Legion, Scouts, Cubs Plan for Community Drive at Request of Government

Answering the call of Uncle Sam for more waste paper to help out a critical situation Northville will stage another paper drive on Friday and Saturday, April 21 and 22. The drive will be sponsored by the American Legion Post with the cooperation of the Scouts and the Cubs and their leaders.

The plans are being worked out by the committees and districts, gathering points named, personnel assigned and other necessary arrangements worked out. The proceeds received will be divided evenly between the three groups actively engaged in the project.

Just now the Scouts, Cubs and Legionnaires are putting forth every effort to do a real job.

The matter of salvaged deposits, where people may bring contributions of tin cans, waste paper, scrap iron etc. now awaits only final arrangements. It is hoped that these deposits will be situated on Westford, on West and East Seven Mile road and in the building opposite the Bowling alley on South Main street.

In these places people coming in town may leave their salvaged materials as they are able and wish to dispose of them, and also know that the materials left will be taken care of promptly and get to the places where they will do the most good. As trailer loads are accumulated all during the summer and winter the salvage will be taken and disposed of promptly.

A MEDITATION FOR EASTER SUNDAY

by Rev. Lloyd Young, Pastor Baptist Church

"That I may know Him, and the power of His resurrection." —Philippians 3:10

AS THE apostle here touches on the doctrine of the resurrection of our Lord, it is described as a living force in his own life. No dry theological concept is this. Rather, it is the very power of Paul's Christian experience.

The Sun is to the vegetable world, a great quickener. In this month of April he goes forth with life in his beams, and we see the result. The buds begin to burst, the flowers to smile, and the hidden seeds to feel the vivifying warmth. In much the same way the power of the Risen Son is the quickening force in the heart of man. As Christ's power brought him from the dark tomb into life, so the power of the risen Christ is able to lift the human soul from the dark recesses of spiritual death into a new life in Him.

It is this power and this alone that is able to transform lives. As the Spirit of Christ breathes on the human soul, "dead in trespasses and sins," regeneration takes place—and spiritual life is imparted. No human effort is able to accomplish this—it is solely within the power of our risen Lord to make anew the mind of man. Is it not unfortunate that as once coal was burned to generate electrical power on the very brink of Niagara, so man continues to attempt that which the power of Christ is alone able to effect?

If, in the very extremity of His weakness, our Lord had the power to rise out of the sepulcher, what can He not accomplish? It was He who declared that the empty tomb was not a cavern but a thoroughfare. God grant that the symbol of the empty tomb may prove to be the channel of great power and blessing to the hearts of men.

Date of Tin Can Pickup April 14

Date Changed from 15th to Aid in Work of Coordinating Village Pickup

The tin can collection date has been moved from April 15 to Friday, April 14, in Northville. The reason for the change in date is the fact that the can in which the collection is to be loaded, must be moved from the siding by noon on Saturday.

Mrs. Ward Masters is chairman for this project which is sponsored by the Northville Women's club. Mrs. Masters reports an estimate of between ten and eleven tons of tin cans donated and collected here in Northville during the last year.

The last collection in the village was made Jan. 15 and totaled two tons. The same method of collection used at that time, will be followed next Friday, with Earl Montgomery and crew of village workers picking up the cans from curbs. Cans should be cleaned and flattened by the householder, then placed at a convenient spot for the pickup.

Friday, April 14, is the date.

NEW BUS STATION

The Greyhound bus, running from Ann Arbor to Pontiac, now stops at the taxi station at 113 W. Main street; passengers may buy tickets and use the waiting room there. This is a great convenience for the traveling public.

Good Novels at Northville Library

Thornapple Tree, by Grace Campbell. A tale of frontier and pioneer life in Canada one hundred years ago.
Citizen Tom Paine, by Howard Fast. To the ever-increasing number of books that deal with the events and personages of our own brief American past, the author has made an interesting and valuable addition with his fictionalized biography of Thomas Paine.
Centennial Summer, by A. E. Joell. All eyes were focused on Philadelphia in 1876 when the centennial was celebrated and the reader's attention is focused on the Rogers family, father, mother, daughters and their suitors, and a pair of live-in twins. When mother's sister comes from Paris to visit and finds that her husband is not the household he once was, it is as fast moving and full of humor.
The Spanish Lady, by Maurice West. The story should not be read as a murder mystery, having been written as a police love story in modern dress; but it cannot be denied that the action is noticeably enhanced by the appearance of the girl, Atlantic Monthly.
The Human Comedy, by William Faulkner. The setting is the California town of Ithaca, the time the present and the past, the characters, dominated by the McCarley family, dominated by the author with loving and realistic care. The father, Mr. McCarley, has died before the story begins, leaving a girl and a young understanding wife to bring up four children, Marcus, William, the Army, the Navy, the Air Force, Homer (Savoyan himself), messenger for the local Postal Telegraph office, and four-year-old Ulysses.

Veterans May Ask Tax Exemption

Procedure for Proper Filing of Request Is Told As a Reminder to Veterans of Community

This is a reminder that the time is short for War Veterans and widows entitled to tax exemption to complete their application which must be made by the completion of an affidavit before the local assessing officer prior to April 30 in order to secure exemption.

Veterans of past wars and the unmarried widows of the Veterans of these wars are entitled to \$2,000.00 tax exemption on Real Estate used as a home—stead where the entire taxable property of the applicant is not valued at more than \$5,000.00.

World War I Veterans and World War II Veterans who have been discharged more than one year are entitled if they have a service connected disability recognized by the Veterans Administration for a non-service connected disability for which a pension is paid.

In all cases except World War Veterans, all that is necessary to secure the exemption is the completion of the affidavit before the local assessing officer and the furnishing of the evidence such as the Veteran's discharge, the title of property, and possibly the marriage certificate in case of a widow. Veterans of World War I and World War II who have been discharged more than one year must first secure from the Veterans Administration at Dearborn a certificate setting forth that they either have a service connected disability or are receiving a non-service permanent and total disability pension. These certificates can be secured by writing to the Veterans Administration or to Veterans of Foreign Wars Veterans Administration Facility, Dearborn, in the following form:

Worthy quotations from Michigan people in the news: "I want to get my feet on the concrete before I die any more," Dr. William DeKline, Michigan's new health commissioner who was named director of the American Red Cross.

all thought of retirement from office of auditor general for at least another two-year term. "Draft boards fail to realize that if they sent all their men of draft age to pre-induction examinations, close to half of them would be rejected, so the draft is not cutting as deep as some people fear," Brig. Gen. LeRoy Pearson, state director of selective service, commenting on the 1944 draft of pre-Pearl Harbor fighters.

"Until a few years ago it was necessary to get the farmer out of the mud. These needs have largely been met. Today's need is to get the motorist out of the urban traffic jam," Mayor Jeffries of Detroit in appeal for federal funds to acquire Detroit right-of-way.

"It would be political suicide

for a Nebraska candidate to advocate state aid for local governments such as you have in Michigan. It just doesn't exist in Nebraska," Gov. Dwight Griswold of Nebraska during visit to Michigan.

"This life is not conducive to the health, morale and normal routine of existence," Winning appeal of Detroit Federation of Musicians (AFL) for two weeks' annual vacation to bandmen at Strip-tease burlesque theatres.

"Republicans opposed to bossism will have better than an even chance in the state convention at Detroit, April 20, to accomplish the retirement of Frank D. McKay, as national committeeman," John A. Wagner, Battle Creek chairman of anti-McKay forces.

"Today, the Republican voters want Dewey. Their voice must guide the convention," Gov. Harry F. Kelly, chairman of the Michigan delegation to the national convention.

"Any shrewd politician knows that Willie and Vandenburg could not have carried Michigan in '40 but for my help," Gerald L. K. Smith, Detroit organizer and director of America First.

"We already have indications that postwar cars will cost around 25 per cent more than when we started making cars two years ago," George T. Chantry, president, Packard Motor Company, Detroit.

"We are trying to force as fast as we can what the problems of the future are likely to be and to anticipate common, general objective," Dr. John A. Harshbarger, Michigan State College, explaining the college's new program for two-year education.

"The weeks are flying by and I am not getting any older. Today I am not as old as I was a year ago and I am not as old as I was a year ago," Dr. William DeKline, Michigan's new health commissioner who was named director of the American Red Cross.

"Only as a mood of high seriousness can people face their principles for more than a few golden moments in Sunday. Yet face them we must, because we are called on to perform prodigies in the field of works. And the works will not be accomplished unless we first renew our faith."—Herbert Agar, from his book: A Time for Greatness.

FAITH ALONE CAN GIVE A MEANING TO OUR FUTURE

In the middle of chaos, this we know: that out of the holocaust of war will spring a new and startlingly different world—a world miraculous with man's material discoveries and progress.

Forces hitherto undreamed of will be put at our disposal. We shall have new weapons against poverty and illness. Conquest of time and space will bring us closer to our fellow men—will give us greater opportunities for living gracefully and happily.

Yet if we are to build a world where freedom and security are more than words—we must return, humbly and simply, to the faith that is the core of our American tradition.

For faith alone can give a meaning to our future. Faith in the God of our Fathers and the everlasting Truths we learned as children:

The seeds of tomorrow's world are being sown today—in the hearts of men of good faith everywhere. And there is one thing all of us can do to foster this crescendoing tide of faith in God: And that is—go to Church this Sunday—and every Sunday.

Share with others in a quest for the spiritual strength and inspiration that alone can bring true victory—and give a meaning to our future.

Our Boys Find Hope In Easter PRAYER

Let us at home also find hope in prayer this season. And it will be well to keep uppermost in our minds the story of His resurrection. For though we may have lost a loved one on a far-away battlefield though we may never again see him on earth, true faith in Christ's coming and return will give us courage to forestall this life—and after—with strength and steadfastness.

Many West Point Park folks are wondering what they can do about the waste paper they have collected. It was expected the Scouts or Cubs would be on the job but it seems there is no place available for local storage. No one has much gas to spare and the value of the junk dealer is few and far between.

Round-Up

Salad oil spread on the surface of farm-cured ham will delay development of surface mold for several weeks, the Department of Agriculture says. WPA has commissioned 15 million pounds of black pepper from importers and holders to supply U.S. requirements and commitments until about 1946, power production in 30 Bureau of Reclamation Power Plants has increased 275 per cent since Pearl Harbor, according to the Department of the Interior. The War Manpower Commission predicts that before the end of the summer, 700,000 men and women will need to be recruited to work in canneries and food processing plants. Only when present rear-wheel tractor tires are worn beyond recapping stage may ration certificates be obtained for new replacements, OPA says. WPA says that barbed wire and woven wire fencing may now be made in heavier gauges such as are needed to confine hogs and cattle, and standard weights of zinc coating may be permitted. Production of home canning jars and closures has tripled in the past three years and is now keeping pace with increased demand. Permission has been granted to manufacturers to make more and better quality bedsprings and box springs. U.S. monthly war expenditures hit a new high of \$7,898,000,000 in February.

More Income Tax Information

While the majority of the nation's 60 million taxpayers will find their 1944 federal income tax obligations taken care of by withholding by their employers, an estimated 15 million will be required to file declarations of their estimated income of 1944 by April 15. Declaration forms are being mailed by the Bureau of Internal Revenue to all persons who filed declarations last fall. The first quarterly payment of estimated tax shown to be due on the declaration should be made at the time the declaration is filed, the other payments to be made on or before June 15, September 15 and December 15. Farmers who receive more than 80 per cent of their income from farming may postpone filing their declarations until December 15. However, if they wait until December they must pay all of their estimated tax at that time.

What important item COSTS LESS TODAY than before the war?

Electricity!

Look at the chart above. The upper line represents living costs as far back as 1914—including rent, food, clothing, household furnishings, etc. Notice the mountain peak during the first World War, and the rising slope during the present war. These upward curves mean money out of your pocket. You pay more and more for the things you buy.

Now look at the bottom line of the chart—the one headed steadily downward. That is the average price of your residential electricity since 1914. Thanks to rate reductions and increased use, your average price of electricity is LESS today than before the war. It is lower in price than even during the depression in 1932. And it is only half the price you paid during the last war. Electricity is cheap.

COUNTY AGENT NOTES

E. I. Bosmer

It is estimated that bees have come through the winter in Michigan with the loss of fewer colonies than during the winters

Heavier winter feeding on honey in hives is apparent leading

to starvation of some colonies which failed to get sufficient fall honey. Beekeepers are advised to check hives since replacements will be difficult to obtain. Beekeepers may obtain 10 pounds of sugar per colony for feeding if necessary. Local ration boards can make sugar available. Farmers making seedlings of various shrubs, have a fine, well prepared seed bed. The soil should be well supplied with plant food and should be sweet. Heavy loams and clay loams should have 300 pounds of more per acre of an 0-14-7, 0-20-10, or superphosphate 13 or 20%. Victory gardeners will soon be plowing or grading their gardens in preparation for the planting of early season crops. The Michigan Garden Guide, Extension Bulletin 258, is available at the County Agent's office.

BIG FROZEN FOOD LOCKER PLANT PLANNED IN SOUTH LYON

- Three South Lyon men, Ed. Hock, George Hock and Robert F. McCrory have obtained Government Essentiality verification to establish a frozen food locker storage plant in South Lyon. They will go under the name of The Lyon Locker Company, and have purchased ample land to house a big locker plant and furnish parking space.
- In order to obtain Government release of materials to build this plant 60% of these lockers must be contracted for and the money held in escrow.
- By way of explanation may we state that this 60% is not decided solely on the boxes rented but it must be 60% individual families. If one family rents more than one box it is still considered only one family on the priority ruling.
- These contracts are valid from the date the plant opens and although the number of boxes rented is not limited they cannot be contracted for more than a period of two years in advance.
- The deposits are to be made and held in escrow at The State Savings Bank of South Lyon, Michigan.
- In the event it becomes necessary, for some unforeseen reason, to cancel your boxes before the announced opening date of this plant your rental will be refunded.
- Below is a copy of the contract and the prices of these boxes are as follows:

\$15.00 per box per year, and
\$13.00 per box per year.

These boxes are all the same size but the \$15.00 boxes are located in a position to make them choice over the \$13.00 boxes.

I agree to pay you therefor a yearly rental of \$_____ in advance and to deposit with you _____ cents for a key to my locker which deposit will be returned to me at the end of the rental period upon my surrender of the key to you.

EASTER

There is no death, who says there is mistakes
Transition for decay.
Eternal life springs everywhere the same
Death's story to dismay.
Promise of everlasting life is writ
Plainly on Nature's scroll,
As with the trees, the flowering shrubs and bulbs,
So is it with the soul.

A period of sleep, of darkness black.
As Calvary's blackest night,
And then the Resurrection's sun shines forth
With God's perpetual light.
Ah, you blind followers of faith, or fate,
Read for yourselves the roll,
How gnarled brownroot, apparent dead, revives,
Thus is it with the soul.

Adopt Health Resolutions

The Wayne County Board of Education and Wayne County Board of Health have each adopted a resolution providing for a cooperative program of public school and public health nursing for the County of Wayne. In this program Miss Georgina Reid, head nurse of the County Board of Education, becomes Supervising Nurse for the County Board of Health. She thus is directing the public health nursing program as well as the school health program under the direction of the County Board of Education. Mrs. Amalia Rogan has been appointed assistant to Miss Reid.

This brings to the County a dual program providing the services of thirteen nurses. The school nurses continue to give their special services to the schools, but also help in the general health program of the County. The Board of Health nurses likewise assist with the school health program as well as the general program of the County Board of Health.

The administration of the County Health program is under the direction of Dr. Donald Littlejohn who has been recently appointed as Director of Health Services in Wayne County by the County Board of Health.

Following are nurses and the schools which they serve in this area:

Mrs. Meta Hoenecke, Home 12:00-1:00 Plymouth 422, Northville Twp. Sheldon; Plymouth Walker, Northville, DeKay, Waterford, Hinman, Trayer, Base Line, Plymouth, Allen, Kenyon.
Miss Mae de Lore, Stark School Livonia 9274, W. Livonia Township; Pierson, Briggs, Livonia Center, Rosedale and Elm, Stark, Newburg.

C.A.P. Seeks New Members in Area

Strenuous Recruiting Effort
 Being Put Forth Among
 Boys and Girls of North-
 ville
 Lieut. Kendall Willis, com-
 mander of the local Cadet
 squadron of the C. A. P., sends
 to the Record the information
 that a recruiting drive is being
 initiated in Farmington and
 Walled Lake. About thirty boys
 and girls of Northville have
 been meeting twice a week to
 instruction here, with Peter
 Perkins and Gerald Wines as-
 sisting in the training program.
 Mastering of a quarter million
 physically fit and mentally alert
 young men and women in the
 United States by the end of this
 year is the aim of the national
 Civil Air Patrol cadet program.
 The Michigan commander is
 Lieut. Col. Ray Baker. The com-
 mander states the CAP cadet
 program for young people of 15
 to 18 years in the 17-year old
 old bracket. The CAP has built
 a tradition of service which is
 respected. This public trust has
 been won by its coastal patrol
 and other flying missions espe-
 cially in Michigan and the Great
 Lakes area. We must continue
 training the high school cadet
 units we have organized and
 our squadrons are expected to
 add to their numbers. This
 corrects rumors to the effect
 that this program is to be re-
 laxed.
 The Civil Air Patrol is now
 recruiting thousands of aviation
 cadets and training other
 personnel. The program is pre-
 paring for career in the air,
 both military and civil.

LOCAL BOWLER MISSES HONOR ROLL

Yale Conroy, while engaged
 in a tournament at Northville
 Center Recreation Sunday, Apr.
 2, narrowly missed the honor of
 becoming first bowler in this
 community to register the mem-
 bers of all bowlers, the perfect
 game, 300.
 After ten consecutive strikes,
 all of which were perfect pocket
 hits, he was tapped in the eleventh
 by a seemingly good
 pocket hit only to leave the 7
 pin standing. He spared on his
 12-ball for a score of 289.

Northville in New Legislative District

The matter of redistricting
 this area and Wayne County for
 representation in the state leg-
 isature was adopted by the
 Board of Supervisors early this
 week. Under the new set up the
 City of Dearborn where the present
 representative lives is dis-
 severed from the district leaving
 the field wide open for a new
 man seeking to represent the
 district at Lansing. Our District
 is now known as No. 7 and in-
 cludes the cities of Garden City,
 Plymouth, townships of Dear-
 born, Nankin, Canton, Plymouth
 Northville, Livonia and Red-
 ford.
 Under the set up, Wayne gets
 21 representatives and a basis
 of one representative to every
 approximately 78,760. The popu-
 lation of the new district No. 7
 would be rated at 20,701.
 In the new wide open field
 Elton Eaton, Plymouth, has an-
 nounced his willingness to run
 and we understand that Jess
 Ziegler, supervisor of Livonia,
 will be a candidate for the leg-
 islative position.
