Samuel K. Johnson, USNRP
is the son of Mr. and Mrs. S. K. Johnson of Orchard Drive, Northville. He was born in Detroit fifteen years ago and has been coming to Northville since 1936. He graduated from Northville High School with the class of 1943. In February of 1943 he joined the U.S. Army, entering service in July, 1943. He was sent to Alma College. Later he was sent to Midshipman's school at the University of Minnesota where he is now stationed.

George Nelson S 2/c was employed at the Twin Pines Farm Dairy for eight years previous to entering the service in May, 1944. He is married and has two children. He received his training at the Great Lakes Naval Training Station and went overseas in July 1944. He served in the Pacific on an Escort Carrier which was in two typhoons, the second of which damaged the ship and it returned to the states for repairs.

S 2/c Nelson was home on a twenty day leave. At present he is in the Air division on the deck. He assists the painter on the ship.

Mr. and Mrs. Ernest Ash Sr. of Seven Mile Road received the Purple Heart May 9, sent to them by their son, Pvt. Ash Jr. who was wounded March 25 in Germany. Ernest sent a letter also in which he stated he was wounded at the Remagen bridge-head. His outfit had just crossed a main highway and was taking coal mines. He and another man were sent up on a big coal pile to see where Jerry was and a sniper whom they missed in the mine got him in the neck as they were returning to report.

Pvt. Ash also said "When I went to see my son one night she wasn't home as she had given a pint of blood to the Red Cross that day. I was thinking maybe it was her blood that saved my life. Without the blood they gave me I wouldn't be writing this letter today."

Evelyn Ambler of Plymouth serves her grandfather, Mr. and Mrs. N. Grant Currie of Northville, who has returned from service outside the continental United States and is now being processed through the Army Ground and Service Forces Redistribution Station in Miami Beach, where his next assignment will be determined. Sgt. Currie served 25 months as radio operator in the South Pacific theater.

Robert Powers of east Cady Street left May 7 for service in the Merchant Marines and is now stationed at Saipan, I.O., N.Y. Bob was employed at the Maybury San previous to enlisting in the Marine Service. His wife, the former Wilma Rutherford, and their two children, Robbie and Lynn Anne, are continuing their residence in the Cady street home.

A letter dated April 21 and written by Lt. (jg.) Richard Powers to his parents, Mr. and Mrs. Carl Bryan, contains many interesting descriptions of life in the Philippines Islands. He writes "We put in" — which means completely under military occupation. It was then a sheet of gray, slimy mud; it wasn't the next spot home" for uncommon to sink into it about four feet when walking. The town was alive with Army jeeps and trucks etc., all churning it up. Another total "W" day? But that's the story as you know well imagine. No water could be found in the town. I asked an Army woman in Germany, after much hand-holding, for a drink of water. She endorsed the letter. I am now getting some water. I would like some of it."

An American Service League found me in a state of desperation, where I thank all the gracious ladies who endorsed the letter. I am now getting some water. I would like some of it."

The people in the States could have experiences like that more than once. The former parents, Mr. and Mrs. Cecil Thompson, of Baseline Road, Wayne, are staying at Tyndall Field, Fla. Their son, John, is serving in the Army Air Forces. The former parents, Mr. and Mrs. Carl Bryan, contain many interesting descriptions of life in the Philippines Islands. He writes "Well it's 'W' day for this theater, but it was a mild celebration for most of us, and naturally so when we have to think of gray, slimy mud; it wasn't the next spot home" for uncommon to sink into it about four feet when walking. The town was alive with Army jeeps and trucks etc., all churning it up. Another total "W" day? But that's the story as you know well imagine. No water could be found in the town. I asked an Army woman in Germany, after much hand-holding, for a drink of water. She endorsed the letter. I am now getting some water. I would like some of it."

Corp. Byron Bates arrived in the states recently and is spending his furlough at the home of Mr. and Mrs. Archie Niles of Cady Street. He arrived in town but I've seen just enough of it to a week ago Wednesday and will know they are not trying to pull it off. Corp. Bates lived in Northville for six years previous to entering the service. He has been overseas three years. One year, phone, these guys are giving a hundred per cent and a half in Panama and one more. And all they ask for is a letter from home, and a lot of them don't even get that."

S 1/c Robert Runk, son of Mr. and Mrs. Norbert Runk of Meadowbrook Golf Course, was home for his second leave in the past three weeks, leaving Northville May 18 after spending seven days here. He served overseas one year.

With the Third Infantry Division of the Seventh Army in Germany — Tec. 4 William H. Asher, son of Mrs. Mary Asher, 502 Grace has recently been promoted from T-3 to his present grade while serving with the 3rd Infantry Division in Germany. He has been overseas 12 months and wears the Combat Infantryman's Badge, and three campaign stars on his ETO ribbon. The local soldier's division now fighting deep in Germany is adding to the success and glory which has been a heritage of the Third Infantry Division.

With the 187th Engr. Aviation BN in Manila — Cpl. Douglas C. Bolton, son of Mr. and Mrs. Cass Bolton of 240 South Wing street is doing reconstruction work in Manila with the 187th Engineer Aviation Battalion. He is a driver of four ton dump truck for his organization. His duties are to haul gravel for roads supplies when it is deemed nec-

War Loan Drive Nears 30% of Local Quota

About \$100,000 of Quota of \$340,000 Has Already Been Subscribed in Community

Throughout the community less than 30% of the Northville quota of the 5th War Loan has been subscribed with a quota of \$340,000 maturity value, to date approximately \$100,000 has been caught. This school is hitting the ball well and is ahead of the community quota by about 20%.

Since the Depositor's State Bank Wednesday morning total sales were slightly over \$100,000 with sales promised throughout the day makes the total up approximately \$100,000 to date. It is of interest to note the record being made by the Depositor's State Bank as compared with other out-of-county banks in the competitive sales of the 5th War Loan. Week before last the Northville bank led all county banks in percentage of their war loan sold. Last week the local bank was 10th in the group with \$33,900 and only one other bank in the area equaling or bettering the local bank's record. The first bank geographically in the group having only sold \$12,717 respectively. This is one of the local banks personnel to justify proud.

King's Daughters Plan for 50th Anniversary

Will Celebrate Founding of Mizpah Circle in May of 1895

Northville King's Daughters are planning the fifth anniversary of the founding of the Mizpah Circle in this village. A program will be held in the Methodist church at 10:30 o'clock on Thursday, May 31. It is not known exactly what the services will consist of, but there will be a choral group, members of the local circle, state officers and local Junior King's Daughters. Life members will be granted to those members who have belonged to the order for thirty-five years.

Northville ladies, who were among the original ten charter members of the Mizpah Frey family, Mrs. Martin Cook, Mrs. C. C. Verker and Mrs. E. H. Lehman.

The local branch of the King's Daughters was organized in Northville in May, 1895, by the late Mrs. Chas. Johnson.

Other activities may be given to Mrs. Roy Richardson and Mrs. E. B. Miller.

Miller is this year's leader of

Mizpah Circle.

Most of the selections to be used were prepared for the Spring Choral festival and include some of the world's finest choral music.

Marijane McReege, a senior

will present two soprano solos,

"Wehnacht" by Brahms and

"Summertime" from "Porgy and Bess" by Gershwin.

As usual at the school con-

certs no admission is charged; a

collection is taken.

They raised
the Flag again
on Corregidor...

Let's raise the money in the
MIGHTY SEVENTH

OUR FLAG flies once again over Corregidor. The cost was great in blood and pain, but our fighting men did not turn back. And on Iwo Jima, four thousand men—more and more—died to take the long step forward to victory. Twenty thousand others suffered wounds. Yes, we're on the way to Tokyo!

At home, your contribution to victory is measured in dollars. The

Seventh War Loan is the biggest in America's history because seven billion dollars must be raised from individuals alone. That means you must buy more and bigger War Bonds.

This is really two great loans in one; for this time last year you had been called upon twice to subscribe in War Loans. As our fighting men raise Old Glory all over the world—let's raise the money back home!

A grateful Nation has girded itself for the Mighty Seventh War Loan for \$14 billions of dollars, half of which has been assigned as the individual sales quota, according to reports from state chairmen reaching the Rev. Mr. Gamble, national director of the War Finance Division of the Treasury in Washington, the nation is ready for the huge task. Mr. Gamble was enthusiastic about the results of the drive, and was prepared to do the best for the 7th War Loan. Mr. Gamble said that

more than ever before in his career, but individual income will be higher in the period of the 7th War Loan than in my previous years, loan period.

Secretary of the Treasury, Henry Morgenthau said seven billions of dollars has been assigned as the quota for individual investors, and that this major emphasis throughout the drive will be placed on the quota for individuals.

The individual quota is the highest established in any of the previous drives, the secretary said.

The E Bond quota alone is 4 billion. The 7th War Loan seeks nearly as much in the one drive as was asked in the first two drives of last year, which were held up to this time. The two drives of this year, therefore, will seek nearly as much as was sought in the three drives of 1944.

The Secretary stated that there is every evidence that Federal expenditures are going to remain at a high level for some time to come, and that the Seventh War Loan program was designed to obtain maximum funds necessary to prosecute the War from non-bank investors. The securities, which will be sold under the direction of the State War Finance Committee, are as follows:

Series E, F and G Savings Bonds, Series C Savings Notes, 2½% Bonds, 2½% Bonds, 1½% Bonds, 1½% Certificates of Indebtedness. The 1½% Bonds will not be offered in the Drive by corporations.

The Drive for individuals will extend from May 14 to June 30. However, an intensification of activities in the sale of Series E bonds began April 9, when millions of persons in payroll savings plans throughout the country were asked to encourage participation as a part of the Seventh War Loan. All Series E, F and G Savings Bonds and Series C Savings Notes processed through the Federal Reserve Banks between April 9 and July 7 will be credited to the Drive.

During the final phase of the Drive which will cover the period from June 18 through June 30, contributions will be received from all other non-bank investors for the 2½% and 2½% marketable bonds and the certificates of indebtedness.

During the final phase of the Drive which will cover the period from June 18 through June 30, contributions will be received from all other non-bank investors for the 2½% and 2½% marketable bonds and the certificates of indebtedness.

Spectacular Fireworks
Memorial Day at
Walled Lake

Oakland County's Popular Recreational Park is staging a sale opening of the Summer picnic and play season with a grand fireworks Spectacular and inspiring Fireworks Exhibition. The government has allocated more chemicals for fireworks than any other year since 1941.

With the European war ended, there is a tendency to celebrate this National Holiday in a big way, and large crowds are expected to patronize their local resorts that are close to home in order to conserve their cars gasoline and tires. Walled Lake is only 12 miles from the Detroit city limits.

To accommodate those who bring their picnic baskets—tents, or outdoor cooking stoves have been added in the picnic groves and bags of charcoal can be purchased in the park office.

Speed Boats will be in operation and will continue to run on weekends until the gasoline allotment is exhausted, but it is hoped that more fuel will be allocated soon so that they can continue operating throughout the summer. All of the Big Thrill Rides, Roller Skating, Boating and Boating will be in readiness.

The two large Bass Ball Diamonds, hundreds of picnic tables, in the well shaded groves, and acres of free parking space will be available for free use of the public.

Serving more than half the people of Michigan

Here's the story which begins in Washington, D. C. When Dr. William DeKleine became national medical director of the American Red Cross at Washington some years ago, he was given a task of combatting a rising curve of pellagra deaths in the South. A serious regional menace, pellagra was due solely to lack of Vitamin B in the diet of some whites and negroes who preferred, by long custom and family tradition, a combination of sowbelly pork, locally known as "white meat," and bread.

Michigan consumption of brewer's yeast, rich in vitamin B, becomes a national phenomenon, don't be too surprised. The health vogue has spread at Lansing to numerous state officials and state legislatures, all with apparent beneficial results. One prominent official formerly plagued by a weak heart, and high blood pressure, insists he can walk up the central stairs at a brisk gait, thanks to downing a teaspoon of brewer's yeast daily for several months.

Results: The American Red Cross purchased brewer's yeast literally by the tons, and distributed it free to low-income dwellers in the sowbelly-corn belt. Pellagra decreased promptly as a regional disease and is now almost at the vanishing point. Perhaps you remember now reading about it in the press and magazines.

In 1944 when Governor Kelly was confronted with the necessity of choosing a new commissioner for the state department of health, he invited Dr. DeKleine, a native of Grand Haven, to accept the position. Public health work was testimony to Dr.

DeKleine. He had served as health officer in Flint and Saginaw and thus knew the health problems of Michigan residents.

For some years the present health commissioner has had private ideas of his own, due

to private observation and studies about the value of living on a "nutritional basis." He calls it "And like many other medical men, fearful lest the public might jump to erroneous conclusions, he had hesitated to publicize them."

Then came World War II, and the astonishing discovery that approximately one-third of all the young men called up for the draft in the United States were unfit for military service, much of which was the result of faulty nutrition. The medical division of Selective Service pointed out that in one state where people ate fairly well, only three men out of ten were rejected for physical deficiencies. In another state where standards of nourishment were very low, the proportion of rejections was seven out of ten.

All of this in a country where a government had paid farmers not to produce corn, wheat and cotton and had even killed pigs.

Under-nourishment in a land that had resorted to an economy of scarcity was obviously an indictment not to be easily set aside.

Hence the advent of the basic seven program of modern nutrition, blessed by the federal government, an enthusiasm pushed by extension divisions of educational institutions like Michigan State College, and generally acknowledged by the medical profession. And here it is of a daily minimum:

Milk—Adults: Two or three cups daily. Children: Three or four cups daily.

Fruits and vegetables—Five servings daily including a green or yellow vegetable and potatoes, tomatoes, citrus or other fresh fruit, or raw cabbage.

Protein foods—Two servings daily selected from products such as lean meat, fish, eggs, cheese, beans, nuts.

Whole grain—One or more servings daily of whole grain cereal such as oat meal, and also whole grain bread. Use enriched flour in place of plain white flour.

Butter or margarine—Two or more pats daily.

Fish-liver oil—One teaspoon for children each day.

Water—Drink six to eight glasses daily.

"Now what has all this got to do with brewer's yeast?" you inquire.

It is the private belief of Dr. DeKleine, and hence not officially preached by the state department of health, that brewer's yeast possesses qualities that are effective in reduction of high blood pressure and in aiding the digestive system.

Brewer's yeast PLUS the above mentioned diet, would greatly improve the health of the average citizen, especially an individual in greater part of age, in the opinion of Dr. DeKlein. The state commissioners hope manufacturers will reduce the price of it, as it is available in powder form and in tablets, to permit its wide use by the public. And incidentally, the name "brewer's yeast" has nothing to do with a brewer's yeast; it has become a standard name for a product generally sold by drug stores everywhere.

Where a optic consumer a high amount of energy foods—milk, meat, cheese, whole grains, butter, fruits and vegetables, the land resources are improved.

Estimate it in these terms: The job of moving millions of men from one front to another. Thousands of ships to carry the supplies of battle. Swarms of new-type aircraft to blast the path into enemy territory.

You will notice that the adult food diet, other than brewer's yeast, does not include the drug-store vitamin pills. Dr. DeKlein believes this is nature's way of building health—a sufficiency of the right kind of food go hand in hand."

HOW MUCH TO MOVE A WAR?

AS SOON as we can, we'll bring to bear

on the Japs all the additional might

we've been using against Germany.

What will it cost, this Moving Day of War?

Estimate it in these terms: The job of moving millions of men from one front to another. Thousands of ships to carry the supplies of battle. Swarms of new-type aircraft to blast the path into enemy territory.

You can get an idea of the cost from the fact that Uncle Sam needs 7 billions from us in the mighty Seventh War Loan—now!

The Seventh War Loan will call for the greatest bond buying we have ever done.

If you have an income—whether from work, land or capital—you have a quota in the 7th War Loan.

Fine Band Concert

Another fine concert was given in the High school gymnasium on Thursday eve, by the High School and Community Bands. Several solo numbers were played and sung, also ensemble. A big turn-out of parents and friends attended the concert; in token to give the usual talk spite of the heavy downpour, the band paid tribute to the seven train.

The World's Wealthiest Woman

Henry Green made millions in Real Estate. She used to

when people want to buy, buy when people want

to sell.

Now is a good time to sell Real Estate that you can get

along without. Many families with enlarged incomes

able to pay more than they could have paid three years hence.

These good people want homes to live in. You're doing

a favor, you're doing yourself a favor. **SELL NOW**
