Northville's Yesterdays

Rationing at a glance

ONE YEAR AGO
Walter Steiner was named valedictorian of this year's graduating class, and Juan McCullough was salutatorian. D.A.R. award winners in the Plymouth and Northville area were feted at a tea at the home of Mrs. Earl Mastick of Plymouth. Representing Northville was Richard Forrester, history student, Dorothy Orr, good citizen.

The N.H.S. Mustangs won the baseball game with Milford by the score of 2-1. Representatives of the Legion and Auxiliary will sell poppies on the streets Saturday.

Students participated in the grade school pageant "American Americana" which was given in the high school gymnasium.

FIVE YEARS AGO
Poppies, to honor the men who died in defense of democracy in 1917 and 1918, will be worn in Northville, May 21. Geo. Simmons and Mrs. Charles Murphy, Poppy chairmen of the Lloyd H. Green Post and Unit of the American Legion Auxiliary have announced.

When villagers attend the New York World's Fair this year they'll have a chance to see an enlarged, illuminated poem from the pen of Mrs. T. W. Smith, which is on display in the Communications building.

Due to the very fine pitching of Ray Hartner, Northville won their second victory of the year over McIndale last Tuesday. The score was 5-3.

TWENTY-FIVE YEARS AGO
Through Lovewell Farms Agency, Carrington & Sons have sold their business to John McCully.

A new subdivision of Orchards and Heights is now to be open for sale by the Lovewell Farms agency.

The Wayne County Highway Commissioners have notified the Northville council that they will complete the cement road up only 25 percent of annual ration through the village.

Transplant Care Affects Yields

Careless handling of small plants at transplanting time can so injure them that production may be very materially reduced. They must never be allowed to dry out or to become hardened in any way.

First of all, the soil in the holes in which they are grown should be thoroughly moistened before the young plants are dug to remove them from dry soil will result in breaking of many roots and losing the ball of soil that should remain on the plants. Get them into the ground as soon as possible. Transplant them on a cloudy day if possible.

Dig the hole sufficiently large enough to accommodate the root system. Fill the hole full of water and allow to drain away, then set the plant and water again. Firm the soil around the stem; fears depression around it so that any water that does fall will be held rather than run off.

Some growers like to use a starter solution made of two or three tablespoonsfuls of the Victory Garden fertilizer dissolved in a gallon of water. It is better to use plants that have grown too tall, but tomato plants can be set quite deeply with the stems on a slant so that more of the stems may be covered with soil.

Protect your plants against cutworms by using poison dust or insect bait made of two pounds of dandelion greens and one ounce of paris green. Pick the

cardoon greens early in the morning and chop them up fine. Mix the paris green with them.

Apply to turnings of crops and livestock products.

Draft Prospects Under New Rules

Draft prospects of men in various age groups have been outlined by National Selective Service Headquarters in a recent statement of policy subject to adjustment as needs of the armed forces change—men 18 through 25 likely to see service unless irreplaceable in essential activity; men 26 thru 30 likely to remain in civil life for the time being if found to be "necessary to and regularly engaged in" war production or in support of national health, safety and interest; men 31 through 37 likely to remain in civil life for an indefinite period if "regularly engaged in war production or in support of

war effort," and men 38 through 44 not currently acceptable for induction by the armed forces.

To Help Get Farm Supplies
Dealers are required to give preference in the purchase of about 300 fixed items of farm supplies under a recently revised War Production Board regulation. A dealer may buy these supplies upon his written certification that the supplies are needed and will be used for other than household purposes in the operation of a farm. New items added to the list include hay stakes, called fire extinguishers, flashlight, scythes, tool sharpening grinders, harness repair tools, concrete, wire, metal fence posts, Portland cement and consulting materials.

More Children's Garments
More than two million dozen essential items of infants' and children's wear apparel will be manufactured during June, July and August, WPB said. All garments are to be manufactured from woven cotton fabrics and will include infants' sleepers, gowns and dresses; children's pajamas, sunsuits and coveralls; girls' blouses and dresses; and boys' washable underwear, overalls, shirts and blouses.

Reduces Heavy Hogs Ceiling

The ceiling price of live hogs weighing over 240 pounds has been reduced by 75 cents hundredweight effective May 15. Office of Price Administration announces. The action was taken to encourage feeding of grain, especially corn, to heavy-weight hogs and to encourage marketing of hogs before they reach 240 pounds.

Restrictions on Containers
Fruits and vegetables whose packing and shipping in new wooden containers are restricted after June 30, include cantaloupes and melons, carrots and cauliflower, celery, cucumbers, grapes (juice and table), lettuce and radishes. The War Food Administration reminds growers when planning acreage, growers doing their own packing should make sure that their quota of new containers and supply of used containers are sufficient to take care of their expected production. Growers employing commercial packers should check to see that the packers have sufficient quotas of old or new containers to meet requirements.

Ration Round-up
Civilians have been allocated 120,000,000 pounds of Cheddar cheese for the quarter ending in June, WEA says.... OPA announces that 30,000 new passenger automobiles and 12,000 new adults' bicycles will be

W. E. FORNEY
PHONE 353-J 102 West Main Street, Northville

There are nearly 200,000 of us here in Michigan... 200,000 dirt farmers and our families marching together. Our battle song is the whisper of the wind among the fruit blossoms, the rhythmic patter of rain on new green leaves, the humming of the tractor as its plow turns over the soft brown earth, the clatter of the seed drill...

"Some of our weapons are new as the modern weapons of war, some old as the hills of Judea. For ours is a war that has no beginning, no end. Ours is the battle of food."

"Our sons, like yours, are off to the war of planes and tanks and guns and ships. Many of those who helped our fight now forge the weapons for these valiant sons. To feed them all, our battle must be won."

"To feed you here at home is half the task. To feed our fighting men, to aid our allies whose fields are drenched with blood, to make new friends in countries freed from hate... that, too, is half our task."

"We achieved the impossible last summer. Now we must do it again."

"Michigan, the Arsenal of Democracy, might well be called the Cupboard of Democracy, too. No state can match the variety of its foodstuffs, nor outrank it in so many products of the soil."

"We bow in grateful tribute to the food retailers in your own community who have matched our efforts with their own. From the smallest independent to the largest chain store, they fight their battle, too, against well-nigh hopeless odds."

"They bring you our luscious berries, cherries, melons, peaches, pears, plums and apples from our fruit areas... sugar from our beets, millions of gallons of health-building milk, cream and other dairy products for your children and war workers, golden honey, top-grade potatoes in abundance, poultry, eggs and meats from our farms... fresh vegetables in never-ending streams and much more packed in our canneries... peas and beans and tomatoes and body-building, vitamin-enriched root vegetables... carrots, turnips, beets... all from Michigan farms and orchards and processing plants."

"With their cooperation we face this new season. We face it uncomplaining and unafraid... with resolute courage and the will to win."

"We are marching into battle, we the farmers of Michigan, marching side by side with all who do battle on the home front that victory on the fighting front may be achieved sooner."

electricity and appliances!

SAVING ELECTRICITY A car vital rule today is this: "Use only what electricity you need, and don't waste it." There are many practical ways of saving electricity in your home—lighting, the use of appliances. And not one of them involves any secret fact in the use of your basic electrical services. It simply means economy, the most economical way, to use them, with greatest efficiency. A few of these suggestions are listed below.

YOUR HOME LIGHTING Don't waste light—robbing you of warmth, or overdoing the light you buy. For example, keep lamps and fixtures clean. Wipe bulbs and reflector bowls frequently. Dust shades inside and out. Use the right-size bulb in your lamps and fixtures, and select shades with a white lining.

ELECTRIC COOKING Use the drift cooker of your electric range often. Plan complete meals that can be cooked in the oven at one time. Finish surface cooking on "low" or stored heat whenever possible. Use flat-bottomed vessels just big enough to cover heating coil. Cook with little water, and never utensils with a tight lid.

Our 2000 natural lakes offer some of the finest bathing beaches in the world, bearing sun-plus the healthful recreation of fishing and boating. We're famous nationally for our deer hunting.

Michigan's cool summers are nature's gift from the global flow of winds across the Great Lakes. It is a blessing to the fruit grower, the factory worker, and the vacation-seeker. The exhilarating climate is a recognized factor in the industrious spirit of our inhabitants.

These natural attributes, such as diversified food products and diversified natural resources, as well as our healthful climate,

of Michigan, reports that Michigan milk ranks sixth in milk production, fifth in butter, fifth in evaporated milk and dried milk, fourth in cottage cheese and sixth in ice cream.

This food diversification presents a problem to greater organization which most state agricultural authorities believe must be solved if Michigan food products are to compete successfully with foods from other well organized states in postwar years.

It does emphasize Michigan's important role in the health-inducing foods and the farm-to-store benefits available to Michigan consumers.

The economic importance of Michigan is indicated by the United States trade census of 1935 which listed Michigan as seventh in the entire nation for retail sales and fifth for industrial wages. States that outstripped Michigan in retail sales were, in order: New York, Pennsylvania, California, Illinois, Ohio, and Massachusetts. States with highest payrolls: New York, Pennsylvania, Illinois, and Ohio.

Placing seventh and fifth respectively, among the 48 states is an indication of what Dr. Vaughn was speaking about when he concluded that "many if not most" of the Southerners who have come to Michigan during World War II are for the first time enjoying an adequate income."

It is this earning power that makes possible our splendid educational institutions, our superior highway systems, of state and county governments, and our many other public services.

Michigan also possesses an amazing array of recreational facilities—all within a comparative easy access to Middle-west millions by train, bus, automobile and airplane.

Michigan leads all other states in miles of coast shore. Constituting two peninsulas, Michigan possesses the singular benefit of 1,715 miles of land along the shores of Lakes Michigan, Huron, Superior, St. Clair and Erie. The number of lake cottages along these miles of sandy beaches runs into the tens of thousands.

Our 2000 natural lakes offer some of the finest bathing beaches in the world, bearing sun-plus the healthful recreation of fishing and boating. We're famous nationally for our deer hunting.

are counterbalanced, in part, by the rise of new social problems.

Automobile towns, for example, attract tens of thousands of families from states along the Mason-Dixon line. Rise in unions, under collective bargaining, brought more responsibility to factory workers, many of whom lacked an adequate background of education to fulfill these duties properly. The level of adult education in Michigan is a little over the eighth grade. You don't read much about economics and political science in the lower grades.

Among Michigan's postwar problems is the threat of mass unemployment, particularly in our industrial centers. This problem will be increased, obviously, if the Southerners decide to remain here, as Dr. Vaughn believes many will do.

As an adopted son of Michigan who has found an abundant life in this historic lake state so richly blessed with natural resources, diversified vital foods and numerous lakes and forests, we wouldn't blame the Southerners a bit for wanting to stay.

Rainbow Girls Have Instruction

A School of Instruction for the Northville chapter of the Rainbow Girls, was given in the local Masonic Temple last Friday evening. Mrs. E. Alberta Coburn, supreme inspector of Michigan, and Miss Florence Hart, instructor, conducted the school. Other out-of-town grand officers were present for the co-operative supper which was served at 8:30 o'clock.

Following the exemplification of the work in the evening, the choir of the Northville chapter was invited by one of the grand officers to sing at the reception to be given for grand officers at Tyrian assembly in Detroit, June 21.

The Rainbow Girls will hold an installation service in the Temple Friday evening, May 26 at 8 o'clock.

BOY SCOUTS TO BE GIVEN OPPORTUNITY FOR CONSERVATION PROGRAM

Michigan's thousands of Boy Scouts will be given an opportunity to participate actively in the state's conservation program following a meeting of the Department of Conservation training school at Roscommon. Representatives of Michigan Boy Scout Councils and the Boy Scout Regional offices in Chicago. Opportunities for improvement work on scores of state conservation projects in every part of Michigan will be offered Scouts on overnight and week end hikes and in addition the conference voted unanimously to conduct a Boy Scout conservation camp during a six week period beginning July 20. A camp will be established on Higgins lake to accommodate 32 Boy Scouts 16 and 17 years old. The boys will work five hours each day under the direction of conservation department representatives on stream and lake improvements, game land improvements, state park improvements, forest fire prevention, in the Higgins lake forest nursery and in improvements around the training school grounds. A training program of considerable size in conservation of natural resources is also being planned.

The camp will be directed by a nonprofit corporation of Boy Scout officials headed by C. A. Neitz of the Okemos Council at Lansing.

Summer School May Not Be Held

Principal G. W. Harrison announces that it is doubtful if a summer school session will be held here this year. The reason for this statement is that in a survey made among pupils, only eighteen indicated a desire for such a schedule. If any parents of school children are interested in the matter, they are asked by Mr. Harrison to contact the school immediately. A definite statement regarding the matter will be issued in next week's record.

Home Ec. Style Show Comes Tuesday, May 23

The annual style show put on by the girls of the Home Economic class of the Northville High School, will be given this year on Tuesday evening, May 23. The instructor, Miss Betty Garlick, will have charge of the show which will begin at 8 o'clock. About 80 girls from the seventh through the twelfth grades will model articles of clothing which they have made in class. These include sport and formal dresses, jumpers, night attire and aprons. Refreshments will be served in the Home Ec room after the review.

In conjunction with the show, the Art and Shop departments of the school will also have their work on display. The school doors being open at 7 o'clock for these two events. Miss Mollie Saxon of the art department will have charge of the display in the Grade building which will also house the shop exhibits.

Parents and friends of the school are invited to attend the exhibition of hand crafts made in class at the Northville schools.

Sir:

You are hereby notified that the Board of County Road Commissioners of the County of Wayne, Michigan, did at a meeting of said Board held Thursday, May 4, 1944, decide and determine that the certain section of road described in the minutes of said Board heretofore taken over as a County Road, should be absolutely abandoned and discontinued as a public highway. The minutes of said meeting fully describing said section of road are hereby made a part of this notice, and are as follows:

"Minutes of the meeting of the Board of County Road Commissioners of the County of Wayne, held at 3:00 Berlun Tower, Detroit, Michigan, at 10:00 a.m., Thursday, May 4, 1944:

Present Commissioners O'Brien and Wilson.

Commissioner Wilson moved the adoption of the following resolution:

"WHEREAS, the alley in the rear of Lots 130 to 141 inclusive, of Balfour Park Subdivision, a subdivision of part of the southeast 1/4 of Section 20, Town 1 South, Range 10, East, Redford Township, Wayne County, Michigan, as recorded in Liber 59 of Plats, Page 91, Wayne County Records, is a County road under the jurisdiction of this Board, and

"WHEREAS, there are no buildings of any character located on said alley; and

"WHEREAS, said alley is of no use or benefit to the public for highway purposes, but it is desirable to maintain a public utility easement for the use and benefit of the public in said alley."

NOW, THEREFORE, BE IT

RESOLVED, that the alley in the rear of Lots 130 to 141 inclusive, of Balfour Park Subdivision, a subdivision of part of the southeast 1/4 of Section 20, Town 1 South, Range 10, East, Redford Township, Wayne County, Michigan, as recorded in Liber 59 of Plats, Page 91, Wayne County Records, being

one-half mile of alley, be and the same is hereby abandoned and discontinued as a public highway upon the express condition

(Continued from front page) and wondering if they will ever be adjusted. The cast includes Ronnie Schultz, Jack Blackburn, Francis Bray, Margaret Verkes, George Weiss, Carol Schultz, Harper Britton, Mary Yahne, Charles Vahne, Mrs. J. H. McKinney, Alice Sackett.

Other members of the club are busy with details that go to the presentation of a success-

ful performance. Under the direction of Kenneth MacKay, they are making scenery, arranging properties and planning the seating of the audience.

Tickets may be procured from members of the club and cast, and from Jack Blackburn at the D & C Store.

Lutheran Group

(Continued from front page) society, in addition to its recreational program, is to foster Christian knowledge and Christian service.

St. Paul's Society has grown from a handful of members in 1939 to about 30 active members. The present officers are Barbara Heidi, President; Harry Sommer, Jr., Vice President; Alice Schenckmark, Secretary; and Imogene Baumgardner, Treasurer. Everybody is welcome to attend the service next Sunday.

Poppy Sale

(Continued from front page) This is what the money from the poppy sale helps to accomplish. And we hope that this year more people will buy poppies and show their sympathy for the men who fought for them and are now struggling to get back to the point where they can again resume self supporting. The leaders of the Auxiliary in this sale are Mrs. C. N. Ely and Mrs. Earl Montgomery from the Legion are Floyd Lanigan and Oscar Hammond.

and the blood plasma that saved my life
came to my mother in a paperboard
box. Lots of other things we use
are paper too. Almost all our gear
is equipment to you is wrapped in paper.
Somewhere along the line, some of our
stuff is actually made of paper like
empty parachutes and bomb bands and
even the lining of my helmet. Out of
paper's like steel or powder like
life-or-death matter so don't throw
any waste paper away and don't burn
it. That's one thing you can do. Don't
spread the word around. Get that waste
paper in to make things we need worse
badly which isn't much to ask for.

**PHEASANTS TAKE
TOLL OF SEEDING**

No 100 per cent protection for fields of young corn from the appetites of pheasants can be offered Michigan farmers claims R. G. Hill, representing the Michigan State College Extension service and the Michigan Conservation Department.

Some farmers claim satisfactory results in using commercial far repellents such as crotex or unico applied to the seed corn before seeding.

Other farmers have tried spreading corn nubbins around edges of fields, keeping the nubbins supplied for several days before the corn comes up. Damage may occur until corn is about two weeks old. Scare devices are popular with other farmers, using shiny tin suspended a few inches above the ground, tied with strong string to leaning stakes or stretched wire.

According to Hill the best advice is to keep pheasant numbers reduced during the legal hunting season; use of a tar repellent on seed corn or the spreading of rubbins, use of the scare devices. If none of these give adequate relief, then farmers can obtain shooting permits from local conservation officers.

This is nearly three and a half times the production of the average dairy cow in the United States. The cow was four and a half years of age when she began her test period. She was milked three times daily.
