

WINNING THE WAR IN 1944 WITH NORTHVILLE'S MEN AND WOMEN IN THE SERVICE

Recent news of the Baldwin boys, sons of Mrs. E. T. Baldwin of Albion, formerly of Northville, is that Phil is now a first lieutenant on a flying fortress and commander of the crew, and Paul, who has been in the Aleutians for some time, has just been released from the hospital where he was sent for treatment of a broken foot.

Don Vansickle has sent home to his family some interesting pictures of his life in the Aleutians where he has been stationed for about a year and a half as a technical corporal working on radio operations. He has just been released from the hospital where he underwent a minor operation.

In a letter to his family received last week, John Geraghty says that he has been moved in New Guinea and that he is fine although he finds the climate a bit warm.

Howard Niles, technical sergeant is now at Ballisale Field.

Cecil Nierder, ski-trooper, has transferred from Camp Carson to Camp Hale in Colorado.

A card from Sgt. Martin Breitmeier, from overseas expresses his thanks for the Record. He had words from Corb. Milton Weeks also overseas to keep on sending the home town paper.

Harry Porter, who has been serving overseas with a mobile hospital unit for many months has been promoted from pharmacist mate third class to second class.

I receive the Record every week and enjoy reading it very much. In fact, I just finished reading it and I want to thank my friend, Miss Nancy Deane, for subscribing for the paper. I don't say much about this, but I don't want to talk about it. I would rather be in good luck than any other place in the sun. Thank you very deeply. Lloyd Jackson S-2/C

William Vernon Nash, husband of Mrs. Ruby Winfield Nash, 461 Ridge, Northville, is receiving his initial naval indoctrination at the U.S. Naval Training Station, Great Lakes.

Two brothers, Allen and Robert Goto of Northville, met recently in England after having been separated for over three years. Allen is in the Coast Guard and Robert is in the air force. They looked each other up and finally arranged a meeting point and time. Allen worked well and time. The brothers met as per appointment. Allen has recently been awarded the Purple Heart.

Arthur Hills, Seabee, who has been home on leave following a lengthy stay in Attu, is now in San Francisco, Calif., for a visit and some further training before being sent to a new station.

Pfc. Martin Somers is home on a fifteen day furlough. He will report to Ft. Bliss, Texas, after his leave, having been stationed in California up until this time.

J. M. Edison, Sm 1/C, has been transferred from the University of Chicago to Newport, Rhode Island. He is the son of Mrs. A. E. Schofield of this village.

Dale Bray has been transferred from field artillery to machine gun work, and is serving at a post in the south Pacific. Dale had just finished his junior year's work at Michigan State college when he went into service and the training he received there in Forestry prepared him in this type of work. He is the younger son of Mr. and Mrs. Starr Bray of North Roger st.

Miss Shirley MacLean, who is taking cadet nursing training at Wayne University, Detroit, spent last week end at her home on Fairbrook.

Pfc. Edgar Prom of the Medical Detachment, Army Air Corps at Marianna, Fla., is in Northville, on leave.

Robert McCuskie, S 2/C arrived home early Tuesday morning for a ten days leave from Great Lakes Naval Training Station, having completed boot training. He is the younger son of Mr. and Mrs. Grace McCuskie of west Main. The McCuskie's other son, Douglas, an Army student in veterinary at Michigan State college, spent the week end at his home here.

Pvt. Clifford Smith is home on furlough this week. He is teaching at Ft. McClellan and will return to camp Saturday.

Indiantown, Gap Pa.

Once again I am assigned to a regular outfit and from all appearances I believe I'm through transferring for a while. It was rather a vicious cycle, from school to a receiving company, to an infantry regiment and finally to a particular company.

It has been nearly a month since I received a Record and I am at quite a loss as to what has been going on. A little news reaches me through various correspondence but it doesn't compare with reading the Record. I would appreciate it very much if you would send the paper to my new address.

Frank Huiver

Ft. Pierce, Fla.

I received the Record two weeks now and I want to let you know how good it is to have this means of listening in on Northville. It's pretty easy to lose the home town contacts these days, but this gesture of yours makes things better. You deserve thanks from not only those in the service, but all concerned for morale and its effects are not matters limited to the scope of the servicemen alone.

Ernest F. Bat

Robert Noron, able seaman, is in the Navy hospital at Fairport, Idaho, and will probably be confined there for another week or two.

March 22, 1944

Just a few lines to thank you for the Record as it is a great help in letting a fellow know what is happening to his friends in the Service and at home.

Although I was lucky enough to be in the States for two months after entering the Navy, I never wrote to tell you. I have been busy and seeing and doing lots of things. I received the Rotary Record Servicemen's (Christmas) Edition.

Thanking you again for the Record, as ever,

Jack J. Schaeffer

Pvt. James E. Echart was home last week end on a furlough from his station in Michigan.

Leo Mainville who was to have left this week for service has been notified to wait until further orders before reporting at Fort Sheridan, Ill.

Edward Laid, QM 1/C, is acting as an instructor at a Navy school in Miami, Fla. He is on duty for many months before taking his new assignment. He is the elder son of Mrs. Emma Reid of Fairbrook avenue.

H. Gang, I don't write very often, but I still do get one written occasionally. Have been getting the paper right along and it seems to be all right. O.K. I suppose the gang, what is it, of them is all there and pretty hard printing the stuff for the Crippled Children Society. More power to them. I wish I could have helped, though I must admit it's a little monotonous.

I am feeling fine and hope all of you are well. We are enjoying (as well as possible) some beautiful moonlight nights lately, but there are no beautiful hula dancers to go with it, the way there are in the movies. Of course this isn't the movies, but definitely!

I have been waiting for the paper, which tells about my boxing match, and if you don't print it, I will be just as happy. It was a sorry affair, and I was the best I can say for it. No one got hurt much, fortunately.

From the looks of the honor roll the town must be shy a lot of young men. We have a basket ball court fixed up and I have practiced a little, not much, because I get too stiff and lame—must be old age creeping up.

Just to keep myself in form I have a few tomato plants in back of the tent and they stand nearly chest high, haven't any sign of blossoms on them yet. I guess the soil is too rich and they can't stop growing.

Well gang, I guess I will close for now, hoping this finds you all well and meeting the deadline as usual.

"Bum" Paul Flowers

The following is quoted from a Medford Ore. newspaper: "Both arms lashing out with the speed and venom of twin cobras, Pvt. Sam Longert, 331st Infantry, stole the spotlight in Tuesday night's all-Camp 'Golden Gloves' boxing tournament by 'refrigerating' Corp. John Barry, Division Artillery, in one minute and 45 seconds of the second round.

what we are fighting for today.

They realize that the time of
destiny is nearing, like the tick-
ing of a clock that heralds the
approach of midnight. When the
German Luftwaffe is routed
from the skies and when the
spring rains have ceased and the
poppies are flowering once more
the Americans and Canadians
and British will unite in a
mighty, determined assault up-
on Hitler's fortress. We have an-
nounced to the world that such
is to happen.

Can You Picture MICHIGAN without its Fire Fighters?

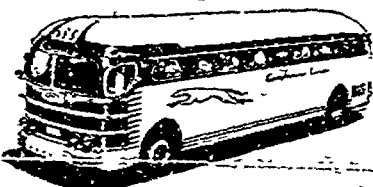

Maybe you've never had to call the fire
department—maybe you never will.
But it's a mighty comforting thought
to know that it's there, ready night and
day to save you and yours from one of
man's most treacherous and terrifying
enemies.

The heroic work done by fire fighters
in so many of the towns and cities of
our Allies, which have been showered
with incendiaries and explosives, is
drama itself. The job of our own fire-
men right here at home in Michigan
may be less spectacular but it's no less
important—particularly to us. Yet most
of us give little thought to this vital
safeguard of our everyday life—until
an emergency comes along.

There are 3,438 men in Michigan whose
full-time job is the protection of lives
and property of the citizens of this
State. These are the regular firemen—

but there are thousands more who are
ready to do their share at a moment's
notice, the volunteer firemen.

To all of these valiant men, we of the
Greyhound Lines pay sincere tribute.
We're proud of these fellow-citizens—
thankful for them, too. And we feel we
have at least one thing in common with
them. They're fighting hard to improve
the safety record of our State and so
are we. In these tense and busy days,
we feel that Greyhound, in providing
safe, convenient transportation between
this community and its good neighbors,
is also playing its part in making Mich-
igan a safer, happier place to live.

ways do not affect the other

Recently we heard an interest-
ing talk by Margaret Bourke-
White, the Life photographer
who visited the Cassino front in
December.

A young woman whose hair is
already turning gray, she gave
a vivid word-picture of the hard-
ship which our American troops were
undergoing. She closed with a
poignant and unforgettable re-
mark: "Surely we must have a
better world tomorrow to just-
ify such a price!"

Well, how about our world of
tomorrow? It is a little strange
that while we have been concern-
ing our resources and energy
to make things that are
non-productive for cannons and
tanks and the such are intended
only to destroy the lives and
wealth of others we have earned
for ourselves a legacy of new
and improved products. Let's
consider some of them briefly.

As American lives are being
saved today through the use of
sulfa and penicillin—those
"wonder drugs" that kill infec-
tion, so many American lives
will be saved in post-war years
by these newly developed aids.

Chemists have developed at-
abrine, a synthetic substitute for
quinine. The army has an in-
dustry serum that is surpris-
ingly effective.

In the field of electronics, we
will have a portable telephone—
a low-priced television set
over which we can talk from a
moving automobile. To home of-
fices, General Electric has de-
veloped a low-priced television
tube for home use. Televised
programs will be commonplace
in theaters during the next de-
cade. Radio is making rapid
 strides, too. Colleges are looking
to frequency modulation as a
means of extended adult edu-
cation.

While the airplane will never
surplant the automobile, it will
become more popular as a
speedy and safe mode for long
distance travel. Ahead, a Mich-
igan bus company is planning to
inaugurate helicopter service.
This jet is far from being
complete. It suggests a few of
the new benefits—gasoline
from vegetable products; "rub-
ber" from alcohol that is made
from dust, plastic furniture
and dehydrated foods and other
new wonders, all for our world
of tomorrow.

But will these wonders and
others like them be sufficient to
bring the world of tomorrow?
Boulder, White forced in the
front of Geneva.

A quarter of a century ago,
there was a kind of 18. We collected
in a column of our home town
country, a nation's guard and
and became a nation in a 20-
year old. It was the world
for democracy.

We will remember the
times of the day when our time

port, convoy landed in England
at Liverpool, our boat docked
next to a hospital ship that had
just arrived from France, and
we witnessed the unloading of
wounded men from the front.

Today we are again at war.
Convoy are again landing in
England. Hospital ships are now
in port, ready for the front that
is soon to come.

Can we win the peace this
time? We know now that we did
not win World War I. Should
not peace be included in our
bargain for tomorrow?

In an interview two years ago
Thomas E. Dewey said that the
United States must abandon its
policy of isolationism and be will-
ing to cooperate with its war
Allies in preserving the peace.
"Leand Stowe, the war corres-
pondent, in his new book 'They
Shall Not Sleep' warns that
Americans are not prepared to
play a role of leadership in the
world; that we do not know our
world neighbors sufficiently to
get along with them; that 'we
do not know how to listen to
our dead.'

Stowe says other things that
are disturbing, such as his con-
viction that the odds are defini-
tely against Americans winning
the peace.

To men of the intellectual
stature of Dr. Alexander Grant
Ruthven, president of the Uni-
versity of Michigan, the answer
lies in the field of education. He
points out that "the soldiers of
a democracy should know for
what they are fighting and that
international cooperation can-
not be assured by political guar-
antee, economic, or military
force, blood relations, or fer-
rity only through knowledge and
the resulting mutual understand-
ing."

Bring that idea home to Mi-
chigan. According to the 1940
census, the average amount of
education—formal knowledge
possessed by adults—was 5.6
grades. That is proof to the ed-
ucator of the imperative need of
CONTINUING education through
continuing education, through
which we may attain a better
understanding of our responsi-
bility in a new world. Here is a

YOUR "HIGH COST OF LIVING" WOULD BE LOW
if all prices were as low as
ELECTRICITY!

"You take the high road and I'll take the low road" might well apply to the picture above. The rough and rocky mountain path shows living costs during two World Wars, including such items as food, clothing, rent, household furnishings, etc.

The downhill road is the average price of household electricity.

The price of electricity has gone down. Because of many rate reductions and greater use, its cost to you has dropped steadily. The trend is still downward. Electricity is cheap. Today in the face of rising living costs, electricity is one of the smallest items in your family budget. It costs half as much as in the last war.

MY CALL WENT RIGHT THROUGH!

Yes, most Long Distance calls are handled as quickly as ever while you hold the line.

But many others—especially those to war-busy centers and to far-away points outside Michigan—meet delay. They must pass over lines crowded with war calls and through switchboards loaded to the limit.

The tip-off that lines are extra busy is the operator's "Please limit your call to 5 minutes." This request means that others are waiting a turn to talk.

By being brief on your call, you will help other important calls get through.

New experiences, hard work and a life in the open, await you on a Michigan farm. During July, August and September women are needed for peak harvest seasons, such as cherry and bean harvest, and weeding and topping root vegetables in the "back acres". Members may live at home and work in their own county as a worker or a work leader for a group of Victory Farm Volunteers. Announcement!

At the urgent request of many residents of this legislative district, I have decided to become a candidate for the

REPUBLICAN NOMINATION for STATE REPRESENTATIVE

They feel that one well experienced in legislative matters should be elected from this district in view of the fact that there are so many changes in prospect in the legislature due to grand jury investigation. From statements made to me by voters in the district, I know they were well satisfied with my record during the two terms I did serve. Under conditions that will prevail in the new legislature, I am sure I can be of greater service than ever before.

Thanks for your consideration.

WOMEN CAN PERFORM 80% OF FACTORY JOBS

About 80 per cent of the war plant jobs performed by men can be done as well or better by women according to the Industrial Hygiene Foundation of Pittsburgh.

A survey of 54 war plants in 10 states, employing a half million persons, disclosed that accident rates for women workers are lower than for men while women chalk up more absences and visits to plant dispensaries.

The Foundation reported recently. It said there is a trend toward increase in non-industrial sickness and industrial accidents for both men and women at the present time.

Practices have begun for the annual high school opera which will be given on May 13-15 in the High School auditorium. This year's high opera is "Gilbert and Sullivan's 'Conquering'." Leslie C. Lee is directing the cast and O. F. Berg is supervising the painting of the scenery and assisting him are Jane Leaning, David Willis, Hazel Covell, Bill Leaning, Keith Simmons and Bob Mest.

U. S. Victory WASTE PAPER Campaign

APPLICATION MADE FOR FIRST WOOD SUGAR PLANT

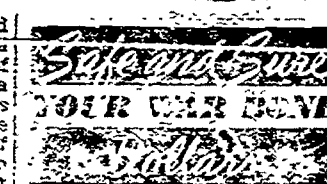

Application has been made to the War Production Board for approval to build a government-owned wood-sugar and ethyl alcohol plant, costing nearly \$2,500,000 at Springfield, Oregon, near Eugene, by a group of lumbermen banded together as the Williamson Valley Wood Chemical Company.

The plant, designed to process 200 tons of sawmill wastes daily (dry weight), is expected to produce 300,000 gallons of alcohol a year and would be the first in the United States utilizing a method long in operation in Germany, patents for which are now held by the Allen Property Custodian. Its success would point the way to large-scale utilization of sawmill wastes, long the bane of operators.

These plans follow thorough pilot plant tests conducted last year at Marquette, Michigan, by the U. S. Forest Products Laboratory at the request of the Office of Production Research and Development.

While a national potential of more than a billion gallons of alcohol a year from 20 to 30 million tons of mill wastes may not be within economic reach at present, preliminary surveys in-

dicating 150 million gallons could be produced within less than a year, assuming approval of a plant site adjacent to half its required raw material, with the rest available within a radius of about 30 miles. Softwoods, in the West and South, offer best possibilities.

"Barry, who in previous appearances had shown both power and speed, was expected to give Longest plenty of trouble. The opening going was still coming however, when the Northville, Mich. Infantryman began exploding left hands into Barry's midsection. Gathering momentum, Longest switched his attack to the head and battered the artilleryman to the canvas with a smashing right cross, just before the bell. Barry out cold, revived in time to continue the second round, but Longest quickly cut him down with a series of one-two's to the chin."

Hawthorne and "Largo" by D'Vorak. In keeping with the plan of arranging solo numbers to represent the various sections of the band, Bill Lanning will be heard in two Soudaphone solos in the Hall of the Mountain King and "Out on the Deep." Jack Lanning, his sister, will play the piano accompaniment. Cornettists Tom Houghton, Dave American, Dick Green, and Merrett Meaker will play the solo sections of the "Ida and Doria Polka."

The band, numbering 56, has the largest membership in many years. No admission will be charged but a collection to assist in the financing of the band will be taken.

The following band numbers will be played:
Star Spangled Banner, Teller; Old Comrades (March), Victor Herbert's Favorites, Arr. by Lake; The Merry Widow (Selection); Fehar; In a Monastery Garden; Kestelbey; La Pasiona (Spanish Serenade), Yrslater; Ida and Doria Polka, Loney; The Desert Song (Selection); Korn; Korsakov (Selection); Yoder; The Best Loved Irish Melodies (Medley) arr. by Hayes; Sons of the Brave (March) Bidgood.

Northville is working very hard on the fat salvage project, the collection for the month of March totaling about 1177 pounds. This is almost a third increase over the month of February, which was 963 pounds. All the Northville market will receive your waste fats brought in tin containers and properly strained, and will pay you two red points for every pound you donate.
