This electric light BURNS COAL!

Every time you snap the switch of your kitchen light—or any other electric light in your home—that light actually BURNS COAL. Thousands of tons of coal per day are required to manufacture electricity for Detroit Edison customers—besides manpower, transportation and other critical materials. When you save electricity you save coal, and that is vitally important today.

Our government asks your help and the help of every person in America to make this nationwide conservation program a success. The program is voluntary, but your loyal, wholehearted cooperation is a MUST. Anything you can do to save electricity is a direct contribution toward winning the war. The Detroit Edison Company.

TO 3466 HERE**

Supt. Amerian reports that 3466 number 4 war ration books were issued at the grade school during the registration periods Monday, Tuesday and Wednesday. Th processing and issuing of the books moved along smoothly and quickly as a result of the efficient planning of Mr. Harrison and Mr. Ellison and the cooperation of the teachers.

Several Northville women, not on the faculty, volunteered their help during the busiest hours of the registration. Acting as receptionists they kept things running smoothly.

Kay Stephens was home last week end from Alma College where he is enrolled in the Navy V-12 training program.

The French Club has chosen Dec. 3 for a dance to be given at the high school gym. Eleanor Breitmeier, who was appointed to arrange for the music, has engaged Tom Heaton's orchestra. town paper. It's nice to hear how some of the other fellows are doing and where they are stationed.

I am having a swell time. We're down in the desert of central Oregon holding our maneuvers. The maneuvers are supposed to be the largest combat maneuvers ever held in the States.

Everything seems pretty well mixed up, guess the 6th Div. is more than mixed up. When the fellows write home now they end their letters with this line:

Mother take the star out of your window, your son's in the 66."

I have to take my turn on the radio now so I'll close. Thanking you again for the Record.

Put Glenn Weeks.

Keesler Field, Miss.

I receive the Northville Record every week. I can't thank you enough for sending it to me as I enjoy it very much, especially the servicemen's part. I like to know where my buddies from Northville are stationed.

I have been transferred from the Ordnance Department and am now a Pre-Aviation Cadet. At present I am at Keesler Field, Mississippi. I must close now.

Thanks again for the Record. I appreciate it very much.

Pfc. Don Barnard.

The following letter is from Lawrence Bogart:

I thought you might like to hear from an old friend, so here goes. Well, I am still in the hottest place there is—I believe it is the salt of the earth. I am getting plenty of sun and salt water. I wish to tell you of my promotion from 1/C Seaman to 3/C Shipfitter and I am glad I made it. Best of luck to all my buddies in the service and in the same town. Good luck.

Yours truly,
Pfc. Kendall Daly.

I would like you to change my mailing address for the Record from Charleston to Fort Lawton, Wash. I sure enjoy the Record as it keeps me informed where a lot of the service men are and maybe sooner or later I'll find someone from Northville near here and then I can renew old home town joys.

Keith Avery's family had a letter from him last week from Italy. They were happy to hear from him because it was the first letter in five weeks and he

had his address now and are going to keep in touch with him. Well I must close as I have a lot to do. Sincerely yours,
Howard McMillan, S 1/C

I haven't written to you thanking you for the great service you are doing for the men in service. I appreciate it and I know everyone else does and I would like to thank you. I ran into Myron Utey the other night in my travels and I can tell you we were pretty glad to see each other. We went out together for awhile and I enjoyed myself. We went to see Chuck Woodard over at a base and I talked with him awhile. I have his address now and am going to keep in touch with him. Well I must close as I have a lot to do. Sincerely yours,

I havent written to you thanking you for the great service you are doing for the men in service. I appreciate it and I know everyone else does and I would like to thank you. I ran into Myron Utey the other night in my travels and I can tell you we were pretty glad to see each other. We went out together for awhile and I enjoyed myself. We went to see Chuck Woodard over at a base and I talked with him awhile. I have his address now and am going to keep in touch with him. Well I must close as I have a lot to do. Sincerely yours,
