

**WINNING THE WAR IN 1944**  
WITH NORTHVILLE'S MEN AND WOMEN IN THE SERVICE

Ensign Vernon Bidak, naval aviator, spent part of his last furlough here this week with the Tunis Division. Upon leaving here he will go to his home in Montana for a short visit before reporting for duty in San Diego, Calif.

Gordon Banks, who is on combat duty in Italy sends thanks in a letter to his mother, Mrs. Ed Masters, to Northville friends and neighbors, and the Blue Star Mothers, for all the gifts and messages he received at Christmas time.

Don Van Sickle writes that the Record has finally caught up with him in the Aleutians.

Howard Beach has been transferred from North Africa and is now in India.

Camp Joseph H. Pendleton "I have seen in the Northville Record, where some of the fellows are telling of their training while in the service. Well, in the year and a months I have been in I've kicked around quite a bit. Maybe my training and what has happened to me will interest some one.

To begin with, I enlisted Sept. 19, 1942; took my physical Sept. 21; finally was called and sworn in on Nov. 2. Those dates are pretty well fixed in my mind. I entered boot camp Dec. 1; our platoon followed the regular schedule, marching, bayonetting, running the obstacle course, making regular visits to the loon docks. Taking all sorts of tests. Rifle inspections, physical exercises and last but not least, we double timed all over the place.

On Dec. 24, Plt. 1142 arrived at the rifle range. We were accompanied by a drizzling rain that dampened our spirits considerably. We spent a week on the school range just to get used to our rifle. Then four days were spent on the rifle range, just firing. Learning how many clicks left or right, windage to use and how much elevation is needed at 600 yards with a 6 o'clock wind blowing. On our last day we fired out of a rifle 319 points. Then back to San Diego to get our finishing touches and our orders as to where we'd go when we broke up. About this time things looked pretty bleak in the South Pacific. Many were wondering if the whole platoon wouldn't just join a regular outfit and go overseas. Our orders stated that we'd be sent to the 250th Marine Battalion. I was sent on what was called a special detail to Mare Island. Arriving there I was put in the Second Guard Co. and every other night later and about 11 p.m. getting paid. Things were good here. San Francisco was 60 miles away to the north. San Francisco was to the south. Oakland, Vallejo, Berkeley and Richmond were in easy reach by car. Incidentally, a service man judges many places by what's in those places. He catalogues them and puts them away in his mind. Berkeley was full of girls, due to the college there. Frisco was really nice. U.S.O.'s and Richmond had awfully friendly people and a favorite little dance hall of quite a few of the marines.

At Mare Island I saw a very small part of the army workers on the home front. I saw American's production at the utmost. I saw what were once proud ships of the sea come limping into dry docks to get repaired and go out and battle some more against the so called, self-named "Yellow Sons of Heaven."

I stood guard duty at Mare Island, 24 hours on and 24 off. It was there I learned many of the weapons that the Marine Corps has. I learned "Judo" handling, with short clubs. I learned how to kill a man with my bare hands in three seconds flat.

After about 5 months there I heard that Bill Suttan had left for boot camp and I made up my mind to look him up if I ever had the chance.

After seven months of duty there I was transferred into the 23rd Marines, 1st Bn., Co. B., an infantry Co. Here my training as an assistant BAR (Browning Automatic Rifleman) began. I like it even though the death rate is rather high. I walked and walked. Over mountains and down ravines. I learned to sleep outside in the open without a blanket or anything over me. I learned many things; went on bivouac for days at a time. Even learned little things such as if you're in the water swimming and you suddenly get a knot in your leg, and are giving out, remove your pants, tie a knot in each leg, hold them by the waist, lift them over your head and bring them down in the water. Then just grasp the waist, shut. You will find air in each leg, forming a very nice pair of water wings! Little things - but some day probably will help you live a lot longer.

We are encouraged to read the Bible and attend church. Our officers realize that belief in our Lord makes a better fighting man.

Well, I have to go, I wish to thank you for the Record and hope in the future I may be able to write something more interesting. Thanking you again for the Record.

**Local Movement for Erection of Honor Roll Board on Main Corner Gets Underway**

**Party February 4th**

The movement in the village started a few weeks ago jelled last week and arrangements are now in full swing for the raising of funds for an Honor Roll Board. The plan in brief calls for a good sized board to be erected on the north side of the parking lot at the corner of Center and Main, approximately 12x30 feet, located about the center of the lot with tallis work and fence from board to the ends of the lot. The board will have projected on it a map of the world and on either side of the map will be arranged the names of servicemen in columns of plaques. At the top, over map, 8x12 feet in size will be the name of the board, Northville Roll of Honor, and below it some line emphasizing the fact that the board names the men and women of the township and village serving in the World War II, and an explanation plus a sentiment stressing the fact that Northville serves Democracy all over the world, and a further explanation of the fact that the small marker placed in the several regions indicate where Northville men and women have been serving in the armed forces of the United States.

**4th WAR LOAN**

TREASURY DEPARTMENT  
DEFENSE SAVINGS STAFF

OFFICE OF STATE ADMINISTRATION

TO THE MEN, WOMEN AND CHILDREN OF MICHIGAN

LET'S ALL BACK THE ATTACK

That is the national slogan of the Fourth War Loan Drive. It is up to us to prove with our dollars that it is not merely a slogan. We can't win this war with brave words.

Backing the attack to the limit of our ability would mean an avalanche of dollars that would make our Fourth War Loan quota of \$40,000,000 look like a mere minor objective on the tough, hard, and long road to Victory.

Backing the attack means putting into War Bonds and Stamps the dollars and dimes and pennies that would otherwise go toward things we can't do without.

Backing the attack means wanting to win the war so much that we are all willing to do something about it!

Backing the attack means saying "yes" to the members of the volunteer War Bond Army who will ask you to buy -- saying it quickly and eagerly so that they can go without loss of time and with quickened pulse to the next patriotic American to whom they offer the best investment in the world.

Backing the attack means just exactly what it says. The men of our Fighting Forces will soon be engaged in the greatest attack in the history of the world. Are we with them?

Backing the attack by buying War Bonds means that we are --

Backing the attack with dollars which mean Victory.

Sincerely yours,  
Frank H. Isbey, Chairman  
War Finance Committee

Quota Set for the Village is \$135,000; School Gets Running Start at Offset with First Day Sales

**Show Sales Sticker**

Northville's schools, Blue Star Mothers and Gallants are off to a flying start as localities rush to the action on the opening day of the 4th War Loan Drive in the community.

Previous to the opening of the drive the committee of Blue Star Mothers was coached, and set for the big job. At the school all quotas were set and every child enlisted to raise the quota set for that group. Among the Gallants' businessmen and employees set under motion. It is thought about \$10,000.00 was sold Wednesday.

**Five War Bond Prizes**

To implement the local drive five war bonds of equal value in war stamps are offered. The American Legion Auxiliary and Ray and Fred Casterline have offered a \$25 bond each to the Blue Star Mother selling the largest number of bonds, and also the one selling the greatest amount in bonds. Austin Van Hove and S. L. Brider are offering two sets of Star prizes each totaling \$25 bond value for the grade and high school competition. The bond offered by Gallants will be given to Gallant or registered volunteer worker selling the largest amount of war bonds during the drive.

It will be noted in the large advertisement this week that \$25.00 Blue Star Mothers are awarded in the drive. Mrs. Raymond Crosby of 415 1/2 Grandlawn.

People purchasing bonds are requested to ask to window stickers, and display them.

**Election May Be Necessary in Township**

The Wayne County Prosecuting Attorney's office has clarified the question of election of township officials this spring. According to the ruling unless altered by the legislature, if petitions are filed for the office of Justice of the Peace or Members of the Board of Review an election will be necessary.

In other words the laws providing for two year term of township officials did not change or alter the section covering Justices of the Peace or members of the Board of Review. Therefore the two year term applied only to township supervisor, clerk, treasurer, highway commissioner and for these officials an election need not be held until 1945. As the other offices were not included in the new law, and are governed by other laws and sections of the statutes, if petitions are filed, an election must be held unless the legislature further amends the law.

**Attend Fair Ass'n Meeting Tuesday**

A large delegation of Northville men attended the annual meeting of the State Fair Ass'n and County Board, held in the Fort Shelby hotel Monday and Tuesday. Included in the group were members of the local fair board as well as citizens of the village. Some of those who went were Dr. L. W. Snow, Luther Lapham, E. P. Yerkes, Claude Ely, Arthur Schutte, Carl Ely, E. M. Starkweather, Crow Owen, Fred Lyke and George Locke.

**Mail and Rail Schedule Changed**

The Northville branch of the U. S. Post Office announces new schedule for incoming and outgoing mail which will be effective this week. Mail will be sorted and ready for patrons to pick up at 8 a.m. from all points; 11 a.m. from south; 2:45 p.m. from all points; 3:30 p.m. from north. Mail will leave Northville at 9:30 a.m.; 10:45 a.m. from all points; 2:15 p.m. from all points; 4:30 a.m. from all points. MAIL TRAIN "100" is scheduled for 10:15 a.m. and "104" for 3:06 p.m.

**Will Announce Free Show for Bond Buyers**

**World War II BLACK DIAMOND:**

**Help to save coal by conserving electricity**

Long ago, coal acquired the title "BLACK DIAMOND." Coal is precious today because it is a critical war material, because it is needed to run steel mills and railroads and power plants as well as to heat our homes.

Thousands of tons of coal are required every day in Edison power plants to make the electricity used by war plants and homes and business places in this area. If you use less electricity, less coal will be burned. The problem is as simple as that. Anything you can do to save electricity also saves coal.

That is why the Government asks for the utmost conservation in your use of electric power. Be careful in your use of electric appliances and equipment—turn off immediately when the task is completed. In home or office or factory, turn off lights not in use. Clean lamp bulbs and reflectors regularly. Don't leave the radio turned on when not listening to it. "Shave the Light" so that one lamp can serve two or more people.

These things are small in themselves. But this conservation program, which includes ALL utility services, will save thousands of tons of coal vitally needed for war. The Detroit Edison Company.

**CONSERVE ELECTRICITY**  
 Even a 5% saving in the monthly use of electricity by Detroit Edison customers will save about 190 CARLOADS OF COAL PER MONTH

One owner reports this week that he has used only five tons of coal for this year, as compared to ten last year. Another reports only 1-1/2 of the most consumption since he insulated their home. Besides, in both cases we eliminated drafts and they are more comfortable than ever before. The Booth Insulation Company of Detroit, installed both of these homes with naturally installed Rock wool and will gladly give you their names. Call Northville-2139 and let us estimate the cost of making your home warmer this winter and enjoy the rest of the year. There is NO COST or obligation.
