**NORTHVILLE'S YESTERDAYS**

**1 YEAR AGO**

An 18 hour blizzard swept over Michigan the last half of the week. A strong wind lifted in the north and south roads here with drifts and around four inches of snow fell. The thermometer on Thursday morning stood at 11 above.

The double ring ceremony solemnized in St. Paul's Lutheran Church united Eleator Lillian Westphal and Clyde Detloff in marriage.

Ben Duguid in his senior year at Albion was cited as one of the outstanding members of the basketball team. He played guard position.

**45 YEARS AGO**

An honest to goodness surprise was perpetrated on Mr. and Mrs. Frank Thompson when sixteen of their fellow members of the Young Men's Club took possession of the partly dismantled home for a farewell good time. The last of the floor coverings were missing and everything in a "moving" condition only added to the enjoyment. Mr. and Mrs. Thompson and daughter and Mrs. Thompson's mother, Mrs. G. G. Hill, were the last to leave their new home in Lansing.

The most cordy number ring, 31, The Young Men's Club.

Some of the best of the year they had collected 175 pounds of war bonds and 1945 pounds of war stamps. They wish to thank all who have contributed; they will set up a museum.

Patrol No. 1 will take Dec. 7 at the home of Lucy Griswold.

**THAYER SCHOOL**

By Clárbelle Van Bonn

We are making plans for our Christmas program which will be given Thursday evening, Dec. 23 at 8 p.m.

We are making a study of Russia. Our teacher obtained a very fine book for us pertaining to Russian customs, ways and modes of living.

For the months of October and November our war savings stamp sales amounted to \$48.97.

We are making Christmas cards for the Junior Red Cross to be distributed to hospitals for crippled children and soldiers.

The honor roll students will be given in the next school paper.

ABOUT the only time he can get to the telephone is a few short hours in the evening. That's when thousands of other boys in the camps want to use long distance, too.

Any time you are not on the lines, there's a better chance for a soldier's call to get through.

So unless it's urgent, we hope you won't be using long distance from 7 to 10 o'clock at night. Save those hours for the service men.

Who is the LIGHT-SAVING WARDEN in your house?

It's an important job, these days—seeing that light bulbs and reflectors are kept dust-free (you get about 1/3 more light for the same money), turning off lights in unoccupied rooms, basement attic, etc., and keeping a watchful eye on the household use of electric appliances.

Why is it important? Because COAL is the principal raw material in the production of electricity, and thousands of tons a day are burned in the four large Edison power plants. There is no shortage of electricity—but when you save electricity you save coal and manpower, and transportation needed for war. And whether you save it by the more careful use of electric appliances, or by turning off the radio when no one is listening to it, or by "sharing the light" of a lamp so that two or more persons can use it, you are making a direct contribution toward winning the war.

Be your own "Light-Saving Warden" and help make this nationwide conservation program a success. The Government asks the help of every one of us in this worthwhile effort. Here is a chance to make VOLUNTARY rationing work. The Detroit Edison Company.

CONSERVE ELECTRICITY Even a 5% saving in the monthly use of electricity by Detroit Edison customers will save about 190 CARLOADS OF COAL PER MONTH 1,800 TRAIN MILES 14,000 MANHOURS

**REMEMBER BUY An Extra BOND This December 7!**  
 A date to remember by ACTION, not words! Our boys on Wake, Guam, Corregidor . . . in the entire Pacific area have been doing something about it - dropping their bombs, and sinking their bayonets and pouring out the lead of their rifles in payment to the enemy. We at home have to do something about it - until the day of Victory! We have to stick to our "battle stations" in whatever kind of war job we are doing. We must redouble our efforts in Civilian Defense, we must salvage metal, paper, fat, as though our lives depended on it - because they do. And above all - WE MUST BUY WAR BONDS - and buy them continually until the war is over.
