To all the people in Northville "Well I find I have some spare time on my hands at last. The best way to spend it is to catch up on my correspondence. To start with I want to thank the Blue Star Mothers of Northville in appreciation for the Christ-in-the-home service they are giving. Next the Rotary for the edition sent me containing pictures and letters. I also appreciated that very much and I am sorry I could not cooperate with the plan in writing. Circumstances and time would not permit me to write. Incidentally today, Feb. 11, is my birthday. I must say it is a heck of place to have one and the weather is awful. That's about all thanks to the Blue Star Mothers and Rotary for the services they are rendering us."

Received your card today and am sending it back by air mail so you will get it within the 30 days as I would sure miss not receiving the Record. It brings a bit of home with it in every issue, and all those bits really add up. I have been here in the Islands but a few months and am enjoying my stay very much although it isn't a vacation. My address has changed several times since arriving here but I hope this one lasts for awhile although it seems that the Army enjoys moving you around. I sure wish I could tell you more about this place but you know the old saying about keeping the lip zipped. So until next time.

"Well, Sarge, I was thinking about calling the folks when I get off tonight"

If you were away in camp, you'd know how much that call means.

You can help the service men by not making any casual Long Distance calls between 7 and 10 at night.

That's when most of them call and there's a big rush on many circuits.

"So little can mean so much—when you give through your Church."

HUNGRY IN BODY AND SPIRIT

they look to the Church for sustenance

Throughout a war-torn world—in greater and greater numbers—suffering humanity is turning to the Church for help and comfort.

In the conquered nations of Europe—in China—in the liberated territories ravaged by war—millions see in the Church their hope of rehabilitation.

We must not fail them! We who have escaped the physical ravages of war must come to the aid of those whose faith has been sorely tried, and whose freedom of worship has been denied.

We must see that the starving peoples of the world have food to live :: that their spirits are given hope and strength to re-establish their dignity as free men.

The Church has always played a major role in this task. Today, in this time of crisis, the need is desperate. Help your Church to meet this need now!

* * *

So little can mean so much—when you give through your Church :: it can prevent a child from starving :: give a war prisoner new hope and a job :: treat civilians for shell-shock :: provide a missionary or relief worker clothes to replace his worn-out ones :: bring shelter to a war waif separated from its parents :: enable a dazed refugee to find a home and regain his self-respect.

Send your gift to your denominational relief committee—today!

TODAY—yours is the proud responsibility

of helping to support your Church—of giving at your time, your interest, and your financial aid.

This week, and every week, attend Church regularly with your family. Make its principles a part of your daily life; make it work your work. For now more than ever, the Churches of America—and your Church—have the task of ministering to a war-torn world, and you are called upon to share in this task.

Non-Partisan News Letter

lasing prior to the American elections in November, the effect of invasion and battle casualties cannot be underestimated. Nearly all straw votes taken among American soldiers at fighting fronts disclose a substantial trend towards re-election of their commander-in-chief, the President.

We are now told that the army was short 200,000 men from its 600,000 man quota for the last four months of 1943. Hence the need exists for elimination, this saving for many occupational deferments. What we tend to forget however, is the existing and arbitrary necessity of releasing each man who is killed wounded or incapacitated by illness or nerves. This need of military re-deployment is announced by the war department to be 12,000 to 15,000 men each MONTH. War is like a modern football game; it's the resources that count.

The sobering effect of the new statistics on Michigan's manpower situation is apparent. If the 500,000 citizens are able to serve to remind us also that instead the Allies double to capture two fronts without call for President Roosevelt to act.

What will be the effect on those and a sustained national battle on Michigan's public opinion? If the 500,000 citizens are able to serve to remind us also that instead the Allies double to capture two fronts without call for President Roosevelt to act.

Can You Picture MICHIGAN without Doctors?

Today, Michigan's doctors and nurses and the hundreds are serving with our Army and Navy from Alaska to Iran, from Australia to Italy—bringing back to health the men who are helping win victory for the United Nations. But on the home front, other thousands of doctors and nurses are fighting doubly hard to keep their fellow-citizens of Michigan in good health—doing everything in their power to prevent or minimize interruptions in our State's war effort.

In a very real sense the well-being of all of us in Michigan is in the capable hands of approximately 6,000 physicians and surgeons and about 14,000 nurses. At their disposal are the facilities of 252 hospitals which have beds for nearly 60,000 patients at one time. In an average year, more than 525,000 patients are admitted to these institutions. To the Michigan Department of Health

goes well-deserved credit for the high standards of medical care prevailing in our State.

We of the Greyhound Lines pay tribute to these fellow-citizens of ours who are doing so much to make our State a finer place to live in. They're doing a big job—a vital one. Greyhound's job is quite different—but vital, too! Providing safe, convenient transportation service is particularly important now. By making near neighbors and good neighbors of all the communities we serve in Michigan, we are helping unify the war efforts of this State—keeping them rolling toward Victory!

ever uttered assurance that 1944 will bring victory. In fact, the British and American Commanders-in-Chief recently cautioned their respective nations against optimism that the war will be won in 1944. If war workers accepted such a realistic view of the task ahead would they persist in quitting their jobs through unauthorized strikes?

Edwin E. White, retiring chairman of the Michigan regional war labor board, blames the increase of Michigan industrial disputes on the 1944 state of public thinking. "The basic cause is that here, as elsewhere in the country, victory seems to be taken for granted. More and more people are thinking of each man who is killed wounded or incapacitated by illness or nerves. This need of military re-deployment is announced by the war department to be 12,000 to 15,000 men each MONTH. War

is like a modern football game; it's the resources that count.

Good Times at Open House

Attendance at the open house recreational project in the Scott Building last Saturday evening was just double that of the previous two weeks. To quote one of those present that evening, "that had a rattin' good time." That is exactly the aim of the local adult and school committees who have charge of this weekly event which is open to all young folks of the Northville High school. Peg meetings, held at the school house last week in a drive for larger attendance, was no doubt responsible for the increased numbers who turned out for the good Saturday evening. Mr. and Mrs. Ellison will again be on hand for this week's program.

Parents' Class to Start Sunday
"Guiding the Religious Growth of the Child" is to be the emphasis for a child study class for parents to be held each Sunday morning at 10 a.m. in the Presbyterian Church parlors. It is part of the Lenten program being sponsored by the Wells Yerkes Auxiliary. A leading authority in religious education, Mrs. Paul H. Scott, who is now living on the Eight Mile Road, will be the leader. It is designed as a discussion group for mothers and fathers and will be open to all adults.

Dr. R. M. Stevenson and Mrs. Stevenson left Monday night for Orlando, Fla., where they will visit Mr. and Mrs. Roger K. Hall, the latter was formerly Rev. Jean Bill of East Eight Mile Rd. The doctor expects to take a vacation of six to eight weeks and plans to return to Northville May 26. During his absence the office will be in charge of the staff. Mrs. Richard Baldwin came from Ann Arbor to help with the work.

The Blue Star Mothers No. 1 chapter will meet next Monday evening Mar. 13, at the home of Mrs. F. H. Johnson on 12th Street. Windmill luncheon will be followed by the regular business meeting.

THE COAL MINER

supplies your
electric refrigerator!

In thousands of homes, electricity performs the vital job of keeping foods fresh and guarding perishables from spoilage. And COAL is required to make electricity—as well as manpower, transportation, and other critical resources.

The Government asks everyone to save electricity to save coal. You can conserve in the operation of your refrigerator by defrosting regularly. Don't keep a "snowman" in the refrigerator; heavy frost on the cooling coils makes the motor run overtime. Open the refrigerator door as little as possible. Don't overcrowd the shelves, and don't put hot foods in the refrigerator to cool. Save electricity whenever and wherever you can—in home and store and factory.

At the committee of awards last week thirteen of the sixteen members passed their tests to qualify for rank. These rank honors and the accompanying beads will be awarded at the County Council Fire in Pontiac on March 17.

Several other rooms reached 97% and 98% in contribution. This drive was sponsored by the Junior and Senior girls of the Red Cross Home Nursing course taught by Miss Ruth Knapp of the school faculty.

Easter Seals

(Continued from front page) County and local units will close Easter Sunday.

During these weeks before Easter the annual sale of Easter seals calls our attention to the many problems occasioned not only by the growing up of crippled children, but to the problem of those young adults who have been injured either in battle or in the stepped-up tempo of wartime industrial life.

Pointing out that last year approximately 225,000 civilian workers in the United States suffered permanent physical disabilities of such a nature as to make their re-employment a special problem. One of the most acute wartime needs is that of readjusting disabled youth to the world in which they live so that they can become normal producing members of society.

Mr. Schmitz said that his committee composed of R. H. American, E. M. Bogart, Conrad Langfeld and W. H. Canfield of the Rotary Club is cooperating with all agencies, both public and private, in a program to solve the problem of rehabilitating crippled children and handicapped adults.

Meadowbrook

(Continued from front page) offer services unequalled in the district. A few class B memberships are available.

At the board meeting President Langfeld appointed the working committees for the coming year.

Introducing

Mr. and Mrs. W. P. Kuehner have purchased the Vernon M. Edgman home at Sheldon road and will take possession May 1. The Kuehnens, whose two sons are in the Army, will come home from Detroit. They formerly lived in Belleville. Mr. Kuehner is in the motion picture interests in east Belleville and Detroit.

The Pilgrims who have lived in Wayne County for twenty-five years, built the home off Sheldon road in 1930 and with their two children, Vernon Jr. and Shirley, have lived there ever since. They will leave here about the first of May for San Francisco, where Mr. Pilgrim, long in the building business here, will report for assignment on government building projects in the Seattle-Portland area. The Pilgrims will make their home in Seattle.

Friday, Mar 3, the S. P. C. A. club had some very interesting slides. Mr. Van Hove, lawyer, showed the slides, colored, taken on a trip of his about three years ago. The trip was in the eastern part of the States and the pictures showed many historical places, such as the Bridge of Concord, the "House of Seven Gables" and homes of famous authors. The Club thanks Mr. Van Hove for showing the slides.
