DETROIT EDISON LINES

Many items concerning your electric
is being published, and each
of the auto companies appear
to turn to "Line Lines,"
make "Line Lines" a reading habit.

DOGS FOR WAS . . . Leslie V. Lubetkin and
Alice of Anna Hill have joined the Mikes! These
two registered German Shepherd patrol dogs of
Detroit Edison, their house-duty ended, recently
left for active roles with the "Devil Dogs" of the U. S.
Marine Corps. Two years ago, the dogs were acquired
to assist in patrolling the company's output of 120,000
volt step-down stations. Intelligent, alert and highly
trained, these dogs increased the effectiveness of each
company patrol in, thus saving manpower for other
important war work. For denoting the sexes of
these two canine warriors, the company has received
a citation from Lieutenant General A. A. Vandegrift, Com-
mander, U. S. Marine Corps.

WAGES IN AN HOUR . . . Your household electric
servants work for a few cents a day. They do such a
big job in the average home—washing and ironing
and cleaning and cooling—that most people do not
realize how little they cost to operate. Actually, many
of them operate for only a fraction of a cent per hour.
Here are the wages of some of your common electric
servants: clock, 3½ cents per month; vacuum cleaner,
5 cents per month; toaster, 6 cents per month; coffee
maker, 11½ cents per month; electric fan, 1 cent for
10 hours; stove, 5 cents per month; clothes washer,
6 cents per month; electric iron, 5 cents per week;
electric range, 6 cents per day (average cost for
family of four).

SUMMER RECIPE . . . Our Home Service Department
suggests this recipe for an appetizing lunch:

Shrimp Luncheon Dish
In a skillet melt 3 tbsp. butter. Add in order given: 3 onions, minced; 1 green pepper, minced; 1 clove garlic, minced; ½ cup pimento, minced; 1 cup rice, washed well. Clean and add ½ cup mushrooms, ½ cup shrimp. Add 1 tsp. salt, 1 bay leaf, 2 cups water. Cover skillet and place on unit turned to "high." When steaming freely, turn off for 45 minutes.

THANKS! . . . We hesitate to say anything like this
about ourselves. But when someone else sends it in
as his own opinion, unsolicited, we cannot resist passing
it along. It comes from an officer in the U. S.
Army:

. . . Thanks again for the best residence
electric service in the world. At least I have
heard it so described, and from 18 years' ex-
perience, I believe the compliment justified.

Horse Racing

(Continued from front page)
it is as good as it was possible
to have installed.
All around the half-mile track
sons who have never before seen

has been put up a white canvas night horse racing have a real wall. This back-drop is six feet high and forms a perfect awning them when they visit the races at the Downs.

The homespun stretch of the race track has been widened; and at the head of the stretch a chute has been made. This will permit the horses to race straight down the homespun stretch after the start, and makes it possible to race at a distance of 5 miles, one that is so popular both with the horsemen and the fans on the sidelines. Odd distance racing will be one of the big features of the meeting, with distances to include 5/8, 4, 1 mile and 1/16 miles.

Directly to the east of the grandstand a paddock has been put in. This is a 34-stall affair and all horses racing each night will race from the paddock. This is bound to make a big hit with the race fans, who will have the opportunity between races of walking over to the paddock to see their particular favorite at first hand.

The grandstand itself will look much different than it has in some time. A new coat of paint has been put on, the parapetual tooths are all up and ready for the opening night customers, the concession stands are ready for business.

Also bearing a new coat of white paint are the judges stand, and the fences around the track. The photo-finish camera, which will register the finishes of all races throughout the 30 nights of racing, was up and ready Wednesday night. The operator of the camera gave it a thorough try-out Wednesday evening and pronounced it in first-class shape, ready for the opening night.

Stables have been arriving from far and near ever since Sunday, and the race track from early morning to well past the noon hour has been a bee-hive of activity.

September 15 to October 15

is being named "Christmas

Mail Month" by the president

and manager of the Michigan

Press Association.

They brought an instant re-

sponse from Mr. Whittley of the

state's conservation commission who wrote:

I am glad the Michigan Press

association is reviving this

Drummond Island restoration

project. At various times during

the past years many persons

including our department have

tried to interest the public in

it. It is an important matter

to me I have written and spoken

on it many times. I am interest-

ed particularly with the his-

tory of this post and find it of

surpassing interest, scarcely

second to that of Mackinac

itself.

Any group that underwrote

the restoration will be entitled

to the undying gratitude of those

who cherish the history and tra-

ditions of their country. The de-

partment will be only too happy

to be an agency in any such ef-

fort.

Dr. Milton Kuhn, East Lan-

ding, president of the State His-

torical Society of Michigan, de-

clared that the newspapers of

the old had started something

I hope they will succeed," he

concluded. We quote from his

letter:

The description of our visit

to Drummond Island accelerated

my plans to visit the ground

that the British thought was

theirs. The State Historical So-

ciety still expects to hold one of

its meetings on Drummond. The

war's curtailment of travel forced

the postponement of that in-

decision.

The fort and its surroundings

should not continue unkempt and

unmarked. Its remains must be

preserved, its debris must be

removed, and its significance must

be explained.

"Drummond Island has been

off the beaten path but the con-

tinuing expansion of air travel

should make it an accessible

monument. The State Aeronauti-

cal Board contemplates a Class

2 airport. The State Conserva-

tion commission is engaged in

the restoration of just such

sites. The Michigan Historical

Society will renew its erection

or commemorative markers when

funds are again available."

Dr. Kuhn expressed at hope

that the state conservation de-

partment could be provided

with sufficient funds to acquire

the land and to restore the old

Fort as Fort Mackinac and Fort

Wilkins have been preserved

and restored. Fort Mackinac is

maintained by a state park com-

an important phase of Scouting

occurred during last Wednesday,

8-16 when a new District Advisory Council was named at a meeting held at the home of Mr. J. Williamson, 16003 Oak Drive, Detroit, Mich.

As was explained to the members, the actual operation of this new body is based upon an advisory capacity which will tend to bring together the various Packs and their constituents in a closer union, thus creating a more capable functioning of the whole District.

The Council members have been authorized and installed according to their interest, ability and activity in the local Cubbing program.

Most of these Council members will head other committees which will be comprised of all interested Cubbers in the district whom are ready and willing to take an active part in the programs we are planning for the coming year. Every effort is to be made to increase the pleasures of Cub and Cubber participation on a twelve month Cubbing year schedule.

Training classes in a general handicraft program have been tentatively slated to begin in early October. These classes will

emphasize winter handicraft pointing directly towards the Spring Hobby Lobby Show. Another class will be slated for early Spring with Summer Cubbing in mind.

We sincerely believe that this advisory body can, and will, bring about a definite change for the better in our district and serve as a balance when for all of the diverse factors of our Organization that may make the operation of our Cubbing machinery smoother and even more powerful than that which is operating at an excellent tempo today.

The roster of the new District Seven Cub Council is as follows:

To the Highway Commissioner of the Township of Livonia, Wayne County, Michigan.

Sir:

You are hereby notified that the Board of County Road Commissioners of the County of Wayne, Michigan, did, at a meeting of said Board held

Thursday, July 27, 1944, decide and determine that the certain section of road described in the minutes of said Board, heretofore taken over as a County Road, should be absolutely abandoned and discontinued as a public highway. The minutes of said meeting fully describing said section of road are hereby made a part of this notice, and are as follows:

Minutes of the meeting of

the Board of County Road Com-

missioners of the County of

Wayne, Michigan, held at 3290 Barum

Tower, Detroit, Michigan, at

10:00 A.M. Thursday, July 27,

1944.

Present: Commissioners O'

Brien, Brown, and Wilson.

Commissioner Brown moved

the adoption of the following

resolution:

WHEREAS, this Board has

received a petition from eight

freedomers of the Township of

Redford, for the abandonment

and discontinuance of the pub-

lic alley in the rear of Lots 2154

to 2174, inclusive, and abutting

Lots 2045, 2046, and 2047, of

Frischkorn's Grand Dale Gard-

ens No. 1, being a subdivision of

part of the north $\frac{1}{4}$ of Section

31, Town 1 South, Range 10

and,

WHEREAS, pursuant to said

petition and in accordance with

the provisions of Section 18 of

Chapter 4 of Act No. 233 of the

Public Acts of the State of

Michigan for the year 1909, and

amendments thereto, this Board

did, by resolution dated the 13th

day of June, A. D. 1944, resolve

that a hearing be held on said

petition on the 20th day of July,

A. D. 1944, at 11:30 A. M., at

3290 Barum Tower, Detroit,

Michigan, to determine the nec-

essity or advisability of aban-

doning and discontinuing said al-

ley, and,

WHEREAS, pursuant to the

above-mentioned statute, this

Board has served a notice of

said hearing upon all of the

owners and occupants of lands

intersected by or adjoining said

alley, and published a copy of

said notice in The Legal Cour-

ter, a newspaper published

within the County of Wayne, on

the 30th day of June, A. D. 1944;

and,

WHEREAS, the said hearing

was held at the time and place

appointed by said resolution

and this Board did then pro-

ceed to view the premises in ac-

cordance with the statute; and

WHEREAS, it appearing from

said hearing and view of the

premises that the public will

have no further use for the al-

ley in said subdivision so peti-

tioned to be abandoned and dis-

continued, but it is desirable to

maintain therein a public utili-

tym easement for the use and

**simmer-cooking
with GAS**

Can save you MONEY...
Give you MORE nutritious
foods... and SAVE GAS
for war production!

Use your Gas range and its simmer-save cooking flame to reduce your use of Gas and cook more nutritious foods. Today it is extra important to get every bit of nutritive value from the foods you are able to buy.

If you do not have the simmer-save feature, you can still get good results by turning your flame low.

Simmer-cooking, with a low blue flame, preserves the necessary vitamins and minerals which too often are cooked away. It produces more palatable and better-tasting foods. Like the low-temperature method of roasting meats which is afforded you by your modern Gas range, simmer-cooking is a boon to women who want to give their families every possible value in foods.

For "Waterless" cooking, recognized as one of the best methods to retain vitamins and minerals, use only sufficient water to cover well the bottom of a covered vessel. Turn Gas on full until steam appears. When steam appears, turn flame to simmer position and cook only until tender no longer. Serve vegetables immediately, as overcooking impairs flavor, texture and destroys vitamins. Drain liquid taken from

vegetables to use as saucers, vegetable cocktails, gravies and soups; they contain flavor and valuable food elements.

Other ways to economize in cooking:

1. Make sure that all burners on your Gas range are operating at their top efficiency. Keep burners clean. No prodding is necessary. Gas produces maximum heat instantly.
2. Turn on a top burner ONLY when ready to place a utensil over it to start food cooking; do not turn on a burner, then walk across the kitchen to get a skillet.
3. DO NOT boil two quarts of water when you need only a pint or a cupful. Heat only what is needed at the moment.
4. If your range has one giant burner, use it for large utensils of food and once boiling begins, turn this burner to simmer.
5. Turn off all burners as soon as you have finished using them — and this includes the oven burner when baking is ended and foods taken from the oven.

Gas is vital to war production... DON'T WASTE IT

**Margaret Mengel and
Major Carrington Married
in Candlelight Service**

In a simple candlelight ceremony at the parsonage of the First Congregational Church in Everett, Mass., Margaret Elizabeth Mengel became the bride of Major Thomas Raymond Carrington, Friday, Aug. 25. The candlelight service was performed by Dr. Wm. H. Smith. The bride wore an afternoon dress of brown and cream wool with flowers in her hair. Her corsage was of orchids. Her only attendant was a close friend, Mrs. Richard E. Long of Everett, Mass., who wore an aqua wool dress and a corsage of pink roses and sweet peas.

Major Carrington's best man was a friend of the family, George V. Kropf of Lexington, Mass.

A reception was held for 125 guests at the Terrace Room of the Scenic Hotel in Boston.

The young couple came by train to Northville and are visiting his parents on West Main street. At the conclusion of their leave, Major and Mrs. Carrington will leave for Chicago, Ill., where they will make their home while the groom is stationed there.

Major Carrington is a graduate of the Fisher Business College and was employed as the Massachusetts Institute of Technology. Major Carrington graduated from Northville High in 1938 and attended Michigan State Normal College and the University of Michigan, studying business administration. In June of 1941, he enlisted as an air cadet and at the conclusion of his training was sent overseas, where he spent twenty months in India, Africa and France.

Mrs. Carrington is the daughter of Mrs. Katherine Mengel of Everett, Mass., and the Major is the son of Mr. and Mrs. T. R. Carrington of West Main street.

Calendar

Somewhere in England I am finally situated long enough to start my correspondence again. Have missed the Record since I have arrived and hope you will kindly send it to my present address. It is certainly appreciated over here as is all news from home. We are very busy here in our hospital. The patients are wonderful and never complain about their condition. The weather is cold here, especially at night. Wish we could share a little of the heat from the States. Thank you again for the record and I do hope that you will continue forwarding it.

Sincerely,
 Lt. Dorothy M. Heaton, ANC

Bursts of glorious color will
 light the sky over Edgewater

Park for three nights during the

coming holiday week end, when

fireworks displays will top off

the gaily proceedings to begin

Saturday, Sept. 3, in celebration

of Labor Day. The spectacular

fire display of whirling

wheels, blazing skyrockets and

gorgeous color and picture forms

will be featured Saturday, Sun-

day, and Monday nights.

As a farewell gesture for the

season, all rides except the roller

coaster, will be only ten

cents every night from Tuesday,

Sept. 5 until Sept. 10.

The Ripley "Believe It or Not"

Freaks will be back from the

Wisconsin State Fair and will

be on display for the balance of

the season. In addition the 22

thrill rides, featuring the roller

coaster, rocket ships, loop-o-

plane, etc. will provide thrills

and amusement for the many

fun-seekers. The free picnic

grounds, with free gas for those

who wish to cook will prove

most interesting to those who

wish to bring the family and

make a day of it. A special

"Kiddie-land" with all rides

built to the proportions of the

youngest generation has a definite appeal for all youngsters.
