

NEWS of MEN AND WOMEN IN UNIFORM

The three servicemen pictured are West Point Park soldiers. They are Lt. John C. Coe, Cryptographic Technician, which means that I will have at least eleven weeks more training here.

Lt. John Costello is the son of Mr. and Mrs. Michael Costello of Merriman Road, Johnnie's home. He graduated from the Northville High School with the class of 1941. He entered service in January, 1942, and received his wings in June, 1944, at Tampa, Florida, and was married in August, 1944, to a southern girl, Mrs. Frank Defino when I was home, because we both wanted to get in the Navy and he was lucky. They should turn this camp here over to the Navy, because it rains so much that we practically have to swim to chow.

Well, I must quit now, because I have to leave before I am put on detail. So long for now.

Sincerely,
Dick Portfield

A letter from Lt. Philip Baldwin to sisters, Mrs. R. M. Atchison follows:

Just a note today. Things here are much the same. We have been pretty busy as the boys can tell you. Do you know any of the boys are in P-29s from Northville? If they are there are no doubt around here some place I would like to see them. They landed on Okinawa yesterday and that will mean a lot to the air war to be carried on against the homeland. We have been pounding them almost every other day, but there are so few of us compared to the number of planes that they have in Europe, or perhaps we can throw the whole weight against them, and then watch the fun.

Things here roll along pretty much the same. We haven't had an air raid for over two months and I doubt if we have very many more. We stopped in at two the other day. Got shot up pretty bad and decided not to try to make it back here. That place is really rough up there. I am sure glad that we didn't have to stay there very long. I hope that I will be home by Thanksgiving, perhaps a couple weeks sooner. Our squadron has suffered the most losses of any over here, but I hope that condition doesn't keep up. There is only a few of our original bunch left (seven out of sixteen), but the outlook seems pretty bright.

In the above picture are Dr. Eugene B. Elliott, state superintendent of public instruction in the Sixth War Loan drive, Frank N. Isbey, state war finance chairman; Governor Kelly and schools last week were awarded this special flag by the United States Treasury department. The ceremony took place at Lansing in the presence of Governor Harry F. Kelly.

The special award flag was hoisted over the Capitol to signify the opening of the Seventh War Loan Drive in Michigan schools. The schools have ac-

cepted a quota of \$50,000,000 during the current drive. More than 1,000,000 school children will participate. Michigan schools were the first to participate in war bond drives, and according to Mr. Isbey they are led only by the industrial organizations where payroll deductions are in effect. In the last war loan drive Michigan children sold over one million separate bonds.

Northville Girl Wins Spelling Bee

Alice Woodruff, daughter of Dr. and Mrs. Charles Woodruff, Wm. Distric

Spelling Bee

Alice Woodruff brought honor to the Northville schools Thursday, April 20, by winning the District Spelling Bee held at school. At present she is a

student at the thirteen year old daughter of Dr. and Mrs. Charles Woodruff of Beck road and an eighth grade stu-

dent. The money realized from paper salvage goes into a special fund for some needed article

now. More

than half have \$60.00 in this funder.

It is estimated that 500,000,000

pounds of used kitchen fat are

wasted annually in Amer-

ica. Every pound of this

kitchen fat is needed today

by the industry, according to War Es-

tate. So save it, eat

it back to your meat dealer, re-

use it for a sandwich, or

make it into soap.

Alice spelled correctly, thereby

winning the district spelling bee.

The Metropolitan bee will be

held May 11 at the WWI audi-

torium, and will be broadcasted.

Alice will compete as winner

for this district which includes

Plymouth, Arlene, and Washita-

nean towns.

Marilyn Kisse, eleven year old

daughter of Mr. and Mrs. Thomas Kisse of Sunset avenue,

was the other Northville contest-

ant at the District Bee. Marilyn

was one of fourteen remaining

students standing when she went

down on the word "defendants."

I think I shall close for now,

but do I shall thank you again for the Record and your

staff for their fine work in writing it for us.

Sincerely yours,

Wilbur Late, S. F. 3/c.

I thought it about time I dropped you a few lines to thank you good people for making it possible that we might receive the Record. Have been receiving the paper very regularly, and it sure seems great to hear what is going on back in Northville.

Well can't think of much to write about as news is pretty scarce. Once again I want to thank you for the Record. Keep them coming.

Sincerely,

Pat Mahoney.

Aviation Student George T. Hunter, son of Mrs. Lydia M. Hunter, 364 S. Wing street became a Second Lieutenant in the Army Air Force April 13 after completing bombardier training at the Carlsbad (New Mexico) Army Air Field, the world's largest bombardier school. Second Lieutenant Hunter is now one of the most highly trained men in the Army Air Forces. At Carlsbad he received instruction in dead reckoning navigation as well as the stand and bombardier course. As an officer in the Army Air Forces ready for active duty his destination is not disclosed.

Dear Record:

Just a few lines to say "Hello" to all of my Northville friends and to thank you for sending the Record to me each week. It is really swell being able to read what is happening to all of you in Northville. I hope

According to the announcement of C. Harold Bloom, treasurer and chairman of the Northville Red Cross Drive, the community has oversubscribed its quota for the drive by about 30%. The quota assigned the village and township was \$390,000. Total receipts and credits remitted at the close of the books here showed \$461,430 received. Cash subscriptions in the community totaled \$365,330. Credits on the drive quota from the Ford Plant, Detroit, Michigan, Bell and Jr. Red Cross, totalled \$161,00, making a grand total credited to the community in the 1945 Red Cross War Drive of \$481,430.

The chairman and the local Red Cross workers, want to thank everyone for the splendid response to this worthy cause. To the workers and helpers throughout the township, the chairman and officers wish to express their thanks and appreciation for the splendid work and a great job well done. Northville never fails a worthy cause.

Five Tons of Used Clothing Ready to Ship

Community Collection Meets Wonderful Response in Homes, Salem, Waterford Help Greatly

The Northville used clothing sponsored throughout the village by the two Northville Service clubs brought in approximately 5 tons of clothing, which added to the contributions the late comers are still leaving at the Allen and Locke Sales room, which indicate approximately 6 tons for the united efforts of the community.

Following a publicity campaign two trucks covered the village and the gathering points Saturday afternoon. Each truck was manned by a driver and four men who knocked at every door and brought the clothing into the sorting and shipping room at the Allen and Locke garage. A crew of nearly twenty men waded into the piles of clothing, sorting, tying, packing and labeling the cartons for shipment. The gathering crews completed their pick-up, but the crews at the sorting point worked late Saturday night and part of Sunday completing their job.

Maj. Gen. A. C. McAuliffe pins Silver Star on Northville Soldier.

Decorated for Gallantry

Pfc. Herbert H. Brown Receives Silver Star from Major General McAuliffe

From the 103rd Division of the Seventh Army in Germany comes this picture of Pfc. Her-

belt H. Brown of Northville, decorated with the Silver Star for Gallantry in action by Major General Anthony C. McAuliffe, commanding officer of the 103rd Infantry Division. Brown is a medical aid man, brave, direct enemy fire or himself to move forward during an attack, and render first aid to wounded soldiers.

Another report received recently from the 103rd in France stated "German snipers tried to break this American medic's nerve but failed. When two soldiers of his company of the 419th Infantry Regiment were wounded, med. Pfc. Herbert H. Brown, of Northville, ran out to give them aid in the pitch of woods where they lay. As he knelt to tend them, German snipers started firing at the ground around him. They were not trying to hit him, it seemed, but were trying to scare him off. With g. m. to g. Brown stayed at the side of the men until he was called back to another task."

In the February 10 issue of the Northville Record a story was told of Pfc. Brown winning the Bronze Star for saving the lives of at least five men at St. Mile road and Perry Kenner, S. F. 2/c, of Northville. Both have been reported missing in action.

Staff-Sergeant Wilbert Grimm is the son of Mrs. John Grimm of Farmington and Mrs. John Grimm, formerly of Fair Brook road, now of Walled Lake, Michigan. He was born and raised on West Seven Mile road and attended the Northville High school, graduating in the class of 1932. He and Dolores Brown of Ply-

mouth were married in November, 1942, took his basic training at Camp Claiborne, La., and sailed for overseas duty in October, 1944.

This week's Record lists two more locally known boys who are war casualties. Staff Sergeant Wilbert Grimm of Seven Mile road and Perry Kenner, S. F. 2/c, of Northville. Both have been reported missing in action.

Gravel-Pits Destroy Beauties of the Landscape

Owner of Homes: Did you know the beautiful landscape of Northville and environs with its picturesque hills, dales, streams and its springs with the purest water anywhere else in the world is gradually and permanently being changed into ugly, repulsive, ugly and yawning gravel-pits containing holes a hundred feet deep and great and hideous piles of dirt standing up like mountains?

Indeed the beautiful hills and glens of this part of the Metropolitan District in Wayne County, in and about Northville, are so rich in gravel beds that they are and will be subject to greedy and commercial exploitation that will be a permanent and reckless ruination of the natural landscape that God gave us by the avaricious operation of said gravel-pits, unless that growing menace is put under some regulation by law, requiring the consent of any adjoining owner and say, 15% of all other land and home owners two miles from the proposed pit to open same, or to continue operation of one already opened.

No one wants to live next to a gravel pit nor does he want a gravel pit to locate next to him after he has built his home. There is nothing to stop pit operations now; there should be some protection from such a menace future and present home owners with an aesthetic impulse should and ought to have an assurance against such a very possible menace.

Every one knows that adjoining and near by land values have melted away wherever there is or is likely to be a gravel-pit in a district for homes in the hills. Northville land is valuable because of its scenic hills, to down its hills and scenic beauty and you have nothing left.

INVISIBLE SABOTAGE Production of highly sensitive instruments for war can be halted by air-borne particles 100 times smaller than the naked eye can see. Some products are ruined by only a slight contamination of the atmosphere. Air that is fit to breathe may not be clean enough for certain manufacturing processes. These tiny particles cannot be removed by ordinary mechanical filters. But cleaning the air by electronic precipitation traps particles as small as one 250,000th of an inch, and even removes tobacco smoke and oil mist. The process is now limited to use in vital war installations, but will be available after the war to hospitals, radio stations, offices, stores, restaurants, and in homes as well.

revenue commissioner and Charles A. Parrish, chief of the liquor, then the monopoly system, is the commission enforcement division, more desirable.

Whether the reversal is permanent or temporary remains to be seen. Michigan travelers who visit New York City and Chicago in wartime years, invariably return home with glowing accounts of the abundance of liquor in those cities. But for the most part, they say little, if anything, about how much consumers were paying for liquor in those cities.

It was the Lock-Parrish report that emphasized such facts as Michigan's bottle prices average 67 cents less than Illinois' bottle prices, 70 cents less than New York prices. Michigan is a monopoly state whereby government functions as both wholesaler and retailer; Illinois and New York are open states whereby private dealers pocket the profit.

Even with the wartime 10 per cent increase in liquor prices as proposed by the state legislature, Michigan bottle prices in open states, reports Chairman Aaron.

"Basically, Michigan's system is sound. Our problem is one of control, rather than of revenue. The public must rely upon law enforcement by local governments which receive 85 per cent of the liquor license fee revenue just for that specific purpose. We have nothing to hide under the rug, and we welcome the public's cooperation."

Aaron indicated that the state commission had a responsibility in imposing stiffer penalties on law offenders whose licenses are subject to revocation.

The special survey report written by Lock contains a wealth of comparative information about how liquor is handled in the open states of New York, New Jersey, Illinois and Indiana and in the monopoly states of Pennsylvania and Ohio. Listen to Lock as he reports:

"I undertook this survey without bias as to any particular system of control and I returned with two convictions: (1) If the primary motive is to make a larger supply of liquor available to the public more conveniently, then the open system is preferable, and (2) If control and reg-

"Either system can be policed satisfactorily; however, it has been true in certain areas in open states that individuals of very undesirable background have practically taken over the wholesale liquor business and when this has been true frequently serious repercussions have followed."

"Under present conditions with the existing shortage, which is definitely a very real one, and one which will continue to be progressively worse before any material change for the better can be expected, it would seem very dangerous for any state to seriously consider a change either from the monopoly to the open system or from the open to the monopoly plan. It is impossible in a few paragraphs to cover the many aspects of this many-sided question. In brief, however, it may be stated that in the open states greater supplies to a minor degree are available at greater convenience to the public in more attractive retail establishments."

I'm worth more to my
boss now that he's installed a
SCHULTZ Electric Milk Cooler

Because Schultz Electric Coolers
quickly cool my milk—and keep it
cool—they have my business the full
year round. I have worked hard
to produce Schultz Coolers also help
facilitate growth and make my milk
more valuable.

The Schultz principle is that of floating
ice and top cooling without the
need of a circulating pump or any
motor. It is automatically
adjusted to fit on the smooth inside
surface of the cabinet walls. This
allows the ice to release and float on

top of the water where it is needed.
Schultz coolers effectively reduce
labor costs; keep the nights with
ice down to 40 minutes. You
wouldn't sell me a Schultz Cooler for
\$1,000.00 if I couldn't get another.

Available in sizes to cool from 2 to 12
cans at one time. Buy the cooler to
fit the job—not the milk house. Can
be very easily installed in the aver-
age milk house. Easy payment plan
can be arranged. See us today for
further facts and prices.

Band Concert Comes May 17

High School Band Now Has 65 Players Who Will Make Public Presentation in Coming Program.

Parents and friends of the members of the Northville School and Community Band will be pleased to learn that this rather unusual program has been planned for the general public Thursday evening, May 17, in the High school gymnasium.

According to Leslie G. Lee, director, the band now has a membership of sixty-five players and a fairly complete instrumentation. The technical skill of many of the players has reached a degree of proficiency which enables the band to play a higher grade of music than usual. With those points in mind, a program consisting of world famous compositions has been selected.

Mr. Lee and the members of the band fully realize that these selections will not be perfectly played, but they believe that real progress is made only when a worthwhile goal is set up toward which the players may strive.

The program will consist of the following selections: Symphony in B Minor (unfinished) by Schubert; March Slave by Tchaikovsky; Ardante Gantabile from Symphony No. 5 by Tchaikovsky; Hungarian Dan-

ces 5 and 6 arranged by Brahms; Prints' Favorites arranged by Grote and Light Cavalry Overture by von Suppe.

Collect Tin Cans Monday, May 14.

It's a simple enough task to save tin cans to prepare them and see that they're picked up—but it amounts to a tremendous job well done when considering the use to which those tin cans are put.

The tin cans you clean and process so quickly will go out and fight—when they'll feed our men overseas—and save their lives—and send them ammunition.

Salvaged tin cans are the only solution to the extreme shortage of that precious metal, tin.

The Northville High school baseball team lost their first game of the season, with Farmington, in the latter field, last Friday. The score was 5 to 1.

Farmington's runs were un-

earned, being scored on three scattered hits and 5 errors.

Northville's lone tally came in the seventh on a triple by Cole Hansor.

Northville pulled a rare play

in the game, a triple out on the same play.

The line-up included: —Sor-

jan, c. Hardisty, p; German,

1st b. Croll, 2 b; Farrell, 3 b;

Col. ss; P. Graham, lf; Hansor,

c. C. Graham, rt; Rutenbar substituted for C. Graham in left field.

Today's game will be played

with Clarenceville on the local ball diamond.

South Lyon Soldier Dies in Germany

Again, the horrors of war has

taken a former "schoolboy" of South Lyon, son of a former Presbyterian minister of this town.

S/Sgt. Hackenberg, the eldest

of four sons was 23 years of age

and had been in the service for four

years this month. He trained at Fort Sheridan and was sent to

the Aleutian Islands where he

did his nursing work for 21

months. Returning last September, he was reclassified at Camp

Hawley, Texas, for further training, and went overseas between

Christmas and New Years. He

was with the First Army in Belgium, and later was with the

Ninth Army, being among the

first to reach the Rhine. He re-

cently received a citation and

was awarded the Combat "D"

Decor.

Ted has three brothers all in

the service: Leo in Germany,

Royal in the South Pacific, and

Robert in England. The latter

has completed his 50 flying mis-

sions. Besides the brothers he is

survived by his parents and one

sister, Muriel, a trained nurse

now living in Addison, Michigan.

Ted had many friends in

South Lyon, Sycamore, and Northville. He died somewhere in

Germany on April 5, 1945.

At the close of the meeting a social hour was enjoyed and light refreshments were served.

Ted said, "I heard fish is good brain food."

Ted: "Why, I just eat lots and loads of fish."

Ted: "Well, there's another good theory shot to pieces."
