Northville at Half Way Mark In Bond Sales

Present Sales Total \$156,
\$82.00 of \$318,000.00
Quota. Ford Valve Em-
ployees Over Top of
Quota.

At noon Wednesday, a careful
check of the bond selling ac-
tivities of the community showed
that Northville had met
about 50 per cent of its \$318,-
000.00 quota. Sales to that time
totaled \$156,882.00. The Post
Office had sold \$34,747.00 worth
and the Depositors State Bank
sold \$63,120.00. The sales cre-
ated to Northville through the
Ford Valve Plant sales totaled
\$38,925, of their quota of \$40,000.
Thus the employees of the Ford
Valve plant will be over their
goal before you read this. The
employees of the plant have av-
eraged \$89.28 in the 5th War
Loan Drive. Miss LaVerne Sly
of the W. C. T. S. sold \$600.00
worth in one day at the school.
At Maybury Miss V. H. Brown
reports sales of \$3,857.25
through the 27th.

So, believe it or not, North-
ville is away above the average
throughout Michigan in
percentage of bond sales to date.
... and remember the powers
that be raised our quota from
\$139,000 in the last loan to \$318,-
000 in this drive—rather a steep
boost—but Northville folks will
meet the challenge.

Owner of Northville Theatre

War Bond Drive.

Free Show to Bond Buyers; 10 Free Bonds

Northville Theatre, North-
ville F. and A. M. and
War Finance Committee
Seek to Push Bonds Sales
To Quota

In a big gigantic push to send
the 5th War Loan over the top
of the \$318,000.00 quota for
Northville, the Northville The-
atre, in cooperation with the
War Finance Committee and
Northville Lodge No. 186 F. and
A. M., is putting on a big War
Bond Rally on the evening of
Thursday, July 6th.

In the great snow, a premiere
showing of "Buffalo Bill" has
been booked for that evening
when admission will be by war
bond purchases only. During
the evening show ten war bonds
will be given away free to war
bond purchasers, and you don't
need to be present either to get
the bond. Your stub properly
filled out for identification is
sufficient for the award.

In the local plan for promoting
the 5th War Loan, the "Ded-
icate a war bond to a Service
Star" is going over fire, and
any person who has purchased
a war bond in the Fifth War
Loan may present their bond or
bonus at the bond headquarters
on E. Main Street and get a
ticket for the show and partici-
pate in the awarding of the ten
free bonds. And remember that
bond headquarters will be open
Monday, Wednesday and Thurs-
day of next week to accommo-
date these buyers seeking tick-
ets to the show.

It's a great big and real show.
It's free and you will probably
be one of the fortunate ones to
get a free War Bond. So let's
pack the theater, and push the
War Loan over that \$318,000.00
mark.

man's tank pocketed with shell holes filled with mud and criss-crossed by barbed wire.

Live machine gun, bullets whistle over your head. In fact, observers can view each bullet's path as it is marked by trails of red fire. This tracer shows exactly where the bullet travels.

You crawl on your belly, head down, inching your way toward the enemy trench. Inside a watch tower overlooking this no-man's land is an officer.

He has a map on which is located land mines. He presses button, and off goes a dynamite blast, shooting mud and dirt and smoke high into the air, with the sound and force of an artillery shell.

The day's field work over, you march back to camp.

Your feet are tired. You are weary all over. It's no strawberry festival.

And then, perhaps for an evening's climax you will have an event known as a divisional review. In the case of the Camp McCoy party, various infantry units started to assemble at 4:30 p.m. to march to the reviewing field although the review itself did not begin until 7 o'clock.

At 5:30 p.m. while the guests were enjoying a chicken dinner, a thunderstorm roared out over the west. It rained in sheets. At 6:30 p.m. it was time for us to leave in jeeps and trucks for the parade ground, and it was still pouring cats and dogs.

This divisional review was a classic Major General William R. Schmidt, the "old man" of the 76th Division, and his aides, including Brig. General C. Evans (artillery) stood in blinding torrential rain.

As we reported last week, believing sure, you are talking of about 500 men in each patriotic. You're doing your best to help win the war. But the visitors reviewing until you can't see for yourself. Everyone was wet as just what this war means in drowned rats. You don't call off terms of personal sacrifice by a war when it rains, and you don't postpone a divisional review if the weather is bad.

Witnessing the 76th division in action at Camp McCoy, we grasped anew why modern war is a young man's war. We re-treads couldn't take it. The average civilian would fizzle bad.

The army is reinforced by personnel, and doughboys in bat-

ting, fighting, and shooting, are

practicing bayonet drill in which you ram cold steel into a stuffed dummy or pony; the thrusts of an associate as he practices on you, a make-believe toe. It means plenty of hard, hard physical exertion.

You undergo "judo" training that is designed to help you out-fight a tricky Jap. Wielding a long machete knife is just one part of it. It's tough and hard. Kill or be killed. Japs don't take prisoners, and neither do we.

Or perhaps you practice hurling hand grenades at distances of 30 to 122 feet into enemy foxholes.

Your duties will depend, of course, upon the task the army selects for you. You may be attached to an automatic rifle team, or a 60 to 81 millimeter mortar squad. You may be assigned to a light or heavy machine gun squad, or even an anti-tank gun team or the 105 millimeter howitzer cannon which is used by the infantry, strangely enough, in combat fighting.

Firing of many infantry weapons must be done on ranges where there is plenty of room for practice shooting.

That involves a nice long hike there and back.

And the pack on your back-brother, you haven't seen anything! You must carry a rifle, bayonet, pistol, gas mask, field glasses, raincoat, first aid kit, entrenching tool to dig your own fox hole, a shelter half with poles and pins, blanket, canteen and cup, meat can, knife, fork, spoon, cartridge belt, three grenades and grenade launcher, anti-tank grenade, ammunition bag and six rounds of .30 caliber, plus your clothes and this' mister. And it weighs 52 pounds.

For an afternoon's diversion, you may undergo the following. It's required of every man in the infantry-private or officer-before he is permitted to enter actual combat dangers.

It's called infiltration training, and master is it mean! You must crawl through a tunnel

If these impressions make you more determined to do your bit to buy another bond, and to give a hand to the doughboy then the writer's mission was a success. Sure, we think these American boys are wonderful. But they're not boys, they are real men!

JOB APLENTY FOR DISABLED VETS TO FILL

Clyde Buckingham and family picnicked at Edgewater Park on Saturday. The occasion was an outing sponsored for all the employees of the defense plant at which Mr. Buckingham works.

Edwin L. Johnson, an employee of the Ford Motor Co., is enjoying a vacation this week. William Sherman has enjoyed a vacation this past week.

Miss Shirley Grundy, Hubbard Ave., is enjoying a two-weeks' visit with relatives on Twelve Mile.

Mr. and Mrs. Virgil Camary, of New Eloise, were visiting relatives in West Point Park this week. Mrs. Camary, who is on furlough, has been stationed in Colorado. He is a grandson-in-law of Mrs. Margaret Martin.

Mrs. M. E. Ault and daughters, Mrs. Edwin Johnson and Lora Anne Ault, also Mrs. Margaret Martin, were guests of Mrs. Edward Stroffoski near Eloise on Tuesday afternoon.

Little Barbara, infant daughter of Mrs. Marvin Peterson, was ill with bronchitis this last week but is now much improved.

William Barnum, the popular Scoutmaster, had a birthday on Sunday, when a small picnic was in order.

Jimmy Bonar, youngest son of the Bonars, on Seven Mile Rd., is having a tonsil operation this week.

Several relatives from Ohio were house guests of Mr. and Mrs. Albert Owen for a day or two this past week.

M. E. Ault arrived home Sunday morning, after a brief vacation. Mr. Ault, who is a young man, was in San Francisco at the time of the recent earthquake and was in Madison, Wisconsin, during the tornado there last week.

Clyde Buckingham was a visitor in Pontiac Friday.

Jack Oman left Wednesday to make a business trip to Pittsburgh Pa. He was accompanied by his wife and Mrs. Austin Ault and Helen Ruth and Ethyl Ault. While in Pennsylvania, they were entertained at the home of Lester Ault near Washington D.C. During the tornado, relatives here were much concerned about their safety. On late Saturday, word came that all there was damage off around the Lester Ault residence, those within had escaped.

The West Point Community Church on Seven Mile Road has been conducting a Vacation Bible School last week and this.

Mrs. Lewis Graham entertained a group of her former fellow workers in a Wayne dinner party Friday night. It was a social evening with the usual features.

Mrs. Graham, who was ill and underwent an operation early in the spring, hopes soon to return to her employment.

Children's Day was observed in the Neighborhood Bible School on Norfolk Ave. Sunday morning. Children took part in the exercises.

WALLED LAKE READY TO CELEBRATE HOLIDAY

In keeping with the spirit of Independence Day, celebrated in Walled Lake, neighborhood Bible School and part of the program will be patriotic in its character. A feature of this Sunday will be the distribution of a large number of prizes to be awarded in recognition of faithful attendance.

The congregation at the Neighborhood Church were pleased Sunday evening when Rev. Edwards sang "The Strange Story of Galilee."

The Sunshine Sisters entertained the Intermediate Girl Scouts at the Sunshine meeting in the Neighborhood Church.

New and inspiring set pieces will be on display along with a goodly number of comedy effects, while the soaring rockets and high explosive bombs add a touch of pyrotechnics mightily.

For Tuesday night, July 4th, the program will present set pieces of patriotic character with the nerve-dragging and breath-taking Battle in the Clouds as the concluding number.

A score of fireworks experts have been busy for several days arranging the set pieces and special effects so as to have everything in order for the nightly change of displays.

All rides and amusements will be ready for the holiday crowds while the entire park will be in gay decorations, flags, bunting and streamers. In the picnic groves, additional tables and benches have been provided for family and picnic parties. Walled Lake has long been a favorite spot for picnic minded people. Every week-end many thousands of families can be seen eating their picnic lunches in the beautifully shaded groves, spending the entire day patronizing the many recreational facilities and enjoying the great outdoors to the utmost.

The Walled Lake enjoys a much cooler climate than Detroit due to the fact that it is approximately 600 feet higher.

Happy Birthday was sung for Mrs. John Varhol and Mrs. Barnum. Light refreshments were served. At the close of the afternoon, Miss Ruby Bonar sang a solo. The next meeting of the Sunshine Sisters will be held in the Neighborhood Church on Wednesday afternoon, July 3, at 2:30 P.M.

Bob Hunter's West Point relatives happened to mention the dust of Michigan in correspondence, and Bob sent a few spoonfuls of the dust of New Mexico for a comparison.

Maurice Wolfe has been home again.

The P.T.A.'s Boy Scout committee held a meeting at the home of Russell Ault Thursday night.

Michigan Bell Has WAITING LIST OF 75,000

The Michigan Bell Telephone Company, today announced it has a waiting list of more than 75,000 orders for telephone service, so far, for a long up time over the holidays follow the crowd to Walled Lake Park.

DRIVERS EXCEED WAR TIME SPEEDS

More than two-thirds of the nation's motorists are exceeding the wartime speed limit of 35 miles per hour on the open highway, the National Safety Council reported. Furthermore, the Council said, 17 per cent of all highway drivers are traveling at more than 45 miles per hour.

These figures are based on nationwide checks made periodically by the U.S. Public Roads Administration, which recently reported that speeds have increased greatly since December 1, 1942.

With speed increasing and automobile tires deteriorating month by month, we may have a sharp rise in traffic fatalities with the summer months," Donald S. Berry, director of the Traffic and Transportation Division of the Council said.

This increase which is evident despite wartime restrictions and patriotic appeals to the public, may be a forerunner of higher speeds than ever before when peace comes and restrictions are lifted.

The situation is so critical at most points in the company's territory, MacLachlan continued, that service can be guaranteed only if it is essential to the war, public health, or the public security, as defined by regulations of the War Production Board.

"Telephone instruments do not comprise the only shortage of facilities for civilian purposes," MacLachlan said. "More than half the delayed orders are held up because of shortage of cable, wire and central office facilities." Two years of war have used up about all of the reserves which always have been built into the telephone system."

YOUR "HIGH COST OF LIVING" WOULD BE LOW
if all prices were as low as
ELECTRICITY!

"You take the high road and I'll take the low road" might well apply to the picture above. The rough and rocky mountain path shows living costs during two World Wars, including such items as food, clothing, rent, household furnishings, etc.

The downhill road is the average price of household electricity.

THE DETROIT EDISON COMPANY

The price of electricity has gone down. Because of many rate reductions and greater use, its cost to you has dropped steadily. The trend is still downward. Electricity is cheap. Today in the face of rising living costs, electricity is one of the smallest items in your family budget. It costs half as much as in the last war.

in army barracks.

Villagers had the opportunity to witness actual demonstrations of the use of modern weapons from anti-tank guns to the well known bazooka which fires rocket shells. Artillery guns laid down a barrage of 105 and 155 millimeter shells while the doughboys simulated an advance toward enemy positions.

The impact of the day's experience was tremendous. We had come from a civilian world into a military world with only a few hours time between them. Back at home was the normal life of security; we grumble about gasoline rationing, food rationing, we fuss over lack of this and that. Following this impact of the military life is hard; you feel ashamed that any Michigan worker would go on a strike or that you had ever grumbled about any piddly annoyances of civilian life.

Picture if you can the following experience that every man in an infantry company must undergo before he is permitted

to call infiltration training. The setting is a simulated no-man's land, criss-crossed with barbed wire and pocketed with shell holes, leading to an enemy trench.

The doughboys, armed with rifles make their way toward the enemy trench, machine guns are firing live bullets in criss-cross fashion over their heads, a round tower, an operator sets off deafening blasts of dynamite that spout up high in the air like the burst of artillery shell. The blasts spray mud over the men. The whirr of live bullets is in their ears.

Thus the army conditions each infantryman to actual battle scenes. It is a grim business that makes you think and think.

The day's program was concluded with a division review, and other equipment after a hot day clouds appeared weighing seventy-five pounds in the west and soon a heavy rain began to fall. Northville is the first to engage in thunderstorm. The elements in hand to hand combat, 100,000 infantry took it as good as bad which is the last in hell part of their war training. With standard which he has thus far earned, General and Priests the exploits of their state who participated in the march of the service here except the Indians caught by surprise were given a round after round of cheering to the main parade.

It will not be long before

Seeing is believing. We only hope that every person of the community will merit well the highest honors that a grateful country can bestow. The Navy, the Air Corps, the Marines and others, the heroes of their service have nothing to do. Yet it is still the doughboy armed with a rifle, clad with a division review, and other equipment after a hot day clouds appear weighing seventy-five pounds in the west and soon a heavy rain began to fall. Northville is the first to engage in thunderstorm. The elements in hand to hand combat, 100,000 infantry took it as good as bad which is the last in hell part of their war training. With standard which he has thus far earned, General and Priests the exploits of their state who participated in the march of the service here except the Indians caught by surprise were given a round after round of cheering to the main parade.

Albert Jr. Earehart leaves on July 10 for Navy boot training. He and his family have recently moved from Main street to Butler ave.

The rough estimate is roughly estimated. The annual Vacation Bible School collection in Wayne gram was held Thursday evening. More than used up in the Presbyterian Church. Many friends and parents in the first few hours. Many friends and parents in the invasion. Every ship was attended and viewed the invasion engines all the time children's projects.

Then came the tremendous food emergency rations and medical supplies all going to the containers. To keep up in can sales the next collection July 10th this time should break all records. Let's replenish the supply of time.

Carl Bryan's story tells us will be held next Wednesday July 5 at 10 a.m. instead of regular Saturday morning.
