

These things caused me as it has thousands of others, to ask "Which of all these parties is right?"

Having been endowed with an inquisitive nature I set about to find, if possible, the answer to these questions: for they, the religious sects, parties and denominations, had not a logical answer. They each interpreted the scriptures so differently, and at the same time each claimed to be right. The leaders, teachers and preachers of religion seemed to glory in mysteries which no one understood; and then, with their private interpretations around the scriptures, with a mysterious cloak of white, was obscuring the various sects, denominations, parties, organizations and divisions.

As the controversies were centered in, around, and about the scriptures, I sought from that source a beginning of my investigation. With a mind free from outside influences, and without prejudice, it did not take me long to find the nucleus of a solution. I soon found that the scriptures were made up of writings translated from the writings of other languages; and these writings, in foreign languages, were the product of several different men who had certain information which they wanted to record for the benefit of the living and future posterity - and that information was never intended to be used as a meal ticket; but rather, by obeying the precepts contained therein one might learn how to obtain a meal ticket.

The scriptures became to me, exactly as the writers described them to be, a source of information with a preface, an introduction, an analysis, a diagnosis, a recipe, a sedative, and an antidote with instructions: written for the express purpose of instructing and informing those who read; that they, through obedience to the precepts, might learn what is the mind of God, and through knowledge, teach himself and others the way of peace which leadeth to the kingdom of God and eternal salvation.

As to the truth of these things, no one can know except they find it out through personal experience. One who does know may testify to the truth of it until he drops in his grave to no purpose or advantage unless the Lord, by His Spirit, or by the ministration of an angel, or by His own person makes these things known unto those who hear the testimony.

These things I have tried to make known unto the people, but the people, for the most part, will not believe. This has always been so, especially among the rulers and leaders of the people. And the only reason I can find for their not believing is because they themselves have not had the same experience, and they will not let another who has seen, heard and experienced the same things, that the dead have written about, testify in their congregations for fear of losing their leadership and ruling power among the people.

What a sad picture. With the exception of a few individuals all of the religious organizations are converted to their leaders and their interpretations. With each one "My church is right or wrong" Jesus Christ himself is a secondary part, and occupies the limited space within which the leaders place Him. They control the people's minds, tell them what to read, what not to read, and interpret all things for them according to their opinions, desires and limitations. One might sum it up in the words of one of God's prophets: "O Lord we will worship thee with all our hearts, serve thee with all our soul, and be pure and holy; we will even gather Israel, convert the heathen, and bring in the millennium; if thou wilt only let us alone that we may do it in our own way, and according to our will; but if thou speakest from heaven to interfere with our plan, or cause any to see visions of dreams, or prophecy, whereby we are disturbed or interrupted in our worship, we will exert all our strength and skill to deny what thou sayest, and change it home upon the devils or some wild, fanatic spirit, as being its author."

Today men's hearts are failing them for fear, and for looking after those things that are coming to pass on the earth. Diagnosticians with antidotes; world savors with itching palms; and providers with some who are springing up like mushrooms. These

things are thriving on the misery and heartaches of a harassed people. They are wowing us while they grow fat quivering veins and pull the purse strings.
