Just a short note to again thank you for the Northville Record. It has been a swell stand-by all these years. It was like spending a short visit home every time the paper arrived. Now I am being shipped back to the States soon and am being moved around quite a bit. They have asked us to tell all of the people who have been writing to us not to write any more because it makes an awful burden on the postal department to rehandle all that mail.

We are all headed for civilian life when we get to America, the lowest point man has about 50, I have one hundred. There are fellows with more than that amount to their credit, so we should get some action soon. When we leave this camp we will go to some point and from there on it will be just a matter of days until we arrive within sight of that little woman all of us want to see, the little gal with the light.

Thanking you again for having sent the Northville Record to me all the time, I remain,

**He uses a lot of Long Distance**  
There are still thousands of Long Distance calls from service men in the evening. But there's also an increasing number of daytime calls from returning veterans.  
So when you hear the operator say—"Please limit your call to 5 minutes"—there's an extra-good reason for the request. It might be a service man who is waiting to get that Long Distance line.

Tuesday afternoon, was marked by the first appearance of Bobby McVicar, now son of Mrs. Virgil McVicar. The child was presented with a pair of rompers in Sunshine yellow with socks to match. Otherwise, the usual program was carried out. Home-made chocolate cake and cookies were served with tea and coffee. Twelve ladies and twelve children were in attendance. The next meeting of the Sunshine Sisters will be held in the Neighborhood Church Wednesday afternoon, Oct. 1, at 2 o'clock. Special plans are being made for that occasion.  
"Being Missionaries" was the topic under discussion at the Vespers Meeting in the Neighborhood Church Sunday evening at 6:30. A trio of young folks rendered a musical number. A fine meeting was the result. Lack of gas interfered with the usual speakers coming out from the city, but the work was carried on satisfactorily. Next Sunday evening a minister is expected to address the congregation. Adults and young people alike are invited to enjoy the service.  
Mrs. Edward Stromoski of Wayne was a West Point Park visitor the first of the week.

"Full employment for everyone? Sure, I'm for it, and so is everyone else in Michigan," replied the Country Editor. He adjusted the green visor over his eyes and smiled.

"I'm also in favor of having good government and having all the churches pecked every Sunday morning and abolishing war and the atomic bomb. Jobs for all? Of course, I'm for it!"

We had dropped into the newspaper office for one of our occasional chats. The Country Editor had a habit of keeping his finger on the public pulse in his hometown. As the saying goes: he "got around" quite a bit and he did a lot of listening.

"Now I've been reading up about this so-called full employment bill," the Editor continued, pointing to a stack of Congressional Records and government reports. "Senator Vandenberg's first bill in the senate back in May, 1928, was a plan for a 'prosperity reserve' to use the Senator's own words. The government was to plan for useful public works in advance of a possible depression. When a depression threatened, this reserve was to cushion the shock by providing jobs."

"In Michigan the state legislature created a prosperity reserve during the recent World War boom. It impounded millions

of surplus state revenue into a post-war fund for needed public improvements and also for aid of Michigan's returning veterans."

"Now take my own home-town here. We paid off some of our bonded indebtedness, just like many a farmer reduced his mortgage. We planned public improvements to provide jobs."

"Let's see what the bill at Washington calls for. One provision is to 'stimulate, encourage and assist state and local governments, through the exercise of their respective functions, to make their own effective contribution to assuring full employment—to use the official language. Michigan has already done that. So has my own home-town."

"The federal bill goes on to say that 'it is the responsibility of the Federal Government, to foster free-competitive private enterprise and the investment of private capital' and furthermore 'and all Americans able to work and seeking to work are entitled to an opportunity for useful, remunerative, regular and full-time employment'."

"Now that's a mighty constructive idea. Jobs for all. We're for it."

You will note there are no partisan lines to the idea. Michigan's own Tom Dewey went on a campaign talk at San Francisco that the government can and must create job opportunities because there must be jobs for all in this country of ours. There you have it, jobs for all."

"Senator Hatch, Democrat of New Mexico, proposed an amendment which was adopted by the Senate. It proposed that the government's underwriting, of full employment should be 'consistent with the needs and obligations of the Federal Government and other essential considerations of national policy' to quote the senator's own words. Senator Taft, Republican of Ohio, sponsored another amendment, also adopted, which would require the government to finance all this by a program of taxation designed and calculated to prevent any net increase in the national debt."

"Apparently these two senators don't favor perpetual deficit spending, at Washington any more than you or I. Pay-as-you-go is just as sound for the government as it is sound for your family and my family. To do otherwise is to invite disaster."

"What I am wondering about is this: What's the chance of the idea working? The president

would have to estimate the number of jobs needed, estimate the number of jobs industry is likely to provide, and finally estimate the amount of government spending needed to make up the difference. Simple, isn't it?"

"Well, let's look at the actual record of the federal budget at Washington and see how successful the President and the Budget Director have been in their estimates of federal expenditures, revenues and deficits during peacetime fiscal years. You'll recall that Harold Smith, the president budget director at Washington, was formerly state budget director at Lansing and left Michigan in the spring of 1939."

"The average error in budget estimates of federal receipts in seven of the ten years, 1935 to 1941, omitting our war years, was 9 to 10 per cent. The average error in estimates of federal expenditures during these peacetime years was 23 per cent. And remember, exactly 23 per cent of American workers were unemployed in 1933—the same percentage."

"How about the budget's estimates of the annual net deficit? Well, held on tight. The budget's error averaged just 150 per cent in these peacetime years."

"Now, if the above is true and here are the official figures, what I'd like to know is this:

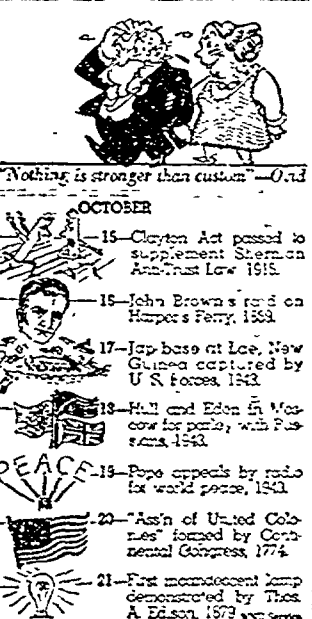

"If the President and the Budget Director cannot estimate accurately what Congress is going to spend, even though the President has a veto power to control spending, how can the government estimate accurately what 48 state governments, thousands of local governments, hundreds of thousands of business firms and 140,000,000 people are going to spend when a lot of them don't know themselves?"

The Country Editor paused. Outside of the office window the autumn foliage was turning to bright gold. It was harvest time in Michigan. There was work to be done.

"That just reminds me," he said. "My wife hopes to finish her canning this afternoon. We like good things to eat. We had our own garden. One way to make sure you're not going to be hungry is to grow food, can food and cook or bake feed yourself. Maybe there's still something to the old saying 'God helps those who help themselves.' I wonder."

And so do we.

Waterproof clothing—thanks to chemicals—will mean new jobs.

Molded furniture—through chemicals. More jobs for workers.

Unsealable shoes—made possible with chemicals. Still more jobs.

Goodbye to mosquitoes—with chemicals. Still more jobs.

## Making Postwar Jobs—Out of Chemicals

WHAT WILL the employment situation be—now that Victory has been won? Will there be enough jobs for returning soldiers, sailors, war workers?

No one can say, exactly. But this we do know: business management, in scores of industries, has long since laid plans for new products, new ventures, new services, that will make jobs by the thousands by creating new demands.

Take the chemical industry. Not only will it continue as one of America's basic job-makers, but from chemical research have come scores of new products that will mean thousands of new jobs in the

future—products many of which were little more than dreams before the war.

Imagine your home rid of moths and mosquitoes. Specially treated clothing that will let you stroll in the rain and stay perfectly dry. Chemically treated pine furniture, hard as ebony, on which scratches and blemishes will not show.

Think of scuffproof shoes. Or shrink-proof woens. Of window screens that won't rot or rust. All these things—and many others—will increase the demand for chemicals—and demand for goods makes jobs.

The chemical industry is only one of

many along the Chesapeake and Ohio, the Nickel Plate, and the Pere Marquette that have planned for postwar employment.

And, now that the war is over, the chemical industry and other industries throughout the country will put into operation their plans for the jobs and opportunities all of us want.

No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.  
**Veterans' Administration**  
Gen. Omar Bradley, new boss of the Veterans' administration succeeding General Hines, has moved with military dispatch in reorganizing the administration to provide better and more efficient service in behalf of the stream of veterans now being discharged from the services.  
One of the most important changes made by General Bradley is a complete decentralization of all veterans facilities under the supervision of 13 branch offices. Obviously routine decisions can be made more promptly and more intelligently in a vast organization such as the Veterans' administration if they are not forced through a bottleneck in Washington.  
Another change, one which had long been a subject for discussion, and oftentimes of criticism, was the medical service. The general now has separated and elevated the medical division to a higher status under command of Maj. Gen. Paul R. Hawley. Under this new arrangement, the new "surgeon general" will report direct to General Bradley.  
The Veterans' administration is combining the government agencies and other channels for help and likely will emerge in the postwar era as one of the largest if not the largest governmental agency, handling as it will the affairs of some 12 million discharged veterans at one time or another. The administration has recently been the object of both congressional and private investigation as to conditions within the organization, conditions at Veterans' hospitals, treatment of patients, the tremendous shortage of physicians and nurses and other help and no doubt, it will be General Bradley's policy to eliminate immediately all situations which led to these investigations.

WHEREAS, all of the public alley 18 feet wide in the rear of Lots 583 to 596, inclusive, and Lots 679 to 692, inclusive, of Grayton No. 2, being a subdivision of part of the section 1/2 of the northeast 1/4 of Section 30, Township 10 North, Range 10 East, Redford Township, Wayne County, Michigan, as recorded in Liber 49 of Plats, Page 90, Wayne County Records; also, all of the public alley 18 feet wide in the rear of Lots 41 and 42; also, all of the public alley 20 feet wide in the rear of Lots 87 to 99, inclusive, and adjacent to the aforesaid Lots 41 and 42 of Supervisor's Schoolcraft Superhighway Subdivision No. 1 of part of Section 30, Township 10 North, Range 10 East, Redford Township, Wayne County, Michigan, as recorded in Liber 64 of Plats, Page 54, Wayne County Records; being in all 0.162 mile of alley, be and the same are hereby abandoned and discontinued as public highways upon the express condition that there be and hereby is reserved an easement in the land now occupied by the public alleys for the installation and maintenance of sewer, water, gas, electric, telephone, and all other public utilities for the use and benefit of the public, and all persons, firms, or corporations owning or operating said public utilities shall have the right to enter upon said easement for the purpose of installing, maintaining or operating any of said public utilities.

BE IT FURTHER RESOLVED, that this Board believes it to be to the best interests of the public that said alleys be abandoned and discontinued should be absolutely abandoned and discontinued as public highways, reserving therein the easement as herein set forth.  
The motion was supported by Commissioner O'Brien, and carried by the following vote: Ayes, Commissioners Brown, Wilson, and O'Brien; Nays, none.

**Questions and Answers**  
Q. I was discharged on February 26, 1943 by reason of "Sec. 11, A.R. 615-360 and CDD." Will you explain the meaning of this. I will soon be 42 years of age. Is there any way I can volunteer for service in the occupational forces?—S. Rogersville, Tenn.  
A. "This means that you were discharged under section 2 of the code governing discharge of veterans and "CDD" means a certificate of medical disability. In other words, you were discharged for a medical disability of some sort. The nature of your disability, should be stated on your discharge. Yes, if you can pass the physical, the army is accepting volunteers for the occupational forces.  
Q. How many points does a father of four children have who has been in service since last October 24 and across since July?—Mrs. K. B. Ulrichsville, Ohio.  
A. The army point rationing system as of September 2 gives 1 point per month for time in service, 1 point per month for time overseas, 12 points for each child under 18 years with a maximum of three, and 5 points for each decoration or battle star. If your husband has no decorations or battle stars, he would have about 51 points. At this time 80 points are necessary for discharge, although the army has announced discharge for 70 points by October 1, 60 points by November 1 and elimination of the point system later in the winter.  
Q. I am writing in regard to a soldier killed in Germany who made his insurance to a lady who raised him. After his death, his own mother came and claims she should get his insurance. Which one is entitled to the insurance?—Mrs. T. G. Water Valley, Miss.  
A. If the soldier named the lady who raised him as beneficiary in his insurance, she is entitled to it and will get it notwithstanding the mother's claims.  
Q. My brother left high school recently to join the navy. Is my mother entitled to an allotment or allowance from the government if he allows the required 55? E. W. Rogersville, Tenn.  
A. Yes, providing your brother listed his mother as a dependent when he enlisted or was inducted into the service.  
Q. If a member of the regular marine corps extends his enlistment while overseas and the extension has one more year before expiration, will he have to remain overseas until the expiration, if he has been overseas 20 months?—Mrs. W. D. West Memphis, Ark.  
A. Not necessarily. The marine corps has set up a rotation for return to this country after 18 months service overseas. Extension of his enlistment would have no bearing upon the time he spent overseas. The chances are this marine will return soon for duty in the states.  
Visitor—I suppose they ask a lot for the rent of this apartment?  
Hostess—Yes, they asked seven times last week.

Generally we don't put much stock in fortune-tellers, palmists and mind-readers, but in recent months we have been gazing into our crystal ball—full of electricity. We see an all-electric home complete with a practically automatic kitchen, a grand time-saving laundry and the newest air-conditioning unit. Some of our friends have electric kitchens and laundries and we know of the many labor-saving advantages they offer. However, we are especially interested in the air-conditioning unit with its pure, conditioned air which bids fair to make ours a cleaner, more healthful home.

Mrs. Garden chose a black dress trimmed in lace and wore a corsage of white carnations. Mrs. Auerbach's dress was powder blue gabardine and her corsage of white roses.

Following the wedding a reception for fifty guests was held at Bonnie Brook Country Club. The bride's traveling suit was navy blue gabardine, and she wore fuchsia accessories.
